## CROWN AGENTS FOR THE COLONIES.

Head Office, 4 Millbank, Westminster, S.W.1, Stock Transfer Office, 1 Tokenhouse Buildings, E. C. 2.,

*Crown Agents for the Colonies*, Sir Henry Charles Miller Lambert, K.C.M.G., C.B., Hugh Cholmondeley Thornton, C.M.G., C.V.O.; Percy Hubert Ezechiel, C.M.G., and Lieut-Col. James Forrest Halkett Carmichael, C.M.G., C.B.E., M.I.C.E., late R.F. (Engineer-in-Chief).

The Crown Agents for the Colonies are appointed by the Secretary of State for the Colonies, and act as commercial and financial agents in England for all Colonial Governments, which do not possess an Agent General. The self-governing colonies cannot avail themselves of the services of the Crown Agents and have established Agents of their own. The Crown Agents are paid by fixed salaries settled by the Secretary of State and derived from moneys paid by the colonies for services rendered. The office is self-supporting. The accounts are audited by the Audit Office and rendered to the Secretary of State.

*Heads and Deputy Heads of Departments.*

*General Department*, N. E. O. Willis (Chief Clerk), H. C. Ransom, O.B.E.

*Finance Department*, C. F. R. H. Urquhart, W. A. Phillips, M.B.E., F. Davis.

## THE MOON'S PHASES.

The Moon's phases (pp. 13-18) are given for 75th Meridian Time as the time adopted in the Island, excluding the Jewish Calendar.

## SUNRISE AND SUNSET.

The local mean time of Sunrise and Sunset (Sun's Upper Limb) for every day in the year, given in the Calendar above, has been computed for the latitude of Kingston and includes the correction for the Equation of Time and for refraction. It is local mean time for every place on the parallel of 18° N.; and to obtain Standard Time of Sunrise and sunset at any place in Jamaica, the longitude of that place (in time) less 5 hrs. must be added to the time given in the calendar. Thus for Kingston, 7 mins. must be added, and for the Morant Point and Negril Point Light Houses, 5 and 14 min. must be, respectively, added to obtain Standard Time of Sunrise and Sunset at these places. A separate Table for Kingston is given on pages 19 and 20.

## MOONRISE AND MOONSET.

Tables for the times of Moonrise and Moonset are given on pages following Sunrise and Sunset.

## EQUATION OF TIME.

The equation of time is a correction which must be applied at noon to *apparent* time, or time obtained from observation of the Sun, in order to obtain local *mean* time.

The last column in each month of the calendar above gives this correction for every day in the year. Care must be taken to add or to subtract the correction according to the precepts.

For instance on Jan. 4th we must add 5 min. to the time shown by a good sundial in order to obtain local mean time; but on Oct. 4th we must subtract 11 min., and so on.

To obtain standard time as adopted in Jamaica (see p. 13) for any place under consideration, the longitude of that place (in time) less 5 hrs. must be added to the local mean time.

## TIDES ON THE COASTS OF JAMAICA.

(Compiled by MAXWELL HALL.)

The rise and fall of the tides round Jamaica do not exceed 16 inches.

From the late Mr. Charlton Thompson's observations in Kingston harbour it appears that there are two kinds of tides on the coasts of Jamaica. The first and more important kind are *diurnal*, giving high and low water once in every 24 hours; they occur when the moon's declination is greater than 9° north or south. The second kind are *semi-diurnal*, giving high and low water twice in every 24 hours; they occur when the moon's declination is 9° or less, north or south.

For the diurnal tides, when the moon's declination is north, the time of high water does not greatly differ from the time of the moon's lower meridian passage; and when the moon's declination is south, the time of high water does not greatly differ from the time of the moon's upper meridian passage.

For the semi-diurnal tides the times of high water do not greatly differ from the time of the moon's upper and lower meridian passage.

In Kingston harbour the range of the diurnal tide is only 8 inches; and the range of the semi-diurnal tide is only 3 inches; but these small ranges are frequently obscured by larger irregular fluctuations in the ocean level which cannot be attributed to the action of the sun or moon. Further particulars will be found in Weather Report, No. 227.

## ECLIPSES IN THE YEAR 1926.

- I. A Total Eclipse of the Sun, January 14th, 1926, G.M.T. Invisible in Jamaica, but visible, chiefly, along the Indian Ocean.
- II. An Annular Eclipse of the Sun, July 9-10 1926, G.M.T., but visible, chiefly in the North Pacific Ocean. Invisible in Jamaica.

## LATITUDE AND LONGITUDE OF KINGSTON.

During the years 1875 and 1876 the latitude and longitude of Kingston were determined by Commander F. M. Green, U.S.N., with great accuracy.

The station at Kingston was 12 feet west of the centre of the pedestal on which the statue of Lord Rodney was then mounted, and on which the statue of Sir Charles Metcalfe now stands, at the lower end of King Street, near the market-place and overlooking the harbour.

A tablet was inserted in 1893 by the Institute of Jamaica in the north side of the pedestal which states that the above-mentioned longitude refers to a point 12 feet west of the centre of the pedestal.

The latitude of this station was obtained from 43 observations of pairs of stars, by means of an instrument suited for the purpose. It was a combination of a transit-instrument and a zenith-sector. The latitude thus found was 17° 57' 41.0" N.

The longitude of this station was determined by telegraphic signals between Greenwich and Washington, Washington and Key West, and so on, to Havana, Santiago de Cuba and Kingston; the latter three sections forming part of the work conducted by Commander Green, U.S.N. The longitude thus found was in arc 76° 47' 39.8" west of Greenwich; or in time 5 hr. 7m 10.65 sec.

## STANDARD TIME.

By notice in the Gazette, January 18, 1912, the Governor approved of the adoption of Standard Time in Jamaica, namely Mean Time on 75th meridian west of Greenwich—the time of New York and Washington, and known in the United States as "Eastern Time." On 1st February, accordingly, the chronometer of the Jamaica Time Service was put forward 7 minutes 11 seconds, and all Railway and other Government clocks were similarly regulated.

Standard time, correct within a few seconds, is supplied to the Post Office and as often as may be required to other Government Offices in Kingston.

## THE MAGNETIC DECLINATION.

*(Or Variation of the Magnetic Needle in Kingston.)*

About the year 1890 the variation was decreasing rapidly; then it was found in 1895 that the rate was diminishing; and further observations in 1906 render it necessary to readjust the former table.

## PART III.

### DESCRIPTION OF JAMAICA \*

THE island of Jamaica is situated between 17° 43' and 18° 32' N lat., and 76° 11' and 78° 20' 50" W. long., about 4,120 miles to the south-west of England, 100 miles west of St., Domingo and 90 miles south of Cuba, 445 miles north of Carthagea and 540 miles from Colon.

Jamaica is bounded on the north and east by that part of the Caribbean sea which separates the islands of Cuba and Hispaniola from Jamaica and which at its north-eastern part is called the Windward Passage, the waters of which mingle with those of the Atlantic Ocean. On the south and west Jamaica is washed by the Caribbean sea.

The islands of Grand and Little Cayman, with Cayman Brac, are situated the first about 170 miles and the second about 130 miles and the third about 120 north-west of Negril Point. The Pedro Bank and Cays commence about 40 miles south of Portland Point and extend westerly for 100 miles; this bank is about three-fourths of the size of Jamaica. The Morant Cays are 32 miles from Morant Point in a south-easterly direction. These several islands and cays, together with the Turks and Caicos islands, are all dependencies of the Island of Jamaica.

The nearest part of the continent of America to Jamaica is Cape Gracias a Dios, in the Mosquito Territory, which is 310 miles south-west of the west-end of Jamaica.

From its central situation as regards the other West Indian islands and the fact of its being in the direct track between Europe, and the United States and the Isthmus of Panama, Jamaica furnishes special advantages and conveniences for trade and commerce between these points.

The aboriginal Arawak name of Jamaica, *Xaymaca*, which it has retained till to-day, is supposed to imply an overflowing abundance of rivers.

The extreme length of Jamaica is 144 miles, its greatest width is 49 miles and its least width (from Kingston to Annotto Bay) 21½ miles. The island is divided into three counties and fourteen parishes, namely:—

SURREY.		MIDDLESEX.		CORNWALL.	
	Square Miles.		Square Miles.		Square Miles.

		Manchester ..	337	Westmoreland ..	320
Total	827½	Total ..	2,060	Total ..	1,563

giving a total of 4,450½ square miles, equal to 2,848,160 acres, of which only about 646 square miles, or 413,440 acres, are flat, consisting of alluvium, marl and swamps

#### GENERAL GEOLOGICAL FORMATION.

The foundation or basis of the island is composed of igneous rocks, overlaying which are several distinct formations.

#### COUNTY OF SURREY.

The coast formation is of white and yellow limestone: the interior consists chiefly of the metamorphosed and trappean series, with carbonaceous shales and conglomerate. The greater part of this county is very mountainous; the only flats are the plain of Liguanea (north of Kingston) and the valleys of the Morant and Plantain Garden rivers, and smaller flats at and near the mouths of the other chief rivers. Mineral deposits are numerous in the mountain districts. Iron, copper, lead, manganese and cobalt have been found and worked to some extent, but no profitable industry has been the result. Marble of good quality has also been found at the head of the Blue Mountain Valley.

The only volcanic formation in the island is that at Lowlayton and Retreat estates in the parish of Portland, a mile from the sea; there is, however, no defined crater, and the volcanic materials are the only evidence remaining.

\* The description was originally written by Thomas Harrison, a former Surveyor-General.

## COUNTY OF MIDDLESEX.

The parish of St. Mary exhibits a great diversity of formation, consisting of white and yellow limestone, carbonaceous shales, metamorphosed, porphyritic, granite and conglomerate rocks, with many mineral-bearing rocks. The district of St. Thomas-in-the-Vale is of granitic formation, overlaid considerably by cretaceous and white limestone and marl beds.

St. Catherine possesses an extensive alluvial flat stretching from Kingston harbour to the boundary of Clarendon; the rest of the parish is of white limestone.

In Upper Clarendon the metamorphosed trappean and conglomerate series prevail; the central districts are of white limestone, and the southern part, with the district of Vere, is alluvium, and embraces an area of about 132 square miles, which is the largest continuous flat in the island. The mineral deposits of upper Clarendon are considerable, and, it is believed offer a fair field for mining enterprise.

The parishes of Manchester and St. Ann consist almost entirely of white limestone.

## COUNTY OF CORNWALL.

The parish of St. Elizabeth has an extensive area of alluvium from the boundary of Manchester to the boundary of Westmoreland, narrowing so considerably at Lacovia that the north and south limestones nearly meet; much of this flat is covered by swamp.

In the north-east of the parish there is also an extensive flat called the Nassau valley. The rest of the parish is white limestone with some patches of yellow limestone.

The parish of Westmoreland also presents extensive alluvial deposits and marl beds. The north-western part of the parish furnishes trappean rocks with yellow and cretaceous limestone. The eastern part is chiefly white limestone with some trap formations at the head of the Great River.

In Trelawny the district called "The Black Grounds" consists of trap formation. The rest of the parish is of white limestone with some alluvial valleys; that called "The Queen of Spain's Valley," on the borders of and extending into the parish of St. James, is remarkable for its picturesque beauty and great fertility. The interior of St. James presents a trappean formation, with some overlaying yellow and cretaceous limestones.

The rest is of white limestone with some alluvial deposits round the coast.

The eastern part of Hanover is chiefly white limestone, and the western part black shale, with some metamorphosed rocks and yellow limestone.\*

## MOUNTAIN RANGES.

The surface of the island is extremely mountainous and attains considerable altitudes, particularly in the eastern part where the central range is known as the Blue Mountains.

The following table will give a general idea of the area in square miles embraced in the different zones of elevation, above sea level, in the several parishes:—

PARISHES.	Area below 1,000 ft.	1,000 ft. to 2,000 ft.	2,000 ft. to 3,000 ft.	3,000 ft. to 4,000 ft.	4,000 ft. to 5,000 ft.	5,000 ft. and upwards.	Total areas in sq. Miles.

Totals ..	2,283 $\frac{1}{2}$	1,520 $\frac{1}{2}$	458	89	55	39	4,450 $\frac{1}{2}$

From the above table it will be observed that a great diversity of climate is obtainable.

\*For a more complete account of the geology of the island see Sawkin's "Geology of Jamaica," Hill's "Geology and Physical Geography of Jamaica," and "Some Recent Contributions to the Geology of Jamaica" by C. A. Matley, in the "Handbook of Jamaica" for 1923.

From a tropical temperature of  $80^{\circ}$  to  $86^{\circ}$  at the sea coast the thermometer falls to  $45^{\circ}$  and  $50^{\circ}$  on the tops of the highest mountains, and with a dryness of atmosphere that renders the climate of the mountains of Jamaica particularly delightful and suitable to the most delicate constitution.

The midland parts of the island are the highest. Through the county of Surrey, and partly through Middlesex, there runs the great central chain which trends generally in an east and west direction, the highest part of which is the Blue Mountain Peak attaining an elevation of 7,360 feet.

From this range subordinate ridges or spurs run northerly to the northside of the island and southerly to the southside; these ridges in their turn are the parents of other smaller ridges, which branch off in every direction with considerable regularity and method; and they again throw off other ridges, until the whole surface of the country is cut up into a series of ridges, with intervening gullies.

Many of the subordinate ridges vie with the main ridge in importance and elevation; such, for instance, as the great ridge starting from Catherine's Peak, above Newcastle, and passing through the parish of St. Andrew in a south-easterly direction, culminating at great elevations at Newton and Bellevue, and expending itself at Albion in the parish of St. Thomas. Also the ridge known as Queensberry Ridge, starting from the Blue Mountain Peak, passing by Arncliffe, Belle Clair and Windsor Castle, where it is known as Coward's Ridge, and extending to the sea at Belvedere and Creighton Hall, to the north of which place it forms the conspicuous mountain known as Yallahs Hill, 2,408 feet high. On the northern side of the island three great ridges may be mentioned, one extending from the Blue Mountain Peak through the parish of Portland dividing the waters of the Rio Grande from those of the Swift River, and expending itself at St. Margaret's and Hope Bays. Another starting from Silver Hill, dividing the waters of the Buff Bay and Spanish rivers, and the other very high ridge extending from Fox's Gap at the boundary of St. Mary and Portland, north-easterly, culminating in a conspicuous elevation called Haycock Hill, 2,500 feet above the sea, and terminating on the coast near Dover.

The John Crow Mountains, named also the Blake Mtns. in honour of Sir Henry Blake, a former Governor of the Island, which run in a north-westerly and south-easterly direction in the parish of Portland divide the Rio Grande valley from the eastern coast of the island. They form a plateau of about 2,000 feet elevation rather than a mountain range. In their higher parts they are a barren, waterless tract of lime stone formation; much of it covered by the sharp rocks known as honeycombed rocks, over which it is almost impossible to walk. These mountains may be said to be an offshoot from the great central range which, from the depression known as the Corn Puss Gap, north of the town of Bath, turns suddenly north and forms itself into this plateau.

The central range suffers a considerable depression at Stony Hill, in the parish of St. Andrew, where the main road to the north side crosses it at an elevation of 1,360 feet. Here the range is divided into two ridges; one of limestone formation, extending westerly through the district known as Mammee Hill, reaches a conspicuous elevation known as Lunan Mountain, at Highgate, in St. Catherine, and expends itself at Bog Walk; the other, which is the continuation of the central dividing ridge, is of granite formation and extends in a north-westerly direction. It passes the district of Lawrence Tavern and Mount Charles, where it commences to form the boundary line between the parishes of St. Mary on the north and St. Catherine on the south-side; continuing north-westerly it passes Pear Tree Grove and turns suddenly to the south-west at Windsor Castle and Decoy, and it then joins the limestone formation at Guy's Hill and Middlesex township, continuing as a well-defined range to Mount Diablo, where the main road crosses it at an elevation of 1,800 feet. It continues on to Holly Mount, a little beyond which it unites with the St. John's range, which forms the eastern boundary of Lluidas Vale.

From this point, although these mountains continue as a separate range, they become irregular and broken, chiefly on account of their limestone character, and with this formation they extend through the parish of St. Ann, expending themselves in the Cockpit country to the east of the district called "The Black Grounds," from the rich black soil in contra-distinction to the red soil of Manchester, in the parish of Trelawny. To the south of this locality, along the borders of Clarendon and Manchester, the trappean series is again met with and two great inland rivers flow there.

Running in an irregular north-westerly line, almost parallel with the last range of mountains described, is another limestone range which may be said to commence from the western bank of the Rio Minho or Dry River above Lime Savanna, and, forming first the range known as Mocho Mountains, it includes the Whitney valley and joins the Manchester Mountain range at Cumberland. Thence trending north-westerly it

passes through the northern district of Manchester and enters the parish of St. Elizabeth at Hector's River Sink; thence it continues on to Accompong and becomes lost in a peculiarly wild formation of what is usually known as Cockpit Country. In this quarter, and extending for a considerable distance into the parishes of Trelawny and St. James, the Cockpit land bids defiance to the traveller.

This formation is of white limestone, sharp, irregular and jagged, with little earth, and formed into a series of circular arenas like inverted cones with extremely irregular sides but preserving the circular formation throughout and terminating in most instances with a sink hole in the apex.

These arenas are of all diameters, from half-a-chain to two and three chains. The ridges or edges where these cones unite are of course, very irregular and sharp, presenting very steep or vertical rocks of considerable height. Such a country may be said to be almost inaccessible.

The May Day and Carpenter's Mountains pass through the parish of Manchester in a diagonal direction. Commencing at the Round Hill in Vere at the south-east extremity of Manchester, they traverse the parish to its north-western angle, where they join the main ridge near the Hector's River Sink; one off-shoot forming the Nassau mountains of St. Elizabeth.

The Santa Cruz mountains in the parish of St. Elizabeth run parallel with the Manchester mountains. They commence at the sea at the precipice called The Lover's Leap, 1,660 feet high, and terminate near Lacovia, where the passage of the Black River produces a break in the hills. These mountains, as well as those of Manchester, are justly considered to be very salubrious.

Another range of mountains, a continuation of the same line as the Santa Cruz Mountains, commences above Lacovia, to the north, and extends to Mulgrave near the line of St. James, and traverses the parish of St. James in a northerly direction, terminating in the hills south of Montego Bay.

The last and most westerly range of mountains, extending through Westmoreland and Hanover, commences about the locality called Middle Quarters and extends northerly, with some irregularities, to Chesterfield at the head of the Great River, which forms the boundary between St. James and Westmoreland; it then trends north-westerly to Chester Castle and Knockalva, near the boundary of the parishes of Westmoreland and Hanover and then westerly, culminating in a conspicuous hill called Dolphin Head, with an elevation of 1,816 feet, and terminating in several small ridges towards the west end of the island. There is also a coastline in Westmoreland called the Bluefields or Surinam Range commencing at Middle Quarters in St. Elizabeth and extending towards Savanna-la-Mar.

## RIVERS AND GENERAL DESCRIPTION.

The numerous rivers and springs which abound along the coast in most parts of the island to a considerable extent justify the name of "The Land of Springs," although there are extensive districts in the midland and western parts of the island singularly barren of water.

When it is remembered that the chief range of mountains, or back-bone of the island, runs generally east and west, it will be easily understood that the chief rivers, starting from the northern and southern slopes of this range, would generally run, the ones northerly, the others southerly, to the sea. There are some exceptions to this general rule, the chief of which is the Plantain Garden River in the parish of St. Thomas, which, rising in the Cuna Cuna Mountains, runs southerly in its upper course, but suddenly meeting the coast range of hills turns easterly, and flowing through the fertile district to which it gives its name, empties itself at Holland Bay. Another is the Montego river, which, although it flows northerly in its upper course, turns westerly through the greater part of its flow, discharging at Montego Bay.

There are interior rivers (which have no outlet) which are also exceptions to this general rule, such as the Cave and Hector's rivers.

While most of the rivers have generally either northerly or southerly directions, it must not be forgotten that the subordinate ridges which are nearly at right angles to these lines will produce subordinate streams, meeting the rivers on their eastern and western banks.

In consequence of the great elevations from which most of the rivers flow they are very rapid in their descent, and, in times of flood, become formidable torrents, sweeping everything before them and operating as dangerous obstructions to the traveller. Many of these rivers now, however, have substantial bridges erected across them.

Some of the chief of these are the Plantain Garden river already mentioned, and the Morant and Yallahs in the parish of St. Thomas. The Rio Grande, in the parish of Portland, is one of the finest rivers in the island; it flows from the northern slopes of the Blue Mountains. The Back and Stony rivers, two of its great affluents, furnish not only some of the lofliest and most picturesque waterfalls but the wildest and most romantic scenery in the island.

It was on one of these naturally fortified ridges, nearly surrounded by the Stony River that the notorious Nanny, the renowned Maroon leader, held out against the regular troops about the year 1739.

All the upper part of the parish of Portland remains unsettled to the present time in consequence of the steepness of the country and the want of roads, but there is no other part of the island richer in valuable timbers and other natural productions, and possessing greater advantages for the growth of coffee, cacao and cinchona than this district. The character of the soil and climate is the same as that of St. Andrew and Port Royal Mountains where the best coffee is produced, but where the coffee fields are fast wearing out.

The other rivers of Portland are the Swift, Spanish and Buff Bay, all possessing the same character as the Rio-Grande.

In St. Andrew there is the Wag Water (corruption of Agua Alta) river, which, rising in the mountains behind Stony Hill, runs through the parishes of St. Andrew and St. Mary, debouching at Annotto Bay. The Hope river rises in the hills around Newcastle and joins the sea at the sixth mile stone from Kingston on the windward road; from this river the city of Kingston and district of Liguanea receive part of their water supply. From the Above Rocks district of St. Andrew flow the sources of the Rio Pedro, a large tributary of the Rio-Cobre, which, with its numerous affluents, traverses the parish of St. Catherine. The gorge known as Bog Walk, through which the Rio-Cobre flows, is remarkable for its picturesque scenery. This river is utilised for irrigating the plains of St. Catherine, and for the motive power for the Kingston electric tramways.

The rivers of St. Mary, besides the Wag Water, are the Dry River, the Annotto, the Port Maria, Oracabessa, Rio Nueva and the White river, which latter forms the boundary between the parishes of St. Mary and St. Ann.

The volume of water in the White river is considerable, and the great cascade above Industry and the fall at Prospect are very grand and form objects of attraction to visitors.

The parish of St. Ann, being chiefly of limestone formation, furnishes no rivers of any consequence in the interior. The sea coast rivers are numerous; the Roaring river and the Llandovery river possess large volumes of water.

The cascades on both these rivers are very beautiful, particularly those of the Roaring River where the main road crosses it. In the yellow lime-stone and granite formation at Guy's Hill the Great River flows and sinks at Middlesex township, rising again at intervals of from 12 to 23 years at Rio Hoe, where it forms the Moneague Lake; which receives additional water forced up on Unity Valley, Riverhead and Fadmere, the waters of which disappear in sink holes at Walton, Rio Hoe.

The Cave and Hector's rivers near the junction of the parishes of Clarendon and Manchester with St. Ann and Trelawny, and, running in opposite directions form the northern and southern boundaries of these parishes respectively.

The Cave river, with its affluent the Yankee river, flows easterly, sinking at Greenock estate; thence it is supposed to have a subterranean course of  $13\frac{1}{2}$  miles or more and, rising near Dornock pen with considerable volume, is called Rio Bueno, and, with a course of  $6\frac{1}{2}$  miles to the sea, forms the boundary between St. Ann and Trelawny.

Hector's river runs westerly and, after a course of about 12 miles terminates in several sink hole in a wild and broken country. This river again makes its appearance at Oxford, in Manchester, where it goes by the name of One Eye river, and, again sinking there, it passes through a ridge to the north of the Bogue Hill and rises in considerable body at Mexico and Island estates, from which point to the sea it is called the Black river. This is certainly the finest river in the island. With a tortuous course of about 44 miles it debouches at Black-river bay near the town of that name. It is navigable for boats of considerable size for a distance of about 25 miles, and is used for conveying the produce of a large district to the sea.

The Black river receives several tributaries of considerable size, which are also partially navigable, such as the Y. S., Broad, Grass and Horse Savanna rivers.

The Rio Minho, or Dry river, rises with numerous tributaries in the Clarendon mountains, and, flowing through the entire length of the parish of Clarendon and district of Vere, discharges near Carlisle Bay.

In consequence of the arenaceous character of the soil the water of this river sinks a little below Longville estate, 16 miles from the sea. The lower part of this river, say from Seven Plantations estate to a little above the Alley in Vere, is, therefore, usually dry, except a considerable spring at Parnassus estate where the water flows for a short distance; the water appearing a little above the Alley flows to the sea. In floods this is a most formidable river and formerly, when "down," (as the expression is) all communication along the south side of the island was cut off, until an iron bridge was erected across the river at May Pen.

The Cock Pit and Salt rivers are short but deep rivers. The Milk river, a very fine river, navigable for some two miles, supplies a system of canals for the irrigation of Vere. A considerable quantity of logwood and fruit is shipped from it.

Along the foot of the Manchester mountains considerable water rises and, with short channels, flows to the sea. The largest of these rivers are the Alligator Hole, Swift and Gut rivers.

Trelawny furnishes only one river of importance; this is the Martha Brae river. This river rises at Windsor in the interior of the parish and seems to be the waters of the Quashie and Mouth rivers, as well as many other small streams which are interior rivers that rise and sink in the black grounds. The Martha Brae is a fine river, navigable for some distance up, and discharges to the east of Falmouth.

The Montego river rises in the trap formation near Maroon Town and is there called Tangle river. It sinks and re-appears, and after receiving numerous tributaries, enters the sea southwest of the town of Montego Bay. The Great river is the boundary of St. James next to Hanover and Westmoreland. It is a long river, but has few tributaries, the Lamb's and Seven rivers being the chief.

The rivers of Hanover are the Flint, Maggoty, Lucea (east and west) Lance's, Davis, Cove, Pell and Green Island rivers; none of these are large rivers or demand any special notice.

In Westmoreland the chief river is the Cabaritta. This is also a very fine river and with its tributaries, the Thicket and Morgan's rivers, waters the alluvial districts of the parish. There are also the Dean's Valley or Sweet river, from which the town of Savanna-la-Mar is supplied with water, New Savanna and Negril rivers.

#### CAVERNS.

The limestone formation, prevalent in Jamaica, furnishes many caverns and sink holes of great size and grandeur, the chief of which is the beautiful cave at the place

called Cave Hall pen, two miles east of Dry Harbour, near the main road. This cave is of great length and has two branches; the various apartments are designated grottoes, halls, domes and galleries; and the stalactites and stalagmites, formed by the dripping of calcareous water, glittering in the torch light, impart a magical effect to the scene.

The Grand Cave at River Head in St. Thomas-in-the-Vale is a very remarkable place. The Rio Cobre, after sinking at Worthy Park, emerges from this cave. It is of great dimensions and in former years was a favorite resort for picnics; it is traversable, with the assistance of a raft to cross some deep water, for a distance of over a quarter of a mile, until the "floodgate" is reached where the water gushes from the rock.

The cave at Mexico, in St. Elizabeth is probably the longest in the island; it is nearly a mile from the One Eye Gulf to Mexico Gulf (the mouth of the cave). The One Eye or Black river passes through this cave.

It has been explored for some distance in, but, in consequence of some deep bodies of water obstructing the passage, less is known of it than of the cave on the Rio Cobre. A thorough exploration of this cave would be most interesting.

The Peru Cave, also in St. Elizabeth, is very beautiful, and the stalactites and stalagmites here show to great effect. There is also a very fine cave at Mount Plenty in St. Ann, which can be traversed for a distance of ten chains; it has two branches and the vaulted chambers are particularly fine. At some distance from the mouth it is illuminated by a sink hole from the top.

Another very fine cave is that from which the Mouth river flows in the black grounds of the parish of Trelawny. There is also a remarkable cave near this at Spring Garden. The cave at Portland, in Vere, is very fine and used formerly to be a great place for picnics.

There is also a remarkable cave and subterranean river at Epping Forest in the parish of Manchester.

There are numerous other caves of smaller dimensions throughout the island. Sink holes, as already stated, are also very numerous. The Light Hole at Tingley's in St. Ann is a sink hole on a large scale. This is a great arena of vertical rocks some three or four chains in diameter and of considerable depth, with large trees growing at the bottom.

Many of the sink holes and caves throughout the island have springs at the bottom, such as the Governor's Cave at Healthshire; a sink hole near Fort Clarence opposite Port Royal; a cave near Salt River and one at Swansea on Lluidas Vale.

#### MINERAL SPRINGS.

THERE are many mineral springs in Jamaica, some of them possessing valuable qualities for the cure of various diseases and infirmities of the body.

The two principal are, the spring at Bath, in St. Thomas in the East, and the spring at Milk River, in Clarendon. Both of these are treated of separately in another part of this work.

In the Parish of Kingston, at Rockfort, there is a mineral spring at the sea edge, but it is not believed to be of any specific medicinal value.

In St. Andrew there are two Springs. One is a series of springs which come to the surface at Rock Hall Estate, near the Ferry and form the source of the Salt River. The other, at Silver Hill in the Blue Mountains, was formerly known as the Jamaica Spa, and was maintained as a Government Institution. The waters are chalybeate aerated, cold, tonic; beneficial in most cases of debility, particularly after fever, dropsy and stomach complaints. A full account of this Spring is given in Dr. Phillippo's "Mineral Springs of Jamaica."

In St. Thomas in the East, the spring at Bath has already been alluded to.

At Garbrand Hall there is a series of warm springs. On the Adam's River, about  $\frac{1}{4}$  of a mile south of Downer's Hut Gap on the main range, there is a spring which belongs to the Crown.

At Moffat there is a spring on the White River, a tributary of the Negro River.

In Portland, on the Guave River, about one mile north of Downer's Hut Gap, on the main range there is a spring which belongs to the Crown.

A spring formerly at Golden Vale disappeared after the Earthquake of 1907. A spring also referred to in the past as being at Priestman's River, cannot now be discovered.

In St. Mary, a spring at Quebec, mentioned by Dr. Phillippo, does not now exist.

In St. Ann there is a spring at Windsor, which at one time was very popular, people coming from all parts of the Island to get the water.

In Hanover, there is a Hot Spring at Buxton on the Cabaritta River.

In Westmoreland, the spring alluded to as Rickett's Savannah, cannot now be identified.

In St. Elizabeth, there is a Sulphuric Spring at Lower Works near Black River.

The Bath of Milk River in Vere in the parish of Clarendon has already been alluded to.

In St. Catherine, there is at St. Faith's in the St. John's district a spring on "Good Hope." The spring at Port Henderson was once a favourite bath for the inhabitants of Spanish Town.

An analysis of the water of the spring at Manatee Bay is given by Dr. Phillippo.

## POPULATION AND VITAL STATISTICS.

It may be interesting to notice the gradual increase in the population of Jamaica since the earliest period when there was any authentic record.

There is diversity of statement as to the Spanish inhabitants. In 1596 there were said to be only 120 Spanish inhabitants. In 1611 the Abbot of Jamaica reported to the King of Spain that there were:—

Spaniards	..	..	..	..	523
Children	..	..	..	..	173

					<hr/> 1,510 <hr/>

In 1633 there were about 300 men (Spaniards) who could bear arms. It was estimated that there were, in 1655, prior to the English occupation, about 1,500 Spaniards and 1,500 slaves. But Ramirez, the then Governor, talks of more than eight thousand souls scattered about the mountains—children, women and slaves. Long tells us that "in 1658 there were about four thousand five hundred whites and one thousand four hundred negroes." An attempt at numbering the people was made in 1660, when "the relicts of the Army" were put down at about 2,200, and the planters, merchants and others, as probably as many more.

On the 23rd of September, 1670, Sir Thomas Modyford sent to Lord Arlington a "Survey of the Island," by Thomas Tothill, Receiver General.\* The estimated population of the whole of the parishes was as follows:—

St. Thomas' Parish	..	..	..	..	590

### POLITICAL CONSTITUTION.

IN the first two years after Penn and Venables conquered the Island of Jamaica in 1655, control was by Commissioners. In 1657 Doyley governed by Court Martial. In 1661 Doyley was made Governor, with the advice of an *elected* Council. Later the Governor's Council was nominated by the Crown, in the main on the recommendation of the Governor. In 1663-4 the first elected House of Assembly met. Soon after this the Council had a dual existence as a Privy Council and, while the Assembly sat, as a legislative Upper Chamber. It kept the two sets of its minutes in the same minute book in chronological order. The Council was often recruited from the Assembly, and not unfrequently a patriot left the Assembly and became a King's man in the Council. There was constant jealousy between the Board (Council) and the House (Assembly).

Lynch in 1671 sent home "The present state of the Government of Jamaica, on the 20th of August, 1671." "His Majesty is sovereign and proprietor is stiled King, &c. and Lord of Jamaica; and the Governor and Lieutenant Governor are appointed during his pleasure. The present Lieutenant-Governor has a council of 14 of the best men in the island, viz. Major-General Jas. Banister, Sir Jas. Modyford, Colonels Thos. Modyford, John Cope, Thos. Freeman, and Thos. Ballard, Lieutenant-Colonels Wm. Ivy, Robert Byndlos Chas. Whitfield, and Thos. Fuller, Major Anthony Collyer, Capt. Hender Molesworth, Lieutenant Colonel Robert Freeman, Secretary, and John White, Chief Justice; they may be suspended for misdemeanour, but the Lords of the Council of Foreign Plantations must judge if it is reasonable. There is an assembly numbering 18, viz., two from each of the districts of St. Catherine, Clarendon, St. Andrew, Port Royal, St. John, St. David, St. Elizabeth, St. Thomas, and North Side: these are chosen indifferently by the people, and make laws which are of force for two years, and ever after with the Royal Assent. The people look on it as their Magna Charta, that they shall be governed by these municipal laws and those of England, and not have anything imposed on them but by their own consents as in Barbadoes and the Caribbees."

In March, 1674 a Draught Commission for the Earl of Carlisle, appointed by his Majesty Governor of Jamaica, was offered to his Majesty by the Council for Trade and Foreign Plantations. The Council, was to consist of 12 persons, seven to be a quorum. Vacancies to be certified to his Majesty by the first opportunity, meantime the Governor to fill up the number to nine, and no more, out of the principal freeholders of the island. With power to administer the oaths to each of the Council and Deputy Governor, and to suspend or expel any member of Council. Also with consent of the Council to call general assemblies of the freeholders, according to the custom of the island, whose representatives, duly elected, shall have power, with consent of the Governor and Council, to make laws as near as may be agreeable to those of England, which shall be of force for two years, and no more unless confirmed by his Majesty. To exercise a negative voice in the passing of all laws; to dissolve all general or representative assemblies, with consent of the Council, to establish courts of judicature, and appoint judges, justices, sheriffs, and other necessary officers, transmitting copies of all establishments for his Majesty's approval; to pardon offences before or after sentence, treason or wilful murder excepted in which

cases he may grant reprieves till his Majesty's pleasure be known; to present to churches, chapels, and other ecclesiastical benefices; to levy and arm persons under his Government for resisting enemies by land or sea and transport them to any of his Majesty's Plantations in America for defence of the same from invasion of enemies, and to execute all things which to a captain-general belong. To raise and build cities, boroughs, towns, and fortifications, and arm them or demolish or dismantle them; to erect a Court of Admiralty, and exercise all powers of a vice-admiral in those seas according to Commission and Instructions from Commissioners for executing the office of Lord High Admiral of England; to grant lands on moderate quitrents, to hold fairs and markets, and appoint ports and havens, customhouses, warehouses. But not to dispose of any office granted by His Majesty under the great seal. All inhabitants of the island to be obedient to him, and in his absence to the Deputy Governor, who shall exercise all powers hereby granted. In case he shall happen to die or be absent, and there be no Deputy Governor upon the place, the present Council of Jamaica to take upon them the Government and execute this commission. And lastly to hold office during his Majesty's pleasure.

Money bills originated with the Assembly and were a constant source of dispute. In 1678-80 an attempt was made, by Carlisle without success, to force the principle of Ponnyngs's laws (i.e. laws made in England) on Jamaica.

The Colony soon realized that it was desirable to have an agent to solicit its affairs in England, and Jamaica was so represented from 1664 to 1845, when the office was abolished. In 1767 the Assembly and Council quarrelled over the control of the agent.

In 1728 full legislative power was ceded to the colony in return for an annual subsidy granted to the King for the support of the civil government and subject to the proviso that no Act should be passed repugnant to the laws of England and that the Crown had power of disallowance within a limited period but the money bills and 'tacking' were a constant source of trouble.

The antagonism shown by many of the planters first to the abolition of the slave trade and later to Emancipation created an attitude hostile to the colony in the minds of many politicians in England.

Emancipation in 1834 was met by many of the planters in an unsympathetic manner. At the same time it encouraged the black people and coloured population to take an interest in the political affairs of the Colony. The dissenting missionaries became their strong advocates, and thereby earned the enmity of many of the planting class.

The Assembly resented the action of the Mother Country in bringing the Apprenticeship system to an early conclusion in 1838, and regarded the legislating for the better government of prisons as an infringement of their rights. A deadlock ensued under Sir Lionel Smith, and a law was passed in the Imperial Parliament to arrange for government by the Governor and Council if the Assembly refused to act. Sir Charles Metcalf did much to throw oil on troubled waters; to reconcile the colony with the Mother Country, and to conciliate all classes of the colonial community.

In the Lieutenant Governorship of General Berkeley (1846) the British Act equalizing

the sugar duties on British and foreign production raised the active hostility of the Assembly, and in a petition to the Queen was said to be "a flagrant violation of national faith, consistency and honour." And during the whole six years of Sir Charles Grey's administration (1847-53) a war of Retrenchment was waged. The treasury became bankrupt and a deadlock ensued, the Assembly declining to do any business with the Council. This state of affairs welcomed Sir Henry Barkly to the colony in 1853.

In 1854 an Act was passed for the better government of this island and for raising a revenue in support thereof. (Vic. 17 Chap. 29). By it the old council ceased to exercise its functions as a Legislative Council and a new Legislative Council was appointed consisting of seventeen members, the old members of the Council retaining their seats. The Council enjoyed like political powers and authority exercised and enjoyed by the House of Lords of Great Britain and Ireland. By the same Law the Governor was authorised to appoint three persons members of the Assembly, and one person a member of the Legislative Council to form an Executive Committee for the assistance of the Governor in the general administration of the finances of the island. No member of the Executive Committee was to be the holder of an office of emolument.

Sir Charles Darling (1857-62) fell out with his Executive Committee on the question of the intention of the government in passing the Act for the better government of the island which deprived the Assembly of the right to initiate the money bills, and they resigned.

The appointment of the Executive Committee had led to no permanent improvement, for after the first few years a constant struggle for place and power was maintained, and partisanship became more bitter than before. To use the words of Gardner, "The House of Assembly was generally felt to be a barrier in the way of all progress, and in no proper sense of the word could it be regarded as a representative body;" and Dr. Bowerbank, a former member, said it was "the curse of Jamaica." Its deliberations were often interrupted by scenes of confusion and strife.

Jamaica, with a population of upwards of half a million, was divided into twenty-three parishes or electoral districts, returning forty-seven members in all. But in 1864 the united registries showed only 1903 persons qualified to vote, and only 1,457 persons exercised their privilege.

With such small constituencies, as Gardner points out, it was a no easy matter for any man anxious to obtain a seat to do so, and in parishes where bribery and corruption could not be supposed to influence the votes, there was no representation of the great body of the people for whom the assembly was assumed to legislate. That many upright and honourable men were elected by such small constituencies must be admitted, and yet such men occasionally complained to their intimate friends that they were fast losing their self-respect.

In 1834 the island was not prosperous, the American war had raised the price of American bread stuffs, and the Governor was at variance with the Assembly. Agitation ended in riot at Morant Bay on October 11th, 1865. The Commission which reported on the matter said that "the disturbances had their immediate origin in a planned resistance to lawful authority, which resistance was caused, in manifold ways, by a desire to obtain land free of rent, a lack of confidence on the part of the labouring class in the tribunals before which most of their disputes were adjudicated, and, in some cases, hostility towards political and personal opponents and a desire to attain their ends by the death or expulsion of the white inhabitants of the island."

After the suppression of the disturbances, Governor Eyre urged on the Legislature the unsuitability of the then existing form of government to meet the circumstances of the community, and the necessity of making some sweeping change by which a strong government might be created. The Legislative Council, in their reply, assured His Excellency that he "might confidently rely upon their giving their best consideration to any measure tending to establish that strong government so necessary for the well-being of this community" and the Assembly expressed their "full conviction that nothing but the existence of a strong government would prevent this island lapsing into the condition of a second Haiti." These assurances were followed by the passing of the 29th Vic., Chap. 11, declaring that "from after the coming into operation of this Act the present Legislative Council and House of Assembly, and all and every the functions and privileges of these two bodies, respectively shall cease and determine absolutely." Another Act was also passed in the same session declaring "that it shall be lawful for Her Majesty the Queen to create and constitute a government for this island in such form and with such powers as to Her Majesty might best seem fitting, and from time to time to alter or amend such government." Effect was given to these acts of the Colonial Legislature by an Act of Imperial Parlia-

ment, 29 Vic., Chap. 12, entitled, "An Act to make provision for the government of Jamaica," which enacted that "in construing the secondly recited act the term government should be held to include Legislature and that the powers exercisable by Her Majesty under the two Acts should be exercisable by Her Majesty in Council."

In pursuance of these enactments a single Chamber was established under the designation of the "Legislative Council of Jamaica," by an order in Council dated 11th June, 1866. The Council thus created, consisted of, the Senior Military Officer for the time being in command of Her Majesty's Regular Troops within the Island, and the five persons for the time being exercising the respective offices of Colonial Secretary, of Attorney General, of Financial Secretary, of Director of Roads and of Collector of Customs; who were declared to be official members of the Council, *virtute officii*, and of six unofficial members nominated by the Governor and appointed by the Queen.

In 1883 a petition was sent from the inhabitants of Jamaica for a change in the Constitution of the Colony. By an order in Council of 19th May, 1884\* a "moderate step in advance" was granted: nine members of the Council were to be elected by the people. This did not give entire satisfaction.

For one session in 1893 the Governor was not a member of the Legislative Council, which was presided over by a nominated president.

In 1895 the Elected Members were increased to 14 (one for each parish,) the nominated members being increased to 10 (4 being in abeyance) and effect was given to a Resolution of the Council (known as the Kerr-Sharp resolution) to the effect that a member of Council must have been for a twelve month immediately preceding his election either a resident of the parish he represents or possess a clear annual income of £150 per annum arising from property on the parish possessed by himself or his wife. In 1899 the Governor added the dormant 4 to the nominated members of the Legislative Council to pass the Tariff Bill. They were thereafter withdrawn, but in 1900 they were reinstated.

In the "Jamaica Gazette" of November 8th, 1923, appeared the correspondence which had taken place between the Governor and the Secretary of State for the Colonies in regard to a proposed reform of the Constitution.

The first registration under Law 22 of 1886 was in August, 1887. The revised lists showed that there was one elector to every 25 persons in the island.

At the General Election, January, 1896, there were 38,376 registered voters. The estimated population on 31st March, 1896, was 694,865.

At the General Election, January, 1901, there were 16,256 registered voters. The Registrar General's estimate of population on 31st March, 1901, was 755,730.

The number of registered voters on the lists of 1905-06 was 8,607.

The following table shows the number of voters on the Electoral Lists in 1911 and 1921 and the votes recorded in contested elections in 1920. The population as ascertained at the censuses of 1911 and 1921 are also given:—

## PRESENT CONSTITUTION.

THE Political Constitution of Jamaica consists of a Governor, a Privy Council and Legislative Council.

## THE GOVERNOR.

The Governor is appointed during His Majesty's pleasure, but his tenure of Office is as a rule confined to a period of six years.

## THE PRIVY COUNCIL.

The Privy Council consists of the Senior Military Officer in the island, not being below the rank of Lieutenant-Colonel, the Colonial Secretary, the Attorney-General, and such other persons, not to exceed eight in number, as may be named by the sovereign, or provisionally appointed by the Governor, subject to the approval of His Majesty. The tenure of office of members so named or appointed is limited to five years. The Governor is to consult in all cases with the Privy Councillors, excepting only when the matter to be decided would in his judgment sustain material prejudice by consultation, or is too unimportant to require their advice. The Governor is authorised to act in opposition to the advice and decision of the Privy Council, if in any case it shall appear right to do so, and to report to the Secretary of State for the Colonies the grounds and reasons of his opposition and any member may record on the minutes the nature of the advice or opinion offered and rejected.

## THE LEGISLATIVE COUNCIL.

The Council consists of the Governor, as President: five *ex-officio* members, the Senior Military Officer for the time being in Command of His Majesty's regular troops in Jamaica and the persons for the time being lawfully exercising the functions of the respective offices of Colonial Secretary, Attorney General, Director of Public Works and Collector General nominated members not exceeding ten in number from time to time provisionally appointed, and fourteen Elected Members, elected one for each parish of the island.

No person shall be capable of being elected a Member of the Legislative Council of Jamaica for any electoral District, or having been elected shall sit or vote in the Council, unless he either has resided in that Electoral District for twelve months immediately preceding the day of election, or possesses a clear annual income of 150*l.* arising from lands in that district belonging to him in his own right or the right of his wife.

The Governor, if present, or in his absence any member of the Council appointed by him in writing, shall preside and be possessed of an original vote, and also of a casting vote, if the votes be equally divided.

The votes of the *ex-officio* and nominated members of the Council shall not be recorded in support of any Law, vote, or resolution imposing any new tax, or appropriating any public revenue for any purpose other than the payment of the salary or allowances of any public officer in respect of an office to which he was appointed before the date of the Order in Council of 3rd October, 1895, or of the pension or gratuity payable in accordance with the rules in force at the date of that Order affecting pensions and gratuities to any person in respect of an office to which he was appointed before the date of this Order, if not less than nine elected members shall have voted against such law, vote or resolution, unless the Governor shall have declared his opinion that the passing of such law, vote or resolution is of paramount importance to the public interest.

The votes of the *ex-officio* and nominated members shall not be recorded against the

unanimous votes of all the elected members on any question unless the Governor shall have declared his opinion that the decision of such question in a sense contrary to the votes of the elected members is of paramount importance to the public interest.

Six members, besides, the Governor or Presiding Member, form a quorum; and the Council shall not be disqualified for the transaction of business by reason of any vacancy or vacancies among the *ex-officio* or elected members.

In the transaction of business and the passing of laws the Council was required to conform to the Royal Instructions of the 29th July, 1887. Any member of the Council may propose any question for debate. The Governor is not to assent to any bill of any of the classes hereinafter specified unless such bill shall contain a suspension clause, or unless the Governor shall have satisfied himself that an urgent necessity exists requiring that such bill be brought into immediate operation, in which case he is authorized to assent to such bill, unless the same shall be repugnant to the law of England or inconsistent with any obligations imposed upon His Majesty by treaty:—

1. Any bill for the divorce of persons joined together in holy matrimony;
2. Any bill whereby any grant of land or money, or other donation, or gratuity, may be made to himself;
3. Any bill whereby any increase or diminution may be made in the number, salary or allowances of the public officers;
4. Any bill affecting the currency of Jamaica or relating to the issue of bank notes;
5. Any bill establishing any banking association, or amending or altering the constitution, powers or privileges of any banking association;
6. Any bill imposing differential duties;
7. Any bill the provisions of which shall appear inconsistent with obligations imposed upon Her Majesty by treaty;
8. Any bill interfering with the discipline or control of Her Majesty's Forces in the island by land and sea;
9. Any bill of an extraordinary nature and importance whereby the Queen's prerogative, or the rights or property of her subjects not residing in the island, or the trade, or shipping of the United Kingdom and its dependencies, may be prejudiced;
10. Any bill whereby persons not of European birth or descent may be subjected or made liable to any disabilities or restrictions to which persons of European birth or descent are not also subjected or made liable;
11. Any bill containing provisions to which Her Majesty's assent has been once refused, or which have been disallowed by Her Majesty.

No private bill is to be passed whereby the property of any private person may be affected in which there is not the saving of the rights of His Majesty, her heirs and such successors, and of all bodies politic and corporate, and of all other persons except such as are mentioned in the said bill and those claiming by, from, through, and under them. The Governor is not to assent to any such private bill until proof has been made before him in Privy Council and entered in the Privy Council Books that adequate and timely notification was made by public advertisement, or otherwise, of the parties' intention to apply for such bill before it was brought into the Legislative Council; and a certificate must be annexed to every private bill signifying that such notification has been given and declaring the manner of giving the same. The laws are to be styled "Laws enacted by the Governor and Legislative Council of Jamaica."

The seats of the nominated members are vacated by a dissolution but they may be re-appointed.

Public officers hold their offices on condition of serving as nominated members of the Council if so required.

Provision is made for the suspension by the Governor (subject to disallowance by the King) of nominated members, and for provisionally supplying the places of nominated members suspended or incapacitated or absent from the colony.

*Qualifications of Elected Members*—No person shall be capable of being elected a member of the Council, or, having been elected shall sit or vote in the Council, who—

- (1) Is the holder of any office of emolument under the Crown, or under the Government of Jamaica; or,
- (2) Is not entitled to vote at the election of a member of the Council for some electoral district; or,
- (3) Does not possess one of the following qualifications, viz:—
  - (a) A clear annual income of 150*l.* arising from lands belonging to him in his own right or in right of his wife.

- (b) A clear annual income of 200*l.* arising partly from lands belonging to him as aforesaid and partly from any freehold office, or any business, after deducting all charges and expenses of such office or business.
- (c) A clear annual income of 300*l.* arising from any freehold office, or any business, after deducting all charges and expenses of such office or business.
- (d) The payment annually of direct taxes or export duty, or both, to the amount of not less than 10*l.*

No person shall be capable of being elected a member of the Council for any electoral district, or having been elected shall sit or vote in the Council, unless he either has resided in that electoral district for twelve months immediately preceding the day of election, or possesses a clear annual income of £150 arising from lands in that district belonging to him in his own right or the right of his wife.

*Qualification of Voters.*—Every male person is entitled to be registered in any year as a voter for a division of a parish who is qualified as follows, that is to say:—

- (1.) Has attained the age of twenty-one years.
- (2.) Is under no legal incapacity.
- (3.) Is a British subject by birth or naturalization.
- (4.) Either—
  - (a) is on the 31st day of January in such year, and has since the 1st day of April then preceding, been an occupier as owner, or tenant of a dwelling house, or in possession of real property within such parish capable of being, during such occupation or possession, rated in respect of the parish general rates, and has during the said period paid taxes to the amount of not less than ten shillings,
  - (b) is on the 31st day of January in such year possessed of personal property in respect of which he has, since the preceding first day of April, paid within such parish taxes to the amount of not less than one pound and ten shillings, and ordinarily resides within such division of such parish, or
  - (c) possesses a salary qualification, that is to say is in the parish in which he claims to be registered as a voter in the receipt of salary or wages aggregating fifty pounds a year or upwards; or
  - (d) possesses an income qualification, that is to say, is in the parish in which he claims to be registered as a voter, tenant of a dwelling house or part of a dwelling house or of a tenement or part thereof in which he carries on his business or practices his profession and in respect of which he pays rent amounting to not less than ten pounds during the year and is in receipt of an income amounting to fifty pounds a year and upwards.

Every female person who is qualified according to the requirements set out above, as modified by Law 22 of 1919, entitled to be registered as a voter.

The modifications are:—

- (1.) Has attained the age of 25 years.
- (2.) Is literate.
- (3.) Is qualified under 4 (a) above and has paid taxes to an amount not less than £2 during the specified period.
- (4.) Is qualified under 4 (b) above and has paid taxes to an amount not less than £2 during the specified period.

Provided:—

- (1.) That no person shall be registered as a voter who has been sentenced by any Court in His Majesty's Dominions to death, or penal servitude, or imprisonment with hard labour, or for a term exceeding twelve months, and has not either suffered the punishment to which he was sentenced, or such other punishment as by competent authority may have been substituted for the same, or received a free pardon from His Majesty;
- (2.) That no person shall be registered as a voter in any year who has, since the preceding first day of August, received any relief from public or parochial funds.

## COLONIAL SECRETARY'S OFFICE.

[Public Buildings, (East Block) King Street, Kingston.]

As a consequence of the change in the Constitution of the Island in 1865 one of the first steps taken was the reconstruction of the administrative system in conformity with the form of government to be brought into operation. By an Order of the Queen in Council, dated 11th June, 1866, the offices of Colonial Secretary and of Financial Secretary were created and the duties up to that time exercised by the Executive Committee, together with those previously performed by the Governor's Secretary and new duties arising out of the altered form of administration, devolved upon these officers who were each assigned a salary of £1,500. The office of Revenue Commissioner was also created, the performance of the duties thereof, which were in the nature of a direct supervision of the Revenue Department, being required of the Financial Secretary. As in 1870 the finances of the colony had been satisfactorily re-organized, and a complete reconstruction of the Revenue Departments had been secured whereby the necessity for the special services of a Financial Secretary no longer existed, the opportunity was taken on the occurrence of a vacancy in the office of Colonial Secretary to abolish the office of Financial Secretary and to transfer its duties to the Colonial Secretary, whose salary was then fixed, upon special grounds, at £2,000 per annum, £1,500 being fixed as the stipend of any future holder of the office. Provision was at the same time made for the appointment of an Assistant Colonial Secretary.

## PUBLIC WORKS DEPARTMENT.

*Head Office, Port Royal St., Kingston.*

AMONG the first of the statutes that were passed after the English conquest of Jamaica was "An Act for the Highways" (1681). These highways were kept in repair at the expense of the respective parishes through which they ran, but as the progressive spirit of the new settlers induced them to go further inland in search of land "to plant," the parochial funds became insufficient and had to be supplemented by annual grants from the Legislature and tollage on the great highways. This system continued until the year 1836 when the Justices and Vestry of each parish were entrusted with the power of raising money at their discretion for repairing roads other than roads laid out and maintained under turnpike trusts. But this arrangement was not satisfactory and a Committee of the House of Assembly reported in 1843 against its continuance. Their report was not agreed to and the annual grants were continued, the amount for each parish being made payable to the members of Assembly of such parish. The result was that, notwithstanding the large sums voted, the roads were, to quote Phillippo's "Jamaica, its past and present state," "a disgrace to a civilized community and militated considerably against the agricultural prosperity of the country. Even the lines of communication between the principal towns were very little better than river courses which placed the life of every traveller in jeopardy: deaths from this cause were of frequent occurrence."

In 1851 the Legislature with the hope of permanently improving the highways, passed a law repealing all former road laws and settling a new system for the management of these roads. The system comprised a Board of Commissioners of Highways and Bridges in each parish. To this Board was entrusted the exclusive care of all roads and bridges not being turnpikes. This system of road supervision continued until 1857, but without any appreciable benefit to the highways. In the latter year "it was thought advisable with a view to facilitate the means of communication between the several parts of the island," to transfer the most important sections of roads (including the turnpike roads) to the care of a body styled the Main Road Commissioners, and to provide for the appointment of County Engineers. To carry out this new system a main road fund was constituted, to which the land tax and the land tax redemption and all tolls and special grants for road purposes were transferred. Besides these sources of revenue loans were authorised, for the interest and eventual re-payment of which the general revenue was made liable.

In 1859 a loan of £56,000 was raised, but a much larger sum was required to effect a solid reconstruction of the roads and to provide for the bridging of more than one rapid

and dangerous river. Other loans were accordingly raised and the work of reconstruction was proceeded with. The whole scheme, however, soon failed.

The law granting the power to redeem the land-tax was repealed in the session of 1862, and the toll bars which had become a fruitful source of discontent—in some parishes leading to open riot—were abolished in October, 1863. Consequently, when the Main Road Commissioners ceased to exist (on the change in the form of government) and their functions were transferred to the Director of Roads, the main road fund was hopelessly insolvent and the roads were but tolerably good. The Government had to assume the entire debt, which at the time that this was finally effected (1870) amounted to £133,045—£100,350 being for loans and £32,695 for overdrafts from the Treasury.

From that time until 1890, the expenditure on main roads was defrayed from the General Revenue of the Island with the exception of a few cases in which roads and bridges were constructed by grants from the Parochial Road Revenue Fund and afterwards taken over and maintained as main roads. A number of bridges were erected during this period.

The most important of these bridges is that over the Dry River, at May Pen, which was completed in the year 1874. The necessity for this structure had long been felt. The river had been known to rise as high as 37 feet above the bed within a few hours. The bridge consists of three spans, the centre span being 150 feet in the clear and the two outer ones 75 feet each, the underside of the girders is 46 feet above the bed of the river, that is nine feet above the highest known level of the flood water. The cost of this structure was £16,901, exclusive of the cost of land and of approaches. This was subsequently used as a Railway bridge as well as a Highway bridge.

By Law 7 of 1881, power was given to raise a loan for building bridges over the Yallahs and Morant or Johnson Rivers in St. Thomas, and the Rio Grande, Buff Bay, Spanish and Swift Rivers in Portland, but this power remained for several years in abeyance. By Law 33 of 1887 power was given to apply a portion of the above-mentioned loan to the building of Bridges over Roach's Gully, the Devil's River, and Harbour Head River in St. Thomas, Priestman's River, and White River in Portland and the Dry River and Pencar River in St. Mary. In 1888, Sir Henry Norman, with the approval of the Secretary of State ordered the construction of all the Bridges in Portland and St. Mary named in the above Laws, and of the Bridges in St. Thomas named in Law 33 of 1887. The works were begun in the Spring of 1889, and the several bridges were completed and opened to the public during 1890-91.

All these bridges have wrought iron superstructures, and, with the exception of the Harbour Head Bridge, which is carried on screw piles, all are supported on concrete piers and abutments. The bridges over the seven rivers between Annotto Bay and Port Antonio are all of one type, differing only in the number of openings which are all of 76 feet clear span.

The Rio Grande Bridge was the last of these bridges completed, and is one of the largest in the island, being 520 feet long, and having six openings. The easternmost pier is founded at a depth of 33 feet below low water and has a total height of 48 feet. Its completion was a source of satisfaction to the inhabitants of the parish, who had suffered greatly by the frequent interruptions of communication caused by floods in these dangerous rivers.

It was ultimately found inadvisable to carry out the erection of the bridges over the Yallahs and Morant Rivers in the manner contemplated at the time of the passing of Law 7 of 1881, and Law 1 of 1891 was then passed under the powers of which a new main road was constructed from the 11th mile post on the Windward Road by Cambridge Hill, Ramble, Cedar Valley and Trinity Ville to Morant Bay on the line of which the following bridges were erected, viz., at Easington, Ramble, Negro River, Allan Spring, Palmetto Gully, York River, Sandy Gully and Johnson's River. On the completion of this road, an extension from the point where it crossed the Johnson's River Bridge to the town of Bath, and a branch road from where the interior road crossed the Negro River Bridge through Belvedere, to join the coast road on the western side of the Johnson's River were constructed under authority of Law 7 of 1894.

The loans for the system of roads and bridges authorised by these four laws above-mentioned amounted to £120,000, the principal and interest being made a charge against General Revenue.

The rapid growth of the cultivation and export of fruit and the consequent call for improved means of communication induced Sir Henry Blake to provide for the transfer of a considerable mileage of the more important Parochial Roads to the category of Main Roads, and for improved maintenance of the remainder by the consequent relief given to the road funds of the several parishes by the passing of Law 17 of 1890. Under this Law certain taxes were appropriated for providing interest and sinking fund on a loan

of £140,000 to be expended in reconstructing the roads so taken over as Main Roads, and also an annuity equal to about £20 per mile per annum for their maintenance. In the succeeding three years an aggregate length of 981 miles were thus added to the schedule of Main Roads. The revenue raised by the appropriated taxes fell off very appreciably in the years 1896-97, and at the same time the average allowance of £20 per mile proved inadequate for the maintenance of the roads. Law 4 of 1898 was therefore passed providing for the maintenance of all the Main Roads from General Revenue and for the merging therein of the net revenue from the appropriated taxes after paying interest and sinking fund on the loan.

By Law 20 of 1892 a Loan of £100,000 was authorized to be raised chargeable against General Revenue for the erection of bridges over the rivers, on the most important roads of the island, and under the provisions of this Law many bridges were erected.

By Law 13 of 1895 authority was given for a loan to be raised for the construction of Mountain Roads in St. Andrew, St. Thomas and Portland, and a new driving road was made from the Cooperage near Gordon Town, via New Castle and over Hardware Gap to Buff Bay in Portland, with a branch to Silver Hill Gap. Surveys were also made of the road from Gordon Town via Guava Ridge to Windsor Forrest, and from Bath via the Cuna Cuna Mountains to the line of Portland, near Moore Town. During the period of the relief works following the hurricane of 1903, the construction of this road was somewhat advanced, it was completed as far as Mavis Bank in 1908, and to the Mahogany Vale Bridge over the Yallahs River in 1917.

By Law 18 of 1911, in order to compensate Parochial Boards for the reduction of the Tax on asses, 191 miles of Parochial Roads were taken over and added to the Schedule of Main Roads.

In addition to the work under Loan Laws many bridges and roads were constructed and improved by funds provided by General Revenue during the last 24 years.

In the year 1911, in order to facilitate a growing traffic, it was considered advisable and feasible to construct a driving bridge further down the Johnson River and a short distance above the old Main Road fording near Morant Bay. This Bridge was constructed of reinforced concrete piles, with a superstructure of steel beams and concrete floor, having 16 spans of 50 feet each, giving a total length of 800 feet, being the longest in the Island. The total cost including road approaches amounted to £6,450. It was opened in the early part of 1912 by H. E. Sir Sydney Olivier and it is known as the Olivier bridge.

Many other bridges of less magnitude have been built on all important roads including a ferro-concrete spandril arch bridge at Tucker's River, St. Mary, 50 feet span, and Chepstow Bridge over the Spanish River, in Portland of 80 ft. span—as well as many smaller ones.

It became necessary in 1914, owing to the continued filling up of the bed of the Yallahs River at Ramble to replace the old bridge by a new structure 220 feet in length and of similar construction to the Olivier bridge, at a more favourable site just above the junction of the Shooting River.

By Law 33 of 1919 a loan of £50,000 was authorised; £10,000 for opening up roads to Crown Lands and £40,000 for new main roads and road improvements. By this the main roads in many places were widened and improved, and the Schedule increased by about 9 miles.

In 1920 the effect of the increasing motor truck traffic became very marked; the roads not having been originally constructed for such heavy axle loads, and a programme of road reconstruction and strengthening had to be commenced. In 1925 this work was still in hand. The length of main roads open to traffic was 2,263 miles, and the average cost of maintenance exclusive of Flood Damages and Special Services about £83 per mile.

#### PUBLIC BUILDINGS.

On the inauguration of the new Constitution in 1866, the Director of Roads also assumed the charge and supervision of the Public Buildings. But no new permanent buildings were taken in hand until the year 1870. Since then various buildings have been erected by the department for the accommodation of the public service in different parts of the island, including court houses, police stations, public hospitals, industrial and other schools, residencies for Inspectors of Police, &c.

Other public buildings have been enlarged and improved.

The new public buildings are situated on the east and west sides of King Street between Barry Street and Tower Street in the City of Kingston.

They form part of a general scheme for the rehousing of the Government offices, the remainder of the scheme includes laying out the land (purchased by the Government after the earthquake) which lies as a square between Peter's Lane on the west and Church Street on the east; Barry Street on the north and Tower Street on the south.

The two blocks of buildings are laid out so as to leave a strip of grass and trees about 71 feet wide and 187 feet long on either side of King Street, at the north end both blocks are wider and approach to within 61 feet of the centre line of King Street, so that even here the open space is 122 feet wide. This narrower portion is 124 feet long (N. and S.)

The following is the general arrangement:—

*Western Block.*

**The Post Office Department.**

**On ground floor**—Circulation Branch. With access for the public to the following:—Stamp selling department, Registered Letters, Post Restante, Newspapers, Telegraphs, Money Orders and P.O. **Top floor**—Audit Office; Collector General's Office; Income Tax Office.

*Eastern Block.*

**Ground floor.**—Administrator Genl. and Trustee in Bankruptcy; Insp. Genl. of Police; Bailiff.

**1st floor**—Supreme Court and Registry; Attorney General's Office; Law Library; Kingston Court and Offices.

**Top floor**—Dir. of Education; Board of Education; Surveyor General; Registrar of Titles.

The two blocks of buildings are of similar design and are constructed throughout of re-inforced concrete on the Coignet system. The architectural work was done by Messrs. Nicholson & Corlette, of London.

Work was begun on the western block in November, 1908, and the building was taken over from the Contractor, in April, 1910. The total cost exclusive of furniture and fittings was about £31,000.

The second block on the east side of King Street, was completed in November, 1912.

In 1923, the accommodation for Postal and Revenue Departments in the Western Block had become inadequate and the Parcel Post Office, Stamp Office, and Collector of Taxes Office, were therefore transferred to a large concrete building extending from Peter's Lane to Orange St., which had been acquired by the Government in 1920.

**OTHER WORKS.**

Among the other important works carried out by the Department are the establishing of the extensive Irrigation Works in connection with the Rio Cobre; the construction of the Vere Irrigation Works, the erection of the Post Office Telegraph lines; the erection of a large and convenient Market in Kingston, with public landing places on the harbour; the enclosing and laying out of the square as a Public Garden; the erection of Gas Works, in Kingston; the purchase of the rights of the Kingston Water Company and the improvement of the Works, whereby Kingston has been given a constant water service which is excelled in few places either for quality, quantity or pressure; the erection of Slaughter Houses for Kingston; and the establishment and working of a system of water supply for Spanish Town, Old Harbour, Morant Bay, Port Antonio, Port Maria, St. Ann's Bay, and Montego Bay; improvement to that at Falmouth and the erection of a concrete dam 45 feet in height at Port Antonio to form a large impounding reservoir.

## JAMAICA GOVERNMENT RAILWAY.

*Kingston Terminus: Barry Street.*

THE Jamaica Railway, under a private Company, was opened for traffic in 1845 to Angels Station—a distance of 14 miles 5 furlongs. In 1869 an extension from Spanish Town to Old Harbour was opened—a distance of eleven miles. In 1879 the Jamaica Railway Company was bought out by the Government of the island for the sum of £93,932, which at the time of the sale represented a capital expenditure of upwards of £267,000. The extension to Porus, 24½ miles from Old Harbour, was opened for traffic in 1885, and that from Angels to Ewarton, 14½ miles, later in the same year.

The Government sold the Railway in 1890 to an American Syndicate, for £800,000 under covenants for the extension of the line to Montego Bay and Port Antonio. In 1894 the extension to Montego Bay was completed—66 miles. In 1896 the extension to Port Antonio was opened—54½ miles.

Under the powers reserved to the Government by the conditions of the agreement for the sale, the line was forfeited to the Government for default in payment of interest on the mortgage Bonds on which the capital was raised, and in 1900 the Supreme Court signed the order vesting the Jamaica Railway in the Government of the Island. It has since been administered as a department of the Government.

In 1913 an extension of 13 miles of line from May Pen to Chapelton up the Rio Minho Valley was opened for traffic, making the total length of line 197½ miles, and in April,

1921, a further length of 2½ miles, from Linstead to New Works, was opened to traffic making a total length of 200 miles.

On the 18th March, 1925, the Chapelton to Frankfield extension was opened for traffic, bringing the total length of the line to 210 miles.

#### CROWN LANDS DEPARTMENT.

*Office. Public Buildings, King St., (East Block), Kingston.*

SHORTLY after the commencement of Sir John Grant's administration a Survey and Lands Division of the Public Works Department was established and the Director of Roads was constituted its head. The officer in charge of the division was styled the Government Surveyor.

On the 1st October, 1890, the Survey Branch was organised as a separate service, and the Government Surveyor was appointed head of the Department under the designation of Surveyor General.

Government lands have now all been classified, their histories and titles (most of which were previously unknown) inquired into and surveys made and possession taken, in cases where, formerly, the lands had been either unpossessed or in adverse possession. In addition, the titles to lands held by trustees for certain Government purposes and those strictly parochial have been enquired into and verified, and the lands have been surveyed and placed upon stable and certain tenure, and those not required for Government purposes have been leased at fair rentals.

There were also at the time of the establishment of the Lands Department numerous properties all over the island in the possession of squatters, and there were vast tracts on which ordinary quit rents had not been paid for many years. Much of this land was either unowned or unrepresented.

By successive Acts from 1867 to 1887 the Government became the trustees of all lands in the possession of persons without any legal or equitable title. The owners may recover the lands upon payment of the expenses incurred by the Government, but after seven

years the Government have the power to sell. In this way 27,073 acres have been recovered from 1,600 squatters. These lands are situated in various parts of the island and consist chiefly of abandoned estates and plantations, whose owners were either not known or who had so neglected their properties that they fell into the hands of squatters. Of this land much has been restored to its legitimate owners, much has been sold after the expiration of the seven years' trusteeship, and the remainder is still in the possession of the Government and leased to various persons. The rents from these lands and others amounted to £3,296 for the year ended 31st December, 1924.

Law 5 of 1871, and its amendments up to 1896, regulate the forfeiture of lands for non-payment of quit rents. Under these Laws the particulars of no less than 969,604 acres have been investigated, the areas and boundaries ascertained, and the lands advertised as liable to forfeiture. Of this about 254,938 acres have been actually forfeited to the Crown; the quit rents on a great deal of the rest have been paid and much remain in process of forfeiture. These forfeited lands are located chiefly in the interior of the island and much of it is very advantageously situated and suitable for new settlements. A large part of it extends over the north-eastern portion of the parish of Portland and the central parts of Trelawny and St. Ann. All these regions consist of virgin lands and much is well watered with numerous springs, possessing a most salubrious climate, ranging from 2,000 to 6,000 feet in height, and embracing some of the finest coffee lands in the island.

The geological formation is chiefly of white limestone series.

On 16th November, 1895, a scheme for the sale of Crown Lands to settlers was brought into operation and actively pursued for ten years. In 1905 it was partially suspended owing to the large area that remained in the possession of purchasers to be paid for. On 3rd December, 1914, the scheme was started afresh under amended rules, which were again revised on 15th March, 1916. Under the revised Rules, Land Boards were set up in seven parishes, in which the Crown owns sufficient land to justify their formation. Not less than 5 nor more than 300 acres can be sold to any one person, except in cases specially approved by the Governor.

A deposit of one-fifth of the purchase money for the land required must be made by the applicant, after which a survey of the land is made and the applicant is placed in possession, the remaining four-fifths of purchase money together with the cost of survey, and title being payable in ten years by 10 equal yearly instalments. If within the period of 10 years the purchaser shall have brought one-fifth of his acreage into good bearing in kola, coffee, oranges or other permanent crop-producing plants, and shall have erected and maintained in good order on the land a suitable dwelling house to the approval of the Surveyor General, he is released from payment of, or is refunded, as the case may require, one-fifth of the purchase money. Up to 31st Dec., 1924, 5,335 lots covering 43,830 acres have been sold and put in possession of instalment and outright purchasers who have paid £56,138 10s. 11d.

The following table shows the Government lands that are under lease; those that are unoccupied, and the parishes in which they are situated:—

NOTE.—For Rules as to sale of Government Lands see Part XI.

The stir created by the Government in regard to lands squatted on and land liable to forfeiture for non-payment of quit rents, has induced many people to look after properties which they before deemed almost valueless; and it is believed that many more squatters have been evicted by private individuals than by the Government, and numbers of persons have been induced to pay up the quit rents upon their outlying land.

The Government have realized £67,453 18s. 11d. from sales of land, while the lands escheated have been valued at £3,159.

The Department has also had numerous references from the Colonial Secretary's Office and other Departments, involving considerable investigations; searches in the Island Record Office and reports; also correspondence with and instructing the several Government Bailiffs in possession of Government lands all over the island, and receiving and checking their accounts.

Numerous plans, of particular places as well as of districts, for the use of the Government in various ways, have been prepared; and surveys for the Rio Cobre Canal, Railway extension, and for new roads, &c., have from time to time been made.

The Survey Branch has also prepared, in duplicate, cadastral plans, on a scale of four inches to one mile, for the use of the Collectors of Taxes, of all the parishes of the island. These plans represent every property and parcel of land from ten acres and upwards, and show their extent, area, boundaries and names as well as the names of the owners; also the roads, rivers and other topographical details.

In 1889, when the Jamaica Railway was sold to Mr. Frederick Wesson and his associates on condition that the existing lines were extended to Montego Bay and Port Antonio from Porus and Bog Walk, respectively, the Surveyor-General was charged with the duty of acquiring lands for the tracks of these extensions.

Under the 34th section of the agreement attached to Law 12 of 1889, the Promoters of the Railway were entitled to one square mile of Government land for each mile of Railway constructed, and 74,443 acres, or 116½ square miles of land were conveyed to them, leaving 2,367 acres, or 3½ square miles selected by the Promoters, and to be conveyed to them on forfeiture. These lands, which were in the hands of the Administrator-General on behalf of the Receivers of the West India Improvement Company of New York, passed back into the hands of the Government in 1911, by purchase at 5/ per acre. A large part of them extends over the northern portion of the parish of St. Thomas and the southern part of Portland. All this region consists of virgin lands and is well watered with numerous springs and rivers. It possesses a most salubrious climate and ranges from 2,000 to 6,000 feet in height, and it embraces some of the finest coffee land in the island. The geological formation is chiefly of trappean and metamorphosed series, and it is of the same character as the once rich coffee lands of the parishes of St. Andrew and St. Thomas; but as these are getting worn out this land is the only remaining coffee land of a first class character in the island. It possesses minerals: copper, cobalt, lead and manganese having been discovered in several places. The climate in the higher parts is extremely cool, and is suited to the labour of white men in the open air. European fruits have been cultivated in some of these localities.

## GEOLOGICAL DEPARTMENT.

In October, 1921, Mr. C. A. Matley, D.Sc., F.G.S. was appointed Government Geologist for the purposes of reporting on the prospect of finding water in various parts of the Island. His functions were extended in 1922 to geological investigations for economic purposes generally, but water supply matters occupied most of his time.

In 1924, Dr. Matley made a report on the Geology of the Island and resigned his appointment on the 17th of April. Mr. G. M. Stockley, A.R.C.S., A.I.C., was appointed Geologist, but as the Legislature declined to vote the necessary funds Mr. Stockley resigned, and the recently formed Department ceased to exist.

## JAMAICA WEATHER SERVICE.

*(At the Public Works Building.)*

A Meteorological Service was established in 1880 in order to have the usual instruments read and recorded at Kingston, to encourage the registration of the rainfall throughout the island, and to give warning of approaching hurricanes. An annual grant of £150 was made for this purpose, and Mr. Maxwell Hall was put in charge of the service: he had to supply the necessary instruments, and to provide for his own assistants.

A first class station was equipped in Kingston. The registration of the rainfall was encouraged by issuing a monthly Weather Report to all the contributors. Mr., now Sir Daniel Morris, established a very fine high-level station at the Cinchona Plantation, 4,900 feet above sea-level, and also took readings on the Blue Mountain Peak.

A large number of investigations referring to such matters as cyclones, wind movements, earthquakes, lightning, magnetic variation, tides, &c., were published from time to time in the Weather Reports, which were so arranged that they could be bound into volumes. In 1892 Rainfall Maps of Jamaica were published by the Institute of Jamaica. A second edition entitled "The Rainfall of Jamaica from about 1870 to end of 1909 with maps" was published in 1911, and a third edition, 1923.

In 1898 the United States Weather Bureau established a first class station at Halfway Tree, as a part of their service in the West Indies and South America. All their stations reported more or less continuously to Washington, and storm-warnings were issued from Washington which were of great service to the whole of the West Indies. The local Weather Service was disestablished at the end of the financial year, and an annual grant of £50 was made to continue the Weather Reports. The observers at Halfway Tree were recalled, and the instruments were sent to the offices of the Direct Cable Co. in Kingston. The hurricane of 1903 occurred: and the earthquake of 1907 wrecked the instruments. In 1907 the Weather Service was re-established; the United States Weather Bureau undertook to establish a first class station at the Public Works Office, and the Kingston observer was to supply them with cablegrams during the hurricane months. Mr. J. F. Brennan of the Public Works Department was appointed as observer in Kingston and Mr. Maxwell Hall was given charge of the whole service.

Upon the occurrence of the death of Mr. Maxwell Hall in February, 1920, M. J. F. Brennan succeeded as Government Meteorologist.

There are now a First-class station at Kingston; Second class stations at Morant Point, Light House, Negril Point Light House, and Climatological stations at Castleton Gardens, Hope Gardens, Stony Hill Industrial School, Hill Gardens.

Storm warnings are based on the general circulars issued from Washington, and are modified, if necessary, by the local service; notices are posted at all the telegraph stations, and the shipping in the ports are duly warned, according to the system published at the commencement of each hurricane season.

At the request of the Admiralty, for the use of Mariners, Wireless Broadcast Weather Messages, giving data of the forenoon and afternoon daily observations taken at Kingston, was adopted from 23rd May, 1921. No code is used, but messages are broadcast "en clair" at 8 a.m. and at 8 p.m., 75th Meridian Time, giving the 7 a.m. and 3 p.m. barometer readings, wind velocities and weather conditions. The Call Signal being V.Q.I. and messages addressed C. Q. Wave length used in 600 meters on Spark System. The work of broadcasting is conducted by the Direct West India Cable Company.

## AUDIT OFFICE.

*Public Buildings (West Block), King Street.*

THE expenditure of the various Government Departments is checked and examined every month.

Under a law passed in 1888, the Accounts of the various Parochial Boards are audited under the direction of the Auditor General, and the Accounts of the Kingston & St. Andrew Corporation under Law 3 of 1923. In September, 1914, the audit of the Railway Accounts was placed under the direction of the Auditor General.

## TREASURY.

*Public Buildings (West Block), King Street.*

THE Receiver General's Office, the headquarters for the collection of all duties, was one of the most ancient institutions of the colony. It was at first established at Port Royal and the records narrowly escaped destruction in the great fire of 1703. In that year it was (with other public offices) transferred to Kingston.

In 1733 a law was passed requiring the Receiver General or his Deputy to attend at his office on all working days from 9 to 11, and from 2 to 4, under a penalty of £20 for every default; and in 1802 he was granted a salary of £7,000 currency (equal to £4,200 sterling) in lieu of commissions, except the five per cent. payable to him under the Permanent Revenue Act of 1728. Subsequently the salary was reduced to £3,000 which was the amount received by John Edwards, the last patentee of the office.

The Receiver General was, by a law passed in 1733, prohibited from lending out the public moneys or of being concerned in any commercial or other transaction, or of holding any other office or appointment whatsoever. His salary was reduced to £1,000 in consequence of the appointment of an Auditor General; but in 1851 it was increased to £1,200 per annum, and the commissions payable to him under the Permanent Revenue Act, and all such fees as he had been accustomed to receive, were made payable into the Treasury for the use of the island.

Law 4 of 1868 repealed the previous Law, in which the rate of interest payable by the Bank on the daily cash balances was specified, and enacted "that the Governor, with the advice of the Privy Council shall from time to time establish such rules and regulations as may be necessary for keeping the accounts of the Receiver General with such bank or banking institution, and also for the payment and appropriation of the mon ys paid

therein." Under one of the rules now in force the same rate of interest as heretofore, namely, 3 per cent. is payable by the Bank on the daily cash balances.

Law 3 of 1868 granted to the Governor the power of prescribing regulations and forms for the guidance of all parties having the receipt, collection and payment of the public revenue, and repealed all previous acts detailing these duties.

Law 10 of 1868, abolished the office of Receiver General and created the office of Treasurer giving him all the power and charging him with all the duties hitherto performed by the first-named officer. The third clause of this Law placed the Treasurer's department under the supervision and control of the Revenue Commissioner appointed under Law 8 of 1866. At the same time the Customs was formed as an independent department, Law 4 of 1869 created the office of Collector General who is now charged with some of the duties of the Receiver General. Until the earthquake of January, 1907, the Treasury was in Harbour Street, where it was first established in 1703.

A Parochial Treasury was established in every parish in 1868, the Collector of Taxes being placed in charge as Local Treasurer. Formerly there was no means of making local payments, however small the amount, except by bills on Kingston. Persons receiving small salaries and all others who had to receive small sums of public money, such as parochial road contractors for example, were seriously inconvenienced under this system, for they could not get their bills cashed on the spot, without submitting to a heavy charge by way of discount. The smaller the bill and the poorer the holder the more discount he had to pay to get his own money; and this occurred while the Collector of the parish might be put to some risk and difficulty in remitting his collections to Kingston. Under the new system all local payments, so far as local receipts may make it possible to do so, are paid at the Parochial Treasuries under orders, general or special, from the Chief Treasurer.

On the 1st May, 1879, an Inland Money Order System was also established in connection with the Treasury. Orders obtained at the office in Kingston are payable at any Parochial Treasury, and each Parochial Treasurer is authorized to issue orders payable at the Treasury in Kingston or at the following Parochial Treasuries: Morant Bay, Port Antonio, Port Maria, St. Ann's Bay, Spanish Town, May Pen, Mandeville, Black River, Savanna-la-Mar, Falmouth, Montego Bay, Lucea. The commissions chargeable are as follows:

For sums under 10s.	2d.	For sums of £5	and under £6	7d.

## GOVERNMENT SAVINGS BANK.

*Public Buildings (West Block) King Street.*

THE Savings Banks were first established in the Island in the year 1837 under the Act 7 William IV c. 6; but it was not until 1870 that the Government found it necessary to start a Government Savings Bank and Law 20 of 1870 was passed, which Law was amended by Law 33 of 1882. The Government Bank was carried on with success, but on the Commercial Banks starting Savings Branches, which gave higher interest and greater facilities to their depositors, the deposits in the Government Savings Bank declined, and after pressure of public opinion it was decided to reorganise the Government Savings Bank, and as a result, Law 7 of 1917 was passed. This Law repealed the laws in force. Under Section 5, the Governor appointed a

## BOARD OF MANAGEMENT.

W. M. Fraser, *Actg. Chairman.*  
R. H. FletcherE. W. Lucie-Smith, *Vice-Chairman.*  
H. A. L. Simpson, O.B.E.

New Regulations have been brought into force, with the object of giving the public facilities equal to if not better than the Commercial Banks.

The reconstruction of the Bank took effect as from 1st January, 1919, and the policy that the Board has decided to pursue is that of extending the facilities of the Bank in order that it must soon gain the confidence of the public. At the present time, it is estimated that over £2,000,000 of the savings of the people of Jamaica are deposited in the Savings Departments of the Commercial Banks, which savings are to a large extent invested by these Banks outside of Jamaica, with the consequence that Jamaica receives no benefit in its development from the savings of its people. In enacting Law 7 of 1917, provision was made that the funds of the Bank could be invested as under:—(i) In British and Colonial securities. (ii) In loans to Agricultural Loan societies. (iii) In real securities in Jamaica. (iv) On deposit in Banks. (v) In any other manner authorised by the Governor in Privy Council.

The class of investment as detailed above assures the depositor of absolute security for his deposit over and above the Government guarantee, which is absolute. Besides, he knows that to a large extent the money that he deposits in the Government Bank is going to be used for the development of the Island in which his own welfare is wrapped up. If the Island prospers, it is up to him to gain by that prosperity and with thrift to increase his deposit. Consequently, for all Jamaicans and persons interested in Jamaica it is to their advantage to support the Bank. Among the advantages of the Bank are (i) Absolute security. (ii) Interest compounded half yearly at 3% per annum.

Money lodged in Kingston can be withdrawn at any of the Branches of the Bank at the Post Offices, and money lodged at any of the Branches of the Bank can be withdrawn in Kingston.

Free postage.

The Bank has now 71 Postal Branches throughout the Island. In its first year under the new management, there was an increase of 71%

## STAMP OFFICE.

*Old Grace Building, Oliver place and Barry Street.*

STAMP DUTIES, which were first imposed in this colony in the year 1760, have always extended over a wide area, and, following the English Laws, made dutiable mercantile transactions, law proceedings, the transfer of property, probates of wills, legacies, powers of attorney, land surveyors' commissions policies and various other documents of a similar character. The Commissioners of Public Accounts were first appointed to superintend the collection of these duties, they were succeeded by two Commissioners of Stamps and finally the office was confined to one Commissioner, in association with the Receiver-General. The use of adhesive stamps was added to that of impressed stamps in the year 1855, but they are now legal only on Customs Warrants, Receipts and Bills of Exchange and Promissory Notes drawn abroad and in any manner negotiated in this Island, also letters of allotment and renunciation, Powers of Attorney for voting by Proxy and on Bills of Sight under the Customs Consolidation Law 1877.

The Governor may appoint Distributors of Stamps, and Collectors and Assistant Collectors of Taxes and District Postmasters are *ex officio*, Revenue Stamp Distributors. A discount of 2½ per cent. is allowed on purchases of £5 at a time made by vendors of adhesive stamps; in no other case is discount allowed.

Bills of exchange, inland and foreign, promissory notes and foreign bills of lading can now be stamped within seven days after execution. Any other document of the description of an agreement, power of attorney, &c., which is not liable to *ad valorem stamp duty*, should be stamped before the expiry of 14 days of its 1st execution, otherwise a penalty of £5 is incurred.

Any document, on which is payable *ad valorem stamp duty* such as conveyances, mortgages, leases, &c., should be stamped before the expiration of 30 days so as to avoid incurring a penalty of £5 and a further penalty equal to the stamp duty thereon.

No penalty is imposed on documents first executed out of the island if stamped within 30 days after arrival in this colony. Spoiled stamps are exchangeable in amounts of 5s. and over, within six months of the spoiling or return to the island of the instrument bearing the stamp. Unstamped documents, liable to Stamp Duty, are receivable in evidence in criminal proceedings.

A return of the shareholders of all banking co-partnerships, except those established by Royal Charter, is required to be lodged yearly at the Stamp Office. A composition of 3 per cent. is payable quarterly on the notes issued by any banking corporation, to whom also a yearly license is issued by the Commissioner of Stamps.

Stamps are affixed upon Petty Sessions process and licenses, indicating the duty thereon. They are now, however, returnable as stamp revenue except a small portion thereof.

Mortgages, conveyances, bonds or other securities made or given to or by Building Societies, which were formerly exempt from stamp duty, are now made liable thereto, with the exception of mortgages to Building Societies which are not taxable till they exceed £500. A stamp duty of two shillings per one hundred pounds, and of one shilling per one hundred pounds is charged for registering and transferring Debentures, respectively, under Law 32 of 1887.

LEGACY DUTY is chargeable on all legacies, the rates varying according to the consanguinity of the legatee to the testator from 1% to 10%. Legacies, however, for the benefit of the husband or wife of the deceased are exempt.

A receipt for legacy must be stamped within twenty-one days from the date thereof.

ESTATE DUTY, and Interest collected from April 1st, '24 to 31st March, '25 was: £19,933 18s. 1d.

The probate duty received for the financial year 1924-25, was £922 2s. 3d. The Legacy duty for the same period was £7,798 10s. 0d. The total collections on account of stamps for the financial year 1924-25, were £72,643 5s. 9d. Under the provisions of Law 20 of '98, Stamp Duty is payable on all "Successions" to personal or real property. This Law came into operation in July, 1898. Duty collected for the year 1924-25, is: £7,152 16s. 5d.

Seventeen Laws and parts of Laws were consolidated and repealed by the Stamp Duty Law 40 of 1903. The following laws are read with or are cognate to this Law:—Law 16 of 1879—Legacy Duty Law; 27 of 1886—Imposing Duty on Building Society Mortgages, &c.; 14 of 1898—A Law to Amend the Legacy Duty Law, 1879. 20 of 1898—The Succession Duty Law, 1898. 7 of 1899—A Law to amend the Succession Duty Law, 1898; 6 of 1900—The Succession Duty Law, Amendment Law, 1900; 17 of 1910—The Stamp Duty Amendment Law 1910; 29 of 1911—A Law to amend 17 of 1910, and further to amend Law 40 of 1903; 3 of 1914—A Law further to amend the Stamp Duty Law of 1903. Law 21 of 1916 repeals the payment of Probate Duty. Law 10 of 1919—A Law further to amend the Stamp Duty Law of 1903. Law 13 of 1920, a Law further to amend the Stamp Duty Law, 1903.

Estate Duty Law 21 of 1916 imposes Estate Duty on the value of Real and Personal property according to the graduated scale denoted at sec. 18 of the Law. 18—(1) The rate of estate duty shall be according to the following scale:—

## SMALL ESTATES.

This Law shall not apply to representation in estates where it is made to appear to the Court to which application is made that the gross value of the estate does not exceed £100. Amended by Law 40 of 1920 to £500 dated 31.8.1920.

Law 27 of 1916. This Law may be cited as the Death Duties (killed in war) Law Exempts from the payment of Death Duties under the circumstances indicated in sec., 2 thereof.

Law (17 of 1910) amends Law 40 of 1903, and consolidates and amends other Laws amending this Law. Under section 3 the Collector General becomes Stamp Commissioner, and the Governor has power to appoint a Deputy Stamp Commissioner.

Law 7 of 1916—A Law to increase the Stamp Duty on certain documents.

No Stamp Act was in force during the undermentioned periods:—

From 1st January to 9th May, 1809.

From 1st January to 24th October, 1333.

From 1st January to 31st December, 1842.

The present system of stamping documents is by direct impress by dies in self-recording presses, and also by means of over embossed stamps.

Bond, Covenant or instrument of any kind whatsoever creating a security, conveyance, lease, mortgage, bond, debenture, settlements, transfers, re-conveyances, assignments may be stamped within thirty days from date of execution.

Stamped forms and papers are obtainable at the Stamp Office, Kingston, and at the offices of the several Collectors and Assistant Collectors of Taxes, and at all Post Offices in the country.

Deeds and other documents may be sent to the Stamp Office, Kingston, through the various Collectors and Assistant Collectors of Taxes upon the full amount of Stamp Duty being paid to the Collector or Assistant Collector of Taxes at the time of handing in the deeds or other documents to be sent to the Stamp Commissioner.

## CUSTOMS, EXCISE AND INTERNAL REVENUE.

THE Revenues of the Island—parochial as well as general—are collected and accounted for by a Department under the control and direction of an officer styled the Collector General of customs, excise and internal revenue, in whose office is a staff consisting of a chief clerk and nineteen other clerks, divided into three classes. In the Collector General's office (Public Buildings, King Street) in addition to the duties devolving on a department charged with the management and direction of the officers employed in the collection of a large and varied revenue, the accounts of the collecting officers are thoroughly examined, and the statistical returns for the whole island are compiled.

In Kingston separate establishments are maintained for the collection of customs revenue and the collection of the excise and internal revenues; but in the other parishes the whole of the duties are performed by the collector of taxes or by subordinate officers acting under his supervision.

The staff for the conduct of customs business at the port of Kingston consists of a Collector, who is also shipping master and inspector of invoices; a Chief Clerk, four first class clerks; six second class clerks; four assistants; a surveyor; an assistant surveyor who is also chief tide surveyor, ten landing waiters; a tide surveyor at Port Royal and twenty-five out-door officers, divided into three classes. The staff for the collection of excise and internal revenue consists of a first class collector; a second class collector, one assistant collector; two assistants; and five lockers and gaugers.

The staff in each of the other parishes consists of a collector, one or more assistant collectors, landing waiters, lockers and gaugers, clerks and assistants.

Each collector of taxes is stationed at the principal town of the parish, and (except in Kingston) besides the duties devolving on him in connection with the collection of revenue he has to discharge the duties of parochial treasurer, and as such has charge of the local treasure chest, into which all local payments pass and from which all local claims against the Government are met. The Collector issues and pays money orders drawn on and by the Treasurer in Kingston or any other collector of taxes. The collectors do not travel except in special cases when ordered by the head of the department. In their offices are prepared and kept the rolls of taxpayers and collections, the valuation roll, the militia register and the register of licenses.

Assistant collectors of taxes possess the same powers of collecting and enforcing the payment of taxes as collectors. One or more are allotted to each parish, according to its size and importance, and they are stationed either at the collector's office or at some place of importance, in the parish. They are subordinate to the collectors and aid them by receiving money at their offices and at fixed stations throughout the parish, which they visit periodically for the convenience of the taxpayers. The several distilleries in the island are under the inspection of these officers, who visit them at uncertain periods for the purpose of comparing the still house books and vouchers and checking the quantity of rum on hand.

Collectors and assistant collectors of taxes are also distributors of stamps.

All collectors and a few assistant collectors are provided with clerks to assist in filling up in-givings and receipts, keeping the office records, and performing clerical duty generally. These officers are not allowed to receive revenue as they are not under security for that purpose. One clerk in each office is required to act as check officer. He is required to give security for the faithful performance of his duty. This clerk initials all vouchers in proof of their correctness; he checks and initials the entries in the cash book, counts the cash at the close of the day with the collector to see that the public money in the chest agrees with the cash book and keeps a second key of the chest.

Collectors and assistant collectors are required to enter into substantial security for the proper collection of, and accounting for, money; and are guaranteed by the Jamaica Civil Service Mutual Guarantee Association.

## IMPORT DUTIES.

A Law to Consolidate and Amend the Laws Relating to Duties on Imports.

Be it enacted by the Governor and Legislative Council of Jamaica, as follows:—

1—This Law may be cited as "The Tariff Law, 1922," 4 of 1925.

2—(1) On and after the coming into operation of this Law, there shall be raised, levied, collected and paid unto His Majesty, his heirs and successors, for the use of the Government of this Island, upon the several articles imported into this Island and enumerated in the First Schedule to this Law, the several duties therein set forth, subject to the following conditions, viz.:—

(a) The rates of duties set forth in the column headed "Preferential Tariff" of the First Schedule shall apply to goods the growth, produce or manufacture of the United Kingdom or the Dominion of Canada or of any part of the British Empire to which any preferential tariff in force in the Colony for the time being has hereafter been made to apply by action taken under Sec. 26 of this Law: Provided that such goods shall be accompanied by such evidence of origin as may be prescribed by the Governor in Privy Council from time to time.

(b) The rates of duties set forth in the column headed "General Tariff" of the First Schedule shall apply to all goods not entitled to admission under the column "Preferential Tariff" of such Schedule.

(2) The Governor in Privy Council may from time to time make Regulations for carrying out the purposes of this section. All such Regulations shall be published in the Jamaica Gazette and shall have the force of Law.

3—The articles enumerated in the Second Schedule to this Law shall be admitted into the Island free of duty.

4—Anything in the next preceding two sections to the contrary notwithstanding the articles enumerated in the Third Schedule to this Law when imported into the Island for temporary use either by an owner or by an exhibitor but not for sale, provided that the articles enumerated in items 2 and 3 had been in use abroad, shall be admitted on the security of a deposit of thirty per centum of the duties leviable on similar articles if import-

and for Island use, such deposit to be refunded on the exportation of the articles by the owner or exhibitor within two months of importation. Should the articles not be exported within two months of importation the Collector shall withhold a sum equal to five per centum of the duty payable at time of importation for each month or part of a month during which such articles are kept in the Island beyond the specified period of two months up to the limit of eight months. But if not exported within eight months of the date of importation the articles shall be deemed to have been finally imported for Island use and shall be entered and the duty thereon paid in the manner prescribed by sections 48 and 49 of Law 18 of 1877, or by any Law passed in amendment thereof or substitution thereof, allowance being made for any deductions already taken and brought to account from the amount deposited.

Articles deemed to have been finally imported for Island use, if not entered and duty paid as aforesaid, shall if sold or kept in the Island beyond eight months be liable to be seized as "uncustomed" goods under the provisions of section 156 of Law 18 of 1877 or under any Law passed in amendment thereof or substitution thereof or the person appearing as the importer may be proceeded against under section 34 of Law 24 of 1885, or under any Law passed in amendment thereof or substitution thereof.

5—The articles enumerated in the Fourth Schedule to this Law shall pay duty at the rate of Five per centum ad valorem: Provided that if they are the growth, produce or manufacture of the United Kingdom or of the Dominion of Canada or of any other part of the British Empire to which any preferential tariff in force in the Colony for the time being has hereafter been made to apply for by action taken under Section 26 of this Law, such articles shall be admitted into the Island free of duty.

6—In every case in which the value of goods imported into this Island is to be ascertained for the purposes and in manner provided in section 2 (1) of Law 20 of 1912 or under any Law passed in amendment thereof or substitution thereof and in which exchange is a part of such value the rate of conversion shall be taken as that prevailing between Jamaica and the country whence the goods are imported on the day that due report of the ship bringing the goods shall be made in pursuance of section 42 of Law 18 of 1877, or under any Law passed in amendment thereof or in substitution thereof.

7—(1) In this Law the expression "Cotton Piece-Goods" means all woven fabrics made entirely of cotton in piece lengths but shall exclude all cloth manufactured in the piece with a border or selvedge marking a point for cutting to make up into an article of a distinctive character.

(2) The Preferential Tariff for Cotton Piece-goods shall apply to the following parts of the British Empire:—Empire of India, Dominion of Canada, Newfoundland, Dominion of New Zealand, Commonwealth of Australia, Union of South Africa, British Possessions and Protectorates in Africa, Fiji, Malta, Gibraltar, Cyprus, Hong Kong, Ceylon, Straits Settlements, Mauritius, Falkland Islands, Seychelles, St. Helena, British Honduras, Bermuda, Bahamas, British Guiana, British West Indies.

8—Without prejudice to the generality of the power to make Regulations under other sections of this Law the Governor in Privy Council may by such Regulations provide for the certificates, invoices and bills of lading to be furnished in respect of all or any goods to which any Preferential Tariff in force in this Colony for the time being applies and may also by Regulations prescribe the conditions governing the direct importation of such goods and their passage through another country.

9—The ordinary outside casing or covering of any goods, wares or merchandise liable to a rated duty as set forth in the First Schedule, or exempt from duty as set forth in the Second Schedule shall be exempt from duty under this Law, except as hereinafter stated; but in respect of goods liable to duty on the value thereof, the value of all outside and inside coverings or receptacles containing such goods, together with the value of all labels, wrappers or other attachments, shall be deemed to be a portion of the value of such goods for duty, and shall be included in such value. Provided, that all packages or coverings containing free or rated goods, apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty, or separate from their contents.

All outside packages containing goods liable to rated duties as set forth in the First Schedule as well as goods liable to advalorem duty, shall be liable to advalorem duty, and when the package contains advalorem and free goods, the outer package shall be liable to the same rate of duty as such advalorem goods.

10—In the case of spirits subject to duty according to their strength of proof, such strength shall be ascertained by means of Sykes (or Sikes') Hydrometer; and in case such strength cannot be correctly ascertained by the direct use of the Hydrometer, it shall

be ascertained by the distillation of a sample and the subsequent test in like manner of the distillate.

11—Whenever goods liable to duty on importation according to the value thereof are imported, the invoice of such goods shall include the value of all packages, receptacles, coverings and wrappers, in which such goods are packed or contained, together with all charges due or payable in respect of the preparing, packing and putting up of the goods in the condition ready for shipment, and import duty shall be payable on the value of such packages, receptacles, coverings, wrappers and charges.

12—It shall be lawful for the Inspector of Invoices or other proper Officer of Customs without prejudice to the power to take samples for examination conferred by the Customs Consolidation Law, 1877, or by any Customs Law for the time being in force in this Island or by this Law, to accept as *prima facie* evidence of the character of cement entered for Island consumption a declaration of the consignor attested in writing by a reliable cement tester, in the country of manufacture, recognized as such by the Governor of this Island, that the article so entered is cement, conforming to the standard fixed by the Governor in Privy Council.

13—Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into this Island, or who being in this Island, has in his possession any bill-heading or other paper appearing to be a heading, or blank capable of being filled up and used as an invoice, and bearing any signature or other attestation purporting to show, or which may be used to show that the invoice which may be made from such bill-heading or blank is correct or authentic, is guilty of a misdemeanour and liable to a penalty not less than £20 and not exceeding £100, or in the discretion of the Court, to imprisonment, with or without hard labour, for a term not exceeding twelve months, and the goods entered under any invoice made from any such bill-heading or blank shall be forfeited.

14—Wines and malt liquors may be converted into vinegar in any Bonded Warehouse, under such Regulations as the Collector General may approve, and thereupon such wines and malt liquors shall be liable to the duty on vinegar only.

15—Upon the re-importation of articles once exported, of the growth, produce, or manufacture of this Island, upon which no internal tax has been assessed or paid, or upon which such tax has been paid and refunded by allowance or drawback, there shall be levied, collected and paid in such manner as the Collector General may direct, a duty equal to the tax imposed by the internal revenue laws upon such articles, if identified as island produce, and if not so identified, then such articles shall be subject to the same rate of duty as other imported articles of the same kind.

Whenever any goods upon which a drawback has been allowed under section 20 of this Law are returned to this Island such goods shall pay the import duty in force at the time of such return.

16. If any goods, wares and merchandise upon which any duty shall have been paid under this law, are duly exported within two years of their first importation there shall be a drawback in respect of such goods of an amount equal to the preferential duty mentioned in the column headed "Preferential Tariff" of the First Schedule to this Law: provided that where any duty has been paid on goods exported as ships' stores or on any of the articles enumerated in the Fourth Schedule to this Law there shall be a drawback equal to the amount of duty paid if the article is exported within two years of its importation; provided further that such goods are exported in the original, whole and unbroken packages in which the same were imported, and that no drawback of duty shall be allowed unless the amount of drawback on any one transaction is not less than four shillings.

Goods, wares and merchandise upon which any duty under Law 2 of 1922 shall have been paid, on its being proved to the satisfaction of the proper Officer of Customs that a mistake has been made and that such goods are not the goods ordered by the importer and that such goods have been returned to the exporter, if duly exported within three months of their first importation shall receive a drawback of the full duties paid on importation.

17—The duty paid on provisions and stores supplied by local merchants or contractors to His Majesty's Navy or Military Authorities in this Island for the use of His Majesty's Navy or Army, or to Naval Officers, or Naval Messes or to other branches of the Public Service and to Public Institutions, shall be refunded under such conditions and regulations as may from time to time be prescribed by the Governor in Privy Council.

Provided that such drawback, or refund shall be limited to such articles as would have been entitled to be admitted free of duty, had they been in the first instance consigned to the purchaser.

18—There shall be paid a drawback equal to the duty paid on their importation ~~on~~ shipbuilding materials, or accessories of any kind for shipbuilding which shall have been imported into this Island and used in the construction or repairs of foreign-going vessels of any kind, on presentation to the Chief Officer of Customs at the port of importation of a certificate to the effect that such materials and accessories have been used as aforesaid, under the hand of the builder or repairer of such vessel or boat, who used the same together with a declaration from such builder or repairer that he believes such ship-building materials and accessories to have been imported into the Island.

Paints and oils used in painting any foreign-going ship while temporarily in port shall be included in the term accessory.

19—Drawback of duties shall not be payable on goods which have become unmerchantable subsequent to importation or which have been in actual and bona fide use.

20—Where imported materials on which duty has been paid are used in the manufacture or putting up of articles manufactured or produced in this Island there shall be allowed on the exportation of such articles a drawback equal in amount to the duty paid on such materials so used: Provided, that when the articles exported are made in part from domestic materials, the imported materials, or the parts of the articles made from such materials shall so appear in the completed articles, that the quantity or measure thereof may be ascertained.

Provided also that where the actual quantity or measure cannot be ascertained by ordinary methods it shall be lawful for the Governor in Privy Council by regulation made under section 16 of this Law to approve an approximate scale of drawback.

21—On the exportation of bread or biscuit manufactured in this Island of imported flour, there shall be paid a drawback equal to the duty mentioned in the column headed "Preferential Tariff" of the First Schedule, on the flour used in making the same, but not to exceed the duty payable on a like quantity of bread or biscuit imported.

22—The several drawbacks under this Law shall be subject to the regulations and provisions of the several Acts or Laws for the time being in force with reference to such drawbacks.

23—In construing the language employed in Schedule 2 of this Law to describe articles intended to be free of duty the articles named as free must be considered in their primary character in relation to the use under which exemption is given. When the character of such articles has been added to, modified or changed by embellishment or combination with some other article whose primary character is other than that described against the article on the free list the consideration as to whether the composite article is liable to duty shall be the relative value of the component parts considered under the two schedules of the tariff, viz:—the schedule imposing duty and the schedule granting exemption. If the value of the dutiable portion exceeds the value of the portion coming under a description on the free list then duty shall be charged on the composite article; but if the value of the portion formed by any items appearing on the free list exceeds the value of the portion not exempted then the article considered in its complete character shall be exempt from duty.

24—No goods imported free of import duties under the provisions of any law, certificate or concession shall be sold or transferred without the importer notifying the Collector General, and paying such import duties as would be payable if the purchaser or transferee had, on the day of sale or transfer, imported the goods, and any such goods sold or transferred without such import duties being paid as are hereby declared to be payable, shall be liable to be seized wherever found and forfeited, and the person so selling the same shall be deemed guilty of an offence under section 157 of The Customs Consolidation Law, 1877 (Law 18 of 1877) or against any Law passed in amendment thereof or substitution therefor. The provisions of the last mentioned Law, and any laws amending the same or substituted therefor in so far as they relate to goods liable to be seized and forfeited under those Laws, or any of them, shall apply to goods liable to be seized and forfeited under this Law.

25—In amendment of The Customs Consolidation Law, 1877, (Law 18 of 1877) and Laws amending the same it is hereby provided that

- (a) The combined certificate of value and of origin and Form of Invoice set forth in the Fifth Schedule of this Law in respect of goods liable to advalorem duties shall be declared to in all cases where the rates of duties set forth in the

column headed "Preferential Tariff" of the First Schedule shall apply; and such certificate with the omission of the part headed "Origin" shall be declared to in all other cases of goods liable to ad valorem duties; and such certificate with the omission of the part headed "Value" shall be declared to in all cases where preferential duties other than those ad valorem shall apply and in all cases where duties other than those preferential and other than those ad valorem, General Tariff, shall apply the Form of Invoice alone shall be required. Invoices shall be presented in original and duplicate to the Collector of Customs who shall retain the original; Provided that in the event of an importer not having received a duplicate Invoice the Collector shall retain the original Invoice: Provided that the combined certificate of value and of origin and Form of Invoice above specified may be altered and amended from time to time by the Governor in Privy Council as provided in section 2, subsection 2 of this Law.

- (b) That after the words "any invoice" in the twelfth line of section 25 of Law 18 of 1877, there be inserted the words, "he may order an entry to be made by Bill of Sight under Section 51 of this Law, or"

26—The Legislative Council may from time to time by resolution extend to any part of the British Empire the whole or any part of the preference given by this Law to the United Kingdom and Dominion of Canada, and thereafter all the sections of this Law dealing with the Preferential Tariff shall apply to goods from such part of the British Empire in accordance with the terms of the Resolution.

By Resolution passed by the Legislative Council on the 6th July, 1922, under Section 26 of Law 2 of 1922, the Preferential Tariff was extended to embrace the Dominion, Colonies, and Dependencies, viz.: The Dominion of New Zealand, the Colonies of Cyprus, Fiji, Bahamas, Barbados, British Guiana, British Honduras, Trinidad, Leeward Islands, Grenada, St. Lucia, St. Vincent, the Dependencies of the Turks and Caicos Islands and the Cayman Islands. By a further Resolution passed on the 26th March, 1924, the Preferential Tariff was extended to Newfoundland and the Irish Free State.

27—In this Law the letters "p.c." in any one of the tariff columns in the First Schedule represent and have the meaning of the words "per centum, ad valorem."

28—Notwithstanding anything to the contrary contained in The Revenue Temporary Protection Law, 1898 (Law 23 of 1898) no import duty paid during the month of March, nineteen hundred and twenty-five under the provisions of the said Law 23 of 1898, in accordance with an Order issued under the said Law by the Governor in Council to the Collector General shall be repaid to the person who paid the same.

29—In the case of importations of goods the manufacture or produce of a foreign country the currency of which is substantially depreciated the value for duty shall not be less than the value that would be placed on similar goods manufactured or produced in the United Kingdom and imported from that country, if such similar goods are made or produced there. If similar goods are not made or produced in the United Kingdom, the value for duty shall not be less than the value of similar goods made or produced in any European country, the currency of which is not substantially depreciated.

The Collector of Customs may determine the value of such goods, and the value so determined shall, until otherwise provided, or determined by the Governor, be the value upon which the duty on such goods shall be computed and levied under regulations prescribed by the Governor.

30—The Laws mentioned in the Sixth Schedule to this Law are hereby repealed to the extent specified in the third column of that Schedule: Provided that any Regulations made under or by virtue of any of the Laws so repealed and in force at the time of the coming into operation of this Law shall continue in force, so far as the same may not be rendered inapplicable by any section of this Law, until fresh Regulations repealing or adding to the existing Regulations have been made under this Law.

31—The provisions of this Law relating to any preference given to the Dominion of Canada or to any part of the British Empire shall remain in force for and during the term of the agreement made with the Dominion of Canada and subject to the terms of such agreement.

on which Drawback

of duty will be claimed, and to request that an officer be detailed to examine and take account of the goods at

I am, &c.,

The entry on exportation required by section 100 of Law 18 of 1877 must be made previous to the Customs Officer's inspection of the goods.

A list giving the details of the goods for Drawback must be furnished by the Exporter to the Customs Officer, who will check each item with the list and retain it for verifying the Drawback claim in due course.

All goods for Drawback must undergo the personal examination of the Customs Officer and the contents of each package must be ascertained and certified on the Drawback papers by him.

In the case of unenumerated goods before certifying the shipment and exportation the original invoices must be produced to the officer and compared by him with the Drawback claim in respect of values, etc., and the certificate of the officer is to be in the following form:—

I hereby certify that the goods above-mentioned were packed in my presence, and the value of £                      was found to agree with the Invoice values upon which Import Duty was paid, and that the said goods were duly shipped on the                      dated                      for                      as per warrant No.                     

In the case of rated goods each package must undergo examination including weighing, gauging, etc., and the full particulars of such examination, including tares, returned on the Drawback papers by the Examining Officer, and the certificate of shipment and exportation for rated goods is to be in the following form:—

I hereby certify that the above-mentioned                      †were weighed in my presence and found to contain                      and that they were duly shipped on the                      as per warrant No.                      dated                      for                     

The name of the import ship and the number and date of the export warrant must be shown in the notice to export required by section 112 of Law 18 of 1877.

In the case of rated goods, Drawback will not be allowed when the quantity exported is less than one whole original package, complete and unbroken as when imported.

Drawback on goods exported will not be granted when the amount of duty to be refunded would be less than four shillings.

When Drawback is claimed on liquids exported in bottles included in items 1, 45, 46, 49, 59, 60, 61 and 71 of the First Schedule Section 2, Tariff Law 1911, the Officer must examine the contents of one bottle at least of each package, and when in bulk, the contents of each cask or other package. The strength of the contents of each bottle, cask or other package of spirits, brandy, whisky, gin and such like, so examined, must be ascertained by means of the Hydrometer, and recorded on the Drawback papers by the Customs Officer.

\* Here give general description of the goods.

† Or gauged, or measured and tested as to strength by me, &c., as the case may require.

When the following goods are entered for Drawback samples as hereunder set forth shall be taken and sealed up by the Customs Officer at the time of inspection, the Officer shall then forward such samples to the Collector after affixing to each one a label showing the particulars of exportation.

 and invoice, that the goods have been imported for the purpose of.....  
 .....

and that I am in a position to make this declaration by virtue of the goods having been specially prepared for the purpose and being prima facie unsuitable for other purposes than the use in connection with which exemption from duty has been granted by the Governor in Privy Council under Section 9 of Law 21 of 1911.

## WHARFAGE AS AMENDED BY LAW 9 OF 1923.

Public Wharfage is regulated by Law 15 of 1895 and Law 9 of 1923, and the following Schedules limit the charges of Wharfingers:—

- I. A Wharfinger in Kingston shall in the case of any of the goods enumerated in Schedules A and B to this Law which shall be landed or received at his wharf, be entitled to demand and receive wharfage at and after the rate stated in the first column of the said Schedules respectively opposite to such goods and in the case of any such goods landed at his wharf as shall be re-shipped from his wharf, wharfage at half the above rate.
  - II. The Wharfinger of any wharf out of Kingston shall be entitled, in respect of any of the goods enumerated in the said Schedules A and B, which shall be landed or received at his wharf to demand and receive wharfage at and after the rate stated in the second column the said Schedules respectively opposite to such goods, and in the case of any such goods landed at his wharf as shall be re-shipped from his wharf, wharfage at half the above rate.
  - III. A Wharfage includes receiving from, or delivering to, the ship (if alongside the Wharf) or lighter and stowing, shedding, weighing, skidding, gauging, securing and delivering together with all labour involved therein.
  - IV. In Kingston the storing referred to is limited to 14 clear days in respect of goods landed and enumerated in Schedule A and to three months in respect of those landed and included in Schedule B while in respect of goods received for shipment, the rates cover a period of three months prior to the arrival of the Ship in which they are to be shipped.
  - V. At Outports the charge for storing goods landed is covered by the Wharfage rate for a period of three months, the time in cases in which by the terms of the Bills of Lading, the goods are to be delivered free of Wharfage to be calculated from the expiry of 14 clear days and in other cases from the time of landing while in the case of goods received for shipment the rates cover a period of three months as in Kingston.
  - VI. For storing goods specified in Schedules A and B for any period in excess of the period of 14 days or three months, as the case may be, a Wharfinger is entitled to charge at the rate of one-fourth the specified rate for every additional month or part of a month.
  - VII. For lumber and coal the rates specified in Schedule C and D shall be charged: column 1 referring to Kingston and column 2 to the outports. In the case of lumber the charge covers a keeping on the Wharf for three months, and in the case of coal for six months.
  - VIII. Before extra Wharfage shall be charged the person chargeable or his Agent shall be given 3 clear days' notice of the Wharfinger's intention to charge extra Wharfage.
  - IX. For use of a Wharf for shipping fruit the Wharfinger shall be entitled to Wharfage at the rates stated in Schedule D.
  - X. Any goods not specifically named shall be charged for in proportion to the rate fixed provided that in respect of machinery and other heavy packages exceeding two tons in weight the charge shall be fixed by special agreement.
- Where any goods are left on a wharf after the time allowed by this Law a Wharfinger may by giving notice in writing by registered post to the consignees or shippers of such goods, request that such goods be removed from his wharf within such time as may be specified in such notice being not less than three months after the date of such notice; and in default of such goods being removed, storage may be charged at the full rate for each month or part of a month during which such goods may remain on the wharf.

## VALUATION COMMISSIONER.

A VALUATION of all real property in the island was undertaken in 1901, under Law 22 of 1901, to enable the Government to see whether one tax for general, and one for parochial purposes could be made to take the place of the many different rates then payable by landowners.

Prior to this, holders of real property were required to pay a house tax on its annual value, a property tax on each acre of land according to the cultivation or crop upon it, and a school tax on the annual value of houses. They also paid a quit rent of one penny per acre, and a holding tax according to the size of their holding. In addition to these, poor, sanitary and other rates were levied for municipal purposes.

A Valuation Commissioner was appointed to direct and bring to completion the preparation of the valuation rolls.

This law was a tentative measure to last for five years, but on its expiration in 1906 the condition of the country did not appear to warrant a re-valuation, and the time was extended for a further period of five years. The law was from time to time amended and in 1911 a consolidation and amending permanent law was passed, Law 3 of 1911, under which a general revision of the values previously obtained was made. This law was amended by Law 23 of 1919 under which the Valuation Commissioner ceased to be a member of the Board of Assessment and the number of members appointed by the Governor was increased to four in each Parish.

Under these laws every person is required to tender an ingiving of the description and value of his property, and where no ingiving is made the Collector issues his assessment. For the purpose of settling cases in which the ingiver and Collector cannot agree as to the value of the property, a Board of Assessment for each parish has been appointed. The Board is composed of the Resident Magistrate and the Chairman of the Parochial Board of the parish and four other persons appointed by the Governor. The following persons have been selected for the several parishes:—

A through Money Order Exchange also exists between Jamaica and certain British Colonies and foreign countries via the United Kingdom. Such through Money Orders are subject on payment to a deduction of two-pence for each £1 with a minimum charge of four-pence.

## TELEGRAPH MONEY ORDERS.

The system of Telegraph Money Orders is in operation between the United Kingdom and Jamaica. The remitter of a Telegraph Money Order is required to pay, in addition to the M.O. commission, the cost of the Telegram of Advice at the ordinary rate (2/4) or at the "deferred" rate (1/2) per word. Every word in the telegram has to be paid for; in the case of a "deferred" telegram, the instruction "L.C.O." is charged as one word, and the word "Postmaster" has also to be sent in every case and must be paid for. Further details may be had from the Chief M.O. Office, Kingston, or from Parochial Treasuries.

## POSTAL ORDERS.

*Amounts and poundage.*—The only Postal Orders sold in Jamaica are British Postal Orders, and they are issued and paid at all the Post Offices in the Island. They are available for use in the colony and in British Colonies and certain other places abroad.

The commissions charged on orders issued are as follows:—

## MAIL COACHES.

Mail coaches are run between the following places: (1) Ewerton and Montego Bay, (2) Montego Bay and Lucea, (3) Kingston and Port Antonio, (4) Santa Cruz and Balaclava, (5) Black River and Ipswich, (6) Savanna-la-Mar and Montpelier, (7) Linstead and Gayle, (8) Saint Ann's Bay and Richmond, and (9) Shooters Hill and Brown's Town. The rates of passenger fares average 4d. to 5d. per mile.

## OVERSEA MAIL COMMUNICATION.

I. UNITED KINGDOM—Letter mail to and from the United Kingdom is sent and received by each available opportunity via the United States, and by the Elders and Fyffes, and Leyland and Harrison Lines of steamers via Liverpool or Bristol. The Department endeavours to forward mail for the United Kingdom by the most expeditious route in each case. Parcel post mail is conveyed only by the direct steamers.

II. UNITED STATES OF AMERICA—Mails (both letter and parcel) to and from the U.S.A. are conveyed by the steamers of the United Fruit Co., Atlantic Fruit Co., Clyde S.S. Co., and Jamaica Fruit and Steamship Co., the most expeditious opportunity being utilized as far as possible.

III. CANADA—Letter mail to and from the Dominion of Canada is sent and received by each U.S. mail. Parcel-post mail is, however, conveyed only by the steamers of the Pickford and Black Line trading between Halifax N.S. and Jamaica, and the Canadian Government Merchant Marine trading between Montreal and Halifax and Jamaica about once every three weeks.

IV. CENTRAL AMERICA—Mail communication with these countries is maintained by the steamers of the United Fruit Co., Elders and Fyffes, Ltd., and Canadian Government Merchant Marine.

V. WEST INDIA ISLANDS—Letter and parcel post mails to and from the West India Islands are exchanged regularly by way of the New York Mails also exchanged with Trinidad and Barbados by way of Cristobal. The Horn Line and the Royal Dutch West India Mail Company maintained a direct service with Haiti.

The Canadian Government Merchant Marine maintains a direct service between Jamaica, Bermuda, and the Bahamas.

VI. CAYMAN AND TURKS ISLANDS—An irregular mail service to and from these Islands is maintained by means of schooners and sloops. Letter mail to and from Turks Island is also exchanged via New York.

VII. CUBA—Mails are conveyed by United Fruit and Webster Shipping Co.'s steamers. There is no direct parcel post exchange with Cuba.

The average frequency with which mails are exchanged between Jamaica and the principal countries overseas with which it has direct communication works out as follows:

RECEIVALS FROM U.S.A. three every week; two from New York, one from New Orleans. Europe, two every week (direct and via N.Y.); Central America, two to three every fortnight; Cuba, one every week.

DISPATCHES TO U.S.A. and Canada, seven every fortnight; Europe, five every fortnight (direct and via N.Y.); Central America, one every week; Cuba, three every fortnight.

## REGISTRATION (OVERSEAS)

If it is proved to his satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in his custody the Postmaster undertakes to pay an indemnity of 50 francs, except in cases beyond control (e.g., tempest, shipwreck, earthquake and war.) No compensation, however, is payable except in the case of the loss of the entire letter or packet; and no claim will be admitted if made more than a year after the letter or packet was posted.

The Postal Administrations of all countries and colonies included in the Postal Union give the same undertaking in respect of registered letters or packets lost whilst in their custody.

If it is desired to obtain compensation in the case of abstraction of contents of a letter, or to provide for a higher maximum than 50 francs, recourse must be had to the Insurance system. See "Insurance" below.

## INSURANCE—OVERSEAS (For Letters only.)

Letters tendered for insurance will be accepted by the Post Office on payment of the fee and subject to the conditions stated below:—

Fee—5d. for every £12 of value in addition to the postage and registration fee.

A LETTER is the only article of mail matter which will be accepted for insurance; post cards, printed papers, commercial papers or sample packets will not be accepted.

Letters containing coin, anything made of gold or silver, precious stones, jewellery

or any article liable to customs duty in the country of destination cannot be sent by insured letter-post. Objects of value which cannot be sent in insured letters may generally be sent in insured *parcels*.

The insurance system is specially applicable to letters which contain bank-notes, coupons, securities, bonds and other documents of the kind.

#### PARCEL POST.

A Parcel post exchange exists between Jamaica and most foreign countries.

The parcel mail for the United Kingdom and Irish Free State, United States of America, Canal Zone, Canada, Costa Rica, Panama, Honduras and Turks, Cayman, and Bahama Islands is forwarded by each available *direct* opportunity. That for the majority of the W.I. Islands is sent and received via New York, and also by any direct opportunity offering.

The parcel mail for Ecuador, Nicaragua, and Venezuela is forwarded via Panama.

Parcels for the majority of other countries are forwarded via the United Kingdom. *Foreign (except to U.S.) and Colonial parcels cannot be registered*, but they may be *insured* to certain countries.

For rates of postage, dimensions, weight, conditions of insurance, etc., etc., consult Post Office Guide, sold separately.

For information concerning the rates of duty levied on parcels received from abroad, reference should be made to the "Schedule of Import Duties," (vide "Revenue Department") in earlier pages of this Handbook.

A Customs clearance fee of 6d. will be collected on every parcel-post parcel (whether it contains dutiable matter or not), and on every package (other than parcel-post) which on examination is found to contain dutiable matter.

#### TELEGRAPHS.

The charge for telegrams throughout Jamaica is ninepence for any number of words up to twelve, and a half-penny for every additional word. The address and signature are both counted. The charge is paid in postage stamps affixed to the message.

If the addressee reside within one mile of the terminal office the telegram is delivered by messenger without any additional charge; but if beyond that limit the following portorage fees must be prepaid:—

- a. At the rate of 6d. per mile (one way) counting from boundary of free delivery.
- b. If delivery by horse messenger is required at the rate of 1/ per mile (one way) counting from the office.

The above rates are maintained whenever practicable. If messengers cannot be obtained at these rates the Postmistress is authorised to make the most reasonable arrangement possible.

The office hours are from 7 a.m. to 5 p.m., daily—Sundays and Public Holidays excepted.

Night, Sunday and holiday\* services may be obtained at the following rates:—

- a. Between 6 a.m. and 8 p.m., double rate for telegram, plus a fee of 1/ to each clerk handling the telegram and 6d. for the messenger.
- b. Between 8 p.m. and 6 a.m. double rate for the telegrams plus a fee of 2/ to each clerk handling the telegram and 1/ for the messenger.
- c. The charges of 6d. and 1/ respectively for messengers refer only to telegrams for delivery up to one mile from the office.
- d. On Public Holidays all offices are open from 7 a.m. to 9 a.m., and telegrams are accepted at the *ordinary week day rates during these hours*.
- e. certified copy of a telegram may be obtained on application to Postmaster for Jamaica, on payment of a fee of 6d. If special search is necessary the cost incurred will be charged in addition.

Inland telegrams are retained on file for 3 months, and foreign telegrams for 6 months.

- f. Abbreviated telegraphic addresses (inland) for use at any office, may be registered with the Postmaster for Jamaica at a cost of 5/ per annum, or upon payment of £2 for a permanent address.

*Cablegrams.* Full rate cablegrams for any part of the world may be handed in at any Telegraph Office on payment of the inland tolls in addition to the amount charged by the cable company.

Cablegrams addressed to the United Kingdom and Ireland or Europe, will be routed "Via Imperial," unless otherwise marked by the sender.

\* In respect of holiday services, note conditions set out in par. d.

The route offers the advantage of a direct, speedy and reliable service between Jamaica and the United Kingdom and Ireland and Europe; it is entirely British owned and operated and touches only British territory.

Patrons are urged to mark their cablegrams "Via Imperial," for which indication no charge is made.

*Deferred Cablegrams*, in plain language are accepted at half rate to most parts of the world.

*Week End Letter Cablegrams* in plain language are accepted for the United Kingdom and Ireland, United States of America, Canada, Newfoundland, Bermuda and Turks Island.

*Wireless Messages* for ships at sea are accepted for transmission through the D.W.I. Cable Co's Kingston Station to vessels within a radius of 300 miles at a rate of 10d. per word. Vessels beyond this distance can be reached at increased rates.

*Cable Rates. Ordinary.* "Via Bermuda," "Via Bermuda Imperial" or "Via West India & Panama Telegraph Co.:" per word, Austria, 3/-; Belgium, 2/8 $\frac{1}{2}$ , etc.; according to location, 1/6 to 2/1. Canada, according to location, 1/6 to 2/1; France, 2/8 $\frac{1}{2}$ ; Germany, 2/9 $\frac{1}{2}$ ; Great Britain and Ireland, 2/4; United States.

"Via Bermuda-Marconi" to Great Britain and Ireland, 2/2 per word.

*Deferred.* To all points mentioned above at half the rates quoted. These messages must be in plain language and must bear the prefix, etc.

LCO (Language of country of original), LCD (Language of country of dispatch) or LCF (French), which is counted for and signalled as the first word in the address. Such message must not contain code words in the text, though registred cable addresses may be used.

*Week-End.* These cables are accepted by both Cable Companies for all stations in the United Kingdom and Ireland: at the rate of 11/8 for 20 words (minimum) and 7d. for each additional word.

The prefix "W. L. T.", which is counted and charged as one word, must be written as the first word of the address.

These Cables must be written entirely in plain language, and must reach the Cable Company's Office in Kingston before closing hour on Saturday, and are deliverable on the Monday morning following.

*All British Route to the B.W.I.*—The new "All British" cable to the British West Indies is now open. Messages for this route should be routed "Via D.W.I. Cable Co., Ltd." Rate, 1/3 per word to British West Indian Islands only. Deferred messages 7 $\frac{1}{2}$ d. per word.

Public telephone call offices have been established at Cross Roads and Halfway Tree post offices. The fee is 2d. for a conversation not exceeding three minutes.

Local telegrams from authorized Government officials, Members of the Legislative Council and other authorized persons on public business are transmitted free of charge.

## GOVERNMENT MEDICAL SERVICE.

For years the necessity of a Medical Service in Jamaica was pressed on the local Legislature and in opening the Session of 1852, Sir Charles Grey brought the subject prominently under their consideration. He stated that "the want of a sufficient number of Medical Practitioners was universally felt throughout the island by almost the entire body of inhabitants, whether high or low, rich or poor," and he strongly urged the Assembly "to make adequate provision" for such service. He assured them that "in some of the districts medical advice was not to be procured at all; in others only after a long delay and at a cost which virtually rendered it unattainable by the majority of the inhabitants. The loss of life alone (and the consequent loss of labour) which annually resulted from this deficiency," he added "was in itself a sufficient ground to justify any expenditure which it might be necessary to incur in placing the means of obtaining medical assistance within reach of the people generally." In the discussion of the question which ensued the Honourable Mr. Westmoreland stated that "the majority of the medical men were settled on the sea-boards, and those who lived in the country knew that for twenty to thirty miles no doctor was to be found." Doctor Bowerbank assured the House that "the people died from preventable diseases for want of medical aid," and showed that "the whole amount then paid to the members of the medical profession in the different parishes amounted but to £2,300 per annum." This state of things continued until the year 1868, when Sir John Grant made provision to the extent of £3,000 for medical aid, and appointed on the 1st December, fifteen Medical Practitioners as Government Medical Officers at salaries ranging from £200 to £300 per annum, chargeable partly to the poor rates and partly to the general revenue. At the close of the year there were forty medical districts defined and thirty-five Medical Officers appointed thereto, five being then vacant as no eligible Medical Practitioners were available.

The Department thus organised was placed under a professional head designated the Superintending Medical Officer, who was also constituted the Adviser of the Government upon medical and sanitary questions.

The Duties of the Medical Officers are specified in the following rules which were framed by the Secretary of State for the Colonies, for the guidance of candidates for employment, and contain the principles on which the service is regulated:—

1. The Colony of Jamaica is divided, for medical purposes, into districts of varying extent and population, to each of which, as a general rule, is attached one Medical Officer who is held responsible for the due discharge of all medical duties within his district.

2. The District Medical Officers, who must reside within the limits of their respective districts, are required in the discharge of their public duties, to undertake the medical charge of the paupers on the parochial rolls, and of any hospital, alms house or prison in their districts; to attend upon the Constabulary; to exercise a general control and superintendence over the Government dispensaries of their district; to advise the Government and Parochial Authorities on questions affecting the public health; and for such public duties no fees are receivable by them.

3. Medicines for the Public Service are supplied by the Government.

4. District Medical Officers are expected to provide themselves with a small case of surgical instruments of the best make.

5. The immediate control of the Medical Establishment is exercised by a Superintending Medical Officer.

6. The fixed salaries of the district appointments are now £200 per annum while certain districts carry a salary of £200 and £150, travelling allowance in return for specified duties.

7. The District Medical Officers are at liberty to take private practice. The value of the private practice varies from £600 to £150, exclusive of Court and Inquest Fees, and also Vaccinations fees, at a rate not exceeding 1s. for each certified successful case after the first 25 in each quarter, subject to the approval of the Governor. It must, however, be clearly understood that these figures are to be taken as only approximate, and that no guarantee as to the value of the private practice is given by the Government, and that it rests entirely with the Medical Officers themselves to develop the private practice of the districts in which they are placed, by securing the confidence of the population with which they are brought in contact.

8. The District Medical Service of Jamaica is, in fact, to be regarded as a system in aid, the object of which is to diffuse medical assistance throughout the several parishes by inducing Practitioners to locate themselves in districts which, without some contribution from Government, would be altogether destitute of medical aid and advice, and the pay received by the Medical Officer from Government may be regarded as a retainer for professional services to be given as a Private Practitioner within the area in which he resides.

9. The gentlemen selected for these appointments must possess qualifications in medicine and surgery, and must be registered in England or Jamaica, and will be required to present themselves to a Physician, who will be named by the Secretary of State for the Colonies, whose duty it will be to report upon their physical qualifications for service in the tropics, and to approve the surgical instruments with which they propose to provide themselves. They will be provided by Government with a passage out to Jamaica, subject, however, to the customary agreement made with the Crown Agents for the Colonies, that the cost of the passage shall be refunded by the Medical Officer, should he within the period of three years from the date of his arrival in the colony quit it without leave, or relinquish his appointment for other cause than bodily or mental incapacity to continue the performance of his duty.

10. Gentlemen who have had no previous experience of the diseases of tropical climates will be attached, on their arrival in the colony, to the Public Hospital in Kingston as Supernumerary Medical Officers, for such a period as the Governor shall in each case direct for the purpose of making themselves acquainted with the features and treatment of tropical disease. During this introductory service they will receive an allowance at the rate of £400 per annum, but will not be permitted to undertake private practice.

11. District Medical Officers will be entitled to leave of absence on half pay for a period of not more than six months after each period of six years service; it will, however, be left to the discretion of the Governor, looking at the exigencies of the service, to decide in each case the exact period at which such leave shall be granted.

12. Medical Officers will also be granted leave on half-pay on account of sickness duly certified by medical authority, in such manner and under such restrictions as the Governor may prescribe.

13. The District Medical Officers hold office subject to summary removal by the Governor for misconduct or for neglect of public duties, or for inattention to the wants of their district in their capacity as Private Practitioners. They will be allowed pension at the end of 20 years' resident service; the pension to be calculated at the rate of one-sixtieth of the salary, exclusive of any fees, for each year's service, provided that the total amount does not exceed two-thirds of the salary.

14. It is to be understood that the full amount of pension or indeed any pension will not be claimable as a right; and that it will be in the discretion of the Governor to with-

hold a pension, or to award a reduced pension, if the circumstances of any individual case appear to him to warrant such a course.

15. Gentlemen appointed Medical Officers will be expected to proceed to Jamaica within two months from the date of their appointment.

16. Candidates for appointment should apply to the Secretary of State for the Colonies who requires that all applications should be accompanied either by recommendations from persons known to himself, or by satisfactory testimonials from eminent members of the medical profession.

17. District Medical Officers have no vested interest in a district to which they may be appointed, or in the size of such district.

The Governor may at any time, in the interest of the public service, reduce or enlarge the size of any district.

18. District Medical Officers will be available for "any other duties" that the Governor shall call upon them to perform without any extra remuneration.

19. No fees will be allowed to District Medical Officers for attendance on Indentured Immigrants located in the districts. The selection of a medical man to visit and to attend estates is left to the S. M. O. and Protector of Immigrants conjointly.

20. District Medical Officers are prohibited in future from entering into any business engagements unconnected with their profession. This prohibition does not extend to cases where land is necessarily attached to a house occupied by a District Medical Officer, and where he can supplement his income by having the land cultivated, without hampering himself in the discharge of his duties. This rule is to be considered prospective in respect to acquiring additional property on the part of those officers now in the service.

21. Under instructions conveyed in Colonial Secretary's Letter No. 6106/6163, dated the 7th October, 1886, District Medical Officers subsequently appointed are required to regulate their charges by the following tariff of medical fees which has been approved by the Legislative Council.

#### TARIFF OF MEDICAL FEES.

1. Advice and medicines at the District Medical Officer's residence or private or Government Dispensary—4s.

For each subsequent visit as above in the same case, 2s.

2. For each visit in town from 6 a.m. to 7 p.m., within a radius of one mile from the centre of Town—6s.

3. For each visit in the Country or within a radius of one mile from the District Medical Officer's residence—6s.

4. Mileage in addition to fee for visit for any distance over one mile from District Medical Officer's residence, 1s. 6d. per mile or part of a mile one way; that is to say, the mileage paid for the outward journey to cover the return.

The above charges to include ordinary medicines.

5. For night visits from 7 p.m. to 6 a.m., one half fee and half mileage extra.

6. If asked to stay for a day or night, according to agreement.

7. Consultation as Physician or Surgeon—21s., with mileage at the above rates.

Consultation means "in consultation with another medical man."

Every subsequent consultation on the same case with mileage at above rates—10s. 6d.

Consultation by letter and medicines supplied if necessary—6s.

8. A medical certificate—21s.

Ditto ditto if attending patient—10s. 6d.

9. *Midwifery*.—Ordinary cases for attendance at delivery—£2 2s. and mileage. Instrumental cases: extra according to circumstances.

10. *Surgical Operations*.—Minor operations—10s. 6d. Fracture of upper and lower extremities—21s., appliances extra. Major operations according to agreement.

11. This scale of charges is not intended to interfere with any arrangements made between the Medical Officers and their patients and is intended to apply to cash payments only, that is, at the termination of the visit, or monthly, if attendance should be necessary for more than one month.

12. The Tariff does not apply to any but *bona fide residents* in the island.

22. Tariff of Medical Fees for attendance upon families of European sub-officers of Constabulary.—For each day visit—3s.; For each night visit—6s.; Advice at Dispensary 2s.; Midwifery—£1 1s.; Mileage at 1s. 6d. per mile, when necessary.

23. The Government in medico-legal cases before the Courts shall have first claim on the services of all Medical Officers who are in the Government Medical Service, and only such fees, if any, as are allowed by "The Witnesses Expenses Law," or its amendments, shall be given in payment.

In special cases in which a Government Medical Officer is with the consent of the Governor engaged to give expert evidence, such fees not exceeding £5 shall be paid as the Court in the discretion of the Presiding Judge shall allow.

24. Medical Officers joining the service after January, 1909, or on transfer after that date at their own request, are liable to be called upon by the Governor to hold outstations in such parts of their district as the exigencies of the public service appear to need. The Governor may appoint two such stations and no more for weekly visits to be held.

25. On outstation days, District Medical Officers will count mileage as from an outstation when the call is made at the outstation.

26. All Government Medical Officers whose—

- (a) whole time is at the disposal of the Government.
- (b) whole time is at the disposal of the Government, but who in addition are allowed consulting practice, are liable to perform any duty connected with their profession that the Governor may at any time call upon them to perform and that they reasonably are able to perform.

27. It is the duty of all Government Medical Officers who are in medical charge of Institutions such as Hospitals, Asylums, Sick Homes, Prisons, Penitentiaries, Industrial Schools, Reformatories, Public Schools managed by Trusts, whether under Government or otherwise, for attending which they receive fees or a salary, to call the attention of the responsible authorities of such Institutions to all matters affecting the sanitary condition and general sanitation thereof.

*Districts*—There are 45 Medical Districts at present under the charge of 45 District Medical Officers, and the affairs of the Public Hospital have been entrusted to the direction of the Superintending Medical Officer, who has under him at that Institution a Senior Medical Officer, assisted by 3 Resident Medical Officers, and a Supernumerary who however, is liable to be sent away at any time to fill a temporary or permanent vacancy in any district. During the year 1886-87 the Lunatic Asylum was placed under the direction of the Superintending Medical Officer. A Medical Superintendent and 3 Assistant Medical Officers are employed and reside at the institution.

*Cost of Medical Service*.—The actual expenditure for the Medical Service of the colony for the year ending 31st December, 1924, was £97,136 4s. 3d. The receipts were £2,495 17s. 3d. and the actual cost after deduction of the receipts was £94,640 7s. 0d.

*Leave and Pensions*.—As an outcome of the Report of the Royal Commissioners instructions were issued that District Medical Officers are not to be allowed to engage in any business unconnected with their profession; or to occupy land except in cases where the occupation of the land necessarily accompanies that of the house.

During the first year of the constitution of the Government Medical Service its officers received no concessions from the Government by way of pension or leave of absence. If a Medical Officer required to quit the island on the ground of ill-health he had to forfeit all his subsidised salary in order to provide a substitute, but in the year 1877 the arrangements set forth in the 11th, 12th and 13th sections of the Regulations given above in respect to leave of absence and pensions were sanctioned by the Secretary of State. Section 24 of the Pension Law, 34 of 1885, preserves the right to pensions to those District Medical Officers who entered the service before the coming into operation of that law and officers joining the Department since and holding appointment at the time of the passing of the Pensions Regulation Law, 26 of 1892, or who may subsequently be appointed, will be at liberty to contribute to a Pension Fund.

*Medical attendance on the Poor*—The subject of medical attendance on poor persons who, although not paupers, are unable to pay the fee of four shillings, nominally considered the lowest charge by the Medical Practitioners, having been under consideration for some time, the Governor, pending the establishment of Government Dispensaries throughout the island, passed in September 1880, certain rules for affording medical aid to them under a ticket-system. These rules were amended in September, 1904, and stand as below:—

1. The Governor will on the nomination of a Chairman of a Parochial Board or otherwise appoint gentlemen to be Distributors of Medical Relief Tickets, who will be furnished by the Superintending Medical Officer with copies of these Rules and with tickets of the respective values of 3s. and 2s., as respects all parishes other than Kingston and of the values of 2s. and 1s. as respects Kingston; and any appointment so made shall be subject to revocation.

2. Any person not on the Pauper Roll, who is really unable to pay the assumed minimum fee of 4s. may, if considered deserving of the relief, obtain from any of the gentlemen so selected a ticket which, on presentation at the Government Dispensary, or where there is

no such Dispensary at the residence of the District Medical Officer, will entitle the holder, on payment of the fee represented on the ticket, to medical advice and medicines.

3. A separate ticket must be presented on the occasion of each application at the Government Dispensary or Medical Officer's residence; but, in the event of a second or third visit being necessary during the treatment of the case, two-thirds only of the amount represented on the ticket first presented will be demanded, and half for subsequent applications during the continuance of the same illness.

4. Any person in receipt of a ticket who may be unable to attend at the Government Dispensary, or at the Medical Officer's residence, by reason of serious illness or infirmity, (a note to this effect being made on the ticket by the gentleman making the recommendation) will be attended at home by the District Medical Officer of the district, if the applicant is able to pay the cost of mileage as well as the fee represented on the ticket.

5. Any such ticket presented to the Medical Officer of the district will require him to attend at the home of the patient, on payment of an amount for mileage at the rate of 1s. per mile going and 6d. returning.

6. The fees represented on such ticket must be paid by the applicant for relief, together with the cost of mileage in cases where the Medical Officer is required to attend at the home of the patient.

7. In case of prescriptions prepared at Government Dispensaries, or with Government Drugs, one-third of the fee received with the ticket shall be credited to the Government to cover the cost of the medicines and two-thirds to pay the Medical Officer; when made up by the Medical Officers from their own drugs the entire sum represented on the ticket shall be their fee.

8. Medical Officers having charge of Government Dispensaries will attend to the holders of tickets between the hours of 9 and 11 o'clock a.m. on two days in the week which will be fixed by the Medical Officer.

9. Prescriptions to be made up at Government Dispensaries will be attended to daily, Sundays excepted, between the hours of 11 a.m. and 4 p.m.

**MEDICAL ATTENDANCE ON POOR PERSONS, NOT ON THE PAUPER ROLL, UNDER THE "TICKET SYSTEM."**

*Rules for the guidance of District Medical Officers and Ticket Distributors in the New Medical Districts (i.e., those Medical Districts in which a fixed Travelling Allowance is paid to the District Medical Officer.)*

1. The Governor will on the nomination of a Chairman of a Parochial Board or otherwise, appoint gentlemen to be Distributors of Medical Relief Tickets. These "Ticket Distributors" will be furnished by the Superintending Medical Officer with copies of these Rules and with "Tickets" of the respective value of 3s. and 2s.

2. Any person not on the Pauper Roll but who is really unable to pay the assumed minimum fee of 4s. may, if considered deserving of the relief, obtain from any "Ticket Distributor" a "Ticket" which, on presentation at a Government Dispensary in the Medical District (or where there is no Government Dispensary, at the surgery of the District Medical Officer, or at any out-station visited by a District Medical Officer), will entitle the holder to medical advice, treatment, and medicines on the payment by him to the District Medical Officer of the fee represented on the ticket (i.e., the sum of 2s. or 3s. as the case may be.)

3. A separate "Ticket" must be presented on each occasion on which an applicant for medical relief under these Rules attends on a District Medical Officer for advice, treatment or medicines. But when an applicant has to attend more than once in connection with the same case of illness, he will be required to pay the District Medical Officer only two-thirds of the fee represented on the ticket for the second and third attendance, and only half of the fee represented on the ticket for any subsequent attendances.

4. Any person in receipt of a "Ticket" who may be unable by reason of serious illness or infirmity, to attend at the Government Dispensary or at the District Medical Officer's surgery or at any out-station visited by a District Medical Officer (a note to this effect being made on the "Ticket" and signed by the "Ticket Distributor" giving the "Ticket"), will be attended on at his home by the District Medical Officer and will be required to pay the fee represented on the "Ticket" for the first visit, two-thirds of the fee for the second and third visit, and half the fee for any subsequent visit; but in no case will the holder of a "Ticket" be required to pay to the District Medical Officer any sum whatever in respect of mileage. The fees as set forth above represent the only payments to be made by a "Ticket" holder to a District Medical Officer.

5. Any "Ticket" presented to a District Medical Officer will require him to attend

on the holder either at a Government Dispensary, the District Medical Officer's surgery or at any out-station visited by a District Medical Officer, or the holder's home as circumstances may demand in each case.

6. In case of prescriptions prepared at Government Dispensaries, or with Government drugs, one-third of the fee received with the "Ticket" shall be credited to the Government to cover the cost of the medicines and two-thirds to pay the Medical Officer; when made up by the Medical Officers from their own drugs, the entire fee represented by the "Ticket" shall be their fee.

7. Medical Officers having charge of Government Dispensaries, will attend to "Ticket" holders on stated days and at stated times. Such days and times to be fixed by the Medical Officer, but not to be less than at least two days in any one week.

8. Prescriptions to be made up at Government Dispensaries will be attended to daily. Sundays excepted, between the hours of 11 a.m. and 4 p.m.

*Dispensing School.*—A Dispensing School has been established at the Public Hospital for the purpose of training efficient Dispensers for the several medical institutions of the colony; there are at present 12 students undergoing a course of instruction.

*Hospitals.*—The accommodation allowed in the Public General Hospitals and Lepers Home, as far as room for beds is concerned, is as follows, namely:—

Morant Bay Hospital	20 beds	Cave Valley Hospital	12 beds	Chapelton Hospital	33 beds.
Hordley Hospital	30 "	Falmouth	"	tal	
Port Antonio	55 "	Ulster Spring	"	6 "	Lionel Town Hos-
Buff Bay	50 "	Montego Bay	"	36 "	pital
Annotto Bay	60 "	Lucea	"	20 "	Spanish Town
Port Maria	65 "	Sav.-la-Mar	"	60 "	Hospital
St. Ann's Bay	20 "	Black River	"	41 "	Linstead Hospital
		Mandeville	"	28 "	Lepers Home
					120 "

Total 829

Admissions to the Public General Hospitals are now restricted to the following classes of cases by order:—1. Cases of serious accident; 2. Cases of acute disease requiring hospital treatment; 3. Cases likely to be benefited by operation, and, of course, constables and coolies who have to be admitted under the Law.

*Accidents and Acute Illness.*—Cases of serious accident or acute illness if in a condition to be moved should be sent to the nearest Public General Hospital, where they will be admitted at any hour of the day or night. If the person is too poor to pay for a conveyance the police should be informed and they will in such special cases make the necessary arrangement for removal to the Hospital. The following are the rules governing the admission of patients to the Public Hospital, Kingston, and to Public General Hospitals:—

*Regulations for the guidance of the Out-door Department at Public General Hospitals.*

1. There will be an Outdoor Department at each Public General Hospital.  
2. The Outdoor Department will be opened daily. Patients must attend between the hours of 9 and 10 a.m., Sundays excepted, or between such other hours as the Governor may sanction, and those patients only who come within those hours will be attended to by the District Medical Officer.

3. (1) Persons entitled by law or regulation to free medical attendance may, on presenting themselves, be treated as outdoor patients without prejudice to any other claim they may have on the services of the Medical Officer, such as persons on the pauper roll, constables, and East Indian Immigrants.

(2) Other persons seeking medical aid under this system must produce a written recommendation from a person authorized by the Governor in that behalf. A person with a ticket from a Ticket Distributor may also attend under the provisions of sub-section (4).

(3) Medical Officers may also treat under this system.

(a) persons who come without a recommendation but whose circumstances are known to them, and who are deserving cases for treatment;

(b) persons seeking admission to Hospital, but whose cases are unsuitable for treatment there;

(c) persons for whom there is no room in Hospital.

(4) Persons presenting tickets from distributors of medical relief tickets may also be treated, and for this purpose distributors are authorised to issue tickets representing fees of 3s. and 2s. respectively, the amount being determined in accordance with the measure of relief necessary in each case. One-third of these fees is to be credited to Government to cover the cost of drugs, etc., and two-thirds to be retained by the Medical Officer.

4. Any person who, except under the instruction of the District Medical Officer, has allowed more than one month to elapse between visits or applications for medicine must produce a fresh recommendation.

5. Persons authorised to grant recommendations shall be appointed by the Governor, and the Custos or senior Resident Justice of the Peace of each parish may nominate suitable persons to the Governor for such responsibility, and any appointment so made shall only be held during the pleasure of the Governor, who may at any time cancel the appointment.

6. Persons authorised to grant recommendations for outdoor treatment at a Hospital must in each case state from their own personal knowledge that the person recommended is unable to pay any fee for medical attendance.

7. Each patient treated and prescribed for shall have his or her name, age, and sex, with date of attendance, noted in a book to be called the "Register of Out-patients."

8. The treatment given to each patient shall also be entered in the register on each occasion on which he attends hospital and the name of the patient and date of attendance shall in each case be marked on the bottle or package of medicine delivered. Medicine shall not be prescribed for more than one week at a time.

9. Every patient shall provide his own bottle or may pay 1d. for a bottle.

10. Medicines shall be made up by the Government Dispenser at the Hospital daily.

#### PUBLIC HOSPITAL, KINGSTON.

*North Street.*

*Patients.*—The patients are divided into two classes, viz.:—In-door patients, admitted within the Wards of the Institution and out-door patients receiving medical advice and medicines at the Dispensary of the Institution. Applicants for admission as in-door patients of the Hospital will be seen daily by the Medical Officers between the hours of 10 and 11 o'clock a.m. Applicants for medical advice and medicines as out-door patients must bring with them a Ticket of recommendation from the Custos of Kingston or the Inspector of Poor or such other persons as the Governor may nominate and appoint to grant tickets.

They will be examined and prescribed for by the Resident Medical Officers at noon as follows:—Mondays and Thursdays—for Women and Children; Tuesdays and Fridays—for Men.

All cases of accident or emergency will be admitted at any hour of the day or night by the Resident Medical Officer on duty.

A Venereal Diseases Clinic was restarted at the Public Hospital, Kingston, on 1.9.23. Any person who may be suffering from Venereal Disease (that is Gonorrhoea, Chancres or Syphilis) or from complications of any form of Venereal Disease will be treated free of cost if they attend between 7 and 8 a.m.

Males on Tuesdays and Thursdays. Females on Wednesdays and Fridays.

On Saturday of each week persons unable to pay for continuous treatment outside are given Salversan injections on payment of a small fee.

No seaman, hired, articulated or apprenticed to any vessel, and no person apprenticed to any person, shall be admitted into the hospital except on occasion of serious accident or other extreme emergency, until the consignee of such vessel, or the proprietor or agent of such estate, or the master or employer of the person indentured or apprenticed, shall have given a letter of guarantee to the Chief Medical Officer and Director undertaking to the extent of £20 for the payment of the hospital dues at the rate of 2s. 6d. per diem for each seaman and 1s. 6d. per diem for each apprentice, and for payment also of funeral expenses in case of death.

All persons (other than articulated seamen, indentured immigrants or apprenticed servants) who are admitted into the wards of the hospital for medical treatment as in-door patients, who are not wholly destitute of means may be required to contribute towards their maintenance in the hospital by payment of such proportion of the hospital dues fixed by Law as may be determined by the Chief Medical Officer and Director.

## PUBLIC GENERAL HOSPITALS.

*Patients.*—All applicants for admission (except in case of emergency) shall be seen at the hospital by the medical officer between the hours of 9 and 11 a.m. In the case of immigrants they will be received daily up to 6 p.m.

Applicants for admission who are on the Parochial Pauper Roll shall be admitted free of all charges, provided the medical officer considers them fit subjects for hospital treatment.

Other applicants, not on the Parochial Pauper Roll, but who are unable to contribute towards their maintenance, shall be admitted into Hospital free of all charges on the written recommendation of the Custos or Chairman of Parochial Board, or the Inspector of Poor or Clerk of Parochial Board, or of any member of Board of Official Visitors of the hospital, provided, on examination, they are found fit subjects for admission, and that there is accommodation available.

Creole and Coolie Labourers on Sugar Plantations shall be admitted free of all charges, provided that, on examination, they are considered by the Medical Officer suitable cases for hospital treatment, and that there is accommodation available for them.

All cases of accident or serious illness will be admitted at any hour of the day or night.

Applicants resident in districts other than those served by Public General Hospitals should apply to the District Medical Officer of their District who will, if he considers their case suitable for hospital treatment, furnish a certificate to that effect, which the applicant should present at the nearest Public General Hospital not later, if possible, than 10 a.m. This rule, however, will not prevent cases of accident or serious illness in special cases being admitted at any hour of the day or night as stated.

## JAMAICA LUNATIC ASYLUM.

THE foundations of the Jamaica New Lunatic Asylum were laid in 1843 for the accommodation of 250 inmates, but, in consequence of the financial embarrassments of the colony, the buildings were not completed and occupied until 1860, when the male patients who were confined at the old asylum—a part of the Kingston General Hospital—were transferred. The female inmates followed two years later.

The management of the old Asylum was vested in a body of Commissioners appointed by the House of Assembly.

Dr. Bowerbank, in 1861 secured the appointment of a commission to investigate the alleged abuses in the treatment of lunatics. In that year, an Act was passed for the proper supervision and government of the new Lunatic Asylum, and a Board of Visitors, an Inspector and Director, with a Medical Superintendent, were appointed to manage the institution.

Dr. Thomas Allen, Senior Assistant Medical Officer to the Suffolk County Asylum, was appointed Medical Superintendent, and soon after the duties of Inspector and Director were imposed upon him. He was a most energetic officer, and worked assiduously to ameliorate the condition of the inmates and their surroundings. In a few years he had the satisfaction of seeing the death-rate of the institution reduced by 50 per cent.

In 1893 it was found necessary to extend the boundaries and increase the accommodation. For this purpose £45,000 were borrowed to build a new asylum for the accommodation of 450 female lunatics; the buildings were completed and occupied early in 1906. The congestion from which the asylum had suffered for years was thereby effec-

tually relieved. Subsequently, however, the population increased at such a rate that a new ward for the accommodation of 100 female patients was completed and occupied in 1912, and at present the increase in lunacy is so marked that the necessity of a further extension of the buildings will, it is feared, have to be seriously considered by the Government in the near future.

The following table shews the most salient features in the management of the institution for the past 5 years. It will be observed that with the growth of its population the maintenance rate is reduced. The percentage of recoveries has steadily increased.

#### LEPERS HOME.

The Lepers' Home, situated in the neighbourhood of Spanish Town, is under the direction of the Superintending Medical Officer. This institution contains 120 beds, and during the year 1924, the daily average of patients was 97.

*Visiting Justice*.—Geo. McGrath.

#### VICTORIA JUBILEE LYING-IN HOSPITAL, NORTH STREET, KINGSTON.

THIS Institution was founded in commemoration of the Jubilee of Queen Victoria and the building was raised, to a considerable extent, from small voluntary contributions by the people of Jamaica in token of their loyalty to the late Queen and in honour of the great event, supplemented by a vote by the Legislature from general revenue. The Institution, however, is maintained by an annual vote from the Legislature.

It was felt by those best able to judge that great hardship and a large mortality resulted from the want of midwives who could undertake even the most simple cases of labour, and it was considered that there was no more appropriate or useful way of commemorating Her Majesty's Jubilee in Jamaica than by establishing and maintaining an Institution, which tended to alleviate the sufferings of the sex for which Her late Majesty did much.

The Hospital, which was opened at the close of the year 1891, is a substantial brick building with verandahs along the sides in the tropical style. Accommodation was provided in the original building for 18 patients and 8 pupil nurses; it has however now been increased to 30 patients and 16 pupil nurses. The Matron, Assistant Matron, and three charge nurses are resident.

During the first twelve months only 89 patients were admitted. The number steadily increased year by year and in the year ending March 31st, 1904, 813 patients were treated. For the twelve months ending 31st December, 1924, it was 888. The daily average of patients is 23. The total number of nurses trained up to the close of year ending 31.12.1924, was 296.

*Admission to Hospital*.—The following are the rules regulating the admission of patients into the Hospital:—

Cases of Instrumental labour and urgent cases will be admitted for treatment at any hour, and for this class of cases two beds shall always be kept in readiness.

In the event of the Institution being full, or from any other cause, it being undesirable to admit fresh inmates, the Matron shall in consultation with the Visiting Surgeon have power to refuse admission to any applicant, but shall at once notify the fact to the Police in order that other arrangements may be made.

Every other person desiring to obtain treatment in the Institution will be required to produce :

- (a) a certificate (gratuitous) from the Inspector of Poor that she is unable to pay for her treatment, and from the District Medical Officer that she appears to be a suitable case for admission to the Institution, or,
- (b) an approved agreement to pay 15s. and 1s. per day for every day's maintenance after 10 days in Hospital, as well as any other exceptional expense incurred such as for removal of patient or burial.

The Matron will attend daily at the Hospital at 10 a.m., to register applicants for treatment and to arrange for their admission.

Payment will, according to the foregoing rules, be required for the treatment and maintenance of any person admitted as an instrumental or urgent case, who may be in position to pay, and, when necessary, enquiry will be made as soon as practicable of the Inspector of Poor as to the ability of the patient, or her friends, to pay the hospital dues.

*Attendance at Homes.*—The following are rules regarding action to be taken in cases of childbirth occurring among poor persons who are at the time destitute of the means of procuring such aid and where, at the same time, there is danger to the woman's life:—

- (a) The cases to be relieved under this system must combine the two conditions of danger to the woman's life (or to that of the child) and evidence of destitution of the means to procure medical aid at the time.
- (b) The applicant for this form of relief in all cases where practicable is required to sign a promise to refund to the parish within a specified time the amount of the medical officer's fee and mileage, if any, in such instalments as may be named in the form.
- (c) Should the applicant bring any portion of the fee it should be accepted as an instalment and be brought to account as a refund by the Inspector. In cases where the medical officer receives any money (on being applied to in the absence of the Inspector) he should forward it to the Inspector, and it is the Inspector's duty to endeavour to procure the remainder, the Medical Officer being in all cases paid his claim in full by the Parochial Board.

The order to visit should ordinarily be sent to the District Medical Officer. When his services are not immediately available it should be sent to the nearest registered medical practitioner willing to attend for the fee and mileage allowed.

- (e) In the absence of the Inspector (or Assistant Inspector) application should be made to the medical officer direct.
- (f) The fee to a medical officer or practitioner for his services in a case of this kind has been fixed at one guinea, and mileage of 1/6 per mile one way.

The rules respecting Pupil Nurses can be obtained from the Matron.

## QUARANTINE.

THE practice of Quarantine in this Island has been considerably modified since the official investigation into its working in 1851. The laws now in force are 38 of 1893, 23 of 1894, 23 of 1895, 6 of 1903, 26 of 1908, 39 of 1909, 8 of 1913, 28 of 1914 and 11 of 1918.

The Governor in Privy Council is authorised to declare any port or place to be an infected port or place within the meaning of the Quarantine Law of 1893, and vessels arriving from such port or place are liable to quarantine, the duration, &c., of which depends upon the circumstances of each case, and is left to the discretion of the Quarantine Board.

Whenever a vessel arrives at any port in this island, not coming from any place declared by the Governor in Privy Council to be "infected," and not having at the time of arrival any infectious disease on board, or not having had any death from such disease during the voyage, the Health Officer or Visiting Officer is authorised to admit her to free pratique, or pratique under restrictions according to circumstances.

If a vessel on arrival is not provided with a bill of health from the last port touched at, the Visiting Officer shall, under the provisions of Section 2 of Law 28 of 1914, order such vessel to hoist a Quarantine Flag and anchor at the Quarantine Ground until released.

Vessels arriving with ballast are placed in quarantine pending the decision of the Quarantine Board. Provision is made for the discharge of ballast and subsequent admission to pratique of vessels with or without disinfection as may be ordered.

There is power to the Governor to appoint quarantine stations and to frame rules for the same.

*Rules.*—The following Rules were made in 1918 for carrying out the Quarantine Law:—

1. Ships placed in quarantine by the Visiting Officer are to hoist the yellow flag on the top of the main mast and are to take up their anchorage without delay in the quarantine ground where they are to remain until released by order of the Quarantine Board.
2. The quarantine ground shall be pointed out by the Health or Visiting Officer.
3. A Constable is to be placed on board each ship in quarantine and is to see that all Rules and Regulations in respect of quarantine are strictly carried out.
4. No personal communication is to take place between a vessel in quarantine and the shore without permission from the Quarantine Board. No boats from the shore or from other boats or vessels whether in quarantine or not, shall be allowed to have personal communication with a ship in quarantine without permission from the Quarantine Board.
5. No ship shall be allowed to make fast to the quarantine buoy at Port Royal placed to mark the quarantine ground there, or to anchor within a hundred yards of that buoy.
6. Lighters or boats conveying cargo or coal, or other supplies to ships in quarantine may be towed to the quarantine buoy; and to prevent personal communication with a ship in quarantine, all persons on board such boats or lighters must then quit them and return outside the limits of the quarantine ground, unless otherwise ordered by the Quarantine Board.
7. The boats or lighters so left may then be towed alongside the ship in quarantine by her crew and unloaded, but no packages are to be returned to the boats or lighters from the ship. When the boats or lighters are empty they are to be towed back by the crew of the ship to the quarantine buoy, and after the men so employed have left them the persons who may be in charge of such boats or lighters may proceed to the quarantine buoy to fetch them away, unless otherwise ordered by the Quarantine Board.
8. All boats belonging to ships in quarantine are to hoist a yellow flag in the bow when absent from their ships.
9. Passengers in a ship that is placed in quarantine may, with the sanction of the Health or Visiting Officer, be landed in the ship's boats at such quarantine station or place as may be pointed out by the Health or Visiting Officer and subject to his instructions and supervision.
10. Cases of sickness among the crew or passengers of a ship in quarantine may, with the sanction of the Health or Visiting Officer, and under his instructions and supervision, be landed in the ship's boats at the quarantine station.
11. No articles of clothing or bedding that have been used in cases of disease shall be permitted to be landed without the permission of the Quarantine Board or Health Officer.
12. The mail bags from a ship in quarantine shall, before being handed over to the Postal Authorities undergo such process of fumigation as the Quarantine Board or Health Officer may consider necessary.
13. Any person who may have died on board a ship in quarantine shall be buried in such place as shall be pointed out by the Health Officer.

14. In case of a ship in quarantine proceeding to sea the Constable shall be previously landed at the quarantine station if so ordered by the Quarantine Board. The Pilot who accompanies the ship to sea shall proceed on his return to the quarantine station if so ordered by the Quarantine Board, and both Constable and Pilot shall remain there in quarantine for the same period as the ship would have been kept if she had remained at anchor.

15. Any person who may be found guilty of any infringement of any of these Rules or Regulations shall be subject to a penalty not exceeding ten pounds.

16. Quarantine Rules—1 to 17 passed in Privy Council, 2nd April, 1874, are hereby cancelled.

The following further Rules were approved by the Governor on the 2nd April, 1884, for carrying out the Quarantine Law:—

"If at any time by reason of the failure to comply with any Rule of this Board or for any other sufficient reason, it should be found impracticable to receive passengers that are on board a ship placed in quarantine into the Quarantine Station, or other place that may be approved of by the Quarantine Board, such passengers will be required to remain on board until the ship is released from quarantine or until arrangements can be made for removing them from such ship.

"No passenger or other person on board a ship in quarantine will be allowed to leave the ship for the purpose of being landed at the Quarantine Station, or other place that may be approved by the Quarantine Board, before payment has been made to the Visiting Officer of the amount payable, in accordance with the following scale, for the maintenance of such passenger during the period of detention in quarantine:—

The following is the scale of charges for maintenance of persons detained in quarantine approved by the Governor in Privy Council on the 14th May, 1923:—

For first class passengers at the rate of 12/- per day. For second class passengers at the rate of 8/- per day. For third class passengers at the rate of 5/- per day. Labourers, 4/- per day.

Children, according to class, charged as under:—

8 years of age and under 12 years—half rates. 3 years of age and under 8 years—quarter rates. Under 3 years of age—free.

These rates to be increased by half in the case of passengers under treatment in the hospital at the station.

The Governor in Privy Council has allowed a somewhat more liberal dietary being given the occupants of the Quarantine Station. Ice, soup, also coffee and tea at dinner; fruit, jam, marmalade and cocoa for breakfast and luncheon; mutton and English sausages once a week for 1st class passengers. An improvement in the diet scale for 2nd and 3rd class passengers, has also been made.

The following Rule was made by the Governor in Privy Council on the 16th January, 1889:—

Should the Master of any vessel that has been ordered into quarantine in any port of the island desire to proceed to any other port of the island before such vessel has performed, and been duly discharged from quarantine, he should give notice of such desire to the Visiting Officer of the port at which his vessel is in quarantine, and shall in such notice name the port to which he desires to proceed, and it shall be the duty of the Visiting Officer to furnish to such Master a certificate showing the number of days the vessel has been in quarantine, and the number remaining to complete the quarantine term; and thereupon it shall be lawful for him to proceed to such last mentioned port; but he must enter such port flying the quarantine flag, and proceed straight to the quarantine ground at such port.

The master of any vessel neglecting or contravening any of the provisions of this rule shall incur a fine or penalty not exceeding ten pounds.

The Governor in Privy Council on the 24th October, 1895, under Section 1 of Law 23 of 1894 declared the diseases of Scarlet Fever, Diphtheria, Measles and Whooping Cough, to be diseases against the introduction of which into this Island the provisions of the Quarantine Law 38 of 1893 were intended to provide; and His Excellency in Privy Council fixed the following periods for the purpose of the proviso to Section 2 of Law 38 of 1893. viz.:

Scarlet Fever	.. 6 days	Measles	.. 18 days
Diphtheria	.. 4 "	Whooping Cough	.. 14 "

The following Rules for the government and direction of the Quarantine Station at Green Bay are binding on the officers, servants and inmates of the Quarantine Establishment.

1. During the existence of quarantine restrictions the Quarantine Station shall be under the direction of the Health Officer for the ports of Kingston and Port Royal for the time being.

2. It shall be the duty of the Health Officer, during the continuance of such restrictions to visit the Quarantine Station daily, if practicable, or as frequently, as may be deemed necessary with a view to ascertain the health of the inmates; and in case of the existence or outbreak of any contagious or infectious disease as plague, cholera, small pox or yellow fever, the Health Officer shall be empowered to take all necessary measures to secure the separation and isolation of those who are sick of any such infectious disorder from those who are well.

3. It shall be the duty of the matron to take charge and care of the equipment of the quarantine station to receive and issue stores, and to superintend the ordering and preparation of meals, to direct and control the nurses and domestic servants placed under her, and to maintain the cleanliness of the wards and dormitories.

4. The inmates of the Quarantine Station are strictly enjoined not to damage or destroy the property of the institution.

5. The inmates are also strictly enjoined to observe all the sanitary arrangements that may be made by the Medical Officer and the domestic arrangements made by the Matron and in case of the violation of any such arrangement any such inmate shall be liable to a fine or penalty not exceeding ten pounds.

6. Smoking within the dormitories is strictly prohibited under a fine or penalty not exceeding forty shillings.

7. All lights in dormitories other than those sanctioned by the Medical Officer shall be extinguished at 10 p.m., after which hour all loud conversation, singing or noise must cease, and quietude conducive to sleep must be maintained during the night. Any person violating this rule shall be liable to a fine or penalty not exceeding five pounds.

8. It shall be the duty of the Constables placed in charge at the Quarantine Station to see that rules 4, 5, 6 and 7, are strictly observed.

The Quarantine Station which was opened on the 5th April, 1881, is situated at the mouth of the Harbour of Kingston at Green Bay, opposite Port Royal, from which it is distant about two miles, its distance from Kingston being six miles. It stands on a projecting cliff overlooking the harbour, and is some 50 to 60 feet above sea-level. The grounds belonging to it are ten acres in extent. The Quarantine Station buildings consist of blocks standing somewhat apart from one another. The 1st class quarters measure 112 ft. x 21 ft. x 20 feet, and have a spacious piazza on all 4 sides, 22 ft. wide. They consist of 24 rooms, 12 for males and 12 for females, with 4 rooms for married couples in addition. The second class quarters were built to hold 10 male and 5 female passengers. There are 160 cots for the accommodation of 3rd class passengers. When the wards are full accommodation can be found in the piazzas for a large number of cots. Each division is supplied with separate lavatory and bathroom. The hospital is placed higher up the hill than are any of the other buildings, being about 100 feet above the sea level. Accommodation is provided for 8 male and 6 female patients with a dispensary and room for attendants. The Hospital at the station is now completely mosquito proof screened. A second Hospital, mosquito proof to hold four patients is situated higher up the hill than the old hospital.

There is a Lyon's Steam Disinfector at the station, where passengers' clothes, bedding and other articles may be properly disinfected. Water is stored in two tanks having the following capacities: 13,500 gallons and 10,000 gallons. These have been recently made mosquito proof. A third tank capable of holding 10,000 gallons has been erected alongside the hospital. A jetty has been erected running out into the sea some 150 feet. Good fishing is abundant and there is a fine beach for sea-bathing and for a promenade.

The immediate neighbourhood of the grounds is an uncultivated hillside; but all the buildings command extensive prospects. There is an uninterrupted sea view to south and south-east, and the inland view to the eastward is striking. Looking across the harbour there is the city of Kingston in the foreground, and beyond it lie the magnificent mountains of the eastern part of Jamaica; conspicuous among them is the Blue Mountain Peak, 7,360 feet above the sea. A fine sea breeze blows during the hottest part of the day, and the nights are cool.

The Secretary of the Quarantine Board, is responsible for the interior economy of the establishment; but when it is occupied by passengers the Health Officer at Port Royal is in medical charge. A superintendent, a labourer and a house-cleaner, reside permanently in the Institution, while a nurse and sewing woman generally reside in the institution, but may be removed when there is no one undergoing quarantine. Other nurses or servants are employed when required.

#### BOARDS OF HEALTH.

From the year 1855, when the Act for the appointment of a Central Board of Health expired, there was no general Law in force in the Island providing as far as possible against the introduction or spread of contagious or infectious diseases until the passing of Law 6 of 1867. Under that Law the Governor is empowered to appoint a Central Board of Health; and the Municipal Boards of the several parishes, now styled Parochial Boards, are constituted Local Boards of Health, subordinate to the Central Board, with power to adopt all necessary measures for suppressing nuisances and promoting the public health. Law 14 of 1873, amended by Law 8 of 1874 gives these Boards the additional power of dividing their parishes into sanitary districts and of appointing Commissioners of Health for the inspection and control of such districts. This Law also empowers the Local Boards

to impose a sanitary rate on household property for defraying the expenses incurred by them for sanitary purposes.

In 1874 these provisions were extended. The late Dr. Bowerbank, in a petition to the Legislative Council stated that "for many years he had been painfully impressed with the great want of legislative action in most important matters affecting the public health;" and with respect to Kingston in particular he expressed the opinion that the "sanitary status was retrograding rather than advancing." He particularly referred to the want of legislation for the isolation of persons affected with contagious diseases and for effectually preventing the spread of such diseases and he drew special attention to the English Sanitary Act of 1866 on these important points. In consequence of these representations Law 8 of 1874, in aid of Law 6 of 1867, was passed by the Legislative Council. For a time these Laws were considered ample, but later it became apparent that further legislation was needed. The consequence was the passing of Law 15 of 1887. This Law empowers the Central Board of Health to make rules and regulations (with the approval of the Governor in Privy Council) for the prevention or mitigation of contagious or infectious diseases. A principal object of the Law is the isolation of houses, streets, lanes, etc., and the keeping isolated therein of any person suffering, or suspected to be suffering, from any such disease. Any person who, on account of poverty, may be without proper lodging, food and nursing, may be removed to any Hospital or other place provided for the reception of persons suffering from contagious or infectious disease.

Under the 30th section of Law 21 of 1874, a law was passed for the establishment, regulation and management of the Kingston Cemetery at May Pen. The Central Board of Health have an important and a responsible duty to perform in the interest of the public health in representing to the Governor, in Privy Council, the places or burial grounds in the City of Kingston in which burials should be discontinued on sanitary grounds. The Governor, in Privy Council, is empowered under the same section of the Law, to order that after a certain specified time burials shall be discontinued in the places or burial grounds which form the subject of the Board's representations. The Central Board of Health have largely availed themselves of the discretionary power vested in them by the section of the Law, the provisions of which have been extensively resorted to.

The corresponding provisions affecting the towns throughout the island generally are to be found in Law 7 of 1875, "A Law to regulate burials within the limits of towns and to provide for their discontinuance in certain cases."

Under the 5th section of this Law the Local Board of Health may empower any Health Officers or Inspectors of Nuisances to enter at all reasonable hours of the day-time upon any building or lands within their respective districts for the purpose of inspection, provided in the case of private property that twelve hours' notice of the intention to inspect is given to the occupier; and the 7th section enacts that no grounds or places within the limits of any town or village in the island, not already opened or used as burial grounds or places of burial, shall be so opened or used without a license from the Local Board of Health.

Law 35 of 1910 is a law further to amend Law 6 of 1867 and the other Health Laws and under this Law general bye-laws for securing improved sanitary and hygienic conditions have been framed by the various Local Boards of Health, approved by the Central Board of Health and by the Governor in Privy Council, and now form part of the Law. Bye-laws regulating the duties of Medical Officers of Health have also been passed under this Law by the Local Boards of Health, approved by the Central Board and confirmed by the Governor.

Law 31 of 1912 for the notification of Infective Diseases was passed on 21st May, 1912. Under Law 48 of 1920—A Law in aid of the Public Health Law 1867—additional powers are given for the isolation of persons suffering from Infectious Diseases, also for dealing with Contacts."

The Public Health Law 18 of 1925 came into operation on the 1st January, 1926.

This Law repeals all previous laws relating to Health and Sanitation and fixes the number of Members of the Central Board of Health at 7.

Bills of Health are granted by the Secretary to the Central Board free of charge. The Visiting Officers at the several outports also grant Bills of Health on certificates obtained from the Medical Officer of the port. Bills of Health are granted for Vessels leaving Port Royal by the Health Officer of the port.

MEDICAL AND SURGICAL PRACTITIONERS.

The office of enrolment of qualified Medical and Surgical Practitioners is the General Register Office, Spanish Town. A copy of the Register corrected to date is published in the Jamaica Gazette in May in each year.

No person not registered can hold any office or appointment in Jamaica as a Physician.

Surgeon, Apothecary or other Medical or Surgical Practitioner in the Government Service, or of any public or Parochial Board or Friendly Society; and unless duly registered he cannot recover in a Court of Law any charge for medical or surgical aid, advice, performance of operation, medicine supplied, &c.

The procedure necessary for obtaining registration depend upon the nature of the qualification possessed.

Any person already registered in the United Kingdom can be registered in Jamaica upon producing to the Registrar General the diploma, license or certificate held by him, together with a declaration B (shewn below) made by him before a Justice of the Peace and impressed with a twenty shilling stamp, setting forth that he is the person referred to in such diploma, license, &c., provided that the name of such person appears in the British Medical Register most recently published, or that he produces to the Registrar General a certified copy of the entry of his name in the British Register.

Any person not registered in the United Kingdom but holding a diploma, license or certificate evidencing the possession by him of such qualification as would entitle him to registration therein, can be registered on producing to the Registrar General such diploma &c., together with a declaration according to Form B, as in the other case above provided.

Any person not qualified as above but holding a diploma, license or certificate granted to him by any University, College or Faculty of Physicians or Surgeons, may become qualified and be registered on obtaining and producing to the Registrar General a certificate in form of Schedule C to Law 49 of 1908, setting forth that he has been examined and passed by the Government Board of Examiners

FORM B I residing at \_\_\_\_\_ in the parish of \_\_\_\_\_  
do hereby declare that I am a member (or as the case may be) of (here state the College, Faculty or Society) and was authorised by such (here state the College, Faculty or Society which gave the Authority) on the \_\_\_\_\_ day of \_\_\_\_\_ 19 to practise medicine and surgery (or to practise medicine, or to practise surgery, as the case may be) as appears by my (here specify the diploma, certificate or other document evidencing such authority) now produced and shown to the undersigned Justice of the Peace

Declared before me this \_\_\_\_\_ day of \_\_\_\_\_ 19 \_\_\_\_\_ Justice of the Peace (Signed)

#### DENTISTRY.

The Dental Practitioners Law, 1905, (Law 11 of 1905) makes provision for the registration of persons practising dentistry in Jamaica.

Under Section 1 the General Register Office, Spanish Town, is the registry of dental practitioners and the Registrar General of Births and Deaths is the Registrar.

Section 2 provides for the keeping of a Register of qualified dental practitioners.

Section 6 enacts that the following persons upon satisfying the Registrar by such documentary or other evidence of their right to be registered, and upon payment of a registration fee of one guinea, shall be entitled to be registered

- (a) Any person qualified or entitled to practise dentistry in the United Kingdom under any Act for the time being in force.
- (b) Any person who, at the passing of this Law, is *bona fide* engaged in the practise of dentistry in this Island, and who holds a diploma, license, or certificate granted to him by any university, college, or institution recognized by the Governor in Privy Council, after and in consequence of his having passed through the course of study and examination in Dentistry, prescribed by such university college, or institution.
- (c) Any person who, at the passing of this Law is and has been for not less than three years *bona fide* engaged in the practice of dentistry in this Island, and whom the Governor in Privy Council for special cause shown, permits to be registered without examination.

Sections 8, 9 and 10 provide as follows:—

8—Any person who at the passing of this Law, is *bona fide* engaged in the practice of dentistry in this island, and also any person not qualified to be registered under section 6 of this Law, but who holds a diploma, license, or certificate granted to him by any University, College, or Institution recognised by the Governor in Privy Council, after and in consequence of his having passed through the course of study and examination in dentistry prescribed by such University, College, or Institution, and who wishes to be registered under this Law, may make application in writing to the Governor to appoint a Board of Examiners.

9—On receipt of such application the Governor shall appoint three persons, duly

registered under this Law, as a Board of Examiners, and the persons so appointed shall thereupon fix a time and place for holding the examination.

10—The Candidate shall first satisfy the Board of Examiners that he was at the date of the passing of this Law *bona fide* engaged in the practice of dentistry in this Island, or that he holds a diploma, license, or certificate granted to him as aforesaid, and the Board of Examiners, is so satisfied, shall with reasonable dispatch fully and fairly examine such candidate accordingly; and, if they find him sufficiently informed and skilled, they shall give him a certificate to that effect, and he shall then be entitled to be registered under this Law, upon payment of the Registration fee.

The Board of Examiners consists of three dental practitioners nominated from the list of registered practitioners and appointed by the Governor from time to time.

A list of the Colleges recognized by the Governor in Privy Council under Section. (b) will be found in the Jamaica Gazette of Sept 21st 1905, and in the Handbook of Jamaica for 1911 and previous issues.

#### MIDWIFERY.

The Midwifery Law, 1919 (Law 25 of 1919), makes provision for the registration of persons qualified to practise midwifery in Jamaica.

The Registrar under the Law is the Registrar General of Births and Deaths, General Register Office, Spanish Town.

The following persons may be registered as Midwives:—

- (1) Any person who has before the passing of this Law practised successfully as a midwife for more than three years as shown by a certificate signed by a District Medical Officer.
- (2) Any person who produces to the Registrar a certificate of competency from a Board appointed, under Section 7 of the Law, partly by the Central Board of Health and partly by the Governor to examine candidates for certificates of competency. Examinations are to be held in January and July in every year. Any person who produces to the Registrar a certificate of competency as a midwife granted by the Examining Board of the Victoria Jubilee Lying-in Hospital or by any Body or Institution approved by the Governor in Privy Council.

Fee for registration under (1) is one shilling (1/-); but registrations thereunder must have been made within twelve months from the first day of January, 1920.\* Fee for Registration under (2) is ten shillings and six pence (10/6). Registration under (3) is free.

### POLICE.

In 1866 it was considered necessary to abolish the old police force, dating from 1834, and a law was passed in 1867 (No. 8) establishing a new and improved police or constabulary force. Under that Law the Governor is empowered to appoint an Inspector General and a staff of inspectors and sub-inspectors; and the Inspector General is authorised to admit persons as sub-officers and constables. No person is eligible for membership unless he can produce a certificate of character from a magistrate or other gentleman of position and can pass a satisfactory medical examination. He must not be less than five feet eight inches in height and 33 inches round the chest; not less than 20 or more than 25 years of age, and unmarried; and be able to read, without hesitation any printed or written document and to write a fair hand. Every candidate is enrolled for five years (3 months on probation—Law 2 of 1901) and he is bound to serve and reside in any place to which he may be appointed—his native parish and the parish with which he may be connected by marriage or family ties not being one of the districts to which he may be sent.

The Officers, Sub-Officers and men are trained in Military exercises for the purposes of enabling them to protect themselves, their prisoners, and their barracks, and to act in unison and with alertness and effect in cases of danger and alarm, such as riots and fires.

But although trained as a semi-military police the constabulary are bound to perform all the duties appertaining to the office of constables. They are required to preserve peace, to detect crimes, to apprehend or summon persons found committing any offence against the criminal or the conservancy laws, to execute all summonses, warrants, subpoenas and other processes issuing from any Court of Justice or by any Justice of the Peace in a criminal matter, to aid the health and sanitary officers in the execution of their duties, to apprehend smugglers and others found contravening the revenue laws, to seize all contraband goods and all taxable property for the non-payment of taxes, and to keep order at all markets, theatres, courts and other public places and assemblies.

As a preventive force they are required to patrol the town and highways, both by day and by night, and to visit the estates, pens, plantations and villages. To ensure regularity in their patrols the sub-officers and men of each station are so distributed as to furnish the necessary quota for this indispensable and important duty, whilst providing for the due performance of the miscellaneous work of the district.

The constabulary, by means of this effective system of patrol in town and country, not only materially prevent the committal of crime, and especially depredations on property, but are at all times prepared to furnish the authorities with accurate information respecting places, persons, and occurrences. They are required promptly and correctly to report to the Inspector General and to the custodes the approach of any political festival, meeting, assembly, or demonstration, illegal drilling, or other circumstances connected with, or in any wise affecting the peace or tranquility of the country or the safety of life or property.

The Detectives are specially charged with the duty and responsibility of tracing felonies and other serious offences and apprehending offenders. They are aided by the ordinary constabulary and by the district constables, but their actions are greatly facilitated by the system of criminal registration which forms an important element in the present police arrangements of the colony. The antecedents of every habitual criminal are carefully collected, recorded and circulated, with his photograph, and he is bound once in every month to report himself to a chief officer of police. He is taken under police supervision the moment he leaves the General Penitentiary or other prison and every movement of his is carefully watched and reported. The history and actions of all other persons convicted of crime but not sentenced to police supervision, are similarly noted and circulated; but criminals of this class are not required to report themselves to the constabulary.

The Water Police of Kingston, Port Antonio, Savanna-la-Mar, Montego Bay, Black River and Port Henderson are auxiliaries to the regular Police and are charged with the prevention and detection of larcenies, smuggling, &c., from the wharves and shipping in

\* Time extended under certain conditions by Midwifery Amendment Law 1922, Law 12, 1922.

the harbour and on the rivers of their respective districts. The strength of the Force, ordinarily 947 was increased in April 1920 by 116 Sub-officers and men, 16 of these being for the Water Police Branch. The strength of the force was further increased in April 1921 by 26 Sub-officers and men, and since reduced in April 1922 by 59 Sub-officers and men and subsequently increased in June 1924 by 50 men.

The District Constabulary Force was organised for the purpose of connecting the main police system with the remote parts of the Island. Their principal duty is the suppression of the crime of Larceny of growing produce and small stock, but they have all the powers of constables both in the departments of justice and of revenue. They have, in fact, a power in excess of the ordinary constabulary. If a district constable suspects that stolen property is concealed in the house, premises, or lands of any person who has ever been convicted of larceny, or of receiving stolen goods, he can, without a search warrant, enter and search for such property and arrest the offender. The district constables are resident householders of the districts. They report themselves periodically at the nearest constabulary station, where they give and receive information and obtain instructions as to the manner in which they should act for the prevention and discovery of crimes. The district constables are distinguished when on duty by a badge and a baton, and the whole force is under the supervision and control of the officers of the constabulary.

**SUB-INSPECTORS**—The following are the Main Regulations relating to the appointment of Sub-Inspectors of Police:—

1. A qualifying examination for admission to the Police Forces of Ceylon, the Straits Settlements, the Federated Malay States and Hong Kong, and to the Constabulary Forces of British Guiana, Trinidad and Jamaica, will be held annually in the Summer in conjunction with the Army and Air Force entrance examinations, and the examination for admission to the Indian Police Service (Higher Grades).

2. Particulars of the Examination.—Information as to the subjects of the examination, the date and place of the examination, fees payable by candidates, &c., may be obtained from the Civil Service Commissioners, (Burlington Gardens, W.I.), by whom the examination will be conducted.

### 3. Method of Application.—

(a) Candidates must first obtain the Secretary of State's permission to sit at the examination. Applications for such permission must be addressed in writing to the Assistant Private Secretary (Appointments), Colonial Office, S.W.I., not earlier than the 1st December in the year preceding, and not later than the 1st March in the year of the examination. No applications received after that date will be considered.

(b) Forms will then be supplied by the Assistant Private Secretary which the candidate must fill in, with full particulars regarding his career and qualifications; he must name on the form two referees who will answer from personal knowledge for his character and capacity; he should state, in the appropriate paragraph, the Colonies to which he wishes to go, in order of preference; and he must then return the form to the Assistant Private Secretary with originals and copies of testimonials, (not more than six), which should be sent in altogether. He must also enclose his birth certificate (or a certified copy), and a certificate from a qualified medical practitioner, giving his height, chest measurement, with any special remarks as to physical development, etc. The originals of the testimonials and the birth certificate will be inspected and returned to the Candidate, and the copies retained for record in the Colonial Office.

4. Permission to sit at the Examination.—Candidates who have complied with the above instructions will be informed in due course whether they have been granted permission to sit at the examination. The grant of such permission will be at the absolute discretion of the Secretary of State, and he will not be prepared to give reasons for his decision on any application.

5. Selection after the Examination.—The Secretary of State will select candidates to fill such vacancies as may exist in the various Police Forces from amongst those who are pronounced by the Civil Service Commissioners to have qualified in the literary examination.

Those candidates will be selected who appear to him to be most suitable on grounds of character, personal fitness, general education and subsequent training and experience (if any).

Candidates must be prepared to attend at the Colonial Office, if required, at their own expense, to reply to any enquiries which may be considered necessary. Qualification

in the literary examination will not in itself imply ultimate selection for an appointment.

Attempts to influence the Secretary of State's selection through Members of Parliament or other persons who are not personally well acquainted with the applicant are useless, and will be regarded as indicating that the applicant himself does not consider his qualifications sufficiently good to justify his appointment on his own merits. They can in no case operate to the advantage of a candidate, and may lead to his disqualification.

6. Medical Examination.—Selected candidates will be required to undergo a medical examination by one of the Medical Advisers to the Colonial Office, as to their physical fitness for service in the Colony or Protectorate to which they have been appointed. A fee of one and a half guineas will be payable in respect of this examination.

Final selection will depend upon successfully passing this examination.

7. Riding Test.—Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride, and will be required to obtain from the Commissioners a certificate that they are able to ride well, and to possess an adequate knowledge of horsemastership.

This Test will not apply in the case of candidates appointed to Hong Kong. In all other cases final selection will depend upon successfully passing this Test.

8. Course of Training.—In the case of British Guiana, Trinidad and Jamaica, a course of training for candidates who were declared to be successful at the examination, and were certified to be physically fit for service, was until recently arranged at the Depot of the Royal Irish Constabulary. This has now come to an end, but it is probable that arrangements for a similar course of training will be made with the Royal Ulster Constabulary for candidates before they are finally selected.

9. Reserve List.—When the selection of candidates to fill existing vacancies has been completed, it will be at the discretion of the Secretary of State to place certain of the unsuccessful candidates (but only candidates who have qualified in the literary examination) on a Reserve List. From this list candidates would be selected to fill any further vacancies that might occur during the course of the current year. No indication could be given, however, as to the possible occurrence of such vacancies.

10. Local Candidates.—A certain proportion of the appointments in British Guiana, Trinidad and Jamaica will be reserved for candidates resident in those Colonies. Such candidates will undergo the same literary examination, and will be selected, subject to confirmation by the Secretary of State, by the Governor of the Colony. They will be required to pass equivalent medical and riding tests locally.

11. Conditions of Eligibility.—British Guiana, Trinidad and Jamaica.—

- (a) Candidates must, without exception on any ground, be above 19 and under 26 years of age on the 1st August in the year of the examination.
- (b) Candidates must be unmarried. If a successful candidate marries before his departure to the Colony for which he has been selected, he will forfeit his appointment; and, if he afterwards marries except in accordance with the regulations of the Government under which he is serving, he will be liable to removal from the service.
- (c) Candidates must be at least five feet eight inches in height, with adequate chest measurement, and their physical development must be good in every respect.
- (d) No person shall be deemed eligible as a candidate who shall not satisfy the Secretary of State for the Colonies that he fulfils the conditions set forth above.

(8) A candidate on being finally selected for appointment will be provided with a free first class passage to the Colony, upon his entering into an agreement with the Crown Agents for the Colonies by which he will be bound to repay to the Colonial Government the cost of his passage, and also, in the case of British Guiana and Trinidad, the uniform allowance of £35. Jamaica provides £25 per annum uniform allowance to Sub-Inspectors, in the event of his relinquishing his appointment of his own accord within three years of the date of his arrival in the Colony for any other reason than mental or physical infirmity. He will draw half the salary of his appointment from the date of embarkation, and full salary from the date of his arrival in the Colony.

DISTRICT CONSTABLES.—The District Constables Law (5 of 1899) gives power to Resident Magistrates, the Inspector General of Police and the officers in charge of parishes to inflict fines on the district constables. All fines so inflicted are paid into the District Constables Fund, which fund will be used for the benefit of the district constables alone, in payment of rewards or in other ways, as the Governor may direct.

**LAWS**—The Laws affecting the organization, &c., of the Police Force, are as follows :—  
 22 Vic. chap. 20, Law 8 of 1867, Law 6 of 1869, Law 46 of 1869, Law 34 of 1870, Law 2 of 1879, Law 20 of 1885, Law 18 of 1895, Law 5 of 1899, Law 2 of 1901, Law 28 of 1902, Law 28 of 1903, Law 14 of 1904, Law 19 of 1907, Law 41 of 1908, Law 39 of 1914 and Law 20 of 1922.

## SPECIAL CONSTABLES.

THE object of Law 14 of 1904, is to empower the appointment of Special Constables, who are liable to be called out to assist the Civil power in cases of apprehended disturbances or other occasions calling for extraordinary measures for the Public Safety.

Under Section 1 where it is made to appear to two Justices of the Peace for any Parish that any tumult, riot or felony has taken place or may reasonably be apprehended and the Justices are of opinion that the ordinary Police are not sufficient for the preservation of the Peace, then such Justices may appoint in writing and swear in as many of the householders or other persons residing in the parish as they may think fit to act as Special Constables, informing the Inspector of Police of the names of the persons so appointed and also furnish a full report of same to the Governor.

Under Section 3 the Governor may cause Special Constables to be appointed and sworn in for the whole of the Colony, and may signify, if he sees fit that no person shall be excused from being appointed and sworn in by reason of any exception.

Special Constables shall be subordinate to the Inspector or other Chief Officer of Police of the Parish to which they are appointed and shall obey all lawful orders. Each Special Constable will be provided with a distinctive badge and a suitable baton.

If any Special Constable refuses or neglects to serve, or to obey such lawful orders as may be given him for the performance of his duties, he shall be liable to forfeit a penalty not exceeding Five Pounds, unless he proves to the satisfaction of the Court, that he was prevented by sickness or such unavoidable accident, as may, in the opinion of the Court be a sufficient excuse. Special Constables are liable to be removed from Office by the Inspector of Police for the Parish or by the Justices of the Peace by whom they were appointed.

Every Special Constable, shall not only within the Parish for which he was appointed, but also throughout the whole Colony have, exercise and enjoy all such powers, authorities, advantages and immunities and be liable to all such duties and responsibilities as any regular Police Constable.

Any person convicted of assaulting a Special Constable in the execution of his duty is liable to a penalty not exceeding Twenty Pounds. Special Constables shall be paid for their services according to rates fixed by the Governor in Privy Council.

The Law was put into operation in 1918 when 1,057 Special Constables were appointed by the Governor and sworn in for the various Parishes, Kingston excepted. In January, 1920, the Law was applied to Kingston and 163 Special Constables were sworn in.

## PRISONS AND REFORMATORIES.

## PRISONS.

The General Penitentiary at Kingston—erected on land originally part of the Hope Estate—covers an area of eleven acres within the walls. The outer walls are 22 feet high and 5 feet 6 inches thick at the base, tapering to 18 inches at the top. There is accommodation for 645 male convicts, with separate cells. The female Prison adjoins the male Prison and has accommodation for 198 inmates.

The men are classified according to their sentences, but they work in association. They are employed in burning bricks, breaking stones, and in working at various trades. A number of them also work at a lime-stone quarry at Rock Fort which forms part of the Penitentiary property. All juvenile prisoners—under 21 years of age—are located and worked by themselves and do not come in contact with the adult criminals. A Prison Farm was established at Kingston Pen in 1917.

To the north of the Penitentiary are the quarters of the Superintendent and other officers, covering about 13½ acres. The brickfield, in which are the brick kilns, is connected with the Penitentiary proper by means of an underground tunnel.

The subordinate officers are now as a rule selected from men who have served with good conduct either in the Army or in the Constabulary and who have therefore a knowledge of order and discipline. The mark system as in force in the English convict prisons has been adopted.

Upon the female side of the penitentiary a system of classification is now carried out by the separation of those convicted for the first time from the re-convicted criminals.

There is a District Prison at Spanish Town, which includes a County Gaol and a Debtors Prison, affording accommodation for 634 prisoners with a prison farm and Reformatory attached.

The net cost of the Prisons has therefore been £40,734 2s. 6½d. The total estimated value of products which yielded no return in money was £2,767 12s. 5d.

In 1885, a new system of affording religious instruction to the prisoners of the General Penitentiary came into operation and the scheme known as the Corporate Chaplaincy ceased to exist. By the new arrangement a separate chaplain is nominated for every denomination of which there are not less than 10 prisoners in the penitentiary, and he receives remuneration according to a fixed scale, 10/- per head per annum for each of the first 50 prisoners and 3/- for each above that number. Under certain restrictions two or more religious bodies may unite and have one chaplain. Provision is made for teaching the prisoners the elements of education.

The Governor is authorised by Law 18 of 1882 to appoint in respect of each of the prison two or more justices of the peace as visiting justices. The judges of the Supreme Court, and the Resident Magistrates are by virtue of their offices visiting justices and severally have and exercise the powers of two visiting justices. The Director of Prisons has also the power of two visiting justices.

## INDUSTRIAL SCHOOLS.

In 1881 the several laws relating to Reformatories were consolidated and amended, the principal provisions of the new enactment (Law 34 of 1881) being the following: For the erection of suitable buildings and premises, separate and distinct from the Reformatory of Stony Hill, as a Reformatory for girls; the establishing of Industrial Schools for boys and girls in the neighbourhood of Kingston and Montego Bay; the committal of criminal children to Reformatories and pauper children to Industrial Schools; and the detention of all children in these institutions until they attain the age of 16.

Under Law 34 of 1881, the St. Mary's Industrial School for girls at Alpha Cottage, Kingston, was certified in December 1889, and in May, 1891, an Industrial School for boys at the same place was also certified. Bishop O'Hare, S.J., of the Roman Catholic Church, is the Manager of both these Schools. An Industrial School for Girls (under Archbishop Nuttall) at Stony Hill was also certified on the 27th Oct., 1892. In January, 1891, a Government Industrial School was started at Hope Gardens with 20 boys transferred from the Industrial School at Stony Hill; and in April 1892, one for girls was opened at Shortwood, St. Andrew. This was the commencement of the movement to separate non-criminal from criminal children, to further which the Industrial Schools were in May, 1891, placed under the Education Department, the Superintending Inspector of Schools being then appointed Inspector of Industrial Schools. Hope closed in 1909, Shortwood closed in 1914. The Reformatories became Industrial Schools by the passing of Law 32 of 1910.

## BOYS AND GIRLS INDUSTRIAL SCHOOL, STONY HILL.

The boys at Stony Hill are trained as tailors, carpenters, masons, blacksmiths and bakers. Thirty-five boys and 11 apprentices were employed during the year 1925 in the carpenter's shop; they made articles of furniture of the value of £742 3s. 6d.; 20 boys and 1 apprentice were employed as masons and bricklayers; they did work valued at £268 11s. 11d. The work in the tailoring branch was performed by 25 boys and 1 apprentice; they made all clothing, coats and mattresses for the institution, valued at £224 18s. 0d. In the blacksmith's shop the value of work was £155 14s. 8d. Other boys worked in the bakery, garden and fields. By their steady application to labour the cultivation, which in 1878 was only half-an-acre, is now extended to 43 acres, comprising coffee, vegetables, provisions, guinea grass, bananas, corn, cocoa, oranges and grape-fruit.

The gross cost per head per annum for the 421 inmates who were in the institution during the year ending the 31st December, 1925, was £20 0s. 10d., and the average earnings per child for that period, £12 2s. 0d.

The girls are taught sewing, washing, hat-making, house cleaning and some are taught cookery. During the year ending 31st December, 1925, the washing of clothes was valued at £527 8s. 7d. The girls made and mended clothing valued at £84 17s. 4d.

## REGISTRATION.

The offices of Registrar General and Deputy Keeper of the Records have been amalgamated and are located in Spanish Town.

## General Register Office, Spanish Town.

Compulsory registration of births and deaths came into force on 1st April, 1878. During the years 1844 to 1855 there was a voluntary system of registration of births and deaths under the Acts 7 Victoria chapter 54 and 8 Victoria chapter 47. These Acts were repealed in 1855 by the Act 18 Victoria chapter 29 as the voluntary system of registration was found to be ineffectual.

Baptisms and Burials by Ministers of the Church of England were, previous to 1st April, 1878, recorded at the Island Secretary's Office, Spanish Town (now the Island Record Office). These registers have been transferred to the custody of the Registrar General.

From the 1st April, 1878, births and deaths have been registered throughout the island, each parish being divided into registration districts with a Registrar for each district, the central office being at Spanish Town.

The present system of registration of marriages came into operation in 1880. There are in the registry records of marriages by ministers of the Church of England beginning in 1666, and by ministers of other denominations beginning in 1840.

#### BIRTHS.

When a birth takes place personal information of it must be given within 42 days to the Registrar of the district in which it took place, and the register be signed in his presence by one of the following persons:—1. The father or mother of the child; if they fail; 2. The occupier of the house in which the birth took place; 3. A person present at the birth; or 4. The person having charge of the child.

The duty of attending to the registration thus rests firstly on the parents. One of them must within 42 days of the birth give to the Registrar *by word of mouth* the information needed and must sign the register in his presence. If they fail, without reasonable cause, they become liable to a penalty of forty shillings. In case of their failure one of the other classes of informants above named must give personal information and sign the register within the same period.

If at the end of 42 days registration has not been effected the Registrar may send a requisition to any qualified informant requiring him or her to attend for the purpose and any person who fails to comply with such requisition is liable to a penalty of forty shillings.

After three months a birth can only be registered on the informant's making, before the Registrar and some Justice of the Peace, or in place of such Justice some other respectable witness, a solemn declaration as to the correctness of the particulars required to be registered and on payment of a fee of one shilling to the Registrar.

After twelve months a birth can be registered only on the express authority of the Registrar General and on payment of a fee of ten shillings.

It is often of great importance to persons of all classes to be able to prove their age and the place of their birth. Legal proof of these is to be obtained from the civil registers as kept by law. Parents owe to their children, therefore, a careful attention to registration.

#### DEATHS.

When a death takes place personal information of it must be given within five days to the Registrar of the district in which it occurred, and the register be signed in his presence by one of the following persons:—

1. The nearest relative of the deceased present at the death, or in attendance during the last illness; if they fail
2. Some other relative of the deceased in the same Registrar's District. In default of any relatives
3. (a) A person present at the death; (b) the occupier of the house in which the death happened. If all the above-named fail
4. (a) An inmate of the house; or (b) the person causing the body to be buried.

Relatives present or in attendance are, therefore, firstly required to attend to the registration. One of them must give to the Registrar of the district *by word of mouth* the information needed and sign the register. In case of their failure one of the other persons above-named must give personal information and sign the register in their stead.

When a registered Medical Practitioner has attended the deceased during the last illness the Practitioner must sign and give to some person qualified as an informant

certificate of the cause of death, and the person so receiving the certificate must deliver it to the Registrar at the time of registration. The penalty for not giving or duly delivering the certificate is two pounds.

It is advisable that every death should be registered and a certificate of registry (which is given free of charge) be obtained from the Registrar before the funeral. This certificate should be delivered to the Minister or other person who performs the funeral of religious service.

If no such certificate of registration is thus delivered the Minister or person who buries, or performs any funeral service, or who presides at the burial, must, within seven days after the burial, give notice thereof in writing to the Registrar of the district, and if he fails so to do he is liable to a penalty of ten pounds.

After twelve months a death can be registered only on the Registrar General's express authority and on payment of a fee of two shillings.

A careful attention to these requirements is likely to prove of the highest importance to the surviving relatives and friends of the deceased persons.

## MARRIAGES.

There are four ways of obtaining the necessary legal authorisation for the performance of a marriage in Jamaica, (Law 25 of 1897 and Law 28 of 1905).

*I.—Publication of Banns*—In this case the persons intending marriage must each give written notice to a Ministerial Marriage Officer of the congregation to which he or she belongs, or to any Ministerial Marriage Officer having charge of a place of worship in the parish in which they reside (when both belong to the same congregation a single notice will suffice, or when one does not reside in Jamaica a single notice by the other will suffice) and thereupon the Marriage Officer, if satisfied that the notice is conformable to law, will publish the banns in legal form for one Sunday, or one Saturday in the case of persons professing the Jewish religion. In addition to such publication the particulars of the marriage notice must be entered on a specified form and affixed on the outside of the principal door of the place of worship at which the banns are published for a period of seven clear days. After due publication the Marriage Officer will give a certificate of the fact to the person who gave the notice and thereupon the marriage may be contracted and solemnized (a) by or before a Ministerial Marriage Officer, according to such form and ceremony as the parties may see fit to adopt, provided that the requirements of the Marriage Laws as to witnesses, &c., and the form of contracting words be observed; or (b) in the presence of a Civil Registrar of Marriages and two credible witnesses, with the declaration and form of contract provided. No religious service is permitted before the Civil Registrar.

*II.—By a License from the Governor.*—In this case application must be made and the prescribed form of declaration be furnished to the Colonial Secretary, together with the sum of *five pounds*; the value of the stamp to be borne upon the Governor's license. Immediately upon the issue of such license the marriage may be solemnized by or before a Ministerial Marriage Officer, or in the presence of a Civil Registrar of Marriages as above described in the case of banns.

*III.—By Public notice at the Office of a Civil Registrar of Marriages.*—In this case residence in the parish for not less than fifteen clear days before the giving of notice is requisite. When both persons intending marriage reside within the same parish a single notice will suffice. When one of them does not reside in Jamaica a single notice by the other will suffice. The notice must be posted up in a conspicuous place on the outside of the Civil Registrar's Office during seven clear days, at the end of which time a certificate of due publication will be given by that officer, and the marriage may then be solemnized in either of the ways already described as after publication of banns or Governor's License.

*IV.—By License from a Justice of the Peace, &c., Law 28 of 1905.*—By special license from a Justice of the Peace for any parish, the Clerk of the Resident Magistrates Court for the parish in which the parties or one of the parties intending marriage resides, or any person appointed for the purpose. Before the granting of such license there must be produced to such Justice of the Peace, Clerk of the Resident Magistrates Court, or other appointed person, a notice of marriage signed by the applicants for the license, together with a statutory declaration from some minister of religion (being a marriage Officer), stating that the applicants are well known to him and that the statements

made by them in their marriage notice are to the best of his knowledge and belief in every particular just and true. Before the issue of any marriage License, the person issuing it must secure that such license be stamped with revenue stamps to the value of two shillings and sixpence, and shall himself cancel the stamps before he delivers the license.

If the marriage is not solemnized within three months from the date of the license or certificate of publication the license or certificate becomes void and of no effect.

*Registration, Certified copies, &c.,*—Indexes of marriage, birth and death registers, are kept at the General Register Office, Spanish Town. Searches can be made there and certified copies of entries in Registers be given on application and payment of the prescribed fees.

## TRADE MARKS.

Law 37 of 1911 consolidates and amends the Laws relating to Trade Marks. It came into operation on March 1st, 1912, and supersedes Law 17 of 1888 and the Laws amending the same. Rules made thereunder will be found in the Supplement to the Jamaica Gazette of 13th March, 1913.

The Registrar General is the Registrar of Trade Marks, and he keeps a Register of Trade Marks at the General Register Office, Spanish Town.

Any person claiming to be the proprietor of a Trade Mark who is desirous of registering the same must apply in writing to the Registrar in the prescribed form, copies of which can be obtained from the General Register Office.

A registrable trade mark must contain or consist of at least one of the following essential particulars:—

- (1) the name of a company, individual, or firm represented in a special or particular manner; (2) The signature of the applicant for registration or some predecessor in his business; (3) An invented word or invented words; (4) A word or words having no direct reference to the character or quality of the goods, and not being according to its ordinary signification a geographical name or a surname; (5) Any other distinctive mark, but a name, signature, or word or words other than such as fall within the descriptions in the above paragraphs (1), (2), (3), and (4), will not, except by order of the Court, be deemed a distinctive mark.

Special provision is made as to the registration of trade marks used before 1st April, 1889, and of Trade Marks registered in England.

Applications have to be advertised and the procedure to be followed in opposed and unopposed applications is prescribed.

The following Order by the Governor in Privy Council was made March 11, 1919.

UNDER the provisions of section 24 of Law 7 of 1918, I, the Governor in Privy Council do hereby prescribe that the fee payable for the registration of Trade Marks to be placed on packages of produce of the kind mentioned in the fourth schedule to the said Law and exported from this Island shall, in lieu of fees prescribed by me in such cases under the Trade Marks Law, 1911, (Law 37 of 1911) be as follows, viz:—

On application to register a Trade Mark for one or more of the articles mentioned in the said Schedule .. .. .	2/6
For registration of a trade mark for one or more of the articles mentioned in the said Schedule .. .. .	3/
On application to register a subsequent proprietor in cases of assignment or transmission of one or more marks:—	
For one mark .. .. .	5/
For each of the other marks .. .. .	2/
For renewal of registration of a mark at expiration of last registration ..	5/
Additional fee under Rule 70 of Trade Marks Rules, 1913 .. .. .	2/6
Additional fee under Rule 71 of Trade Marks Rules, 1913 .. .. .	5/

Made this 11th day of March, 1919.

## REGISTRATION OF BOOKS.

The Registrar General is also Registrar of Books under Law 2 of 1887. Under this Law three copies of every book printed in the colony must, within one month of the printing thereof, be delivered to the Registrar-General by the printer at the General Register Office, Spanish Town, together with a memorandum of the particulars of the book. A form of the memorandum may be obtained at the General Register Office.

## COPYRIGHTS.

The local laws as to Copyrights were repealed in 1913. An Imperial Act on the subject is now in force in the colony. No registration is required.

The owner of any unpublished original literary, dramatic, musical or artistic work is entitled to copyright therein if at the date of the making thereof the Author was a British Subject or resident in Jamaica or in some other place in His Majesty's Dominions to which the Imperial Act extends. The owner of a published work is entitled to Copyright therein if the work was first published in Jamaica or in some other place on His Majesty's Dominions as before mentioned. Copyright extends throughout all parts of His Majesty's Dominions to which the Imperial Act extends.

ISLAND RECORD OFFICE.

*Spanish Town.*

This office was established under Law 6 of 1879 in place of what had been the ancient office of "Island Secretary," which had existed for a period of 220 years, and been held under letters patent until the year 1853, after which the Governor exercised the power of appointment, subject to the Queen's approval.

The Chief Justice for the time being is *ex officio* Keeper of the Records and has an official title as such. All public records and all registered deeds and writings formerly in the office of the Island Secretary are under his charge and superintendence, and every office or place in which public records under his charge are deposited is a branch of the Record Office.

The Deputy-Keeper of the Records is appointed by the Governor: his functions are precisely those which belonged to the Island Secretary. All laws wherein reference is made to the Island Secretary's Office or to the Island Secretary take effect as if such reference were made to the Record Office and the Deputy Keeper of the Records. His duties comprehend the enrolling in proper registers of all deeds and conveyances, patents, wills which have been admitted to probate, annual produce accounts of estates and accounts-current of executors, administrators, trustees, attorneys, agents and persons acting in a fiduciary character, as well as the custody and preservation of the authenticated impression of the laws of the island. Law 23 of 1886 (the Incorporated Companies and Societies Law) requires a register of all Companies incorporated under the provisions of the 27 Vic., sess. 2, chap. 4, of all Friendly Societies established under the provisions of the 6 Vic., chap. 27 and of all Building Societies established under the provisions of the 28 Vic., chap. 17. to be kept in the Record Office. Transcripts of the Rules and Regulations of these Societies (when certified by the Attorney-General) are to be filed in the Record Office; and the annual general statements of the funds and effects of the Societies and certain of the Companies are to be sent to the Deputy Keeper of the Records and by him published in the Jamaica Gazette. The Island Record Office is under Law 16 of 1918 (the Registration of Business Names Law, 1918) the office for the registration of firms and persons under that Law and under Law 37 of 1919 the office for the registration of Trade Unions and under both Laws the Deputy Keeper of the Records is the Registrar.

Deeds affecting unregistered land will not unless recorded within the prescribed time, be good against other purchasers or mortgagees *bona fide* for valuable consideration on the land, who shall duly prove and record their deeds within the prescribed time. The time allowed for the recording of a deed affecting unregistered land is, in most cases, 90 days from its date. In some cases the period is less and in others it is more.

No instrument passes any estate in land, which has been registered under the Registration of Titles Laws, until the instrument has been registered in the Office of Titles, Kingston.

Abstracts or notes from the registers may be taken by persons interested in searching the records, but copies of all public records must be made and certified as a true copy and sealed with the seal of the office at the cost of the person desiring the same. Office copies so made and certified are evidence in all Courts of Justice, without further proof in every case in which the original record would have been received as evidence.

Deeds or writings presented for Registration shall, if required, and on production of the receipt be returned at any time after registration, but if application for the return of the deed or writing be not made within two months after the same has been recorded and the record thereof examined and certified, it shall be returned to the party presenting it by registered letter, addressed to him at the postal address furnished in the declaration of counting. No public record may be taken out of the Record Office unless under an order of some competent Court. The expenses of the office, including salaries, are limited to the sum of £1,200 per annum. All revenue is paid over to the Treasury for the use of the public.

## OFFICE OF TITLES

*Public Buildings, Kingston.*

THE Registration of Titles Law, 21 of 1888, came into operation on the first October, 1889. A little more than a quarter of the Island's area has now been registered.

The manner of bringing lands under the law is as follows:—

An application describing the lands, stating the value and giving the names and addresses of the persons in possession, and of the owners and occupiers of the adjoining lands is made (on the printed form to be obtained from the Registrar) to bring the lands under the law and to have the certificate of title issued either in the name of the applicant or in that of some other person. The deeds or other documents in support of the title to the lands, with a certificate from the collector of taxes for the parish in which the land is situate, that the taxes on such land have been paid up to the date of the application, must accompany the application. Upon their receipt by the Registrar he enters the application in a book kept for that purpose and then submits the application and papers to one of the Referees of Titles.

After the Referee has given his approval in writing of the applicant's title notices of such application are published in the Jamaica Gazette and newspaper as directed by the Referee and served by registered letter through the post office upon the occupiers of the land, the occupiers and owners of the adjoining lands and such other persons as the Referee may direct. These notices set forth the purport of the application and intimate that unless objection be made, by lodging a caveat in the Office of Titles within the time mentioned in the notice, the land will be brought under the operation of the law and a title will be granted to the applicant, or to the person in whose name the certificate of title is directed to be issued. The Referee may refuse his provisional order of approval or may call for further evidence in support of applicant's title.

If a caveat is lodged the Registrar will suspend proceedings until it is withdrawn or lapses, or until an order in the matter is obtained from the Court.

If no caveat is lodged the land is brought under the law by registering a certificate of title in duplicate. Space is left in these certificates for the endorsement of subsequent dealings with such land. One of the certificates of title is bound up in the Register Book and the other called the duplicate is given to the owner of the land.

Applicants for registration have to contribute  $\frac{1}{4}$ d. in the £ upon the value of the land towards an assurance fund. Persons deprived of their land through the registration thereof may in certain events recover compensation out of the assurance fund

The fees payable are contained in Law 19 of 1922.

## GOVERNMENT LABORATORY.

ORIGINALLY instituted in 1870 by Governor Sir J. P. Grant, the Laboratory was mainly concerned with analyses for medical and judicial purposes until 1901, when it was made a branch of the Agricultural Services, and its work largely extended so as to embrace various aspects of agricultural research and analysis.

The present building was erected in 1902, on the Hope lands, some 200 yards below the main entrance to Hope Gardens and is conveniently situated on the car line.

In 1904 the Laboratory was considerably extended to carry out researches on Sugar and Rum in connection with the scheme for carrying out the provisions of the Sugar Experiment Station Law (45 of 1903.)

The Staff includes, besides the Deputy Island Chemist, a Microbiologist and an Entomologist and technical work in Mycology, Microbiology and Economic Entomology is now established in suitably equipped Laboratories. Special facilities for Sugar Analysis, the testing of canes and the investigation and propagation of the ferments of Rum have also been provided. An experimental distillery for practical researches on Rum Manufacture has been built, and from time to time special courses of training for distillers have been held.

## IMMIGRATION.

*Office in Port Royal Street.*

SINCE the commencement of Asiatic immigration in 1845, 36,584 East Indian immigrants have been introduced into the colony up to the end of 1916, of whom 14,193 have returned to India. 1,152 Chinese have also been introduced.

In 1871 the system of permitting immigrants returning to India to make remittances by Government bills was inaugurated, and since then 12,827 men, women and children have returned, taking bills to the amount of £144,180.

In accordance with a decision of the Government of India emigration to the Colonies of labourers under indenture has now ceased.

The last shipment of immigrants arrived in 1916 and will not have completed their contract of ten years residence in the colony (five of which are under indenture) until the year 1926. Under Law 13 of 1903 these immigrants are entitled to claim a free or assisted return within two years after the date at which it becomes due and claimable.

Under the same law an Indian immigrant may not leave the island, except for the purpose of returning to India, unless he shall first satisfy the Protector of Immigrants that he possesses independent and sufficient means of subsistence.

The estimated East Indian population on 31st December, 1924, was 17,646.

## GOVERNMENT PRINTING OFFICE.

THE Government Printing Office was established in October, 1879. The whole of the Legislative Council and Departmental printing is done by this department as well as a large amount of work for the Parochial Boards and other public bodies. The Government Printing Office also imports and supplies the stationery for all public departments and is the depot for the wholesale and retail sale of Government publications.

The Office is situated at 79 Duke Street, Kingston, and conveniently adjoins the Legislative Council Chamber and Office.

The buildings include the Monotype room, Machine room, Composing room, Bindery, Warehouse, Stereo foundry, Type Store, Stationery Store and offices. The staff numbers 86.

## BOARD OF SUPERVISION.

By Law 15 of 1881 certain powers were vested in the Governor in questions of poor relief, but it had not been found practicable to carry out any real supervision under that law, even when the Parochial Boards were nominated by the Governor, and this difficulty was increased when Boards came to be elected, while various circumstances led to the conviction that it was essential to have some central authority to lay down and enforce general principles of poor relief and to interpose when there was neglect.

These requirements were provided by Law 6 of 1886, which vests all matters relating to the poor in a Board of Supervision, consisting of nine members appointed by the Governor. The Board, in so far as its authority goes, is analogous to the Local Government Boards in England, Scotland and Ireland. These latter Boards control the administration of other acts than those of the relief of the poor, notably those relating to the public health, besides many others which it is not necessary to enumerate here.

There was considerable opposition to the local law while it was in progress through the Legislature, chiefly from the Parochial Boards, some of which transmitted petitions against it to the Secretary of State for the Colonies, while on the other hand other Parochial Boards petitioned in favour of the law.

The then Secretary of State (Earl Granville) answered in detail the objections urged against the law and stated that he thought it was "likely to prove a very useful measure," and that he was "unable to agree in the opinion of the petitioners that supervision and control over the Local Bodies entrusted with the administration of poor relief, is unnecessary," and that there did not "appear to be reasonable ground for complaint that the system of supervision by a Central Board, established by this Law, had been substituted for the much greater power of interference vested in the Governor by the previously existing law." Both the Secretary of State and the Governor expressed the hope that the law would be accepted by the community in a spirit of loyalty and that the various Parochial Boards would continue to conduct that important branch of their duty which embraces poor relief with zeal and good will. With reference to this it may be remarked that the Board of Supervision in its first annual report stated that "it only remains for us to add with gratification, that with very few exceptions the Parochial Boards of the island have accepted the provisions of the Law and have joined with more or less cordiality in working with the Board of Supervision under it, realizing no doubt that the interests and aims both of the Parochial Boards and the Board of Supervision are not antagonistic." The Governor also in his report on the Blue Book of the colony for the year 1886-87 addressed to the Secretary of State for the Colonies, stated that in their first annual report the Board of Supervision, gave "evidence of the good service of organization upon which they have been engaged" and that the opposition to the constitution of this Body had died away in the face of experience of the Board's working, "greatly owing to the tact and good reason which have characterized the proceedings of the Board."

The general duties of the Board of Supervision are thus described in the 10th Section of Law 6 of 1886:—

“It shall be lawful for the Board of Supervision to examine into the manner in which poor relief is administered in the several parishes, and in cases where it shall appear to the Board that the arrangements in any parish are defective, to require the Parochial Board of such parish to remedy such defect, to audit the accounts and books of the Parochial Boards in so far as these relate to the relief of the poor, to investigate and determine all charges of misconduct against the Inspectors of the Poor, Masters of Poor Houses, Medical or other officers who may be appointed by the Parochial Boards, and to investigate and report to the Governor any charge preferred against a District Medical Officer, such charge having been brought to its notice in writing and duly authenticated, to settle any question of difference arising between two or more Parochial Boards or the officials of such Boards: to hear and decide appeals from poor persons who have been refused relief, or who may consider the relief afforded them inadequate, and generally it shall be the duty of the Board of Supervision to see the law effectually administered, by the several Parochial Boards, without injustice to the persons entitled to relief on the one hand, and with due regard to the interest of the taxpayers on the other, and so far as may be to secure unity of system in its practical administration throughout the island.”

The total number of paupers on the 31st December, 1924, was 8,225.

The percentage of paupers to the population was highest in the parish of Kingston, viz., 2.1, and lowest in the parish of St. Mary, viz., 0.5, while the average for the island was 0.9.

The total cost of inspection of the poor in the various parishes allowed by the Board of Supervision for the year ended 31st December, 1924, was £4,169, the area to be inspected 4,207 square miles, the estimated population, 902,627, the out-door poor, 6,624, the in-door poor, 1,601 making a total of 8,012. The total cost of the relief of the poor in 1924, was £91,412.

#### THE INSTITUTE OF JAMAICA.

(FOR THE ENCOURAGEMENT OF LITERATURE, SCIENCE AND ART.)

*East Street.*

THE General Library is open daily from 9 a.m. till 9 p.m. The public reading room is in the centre of the ground floor with the books arranged on either side. Upstairs are the Members Room, the West India Reference Library, and a Lecture Hall, in which are hung portraits and pictures forming the Jamaica History Gallery, open from 9 a.m. to 5 p.m. The Museum is open daily from 9 a.m. till 5 p.m.

HISTORY.—One of the earliest of the important scientific societies in the island was the Royal Agricultural Society of Jamaica, which was founded as the General Agricultural Society of Jamaica in 1843 during the governorship of the Earl of Elgin, although there had existed from time to time, since 1807, various local agricultural societies in certain of the parishes, and in 1830 the Jamaica Society had taken steps towards founding a natural history museum in Kingston. In 1854, during the administration of Sir Henry Barkly, the Royal Society of Arts was established, under the patronage of Queen Victoria and the Prince Consort. In the year 1864, these two associations were amalgamated, by the passing of Act 27, Vic., chap. 22, with a view “to the augmentation of the sources of public industry and the extension of the arts and manufactures of the colony,” and became the Royal Society of Arts and Agriculture, of which the Governor for the time being was President. In 1873, owing partly to the fact that the annual grant of £150 was not sufficient for its needs and partly to the fact that voluntary subscription had failed, the Society was wound up. The articles in the museum were handed over to the Government, and were, with the Sawkins and Brown collection illustrative of the geology of the island, placed under the care of the Island Chemist in Date Tree Hall (where a Public Library was opened in 1874), and they now form part of the Museum of the Institute.

The Institute of Jamaica was constituted during the governorship of Sir Anthony Musgrave by Law 22 of 1879, which created a Board of Governors consisting of seven members, (increased in 1889 to eleven and in 1908 to twelve) their duties being to establish and maintain an institution comprising a library, reading room and museum, to provide for the reading of papers, the delivery of lectures, and the holding of examinations on subjects connected with literature, science and art, to award premiums for the application of scientific and artistic methods to local industries and to provide for the holding of exhibitions illustrative of the industries of Jamaica. Members of the Board hold office for four years and any casual or recurring vacancy is filled by the person or persons appointing. The vote is at present £2,804. The law above mentioned transferred to the Institute the libraries of the House of Assembly and the old Legislative Council, both of which had ceased to exist in the year 1866, and the museum of the Royal Society of Arts and Agriculture, together with the building in East Street, Kingston, known as Date Tree Hall.

By the earthquake of 1907, the Museum was wrecked, the Library building seriously damaged, and the Art Gallery rendered unsafe. The new Institute, built on the old site, of re-inforced bricks and concrete, from designs by Mr. A. E. Herschel, was completed in November, 1911, and the Library and Museum objects were at once removed back from 133 Orange Street, which had been their temporary home for upwards of four years, to East Street, the new Institute being opened on the 6th January, 1912.

**LIBRARY**—The books, newspapers, manuscripts and maps on Jamaica and books on the West Indies form a special feature in the Library. In addition to the volumes of scientific, historic and general literature, there is a collection of popular works, whilst the quarterly and other leading reviews and periodicals of the day are regularly obtained from Europe and America.

There are 24,252 volumes catalogued in the Library, made up as follows:—

*In the General Library.*—West India, 455; Theology and Philosophy, 886; History, 2,198; Biography, 1,772; Travel, 972; Law, Politics and Sociology, 635; Education, 439; Art, 726; Science and Natural History, 1,906; Poetry and the Drama, 634; Linguistics and Philology, 99; Prose Fiction, 3,682; Miscellaneous, 1,119; Dictionaries, etc., 780; Reports of Societies, 1,080; Juvenile, 505; with a total of 17,908.

*In the West India Reference Library.*—Jamaica Books and pamphlets, 2,577; Jamaica Newspapers, 605; West Indies (excluding Jamaica) 2,953; West Africa, 253; with a total of 6,344.

**MUSEUM.**—The collections aim at representing as completely as possible the fauna and flora of the island, along with its geology and anthropology. The Mammals are represented by various species of bats, the Jamaica Coney (*Capromys brachyurus*, Hill), the Manatee, Mongoose, etc. The collection of native Birds is nearly complete, and has, in addition, a series of migrants obtained from America. The Snakes, Lizards, Chelonians, the Crocodile, and the Amphibians of the colony are nearly all represented. The series of Fishes, does not contain all the species known from the surrounding seas. Of the Invertebrates, many Insects, Decapod Crustaceans, Scorpions, Arachnida, and Myriapods are shown, but much yet requires to be done upon these groups. The land Mollusca abundant in the island, are partly exemplified. The Echinodermata—star fishes, sea-urchins, sea cucumbers—are illustrated, and the Cœlenterates—sea anemones, corals, sea-fans are represented but these suffered from the earthquake. Conchology is well represented by the valuable Vendryes collection of the Land and Fresh water Shells of Jamaica. A Herbarium contains examples of many of the dicotyledons, orchids, grasses, sedges and ferns of Jamaica, and is often consulted by amateur collectors for the purpose of naming specimens. Collections of the economic woods of the island, cut and polished, serve for purposes of reference, and there is a collection of water-colour drawings of Jamaica plants and birds.

The mineralogical and palæontological specimens include the collections formed by the Officers of the Geological Survey during the years 1860 to 1866. Tertiary and Cretaceous fossils are represented, but the older formations are almost entirely wanting in Jamaica. The series is so arranged as to show what is obtained from each district in the island, while maps, illustrating the geology of the several parishes, are available for reference. A map of Jamaica, modelled in relief, shows the conformation of the surface of the island.

The objects connected with the Arawaks, the aboriginal Indian inhabitants, include a large series of stone implements, mostly petaloid in shape all carefully finished, and some highly polished, others wedge or chisel shaped, while a few are made of shell. From the numerous kitchen middens or refuse heaps are shown collections of perforated shells,

broken pottery, fish, coney and crab-bones, beads and ashes. The relics from caves, consists of human skulls and bones, and the more perfect examples of Indian pottery. Photographs of various rock carvings are on view and several examples of aboriginal images. Slavery relics, include an iron cage gibbet in which criminals were hung to die of starvation.

In the grounds is a small Vivarium containing pelicans, various doves, iguana lizards, mongoose, conies, turtle (green and hawks bill) and land turtle.

**HISTORY GALLERY**—The Jamaica History Gallery contains Portraits of Jamaica Governors and other persons celebrated in the history of the island (to the number of 235); paintings and engravings, including a series of Jamaica scenery in oils by Lady Barkley, Pine's oil painting of "Rodney on board the Formidable," two water colour drawings by Pocock and a series of engravings illustrative of Rodney's victory over De-Grasse and the subsequent fate of some of the fleet, and autographs, coins, medals and other works of art, as well as the Spanish bell of the old church of Port Royal, submerged during the earthquake of 1692; the papers found in a Shark's maw, which led to the condemnation of the Brig "Nancy" at Kingston in 1799, and the two silver gilt maces, formerly used on state occasions, one of which was erroneously supposed to be the "Bauble" removed from the House of Commons by order of Cromwell. A carved tortoise shell comb and case of the year 1671, is the earliest known specimen of Art workmanship made in Jamaica.

In the Vestibule downstairs is a small War Memorial Collection: upstairs is a portion of the prize from the West Indies Pavilion at the British Empire Exhibition.

**MEMBERSHIP**—Honorary members, who are subject to no charge, may be elected to the number of twenty, from men distinguished in literature, science or art or for special services rendered to the Institute. Corresponding members, who are exempt from payment of subscriptions, consist of persons residing outside Jamaica or, under exceptional circumstances, of residents, who can be helpful by correspondence or otherwise in promoting the objects of the Institute. Subscribing members, the number being unlimited, are nominated and elected at the monthly meetings of the Board of Governors; ordinary subscribing members pay an annual subscription of five shillings and life members a single payment of two guineas.

By Law 3 of 1909 the members of the Kingston Athenæum and other similar institutions in other parts of the island are entitled to be admitted as members of the Institute of Jamaica for each current year without subscription, on their applying to the Secretary and satisfying him that they have paid their subscription to their respective institutions.

Members of the Kingston Athenæum, the St. Ann Athenæum, the Wolmer's Old Boys Association, the Wolmer's Old Girls Association, the Technical and Continuation School, Kingston, the Stony Hill Branch of the Agricultural Society, the Spaldings Literary and Social Club, the St. Thomas Subscription Library, the Frankfield Shakespearean Club, the Claremont Social Club, the Liguanea Agricultural Society, the Titchfield Girl's Club, Portland Subscription Library, Young Men's Christian Association, Mico Old Students Association, Montego Bay Self Help Home, the Jamtoco Library, the Rialto Club, the Vere Readers Club, the East Queen Street Baptist Literary Society, the Bluefield Progressive Society, the St. James Subscription Library, the Young Peoples Social Club, Spanish Town, Port Maria Young Men's Club, Browns Town Young Men's Literary and Debating Society, Zorn Literary and Social Club, Annotto Bay Social and Literary Club have taken advantage of the law. There is in addition a Free Lending Department for Juveniles between the ages of 14 and 17 who support their application with a suitable guarantee.

Subscribing Members have the right of borrowing books and periodicals, and the use of the special reading room referred to above. Members residing outside Jamaica pay half fees.

Books are sent free by post to and from the Institute. Subscribers to the Library deposit £1 and pay, for three months, two shillings, for the right to borrow two books and one magazine. In December, 1925, there were 10 honorary members, 26 complimentary members, 21 corresponding members, 989 subscribing members and 1,307 free members enrolled under Law 3 of 1909, making a total of 2,353 with 15 subscribers to the Library and 404 Juvenile borrowers in the Free Lending Department, making a grand total of 2,772.

**BRANCHES**—With a view to enabling those at a distance to participate in the use of the Library, boxes of books are lent at a charge of £1 5s. per 100 volumes per annum to local societies, at Montego Bay (2), Wolmer's Girls School, Wolmer's Boys School, the St. Thomas Subscription Library, the Stony Hill Branch of the Agricultural Society, Diocesan High School, Brown's Town, Westwood High School, Trelawny Literary Club,

Vere Readers Club, St. James Subscription Library Bath Corporation in addition to boxes sent to affiliated societies.

**TEACHERS LIBRARY**—Twenty-six sets of 25 books each, 650 volumes in all, form the nucleus of a Teachers Library, the works in which are in circulation amongst Elementary School Teachers Associations—at Frankfield, Port Antonio, St. George's, East Portland, Chapelton, Falmouth, Upper Trelawny, Mountinside, Blue Mountain Valley, South Eastern St. Thomas, North West St. Catherine, Dry Harbour Mountains, Cave Valley, Central St. Mary, Western St. Mary, Glengoffe, Linstead, Montego Bay. & N. W. Manchester.

**LECTURES**—Various Lectures are given from time to time at the Institute.

Some of the publications of the Institute are: "On the Geology of Jamaica" and "On Mining in Jamaica," by the Rev. H. Scotland (1890); "The Economic Geology of Jamaica," by F. C. Nicholas (1899); "Mineral Resources of Jamaica," by F. C. Nicholas (1913); "Some Recent Contributions to the Geology of Jamaica," by C. A. Matley, D.Sc. (1923); "The Mineral Springs of Jamaica," by J. C. Phillippo, M.D. (1891); "The Rainfall Atlas of Jamaica," by Maxwell Hall, M.A. (1892); "The Meteorology of Jamaica," by Maxwell Hall, (1904); "The Mosquitoes or Culicidæ of Jamaica," by F. V. Theobald, M.A., and M. Grabham, M.A. (1905); "Systematic Catalogue of the Land and Fresh Water Shells of Jamaica," by Henry Vendryes (1899); "A List of the Birds of Jamaica," by O. Bangs and F. Kennard (1920); "A Classified List of the Books in the General Library of the Institute" (1923); "Bibliotheca Jamaicensis" "Some Account of the principal books on Jamaica in the Library of the Institute" (1895); "Studies in Jamaica History" (1900), Bibliographia Jamaicensis (1902); a "Supplement" to it (1908); "Bibliography of the West Indies excluding Jamaica" 1919; "Biographical Annals of Jamaica," 1904; "Jamaica Place Names;" (1909); "Some Notes on the History of Secondary Education in Jamaica" (1911); "Catalogue of the Portraits in the Jamaica History Gallery" (1914); "Historic Jamaica" (1915); "Jamaica in 1924"; "Jamaica's Part in the great war 1924" all by the Secretary; and "Jamaica under the Spaniards," (1920) by the Secretary and Mr. J. L. Petersz.

**MEMBERS MEETINGS.**—On the 4th of November, 1891, there was held the first of a series of Members Meetings. At these, papers are read on matters connected with Literature, Science and Art.

**ARTS AND CRAFTS**—In June, 1897, the Institute held Competitions in Literature, Science, Arts and Crafts, and awarded two bronze (Musgrave) medals in addition to numerous other prizes consisting of books, works of art and money; and since 1902, these competitions have been held from time to time.

**KINDRED SOCIETIES.**—The holding of the Cambridge Local Examinations in Jamaica was instituted by the Governors of the Institute during the year 1882-1887, the examinations were held under their auspices, and from 1904 to 1913 the Secretary of the Institute was Honorary Secretary to the Local General Committee. In 1907 he accepted the position of Honorary Representative in Jamaica of the Associated Board of the Royal Academy of Music and the Royal College of Music, the Examinations of which Board are held in the island yearly.

Premiums are given in connection with the Arts and Crafts Exhibitions and the Music Examinations of the Associated Board.

**INTERNATIONAL EXHIBITIONS.**—Jamaica has from time to time taken part in International Exhibitions, not infrequently through the instrumentality of the Institute—Paris, 1855; London, 1862; Amsterdam, 1883; London (Fisheries), 1883; New Orleans, 1885; London (Colonial and Indian), 1886; Chicago, 1893; Buffalo, 1901; Crystal Palace (Colonial and Indian), 1905. The Institute is represented on the Permanent Exhibitions Committee by Mr. H. G. DeLisser, C.M.G., and the Secretary, who was one of the two Commissioners for Jamaica at the British Empire Exhibition, 1924.

**BOARD OF GOVERNORS**—Nominated by the Governor—Mrs. G. V. Lockett, Dr. C. A. H. Thoms in, Venerable Archdeacon Simms, M.A.,

Nominated by the Elected Members of the Legislative Council—Major E. T. Dixon, H. A. L. Simpson, O.B.E. Hon. J. H. Philipps, M.L.C.,

Elected by Members of the Institute—Rev. Canon J. L. Ramson, M.A., R. W. Bryant, M.B.E., Vice-Chairman, Herbert G. deLisse, C.M.G., Chairman, N. B. Livingston.

Secretary and Librarian—Frank Cundall, F.S.A., F.R.HIST. S.; Assistant Librarian—Miss H. W. Morris; Clerical Assistant—Miss C. L. Dias; Accountant and Library Superintendent—Miss A. M. Duncker; Library Assistants—Miss M. Magnan, Miss V. Nash; Museum Superintendent—Miss H. A. Wood.

### RULES FOR ADMISSION TO THE CIVIL SERVICE OF JAMAICA.

WHEREAS it is deemed expedient to alter the Rules under which persons are admitted to the Civil Service of Jamaica, I, the Governor in Privy Council, do hereby order that the Rules made by the order of the Governor of Jamaica in Privy Council and dated the 11th day of May, 1905, for admission to the said Civil Service, shall be and the same are hereby superseded.

1. To fill such vacancies as may occur in the Offices of the Public Service the Governor may employ young men who shall be known as "Assistants" and who shall not be on the permanent Establishment of the Civil Service.

2. An Assistant will be paid salary at the rate of £100 per annum for the first year and will be granted after 12 months efficient service and good conduct (as to which the Head of the Department in which the Assistant serves shall certify) an increase of £15 to his annual salary, and after each period of 12 months service a further increase of £15 per annum, until the salary of such Assistant reach £160 per annum.

3. No one shall be admitted to the Public Service as an Assistant who is under 16 or over 25 years of age: Provided, nevertheless, that the Governor shall have power to make an exception in any case in which he considers special circumstances justify him in doing so.

4. An Assistant shall be liable to have his services dispensed with at a month's notice, which notice may be given at any time, by the Head of the Department, with the approval of the Governor. In the case of misconduct, he shall be liable to dismissal by the Governor without notice, or to such other and less punishment as the Governor may think fit to order.

5. Subject to the requirements of the Public Service, an Assistant may be granted 4 weeks vacation leave of absence in a year, or not more than 8 weeks leave of absence during and in respect of any two years. He may be granted the same departmental leave and sick leave as are allowed under the local regulations governing the same to officers on the Civil Establishment.

6. As a rule vacancies in the subordinate offices of the permanent offices of the Civil Establishment will be filled by selection from among the Assistants, and while seniority will always be taken into account, it is to be distinctly understood that regard will chiefly be had to superior merit and official qualifications.

7. In addition to Assistants, it shall be in the discretion of the Governor to appoint temporary Officers in any Office or Department as circumstances may require and with such remuneration as His Excellency may see fit.

8. The following are the Rules for the selection of "Assistants."

I. Every candidate will be required to show attainment of a certain educational standard. This standard shall be either

- (a) The certificate of the Cambridge Senior Local Examination, or
- (b) An educational record of equal value in the opinion of the Governor.

II. Each candidate shall obtain a recommendation from either

- (a) a Head of a Department of the Public Service, or
- (b) the Custos of the Parish in which the candidate resides, or
- (c) a Member of the Legislative Council.

and such recommendation shall be in the form of a certificate that the candidate is, in the opinion of the person certifying, a fit and proper person for admission to the Civil Service in Jamaica, and the certificate shall also contain a brief statement by the person certifying of the particulars known to him concerning the antecedents and character of the candidate.

III. Candidates may make their applications at any time and will be notified when their names are entered in the List of approved candidates. They are expected to inform the Colonial Secretary if at any time during the year for which their names have been entered they cease to be candidates for appointment. The List will be made up annually on the 1st April in each year, and only those will be re-entered as candidates who renew their application to the Colonial Secretary before that date.

IV. On a satisfactory compliance with the requirements of Rules I and II the Governor shall cause the candidate's name to be placed on the list of persons from whom Assistants are to be selected, such list to be kept by the Colonial Secretary.

V. When an Assistantship becomes vacant the selection of the person to be recommended to the Governor for appointment to fill the vacancy shall be entrusted to a Public Service Selection Committee to be appointed by the Governor.

VI. Such Public Service Selection Committee shall consist of the following:—

- (a) As permanent members, the Colonial Secretary (Chairman), and two other persons to be appointed by the Governor, to whom shall be added on each occasion as a temporary member.

- (b) the Head of Department in which there is the vacancy, or, if he is already on the Committee, some other person.

For the purposes of this last provision the Attorney General shall be regarded as the Head of the Offices of the Resident Magistrate's Courts.

VII. The permanent Selection Committee shall at some time interview each approved candidate and on the occasion of a vacancy the full Committee specified shall consider the following points in respect of each candidate, viz.:—

- (a) his education and record
- (b) his general fitness.
- (c) any previous service he may have in a Government Department or in outside employment, and
- (d) any reports they may choose to call for, e.g., from the Head Master of a candidate's school or from any referees named by the candidate and shall then submit to the Governor the name of the candidate whom they recommend for appointment.

The Selection Committee may, if they think it necessary, test the educational qualifications of candidates by special examination.

VIII. The Governor will usually appoint the candidate so recommended, but it shall be open to His Excellency for any cause which may seem to him fit to abstain from so doing and to ask the Committee for another recommendation.

9. These Rules shall come into force on the 1st April, 1911.

Approved by the Governor in Privy Council, 4th January, 1911.

## RULES FOR ADMISSION OF WOMEN TO THE CIVIL SERVICE OF JAMAICA.

1. Subject to the exigencies of the work of the Department concerned, and, having regard to the ratio of the number of the women to the number of the men already employed in the same Department, the Governor may, in his discretion, appoint women who possess the qualifications required by these Rules, to positions such as Assistants, Clerks, Typists, or Stenographers.

2. Candidates may make their applications at any time, and will be notified when their names are entered in the List of Approved Candidates. They are expected to inform the Colonial Secretary, if, any time during the year for which their names have been entered, they cease to be candidates for appointment. The List will be made up annually on the 1st April in each year, and only those will be re-entered as candidates, who renew their application to the Colonial Secretary before that date.

3. No woman shall be admitted to any office in the Public Service who is under 16 or over 25 years of age: Provided nevertheless that the Governor shall have power to make an exception in any case in which he considers special circumstances justify him doing so.

4. Every candidate will be required to show attainment of a certain educational standard. This standard shall be either—

- (a) The Certificate of the Cambridge Senior Local Examination, or
- (b) An educational record of equal value in the opinion of the Governor.

5. Each candidate shall obtain a recommendation from either:—

- (a) The Head of a Department of the Public Service, or
- (b) The Custos of the Parish in which the candidate resides, or
- (c) A Member of the Legislative Council and such recommendation shall be in the form of a certificate that the candidate is in the opinion of the person certifying, a fit and proper person for admission to the Civil Service of Jamaica; and the certificate shall also contain a brief statement by the person certifying, of the particulars known to him concerning the antecedents and character of the candidate.

6. In addition to the foregoing qualifications candidates will be required to be proficient in Typing and Stenography.

7. The salary to be paid to any woman so appointed, shall be such as may be provided by the Legislative Council for the particular office to which she may be appointed, or as may be approved by the Governor.

8. A person appointed to any such office shall be on the non-pensionable establishment, and shall be liable to have her services dispensed with at a month's notice, which notice

may be given at any time by the Head of the Department with the approval of the Governor, but will be eligible for such Compassionate Allowance as may be prescribed in any Law. In the case of misconduct, she shall be liable to dismissal by the Governor without notice or to such other and less punishment as the Governor may think fit to order.

9. Subject to the requirements of the Public Service, such persons may be granted 4 weeks vacation leave of absence in a year, or not more than 8 weeks leave of absence during and in respect of any two years. They may be granted the same departmental leave and sick leave as are allowed under the local regulations governing the same to officers on the Civil Establishment.

10. Candidates for filling such posts shall be selected by a permanent Public Service Selection Committee, the same as or similar to the Public Service Selection Committee, as provided for in the Rules for Admission to the Civil Service of Jamaica approved on the 4th January, 1911, to be appointed by the Governor.

11. The permanent Selection Committee shall, at some time interview each approved candidate and on the occasion of a vacancy the full Committee specified shall consider the following points in respect of each candidate, viz:—

- (a) her educational record,
- (b) her general fitness,
- (c) any previous service she may have in a Government Department or in other employment, and
- (d) any reports they may choose to call for, e.g., from the Head Master or Head

Mistress of the candidate's school or from any referees named by the candidate, and shall then submit to the Governor the name of the candidate whom they recommend for appointment.

The Selection Committee may, if they think it necessary, test by special examination the educational qualifications of candidates.

12e The Governor will usually appoint candidates so recommended; but it shall be open to His Excellency, for any cause which may to him seem fit, to abstain from so doing and to ask the Committee for another recommendation.

13. Women who have served in any of the aforementioned positions in the Public Service, shall be entitled to be considered for promotion to the permanent establishment as 2nd Class Clerks, and, after having served as such as 1st Class Clerks, in the various departments of the service; but shall have no prescribed claim to appointment to those posts. Each case will be considered on its merits, and will be determined by the Governor on the advice of the Head of the Department concerned.

14. Any woman appointed as a 2nd Class Clerk will be required to pass a medical examination to the satisfaction of the Governor and will be entitled to the same leave and other privileges and to the same salary as a man would have been entitled to if appointed to such office.

15. Women shall be entitled to retire at the age of 55 without being certified as medically unfit, and shall be liable to be compulsorily retired at the age of 60.

16. Married women shall not be eligible for any appointment contemplated by these Rules, unless, in the opinion of the Governor, there exists exceptional circumstances.

17. If a woman marries while in the service, she shall be liable to be called on to vacate her office without having any claim to pension, compassionate allowance or gratuity.

18. These Rules shall come into force on the 1st day of April, 1924.

Approved by the Governor in Privy Council on the 11th day of June, 1923.

## SECURITY OF PUBLIC OFFICERS.

THE following are the ways in which Public Officers can give security for their fidelity in office, as laid down in Law 45 of 1872 and Law 2 of 1893.

1. By personal bond and deposit with the Treasurer, to the extent required, of Jamaica Government debentures, or debentures of any public commission by law established in Jamaica, duly endorsed in favour of the Treasurer, or by personal bond and lodgment in the Government Savings Bank to such extent, in the name of the Treasurer.

2. By personal bond and the guarantee of any association of civil servants of the Crown in Jamaica for purposes of mutual guarantee whereof the business is conducted according to the rules that shall be approved by the Governor in Privy Council, as may be notified from time to time in the "Jamaica Gazette." (See previous article.)

3. By personal bond and the guarantee of any public company or association, provided such company or association has been approved of by the Governor in Privy Council as a company or association whose guarantee may be taken.

Under Law 14 of 1905 every person in public employment who is required to give pecuniary security for the due discharge in any respect of the duties of his office, but who is not entitled to give such security through the guarantee of the Jamaica Civil Service-Mutual Guarantee Association, may give such security by his own personal bond and the bond or bonds of one or more sureties; provided, such surety or sureties are approved by the Auditor General.

## OFFICIAL CORRESPONDENCE.

PERSONS in the colony, whether public functionaries or private individuals, who have any representations to make to Government should address them to the Governor of the colony through the Colonial Secretary. The following are the Local orders on the subject:

The Captain-General and Governor-in-Chief requests that all persons having occasion to address His Excellency, or the different Departments of the Government, will do so on foolscap, or large paper, and in official terms.

The practice of writing applications or communications on sheets of note paper, and in the form of private notes, is very inconvenient and contrary to official usage.

His Excellency also requests that persons will sign their names in distinct characters as much of his time is lost in endeavouring to decipher illegible signatures.

The attention of the Governor having been called to the great number of petition addressed to His Excellency on matters in which he cannot interfere, and to the prevalent practice of affixing to petitions marks purporting to be those of the persons whose names are attached thereto, but unaccompanied by any authentication, and also to the fact in some instances, that the names of persons have been subscribed to petitions without their knowledge, or that the petitioners have subsequently represented that their case has been mis-stated in their petitions. His Excellency has been pleased to direct it to be notified for the information of those concerned, that in future no attention will as a rule, be paid to any petition treating of a purely private matter, or of a question which either is in course of settlement or has been settled by a court of law, and no petition will be entitled to consideration which does not conform to the following rules as respects the signatures.—

1. The marks of persons unable to write their own names must be attested by the signature of some person of position, or of respectable character, as witness to the fact of such marks having been made in his or her presence, and that the person or persons was or were fully aware of the facts and objects of the documents to which the marks are so appended.

2. In the case of the names of persons being written for them in their absence, the name and abode of the persons assuming the power of attaching such signatures must be written at full length, and in the handwriting of such persons.

Ministers of Religion, Schoolmasters, and others who are brought in communication with the humbler classes of petitioners are requested, when opportunity offers, to explain this requirement.

Petitions having been in many instances addressed in an informal manner to the Governor and to the Governor in Council, it is hereby notified, for general information, that petitions can be conveniently addressed to His Excellency on all matters requiring Executive action on the part of the Government; and that it will facilitate the consideration of such petitions if they are enclosed to the Colonial Secretary in the first instance for submission to His Excellency.

2. Petitions to the Governor and Legislative Council may be sent by bodies or by individuals to the Clerk of the Council, or they may be presented by any member of the Council when the Council is in session, as required by the rules.

The Governor requests that all petitions and letters to His Excellency on questions of an official character, or requiring official action, may be addressed to the Colonial Secretary instead of being addressed to the Governor direct.

## TRAVELLING ALLOWANCES TO PUBLIC OFFICERS.

*Regulations Governing Travelling Allowances and Expenses, Subsistence Allowances and Removal Expenses to Government Officers.*

1. In construing these Regulations, Heads of Departments, Financial Officers and Officers submitting claims, should be guided by the general principles:—

- (a) that no officer should be out of pocket as the result of having to travel on duty;
- (b) that no officer should derive any pecuniary advantage from travelling on duty.

## FIXED TRAVELLING ALLOWANCES.

2. The Governor shall determine, in each case, the means of transport which the travelling circumstances of the officer warrants, and may grant him a fixed allowance at the following rates:—

(a) For a Saddle Horse	..	£50 per annum	
(b) For a Buggy and horse	..	100	Do
(c) For a Buggy and 2 horses	..	130	Do
(d) For a Push Bicycle	..	5	Do
(e) For a Motor Car	..	80	Do
			and in addition, 5d., per mile for each mile travelled.
(f) For a Motor Cycle or Motor Cycle and Side Car	20	Do	and, in addition, 1d. for each mile tra- velled. Where a vide car is kept, 2d. per mile in addition in stead of 1d.,

*Note.* (1) The allowance for a Motor Car is based on the capital cost and the cost of maintaining a Ford Car.

(2) All allowances to be paid in monthly instalments, and, in the case of a Motor Car or Bicycle, the extra mileage to be claimed along with the fixed allowance for the month in which the travelling is done.

3. Claims for Motor Car and Motor Cycle allowances shall be rendered monthly on the form as in Schedule A to these Regulations. Certificate I as in Schedule B is to be signed by all officers making claims, and Certificate II in the same Schedule is to be signed by the Head of the Department, in addition, in the case of subordinate officers, and attached to the claim before payment is made.

4. The Governor may advance to an officer the capital required to provide himself with the means of transport, such advance not to exceed the sum of £150, and to be repayable in equal monthly instalments as the Governor may direct.

5. In providing in the Annual Estimates for fixed allowances, the items shall show, in each case, whether the allowance is for a motor car, or for a horse and buggy, and so on.

6. If an officer, who is in receipt of a fixed allowance, is assigned additional duties requiring additional travelling, either permanently or temporarily, within or without his regular district, he shall be obliged to use his own car or other authorised means of transport, and such additional travelling shall be reckoned as if the same formed part of the total mileage travelled by him during the month in connection with his regular or principal duties.

7. If an officer, who is in receipt of a fixed allowance, is temporarily assigned duty in a place or district where the use of the authorised means of transport is not possible or necessary, he shall receive only such portion of the allowance as the Governor, after taking all the circumstances into account, may determine.

8. An officer in receipt of a fixed allowance, when absent on sick or other leave either in or out of the Colony, shall not receive any portion of the allowance.

9. In the event of an officer, who has been required to keep some means of transport for the performance of his duties and has received a fixed allowance therefor, being transferred or promoted to some other office in which he is not required to travel regularly, such officer shall cease to receive the allowance, and he shall not be entitled to any pecuniary consideration in respect of the lapsed allowance, but shall remain liable for the payment of any unpaid instalments of any advance he may have received to purchase such means of transport.

10. Resident Magistrates and Clerks of Court may receive allowances in accordance with these Regulations, instead of the allowances as laid down in Sections 20 and 23 of Law No. 28 of 1904.

## OTHER TRAVELLING EXPENSES.

11. An officer not in receipt of a fixed travelling allowance, will be paid the actual reasonable out-of-pocket expenses incurred. He shall, however, travel by the Government Railway when it is possible to do so, and, in other cases, by the shortest and cheapest route with due regard to the exigencies of the duties to be performed. In cases of doubt, the Governor will, in his discretion, decide any such question, on the matter being brought to his notice. When there exists a contract for the conveyance of public officers by motor car or otherwise, he shall be bound to hire from the Contractor.

12. An officer travelling on duty, when necessarily accompanied by a servant may be paid a second class railway fare for such servant; and, unless he uses his own or a hired vehicle, he may receive at the rate of 6d. a mile if he does not travel by railway.

13. An officer not in receipt of a fixed travelling allowance who uses his own horse or vehicle for travelling occasionally on duty, may, when duly authorised thereto, be paid at the following rates:—

- (a) Saddle horse, for each day or part thereof, Ten Shillings.
- (b) Buggy and horse, for each day or part thereof, Twenty Shillings.
- (c) Motor Car, for each mile, Ten pence
- (d) Motor Cycle, for each mile, Four pence.

Bicycle (for long distances outside the limits of Kingston), for each mile, Three pence.

14. If in any special case, an officer whose duties warrant his providing himself with his own means of transport, is allowed by the Governor to hire instead he shall be paid the actual expenses incurred, to a maximum not greater than the amount he would have been paid as fixed allowance, if he had been required to keep his own means of transport, and he shall submit, with his claim, vouchers to the satisfaction of the Auditor General.

15. All expenses under this chapter of these Regulations shall be paid out of such amount as may be provided in the Annual Departmental Estimates for "Reimbursement of Travelling Expenses."

16. A Government officer may be allowed at the rate of two pence per mile below 75 lbs., and four pence per mile for weights above that quantity for the conveyance, on service, of instruments and baggage, by his own motor cycle or side car.

17. Small disbursements for cab hire and portage may, if according to tariff, or fair and reasonable, be recovered along with a claim for travelling expenses without the production of vouchers.

18. Donations to servants are not to be included in claims for refund of out-of-pocket expenses.

## SUBSISTENCE ALLOWANCE.

19. Government officers travelling on duty, unless otherwise provided for in this respect, under any special Departmental Rules, will be paid over and above their actual reasonable, out-of-pocket transport expenses, subsistence allowance at the following rates:—

Heads of Departments and Officers drawing salaries of £600 a year and upwards, £1 5/ per day. From May to November inclusive, £1 1/- per day.

Other Officers—£1 1/ per day. From May to November inclusive, 17/6 per day.

*Note*—For the purposes of this regulation the Assistant to the Attorney General, when travelling on duty, shall be regarded as a Head of Department.

20. In calculating periods of absence entitling an officer to claim subsistence allowance, a total absence, of over six hours and up to 9 hours will count as one-third of a day, an absence of more than 9 hours but not exceeding 12 hours, as half-a-day, and an absence of over 12 hours and up to 24 hours as a full day. After the first 24 hours, each hour will count as 1/24th of the rate. If an officer sleeps away from his home, although not absent for 24 hours such absence will count as a full day. No allowance of any sort will be made for periods of less than 6 hours.

21. No subsistence allowance will be paid to any officer who has a defined district, whether he receives a fixed travelling allowance or not, in respect of any travelling within the limits of his district, unless the period of absence from his head quarters exceeds 24 consecutive hours, or unless he, necessarily, sleeps away from his home.

22. All claims for travelling expenses and subsistence allowance must be made out in the form as in Schedule C to these Regulations, and that form will constitute, for the purposes of these Regulations, the "Other Charges" form as required by the Financial Regulations.

#### SPECIAL CASES.

23. The Judges of the Supreme Court, when travelling on Circuit, will receive £5 per day to cover all expenses of travelling and subsistence.

24. In cases in which an officer's duties require him, while living in Kingston to travel frequently in and around Kingston or to any part of the Island, the Governor may fix a special rate of allowance to cover all transport howsoever provided, and subsistence allowance, and define the area and conditions to which such allowance shall apply. In such cases the production of vouchers will not be required.

25. In special cases, the Governor may determine the allowances, based on the actual expenses of the last year for which the particulars are available, as may be recommended by the Head of the Department concerned, in the Annual Estimates, and approved by the Legislative Council, from time to time.

26. District Medical Officers who enjoy private practice, shall receive such lump sums, by way of subvention as the Legislative Council may vote from time to time in each case, not to be accounted for.

27. These regulations do not apply to Sub-officers and Men of the Constabulary, Prison Warders, below the rank of Principal Warders, Hospital Matrons and Dispensers, Un-established Officers of the Post Office, Inspectors of Schools, Bailiffs and Officials of the Railway other than those on the fixed Establishment, or such other Government servants who may be provided for separately in Departmental Regulations.

#### REMOVAL EXPENSES.

28. Government Officers will be entitled to removal expenses when their removal is required through the exigencies of the Service, in the opinion of the Governor, or on promotion.

29. In cases in which removal expenses are allowed by the Governor, the officer will be entitled to subsistence allowance in accordance with these regulations, while actually moving between his old headquarters and his new headquarters. He will also be allowed his actual travelling expenses in accordance with these Regulations as if travelling on duty, for himself, his wife and children (if any); and for not more than two servants if they travel along with him and his family; also transport of his baggage not exceeding four tons. The term baggage includes household furniture. Claims for such expenses must be supported by vouchers.

30. An officer relieving another, will not receive subsistence allowance beyond that which is allowed by the foregoing regulation. Any reimbursement of expenses incurred in living in the place to which he is transferred temporarily, will be made by the Governor out of such funds as may be placed at his disposal for the purpose. Only such expenses as are "Removal Expenses" in accordance with the Regulations, will be charged to a vote in the Estimates so described.

31. If an officer's family do not accompany him on his transfer, the expenses of their removal subsequently will only be allowed if they follow him within six months, unless there are special reasons, in the opinion of the Governor.

#### GENERAL.

32. Any contingency not provided for in these Regulations will be dealt with by the Governor as the circumstances may require, and amendments reducing the allowances and rates as provided in these Regulations and otherwise varying the provisions may at any time, be made by the Governor in Privy Council, and no officer shall have any claim for compensation in any particular.

33. The Regulations approved by the Governor and Privy Council on the 10th July, 1920, are hereby cancelled.

34. These Regulations shall, so far as fixed allowances are concerned, take effect as from the 1st April, 1922, provided that in case an officer has drawn, during 1922-23 a greater sum than he would have drawn if these Regulations were in force from the 1st April, 1922, these Regulations shall apply to him only as from the 1st April, 1923.

As approved by the Governor in Privy Council on the 6th day of February, 1923, and amended from time to time.

## REGULATIONS AS TO LEAVE OF ABSENCE.

*(Extracts from Colonial Office List.)*

84. Subject to the necessities of the service leave of absence on half pay may be granted without any special grounds after three years' resident service from first appointment in the colony. It may be given after a less duration of service in cases of serious indisposition, or of urgent private affairs, if the Governor is satisfied that the indulgence is indispensable. In cases of serious indisposition the state of the Officer's health must be certified by his medical attendant, or, if required by the Governor, by a medical board. In cases of urgent private affairs, the nature of such urgent affairs must be stated confidentially to the Governor.

85. In the absence of special grounds half pay leave must not exceed one-sixth of the Officer's resident service in the Colony. On special grounds it may exceed that period by six months.

86. Half-pay leave is primarily intended to enable an officer to recruit his health by change of climate, and it must not be granted to be spent in the Colony except in special circumstances.

87. The Governor may not in any case grant more than twelve months' half-pay leave, but may report to the Secretary of State the period for which the leave may be extended without injury to the public service. The Officer seeking an extension must apply to the Secretary of State in sufficient time, if practicable, to allow of reference to the Colony. Leave will not be extended as a matter of course nor unless public convenience permits.

88. When an officer receives in addition to the salary of his appointment an allowance granted to himself personally and not permanently attached to his office, he may, when absent on half-pay leave, draw only half of such personal allowance, the remaining moiety being left undrawn and lapsing to the Colonial Treasury. The undrawn moiety of the increments of salary of the absent officer will similarly lapse.

89. Governors will report to the Secretary of State each case in which leave of absence has been granted, transmitting a certificate in the form given in Appendix 3. The officer proceeding on leave will be furnished with a duplicate of the certificate to enable him to draw his salary. A third copy of the certificate will be sent direct to the Crown Agents for the Colonies when the officer's salary is to be paid through them, with instructions to issue the salary accordingly as it becomes due.

90. In special cases where an officer has served in one Colony for some years with little or no leave immediately preceding his transfer to another Colony, the Governor of the latter Colony may, as an act of grace, recommend him for special leave in respect of his service in the former Colony, such recommendation being accompanied by any necessary particulars of former service and of the last leave taken in respect thereof. The amount of leave which should be shown on his leave certificate as his proper claim should be calculated according to the length of service in the Colony in which he is serving.

91. When an officer is entitled to half-pay leave no private arrangement made with the object of securing to him more than half-pay will be allowed.

92. An officer on leave may receive so much of any allowance for house rent as may not be required to cover special expenses for housing accommodation incurred by the acting officer, the amount so allowed being reported on the leave certificate.

93. No part of any horse or travelling allowance and no fees will be paid to an officer on leave.

94. On arriving in this country (England) the officer on leave will report his arrival by letter to the Colonial Office, mentioning his address and he will similarly notify any subsequent change of address. Treasurers and auditors of colonies whose accounts are subject to audit in this country should also send their addresses to the Director of Colonial Audit.

95. Except in very special cases, as of unbroken official residence in the same Colony for fifteen years, no extensions will exceed six months at a time nor will any officer on leave be allowed to receive half salary continuously for more than the following periods in respect of the following Colonies:—

Mediterranean Colonies	9 months.
West Indies, St. Helena and Falkland Islands	18 "
Mauritius, Ceylon, Hong Kong, Straits Settlements and Fiji	24 "

96. The foregoing regulations do not apply to vacation leave not exceeding, in the case of ordinary civil officers, three calendar months during and in respect of any two consecutive years' service. It is not necessary that any specific period should elapse

between two successive grants of vacation leave; but an officer will not be granted his full three months at the beginning of a biennial period without some special reason.

97. In the case of judicial or educational officers, such vacation leave may extend to, but must not exceed the ordinary vacations of the Court or institution to which they belong; and they may generally when absent on half-pay leave, receive full pay during any ordinary vacation of such court or institution which may occur during the period of their leave of absence. In Colonies where there is not ordinary vacation of the court or no vacation exceeding one month at one time, a judicial officer may have the leave allowed to ordinary Civil Officers.

98. Vacation leave need not be reported to the Secretary of State unless the officer intends to visit the United Kingdom, in which case his departure must be reported as required when half-pay leave is granted. There is no abatement of salary during vacation leave; but the leave must be duly recorded and arrangements must have been made and approved by the Governor, for the adequate discharge of the officer's duties without cost to the public, except in very special circumstances.

99. Short periods of absence from duty owing to sickness are allowed on full pay, in accordance with the local rules of each Colony, without affecting vacation leave. (In Jamaica for 28 days in periods not exceeding 10 days.)

100. An officer applying for leave with the intention of retiring must only receive such term of leave as will allow time for a decision upon his application for retirement, and the Governor giving leave under such circumstances will report the matter to the Secretary of State. An officer's salary will in such case cease and his pension commence when his retirement is sanctioned.

101. If an officer retires during his leave of absence without having originally given notice of his desire to do so, the date at which his half-salary is to cease will be determined according to the circumstances of the case.

102. Leave will count from the date of relinquishment to that of resumption of duty.

In Jamaica a Head of Department is allowed to take and give to members of his staff leave of absence not exceeding six days at a time or a fortnight in a year (conditionally on reporting the same to Government) without such leave interfering with the regular full pay vacation leave referred to in the above regulations; a Resident Magistrate may give himself short departmental leave or take it on informing the Government 24 hours before he intends to leave.

Copyists, and Clerical Assistants permanently employed in the public service may be allowed a total period of 4 weeks leave of absence on full pay during any one year.

Such persons may accumulate their yearly leave, so that in respect of any period of two years they may obtain a total absence on full pay leave of eight weeks.

## RETIREMENT OF PUBLIC OFFICERS ON ACCOUNT OF AGE.

The following instructions were published in the Jamaica Gazette of the 22nd January 1914.

I am directed by the Governor to inform you that he has had under consideration the question of regulating the retirement of public officers on the ground of age and has decided to adopt the system in force in the Civil Service of the United Kingdom. The general principles governing this system have hitherto been acted on here but they have not been promulgated by Circular.

2. Under Section 10 of Law 24 of 1904 it is competent for the Governor in Privy Council to require any Public Officer to retire from the Public Service of the Colony at any time after he attains the age of 60 years.

Similarly any Public Officer at that age may claim to be allowed to retire from the Public Service.

Officers whose services are not considered to be of sufficient utility to warrant their continuance in Office will at the age mentioned be required to make way for others showing greater capacity or energy.

Officers of approved merit will continue to hold office unless the exigencies of the Service should necessitate their superannuation.

3. Retirement shall be compulsory for every officer on attaining 65 years of age. But in special cases the Governor may extend an Officer's employment for a further period, not exceeding five years, on being satisfied that such Officer's retirement at 65 would be detrimental to the interests of the Public Service.

The main grounds on which it is considered that the retirement of an officer at 65 might be detrimental to the interests of the Public Service are:—

- (1) When the number of Officers in a Department above the prescribed age is such that their simultaneous removal would cause grave inconvenience.
- (2) When an Officer possesses peculiar qualifications which are essential to the performance of the duties of his office and which it would be difficult to replace by a fresh appointment.
- (5) Where an Officer has been entrusted with the execution of a particular duty which is approaching completion and it is found that the transfer of the work to another Officer who is necessarily less familiar with it would be attended with inconvenience.

## INCOME TAX DEPARTMENT.

THE first Income Tax Law (No. 24 of 1919) introduced into this Island, received the assent of the Governor on 20th June, 1919.

The introduction of an Income Tax into Jamaica marked a definite turning point in its fiscal system, and the Governor aptly described the new impost as a "very great financial engine."

Under this Law—subject to certain specified exemptions—all persons (including corporate bodies) in receipt of incomes in excess of £100 for the preceding year, were brought within the purview of the tax. Duty on such incomes is imposed on a graduated scale commencing with 2½d. in the £1 up to the first £400 of income (less relief in respect of the first £100 thereof), increasing by progressive stages of ½d., 1d., 2d., and 3d., on various ranges of income above £400, and culminating in a rate of 2/- in the £1 on every pound of income beyond £10,000.

On the arrival from England, on 26th November, 1919, of Mr. C. H. Rickman, a retired Special Commissioner of Income Tax, as an expert in Income Tax matters—"to advise and assist the Colonial Government in connection with the introduction of an Income Tax," steps were taken to put the new enactment into active operation.

The Income Tax Law, 1919, came into operation on the 1st January, 1920, and by 5th February, the Assessment Committee, which under Section 16 (1) of the Law was to consist of three persons appointed by the Governor, was finally constituted.

The "Rules" came into operation on 1st April.

Under section 45 of the Law which authorises the appointment of persons to assist persons to make out the Returns required by this Law, the Governor duly appointed as such the Collectors in each Parish or Place, as being best suited for that duty.

*Return Forms*—The total number of Return Forms supplied to the Collectors of Taxes for service for the year of assessment 1924 on persons whom they considered possibly liable to the tax—as being in receipt of incomes in excess of £100 per annum—was approximately 14,850; 1,473 further Forms were subsequently issued from this Department, and 2,765 forms were issued to Public Departments. In all 19,088 Return Forms.

It has since been recognised that the smaller class of cultivators in this Island do not keep proper—if any—Accounts, and hence find it difficult to enter their actual profits in the Return Form in general use. To meet this condition, the use of a simpler form applicable to those persons whose incomes are mainly derived from the cultivation of

land—the total value of which does not exceed £400 on the Valuation Roll—has been prepared, approved, and brought into use.

**Rules**—Section 26 of the Income Tax Law 24-1919—as amended by Section 10 of the Income Tax Amendment Law 39-1920—enacts that Income Tax payable on official salaries and wages may be deducted therefrom. The Governor in Privy Council on 15th June, 1920, approved of Rules giving effect to the above provision.

Section 24 (3) of the Income Tax Law, 24-1919, provides that the Chief Justice may—with the concurrence of the Puisne Judge—make Rules Governing Appeals. The necessary “Rules of Court” were accordingly made on 28th April, 1920.

**Appeals**—Under Section 23 (1) of the existing Law, when once a person has been charged to Income Tax by the Assessment Committee, no alteration or adjustment, however trivial and even if agreed as between the parties involved, can be dealt with other than by way of a formal Appeal to a Judge in Chambers being lodged by the person disputing the assessment or any part thereof.

The total number of Appeals so listed in the year ended 31st March, 1925, was three hundred and seventy-five, of which however in three hundred and twenty-six cases, the amount of the reduction, etc., had been agreed in this Department prior to the hearing of the Appeal. The proceedings at the Appeal Court in all these agreed cases were therefore restricted to obtaining the formal approval of the Judge in Chambers to the necessary amendment of the Assessment.

**Meetings of the Assessment Committee.**—The Assessment Committee met on twenty-two occasions during the financial year under review, for—*inter alia*—the purposes referred to in Section 21 of the Income Tax Law, No. 24-1919, viz., (a) to consider the Returns rendered—after their exhaustive examination, etc., in this Department, and “to assess the amount of Income Tax payable by every person liable thereto,” and (b) in cases where no Returns have been rendered “to determine according to the best of their judgment “the amount of the income of the person liable and to assess him accordingly.”

**Progress of Work**—For the year of Assessment, 1924, the number of persons on whom assessments were made by the Assessment Committee up to 31st March, 1925, was 12,849 (including Public Officials, etc.)

**Legislation**—Income Tax Amendment Law, 1920 (39-1920) passed 31st July, 1920, extended exemption from duty to the incomes of Parochial Boards, the Kingston General Commissioners, and any Government Institutions, also to the pay and allowances of members of His Majesty's Regular Forces on the Active List, wounds and disability pensions, and war gratuities.

No provision was made in the original Law for repayment of duty except (under Section 13) in the case of incomes “doubly assessed.” This omission was remedied in the Amendment Law.

Income Tax Amendment Law, 1920 (50-1920) passed 29th November, 1920, laid down the precise basis on which the Returns of the assessable incomes of Life and other Insurance Companies should be rendered.

Income Tax amendment Law, 1921 (21-1921)—The Bill preliminary to the above contained several important provisions, the principal being the repeal—at the instance of the Secretary of State for the Colonies—of Section 39 of the Original Law, which dealt with “Double Income Tax within the Empire.” By such repeal a large amount of duty—estimated at £27,000—would have been automatically added to the Jamaica Income Tax Revenue entirely at the expense of the Home Government, the total aggregate duty payable by persons assessed to Income Tax both in this Island and the United Kingdom remaining unaltered. A further repeal proposed was that of Section 15 of the Original Law which allowed as a reduction from the Income Tax payable by any person, one-third of the Property Tax paid by such person.

Relieving Sections permitting the trading, etc., losses of one year to be carried forward and set against the profits of the three following years, and a deduction in respect of “Obsolescence” in cases where Plant and Machinery is replaced by that of an improved type were also included. The Bill was, nevertheless, thrown out on the motion for its third reading. It was, however, with the omission of the Section repealing the Property Tax Allowance (section 15) and the addition of a Section repealing Section 27 of the original Law by which Interest were charged on Income Tax in arrear, re-introduced in a subsequent Session and passed its third reading, on 2nd September.

With the passing on 2nd September, 1921, of the Income Tax Amendment Law No. 21-1921, containing twelve Sections, and the fact that the previous Amendment Law of 1920 contained twenty-nine Sections—total forty-one Sections as against forty-six section in the Original Law, No. 24-1919—the imperative necessary for a “Consolidation Bill”

was obvious. Such Bill was therefore drafted and the opportunity taken to include therein certain non-contentious administrative amendments, the principal being a much-needed alteration in the existing Appeal procedure. Under the new provisions any person who objects to an assessment made upon him gives notice of his objection to the Assessment Committee instead of lodging an Appeal to a Judge in Chambers. The former body is thereupon empowered to review and, if necessary, to revise the assessment as originally made. Effect is given to any agreement arrived at by consent, the assessment being amended without further trouble. It is evident that the contemplated alteration would result in the saving of considerable trouble and expense to taxpayers generally, and also prevent the time of the Judge in Chambers being taken up unnecessarily in dealing with any cases capable of being settled "out of Court."

For the foregoing reason—*inter alia*—it was hoped that the Consolidation Bill would have been passed in the Autumn Session of 1921, but such Session was of but short duration, and other matters were given precedence.

It may here be mentioned, however, that an Inter-departmental Committee was appointed by the Secretary of State for the Colonies, in January, 1922, to consider and report on questions relating to the Income Tax Laws in the Colonies and Protectorates, and if possible to prepare a Model Income Tax Ordinance for the general use of Colonial Governments.

Such an Ordinance was prepared. The report of the Committee so appointed together with the Model Ordinance was published in the Jamaica Gazette of the 22nd February, 1923. Fresh legislation has not yet been passed along the lines of the Model Ordinance.

The actual net duty collected during the year to 21st March, 1925, was £87,608 1s. 5d. of which £85,711 16s. 4d. was paid to the local Collectors of Taxes and £1,896 5s. 1d. deducted by the various Public Departments on payment of official salaries, etc., as against the net duty collected to 31st March, 1924, viz., £83,131 6s. 1d. of which £81,030 12s. 9d. was paid to the local Collectors and £2,100 13s. 7d. deducted departmentally.

The following statistics relating to the year of Assessment ended 31st December, 1924, based on the incomes of the preceding year ended 31st December 1923, will be of interest:—

## PENSIONS AND GRATUITIES.

Up to the time of the passing of Law 34 of 1885 (the 16th November, 1885) all applications from Officers in the Public Service of Jamaica, for pensions and gratuities were dealt with under the Imperial Superannuation Acts, the various Treasury Minutes thereunder, and certain Regulations drawn up in the year 1879, known as the "Jamaica Pension Regulations."

A law was passed in 1885 confirming these pensions and further providing for persons in the Public Service at the time of the passing of the Law. Another Pension Law, 26 of 1892 was passed enabling public servants who were not provided for in the Law of 1885 to qualify for pension by contributing 2 per cent. of their salaries annually to a Pension Fund. Both these laws were repealed by Law 24 of 1904 which embodies the provisions of both laws and which regulates all Public Service pensions now granted. Law 4 of 1910 "Police Pension and Reward Fund Law," provides for payment from Public Revenue of pensions to sub-officers and constables of the Police Force. Law 16 of 1912 provides for payment from General Revenue to subordinate officers of Prisons. In March, 1912 the Legislative Council resolved that pensions should be granted to Teachers in Government Elementary Schools. Law 22 of 1912, provides for payment of pensions and gratuities to Railway Employees. Law 29 of 1924, provides for Pensions and Gratuities to Teachers of Secondary Schools.

## WIDOWS AND ORPHANS.

THIS Fund, created by the Public Servants of the Colony under the provisions of Law 11 of 1875, and amending laws, and which at 31st March, 1903, stood at £100,393 11s. 11d. was, under the provisions of Law 32 of 1903, absorbed in the general revenue of the island, the Government thereafter receiving all revenues appropriable for making provision for the Widows and Orphans of deceased Public Officers and assuming all the commitments—immediate and contingent—of the Association, which thereupon ceased to be an independent organization.

By Law 21 of 1904, the several laws having reference to the granting of pensions to Widows and Orphans of Public Officers were revised and consolidated and brought within the compass of a single enactment.

Besides safeguarding rights and privileges acquired under repealed laws, provision is made by this Law for the Widows and Orphans of future public servants, the following being among its main features:—

- I. All Public Officers on being appointed to an office with £100 a year or upwards to contribute 4 per cent. of their salaries to general revenue.
- II. Such contributions to continue for 35 years or to age 65, if Public Officer remaining in the public service so long.
- III. Provision is made for adjusting pensions in cases where contributions are increased or reduced from any cause or where they cease before the full number of payments have been made.
- IV. And for refunding a portion of their contributions when leaving the Public Service or completing their term of contribution, to bachelors or childless widowers.
- V. Pensions to Widows and Orphans are calculated under the tables attached to the law, these having been constructed on the actual mortality experience of the late Association during its operation, extending over 28 years.
- VI. Pensions to Widows and Orphans are not concurrent but are payable to the Widows until marriage or death, and are then divided among the Orphans in the following proportions:—

If three in number or less each receives one-fourth; but if more than three the pension is equally divided among them all. The pensions of boys cease at the age of 18 and of girls on marriage or at the age of 21 years.

The administration of the law is vested in an officer styled the Comptroller, and his report for 1921-22 shows that in that year pensions to the extent of £10,870 6s. 0d. were paid; the refunds to members were £235 0s. 2d.

## PART VI.

### JUDICIAL AND LEGAL.

#### SUPREME COURT OF JUDICATURE.

*(Public Buildings, East Block, King Street.)*

THE Supreme Court of Judicature of Jamaica as it now exists was constituted by the Judicature Law, 1879. The Court is a Superior Court of Record and now exercises the jurisdiction, power and authority formerly possessed by the Supreme Court of Judicature, the High Court of Chancery, the Incumbered Estates Court, the Court of Ordinary, the Court for Divorce and Matrimonial Causes, the Chief Court of Bankruptcy, the Circuit Courts or any of the Judges or those Courts or the Governor as Chancellor or Ordinary acting in any Judicial capacity and all ministerial powers, duties and authorities incident to any part of such jurisdiction, power and authority.

The Supreme Court now consists of a Chief Justice and two Puisne Judges.

In case of an appeal from the judgment of one of these Judges, such Judge does not sit in the Full Court on the hearing of the appeal but his place is taken by the Judge of the Kingston Court who while sitting rank after the junior member of the Court.

The Full Court holds a Session in Kingston three times a year, but a special sitting of the Court may at any time be appointed by the Chief Justice.

*Rules of Court for regulating the practice and procedure (including scales of fees and evidence) in respect of proceedings under the Reciprocal enforcement of Judgments and Awards Law 1923 (No. 16 of 1923.)*

Under the powers conferred upon the Chief Justice of Jamaica by the Judicature Law 1879, the Reciprocal enforcement of Judgments and Awards Law 1923 (No. 16 of 1923) and all other powers enabling in that behalf, and with the concurrence of the Puisne Judges of the Supreme Court of Judicature of Jamaica, I do hereby order and direct as follows:—

1. Any application under section 2 (1) of the Reciprocal enforcement of Judgments and Awards Law, 1923 (No. 16 of 1923) for leave to have a judgment obtained in a superior court in the United Kingdom or in a superior court in any part of His Majesty's Dominions to which the said Law extends registered in the Supreme Court of Judicature of Jamaica shall be made ex parte or by summons to a judge. If the application is made ex parte the judge to whom it is made may direct a summons to be issued.

2. The application shall be supported by an affidavit of the facts exhibiting the judgment or a verified or certified or otherwise duly authenticated copy thereof and stating that to the best of the information and belief of the deponent the judgment creditor is entitled to enforce the judgment and the judgment does not fall within any of the cases in which under section 2 (2) of the Law a judgment cannot properly be ordered to be registered. The affidavit must also, so far as the deponent can, give the full name, title, trade or business and the usual or last known place of abode or business of the judgment creditor and judgment debtor respectively.

3. The affidavit and the summons (if any) shall be entitled:

"In the Matter of the Reciprocal enforcement of judgments and Awards Law, 1923  
 ..... (describing the court) and .....  
 In the Matter of a judgment of the ..... obtained in .....  
 ..... (describing the cause or matter) and dated the ..... day of .....  
 ..... 19 ....."

4. The summons (if any) for leave to register shall be an originating summons and (unless otherwise ordered by a judge) shall be served in the same manner as a writ of summons is required to be served. The Judgment debtor shall not be required to enter any appearance thereto.

5. Any order giving leave to register shall be drawn up by or on behalf of the judgment creditor and when the order is made on a summons the order shall be served on the judgment debtor but where the order is made on an ex parte application service of the order on the judgment debtor shall be required.

6. The order giving leave to register the judgment shall state the time within which the judgment debtor is to be entitled to apply to set aside the registration. Such time where the judgment debtor is, or is ordinarily resident, within the jurisdiction of the Court shall ordinarily be fourteen days and when the judgment debtor is, or is ordinarily resident, out of the jurisdiction of the Court shall be such time as the Court may fix.

7. The register of judgments ordered to be registered under the Law shall be kept in the Office of the Court by or under the direction of the Registrar. The judgment shall be registered therein in accordance with the order giving leave to register it.

8. The register shall be arranged in alphabetical order in the surname of the judgment debtor and there shall be entered in the register the date of the order for registration and of the registration, the name, title, trade or business and usual or last known place of abode or business of the judgment debtor and judgment creditor and the amount for which the judgment is signed and any special directions in the order for registration as to such registration and or execution thereon and the particulars of any execution issued thereon.

9. Notice in writing of the registration of the judgment must be served on the judgment debtor within a reasonable time after such registration. Such notice shall (in the absence of an order by the judge as to the mode of service thereof) be served on the judgment debtor by personal service (with power to order substituted service or service out of the jurisdiction or both) as in the case of a writ of summons, but the judge may at any stage of the proceedings authorise or direct some other mode of service and if he does so the service shall be effected in accordance with such authority or direction.

10. The notice of registration shall contain full particulars of the judgment registered and of the order for such registration and shall state the name and address of the judgment creditor or of his solicitor or agent on whom and at which service of any summons issued by the judgment debtor may be served. The notice shall state that the defendant is entitled, if he has grounds for doing so, to apply to set aside the registration and shall

also state the number of days for applying to set aside the registration limited by the order giving leave to register.

11. The party serving the notice shall, within three days at most after such service; endorse on the notice or a copy or duplicate thereof the day of the month and the week of the service thereof, otherwise the judgment creditor shall not be at liberty to issue execution on the judgment; and every affidavit of service of such notice shall mention the day on which such endorsement was made. This rule shall apply to substituted as well as other service. The three days limited by this rule may under special circumstances be extended by order of a judge.

12. The judgment debtor may at any time within the time limited by the order giving leave to register after service on him of the notice of the registration of the judgment apply by summons to a judge to set aside the registration or to suspend execution on the judgment and the judge on such application if satisfied that the case comes within one of the cases in which under section 2 (2) of the Law no judgment can be ordered to be registered or that it is not just or convenient that the judgment should be enforced in Jamaica or for other sufficient reason may order that the registration be set aside or execution on the judgment suspended either unconditionally or on such terms as he thinks fit, and either altogether or until such time as he shall direct: Provided that the judge may allow the application to be made at any time after the expiration of the time herein mentioned.

13. The summons referred to in rule 12 shall be an ordinary summons intituled in the same manner as the affidavit referred to in rule 3.

14. No execution shall issue on a judgment registered under the Law until after the expiration of the time limited by the order giving leave to register after service on the judgment debtor of notice of the registration thereof. Provided that the judge who makes the order for such registration or a judge at Chambers, may at any time order that execution shall be suspended for a longer time.

15. Any party desirous of issuing execution on a judgment registered under the Law must produce to the Registrar an affidavit of the service of the notice of registration.

16. A writ of execution on a judgment registered under the Law may be thus varied:— Instead of "which said sum of money and interest were lately before us in our said Court, etc.," insert "which said sum of money and interest were lately in . . . . . (describing the court in which judgment was obtained)" etc., and which judgment has been duly registered in our Supreme Court of Judicature of Jamaica pursuant to the Reciprocal enforcement of Judgments and Awards Law, 1923, (No. 1923.)

17. Any application under section 3 of the Law for a certified copy of a judgment obtained in the Supreme Court of Judicature of Jamaica shall be made ex parte to a judge of the said Court on an affidavit made by the judgment creditor or his solicitor giving the particulars of the judgment and showing that the judgment debtor is resident in the United Kingdom or some (stating what) part of His Majesty's Dominions outside the United Kingdom to which the Law has been extended and stating to the best of his information and belief the title, trade, business or occupation of the judgment creditor and judgment debtor respectively and their respective usual or last known places of abode or business.

18. The certified copy of the judgment shall be an office copy and shall be sealed with the seal of the Supreme Court of Judicature of Jamaica and shall be certified by the Registrar as follows:—

"I certify that the above copy judgment is a true copy of a judgment obtained  
"in the Supreme Court of Judicature of Jamaica and this copy is issued in accord-  
"ance with section 3 of the Reciprocal Enforcement of Judgments and Awards Law,  
"1923 (No. 16 of 1923.)"

(Signed) . . . . .

Registrar of the Supreme Court of Judicature  
of Jamaica.

19. In this order the expression "the Law" means the Reciprocal Enforcement of Judgments and Awards Law 1923 (No. 16 of 1923) and the definitions contained in section 5 (1) of the Law shall apply:

20. The fees set out in the Schedule to these Rules shall be payable in respect of the registration of judgments under the Law.

## APPEALS FROM THE SUPREME COURT OF JAMAICA TO HIS MAJESTY IN COUNCIL.

By Order of King Edward VII. in Council made (in pursuance of the provisions of the Imperial Statute 7 and 8 Vic. c. 69) on the 15th day of February, 1909, it was ordered that any person may appeal to His Majesty, his heirs and successors, in His or their Privy Council.

- (a) as of right from any final judgment of the Supreme Court of Judicature of Jamaica where the matter in dispute on the appeal amounts to or is of the value of £300 sterling or upwards, or where the appeal involves directly or indirectly some claim or question to or respecting property or some civil right amounting to or of the value of £300 sterling or upwards and:—
- (b) at the discretion of the said Court, from any other judgment of the said Court whether final or interlocutory, if, in the opinion of the Court the question involved in the appeal is one which, by reason of its great general or public importance or otherwise, ought to be submitted to His Majesty in Council for decision, the person feeling aggrieved to apply to the Court by motion or petition for leave to appeal within 21 days from the date of the judgment to be appealed from, notice of the intended appeal to be given to the opposite party. And the Court is empowered to direct that the Judgment appealed from shall be carried into execution, or that execution shall be suspended pending the appeal as to the Court may seem just. In all cases security is to be given by the Appellant in the sum of £500 for the prosecution of the appeal and the payment of any costs which may be awarded to the Respondent—such security to be entered into within a period to be fixed by the Court, but not exceeding three months from the date of the hearing of the application for leave to appeal.

By this Order the Court appealed from is required to certify and transmit to the Privy Council a copy of the evidence, proceedings, judgments, decrees and orders made in the case appealed, under the Seal of the Court, and also a copy of the reasons given by the Judges of the said Court for or against the judgment appealed from.

The order also contains directions as to the transcript records to be sent by the Registrar of the Supreme Court to the Registrar of the Privy Council and the printing of such transcript by the Appellant or his Agent and as to the power of the Judicial Committee of the Privy Council to suspend or relax the regulations of the Order. Directions as to the form and type used in the printing of these proceedings in appeal are also contained in the said Order.

By this Order it is directed that in appeals from any judgment of any Court in the colonies the reasons given by the Judges of such Court for or against such Judgment shall be by the Judges communicated in writing to the Registrar of such Court, to be by him transmitted in original to the Registrar of the Privy Council at the same time when the record is transmitted.

## ADMIRALTY COURT.

(*Public Buildings, East Block, King Street.*)

UNTIL the 1st July, 1891, Jamaica possessed a Vice-Admiralty Court under the Imperial Statutes 26 Vic., ch. 24, and 30 and 31 Vic., ch. 45. This Court has ceased to exist under the provisions of "The Colonial Courts of Admiralty Act, 1890," 53 and 54 Vic., chap. 27, passed on the 25th July, 1890, published in the Jamaica Gazette of the 20th Nov., 1890, page 741, by which these two Statutes are repealed.

By the second section of the last-mentioned Statute every Court of Law in a British possession that has therein original unlimited Civil Jurisdiction shall be a Court of Admiralty with the jurisdiction therein mentioned and may for the purpose of that jurisdiction exercise all the powers which it possesses for the purposes of its other civil jurisdiction and such Court is in the Statute referred to as a Colonial Court of Admiralty.

By the Statute it is enacted that the jurisdiction of a Colonial Court of Admiralty shall, subject to the provisions of the Statute be over the like places, persons, matters and things as the Admiralty Jurisdiction of the High Court in England, and may exercise such jurisdiction and have the same regard to international law and the comity of nations as the High Court in England.

The Statute also provides for Local Admiralty appeals and appeals to the King in Council, rules of Court, fees and costs, droits of Admiralty and of the Crown, power to the Admiralty to establish Vice-Admiralty Court Judges and other Officers. The 10th section provides that whenever there is not a formally appointed Vice-Admiral in a British possession the Governor of the possession shall be *ex officio* Vice-Admiral thereof, and the 16th section provides that the Act shall come into force in every British possession on the 1st July, 1891. The Admiralty Court is now part of the Supreme Court with the same officers.

By Law 38; d of 1894 (23 May, 1894) as amended by Law 18 of 1906 (14th May, 1906) provision is made for the appointment of an Admiralty Bailiff of the Supreme Court.

Rules of Court were prepared by the then Chief Justice under the 7th section of the Law. These rules were approved by Queen Victoria in Council, on 30th January, 1893 and were published in the Jamaica Gazette of 13th April, 1893.

## ADMINISTRATOR GENERAL'S OFFICE.

(*Public Buildings, East Block, King St.*)

THE want of a duly authorized Officer to take charge of the property of persons who died either intestate, or without leaving executors who will act, having for a considerable time pressed itself on the consideration of the Government, a law was passed in 1873 (Law 34 of 1873) for the appointment of an Administrator-General. Under this Law the Administrator General is bound to administer on the estates, of which the personalty amounts to £50 and upwards, of persons (1) who die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving such relative, if no such relative shall take out letters of administration within three months or such other time as may be fixed by the Court; (2) who die leaving a will but leaving no executor, or no executor who will act, if no such relative as aforesaid of such deceased shall take out letters of administration within the same period. He may administer on the estate of any person who shall appoint him the sole executor of his will, but he cannot act as a co-executor with any other person. The Administrator-General may be appointed trustee of any real or personal property in the same way that any other person might be appointed. He may also be appointed guardian of any infant, committee of any lunatic or idiot and receiver in chancery.

The Administrator-General is subject to the immediate control of the Supreme Court of Judicature, he being an Officer of that Court and accountable to it for the due and efficient discharge of his duties.

This Department was combined with that of the Stamp Commissioner on the 1st September, 1893, but was again separated on the retirement of Mr. Chapman.

The amending Law, 26 of 1894, provides that the Administrator-General shall be paid such salary as the Governor may from time to time determine; and that all commissions' fees and remuneration of office, other than salary, formerly payable to the Administrator-General, shall be paid into the Public Treasury, and form part of the General Revenue of the Island.

It also provides that all expenses of clerks and assistants, together with all expenses incurred in and about the duties of his Office which formerly had to be defrayed personally by the Administrator-General, shall be paid out of general revenue.

During the year 1924, Letters of Administration to the estates of ten deceased persons (one with Will annexed), and Probate of the Wills of two deceased persons were granted to the Administrator-General in the Supreme Court.

There were also granted to him in the Kingston and Resident Magistrates' Courts of this Island, Letters of Administration to the estates of 22 deceased persons (one with Will annexed.)

The Administrator-General was also appointed Guardian and Committee of the estate of one person of unsound mind not so found and to act under one Deed of Appointment of New Trustee, and four appointments of Trustee under the Settled Land Law, 1888.

The estates of 106 deceased persons who died in Panama, Costa Rica and Cuba, were also during this period referred to the Administrator-General to be dealt with under the provisions of Law 21 of 1906.

At the 31st December, 1924, the amount at credit of the Estates of Deceased Persons, Lunatics, Custodian enemy property, Receiverships and Trusts was £330,079 1s. 4d.

The accounts of the Administrator General are audited and passed half-yearly by the Supreme Court.

#### BANKRUPTCY.

THE Bankruptcy Law of 1879 declares that the Administrator-General for the time being shall be *ex-officio* the Trustee in Bankruptcy in the Supreme Court, and it places the administration of debtors' estates in bankruptcies occurring in that Court in the hands of that officer, who is directly accountable to the Supreme Court of Judicature. The same Law provides for bankruptcy administration in the Resident Magistrate's Courts of the Island; the Clerks of which Courts are Trustee in their respective Courts. The Law as amended by 24 of 1892 places the question of a Bankrupt's discharge, and of the conditions to be attached thereto, in the hands of the Court, and gives the Court the power of inflicting punishment for culpable bankruptcies or other fraudulent transactions. The amending Laws now in force *inter alia* provide:—

- (a) that it shall be incumbent upon Bankrupts to pay 10s. in the £; otherwise their discharge may be suspended for two years;
- (b) for the administration of deceased persons' estates in Bankruptcy;
- (c) for books of account of debtors to have been kept in English;
- (d) that undischarged Bankrupts obtaining credit to the extent of £20; or more, without disclosing disability, are liable to imprisonment, not exceeding two years;
- (e) that sale by a trader of his stock-in-trade, etc., without consent of three-fourths, in number and value, of his creditors; or unless made after 21 days notice in Jamaica Gazette, and a daily paper published in Kingston; shall be void against creditors in case of his Bankruptcy; and
- (f) that such advertisement may be alleged as an act of Bankruptcy, after notice in the prescribed form by the Petitioning Creditor.

The following table shows the number of persons who took the benefit of the Insolvent Debtors Law during each of the eight years previous to 1868:—

1861 .. 16	1863 .. 75	1865 .. 39	1867 .. 64
1862 .. 76	1864 .. 40	1866 .. 47	1868 .. 39

The following table shows the number of persons declared bankrupts in the Supreme Court during each of the last 16 years under the provisions of the new Bankruptcy Law:—

1909-10 .. 7	1913-14 .. 27	1917-18 .. 14	1921 .. 64
1910-11 .. 16	1914-15 .. 42	1918-19 .. 10	1922 .. 36
1911-12 .. 38	1915-16 .. 18	1919-20 .. 3	1923 .. 46
1912-13 .. 23	1916-17 .. 19	1920 .. 7	1924 .. 63

During the year 1924, there were 61 Provisional Orders in Bankruptcy made in the Supreme Court upon Creditors' Petitions, of which 30 were made Absolute, 12 were revoked; and one was transferred to a Lower Court whilst the remaining 18 were pending at the end of the year.

Two Absolute Orders were also made against debtors on their own petition.

One debtor was committed to Prison during the year for offences under the Bankruptcy Law.

There were also made in respect of proceedings commenced in previous years five Absolute Orders, one Order annulling an Absolute Order, and two Revocation Orders.

On the 31st December, 1924, the amount at credit of Bankruptcy Estates was £8,675 19s. 11d.

The accounts of the Trustee in Bankruptcy (like those of the Administrator-General) are audited and passed half-yearly by the Supreme Court.

## PRIZE COURT.

PRIZE JURISDICTION in Jamaica is vested in and exercised by the Supreme Court, that Court being the Local Court of Admiralty under the Imperial Statute 53 and 54 Vic. c. 27. This jurisdiction is derived from the warrant of the Lords Commissioners of the Admiralty (published in the Jamaica Gazette of the 7th December, 1905), authorizing the Supreme Court to act as a Prize Court. The warrant by its terms

\* Off the Island.

defines and limits the jurisdiction which became exercisable when the proclamation of the outbreak of war was made. There is an appeal to His Majesty in his Privy Council.

The Order in Council prescribing the Rules and Tables of Fees to be observed and taken in Prize Proceedings is published in the Jamaica Gazette of September 12, 1914.

The Judges of the Court are the Chief Justice (President) and the Puisne Judge; the Registrar is the Registrar of the Supreme Court, and the Marshall is Mr. R. E. Seaton.

During the war the following causes were adjudicated by the Court:—

(a) "The Bethania" captured at sea by H.M.S. "Essex" (Captain Hugh Dudley Richard Watson). The ship was delivered to the Crown by order of the Court on an undertaking being given. Part of the cargo was condemned and sold, and part released to neutral claimants.

(b) The Lighters 1/16, 2/16, 3/16 and the "Atlas" (a launch) were seized in the port of Kingston by Officers of the Customs and orders of detention made.

These orders were subsequently superseded and orders of condemnation made and the Lighters and "Atlas" were delivered to the Crown on an undertaking being given as provided in the Prize Rules.

### RESIDENT MAGISTRATES' COURTS.

On the coming into operation on the 2nd April, 1888, of Law 43 of 1887, the Resident Magistrates Law, 1887, the District Courts, which had been in operation since the year 1867 ceased to exist. Law 43 of 1887, with its amending laws have been consolidated by The Resident Magistrates Law, 1904, (Law 28 of 1904). The Resident Magistrate not only presides in the Court of Petty Sessions but holds a Court of his own, where he sits alone. Almost the same jurisdiction as that of the former District Courts is conferred upon the Resident Magistrate's Court, and it is the Intermediate Court between the Supreme Court and the Courts of Petty Sessions. There is a Resident Magistrate's Court for each parish of the Island, with as many stations as may from time to time be fixed by the Governor.

The Governor is empowered to appoint not less than nine and not more than fourteen Resident Magistrates for the Resident Magistrates' Courts, and an Assistant Resident Magistrate for the parish of Kingston. Each Resident Magistrate has the Resident

Magistrate's Court of one parish assigned to him. But in addition to this a Resident Magistrate shall, if the Governor so direct, also have and exercise the jurisdiction of the Resident Magistrate's Court in any other parish or parishes, either generally, or at such one or more stations therein as may from time to time be assigned to him by the Governor.

Every Resident Magistrate is Coroner for the parish or parishes to which he is assigned by the Governor.

The qualifications for a Resident Magistrate are that he must be a member of the English or Irish Bar, or of the Faculty of Advocates of Scotland, or a Solicitor of the Supreme Court of Judicature of England, Scotland, Ireland or Jamaica, or a writer to the Signet of Scotland.

The Resident Magistrates Law also provides for the appointment of Clerks to the Courts in the several parishes, whose qualifications are the same as those of a Resident Magistrate, or the passing by an Assistant Clerk of Courts of an examination equal to that required of an Articled Clerk presenting himself for examination prior to being admitted as a Solicitor, of Assistant Clerks of the Courts, and of Bailiffs of the Resident Magistrates' Courts.

*Tariff of Fees in the Resident Magistrates' Courts for Practitioners, for Court Fees, and for Bailiffs' Fees published in the Jamaica Gazette of the 18th February, 1892, 2nd March, 1899, and 11th December, 1902, and referred to in Section 142 of Law 28 of 1904.*

#### FEEES FOR PRACTITIONERS.

The following shall be the scale of costs and fees, as well between party and party, as between Solicitor and client payable in all cases in the Resident Magistrate's Court where Solicitor's costs or Counsel's fees shall be awarded, except where by any Statute or Law special provisions as to costs or fees have been enacted.

Solicitor's costs in contested cases in Common Law and equity, when a Barrister is not employed:—

When the amount recovered or the value of the claim does not exceed £10 ..	£2 2 0
When the amount recovered or the value of the claim exceeds £10 and does not exceed £20 ..	3 3 0
When the amount recovered, or the value of the claim exceeds £20 and does not exceed £30 ..	4 4 0
When the amount recovered, or the value of the claim exceeds £30 and does not exceed £50 ..	5 5 0
When the amount recovered or the value of the claim exceeds £50 and does not exceed £200 ..	7 7 0

Where a Barrister is employed one-half the above rates.

#### *In cases which are not contested—Common Law.*

Where the amount recovered does not exceed £10 ..	0 13 0
Where the amount recovered exceeds £10 and does not exceed £20 ..	0 17 0
Where the amount recovered exceeds £20 and does not exceed £50 ..	1 8 0

Provided that when the defendant satisfies the plaintiff's claim within four clear days of the service of the summons, the defendant will not be liable to pay a larger sum for Solicitor's costs than the amount prescribed in the following table:—

In cases where the claim does not exceed £10 ..	£0 8 0
Where the claim exceeds £10 and does not exceed £20 ..	0 12 0
Where the claim exceeds £20 and does not exceed £50 ..	0 18 0

When the subject matter or the sum recovered exceeds £50 ..	5 5 0
When the trial lasts more than one whole day, or is adjourned for want of time, further consideration, or upon payment of the costs of the day, a refresher may be allowed by order of the Judge not exceeding £1 ls., in cases where the subject matter or sum recovered exceeds £20 and does not exceed £50: and where the subject matter or sum recovered exceeds £50 from £1 ls. to ..	2 2 0

In Equity Cases where, from the number of attendances or from the difficulty of the case, the Judge shall think the highest of the above fees insufficient remuneration for the services performed, or when any such case shall have required extraordinary skill and labour, and the same has been satisfactorily and speedily disposed of, the Judge may

augment the Solicitor's costs and Counsel's fees charged on the basis of this tariff by a further sum not exceeding £10.

In any action in which the title to any real or personal property is bona fide in dispute or which is brought to try a right in addition to or irrespective of a right to damages the Judge may allow to the successful party such costs as he may think fit, not exceeding in amount what would be allowed if the demand exceeded £200.

In any action where the trial has in the opinion of the Judge, been unnecessarily protracted by reason of the calling of unnecessary witnesses or otherwise by the conduct of the Solicitor or Counsel in unnecessarily prolonging the proceedings, the Judge shall be empowered to award in addition to the above rates costs not exceeding £3 3s., per day for every day of the trial after the first day.

*In Actions under Section 149 of the Resident Magistrates Law, 1904, and Judgment Summonses.*

In cases where the claim exceeds £2 and under £10	..	..	£0 8 0

 Note—The costs of an appeal after the transmission of the papers to the Court of Appeal will be regulated by the order of the Court of Appeal.

When the defendant is successful, Solicitor's costs and Counsel's fees shall be on the basis of the above scales, but calculated on the amount claimed, or when the matter does not admit of such calculation, on the value of the property or thing in dispute

*Applications for Sale of Lands under Section 223 of the Resident Magistrates Law, 1904.*

In cases where the judgment debt and costs have been satisfied, or the application is withdrawn within 14 days of the service of the order for the sale of the land .. £2 2 0

In addition to the above fee of £2 2s. in cases where the land sold realizes less than £20 .. 1 1 0

More than £20 but not less than £50 .. 2 2 0

More than £50 but not less than £100 .. 3 3 0

More than £100 .. 5 5 0

Provided that where from the number of parties to be served, or from the course adopted by the owner of the land, or any claimant or encumbrancer, the Judge shall be of opinion that the above scale does not afford sufficient remuneration for the necessary work connected with or incident to the application, he may allow the Solicitor a further sum not exceeding 5 5 0  
 When costs of parties other than the judgment creditor's are awarded the Judge shall fix the amount of such costs.

#### COURT FEES.

The following shall be the scale of fees payable in all cases to the Clerk of the Court by the party requiring anything to be done in respect of which any such fee is payable:

 13. Mileage (once only) at the rate of 6d. per mile from nearest court house when the bailiff succeeds in satisfying at least 25 per cent. of the amount of the writ.  
 14. Keeping possession of goods till sale, or until arranged between the parties per day not exceeding 7 days  
     where the amount of demand does not exceed £10 . . . . . 1s.  
     where the amount of demand exceeds £10 . . . . . 2s.  
 15. For the appraisalment of goods distrained, 3d. in the £ on the value.

*Bailiff as Auctioneer.*

6. In cases other than levies, where the bailiff by order of the Resident Magistrate acts as auctioneer to conduct any sale of property, real or personal, ordered by a Resident Magistrate's Court to be sold, his remuneration shall be according to such special terms as the Resident Magistrate shall fix, not exceeding the rate of 2½ per cent. on the first £100 gross proceeds, and at the rate of 1s. per cent. on any sum in excess of £100: Provided always that in cases where the property to be sold consists wholly or to a great extent of personal effects, or live stock and the like property the Resident Magistrate may award to the Bailiff further remuneration, not exceeding the rate of £2 per centum: provided that such fees shall not include advertisements.

*Interpleader Summonses.*

17. Where the claimant elects under section 81 of Law 28 of 1904, or otherwise, that the bailiff shall keep possession of the goods until the decision of the Court is obtained then shall he pay to the bailiff as under—

For the keep of live stock at the rate of 1s. 6d. per day for each animal, until the return day.

For the keep of dead stock 6d. per day.

In the event of the trial being postponed the claimant shall also pay the above rates until the day of hearing.

*General.*

18. When any mileage money shall be payable on the service or execution of any process such mileage money shall be charged and reckoned from that court house of the parish where a Bailiff or Assistant Bailiff is stationed which is nearest to the residence of the person against whom such process shall have been issued.  
 19. All necessary expenses out of pocket incurred by a bailiff in performing his duties and not covered by the above fees shall be allowed on taxation by the Clerk of the Courts.

## HOLDING OF COURTS.

Under section 69 of Law 28 of 1904 it is the duty of every Resident Magistrate on or before the 31st day of October in each year to fix the times and places for the holding during the ensuing year of Courts of Petty Sessions and Resident Magistrates' Court throughout the parish or parishes assigned to him by the Governor.

These fixtures are however subject to the approval of the Governor in Privy Council, who may alter the times and places proposed as he may see fit. Should a Resident Magistrate fail to fix the times and places within the time aforesaid, it is lawful for the Governor in Privy Council to fix them without reference to the Resident Magistrate.

The Law also requires that notice of the times and places fixed for the holding of the Courts shall be published in the Gazette, and shall be put up in some conspicuous place in each Court House in the parish and in the Office of the Clerk, at least one month before the time appointed for the holding of the Courts. This provision applies also to any alteration in the times fixed, which it may be found desirable to make, but does not in any way interfere with the powers of the Resident Magistrate or in his absence, of a Justice of the Peace, or failing a Justice, of the Clerk or Assistant Clerk, by declaration in open Court, to adjourn any Court to any day or place whether or not such day or place has been fixed and approved as provided in the first paragraph of Section 69.

The Resident Magistrate has the power also to hold his Court for the exercise of its Criminal Jurisdiction at any time and place that he may see fit.

Power is given by Section 70 to the Resident Magistrate to sit in Chambers and there to make Orders as to the mode of trial of persons brought before him charged with any indictable offence, to hear and determine any application for a change of venue from one station to another in his parish, for any stay of execution for a *habeas corpus* to bring up any witness or prisoner, and any application respecting the taxation of costs, and also any unopposed application for Probate or Administration and also any application that may properly be made *ex parte* and without notice to the other side.

A sitting in Chambers may be fixed by the Resident Magistrate for any place or time, and he has jurisdiction to act without notice of such sitting being given.

In order to provide the means of dealing as early as possible with persons charged with indictable offences, the law enacts that the Resident Magistrate shall at all times be deemed to be sitting in Chambers for the purpose of making Orders as to the mode of trial of such persons.

The Resident Magistrate may refer any matter brought before him in Chambers to be disposed of in Court, if owing to its importance or for any other reason he thinks it should be so disposed of.

## COURTS OF PETTY SESSIONS.

PETTY SESSIONS COURTS were established in this island shortly after the English conquest of the Island when the judicatories for the peace and good order of the island were settled. They are constituted as in England. Justices of the Peace are appointed to each parish by commission from the Governor under the great seal of the island as conservators of the public peace. They derive their power from their commission and their jurisdiction is conferred by various local laws. Generally one of the body is selected by the Governor and appointed Custos—an office similar to that of Custos Rotulorum in England. Where there is no Custos the Magistrate next in seniority to him or the Senior Magistrate of the parish and resident in the parish and in the habit of acting as Justice of the Peace therein, is the individual falling under the designation of Custos. (18 Vic., chap. 31, section 6.) The course of procedure in the Courts of Petty Sessions is regulated by the 13th Victoria, chapters 24 and 35, which consolidate the previous provisions on the subject.

By Section 21 of Law 28 of 1904 every Resident Magistrate appointed under that law is *ex officio* a Justice of the Peace for every parish of the island.

The Clerks of the Courts act as Clerks in the Courts of Petty Sessions and in the Resident Magistrates' Courts and Circuit Courts. They are authorised to take information on oath and to issue summonses, warrants and subpoenas in criminal and quasi-criminal cases. The Assistant Clerks when appointed by the Governor as Deputy Clerks of the Courts, have similar powers except that of issuing warrants.

## PETTY SESSIONS COURT FEES.

"All proceedings in cases of persons charged with indictable offences, and all proceedings before a Justice of the Peace or Justices of the Peace in Petty Sessions on summary trials for larceny or under any act or law now or hereafter to be passed making the case a public prosecution, and all proceedings instituted by any member of the Constabulary Force in his capacity as such, shall be free of all stamp duty, whether imposed by this or by any other law."—Law 3 of 1870, s. 9. In other cases the following fees are payable—

	£	s.	d.
On each Information	0	3	0
" Summons	0	3	6
" Warrant	0	3	6
" Affidavit to ground search warrant and warrant	0	3	0
" Affidavit and warrant for articles of the peace and good behaviour	0	5	6

## PART VII.

### JAMAICA FINANCES.

#### REVENUE AND EXPENDITURE.

THE revenue for the year 1924-25 amounted to £1,922,962 11s. 0½d., and the expenditure was £2,022,746 10s. 1d.

Parochial Revenues, which are devoted to Parochial Roads, Poor Relief, Sanitary and other local services and are administered by the several Parochial Boards, amounted to £336,495. This includes amounts borrowed from the public chest.

Parochial Expenditure amounted to £336,990, or £129,867 more than in the previous year. The re-payment of loans from General Revenue, which amounted to £8,008-0s. 7d., is included in the Expenditure.

Immigration Expenditure amounted during the year to £15,927 18s. 10d.

#### DEBT.

The Public Debt directly secured on General and Special Revenues stood as follows at the close of each of the last ten years, after making allowance in each year for the Sinking Funds actually invested for the eventual redemption of debt.

## IMPORTS AND EXPORTS.

*Imports.*—The value of the Imports into the Colony in each of the last six years was as follows:—

1919	..	5,085,615	1922	..	4,835,393*
1920	..	10,313,282	1923	..	5,555,957†
1921	..	£5,473,790	1924	..	£5,085,350**

The Imports for the past two years were apportioned between the five general headings into which all imports are divided in accordance with Board of Trade requirements, thus:—

	1923.	1924.
1. Food, Drink and Tobacco .. ..	£2,098,230	£1,977,361
2. Raw materials and articles mainly unmanufactured .. ..	585,564	532,814
3. Articles wholly or mainly manufactured .. ..	2,594,547	2,316,114

5. Bullion and Specie .. ..	71	725
	£5,555,957	£5,085,350

Taking the whole of the Imports the Island's Custom was distributed in each of the last four years in the following proportions, viz:—

	1921.	1922.	1923.	1924.
United Kingdom .. ..	29.2	28.4	28.8	29.8
United States .. ..	54.7	45.7	44.2	40.6
Canada .. ..	13.8	13.4	14.2	16.4
Other Countries .. ..	2.3	12.5	12.8	13.2

Of the total value of goods entered for Imports during the year 1924, the value of *Advalorem* was £1,865,037, or 39%; Rated value £2,355,707 or 49%; Free value £606,330 or 12%.

The value of Imports entered for consumption during the year 1924 was £5,130,792.

*Exports*—The total Exports for 1924 are valued at £3,145,610.†

When grouped under the four principal heads prescribed by the Board of Trade they compare as follows:—

## I. Live Animals, food, drink, &amp;c.—

‡ Includes Parcels Post Goods £274,879 (Imports.)

§ £20,263 Exports.)

\*\* £258,276 (Imports)

¶ £22,949 (Exports)

The Island's Exports during the past year, compared with those of the three immediately preceding, were distributed among the different countries in the following proportions:—

	1921.	1922.	1923.	1924.
United Kingdom ..	29.6	24.2	29.0	25.3
United States ..	48.4	49.4	49.4	43.7
Canada ..	12.4	19.1	13.8	19.2
Other Countries ..	9.6	7.3	7.8	11.9

The following Statement shows the relative importance of the Island's staple products, also the proportion of exportable value of the same to the total value during the last four years:—

	1921.	1922.	1923.	1924.

## CURRENCY OF JAMAICA

THE Acts relating to the metallic currency are 3 Victoria, chap. 39, "to provide for the assimilation of the currency of this island with the currency of the United Kingdom, 5 Victoria, chap. 28; 6 Victoria chap. 40; 7 Victoria, chap. 51; Law 49 of 1869; and Law 13 of 1880; and the several Proclamations bearing on the coinage are of the following dates: 14th September, 1838, 19th August, 1853, 9th March, 1854, 23rd October, 1863, 10th November, 1866, and 11th November, 1869.

A Proclamation was issued on 23rd October, 1863, calling attention to the fact that the fractional parts of the dollar of Foreign States were not a legal tender, and prohibiting their reception in payment of Customs duties or taxes. Subsequently, under Law 8 of 1876, the silver dollar itself ceased to be a legal tender.

By Law 49 of 1869 the issue of a nickel currency of pennies and half-pennies is authorized, and these coins are a legal tender to the extent of one shilling and of sixpence respectively. Law 13 of 1880 authorizes the issue of nickel farthings, which are a legal tender to the extent of threepence in one payment.

In 1904 the Currency Note Law was passed constituting a Board of Commissioners to issue notes called currency notes of the value of 10s. each, redeemable on demand at the office of the Commissioners. This Law was amended by Law 17 of 1918 authorising the issue of Currency Notes of such denominations as may be approved by the Secretary of State.

The Island Act regulating Banks not established under Royal Charter or by Act of Parliament is the Act 7 Victoria, chap. 47.

Under the Currency Note Law 27 of 1904, the Commissioners of Currency issued their first notes on the 15th March, 1920, aggregating £17,500.

The notes in circulation on the 31st March, 1925, amounted to £88,502 7s. 6d. as under:—

2/6 ..	£178 12s. 6d.	5/ ..	£38,053 5s.	10/ ..	£50,570 10/.
--------	---------------	-------	-------------	--------	--------------

The Commissioners had on the 31/3/24 invested in British Securities £50,297 10/.

---

*Currency Commissioners.*—The Island Treasurer, Hon. Collector General, Hon. T. Laurence Roxburgh, C.M.G. *Secretary*—John R. Lewis.

The paper money within the island consists of the notes of the Colonial Bank, the Bank of Nova Scotia, the Royal Bank of Canada and the Canadian Bank of Commerce. These notes are no longer legal tender since the Proclamation in Extraordinary Gazette on the 20th August, 1914, under Law 36 of 1914, repealed by Gazette Notice, No. 457 of 3rd July, 1919. Currency Notes of One pound and of Ten shillings value issued by H.M. Treasury under the Currency Bank Notes Act of 1914, were made a legal tender "in the same manner and to the same extent and as fully as Sovereigns and Half Sovereigns are current."

The money of account in Jamaica is pound, shillings and pence, sterling. By the present Law of Jamaica all silver coins above the value of sixpence current in Great Britain are legal tender here to any amount while those under 6d. are made legal tender to the extent of forty shillings in one payment, but to no greater extent (7 Vic. chap. 51) and all copper coins current in Great Britain are legal tender here to the extent of twelve pence in one payment, but to no greater extent (6 Vic. chap. 40); but there is now no copper coinage current in Great Britain, and the bronze coinage which has superseded it has not been made current here by Proclamation. The other coins current here are all American gold coins of \$5 and upwards at the rate of £1 0s. 6d. per \$5 (*one dollar*, gold pieces are only current at 4s. 1d.); gold coins current in Great Britain and Ireland and British silver crowns, half-crowns, florins, shillings and sixpences, all of which are legal tender to any extent.

## PART VIII.

### EDUCATION.

#### SECONDARY EDUCATION.\*

REQUESTS were from time to time in years gone by made for the education of the children of free people, but these were to a great extent misappropriated and mismanaged, and the trust funds would have all disappeared had not the Government in 1865 taken possession of what remained, paying a high rate of interest.

In 1879 a law was passed putting all these endowments under the control of the Jamaica Schools Commission, and all are now expended in the cause of secondary education. (See below "Schools Commission" and "Endowed Schools"). From 1881 a Jamaica Scholarship has been awarded yearly, and since 1912 one for boys and one for girls have been awarded.

The Secondary Education Law of 1892 provided for the establishment of secondary schools in any important centres declared by the Governor in Privy Council, on the recommendation of the Board of Education, to be without adequate provision for secondary education. A secondary school was established under the law at Montego Bay in 1895, and in 1911 it was moved into new buildings at Pleasant Hill with accommodation for boarders, and by an amending law its control was transferred from the Board of Education to the Jamaica Schools Commission.

During the year 1909 the attention of the Jamaica Schools Commission was drawn to a letter from the Secretary of the Board of Education in England, in which it was stated that amongst other ways of assisting public education in different parts of the Empire, the Board of Education undertook "to meet so far as they could the desire of the Government of any Colony for an English Inspector to go out either to inspect the schools or to consult with the educational authorities as to the best means of improving the educational conditions. In this case the Board would make no charge for the services of the Inspector, but would only ask that the travelling and maintenance expenses should be defrayed by the colony in question."

The Commission communicated with the local governing bodies of the various Trust Schools in the Island on the subject; and, on favourable replies being received from them, a request was sent to the Government, that arrangements might be made by the Government with the Board of Education for the sending out of an English Inspector to inspect the Secondary Schools of the island on the lines indicated above. Besides the schools actually under the control of the Commission at this time, Westwood High School, at its own request, and the Montego Bay Secondary School, now known as Cornwall College with the concurrence of the Board of Education, were included in the scheme. As the result of later negotiations, Mr. H. H. Piggott, M.A., H. M. Inspector, arrived in the island on the 20th January 1911, and after inspecting the schools finally left the colony on March 22nd. The report received by the Schools Commission in July, 1911, afforded a most useful account of the state of secondary education in Jamaica and gave wise and helpful advice as to development of secondary education in Jamaica in the future. Another visit by Mr. Piggott which had been arranged for 1915 was abandoned on account of the war.

In the Session of the Legislative Council in 1914, a Law consolidating and amending the Laws relating to Secondary Education was passed.

In 1917 a Consultative Committee for Secondary Education was formed by the leading head masters and mistresses, with the Director of Education and the Secretary of the Jamaica Schools Commission.

In the Session of the Legislative Council in 1924, a Law was passed providing Pensions or Gratuities for Teachers in recognized Secondary Schools. This Law (29 of 1924) came into operation on the 1st of September, 1924.

Regulations for grants-in-aid of Secondary Schools were passed by Resolution of the Legislative Council on the 28th May, 1920, and came into force on the first of August following. Two-thirds of £7,000 was voted for the Michaelmas and Easter terms, the Commission being the authority for administering the Regulations, the Director of Education administering the moneys in accordance with the provisions of the Regulations and the requirements of the Commission. The Commission is required to establish a List of Schools recognised by it as efficient under the Regulations, the List

to include the Schools on the Grant List and Schools not eligible or not applying for grants but which apply for recognition and which the Commission determines to be efficient upon inspection. £8,000 was voted for the financial year 1924-25.

The Regulations for Grants-in-aid were converted into Law 31 of 1924.

#### ELEMENTARY EDUCATION.

Elementary education for the people cannot be said to have existed in Jamaica prior to Emancipation in 1834. For five years subsequent to complete emancipation £30,000 a year was granted by the British Parliament to Jamaica for education, and for five years longer the grant was continued on a diminishing scale. There was for a short time great enthusiasm amongst the people, but the schools established being of a very inferior character the results did not fulfil their expectations and the enthusiasm gave place to entire indifference. Although there was a Board of Education appointed by the Government in 1845, replaced subsequently by a Board of Public Examiners which existed from 1860 to 1864 this state of affairs—owing in great measure to lack of financial support—may be said to have lasted until when Mr. Savage was appointed Inspector of Schools, and, with the active co-operation of the Governor, Sir John Peter Grant, elaborated and established the system which was the foundation of that in force for many years. In that year there were in the Island 490 schools (of which 289 received Government assistance) with an attendance of 18,850. Advance from this time on was rapid.

In 1885 a Commission was appointed to consider and report what changes were necessary to be made in the system of elementary education in the colony. This Commission reported in 1886, but it was not till 1892 that two laws were passed by the Legislative Council giving effect to some of its recommendations. The first of these provided for the creation of a Central Board, to be presided over by the Head of the Education Department, the functions of which would be mainly advisory, but without the recommendation of which no new school should receive aid, nor any change be made in the code of Regulations. Fees were abolished, a special grant made in lieu thereof, and provision made for the enactment by the Governor, in his discretion, on the recommendation of the Board, on or after the 1st January, 1895, of compulsory attendance at elementary schools in such towns or districts as he might designate; for the establishment of small scholarships to assist needy scholars from the elementary schools to obtain higher education in the Secondary Schools; and for the enforcement of a conscience clause. At the same time provisions were also made for the gradual reduction of the limits of age of children in elementary schools from 5-16 to 6-14. The Code then in force was to remain so, until altered on the recommendation of the Board.

Together with the passing of these measures and largely as a result of the abolition of school fees, another wave of educational enthusiasm passed over the island. The reduction of the limits of age did not at once take effect, and the enrolment and attendance at elementary schools went up almost at a bound. Number on books 1895, 104,149; average attendance 1894, 64,695. The reaction, powerfully assisted by the gradual putting into force of the reduction in age limits, at once set in, and in spite of the increase in the population, the figures dropped to 86,491 and 50,978 in 1900. From this time attendance has gradually improved, and in 1903 there was every indication of a rapid increase, but the cyclone in August of that year dealt a blow to the schools from which they did not recover for two or three years and the recovery was checked by the earthquake in 1907. The attendance in the year following the cyclone fell to 50,612 below that for 1900. In 1915-16 it reached 65,302.

In December, 1897, in accordance with a resolution of the Legislative Council, another Commission was appointed, similar in purpose to that of 1885. The Commission consisted of His Honour Mr. Justice Lumb, LL.D. (Chairman), the Most Rev. Archbishop Nuttall, D.D., the Rt. Rev. Bishop Gordon, D.D., two Members of the Legislative Council, viz:—the Hon. D. S. Gideon and the Hon. Jas. Johnston, M.D.—and the Rev. Wm. Gillies, D.D. The Commission held in Kingston and other parts of the island 46 public meetings and examined 277 witnesses, and in November, 1898, presented its report accompanied with the evidence it had taken. The Legislative Council at its session in 1899 passed an amending Education Law, and there was a further amendment of the Code, in both of which were embodied, with modifications, some important features of the report, including some change in the powers and duties of the Board of Education, provision for the closing of schools and amalgamation of schools, change in school age and special provision for Infant Schools with a view to Kindergarten teaching. The Board of Education having approved of other recommendations in the Report to wit:—that no new elementary school recognized by Government should be denominational;

that both in training Colleges and in Elementary Schools increased and special attention should be given to agriculture and manual training; and that for the majority of students in Training Colleges a course of two years of training should be provided instead of three; these recommendations were introduced into the Code and came into force as provided by the Law, during the session of the Legislative Council in 1900. The period of training for students is now ordinarily three years.

The recommendation in the Report of the Commission that schools found to be unnecessary should be closed, and that other schools should be amalgamated, where economy and efficiency could thereby be promoted, was at once carried into effect to a considerable extent, with the result that on the 1st of January, 1900, there were 757 Elementary Schools, including Infant Schools, receiving Government grants.

The Board of Education has met regularly since its appointment, and was, for the first six months, through its Standing Committee and Sub-Committees, constantly at work revising the Code. The Revised Code was finally submitted to His Excellency the Governor in February, 1893, and was approved in Privy Council in July of the same year. Subsequent revisions were approved in 1895, 1899, 1900, 1902, 1911, 1920 and 1921. The chief provisions of the Code are given below. The following are the latest statistics:—

Year.	Number of Schools.	Scholars enrolled on Books.	Scholars in Average Attendance.	Government Grants, including Building Grants.
1922-23 ..	692	101,333	61,423	106,305
1923-24 ..	685	114,592	69,368	109,854
1924-25 ..	684	113,293	68,408	113,709

The following shows the state of education in the Island at the dates of the taking of the Census in 1891, 1911 and 1921:—

	1891.	1911.	1921.
Can Read and Write ..	177,795	338,263	389,376
Can Read only ..	114,493	108,515	65,657

Attending School ..	99,769	125,496	..
Total Population ..	639,491	831,383	858,118

No child is allowed to be admitted into any public elementary school under seven years of age or to be retained after completing his fifteenth year, except that with the special sanction of the Inspector a limited number of children may be given an extra year at school and serve as monitors. In Infant Schools the limit of age is from 4 to 8 years.

Public elementary schools are inspected and examined by Inspectors and Assistant Inspectors of Schools, and the scholars are examined in the prescribed subjects.

#### COURSE OF STUDY AND STANDARDS OF CLASSIFICATION.

The scholars in all schools on the Annual Grant List are classified according to standards. Previous to the revision of the code in 1920 the schools were ranked in three classes, according to the number of marks awarded to them at the annual inspections, when the results achieved during the year were measured. Speaking generally schools with 56 marks or over were first class; with 44 marks or over but under 56 second class, and with 32 marks or over but under 44 third class; provided that in each case the prescribed proportion of marks was obtained in each of the chief elementary subjects.

Grants are now made by the Government, based on the average attendance, the schools being placed in grades according to size and salaries with annual increments fixed for each grade for Head Teachers, who are also graded according to qualifications and length of service. Salaries of Assistant Teachers are also provided on a fixed scale with increments, depending upon qualifications and experience. The payments to Pupil Teachers depend upon their qualifications. Special Grants are paid for Advanced Manual Training where taught and for sewing in schools which have no woman teacher on the staff, also for School Appliances and equipment. The average attendance on which grants are made

is the mean of the average attendances of the three preceding calendar years, and for the average attendance of each year the best 288 sessions only are taken.

Any person who pays a fee of 5s. may be examined with the Pupil Teachers of any year and is informed of the results of his examination: a fee of 2/6 is paid for the preliminary examination which is largely taken by pupils still in attendance at Elementary Schools. In July, 1925, 331 Pupil Teachers and 3,530 other candidates presented themselves for examination.

Annual building grants of £1,500 were given from 1867 to 1896, inclusive, and £500 was voted in 1897, 1900 and 1901, £250 in 1902, and £500 in 1903. No building grant was voted in 1898 or 1899. In 1910 the sum of £1,000 was voted, in 1911 £2,000 in 1912 £4,000, in 1913 £500, in 1914 £250, none in 1915 or 1916, in 1917 £500, in 1918 £614, in 1919 £614, in 1920 £2,500, in 1921 £2,000, and in 1922 £1,500.

After the disastrous cyclone in 1903 a special sum of £3,000 was voted for the rebuilding and repair of school buildings destroyed or injured by the storm, and as not much of this could be spent before the end of the financial year the remainder was reprovided in 1904. A further sum of £3,000 was voted in 1905.

In 1908 £3,000 was voted for repairing schools damaged or destroyed by the earthquake of the 14th January, 1907. In 1909 £800 was voted as a distress grant for the assistance of schools in the districts afflicted by the drought of the two previous years. In 1910 £1,000 was voted for restoring and improving the schools in Kingston, and in 1911 funds were again made available for the same purpose.

After the hurricane of November 1912, the sum of £250 was voted for providing temporary accommodation at schools destroyed (chiefly in the three western parishes) and £3,000 for grants to voluntary schools damaged or destroyed. Out of 126 school houses in St. James, Hanover and Westmoreland, 57 were completely destroyed and 41 more or less seriously damaged in this disaster, and 19 teacher's houses were destroyed and 26 damaged. In addition to the money voted as above £1,300 was made available to complete the restoration of the voluntary schools in the Estimates for 1913-14. Opportunity has been taken to replace many of the voluntary schools with Government Schools where more central situations which rendered amalgamation practicable could be found. Altogether the sum of £14,000 was voted for school buildings for the year 1913-14 apart from the ordinary building grants and £5,000 for the year, 1914-15.

In August, 1915, the Government school at Port Maria was destroyed by wind and sea. £600 was voted for a new building and the Legislative Council approved of the expenditure of £1,500 for the repair of damage caused by the hurricane of the 15th August, 1916, to school buildings and teachers' houses. A hurricane on the 23rd September, 1917, destroyed a large number of schools and teachers' houses especially in Portland and St. Thomas £2,767 10s. 0d. was paid for rebuilding.

The control of the Elementary Schools is as follows:—

Government, 109; Church of England, 180; Baptist, 118; Wesleyan, 77; Moravian, 57; Church of Scotland, 6; Presbyterian, 50; Congregational, 22; Methodist, 10; American Missionary, 5; Roman Catholic, 31; Society of Friends, 3; Undenominational, 18; Government (for East Indian children) 4. According to parishes they are divided as follows:—

Kingston 31; St. Andrew 45; St. Thomas 32; Portland 44; St. Mary 61; St. Ann 59; Trelawny 27; St. James 33; Hanover 34; Westmoreland 52; St. Elizabeth 71; Manchester 65; Clarendon 65; St. Catherine 71.

By an Order in Privy Council dated August 21st, 1923, school attendance was made compulsory as from September 1st, 1923, between the ages of eight and fourteen within the districts of Kingston, Halfway Tree, Port Antonio, Brown's Town, Falmouth, Lucea, Sav-la-Mar, Black River, Porus, Spanish Town, Montego Bay, Port Maria, Morant Bay and May Pen. The regulations on the subject of Compulsory School Attendance under Section 18 (3) of Law 31 of 1892, and the names of the members of the Kingston, Falmouth, and Lucea School Boards first appointed by the Governor were printed in the Handbook of Jamaica for 1911. In March, 1914, a Law consolidating and amending the laws relating to Elementary Education was passed.

The following duties are assigned to these Boards by the Board of Education.

- (a) To consider and advise the Board of Education upon any matters connected with the working of Public Elementary Schools in the parish, and particularly, any such matters as may from time to time be referred to it by the Education Department or the Board of Education.
- (b) To make recommendations to the Board of Education with regard to the establishment of new schools, Infant Schools or Departments, Continuation Schools and Manual Training Schools or Centres, the closing or amalgamation of Elementary Schools, and generally with regard to the better working of the schools of the parish.
- (c) To make By-Laws, for the conduct of the business of the Board and the regulation of its proceedings in accordance with Section 9 of Law 3 of 1910.
- (d) To make recommendations to the Board of Education as to the introduction of compulsion in any part of the parish, and local regulations concerning the same.
- (e) To be the Board of Appeal in connection with the appointment or dismissal of Attendance Officers.
- (f) To supervise the general working of the Government Schools in the parish, and to act as a Board of Appeal from District School Boards in cases affecting teachers employed in or scholars attending Government Schools in the parish, which within the provisions of the Code admit of such appeal.
- (g) With reference to Voluntary Schools, to consider summaries of the results of Annual Inspections of such schools which shall be forwarded by the Education Department, with a view to the general improvement of the schools in the parish. These reports may, if thought necessary, be sent down by the Parish School Board to the District School Boards for their opinions or suggestions; but all recommendations based upon the consideration of such reports shall in due course be addressed by the Parish School Board to the Department and not to the Managers of such Schools.
- (h) To receive and consider reports from the District School Boards as to the buildings and accommodation, equipment and furnishing, and the staffing of such Schools, and make recommendation to the Department thereupon.
- (i) To negotiate with the Managers of Voluntary Schools when the transfer of such schools from the class of Voluntary Schools to that of Government Schools is offered, with the concurrence of the authorities of the Denomination with which such school is connected. Such transfer shall be made only with the consent of the Education Department and of the Board of Education.

And it is declared that the foregoing provisions may from time to time be repealed, altered or varied by the Board of Education with the approval of the Governor.

 St. Dorothy and St. John—*Chairman*, A. A. Melhado, *Vice-Chairman*, Mrs. V. E. L. Verley, *Secretary*, Rev. S. I. Moodie, Old Harbour P.O.

The Board of Education, with the approval of the Governor, assigned and delegated to each District School Board the following duties and powers in respect of educational matters:—

- (a) To manage all the Government Schools in the District. One member of the Board shall be the Correspondent for each Government School. The same member may act as Correspondent for more than one school. By management shall be meant all those duties which are set forth in Arts. 7, 7a, 7b, 8, 9, 30c, and 38 of the Code of Regulations of the Education Department.
- (b) To appoint from their number or otherwise one or more Visitors for each Government School (Code Art. 6) in the District, who will report to the District School Board (for further report to the Parish School Board if desirable) as to the condition and state of repair of the buildings, sanitary conditions, sufficiency of size in view of average attendance, appliances and fittings; and on such other particulars as are referred to in Art. 7 of the Code.
- (c) To perform such duties as the Parish School Board may from time to time specially delegate to it, and to carry out such orders as the Parish School Board may lawfully issue, and particularly those duties provided for in these Regulations.
- (d) To appoint from their number or otherwise one person acceptable to the Corresponding Manager of a Voluntary School in the District to be a Visitor of such schools: who shall report to the District School Board (for further report to the Parish School Board if desirable) as to the condition and state of repair of the buildings, sanitary condition, sufficiency of size in view of average attendance, appliances and fittings.

(e) In all cases where a building grant is asked for the District School Board is to be consulted, through the Parish School Board, before the grant is allotted.

When a District School Board has by any Order made under Section 18 of Law 31 of 1892 (and Section 5 of Law 35 of 1912) been named as the Authority to enforce compliance with the Order such District School Board may appoint an Attendance Officer or Officers. Such Officers shall be subject to the control and direction of the District School Board and may, subject to the approval of the Parish School Board, be dismissed by it at any time. They shall receive such remuneration as may be fixed by the Governor on the recommendation of the District School Board forwarded through the Board of Education.

### TRAINING COLLEGES.

The following means are also employed by the Government to promote Elementary Education:—

1. 40 students are supported at the Mico Training College in Kingston who are being trained as schoolmasters. In addition to the number supported by the Government there are 20 students on the original foundation supported by the Mico Trustees in England. The Trustees, having closed the Mico College in Antigua, now provide also for training 6 students from Antigua at the Mico College in Jamaica and 6 students are received for a two years' course from the Government of British Guiana.
2. A Training College is maintained at Shortwood, in St. Andrew, for women, in which 54 students are under training for the work of school-keeping. Six students are also received for a two years' course from the Government of British Guiana.
3. Provision is made for the payment of grants to the managers of certain voluntary Training Colleges for a specified number of resident students under training, and of an additional grant for every student, resident or non-resident, who passes the yearly examination. Under this provision 23 women students are trained at Bethlehem, a Moravian College in the Santa Cruz Mountains, and 6 women students at St. Joseph's (Roman Catholic) College in Kingston.

There are also regulations providing for an annual examination of students in Training Colleges and of teachers of Elementary Schools with a view to the granting of Certificates after a period of four years probationary work in school to those who are successful.

The number of Certified Teachers is about 500.

Between 1900 and 1912 eleven courses of lectures on Agricultural Science and Practical Agriculture were delivered in Kingston and the Santa Cruz Mountains, at which about 562 teachers were present: a few have attended more than one course. A short course of lectures in Domestic Economy was added in 1911. Great interest has been evinced by the teachers in these courses. There are now nearly 500 School Gardens many of which receive visits from Agricultural Instructors as well as from the Inspectors of Schools. In 1913 a course of lectures in domestic training, (viz., cookery and laundry) was begun at the Kingston Technical School, and two courses in Kindergarten method for training college students and one course for teachers were held in connection with the Government Infant School.

### BOARD OF EDUCATION.

The Board of Education was constituted under Law 31 of 1892.

The Board's functions are—

To consider and advise upon any matters connected with the working of Public Elementary Schools in Jamaica, particularly:—

- (1) Any such matters as may from time to time be referred to it by the Governor;
- (2) Any changes in the Code that it may think desirable to be made or that may be referred to it by the Governor;
- (3) Any changes that may be necessary for the working of compulsory attendance when brought into force;
- (4) The establishment of new schools, and the closing of or withdrawal of assistance from superfluous, unnecessary or inefficient schools;
- (5) Any changes in the Education Laws it may consider advisable to be made.

It is also provided that when alterations are made in the Code, "all such alterations shall either have been recommended by the Board of Education or shall have been submitted to that Board for its consideration and advice."

### MICO TRAINING COLLEGE.

INSTITUTIONS and Schools under the Lady Mico Charity were founded in the year 1834 by the late Sir Thomas Fowell Buxton. The idea was to afford the benefit of education and training to the black and coloured population of this and the other West India Islands, as well as to train out of this population Teachers for their own Schools and the Schools of all denominations of Christians.

Training institutions were established in Jamaica and Antigua; and schools in Trinidad, Demerara, Bahamas, St. Lucia, Mauritius, and the Seychelle Islands. Of these the Training College in Jamaica alone remains.

The origin of the Charity is as follows:—

Jane Mico, widow of Sir Samuel Mico, Knt., of London, a member of the Mercers Company, who died in 1666, bequeathed the sum of £1,000 "to redeem poor slaves." This money was invested by direction of the Court of Chancery in certain London properties which were conveyed to Lady Mico's executors.

The original sum towards the middle of the 19th century increased to £120,000, and in 1834 Sir Thomas Fowell Buxton conceived that the interest of the money might be legitimately applied to the Christian instruction of the children of West Indians, a purpose as charitable as that for which the money was originally left. A charter was obtained, and the British Government added a grant of £17,000 per annum for five years. The system adopted from the commencement was liberal, comprehensive and undenominational in schools and training colleges.

The original Trustees were:—

James Gibson, The Rt. Hon. Stephen Lushington, D.C.L., Sir Thomas Fowell Buxton, Bart., Thomas Richard Warren, Q.C., John Gurney Hoare, John Elliott Drinkwater Bethune. The present Trustees are:—

Alfred Fowell Buxton, *Chairman*, Sir Samuel John Gurney Hoare, Bart., *Treasurer*; Eliot Howard, Henry Fowell Buxton, Miss Susan Lushington. Brig.-General Stephen Lushington; *Secretary*, John Barnett, 114 North Station Road, Colchester.

The institution in this island belonging to the Charity was for many years situated in Hanover Street, in Kingston, and consisted of a training college for 65 students and a school for 120 scholars. In the year 1894, however, these premises were sold to the Government for a graded elementary school, and the Trustees purchased Quebec Lodge at the north of the race course where they erected a spacious set of buildings at a cost of over £12,000. The college was wrecked by the earthquake of 1907, and was rebuilt. It was destroyed by fire in February, 1910, and again rebuilt in 1911.

The expenditure of the training college and school is about £5,294 per annum. Of this sum £2,250 is allowed by the Local Government for training forty teachers, and the day schools earn upwards of £800 per annum from the Government.

Students are admitted once a year, after a competitive examination, by a selection committee. They remain three years, go out as teachers in elementary schools on the completion of their college course and are under bond to teach for six years. During residence they receive free teaching, board, lodging and medical attendance. Each student pays an entrance fee: First year £10. Second year £7 10/. Third year £7 10/. There are now sixty-four students in residence, including two students from Demerara, one from Grand Cayman and one from Nicaragua.

The objects for which the institution was originally founded are being more and more realized. Its benefits are not confined to the people of any creed, class or colour. It holds out its advantages to all.

The practising schools in connection with this institution occupy a high place among the first class elementary schools of the island, and the results of the annual examinations of training colleges by the Education Department show that the Mico Training College, which is the largest school of its kind in the West Indies and the oldest training college for teachers in the Western Hemisphere, is also one of the foremost in respect of the attainments of the young men under training for the office of teacher in the elementary schools of the island.

A fully equipped workshop is fitted up for manual training, and the students receive instruction in practical agriculture from a visiting Instructor. There is a model school garden at the college.

The Governor of the island for the time being is the patron of the institution. It is locally managed by a Board of Directors consisting of fifteen clergymen and laymen, representing the various Protestant Churches.

### SHORTWOOD TRAINING COLLEGE FOR WOMEN TEACHERS.

This College was established in September, 1885, to meet the want, long and pressing felt, of a greater number of trained women teachers for the elementary schools of the island. Formerly under the management of a Board of Visitors consisting of ladies and gentlemen appointed by the Governor, it is now under a Board of Directors similarly constituted. The college is strictly undenominational; students are admitted after a competitive examination by a selecting committee which considers also (1) their position in the Pupil Teachers' List, and (2) the recommendation of responsible persons in the districts to which the girls belong. A fee of six pounds for each year of residence is charged. Students are boarded and lodged during the period of their training, subject to an undertaking on their part to teach in Jamaica elementary schools for six years at least.

The ordinary College course occupies two or three years, during which the instruction is in accordance with the schedule attached to the Government Rules for Training Colleges. The course of training includes the study of subjects generally taught in the public Elementary Schools and, in addition, History, practice in teaching and the management of a class and Domestic Economy, both theoretical and practical. In addition a limited number of students are received who undergo a course of training for domestic work only, extending over a period of not less than four terms.

Under the will of Michael Cuff Morgan, two scholarships of £9 a year each are held at this college, tenable for two years by two respectable poor girls of the parish of St. Elizabeth.

### MORAVIAN TRAINING COLLEGE FOR WOMEN, BETHLEHEM.

A SCHOOL for the training of female teachers for service in the day schools belonging to the Moravian Church was opened at Bethabara, in 1861, by the Rev. J. J. Seiler. It is now also made use of for the higher education of the daughters of the native Jamaica ministers and missionaries of the church. In 1885 the School was placed on the Government list of voluntary training colleges, in consequence of which the number of students was increased and the premises at Bethabara were found to be quite inadequate. New buildings were therefore erected by the Moravian Church at Bethlehem in the Santa Cruz Mountains, the school meanwhile being temporarily removed to Salem. The new school was opened in February, 1889. In the course of 1895 the building was considerably enlarged and improved. It has now accommodation for 30 students. The

Government granted 25 maintenance scholarships to the school for the current year. Boarders pay £32 annually. All students pay an entrance fee of £7 10/.

*Principal*—Rev. S. C. Ashton, Bethlehem, Malvern.

*Teachers*—Miss Mornan, Miss Litzenberg, Miss Ashton.

### GOVERNMENT CONTINUATION TECHNICAL AND COMMERCIAL SCHOOL, KINGSTON.

THIS school takes the place of the Manual Training School which was established by the Government in January, 1896, as a "model school" and for the purpose of introducing a system of "hand and eye training" into the schools of the island.

Until the earthquake in 1907, the Manual Training School was situated in Hanover Street, Kingston, in premises formerly occupied by the Mico Training College. It included three departments,—Kindergarten, Boys and Girls—having accommodation for 500 pupils and a fully equipped manual training room. After the earthquake the boys' school was removed to new quarters in the Elletson Road, and in September 1911 the present school was opened in reconstructed buildings at 82 Hanover Street. The manual training and technical work which was at first carried on temporarily in the old Treasury buildings in Harbour Street, was transferred to Hanover Street in 1913: it now includes metal work and a plant of electrically driven woodworking machinery.

The chief purpose of the school is to extend the education given in the ordinary Public Elementary Schools of the Island and to provide special vocational training—Technical and Commercial for boys, and Domestic and Commercial for girls. Day and Evening Classes are held. The school also provides Manual Instruction (Woodwork and Metal work) for boys and Domestic Instruction (Cookery, Laundry, etc.) for girls for selected pupils from the Public Elementary Schools in Kingston. Nearly one thousand pupils are in attendance.

The Principal, in addition to controlling the work of the school, conducts classes for the instruction of teachers in Manual Training and, as Organising Inspector of Manual Training, supervises and examines the work of the other Manual Training Centres in the Island.

The Technical School is affiliated with the City and Guilds of London Institute, and many local teachers, having been trained in the school, have gained the full Teachers' Diploma of the Institute for Manual Training (woodwork).

The centres for advanced Manual Training, working in connection with the school, are situated respectively at:—Mico Training College, Mandeville, Porus, Lucea, Falmouth, Port Antonio, Brown's Town, Montego Bay, Old Harbour, Savanna-la-Mar and Spanish Town. Facilities for this advanced manual training are gradually to be established at all the town centres in the island.

The school is under the control of a Board of Management appointed by the Governor.

### EXAMINATIONS.

#### UNIVERSITY OF LONDON EXAMINATIONS.

Correspondence relating to Examinations in Jamaica is conducted directly between the University and the Jamaica Schools Commission, and all applications as well as requests for fuller information must be made to the Secretary of the Commission.

Examinations for Matriculation and for the Degrees of B.D., B.A., LL.B. and B.Sc.

are appointed by the Senate from time to time, upon the application of the Commission, desiring that Kingston may be constituted a centre. The Examinations are held on the same dates as the corresponding Examinations in London.

The Examinations of the University are held in or commence in the months stated—the Matriculation in January and June; the Intermediate Examination in Arts and the Intermediate Examination in Science in July; the Intermediate Examination in Divinity in June; the Intermediate Examination in Laws in September. The Final Examinations in Arts and in Science commence about the middle of June, and those in Laws and Economics one week later. The M.A. Examination begins in the last week in May.

Applications to sit must reach London three months before the Examination begins and must be in the hands of the Secretary of the Jamaica Schools Commission four months before the holding of the Examination. They must be accompanied by vouchers showing that the fees have been lodged in the Colonial Bank to the credit of the Jamaica Schools Commission, University of London Account. In the case of Matriculation a birth certificate and a certificate of good conduct must be enclosed. Applicants must also give a list of the subjects in which they intend to present themselves for examination, chosen according to the Regulations. For the B.D. Honours Examination applications must reach London not later than the 14th February preceding the Examination. They must therefore be in the hands of the Secretary of the Commission by the end of the previous

#### UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS.

The University of Cambridge Local Examinations were held in Jamaica for the first time in December, 1882, the Governors of the Institute of Jamaica taking the necessary steps to establish a Local Centre. At the outset none but Senior and Junior Candidates were presented, but in 1895 the Preliminary Local Examination was introduced: the Higher Local Examination was held for the first time in 1901, and the Higher School Certificate Examination, (on the results of which the Jamaica Scholarship and the £60 Scholarship are awarded), in July, 1919. The Higher Local Examination has now been discontinued and the Examination formerly known as the Senior Local Examination is now known as the School Certificate Examination.

The examination of Junior and School Certificate candidates is now held every December and July. The Preliminary Examination, which has been discontinued in England, is held in December only and the Higher School Certificate Examination in July only.

The School Certificate Examination, is intended to be a test of general education for pupils in a form of the average age of 16-16½ years before they begin to specialise in any particular branch of study. It is hoped that, for the examination as designed, whole forms may be sent in rather than selected candidates.

The Higher School Certificate Examination is designed to test the work of students whose age is about 18, and who have as a rule given about two years' study mainly but not exclusively to some definite group of subjects.

In December, 1924, there were Centres at Kingston (Boys and Girls), Jamaica College, Wolmer's (Boys and Girls) Calabar High School, St. George's College, Lucea, Montego Bay (Boys and Girls), Sav-la-Mar, Brown's Town, Port Antonio, Westwood, Spanish Town and Mandeville. For the School Certificate and Junior Examinations 440 Candidates entered; 27 passed in Honours, 261 not in Honours.

In July, 1925, there were centres at Kingston, Calabar High School, Munro College, Hampton and Happy Grove.

The fees are as follows:—Higher School Certificate, University, £3; Local 8s.=£3 8s.; School Certificate, University, £1 15s. 0d.; Local 7s.=£2 2s. 0d.; Junior, University, £1 5s.; Local 7s.=£1 12s. Preliminary, University, 15s. Local 5s.=£1. "Over age" candidates pay an extra Local fee of 1/. Late fee, University, 5/; Local 1s.=6s.

Arrangements for conducting these examinations are now made by the Cambridge Local Examinations Committee of which body Mr. W. H. Mitchell, M.A., Education Office, Kingston, is the Honorary Secretary.

## EXAMINATIONS IN MUSIC.

In April, 1908, the examinations of the Associated Board of the Royal Academy of Music and the Royal College of Music, of London, England, for local examinations in Music in the British Empire, were held for the first time in Jamaica.

The examinations of the Associated Board are as follows:—

*1st School Examinations:* (a) for individual certificates (to which students receiving private tuition are also admitted) in four divisions, viz.: Primary, Elementary, Lower, and Higher; (b) A general school examination for a collective report on the teaching generally; (c) A class singing examination.

*2nd Local Centre Examinations:*—Intermediate, Advanced and Final grades for individual certificates.

*3rd Examinations for the Licentiatehip of the Associated Board,* (a) for teachers: (b) for solo performers of concert standard.

The colonial examinations, which are precisely similar to those held in the United Kingdom, are held in Australia, New Zealand, Canada and elsewhere.

As far back as 1896, the Board of Governors of the Institute of Jamaica, recognising that they were the highest form of musical examinations obtainable, commenced a correspondence having for its object the holding of the examinations of the Associated Board in Jamaica. Arrangements were made to hold the examinations in this colony in 1907, but the earthquake caused their postponement till 1908, when there were 78 candidates. Since then they have been held yearly.

The Board offers annually, to candidates in its Examinations in Jamaica, one Exhibition, entitling its holder to free tuition at the Royal Academy of Music, or the Royal College of Music, London, for two or possibly three years. The Exhibition is awarded on the recommendation of the Examiner to the candidate showing the greatest musical promise. Exhibitions were awarded in 1908, and yearly from 1915. There is no limit of age, but the Board may decline to award the Exhibition in any year in which, in its opinion, sufficient promise has not been shown by any candidate. The Board of Governors of the Institute of Jamaica offers a Prize of £12 to the best candidate in the Advanced and Final Grade Examinations combined.

In 1925, Dr. E. T. Sweeting, Mus. Doc., one of the Examiners of the Associated Board, conducted the Practical Examinations in pianoforte, violin and singing, at ten centres—Mandeville, Brown's Town, Westwood, Montego Bay (2), Hampton, Kingston (2), St. Andrew, and Lower St. Andrew, at which centres, with the exception of St. Andrew, Lower St. Andrew, one at Montego Bay and one in Kingston, and with the addition of Hector's River, the Theory Examinations were also held. As a result of the examination, 348 certificates, (4 Licentiate, 68 Local Centre and 276 Schools) were awarded, there being 182 failures (2 Licentiate, 53 Local Centre and 127 School).

The examinations will be held in March and April, 1926.

The Honorary Local Representative in Jamaica of the Associated Board is Mr. Frank Cundall, Institute of Jamaica.

## LICENTIATES OF THE ASSOCIATED BOARD.\*

## EXAMINATIONS IN DRAWING.

The examinations of the Royal Drawing Society (for the encouragement of the natural development of drawing as an integral part of general education) are held at certain schools in Jamaica. The examinations are held in June at schools of recognized standing which pay a fee of £1 ls. a year and in addition 6d. for each paper drawn upon in the examination. There are seven divisions of the examination, ranging from the

\* For Licentiates from 1910 to 1920 see the Handbook for 1925.

Preparatory to Division VI. The examination in Division VI. is in four different parts, including, painting, figure drawing, pictorial composition and decorative composition.

A full Honours Certificate is awarded to these candidates who obtain Honours in Divisions I, II, III, IV, V, and in *one* part of Division VI.

The general prospectus of the Society can be obtained by payment of 6d. from The Art Director, the Royal Drawing Society, 50 Queen Anne's Gate, Westminster, S.W., England.

The Illustrating Syllabus provides for examinations of six grades for more advanced student Candidates who have secured the full honours certificate of the Schools Examinations are excused from Divisions I and II of the Illustrating Syllabus.

An Exhibition of Work from Schools is held in London each Spring. Exhibits which have to be mounted must be forwarded in January.

## SCHOLARSHIPS.

GRANTED BY THE GOVERNMENT OF JAMAICA.

### I.—SCHOLARSHIP OF £60 PER ANNUM FOR THREE YEARS.

1. One Scholarship of £60 per annum, tenable for three years, shall be granted each year to the candidate in the University of Cambridge Higher School Certificate Examination.

- (a) Who was born in Jamaica, or of parents who were domiciled in Jamaica at the time of the candidate's birth, or have been domiciled in Jamaica for at least the five years next preceding the Examination;
- (b) Who has resided in Jamaica for at least the five years next preceding the Examination: provided that short absences from the Island on holiday trips, need not, at the discretion of the Governor, disqualify in this respect;
- (c) Who is not less than eighteen nor more than nineteen years of age on the 15th July in the year of examination: provided that candidates for the 1919 Scholarship who would have been eligible for the examination in December, 1918, had it been held under the previous regulations, shall be eligible for the 1919 Examination;
- (d) Who is shown to be of good and steady personal character;
- (e) Who has written on or before the 1st March in the year of examination, to the Director of Education, stating that he is a candidate for this scholarship, and transmitting satisfactory evidence that he has fulfilled all the foregoing requirements. Along with this application a certificate from a Registered Medical Practitioner approved by the Director of Education must be sent in as to the candidate's fitness to hold this scholarship; and
- (f) Who shall be reported to the Governor by the University of Cambridge Local Examinations Syndicate as the candidate most deserving of this scholarship among those who have submitted themselves to the examination for the Jamaica Scholarship (Boys) [see Jamaica Scholarship (Boys) Regulations I (f)] after excluding the winner, if any, of that scholarship and are eligible for and willing to take up this scholarship.

2. The Scholarship shall begin on the first of July in the year in which it is granted, or, with the special permission of the Governor on the recommendation of the Jamaica Schools Commission, in the following year. It shall be paid quarterly to the scholar on production of a certificate signed by the recognised authority of any efficient College or School in the Island of Jamaica in which he is prosecuting his studies, stating that such scholar is thoroughly well conducted and industrious, and that he is duly proceeding to the Examinations for some Degree of the University of London, or that he is following a course of useful study (approved of by the Jamaica Schools Commission) unconnected with London University, leading to a definite profession or occupation in an institution in which success is attested by recognised degrees, certificates, or diplomas. A Collegiate Institution or School shall be considered efficient for the purposes of this clause if the Jamaica Schools Commission is satisfied that sufficient provision has been made within the College or School for all tuition required to prepare the scholar for the Degree, Certificate or Diploma to which he declares his intention of proceeding. The Jamaica Schools Commission may, in any special case, to be considered on its merits, if it is satisfied that the necessary tuition for attaining any Degree, Certificate or Diploma approved of, cannot be obtained in Jamaica, waive the requirement that the Scholarship shall only be tenable at some

College or School in Jamaica, making in each case such alternative conditions as it may think fit.

3. No person shall, in any circumstances, be allowed to hold the Jamaica Scholarship or the Rhodes Scholarship and this Scholarship at the same time.

## II.—THE JAMAICA SCHOLARSHIP (BOYS).

1. A Scholarship of (i) £250 per annum, tenable for three years, or (ii) of £137 10s. per annum tenable for four years, or (iii) £150 per annum tenable for five years, at the option of the holder and the discretion of the Governor in Privy Council, will be granted each year to the candidate in the University of Cambridge Higher School Certificate Examination.

- (a) Who was born in Jamaica, or of parents who were domiciled in Jamaica at the time of the candidate's birth, or have been domiciled in Jamaica for at least five years next preceding the examination;
- (b) Who has resided in Jamaica for at least the five years next preceding the examination; provided that short absences from the island on holiday trips need not, at the discretion of the Governor, disqualify in this respect;
- (c) Who is not less than seventeen nor more than nineteen years of age on the 15th July in the year of examination.
- (d) Who is shown to be of good and steady personal character;
- (e) Who has written, on or before the 1st March in the year of examination, to the Director of Education, stating that he is a candidate for the Scholarship, and transmitting satisfactory evidence that he has fulfilled all the foregoing requirements. Along with this application a certificate from a Registered Medical Practitioner approved by the Director of Education must be sent in as to the candidate's fitness to hold the Scholarship; and
- (f) Who shall be reported to the Governor by the University of Cambridge Local Examinations Syndicate as the candidate most deserving of the Scholarship among those (after excluding any candidates who may be or who may have been elected to a Rhodes Scholarship) who have taken the prescribed examination which will be conducted (in Kingston only) in July of each year.

The provisions of this section as to the examination on which and the manner in which the Scholarship shall be awarded may be varied at any time by the Governor after not less than twelve month's notice, published in the Jamaica Gazette.

2. No person shall, in any circumstances be allowed to hold this Scholarship and a £60 Scholarship or a Rhodes Scholarship at the same time.

3. Candidates for the Scholarship must comply with all requirements of the University of Cambridge Local Examination Syndicate as to fees, forms, and date of entrance, &c., as to which information may be obtained from the Honorary Secretary of the Cambridge Local Examinations Committee.

4. The name of the successful candidate will be reported to the Governor by the Secretary of the University of Cambridge Local Examinations Syndicate through the Director of Education, and will be duly announced by him to such candidate, published in the Jamaica Gazette.

5. The successful candidate shall enter, not later than Michaelmas Term in the year in which the Scholarship is granted or, with the special permission of the Governor on the recommendation of the Jamaica Schools Commission, in the following year, as a student of one of the Universities of Great Britain or Ireland, or of any other University, Agricultural or Engineering College or other institution in the British Empire at which success is attested by recognized degrees, certificates, or diplomas in the pursuit of any course of useful study, to be approved by the Governor on the recommendation of the Jamaica Schools Commission.

If he enters any University or Institution in Great Britain or Ireland, he shall report himself in due course to the Director of Colonial Scholars, London,\* and he shall transmit to him quarterly a certificate signed by his College Tutor or other recognized authority, stating that he is thoroughly well conducted and industrious. Subject to the fulfilment of the conditions the scholar will be paid quarterly by the Crown Agents, for the Colonies, the Scholarship to commence on the 1st of July in the year in which it is granted.

If a Canadian Institution is selected and approved the scholar must transmit to the

\* P. Ezechiel, Esq., Office of Crown Agents for the Colonies, 4 Milbank, Westminster, London, S.W.

Colonial Secretary, Kingston, Jamaica, the required quarterly certificate in time for him to instruct the \*Government Agents in Canada to pay the instalment of the Scholarship due for that quarter.

Each scholar shall also transmit in the beginning of June in each year to the Secretary of the Jamaica Schools Commission, Kingston, Jamaica, a certificate signed by his Tutor or other authority as aforesaid, stating that he is making satisfactory progress in his studies and is proceeding towards the attainment of such degree, certificate or diploma, as may have been approved as aforesaid; and if he fails to obtain such certificate, or does not read for Honours, in the event of the authorities of his College deciding that he should do so, the Scholarship shall be withdrawn summarily.

6. In all cases of doubt, or questions arising in the Colony or in Great Britain as to the construction of the conditions under which the Scholarship is competed for, and the payments attached to the Scholarship are made, the Governor and the Secretary of State for the Colonies respectively shall have full power and authority finally to decide.

7. The provisions as to the examination on which and the manner in which Scholarships will be awarded may be varied at any time by the Governor in Privy Council and a copy of the Regulations in force at the time, setting forth the conditions on which Scholarships are awarded and held, shall be laid upon the table of the Legislative Council at the beginning of each Session; and may from time to time be amended in accordance with Resolutions of the Council, provided that no amendment shall come into force until twelve months from the date of its publication in the Jamaica Gazette.

NOTE—In special circumstances, at the discretion of the Governor, an advance not exceeding £30 may be made to the holder of the Scholarship to enable him to proceed abroad. The advance will be recoverable from the amount of the Scholarship.

### III —THE JAMAICA SCHOLARSHIP (GIRLS).

I. A Scholarship of £250 per annum beginning on the 1st of July in the year in which it is granted and tenable for three years, will be granted to the candidate in the University of London Matriculation Examination held in the preceding January.

- (a) who was born in Jamaica, or of parents who were domiciled in Jamaica at the time of the candidate's birth, or have been domiciled in Jamaica for at least the five years next preceding the examination;
- (b) who has resided in Jamaica for at least the five years next preceding the examination, provided that short absences from the Island on holiday trips need not, at the discretion of the Governor, disqualify in this respect;
- (c) who will be not less than eighteen or more than twenty years of age on the 1st October in the year in which the Scholarship commences;
- (d) who is shown to be of good and steady personal character;
- (e) who has written on or before the 1st April in the year preceding the award to the Director of Education stating (i) that she is a candidate for the Scholarship, (ii) the name of the University in Great Britain or Ireland or other Institution in the British Empire at which she propose to hold the Scholarship, at the same time transmitting (iii) satisfactory evidence that she has fulfilled the requirements mentioned in (a), (b), (c), (d) above. A form will be supplied by the Director of Education for this purpose. Along with this form (iv) a certificate from a Registered Medical Practitioner must be sent in as to the candidate's fitness to hold the Scholarship;
- (f) who shall pass the London Matriculation Examination in the First Division and be reported to the Governor by the Examining Body as the candidate most deserving of the Scholarship among those duly qualified as above.

2. Candidates for the Scholarship must comply with all the requirements of the University of London as regards fees, forms, date of entrance, etc., information as to which may be obtained from the Secretary of the Jamaica Schools Commission, Kingston. P.O. A local fee is also payable.

3. The successful candidate shall enter not later than the Michaelmas Term in the year of her election, or with the special permission of the Governor, on the recommendation of the Jamaica Schools Commission, in the following year, as a student in one of the Universities in Great Britain or Ireland or other Institution in the British Empire at which success is attested by recognised degrees, certificates, or diplomas in the pursuit of any course of useful study leading to a definite profession or occupation, to be approved by the Governor on the recommendation of the Jamaica Schools Commission.

If she enters any University or Institution in Great Britain or Ireland, she shall report:

\* At present Messrs. Hill & Co., 43 Scott Street, Toronto.

herself in due course to the Director of Colonial Scholars, \*London, and she shall transmit quarterly to him a certificate signed by her College Tutor or other recognised authority stating that she is thoroughly well conducted and industrious. Subject to the fulfilment of the conditions, the scholarship will be paid quarterly by the Crown Agents, the scholarship to commence on the 1st of July in the year in which it is granted.

If a Canadian Institution is selected and approved, the scholar must transmit to the Colonial Secretary, Kingston, Jamaica, the required certificate in time for him to instruct the Government Agents in Canada† to pay the instalment of the Scholarship due for that quarter.

The scholar shall also transmit in the beginning of June in each year to the Director of Education, Kingston, Jamaica, a certificate signed by her Tutor or other authority as aforesaid, stating that she is making satisfactory progress in her studies and is proceeding towards the attainment of such degree, a certificate or diploma as may have been approved as aforesaid, and if she fails to obtain such certificate, or does not read for Honours, in the event of the Authorities of the College deciding that she should do so, the Scholarship shall be withdrawn summarily.

In all cases of doubt, or questions arising in the Colony or in Great Britain as to the construction of the conditions under which the Scholarship is competed for and for the payments attached to the Scholarships are made, the Governor and the Secretary of State for the Colonies respectively shall have full power and authority finally to decide.

5. The provisions as to the examination and the manner in which the Scholarship shall be awarded may be varied at any time by the Governor in Privy Council, and the Regulations in force for the time being shall be laid on the table of the Legislative Council at the commencement of each Session and be liable to amendment in accordance with resolution of the Council provided that no amendment or alteration shall come into force until 12 months from the date of its publication in the Jamaica Gazette.

NOTE:—In special circumstances, at the discretion of the Governor, an advance, not exceeding £30 may be made to the holder of the Scholarship to enable her to proceed abroad. The advance will be recoverable from the amount of the Scholarship.

(PART OF LAW 34 OF 1914.)

The Legislative Council may by resolution on or before the 30th April in any year determine that any Scholarship established under this Law shall not be awarded for the year commencing on the first day of January next ensuing, and in that case such Scholarship shall not be awarded for such year, but such Resolution shall not affect any Scholarship previously awarded.

A copy of the Regulations in force at the time, setting forth the conditions on which Scholarships established under this Law are awarded, and held, shall be laid on the table of the Legislative Council at the opening of each Session; and may from time to time be amended in accordance with Resolution of the Council; provided that no amendment shall come into force until twelve months from the date of its adoption.

#### RHODES SCHOLARSHIPS.

UNDER the Will of the late Mr. Cecil Rhodes, a Scholarship of £400 a year, tenable for three years at Oxford University, is awarded each year in respect of this colony.

The terms of the Will are given in the Handbook for 1909.

\*P. Ezechiel, Esq., Office of Crown Agents for the Colonies, 4 Milbank, Westminster, London, S. W.

† At present Messrs. Hill & Co., 43 Scott St., Toronto.

‡ For previous winners 1881-1920, see previous Handbooks.

The Trustees of the Will of the late Mr. Cecil Rhodes issue from time to time a Memorandum for the information of educational authorities and intending candidates for Scholarships in Jamaica. Explanatory notes on the Memorandum are furnished by the local Committee of Selection. The Memorandum and notes on the Memorandum are obtainable on application to the Secretary of the Jamaica Schools Commission who is also Secretary to the Committee of Selection for Jamaica. Copies of the Memorandum can also be obtained from the offices of the Trust.

The Rhodes Trust, Seymour House,  
Waterloo Place,

London, S.W.1.

Candidates must have taken the examination prescribed for the Jamaica Scholarship (Boys) now the University of Cambridge Higher School Certificate Examination. A fee of one guinea must be paid.

The following are the conditions under which Candidates are eligible to compete:—

- (a) Candidates must be British subjects and unmarried.
- (b) The parents or recognised guardians of candidates must be actually domiciled in Jamaica, such domicile to include at least seven years' residence in Jamaica immediately preceding the election.
- (c) Candidates must have passed five years of their life, between the ages of 6 and 18 in Jamaica.
- (d) Candidates must have passed the Responsions Examination of the University of Oxford or its equivalent. An examination in Responsions is not held in Jamaica. The Committee of Selection is free to apply to candidates, or to any selected number of them, such further intellectual tests as they may consider necessary.
- (e) Candidates must be of such an age that they will have passed their nineteenth and not have passed their twenty-fifth birthday by October 1st of the year for which they are elected.
- (f) Every third year the selection of the Rhodes Scholar will be made from candidates who have lived in Jamaica for the whole of the seven years preceding the date of the selection. This restriction will apply to the years 1927, 1930, 1933, and so on. In the case of a candidate under this rule having been off the Island for the benefit of his health during this period, the Committee of Selection may decide, if they think fit, that this does not interfere with his eligibility.

*Committee of Selection.*

3. The Committee of Selection shall consist of:—

- His Excellency the Governor, or Officer administering the Government (Chairman).
- His Honour the Chief Justice.
- The Director of Education.
- The Chairman of the Jamaica Schools Commission.
- Hon. T. L. Roxburgh, C.M.G.

The first four members of the Committee hold their places *ex-officio*, and their places will be filled as vacancies occur, by their successors in office. The fifth member will be elected by co-optation, subject to the approval of the Rhodes Trustees, when a vacancy occurs. Three members of the Committee shall form a quorum. The Chairman shall have both an original and a casting vote in decisions made by the Committee.

7. The election must be completed in any year by November 25th. Candidates must send their applications with all the required material, to the Secretary of the Selection Committee for Jamaica, not later than June 20th.

*Principles governing the Selection of Scholars.*

1 The Trustees desire that the selection of Rhodes Scholars shall be carried out with careful regard to the definition of fitness given by Mr. Rhodes in his will, viz.:—

- (a) Ability and scholastic attainments.
  - (b) Force of character and capacity for leadership as shown by "manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness and fellowship."
  - (c) Physical vigour as shown by "fondness of and success in manly outdoor sports."
2. Mr. Rhodes wished his Scholars to be chosen especially for the possession of those mental and moral qualities which would be "likely in after-life to guide them to esteem the performance of public duties as their highest aim." He explained for the guidance of those who would have the choice of Scholars that his ideal Scholar would be charac-

terized by a strong combination of the first two sets of qualities. While he also desired that all his Scholars should have manliness and physical vigour, his main emphasis was laid upon intellectual and moral force, and he did not intend that his Scholars should be chosen for "athletic" pre-eminence in the narrower sense of that term. The Trustees hope that Committees will bear these wishes of the Founder most carefully in mind when determining the weight to be attached to the different qualities in each of the candidates who offer themselves for selection. Some distinction either of character or of intellect should be looked for, and close attention should be given to Mr. Rhodes' wish that the performance of public duties should be his Scholars' highest aim.

3. The Committee will summon to a personal interview such of the candidates as they choose. Save under exceptional circumstances, no candidate will be appointed without such an interview. Should the interview be dispensed with, a statement of the reasons will be forwarded to the Trustees.

4. Poverty does not give any special claim to a Scholarship. The Trustees desire that the strongest candidate be appointed, irrespective of his financial circumstances.

5. In the absence of strong candidates, the Trustees hope that Committees will make no appointment.

6. Committees are responsible for satisfying themselves, before nominating a candidate to a Scholarship, that he fulfils the conditions as regards age, domicile, academic qualification, etc. No exceptions to the age conditions can be admitted.

7. While candidates are eligible so long as they will not have passed their 25th birthday on October 1st of the year for which they are elected, this upper limit should be regarded as intended to cover exceptional cases. Normally, it is desirable that a candidate should be younger than this when he comes into residence—say 20 or 21 years of age.

The Secretary may give unofficial advice to a candidate, but the Committee of Selection can accept no responsibility in the matter.

The Scholar to go into residence in October, 1926 was selected in 1925.

### JAMAICA SCHOOLS COMMISSION.

THE Legislature in 1879 passed a Law (34 of 1879) creating a corporate body called the Jamaica Schools Commission: (1) to be the governing body for the management of a school to be called the Jamaica High School (now called Jamaica College) to be so conducted as to promote the higher education of the country, and (2) to have power to make visitations of endowed schools and to prepare and execute schemes for the reform of governing bodies and the better application of endowments for education throughout the island. The Schools Commission acts as the Board of Management of the Jamaica College, and exercises supervision over the other endowed schools of the island. By Law 7 of 1911 it controls Cornwall College, formerly called the Montego Bay Government Secondary School. It also advises the Government on matters connected with Secondary Education generally.

*Members*—Rt. Rev. G. C. F. deCarteret, D.D., *Chairman*, Ven. Archdeacon W. Simms, M.A., *Vice-Chairman*, P. J. O'L. Bradbury, M.A., Rev. E. Price, B.A., B.D., Hon. T. L. Roxburgh, C.M.G., C. A. H. Thomson, M.B., M.C. (Cantab.), Hon. A. G. Nash, B.Sc., F.R.S. (Edin.), V. E. Manton, LL.B., Major E. T. Dixon, M.A., *Secretary*, W. H. Mitchell, M.A.

### ENDOWED SCHOOLS.

#### JAMAICA COLLEGE. (*Hope*.)

PROVISION was made by Law 34 of 1879, for the establishment, under the control of the Jamaica Schools Commission, of a School to be called "The Jamaica High School," at which there should be provided a good liberal education.

Under this law "The Jamaica Free School" in St. Ann, and all funds and property

\* For Winners from 1904 to 1921, see previous Handbook for 1925.

thereof were absolutely vested in the Schools Commission, and are used for the purposes of the Jamaica College.

The School Buildings at Hope, in the parish of St. Andrew, about 5 miles from Kingston, on the car line, were opened by Sir Henry Norman, on the 9th of July, 1885. A College was opened in September, 1890, in connection with the School. By Law 26 of 1902, the Jamaica High School and University College were amalgamated under the name of the Jamaica College.

The Buildings were much damaged by the earthquake of 1907; they were repaired so that they could be used within a few weeks, and were completely restored during the following year with the help of a vote of £2,500 made by the Legislative Council in the session of 1907.

Additional Buildings—Science Laboratory, Assembly Hall, Class Rooms, Dormitory and School Chapel (a War Memorial)—were erected in 1908, 1913, 1922 and 1924 and the College Buildings now contain accommodation for the Head Master and his family, six other masters, four special Students and 150 pupils of whom 76 may be boarders.

The Jamaica College has an income, irrespective of fees, of £1,696 (£700 Government Grant, £996 Endowment), besides a Government grant of £500 for payment of debentures, and the sum awarded under the new scheme for Grants-in-Aid to Secondary Schools (in 1925-1926, £680 6s. 8d.)

Regulations for the management of the College have been framed by the Schools Commission, of which those of most general interest are the following:—

The College is open to all religious denominations.

*Scholars*—The College consists of the following classes of boys:—

- I.—Foundationers. (a) Drax scholars (ten in number), elected from the parish of St. Ann. (b) Foundationers other than Drax Scholars elected from parishes other than St. Ann, thirteen in number. II.—Holders of Endowed Schools Special Scholarships. III.—Paying Term Boarders. IV.—Paying Day Boys.

*Admission of Foundationers*.—Foundationers are elected by the Schools Commission subject to the results of an Examination and to their meeting certain requirements:—

1. Boys are eligible as Candidates for admission as Foundationers only in case of the inability of their parents to provide a liberal education for their children.
2. Their age must be between 9 and 13 on January 1st in the year in which their tenure of the Scholarship begins.

3. Satisfactory testimony must be furnished as to their good character.

*Special Scholarships from certain Endowed Schools*.—It has been deemed desirable that certain Endowed Schools, which do not provide advanced Secondary Education should found Scholarships to be held at the Jamaica College or some other School approved by the Commission, which does give such advanced education, by boys and girls entitled to enjoy the benefits of the said Local Endowed Schools. The general qualifications for competition for such Scholarships are fixed and the scholars are elected by the Local Trustees, provided that the boys or girls nominated by them must be prepared at least to pass such Examination as is required by boys coming in to the Jamaica College as paying boarders. At present there are no such scholarships provided, but the Vere Trust has offered Scholarships of £50 per annum, three of which are held in the Jamaica College.

*Exhibitions*.—The Schools Commission is prepared to grant exhibitions to paying terminal boarders either at admission, or, on the report of the Examiners and Head Master, to boys already in the School. Exhibitions are given as the reward of merit only, and vary in value according to merit and the financial resources at the disposal of the Commission.

*Entrance Examination of Paying Boarders*.—Those who come in between the ages of 9 and 11 are subject to an Examination of the same nature as that for Foundationers. Boys entering after the age of 12 years are subject to an examination which tests their ability to take a proper place in the school. Information on this point will be supplied to intending applicants by the Head Master.

*School Terms*.—The annual work of the School is divided into three Terms. The Lent Term commences on the third Wednesday in January in each year and, as a rule, ends on the Thursday preceding Easter Sunday. The Summer Term begins ten days after the end of the Lent Term and ends on the third Friday in July. The Christmas Term commences on the second Wednesday in September and ends on the Saturday on which the Cambridge Local Examination ends. In the event of any of these dates falling on a public holiday the Term commences or ends as the case may be on such day nearest thereto as may be most convenient.

**Payment for Scholars.**—Payments must be made in advance at the beginning of each Term. Term boarders pay at the rate of £18 6s. 8d. per Term if under twelve years of age. If over twelve years of age at the rate of £20 per term. Day Boys under twelve years of age pay for tuition and breakfast at the rate of £5 per Term; over 12 years at the rate of £6 per Term. Day Boys may have dinner with the boarders for £2 a Term. The charges of the School for the holders of Endowed School Scholarships are at a sum not exceeding £50 each per annum. The whole of this must in each case be paid by the Treasurer of the Endowed School to the Treasurer of the Jamaica College; but it will be a matter for local arrangement whether any portion of such charges be contributed to the Local Trustees by parents or guardians, or whether the Scholarships granted by Local Trustees shall be in all cases sufficient to cover the whole cost of £50.

**Secular Instruction.**—The School is divided into a Junior and a Senior School.

In the Junior School the subjects of Secular Instruction include the following subjects:—English, Latin, and French. Arithmetic and Mathematics, Geography and History, the elements of Natural Science, Drawing, Vocal Music, Drill.

In the Senior School the same subjects are continued and extended and in addition boys take such additional subjects as the Head Master may arrange, such as Greek, Commercial Subjects and Political Economy.

**Age at which Scholars leave the College.**—Foundations shall not remain in the school after the end of the calendar year in which they attain the age of sixteen years; and no boy shall remain in the school after the end of the year in which he attains the age of eighteen years except with the express permission of the Schools Commission, on the recommendation of the Head Master. The Commission, however, will be prepared, on the advice of the Head Master, to retain at the School any Foundationer showing marked ability or special diligence for such further period beyond the age of sixteen years as they may determine.

At the end of the Christmas Term of 1925 there were in the College 1 Special Student, 10 Drax Foundationers, 12 Open Foundationers, 56 Paying Boarders, 55 Day Boys making a total of 134.

All communications respecting Boys, or on school matters, should be addressed to "The Head Master, Jamaica College, Kingston;" letters on general business matters affecting the school should be addressed to "The Secretary of the Jamaica Schools Commission, Kingston."

**STAFF.** (1st Term 1926.)—*Head Master*—William Cowper, M.A., Pemb. Coll., Camb., Classical Tripos, Part I, 1886, Part II, 1887; *Second Master* (in charge of Mathematics), G. R. Gilmore, Trin. Col., Dub.; *Master in Charge of Science*—J. C. Sleggs, B.Sc., Liverpool; *Master in charge of French*—H. T. Millman, B.A.; *Master in charge of English*—P. A. Cooper, B.A., Sheffield; *Other Assistant Masters*—F. J. G. Fowler, University College, Exeter; H. C. W. Chambers, Jamaica College (Higher School Certificate); B. L. Virtue, (Mico College); *Music Mistress*—Miss Elsie Borough; *Visiting Teacher of Shorthand*—C. A. Warner; *Matron*—Mrs. L. Lee; *Medical Officer*—C. R. Edwards, M.R.C.S., L.R.C.P.

## WOLMER'S SCHOOLS.

(*Marescaux Road, Kingston.*)

THIS Trust was established in the year 1736 by an Act of the Island Legislature (9 Geo. II. cap. 6) to give effect to the bequest of John Wolmer, of Kingston, a goldsmith, who by will dated the 21st May, 1729, devised, after some small legacies mentioned therein, the rest and residue of his estate for the foundation of a Free School in the parish in which he should happen to die. The original sum was £2,300.

The School is now administered under the following scheme of the Schools Commission:

i. Trustees—Six Members of the Mayor and Council of Kingston elected from time to time, and five other persons nominated by the Schools Commission and appointed by the Governor, three of whom are required to be persons of position, and influence connected with Kingston, and the remaining two chosen for their scholastic attainment and experience. The Chairman and Vice-Chairman are elected annually by the Trustees: the quorum consists of 5, except in certain specified cases when it is reduced to 3.

ii. The funds and property are devoted to the maintenance of a modernized Grammar School, with mathematic, classical and commercial sides, and with additional special subjects suitable for girls. The head master and head mistress are appointed by the Trustees, and all other masters and mistresses are appointed by the trustees on the

recommendation of the head master and head mistress, respectively. The school consists of such number of foundationers as may be fixed in the by-laws, and of other scholars paying such fees as may be similarly fixed. The boys and girls who are eligible as foundationers are the children of inhabitants of Kingston who are not able to pay for such higher education; and "inhabitants of Kingston" are defined to be persons who have continuously lived in Kingston for not less than two years. The trustees are to arrange for such annual examination of the school as may be satisfactory to the Schools Commission, and they have power to appoint a Committee of Lady Visitors to the Girls' School. In addition a number of Open Scholarships are awarded annually.

iii. Religious teaching is given in all sections of the School, and it is required that this teaching shall aim at securing a knowledge of the leading facts in the Old and New Testaments, especially the history and teaching of the Lord Jesus Christ; but any scholar can be exempted from this on the written request of the parent.

There are three terms in the year. The first term begins on the fourth Monday after the Saturday in the Cambridge Local Examination week, so long as this Examination continues to be held in December, and ends on the Wednesday before Easter Sunday. The second term begins on the Thursday after Easter Sunday and ends on the second Thursday in July. The third term begins on the ninth Thursday after the close of the Summer term and ends on the Saturday of December before the Cambridge Local Examination week.

In 1908 a special law was passed empowering the trustees to move the school to the Quebec Lodge Lands, in the parish of St. Andrew, north of the Race Course. The new buildings were occupied for the first time for the first term of 1909. In December, 1925 there were 154 paying scholars, 44 free scholars and 10 exhibitors in the Boys' School, and 295 paying scholars, 39 foundationers and 3 exhibitors in the Girls' School.

TRUSTEES—Hon. Altamont E. DaCosta, M.B.E., Mayor, Kingston and St. Andrew Corporation; Alderman E. E. McLaughlin; Councillor W. A. Dillon; Hon. George Seymour-Seymour. *Appointed by the Governor on nomination of the Schools Commission*—R. W. Bryant, Esq., M.B.E., Chairman; Ven. Archdeacon Wm. Simms, M.A., Vice-Chairman, A. V. Kingdon, Rev. ### CALABAR HIGH SCHOOL.

(Chetolah Park, Kingston).

This school was opened on the 12th September, 1912. At first it was a simple endeavour on the part of the Baptist Denomination to extend the scope of Calabar College in order to provide education for the sons of its own Ministers. The scheme, however, was modified at the request of some parents outside the Baptist Churches who proposed to send their sons, if opportunity were afforded, and in response to this demand accommodation was provided for 20 boarders and 20 day boys. The preliminary prospectus set forth that an endeavour would be made to give a thoroughly modern education in a definitely religious atmosphere, with a view to earnest life in the professional or commercial world either in Jamaica or elsewhere, and that the whole aim of the school life would be to develop self-reliance, honour and courage, and to train boys to these by allowing them as much liberty as possible and by the introduction of self-government under the monitorial system. The school was soon full, and a demand for

further places led to an increase in the accommodation, until now there are over 140 boys in attendance, more than half of whom are boarders. In 1914 a chapel was added, which has in 1924 been enlarged, and a pipe organ has been installed.

All ordinary school subjects, English, Latin, Greek, Spanish, Mathematics, History, Hygiene, Geography, Woodwork and Drawing are taught, and the schools' curriculum each year is arranged in order to prepare for the Cambridge Local Examinations. The year begins in September. The fees are as follows—For Day-Boys, £12 per annum, for Boarders from £48 to £51 per annum. Books are charged extra.

The School is in no sense sectarian. Families of every branch of the Christian Church have their boys at the school; but parents who do not share the convictions of the Governors as to the importance of definite Christian instruction are not invited to send their children.

The School is recognised by the Jamaica Schools Commission under the 1920 regulation as a Secondary School of the First Class, and receives from the Government a grant-in-aid. It is also recognised by the Education Department as one at which its scholarships may be held. The Purcell Scholarships are tenable at Calabar only.

### MUNRO AND DICKENSON'S SCHOOLS.

ROBERT HUGH MUNRO, of the parish of St. Elizabeth, by his will dated 21st January, 1797, and a codicil of 23rd May, 1797, bequeathed the residue of his real and personal estate in certain contingencies in trust to his nephew, Caleb Dickenson, and the church wardens of the parish of St. Elizabeth, and their successors, to lay out the same in the endowment of a school to be erected and maintained in the said parish for the education of as many poor children of the parish as the funds might be sufficient to provide for and maintain; and if necessary, to apply to the Legislature for an Act for the regulation of the Charity and to carry out his intentions. The Trust maintains two schools situated in the Santa Cruz Mountains, viz.—Munro College and Hampton.

The income of the Trust is £1,400 4s. 7d. a year as perpetual annuity on the sum of £23,327 sunk under the provisions of the Act 28 Vic. cap. 23, and interest on island debentures to the extent of about £5,000. bought from annual savings since the Act 18 Vic. cap. 52, was passed.

TRUSTEES—*Ex-officio*—The Custodes of St. Elizabeth and Manchester; the Chairmen of the Parochial Boards of St. Elizabeth and Manchester. *Elected by the Parochial Boards*—R. G. Sinclair, R. D. Binns (St. Elizabeth); H. E. Lewis, (Manchester). *Appointed by the Governor*—Henry Maxwell, E. T. Forrest, Rev. John Maxwell, W. N. C. Farquharson, J. T. Calder. *Secretary*—F. B. Bowen.

### MUNRO COLLEGE.

MOTTO:—*In arce silam quis occultabit.*

IN 1918 the name of the School was changed from Potsdam (the name of the property when purchased by the Trustees) to Munro College.

Boys between the ages of 9 and 12 years who reside within the limits of the old parish of St. Elizabeth are eligible for admission to the school on the Free and £20 Foundation. There are also 5 vacancies on the £20 foundation tenable for boys from any other parish. Candidates for admission are examined in reading from the Fifth Standard Reading Book, dictation from the same, the first four rules of Arithmetic, Simple and Compound, the outlines of the Geography of Jamaica and Europe, the classifying of words under their parts of speech, and the leading facts of the Old and New Testaments. Boys between 11 and 12 years of age further examined in French and Latin Accidence and Vulgar Fractions, Practice, Proportion and Interest in Arithmetic; but failure in French and Latin will not qualify for election. Foundationers are required to leave the school on attaining the age of sixteen; but the Trustees may, with the advice of the Head Master, retain at the school any boy shewing marked ability or special diligence, for such further period beyond the age of 16 years as they may determine.

The buildings have been enlarged and accommodation provided for 10 boys who are educated and boarded free of charge, and 10 who are educated and boarded for £20 a year, together with about 120 paying boarders whose fees vary from £55 to £60 per annum. The course is adapted for boys preparing for the Universities, Civil Service, Oxford and Cambridge Local Examinations, and Business; it is calculated to combine a sound literary training with the requirements of a modern scientific education. In December, 1924, there were 10 Free Foundationers, 10 £20 Scholars and 85 paying full fees—making a total of 105.

### HAMPTON SCHOOL.

MOTTO:—*Summa virtute et humanitate.*

THE school is housed in fine buildings in the most bracing climate of the island. The buildings include a hall, class rooms, library, eleven music rooms and dormitory accommodation. A bungalow of nine rooms with a large verandah was completed in 1921; its chief use is that of a sanatorium. The buildings are surrounded by a large common and the provision for games includes a small hockey court, tennis courts and a badminton court. Large kitchens suitable for teaching domestic science have recently been built.

The curriculum includes Scripture, English, History, French, Latin, Mathematics, Natural Science, (including Botany, Geography and Hygiene) Music, Drawing and Handicrafts. The girls are prepared for entrance to the Universities, for all examinations of the Associated Board of the Royal Academy and Royal College of Music, and for the Examinations of the Royal Drawing Society.

Games, school singing, drill and gardening are encouraged, and cups are offered for the most successful house. Two silver medals, the Wolliscroft medal and the Farquharson medal, are offered annually to the School.

The fees for girls under 13 years of age are £45 a year; for girls over 13, £50 a year, exclusive of fees for Music Lessons and for advanced drawing and painting. The games subscription is 4/ a term, and the Library Subscription 2/ a term.

Calder, M.B., C.M., Edinburgh.

### CORNWALL COLLEGE.

THE School was opened in September, 1896, at the Barracks, Montego Bay, under the provisions of Law 32 of 1892 as the Montego Bay Secondary School. In 1911 Pleasant Hill was acquired, and eight years later Spring Hill Hotel buildings were added. At the present time there are 170 boys attending the school, 100 of whom are day boys and 70 boarders. In 1925 a new Physics Laboratory was erected at a cost of £600.

The School Curriculum provides for instruction in Divinity, Latin, English Language and Literature, French, Mathematics, Chemistry, Physics, Botany, Geology, Book-keeping, History, Geography and Hygiene. There is an advanced course in Science, and boys sit for the Cambridge Higher Certificate and the Cambridge Local Examinations.

School Fees are as follows:—Boarding Fees: £42 10s. Brothers, £39. Day Boys: £10 10s. Brothers, £9 10s.

## MANNING'S SCHOOL.

### *Savanna-la-Mar.*

THOMAS MANNING in 1710 left thirteen slaves with land and the produce of a pen at Burnt Savannah and cattle, to endow a Free School in the parish of Westmoreland.

It was incorporated in the year 1738, and since then has flourished in the town of Savanna-la-Mar, proving of great advantage to the inhabitants of Westmoreland and the neighbouring parishes.

In addition to the fees of paying scholars the income of the school consists of £471 3s. 3d. per annum being a perpetual annuity to the charity under the 28 Vict. c. 23 in lieu of £7,852 14s. 8d. appropriated by the Government.

In 1920 a Government Grant was given to such Secondary Schools as satisfied certain requirements. The main object of the grant was to increase the salaries of the members of the staff. Manning's School obtains about £170 annually by this means.

The grant is still being made

A new scheme was drawn up in the year 1897 by the Schools Commission for the future management of this school and was approved by the Governor in Privy Council under the 36th Section of Law 34 of 1879. The scheme which has since been amended provides for the maintenance of both a boys and a girls school furnishing a good middle class education up to Cambridge Local Examination standard. There are 32 boys and 35 girls in the schools.

By the by-laws it has been provided that 15 boys and 15 girls shall be on the foundation and shall be educated free of cost, 5 boys and 5 girls shall be elected on the same condition as the foundationers, but shall pay £4 per annum.

Paying scholars are received who pay £8 per annum, with a reduction to £6 in the case where two members of a family are in the school at the same time.

The Head Master and the First Mistress have authority to receive boarders on such financial terms as may be approved by the Trustees.

In 1897, a sub-centre for the Cambridge Local Examinations was established in connection with the school.

TRUSTEES.—*Ex-Officio*.—The Custos of Westmoreland (Hon. Hugh Clarke), *Chairman. Appointed by the Governor*—Rev. H. W. Cope, Rev. R. C. Young, M.A., B. A. Kirkham, Dr. C. E. Harvey. *Elected by the Parochial Board*.—Rev. S. A. Dell, Rev. O. Black, T. B. Goodin; *Secretary*, Aubrey L. Sloley.

TEACHING STAFF.—*Head Master*, R. H. Smith, M.A., Oxford; *Second Master*, A. C. Benjamin, Cambridge Higher Cert.; *First Mistress*, Miss C. Kelly Fraser; *Assistant Mistresses*, Miss V. Sloley, (Senior Cambridge), Mrs. R. H. Smith; *Drill Instructor*, A. C. Benjamin; *Assistant Sewing Mistress*, Mrs. C. Smith.

## RUSEA'S SCHOOL.

### *Lucea.*

MARTIN RUSEA, a French refugee, in grateful recollection of the hospitality manifested towards him on his arrival and settlement in the colony, left by his will dated 23rd July, 1764, all his real and personal estate, which afterwards realized £4,500 (£2,700 sterling), for the establishment of a free school in the parish of Hanover.

The devise was disputed; but in 1777, an Act was passed (18 Geo. 3 cap. 18) settling the Trust and establishing an undenominational school. The income from the endowment amounts to £270 per annum being a perpetual annuity secured to the charity under the Act 18 Vic. chap. 23.

Eight boys and eight girls are received on the free foundation, and the Trustees admit in addition, paying pupils at a maximum fee of £9 per annum. Only the children of persons belonging to the parish of Hanover are eligible as foundationers.

The school is now held in the Long Barracks, Lucea, where instruction is given to both boys and girls. There are excellent grounds for recreation surrounding the school premises which are situated in a most healthy locality. Organized games consist of cricket, football and tennis.

The curriculum includes Latin, Greek, French, Mathematics, Religious Knowledge, History, Hygiene, Geography with the usual English and commercial subjects, and pupils are prepared for the Cambridge local examinations. Instruction in manual occupation is also given.

The school year is divided into three terms, fees being payable (i) at the re-opening of the school in January; (ii) at the re-opening in April; (iii) at the re-opening of the school in September.

Boarders are received by the Head Master in his private residence.

The Fees for Tuition are as follows: £7 per annum, or £2 6s. 8d. per Term, for pupils in forms I and II; £9 per annum or £3 0s. 0d. per Term, for pupils in Form III and upwards.

When two or more members of the same family are in attendance, a reduction of £1 per annum is made on each pupil. The Fees for Board and Lodging are £11 per Term, for pupils under 12 years of age; £13 per Term, for pupils over 12.

*Trustees*—Hon. G. A. L. Sanficleben, *Chairman and Treasurer*; Rev. D. A. Rothnie, M.A., Rev. E. S. Harrison, D. W. Talbot, Rev. J. A. McIntosh, C. M. Jonas.

*Secretary*.—G. R. Levy.

## TITCHFIELD TRUST AND SCHOOL,

*Port Antonio.*

*SCHOOL MOTTO—Virtute et Eruditione.*

THE Titchfield Trust was established under the Act 26 Geo. III., cap. 7, by which 350 acres of land adjoining the town of Port Antonio, or Titchfield, were vested in certain Trustees for erecting a Free School and for creating a fund for its endowment and support. The school was in active operation from its foundation till 1855, when it got into difficulties, after which it was relieved by the Government, and in 1884 it was placed under the control of the Jamaica Schools Commission.

Under authority of Section 39 of Law 34 of 1879, schemes were drawn up and amended for the better management of the Trust School.

The school is managed locally, subject to the supervision and control of the Jamaica Schools Commission, by a Local Board of nine Managers, seven of whom are appointed by the Governor on the recommendation of the Schools Commission, and two are members of the Parochial Board of Portland, elected by the Board.

Under the scheme a Day School for boys and one for girls were established in 1886, under the Head Mastership of Mr. W. H. Plant, and there have since been added, an Infant Department, 1894, which is carried on on Kindergarten lines; a Secondary Department for boys and girls in 1897; and a Manual Training Department in 1902, with a fully equipped workshop, and a qualified master in charge.

In 1907 an amalgamation of the boys and the girls departments was effected.

The present Departments are: Secondary, Upper, Intermediate, Infant, and Boundbrook Infant School. All with co-education.

The Secondary School gives 17 Local Scholarships of £6 each, open to children of the parish of Portland.

The School is housed in the old Military Barracks at Fort George in Port Antonio which have been leased to the Commission by the Government. The attendance is above 800, and the buildings have become rather congested.

In 1904 a scheme was perfected by which the schools of the adjoining district, are affiliated to Titchfield, i.e., Norwich, St. Margaret's Bay, Fellowship, Nonsuch, Drapers, Boston, Sherwood Forest and Spring Bank.

In connection with the school there are two cricket clubs, a football club, a cadet corps, tennis and basket ball, and a miniature rifle club, a girls club and a club for present and past boys.

*Titchfield Lands.*

The Titchfield Lands of 300 acres, are now vested in and managed by Trustees partly ~~ex-officio~~ and partly appointed by the Governor. They are leased to various tenants.

## BECKFORD AND SMITH'S SCHOOL, SPANISH TOWN.

PETER BECKFORD, of the parish of St. Catherine, by his will dated 1730, bequeathed the sum of £1,000 towards the building of a free school or hospital for the poor. A further sum of £1,000 left by the same Peter Beckford was applied towards the same object. John Ellis bequeathed a sum of £200 towards the building of the school which was established in 1744 and remained open for many years as the "Free School of St. Jago de la Vega." Other bequests about the same date were made by Thomas Barrett (£40 per annum in 1742) and Mary Baldwin (£50 per annum in 1759.) In 1749 the Assembly voted £400 for repairing the premises, which were situated at the corner of Young and Beckford Streets, Spanish Town.

Francis Smith, by his will dated 1830, bequeathed £3,000 to the Bishop of Jamaica, the Custos and the Rector of the Parish, "to be invested in some institution permanently for the instruction of the poorer classes of all colours, free and slave, in the doctrines of the Church of England, and the promotion of industry." The school, known as Smith's Charity, and situated near the Cathedral was opened in 1833, but closed after a few years.

The amalgamation of the two schools was recommended by the Charity Commissioners in 1846 and was finally effected by legislation in 1869. The Beckford & Smith's School thus formed and placed under the direct control of the Governor in Privy Council, was opened in August, 1876. In 1895 it was the subject of a report made by the Schools Commission, who drew up rules for its management. The present scheme and By-Laws of the School were drawn up by the Schools Commission and approved by the Governor in Council in 1914. As the accommodation in the old school building became insufficient a part of the old Assembly Hall was handed over to the school and was opened in January, 1926. There are nine exhibitions open in the first place to boys of the parish of St. Catherine between the ages of 9–12. The fees per annum are £6 for boys under 10 years and £7 10s. for boys over 10 years of age and include a supply of school stationery. The school year is divided into three terms of about 13 weeks each, ending respectively

at Easter, the middle of July and Christmas. The Head Master is prepared to receive a limited number of boys as boarders in his private residence, the charge per term being £14 for boys under 14 years and £15 10s. 0d. for boys over 14 years. The school curriculum aims at keeping well above the minimum of what are considered to be the essential requirements of an up-to-date Secondary School. A thorough English Education is given with Latin, French, Spanish and Mathematics. Boys are prepared for the Cambridge Local Examinations and for professional or commercial life. Attention is given to physical exercises, games. There are 65 boys in the school.

**BOARD OF TRUSTEES**—*Ex-Officio*, The Chairman of the Parochial Board (W. N. Meeks) The Rector of the Parish Church (Rev. Canon Jones,) *Chairman*.

*Appointed by the Governor*—J. V. Leach, R. M., *Vice-chairman*—Rev. W. A. Tucker, C. F. Richards, A. A. Melhado.

### VERE SCHOOLS.

SEVERAL persons of the old parish of Vere, which included a part of the parish of Manchester, having made several charitable donations, consisting of lands, slaves and money for the use of the said parish without giving any particular directions or making any particular appointments touching the management or disposal of the proceeds of these gifts, an Act of the Island Legislature was passed in 1740 vesting the funds of the Charity in certain Trustees for the purpose of erecting buildings and endowing a Free School at the Alley in the then parish of Vere, for the education and maintenance of as many poor children as the Trustees might approve of.

A Secondary School at the Alley, Vere, which was established in 1908, was closed in 1917.

The funds and property vested in the Trustees of the district schools of Vere are at present appropriated towards supporting certain schools conducted as free elementary schools according to the provisions of the Elementary Education Law by such aid towards the up-keep of the buildings and by such other form of assistance as are provided by the by-laws. The schools thus maintained are those at the Alley, Portland, Race Course, Milk River, Hayes and Mitchell Town. The funds also provide scholarships for boys and girls at recognized secondary schools in Jamaica.

The Buildings and sufficient land for compounds at Portland and Milk River have been handed over to the Government to be Government Schools proper.

**STAFF**—Alley—R. J. M. Lewin; Race Course—A. E. Morris; Hayes—H. A. Reid; Portland—H. W. Perkins; Milk River,—G. J. Johnson; Mitchell Town—J. V. Williams.

Four scholarships are held at present, three boys and one girl. Further scholarships will be offered as funds allow.

The Scholarships are intended for pupils from Vere, but in the event of no qualified candidate from Vere, they will be open to the Island under conditions (b) or (c) substituting 'Jamaica' for 'Vere.'

The conditions are (a) Birth in Vere or (b) Parents resident in Vere for at least 3 years immediately preceding examination or (c) Attendance at an Elementary School in Vere for 2 years immediately preceding examination.

Schedule of examination and all information can be obtained from Secretary.

**TRUSTEES**—Rev. S. Negus, *Chairman*; Arthur A. Lewis, *Vice-Chairman*; Hon. G. W. Muirhead, Theo. Hart, Conrad Watson, Dr. B. J. A. Robinson, C. A. Sampson.

J. C. Elliott, *Ex-officio*—Chairman and Vice-Chairman Parochial Board. *Secretary*, Cyril C. Lewis, Alley P.O.

### JAMAICA HIGH SCHOOL FOR GIRLS.

THIS School, promoted by the Synods of the Wesleyan and Presbyterian Churches in Jamaica, was opened on the 22nd September, 1925. It is situated at Half-way Tree in the parish of St. Andrew.

The School is under the management of a Board of Directors composed of members of the two Churches in equal numbers. It provides a secondary education for Boarders and Day Scholars. It aims at the Christian education of each girl, keeping in mind the fourfold development, physical, mental, spiritual and social, so as to equip her with a healthy body, a well trained mind, religious habits and ideals, to gain her own living and serve her community worthily.

The Fees are, Boarders £50 (£90 for two sisters); Day Scholars, £10 for girls under twelve years and £12 for those over twelve years.

The usual subjects undertaken in Secondary Schools are taught and scholars are prepared for the Cambridge Local Examinations, English, one other modern language, Latin, Scripture, History, Mathematics, Geography, Drawing, Hygiene, Commercial Subjects. Music is an extra. Instruction in Scripture along undenominational lines forms an important part of the teaching.

BOARD OF MANAGEMENT—Rev. John Currey, *Chairman*; Hon. and Rev. A. A. Barclay, (*Vice-Chairman*); Rev. J. F. Gartshore, M.A., (*Secretary*); Rev. E. Armon Jones, (*Treasurer*); Rev. J. Macnee, Rev. ## MANCHESTER SCHOOLS.

THE Trustees of the Manchester Schools are the Chairman and Vice-Chairman of the Parochial Board of Manchester; two members of the Parochial Board of Manchester to be elected from time to time by the members of the said Board and to hold office during the continuance of the said Board; and two other members appointed by the Governor on the nomination of the Schools Commission. The funds of the endowment are appropriated (a) to the maintenance of a School for boys and girls to be established for the purpose of providing a good middle class education; (b) to giving such aid to the Elementary Schools formerly connected with the Trust as the funds permit; (c) to the provision of such Scholarship or Scholarships at the Jamaica College as the remaining funds may be sufficient to permit.

The funds of both the Vere and Manchester Trusts have been made permanent loans to the island under the Acts, 18 Vic. chap. 38, and 19 Vic. chap. 39, and bear interest at 8 per cent. per annum.

The income of the Manchester Schools Trust exclusive of the school fees, is approximately £300 per annum. The average attendance (boys and girls) is 40.

BOARD OF TRUSTEES.—Rev. Robert Johnston, M.A., B.D., *Chairman*; G. Hargreaves, L.R.C.P., L.R.C.S., John G. Miller, Chairman Parochial Board; E. W. Muirhead, Vice-Chairman of the Parochial Board; Hon. A. G. Nash; Rev. E. B. Pike, Rev. W. B. Esson. *Secretary*—G. A. Bonitto.

TEACHING STAFF.—*Head Master*—Rev. M. F. Johns; *First Assistant*—Miss Pearl Braithwaite, *Second Assistant*—Miss S. T. A. Salter.

## DIOCESAN HIGH SCHOOL, BROWN'S TOWN.

THIS School began life in Brown's Town in 1907, as one of the Church of England schools in connection with the Deaconess Home, and was known as the Deaconess High School. In 1915, however, owing to the increase in numbers, the late Archbishop of the West Indies, Dr. Nuttall, appointed a Committee to consider the advisability of establishing the school upon a somewhat firmer basis. The result of this was that in 1917 the Diocesan Council decided to take over the school and to establish it as the Church of England High School for the Diocese of Jamaica. Hence it became the Diocesan High School. The new buildings (Major Caws, Architect) were opened in 1922. The object of the school is to afford a liberal and thorough education for girls, combined with moral and religious training in the doctrines of the Church of England.

The course of study in the Upper School is arranged each year to meet the requirements of the Cambridge Local Examinations.

Girls are also prepared for the Cambridge Higher Certificate, or the London Matriculation. In Music, girls are prepared for the examinations of the Associated Board of the Royal Academy of Music and the Royal College of Music; in Drawing and Painting and for the examinations of the Royal Drawing Society.

*Trustees*—The Incorporated Lay Body of the Church of England in Jamaica.

*Visitor*—The Right Reverend, The Lord Bishop of the Diocese.

*Supervising Committee*.—The Diocesan Education Board.

### WESTWOOD HIGH SCHOOL FOR GIRLS.

This School was founded in January, 1884, at Manchester Pen, near Stewart Town in the parish of Trelawny, to provide at a moderate cost, on Evangelical and undenominational principles, a higher education and training for Jamaica girls of all classes. In 1881-82 the Rev. William M. Webb, Baptist Minister of Stewart Town, brought the need to the notice of Dr. and Mrs. Trestrail of Bristol, who enlisted the aid of other wealthy and influential friends in England, and the result was his being placed in a position to found "The Trelawny Girls School."

In August 1895, the name of the school was changed to "Westwood High School for Girls," on its removal to its present site. Buildings were erected for the purpose, at a cost of over £2,500. Many additional buildings have since been erected.

Generous English friends stood by the school, and gave financial aid till 1913, when it seemed able to stand alone. Four Scholarships have been established in the school, called respectively, the Trestrail, Underhill, Trafford and Webb Scholarships, in honour of the founders; and an effort is being made to raise an endowment sufficient to put these on a secure financial base and for general purposes. A fifth scholarship of the annual value of £10 10s. 0d. provided by an anonymous friend, is open to residents in Brown's Town, St. Ann. The school is a first class Secondary School, receiving a Government grant under Law.

The School is entirely undenominational.

#### CONSULTATIVE COMMITTEE FOR SECONDARY EDUCATION.

A CONFERENCE of Head Masters of Secondary Schools was held in September, 1916, at which the Director of Education and the Secretary of the Jamaica Schools Commission were present by invitation. At this meeting it was resolved that it was desirable that the University of Cambridge Higher School Certificate Examination should be made the Jamaica Scholarship Examination for Boys in July, 1919, and thereafter. In 1917 a Committee, which adopted the above name, met in September, the Committee to consist of the Head Masters and Head Mistresses of all Secondary Schools in the Colony with a properly constituted governing body, together with the Director of Education and the Secretary of the Jamaica Schools Commission ex-officio. At that meeting the Regulations of the Jamaica Scholarship Examination (Boys) were considered in detail in readiness to be laid before the Legislative Council. These Regulations were adopted by the Council in April, 1918. At its request Archdeacon Simms joined the Committee and at a meeting held in September, 1918, it was decided that the Committee should be convened by the Director of Education and should when in session elect its Chairman for the occasion.

#### LUDFORD BEQUEST.

THE following is an extract from the will, dated 12th July, 1875, of Thomas Ludford, of the St. Dorothy's district of St. Catherine:—

"And as to the residue and remainder of my said estate, I direct my said executors to pay the same to the Governor of this island, for the time being, to be by him appropriated in the establishment and maintenance of a school, first in the town or village of Old Harbour, and then of such other schools in the old parish of St. Dorothy as the Governor may think fit, with the view of providing for those of all denominations who are destitute of the means of elementary instruction, such as is provided by the 18th Victoria, chapter 54, in the parishes of Vere and Manchester. And I hereby declare that I leave to the Governor of this Island, for the time being, the establishment of such schools upon such rules and regulations for their proper conduct and government as he shall think best, so that whilst the instruction of the destitute poor may be provided for, others who may be in better circumstances may also be admitted to the said schools on such terms and conditions and under such regulations as the Governor may think proper."

There are three elementary schools supported by the Trust, with the help of the usual government grant, at Old Harbour, Old Harbour Bay and Good Hope.

## GUTHRIE DAVIDSON BEQUEST.

THIS Fund was founded by the benevolence of James Guthrie-Davidson, of Montego Bay and later of Ardgait, Scotland. The bequest of £1,000 sunk under the provisions of the 4th sec. of 28 Vic. cap. 23, yields a perpetual annuity thereunder of £60 for the maintenance and education of one boy and one girl of the parish of St. James.

The Jamaica Schools Commission drew up a scheme which came into force on the 1st November, 1898, under which the half of the bequest hitherto devoted to the education and maintenance of one boy was to be devoted to the education of four boys at the Montego Bay Government Secondary School (now Cornwall College), and the other half to the education of four girls.

Four boys are now being educated under the provisions of the trust at the Cornwall College. Four girls, elected as beneficiaries, are now being educated at the Church of England High School, Montego Bay. The election of beneficiaries is in the hands of the Parochial Board of St. James.

## MORGAN BEQUEST.

THE Will of Michael Cuff Morgan, proved 29th July, 1889, provides that a sum not exceeding £500 be paid from the residue of his estate to the Jamaica Schools Commission to provide two scholarships of £9 each at the Training College at Shortwood for two poor girls from the parish of St. Elizabeth, to be nominated by the Custos of that parish. £473 19s. 0d. was paid over in November, 1893, and invested in Inscribed Stock, bringing in an annual interest of £15.

The Trust is administered by the Jamaica Schools Commission under rules originally passed in 1895 and revised in 1907 and again in 1917. Application forms may be obtained from the Lady Principal, Shortwood College, Constant Spring P.O.

## MERRICK'S CHARITY.

CHARLES MERRICK of the parish of St. George (now a district of Portland) said in his Will made in September, 1821:—

"I give and bequeath in trust forever to the two Members of Assembly, the Custos and three senior Magistrates of the parish of St. George for the time being, and to their successors, £2,609 currency for the uses and purposes hereafter mentioned, that is to say, £1,000 to be put out at interest, on good security, and the interest arising therefrom to be applied towards the support of the poor and indigent of every description of colour of the said parish of St. George, and £1,000 to be put out at interest, in like manner for the express purpose of educating one poor boy, either a white or a free boy of colour, for three years, which period ought to be sufficient to afford such a share of instruction as it may be hoped would give to the person partaking of it the prospect of becoming a useful member of Society; then to be succeeded by another boy in like manner, and so to be continued forever. But with regard to the last bequest it is my desire, in the event of an establishment being formed for the promotion of education in the said parish through the means of individual benevolence or legislative aid, the Trustees hereto before mentioned in this particular bequest shall be empowered, at their discretion, to unite the funds herein bequeathed for the purpose of promoting a more enlarged and extensive plan of education to those who stand in need of it."

The income of the Charity is derived from a sum of £1,200 sterling permanently sunk under the provisions of the 28th Victoria chap. 23, and a further sum of £400 similarly sunk, which produce a yearly income of £96; this was supplemented by the sum of £138 which was paid by the Government out of the Education Vote.

The administration of the Trust was for a time carried out virtually by the Custos of the parish of St. George alone, but in 1871 a Law (14) was passed empowering the Governor to appoint a Trustee or Trustees in lieu of the then existing ones.

In 1872 the Buff Bay River Estate in the district of St. George was purchased and a Model School was established; it was attended principally by the children of the Charles-Town Maroons. In 1888 after considerable correspondence had taken place between the Government and the Jamaica Schools Commission as to the disposal of the educational half of the Charity, the Governor decided in Privy Council that the school at Buff Bay River Estate should be abolished.

Under Law 18 of 1915, Scholarships are offered as follows:—

- (A) annually, beginning in January, 1917, a scholarship of the annual value of £20 at the Farm School for three years subject to re-election at the end of the first and second year, and
- (B) in alternate years, beginning in January 1917, a scholarship of the annual value of £45, tenable at a school approved by the Board of Education for Scholarships under articles 124-127 of the Regulations of the Education Department for four years, subject to re-election at the end of the first, second and third year.

The boys eligible for the scholarships must be the children of persons who,

- (a) are in the opinion of the Trustees unable to pay for such higher education as is to be given,
- (b) have continuously lived within the district consisting of the former parish of St. George for at least three years next preceding the year in which the Scholarships begin.

Candidates for the scholarship under A must be not under fifteen nor over eighteen years of age on the 1st day of January in the year in which the scholarship begins and are required to have passed the second year pupil teachers' examination either as pupil teachers (excluding the subject of teaching) or as volunteer candidates, prior to being admitted as candidates for the scholarship. Candidates for the scholarship under B, must be not under ten years nor over thirteen years of age on the 1st of January, in the year in which the scholarships begin.

CALABAR COLLEGE.

THIS Institution was projected immediately after the abolition of slavery but was not opened until the month of October, 1843. It was commenced at Calabar near Rio Bueno. The buildings were erected by funds supplied by the Baptist Missionary Society in England in which the entire premises were vested in trust. The objects of the Institution, as set forth in the trust, were the education of Ministers of the Gospel and Day School Teachers for Jamaica, the neighbouring islands and Africa. The institution has the distinction of being the first in the world for training for the ministry the converts of the modern foreign missionary movement.

Under the Rev. President David Jonathan East the premises were transferred in the year 1874 to a site at Kingston at the back of the East Queen Street Baptist Church, but were transferred in the year 1904 under the Rev. President James to Chetolah Park, Kingston. The Normal Department for training Day School Teachers was closed at the end of 1900 owing to the withdrawal by the Government of all aid to Colleges for male students that were under denominational management. 235 students were trained in this department. The Theological Department for the training of ministers was still continued, provision being made for an average number of eight students in residence. In the year 1911 a new departure was made by extending the scope of the college's work to young men in England who wished to devote their lives to the ministry for the gospel in Jamaica, and three men have already been trained under this scheme.

There are now eighteen Baptist Students in the Theological Hall, not all of them, however, definitely pledged to the ministry; as laymen are now accepted for training as Sunday School teachers, etc.

The ordinary course of study is four years. This may be extended to five in special cases. The students are examined annually by examiners in England.

The conditions of entrance are set forth in the annual report and can be obtained on application to the President. The minimum standard set forth therein for entrance is low, but in actual practice more is expected of and offered by candidates.

The Institution is maintained in the following way:—1. The Baptist Missionary Society in England appoints and pays the teaching staff. 2. The Baptist Churches of Jamaica provide for the board and residence of the Theological students and for the general current expenses of the College. 3. The American Baptist Home Missionary Society makes a grant.

The local management of the Institution is vested in a Committee representing contributing churches in the island. Wesleyan Candidates for the ministry are at present taught at Calabar, as part of a united education scheme between the two churches.

**TUTORIAL STAFF**—Rev. Ernest Price, B.A. Hons., B.D. Hons., (Lond.), and B.A. (Bristol), as President and Treasurer, the Rev. David Davis, B.A., Adelaide, B.D., Lond., Rev. Trevor Roberts.

### ST. PETER'S COLLEGE, CROSS ROADS.

ST. PETER'S College was established, as the Church of England Theological College, at Spanish Town in 1876 (1) to assist in the preparation of candidates for Holy Orders in the diocese of Jamaica. (2) to direct and assist the catechists and evangelists in the diocese of Jamaica in their studies and in practical preparation for their work. Its name was changed to St. Peter's College in 1918.

The property of the College is vested in the Incorporated Lay Body of the Church of England in Jamaica. The general management of the college is entrusted to a General Committee. Further information may be obtained from the Statutes of the College, Section V. of Appendix to the Canons of the Church of England in Jamaica and the Annual Reports published in the Appendix to the Journal of Synod.

The College stands in its own grounds between Bishop's Lodge and Up-Park Camp. It is affiliated with Durham University.

**GENERAL COMMITTEE**—The Right Reverend the Lord Bishop of Jamaica, *Chairman*, The Assistant Bishop, Ven. Archdeacon Simms, M.A., Ven. Archdeacon Massiah, M.A., Ven. Archdeacon Graham, Rev. Canon Wortley, Rev. Canon J. L. Ramson, M.A., Rev. S. Negus, Rev. Canon Jones, Rev. Canon Swaby, B.D., Rev. G. H. Thompson, Wm. Cowper, M.A., V. E. Manton, Dr. J. Hudson, R. C. B. ### ST. GEORGE'S COLLEGE, WINCHESTER PARK, KINGSTON.

St. George's College was founded in 1850 and is under the direct control of the Fathers of the Society of Jesus who are personally responsible for the training of the students entrusted to their care.

The object of the college is to prepare students for a commercial or a professional career by solid and complete education which is based upon careful religious training.

The institution is a day school, though accommodations are offered by respectable families in and about Kingston to board such students as are desirous of attending St. George's College and are recommended by the faculty.

Applicants for admission to the college, unless personally known to some member of the faculty, must bring a satisfactory testimonial of good conduct. Those who come from other secondary schools must present a like testimonial from the school authorities.

The tuition fee is £10 10s. for the full year; for two brothers £18 payable in advance quarterly.

The organizations at the College include The Debating Society, St. George's College Dramatic Association, The Athletic Association, the Sodality of Our Lady, and the League of the Sacred Heart.

**TEACHING STAFF**.—*Head Master*—Rev. George F. McDonald, S.J.; *Assistant Masters*—Rev. Leo. T. Butler, S.J.; Rev. William H. Hannas, S.J.; Joseph J. Clink, S.J.; Henry T. Martin, S.J.; James J. Mohan, S.J.; Sydney L. Burey, R. Arthur Munroe.

## FRANCISCAN CONVENT OF THE IMMACULATE CONCEPTION.

THE Sisters of the Third Order Regular of Saint Francis, established a Boarding School at 76 Duke Street in 1858 and since that time have devoted themselves to the education of the children of Jamaica.

Although the Course of Studies in the Boarding School is not mapped out to fit any particular examination, but rather to give a good general education, still those pupils whose parents desire them to sit for the Cambridge Local Examinations are prepared for these. The fee of £12 10s. a quarter include fancy work and embroidery. Drawing and Painting, Vocal and Instrumental Music form extra charges. In connection with the Academy there is a Business Course where girls are prepared for Commercial Life.

Besides the Convent and Academy in Kingston the Sisters have a country residence where with the Boarders they spend the vacation.

The Franciscan Sisters also have charge of Saint Joseph's Training College for Catholic women teachers, The Holy Family Continuation School, Saint Bonaventure's Preparatory School for boys, Saint Joseph's first class Elementary and Infant Schools on the premises, Saint Aloysius Boys School in East Street, Saint Francis School, Hope Road, Saint Ann's Elementary and Infant Schools in North Street, and Saint Anthony's Orange Street. In 1925, an elementary school in connection with St. James Catholic Church in Montego Bay and St. James High School on Prospect Hill, Montego Bay was opened.

## CONVENT OF MERCY, ST. MARY'S ("ALPHA").

THE Convent High School was opened for the benefit of the children of the upper classes. It comprises boarding and day schools in which a high class English education is imparted. This school has gained diplomas for art, needle-work and kindergarten at local exhibitions. The boarding school is in an admirably healthy situation, with spacious dormitory, and a large playground.

The Orphanage contains at present 45 children. A sound elementary education is given them in addition to a training in such domestic duties as may assist them afterwards in the earning of a livelihood.

The House of Mercy is for the protection of young women of good character, irrespective of religious belief. The girls who have been in the industrial schools are encouraged to pass on to this part of the institution where the training commenced in the industrial school is continued. A public laundry has been opened as a means of support of the inmates of the House of Mercy.

In the Industrial Schools there are 200 boys and 100 girls.

The boys in the industrial school, whilst being grounded in elementary education, receives practical instruction in the culture of vegetables, fruits and flowers. When old enough they are apprenticed to trades.

The elementary schools have 900 children on the books. There is a Kindergarten for the little ones.

A Commercial School has been opened. Shorthand, typewriting and book-keeping are taught. Pitman's system of shorthand is used.

A cane-seating department has been opened in both the Boys' and Girls' Industrial Schools.

The Sisters are also in charge of the elementary school known as East Branch, an elementary school in Spanish Town, a High School and a voluntary school in Port Antonio and a voluntary school in Gordon Town.

## BELMONT ORPHANAGE AND INDUSTRIAL SCHOOL, STONY HILL.

THE Belmont Orphanage was established by Archbishop Nuttall in November, 1892 as a home and industrial school for orphan and destitute children, and was registered to accommodate twenty-six girls. The object of the institution was to provide a comfortable, though frugal home, where a number of children, so limited as to be not much larger than a good sized family, might be cared for and trained for the duties of life,

chiefly as domestic servants. The orphanage was built, and was partly supported, by voluntary contributions; it received also the Government grant-in-aid under the Industrial Schools Law. The training provided included the ordinary branches of household work, cooking, house cleaning, washing, baking and needlework, straw plaiting and dairy work. Miss Nuttall from its inception until 1921 conducted the Institution, and subsequently was Secretary and Treasurer till November, 1924, when the Orphanage was temporarily closed.

The Institution was re-opened in October, 1925 as a Boys Home and has been recognised as an Industrial School.

COMMITTEE OF MANAGEMENT—The Bishop of Jamaica, Rev. Canon Wortley, Rev. G. A. Brown, Mrs. P. B. Richardson, Miss C. Nuttall, J. M. Nethersole, Noel B. Livingston, J. J. G. Mair, R. C. B. Foster, *Superintendent*—C. S. Elliott. *Matron*—Mrs. C. S. Elliott.

### HAPPY GROVE SCHOOL.

HAPPY GROVE is a co-educational school, recognised as efficient by the Jamaica Schools, Commission. The school offers a good secondary education, under Christian influences to boys and girls of good character. The school has an Endowment Fund, which has been steadily increasing, by voluntary gifts since 1918, and at present amounts to over two thousand pounds. Besides this Endowment the school receives an annual subsidy from the Religious Society of Friends, who are the founders and sponsors of Happy Grove School.

There are separate buildings of residence for boys and girls, but academic classes are held jointly. There is a large playing field which offers full opportunity for football cricket and other games.

Happy Grove is located in the eastern portion of Portland, twenty-five miles east of Port Antonio, on the main road between Port Antonio and Kingston. The property of thirty-five acres is well watered, and located in a district entirely free from malaria. The educational standard is that of the Cambridge Local Examinations.

BOARD OF GOVERNORS—Hon. Rev. A. A. Barclay, *Chairman*; Miss S. F. Stanley, *Vice-Chairman*; Rev. C. S. Vincent, T. A. Gray, J.P.; F. M. Jones, J.P., *Treasurer*; H. M. Jones, Miss J. M. Hoover, Rev. M. S. Hinckle, Miss A. M. Andrews; M. E. Hoffman, B.A., *Secretary*.

TEACHING STAFF—M. E. Hoffman, B.A., *Head Master*; Miss A. M. Andrews, B. D.D.; *Lady Principal*; T. A. M. Grant, (Inter Arts., Lond.); I. S. Johnson, (Camb. Senior Hons.); Miss G. K. Cunningham (London Matric.); W. Wilkie; E. W. Patterson, *Sportmaster*; Miss M. Burris, *Music Mistress*.

### CHILDREN'S HOME, CONSTANT SPRING.

THE Children's Home which was opened at Halfway Tree in May, 1918, and was in 1921 removed to Constant Spring, is chiefly for destitute children of respectable parentage who are unsuitable for Industrial Schools or Alms Houses and for whom no provision is made by Government. This home is entirely supported by voluntary contributions.

The Matron in charge is a trained nurse. The children receive ordinary education and are trained in household duties, sewing, hat and basket-making and gardening.

In connection with the Home, a home for East Indian Orphans was opened in 1921. The Government made a grant of £100 towards the cost of the buildings and assist in the maintenance of the children.

There are now thirty-four children being maintained in these Homes.

In addition, a new branch of work has been started in which girls who have left the Elementary Schools, are being trained for domestic service.

*Hon. Superintendent*—Mrs. Wortley, Maurice Hill, Constant Spring.

### MANNING HOME, ST. ELIZABETH.

A VERY protracted period of drought, extending from 1907 to 1914, caused keen suffering in various parts of this parish of St. Elizabeth, but more particularly in the south-eastern districts. Infantile mortality was particularly noticeable and the Parochial Board

on the suggestion of Mr. Bowen, opened food depots at several centres. These depots continued for over a year, but they did not seem to check the mortality amongst the children. Then it was that the idea occurred to Mr. Bowen to take over all the children in the district, house, feed and clothe them. The late Hon. J. M. Farquharson, then Chairman, and other members of the Board adopted the suggestion and Sir William Henry Manning gave his support. Belvue House was then rented for the purpose of a Rescue Home and opened on the 4th April, 1913.

At present there are 69 children in the Home under the care of a matron. These children are taught to read, write and do arithmetic. They are also taught hat-making, sewing, elementary domestic work, agriculture, and in short, to make themselves generally useful.

The Home is financed by the Parochial Board aided by a grant from the Government.

Several of the bigger girls have left for their own homes and are now earning their livelihood through the teaching they received at Manning Home. In February, 1919, the Board bought the property. Consequent on the high price of labour, cultivation has been discontinued. Several boys and girls have been sent out to service, employment having been obtained for them.

### LYNDALE INDUSTRIAL SCHOOL AND GIRLS HOME.

From 1904 the Friend's Jamaica Mission conducted an Industrial School for girls (East Indian) at Happy Grove, Hector's River. In 1921 larger premises were secured at Highgate and were certified by the Government in June of that year, as an Industrial School for 18 East Indian girls.

There are now in the Home 32 girls, eighteen of whom are supported by the Jamaica Government, and 14 by relatives or friends. Twenty-five of these are orphan girls, and have no other home.

*Board of Managers*—Mrs. H. A. Swift, Miss A. M. Andrews, Mrs. H. B. Wolcott. *Superintendent*—Miss S. F. Stanley; *Matron*—Miss D. E. Sibley; *Asst.*—Miss F. Smith; *Hon. Physician*—Dr. F. A. Ritchie.

### CHURCH OF ENGLAND DEACONESS HOME.

(93 Hanover Street, Kingston.)

This institution was opened in the year, 1890. Its objects are the providing of a centre for the work of Deaconesses in religious, educational and social efforts, the training of Jamaica women as parochial workers and nurses; and also of some teachers for the schools connected with the Institution. The home is in the charge of Sisters from London. There is a Bureau at the Deaconess Home in connection with the Nurses Union whence nurses can be obtained for private cases on application to the Directress either personally or by telephone, telegram or letter. In connection with the same Union there are two district nurses working among the poor. The Nuttall Memorial Hospital formerly at 116 East Street is now removed to Cross Roads. They have there the advantage of skilled nursing, and can be attended by their own medical men.

There are four schools under the superintendence of the Deaconess Home, namely: The Deaconess High School for boarders and day scholars at 95 Hanover Street on the Deaconess Home premises, Kingston; a Church School for girls and young boys at Rockfort, Kingston; and High Schools for girls at Spanish Town and Montego Bay. Arrangements can be made for boarding pupils attending the above schools on application to the Head Deaconess, Deaconess Home, Kingston, or to the local rector.

A book stall for the sale of Church Hymns, Prayer books, Bibles and devotional literature, etc., was opened in October, 1906, and is being carried on with increasing success.

The Earthquake of January 14th, 1907, rendered uninhabitable the premises at 93 Hanover St., but they were restored. The house at 23½ Charles St., and the house adjoining are now united and form one building which is the home of boarders who are pupils of the Deaconess Schools, Kingston. In 1914 the property adjoining the Home at 95 Hanover St., was acquired and schoolrooms were built for the accommodation of the Deaconess Home High School. A few boarders are taken there.

**COUNCIL OF MANAGEMENT.**—His Lordship the Bishop of Jamaica., Sister Madeline Miss Hope, Mrs. Leo Isaacs, Victor Manton, J. M. Nethersole, Rev. Canon E. J. Wortley, C. F. Pengelly, Mrs. Herbert Robinson, J. W. Sheridan, W. M. Fraser, Mrs. Pengelly. *Treasurer*, R. C. B. Foster; *Hon. Secretary*, Miss F. Burke; *Asst. Hon. Secretary*, Miss F. Owen.

#### HARVARD ASTRONOMICAL STATION, MANDEVILLE.

THE Astronomical Station of Harvard College, founded in 1912, on a site which had been used for the same purpose in 1901, is located about a mile and a half out of Mandeville, and is maintained as a private institution. The work on which it specializes is a study of the surface of the Moon and Planets. It is provided with an 11 inch refractor, a smaller photographic telescope, and some minor instruments. It is not open to the public at night. *Professor*, William H. Pickering.

## PART IX.

### ECCLESIASTICAL AND RELIGIOUS.

#### THE CHURCH OF ENGLAND IN JAMAICA.

THE early history of the Church of England in Jamaica from its establishment in 1662<sup>2</sup> under the deputy Governorship of Sir Charles Lyttleton up to the year 1866, the time of the inauguration of crown government, has been published in previous numbers of the Jamaica Handbook and to these the reader is referred for such information as he needs prior to the advent in Jamaica of Sir John Peter Grant.

"Law 30 of 1870," Sir J. P. Grant stated in his Blue Book Report, "regulated the disestablishment and the gradual disendowment of the Church of England in this Island, and authorized a constitution to be formed for the future government of the Church on the voluntary principle; gave power to Her Majesty, whenever the proper time arrived, to incorporate by charter the duly appointed representatives of the Church Communion, after which incorporation the Governor would have the power to vest in such Corporate Body all Church property." The Law, framed on the Canadian and Irish precedents, also made provision "for the continuance of their stipends to those Clergymen upon the late Establishment who should continue in the due discharge of their ecclesiastical duties as members of the voluntary communion."

A constitution was then drawn up, by which the Church is governed to-day. The government of the Church vested in a synod consisting of a bishop, the clergy and the representatives of the laity chosen by the registered male communicants and by such of the non-communicant members as may declare themselves to belong to no other religious denomination. All representatives to synod are to be themselves communicants. A Diocesan Council consisting of twelve clergymen and twelve laymen "to advise and assist the Bishop in all matters connected with the administration of the Diocese, not specially committed to the management of the Financial Board" is appointed annually. The Diocesan Financial Board administers such central funds as may be committed to its control, and the revenues of church property, according to such rules as the synod may approve, and consists of the bishop, the assistant bishop, the archdeacons and commissaries, the members of the corporate body and 12 elected members, one of whom was annually to be chosen by the synod as chairman of such Board. The corporate body (or rather the Incorporated Lay Body of the Church of England in Jamaica) holds the property and funds of the Church and exercises all the other rights and duties required of them under the law of disestablishment, and consists of four communicant lay-members of the church to be appointed by the synod.

The management of the parochial or local affairs of the Church is placed in the hands of church committees, elected by those qualified to vote for lay representatives, and to consist of not more than twelve members, two-thirds of whom should be communicants. The clergyman of the church served was given the power of nomination, and was made chairman of the committee when in session. Two churchwardens were to be appointed for each church from the elected church committee—one to be chosen by the incumbent, the other by the church committee itself—and their duties were the care of the church buildings, churchyards, and other church property the allocation of pews and sittings and the preservation of order in the churches.

The Diocese of Jamaica is divided into fourteen rural Deaneries, which are generally continuous with the civil parishes of the Island. A Council called "The Parochial Council" is appointed in each deanery, and consist of the clergymen in the parish or deanery and one communicant member of the Committee of each Church. The Councils are principally advisory bodies to the Bishop and central Bodies of the Church. The duties of a Parochial Council are to obtain the annual returns required by Synod, and to see that they are forwarded to the Secretary of the Synod, to receive reports every quarter from all the clergymen in the Deanery or combined Deaneries; to manage the local affairs of the Jamaica Home and Foreign Missionary Society; to enquire into the ecclesiastical condition and wants of the Deanery or Deaneries; the titles and tenure of land or property; the condition or repair of churches and other buildings, any cases of complaint against a congregation or its clergyman, or any other matter referred to the Parochial Council by the Diocesan Council, or the Diocesan Financial Board.

Bishop Courtenay retired in April, 1879, after a connection of a quarter of a century

with the Diocese, and Dr. Tozer, formerly Missionary Bishop of Eastern Africa, was appointed as his successor; but Bishop Tozer, after six months' service, had to retire on account of ill-health. On the 15th July, 1880, a Special Synod was held for the election of another bishop. The Rev. Enos Nuttall, B.D., the incumbent of St. George's church, Kingston, was chosen, and was subsequently consecrated in St. Paul's Cathedral, London, on 28th October, 1880. Dr. Nuttall returned to the colony on the 20th November, 1880, and immediately assumed his duties as Bishop of Jamaica.

In 1893 Bishop Nuttall was elected Primate of the West Indian Province; and under date 3rd May, 1893, the then Lord Bishop of Antigua (as Senior Bishop) duly notified the election to the Bishops of the Province.

At a meeting of the Provincial Synod of the West Indies, held in London in July, 1897, Dr. Nuttall was unanimously chosen to be the first Archbishop of the West Indies.

In the year 1908 the Archbishop of the West Indies received the honorary degrees of D.C.L. and LL.D. from the Universities of Durham and Cambridge, respectively.

At a Special Synod held on the 12th September, 1888, it was unanimously resolved "that the appointment of an Assistant Bishop was necessary to assist the Bishop of Jamaica, in consequence of the growth of the Diocese and the heavy work which its missionary character entails on him." The Synod thereupon proceeded to consider the appointment, and having received a nomination of the Venerable Archdeacon Charles Frederick Douet, M.A., from His Lordship the Bishop, the question as to the confirmation of the nomination was put and unanimously agreed to. Archdeacon Douet proceeded to England and was consecrated a Bishop in Westminster Abbey on the 30th November. He returned to Jamaica on the 29th December, 1888, and retired from the office on the 30th September, 1904.

At the Synod of February, 1905, the matter of the appointment of a successor to Bishop Douet was duly considered, and it was decided to appoint a Co-adjutor Bishop, with right of succession.

The selection of his co-adjutor was entrusted to the Archbishop, and the Rev. Albert Ernest Joscelyne, D.D., Vicar of St. Peter's, Islington accepted office. He was consecrated Bishop in Westminster Abbey on St. Luke's Day, October 18th, 1905, and arrived in Jamaica on 14th December, 1905. Towards the close of 1912 Bishop Joscelyne resigned office as from the 31st March, 1913.

The Synod of 1913 decided that the Archbishop's Assistant should be Assistant Bishop without right of succession. A special Synod was held on 15th July, 1913, to receive the Archbishop's nomination of his assistant, with a view to his election and appointment if, the Synod so decided. The result was the unanimous election of the Archbishop's nominee, the Rev. George Frederic Cecil deCarteret, M.A., Vicar of Christ Church, East Greenwich, London. He was consecrated by the Archbishop of Canterbury in Southwark Cathedral on 18th October, and arrived in Jamaica on 7th November.

On 31st May, 1916, Archbishop Nuttall died at Bishop's Lodge, Kingston, and Bishop deCarteret administered the Diocese till 10th August, 1916, when at a special synod of the Diocese he was unanimously elected Bishop of Jamaica. The election was also unanimously confirmed by the other Bishops of the Province of the West Indies.

At the Synod of February, 1919, the Rev. David Williams Bentley, M.A., Canon Missioner of the Diocese and Warden of the Theological College was, on the nomination of Dr. deCarteret, the Bishop of the Diocese, unanimously elected Assistant Bishop of Jamaica. His election was also unanimously confirmed by the Bishops of the Province, and he was consecrated in St. Paul's Cathedral on June 24th (Nativity of St. John the Baptist) by the Lord Bishop of London, in the absence of the Archbishop of Canterbury, and 17 other assisting Bishops. Soon after the Degree of D.D. was conferred on Bishop Bentley by his Alma Mater, the University of Durham.

According to the latest printed returns (with omissions supplied and mistakes corrected) there are about 41,000 registered communicants of the Church of England in Jamaica. This figure, however, does not include the large number of adherents of the church who, though they are nominally members and attend the services, have not been enrolled as full members taking an active share in the work and responsibilities of the Church.

At the Census in 1911, 266,478 persons returned themselves as belonging to the Church of England. In 1922, the number was given at 116,224.

In regard to the finances of the church for 1925 it may be stated that the receipts of money for all purposes paid into the credit of the Diocesan Church Fund for that year amounted to £27,266 6s. 1d.

The Expenditure for Episcopal Supervision was £1,525 15s. 1d.

The Diocesan Expenses Fund shows an expenditure of £3,235 13s. 0d. This fund has no endowment and the whole expenditure has to be met by assessments on the churches. It should, however, be borne in mind that this fund contributed £300 to the Clergy Pension Fund and £61 0s. 0d. to a Special Clergy Pension Fund; £158 1s. 0d. for removal expenses of Clergy. The staff connected with the office—including Secretaries to the Synod, Diocesan Secretary, Diocesan Council, Diocesan Financial Board and Diocesan Education Board, the Accountant, two Clerks, and the Auditor—costs £1,251 10s. 0d. The other items of expenditure in this account comprise Stipend of Canon Missioner, grant towards the Insurance of the Cathedral, Travelling expenses of Diocesan Secretary, Printing, Postages, Stationery, Rent, Furniture, Books and Contingencies.

The grants from the General Sustentation Fund to the poor churches amounted in 1925 to £681 7s. 2d. Some portion of the money expended consists of grants made by societies in England which now pass through the books of the Diocesan Financial Board, the appropriation of some of which is regulated by the bishop of the diocese. The great bulk of the expenditure goes to meet the salaries of the clergy and catechists and may roughly be stated at £19,799 3s. 7d. The capital funds of the church on 31st December, 1925, consisted of £36,500 0s. 0d. in debentures, Imperial War Loan, £22,750 15s. 0d., Canadian Victory Bonds, £2,045 2s. 3d., Jamaica Local Inscribed Stock, £39,610, Colonial Bishops' Fund, £2,700, Auckland City Tramway, £100. Total £103,705 17s. 3d.

## CHURCH OF SCOTLAND.

THE Church of Scotland in Jamaica has twelve churches, four clergymen, one paid and two unpaid lay missionaries and 3,000 to 3,400 communicants, ten day schools, ten Sunday Schools with scholars to the number of 1,200 and upwards. Its adherents are over 8,000.

The General Assembly of the Church, which met at Edinburgh in May, 1890, gave its sanction and approval to the formation of a Presbytery, the members of which shall be the ordained Ministers of the Church labouring in Jamaica and in the Island of Grenada, along with a representative Elder from each Kirk Session.

There is one church in Kingston, and there are eleven others situated in the parishes of Manchester and St. Elizabeth.

The Scotch Church in Kingston was opened for service in the year 1819. It cost over £12,000 sterling in its erection. It was ruined by the earthquake; but was restored in 1910 at a cost of over £2,000. An organ built by Messrs. Rutt of London, England, was installed at a cost of £1,000.

The value of buildings and other property belonging to the Church of Scotland in Manchester and St. Elizabeth is about £5,000.

PRESBYTERY: Rev. J. M. Hunt, *Moderator*, Hon. W. Morrison, *Solicitor*, Kingston, *Clerk*.

## JAMAICA BAPTIST MISSION.

THE report of the Jamaica Baptist Union for 1924, shows that there are 204 Churches in Jamaica and 21 in the Cayman Islands, Central America, Cuba and Corn Island (Nicaragua). In the Jamaica Churches there are 31,634 communicant members and over 700 in the churches abroad. There are 2,734 inquirers. Chapel accommodation is provided for over 84,000. There are many very commodious and substantial places of worship belonging to the Baptists in the island, such as East Queen Street, (Kingston), Spanish Town, Porus, Salter's Hill, Annotto Bay, Mt. Angus, Montego Bay (1st and 2nd), Mount Carey, Bethel Town, Falmouth, Brown's Town, Stewart Town, St. Ann's Bay, Jericho and many others. In 1924 the churches raised £3,880 17s. 2d. for building purposes, besides the amounts raised for pastoral support and home and foreign missions.

The statements given above relate only to the churches included in the Jamaica Baptist Union. There are numerous Baptist churches in the island which do not belong to the Union. The Officers of the Union for 1925 are:—

*Chairman*—Rev. C. S. Brown. *Vice-Chairman*—Rev. David Davis, B.A., B.D.

*Secretary and Treasurer.*—Rev. T. Gordon Somers, Stewart Town.

2. *The Jamaica Baptist Missionary Society*.—Secretary, Rev. A. G. Kirkham, Petersfield P.O. This society was founded, on its present basis, in 1855, and its objects are thus set forth: To provide for the spiritual destitution of various parts of the island—to support the Calabar Institution—to assist Sunday schools—to send the Gospel to Africa, Central America and the islands by which we are surrounded, and to aid churches in the Jamaica Baptist Union in their building operations.

There are at present 3 foreign and 4 home missionaries, connected with the society. The foreign missionaries are labouring in Bocas del Toro, Hayti and Cuba.

3. *The Sunday School Society*.—Secretary, Rev. R. G. Chambers, Point P.O.

This Society exists to encourage and stimulate the Churches in their Sunday School efforts. There are about 1,877 teachers and 24,504 scholars in the 196 Sunday Schools.

## PRESBYTERIAN CHURCH OF JAMAICA.

THE Presbyterian Church of Jamaica dates from 1823. In that year the Scottish Missionary Society (which, in 1796, was formed by Presbyterians of various sections in Edinburgh) received a request from several proprietors of estates in Jamaica to send out a minister to instruct their slaves. The first Missionary, Rev. George Blyth, arrived in February 1824, and began work at Hampden, in Trelawny.

In 1847 the Scottish Missionary Society handed over all its church buildings and congregations to the care of the Synod of the United Presbyterian Church, and these, together with the others since gathered or added, in all now 71, form the Presbyterian Church of Jamaica. They are scattered over ten of the parishes of the island. Besides what are counted regularly organized congregations there are 20 out-stations where meetings are conducted for the worship of God and religious instruction.

In 1900 the United Presbyterian and the Free Church in Scotland were united to form the United Free Church of Scotland with which the Presbyterian Church of Jamaica is connected. The Theological College has its home at Woodlands, South Manchester. The Tutor is the Rev. Robert Johnstone, B.D.

The Synod of 1894 resolved to establish a mission to the East Indian immigrants in the island. In September of that year two East Indian converts who had been training as Catechists in Trinidad by the mission of the Presbyterian Church of Canada arrived, and the mission was commenced. There are now 7 Catechists at work, all of whom are the fruit of the Mission in Jamaica.

Some schools have been established for the education of East Indian children. This mission is superintended by the Revs. J. F. Gartshore, M.A., and R. C. Young, M.A.

The official organ of the Synod is "The Presbyterian," a monthly religious periodical edited by the Rev. D. A. Rothnie, M.A., The Manse, Luca.

In 1913 the Broughton Industrial Home was established in South Manchester with accommodation for 20 boys. While under the control of the Synod it is undenominational. It is an Industrial School under the law and is open to receive boys from any part of the Island. In 1917 it was enlarged to accommodate 40 boys. In August, 1919, the foundation stone of a new wing was laid, which is now completed, providing increased accommodation for the staff and for class work. Another Industrial Home for boys has been opened at "The Farm," Montego Bay, and the Home for girls which was opened on 1st August, 1922, at Carron Hall is now in operation. In connection with this Home Continuation Classes are held and a School of Domestic Science is conducted. These are also undenominational.

In 1884 the Presbyterian Incorporating and Vesting Law was passed by which all the mission property is held in trust. The Corporation are, Rev. R. Johnston, M.A., B.D., Rev. G. McNeill, Rev. A. W. Ross, Rev. D. A. Rothnie, M.A., Hon. T. L. Roxburgh, C.M.G., *Chairman*; Rev. W. M. Lumsden, Rev. G. S. Grey and F. G. Sale.

General Board—Hon. Rev. A. A. Barclay, *Chairman*, F. G. Sale, *Ex-Officio*, Revs. J. Macnee, W. M. Lumsden, D. A. Rothnie, M.A., I. A. Dell, T. Redpath, G. S. Grey, R. Noble, W. B. Pouchie, J. F. Gartshore, M.A., C. M. Watler, R. Johnston, B.D. J. S. Blackman.

The General Board meets three times a year—in August, January, and after Synod. It has the oversight of the Mission work of the church, and deals with the questions of finance and education.

Each congregation is under the government of a Session of Elders, chosen by the communicants, at whose meetings the Minister presides. From any decision of the Session there is an appeal to the Presbytery of the district, which consists of the ministers and an elder from each of the charges; and from their decision there is an appeal to the Synod, which meets once a year, and consists of all the ministers and an elder from each charge, presided over by a Moderator elected annually. There are six Presbyteries, North-eastern, South-eastern, Northern, Western, Southern, and Grand Cayman and in these the elders and ministers all vote as one order. The same is the rule of voting in the Synod.

On the roll of Synod, there are 71 Congregations, 20 outstations, 33 ordained Ministers, of whom 13 have been sent out by the Mother Church and 20 belong to the Island. There are 33 catechists, 7 East Indian catechists, 382 ruling elders in the various congregations. The communicants on 31st December, 1924, numbered 12,037, the candidates 1,066, Sunday Schools 115, Sunday School classes 853, adults in these classes 2,139, children 10,173, teachers 880. Day schools 53, scholars on roll 8,378, average attendance 5,109. Money raised for all purposes £11,400, for ministerial salaries, £3,948. There is church accommodation for 20,000 persons. The moderator for the year 1925 is the Rev. J. G. Peterkin. The Clerk of the Synod is the Rev. D. A. Rothnie, M.A., Luca.

The Synod celebrated the Centenary of the work of the Presbyterian Church of Jamaica in February, 1924, and resolved to raise as a Thank Offering £3,000 which is to form the nucleus of a fund for the purpose of Higher Education.

CONGREGATIONAL UNION OF JAMAICA.

(In connection with the Colonial Missionary Society, London, Incorporated.)

THESE Churches were founded by the London Missionary Society, which commenced its operations in Jamaica in 1834.

When the Society relinquished its responsibility for the maintenance of its churches in the island, the Congregational or Independent form of church government was adopted; and, in 1876, the Congregational Union of Jamaica was formed. The work is now carried on in connection with, and is subsidized by, the Colonial Missionary Society, London, (Incorporated.)

In connection with this Union there are 32 churches, and a number of out-stations and meeting houses. The principal preaching stations are given below.

There are 9 ordained ministers, 2,927 church members (communicants) and 275 candidates and inquirers. In connection with the Sabbath schools there are 36 schools, 208 teachers, and 3,566 scholars.

The educational work of the churches is represented by 22 public elementary day schools, in which there are 3,017 children, with an average attendance of 1,870.

The Secretary of the Union is Rev. Wm. Priestnal, Ridgemount, Mandeville.

WESLEYAN METHODIST CHURCH IN JAMAICA.

THE Wesleyan Methodist Church in the West Indies is the result of the labours of the Wesleyan Methodist Missionary Society. Its history in Jamaica dates from 1789.

The Churches in the West Indies are grouped into five Districts under the care and control of the Wesleyan Methodist Missionary Society.

The Jamaica District, which includes missions in the republics of Panama and Costa Rica, numbers about 20,000 full and accredited members, 16,500 Sunday School Scholars, 48 Ministers and Preachers on trial, 484 Lay Preachers and 1,792 Class Leaders.

FOREIGN MISSIONS.

The Methodist Connexion in Jamaica commenced the work of Foreign Missions in 1883, by sending its first missionary to the Isthmus of Panama. There are now other stations, and resident missionaries are living in Colon, Costa Rica and Bocas-del-Toro. In the last named, successful missionary work is being done among the aboriginal Indians.

Rev. John Currey is Chairman of the District and General Superintendent. Rev. E. A. Jones, is the Secretary. The Synod meets annually in Jamaica.

## CHRISTIAN CHURCH.

THE Christian Church, known in America as Disciples of Christ, is a religious movement which was begun in America in 1809. It had for its object the union of all Christians on the common ground of the teachings of Christ and His apostles. It has as its governing body a yearly convention. The Jamaica work was opened in the early part of the nineteenth century by the American Christian Missionary Society and was taken over by Christian Women's Board of Missions, February 5th, 1876. These two societies with four others amalgamated in one organization known as "The United Christian Missionary Society," October 1st, 1920. This is now carrying on the work of the old societies in ten mission lands having 2,500 paid workers, 1,435 native ministers in mission fields and is spending yearly about £500,000.

The Jamaica Mission of the United Christian Missionary Society comprise twenty-four churches and a number of other mission points, with a membership of 3,515.

#### MORAVIAN CHURCH.

THE Protestant Episcopal Church of the Unitas Fratrum, or United Brethren (commonly and now officially, styled The Moravian Church, from the fact, that the original seats were in Bohemia and Moravia), commenced its labours in Jamaica as far back as 1754.

The number of communicants at the close of 1922 was 6,177 with a total membership of 13,320. There are 57 schools with an average attendance of 8,412. Of these schools 26 are first class, 27 second class and 4 third. The latest census gives the number of professed adherents as 35,522.

The Church for many years maintained two training colleges, one for males at Fairfield, the other for women at Bethlehem. Within recent years these colleges have received Government aid. The Fairfield College was begun in 1839, under the direction of the Rev. Mr. Holland, and was successfully carried on till 1899, when, owing to the enlargement of the Mico Training College and the subsequent withdrawal of aid by the Government from voluntary colleges for training male teachers, it was closed.

The Training College for women was begun at Bethabara in 1861. It was temporarily removed to Salem in Westmoreland in 1888; but has now been established in commodious buildings at Bethlehem, in the Santa Cruz Mountains. The teaching staff consists of the Rev. S. C. Ashton, Director, with three resident instructresses.

The Church in Jamaica is governed by the Synod which meets, as a rule, once in three years. The Church is directed, between Synod, by its Executive, the Provincial Elders Conference, the members of which are Rev. J. Reinke, D.D. (Chairman), Rev. F. P. Wilde, B.D., and the Rev. S. C. Ashton, J.P. The Right Rev. Bishop Westphal, B.D., is the Bishop in the Jamaica Province.

### FRIENDS CHURCH IN JAMAICA.

THERE had been a rather considerable work accomplished in and about Kingstor in the seventeenth century, when George Fox, the founder of the Religious Society of Friends in England, visited Jamaica and Barbados. Unfortunately, that good work was allowed to cease with no permanent organization to continue what was well begun. But there was a Friends Meeting House in Kingston in 1740.

The present work of Friends in Jamaica covers a period of forty years, beginning with a religious visit to the Island of Rev. Evi Sharpless of Iowa, U.S.A., early in the eighties. Schools were opened wherever churches or evangelistic work was begun—sometimes the school preceded all other efforts, for it was recognized that the education of Jamaica's children was inseparable from evangelization of her people. Two properties were purchased in East Portland and St. Thomas, portions of which were sold in small plots to those who could not own a home except it could be purchased on easy terms.

The organization now comprises eleven churches, ten day schools, two Industrial Schools, the Happy Grove Secondary School, and a Continuation School for Girls at Highgate. The headquarters of the Church is at SeaSide, Hector's River P.O. The Secondary School is also at this point. The Industrial Schools are at Highgate and Buff Bay. The Churches are along the east and north-east coast from Amity Hall in St. Thomas to Port Maria, also Cedar Hurst and Fort Stewart somewhat inland.

Co-operating with the above is a group of eight American Friends, missionaries, employed and sent here by the American Friends Board of Foreign Missions, with headquarters in Richmond, Indiana, U.S.A.

MINISTERS AND MISSIONARIES.—A. M. Andrews, Hectors River P.O., M. E. White, Port Antonio P.O., H. A. Swift, Buff Bay, Rev. C. S. Vincent, Buff Bay, J. M. Hoover, Albany P.O., L. P. Arms, Highgate, S. F. Stanley, Highgate, A. I. Kennedy, Highgate, J. L. Hoover, Hectors River P.O.

### THE SALVATION ARMY.

THE Headquarters of the Salvation Army in the West Indies which is under a Commissioner, is located in Kingston, Jamaica, with its Offices at the corner of North Parade and Upper King Street. From this centre the work of the Salvation Army is directed throughout what is known as the West Indies Territory, comprising: Jamaica, British Guiana, Dutch Guiana, Trinidad, Barbados, Windward and Leeward Islands, Cuba, Panama, Costa Rica, British Honduras, Honduras.

*Chief Secretary*—Lt. Colonel Joseph Barr. *Field Secretary*—Brigadier Cecil Walker, *Editor*—'War Cry'.—Mrs. Lt. Colonel Barr, *Territorial Young People's Secretary*—Major Charles Smith, *Property Secretary*—Staff-Captain Alex. Thompson, *Trade Secretary*—Staff-Captain Allen, *Accountant*—Adjutant Robert Little

The Official Organ of the Salvation Army in the West Indies—"The War Cry," is published in Kingston.

The Island of Jamaica is formed into what is known as the maica Division, and Major and Mrs. John Barrell are in charge of this work.

In addition to Kingston there are branches of the Salvation Army work in many villages and towns.

There is a Training Garrison for the Education and Training of those who are becoming Officers of the Salvation Army in the West Indies, located at Orange Street, Kingston.

The social Work of the Salvation Army is represented in Kingston, Jamaica by (a) 'The Men's Metropole,' located in Peters Lane, where cheap lodgings are provided for men only, and where cases of distress are dealt with (b) A Hostel for Women which is principally in the interests of transients who desire a cheap lodging under satisfactory supervision. This Hostel is located beneath the Parade Court House. (c) A Home for delinquent girls.

Special interest is taken in Prisoners and ex-Prisoners.

### AFRICAN METHODIST EPISCOPAL CHURCH.

THE African Methodist Episcopal Church Denomination was established in the city of Philadelphia, in the year 1787 by Free Negroes (persons of colour or African descent.) They separated from the white Methodist Episcopal Church, because they felt an under-current of racial feeling which prohibited complete religious freedom in that church to persons having African blood in their veins.

This denomination was introduced and an organization formed in Jamaica, in August 1914, by the Rev. Alfonso Dumar, B.D., from the United States of America.

The work took on a new lease of existence by the acquisition of the Brown's Hall Circuit of the Free Methodist Churches which had for over seventeen years been under the pastorate of the late Hon. and Rev. G. L. Young.

*Missionary Secretary*—Dr. E. H. Coit, D.D., New York, at the Missionary Headquarters.

*Presiding Bishop*—Rt. Rev. Abraham Lincoln Gaines, D.D., Baltimore, Md., U.S.A.

*Superintendent*—Rev. Alfonso Dumar, B.D., Kingston, Jamaica.

*Elders*—Rev. G. S. Patterson, Riversdale, Rev. O. H. Williams, Morant Bay, Rev. G. T. Hollar, Islington.

*Deacons*—Rev. Joseph Taylor, May Pen; Rev. Thomas B. Ulett, Montego Bay; Rev. Simeon S. Jones, Kingston; Rev. Robert Francis, Kingston.

*Licentiates*—Arthur G. Miller, Kingston; David Evans.

### SEVENTH DAY ADVENTISTS.

THE first Seventh-Day Adventist Church in Jamaica was organized in Kingston in the year 1894. At the present time, there are 65 organized churches and a few small companies, with a membership of about two thousand five hundred. Six ordained ministers and six licensed ministers are now employed by the Conference. Seventy-nine Sabbath Schools have been organized with a membership of 3,027.

In 1919, the West Indian Training College was opened at Mandeville. This school occupies a property of 171 acres two miles south from Mandeville. The enrolment has steadily increased from four the first term to a total of one-hundred and thirty last term. The object of the school "is to lay a solid foundation for a Christian character and to give young people a broad symmetrical training for usefulness." With this idea in view, Agriculture, Cabinet Work, Sheet Metal Work, Tailoring, Baking and other industries are taught in connection with the literary branches. There are now eight buildings, a library of more than a thousand volumes, physical and chemical laboratory facilities, a Sheet Metal factory, a well equipped Cabinet making factory, Agricultural implements, cattle and poultry. There are thirteen Professors and Instructors: W. H. Wineland, N.A., Principal.

*CONFERENCE OFFICERS*—*President*, C. E. Wood; *Secretary and Treasurer*, J. G. Petty.

*Executive Committee*—C. E. Wood, J. G. Petty, Hubert Fletcher, W. J. Hurdon, D. E. Walker, C. C. McCatty.

*WEST INDIAN TRAINING SCHOOL BOARD*—*GOVERNORS*—*President*—C. E. Wood, *Secretary*—W. H. Wineland, J. G. Petty, Hubert Fletcher, D. E. Walker, C. C. McCatty, W. J. Hurdon.

## PENTECOSTAL CHURCH OF GOD.

On the 12th April, 1906, three hundred persons of various religious sects were led to congregate at Lcs Angles, U.S.A., and pray for a revival and resuscitation of the Church as was established at Jerusalem on the Day of Pentecost. The Church (Biblically called "The Church of Christ" and "The Church of God") now numbers 1,000,000 members, 5,500 assemblies, 10,000 ordained men and women, including Elders or Bishops.

In Jamaica, where the Work was begun in March, 1916, by the Rev. J. Wilson Bell, D.TH., 95 North Street, Kingston, there are nine places of worship located as follows: one in Kingston, one in St. Andrew, five in Clarendon, one in St. Catherine, one in St. Ann and one in Manchester.

The Rev. Dr. Bell is now representative here in connection with Michigan, Pennsylvania and Georgia, while the following are the leading workers at present on the field: Elders A. Watson, B. Smith and E. Cunningham; Mrs. E. Leathern, Mrs. J. A. Taylor, and Messrs. G. Walter, R. C. Smith and F. B. Petersburg.

## PART X.

### PAROCHIAL INFORMATION.

#### THE PARISHES.

#### GENERAL HISTORY.

IN HICKERINGILL'S "Jamaica View'd" published in the year 1661 appears what is probably the oldest English Map of the island. With the exception of Guanaboa, The Seven Plantations, The Angels and St. Jago de la Vega, only towns on the sea-board are mentioned in it, and there is no attempt to divide the island into parishes.

In a census taken in 1662 the Island was divided into ten districts as follows:—the Precincts of Port Moranto; Morant; Yealoth; and Legene; the town of Saint Angelo Delvega [St. Jago de la Vega]; Between Black River, Bowen Savanna, and thereabouts; In the Angels Quarter; In the Sevens Plantations, Macaria, Quathebeca: In the Quarters Quanaoba and Guardelena; and Upon Point Cagway.

Sir Thomas Modyford, in his "View of the condition of Jamaica, the 1st of October 1664," reprinted in the appendix to the first volume of the "Journals of the House of Assembly" (Spanish Town, 1811), says "there is in the said Island but seven established parishes *videlicet* the town and parish of St. Katherine's, St. Johns, to the town and parish of Port Royal, Clarendon, St. David's, St. Andrew's and St. Thomas, which are very large, and in them all but one church, that at St. Katherine's."

The parish of St. David was part of the precinct of St. Thomas-in-the-East and St. George was part of the precinct of St. Mary.

As a result of the survey ordered by Sir Thomas Modyford, and made by "Sergeant-Major John Man, Surveyor-General for His Majesty," who calculated that the Island comprised seven millions of acres, a map was prepared by Man and copied by "Mr. Innians, the surveyor," and published in the Blome's "Description of the Island of Jamaica" in 1671. There are included on this Map in addition to two unnamed precincts occupying approximately the positions of the present Hanover and Manchester; the precincts of St. Catherine, St. Andrew, Port Royal, St. David, St. Thomas, St. George, St. Mary, St. John, St. Ann, St. James, St. Elizabeth and Clarendon.

In the year 1673, Vere was formed by cutting off a portion of Clarendon but it still remained part of the precinct of Clarendon; and in 1675 when an act was passed for dividing His Majesty's Island of Jamaica into several parishes and precincts, St. Thomas-in-the-Vale was taken from St. Catherine; and Clarendon lost another piece out of which was formed St. Dorothy, which parish became part of the precinct of St. Catherine.

In "The State of Jamaica under Sir Thomas Lynch, His Majesty's present Captain General and Chief Governour, September 20th 1683," prefixed to the "Laws of Jamaica," (London 1684), it states "since that time (1661) it has been divided into Fifteen Parishes and they into eight Provinces or Precincts."

The first act on record having reference to the parishes of the island was read on the 11th May, 1675, by the Council, and sent to the Assembly with this Amendment, that the Magotty be annexed to the Sixteen-Mile-Walk, but continue still to pay all parochial duties to St. John's except to the repairing of the highways, until a church be built and a parish settled in the parish of St. Thomas-in-the-Vale (Journals of Assembly I. 9). A law was passed in 1677. The law itself had not been preserved, but it is recited in a law passed in 1861 (33 Car. 2). "An Act for the maintenance of Ministers and the Poor, and erecting and repairing of churches." ("The Laws of Jamaica," London 1684): "and whereas this island, in the twenty-ninth year of His Majesty's reign, by an Act of this Country, was divided into fifteen parishes, which were called, distinguished and known, by the several names hereafter mentioned, that is to say, *St. Thomas, St. David, Port Royal, St. Andrews, St. Katherines, St. Dorothys, St. Thomas in the Valley, Clarendon, Vere, St. Johns, St. Georges, St. Maries, St. Anns, St. James and St. Elizabeths*; Be it therefore enacted and ordained by the Authority aforesaid, That all and every of the said Parishes rest, remain and for ever hereafter be distinguished and known by the afore-

said respective Names, and by no other whatsoever, anything in this or any other Law to the contrary notwithstanding."

In 1692, on the destruction of the greater part of Port Royal by earthquake, most of the inhabitants that survived settled in hastily erected buildings in St. Andrew, on the harbour, and in the following year the parish of Kingston was formed.

In 1703, Westmoreland was formed out of a portion of St. Elizabeth. In 1723, Portland was formed, the land being taken partly from St. Thomas-in-the-East, and partly from St. George (by 10 Geo. I.); and Hanover was formed out of part of Westmoreland. In 1739 (12 Geo. II. ch. 6) parts of the Carpenters Mountains, heretofore esteemed part of St. Elizabeth and Clarendon, were transferred to Vere.

In 1758, the three counties of Surrey, Middlesex and Cornwall were created (by 31 Geo. II. ch. 15.) with a view to the more convenient holding of courts of justice. Kingston was declared the county town of Surrey; St. Jago de la Vega, that of Middlesex; and Savanna-la-Mar that of Cornwall. In the first named were the seven parishes of Port Royal, Kingston, St. Andrew, St. David, Portland, St. George and St. Thomas-in-the-East; Middlesex comprised St. Catherine, St. John, St. Thomas-in-the-Vale, St. Dorothy, Clarendon, Vere, St. Ann and St. Mary; while Cornwall had but four parishes, St. Elizabeth, Westmoreland, Hanover, and St. James. The next change was in 1770 when Trelawny was formed out of a portion of St. James.

In 1814 Manchester was created by taking parts from Clarendon, Vere and St. Elizabeth, thus transferring a portion of Cornwall to Middlesex.

In 1809 a law was passed (50 Geo. III.) for fixing the boundaries of the several Counties and parishes of this Island by which the extent and boundaries of the said several and respective Counties and Parishes of this Island, as laid down and delineated in the three maps of the representative counties and the general map of this Island, made and published by James Robertson, were taken as the bounds of the counties and parishes, and printed copies of the maps were recognized as evidence in all Courts of Justice in the Island of the boundaries of the said several countries and parishes.

In 1831, McGeachy and Smith, Surveyors, proposed to publish by subscription maps of the three counties at £20 a piece. They received the names of eighty-six subscribers, but the maps were never published. (*St. Jago Gazette*, Feb. 12, 1831.)

In 1841, the last parish to be created in the history of Jamaica, Metcalfe, was formed out of the parishes of St. Mary and St. George, whereby Middlesex again gained land this time at the expense of Surrey. The parishes then numbered 22. In 1844, an Act, (3 Vic. c. 39) was passed defining the boundaries of Kingston harbour.

In 1867, was passed the law for the reduction of the number of parishes. In Surrey, Kingston was increased by taking part of St. Andrew, a part of the parish and the whole town of Port Royal. St. Andrew took the remaining part of Port Royal parish; and St. David was merged into St. Thomas-in-the-East, and St. George into Portland, which also took the Manchioneal district of St. Thomas-in-the-East.

In Middlesex the recently created parish of Metcalfe was merged again into the parish of St. Mary. St. Thomas-in-the-Vale, St. John and St. Dorothy were all merged into St. Catherine, and Vere again became part of Clarendon; St. Ann and Manchester remaining as they were. In Cornwall there was no alteration, the five parishes remaining as they were.

In 1960 Port Royal was made a separate parish for municipal purposes, remaining still part of the electoral district of Kingston.

#### KINGSTON.

*Topography.*—Kingston is the Capital of the Island of Jamaica and is the largest and most important commercial town in the British West Indies. It covers, with its suburbs an area of about 1,080 acres, and is beautifully situated on regularly sloping ground (of about 90 feet per mile) on the northern shores of the harbour bearing its name.

The streets, at right angles to the sea were originally laid out by compass north and south; those parallel to the general run of the shoreline, east and west; but, in consequence of the variation of the compass, the north and south streets now have a bearing of north two degrees east, and the east and west streets bear north-west and south-east eighty-eight degrees. In consequence of former neglect, in permitting flood waters to flow down the north and south streets, they are now so worn as to be much below the general level.

King Street, running north and south, was originally the centre of the town and laid out at 66 feet wide; Queen Street, also 66 feet wide, was the centre running east and west but, in consequence of the town having been extended northerly and easterly, these streets do not now form the centres of the town. At the intersections of King and Queen Streets

a plaza or parade ground was reserved, forming a square of ten acres in the centre of the town. This was formerly used as a market place and parade ground for the troops and militia, but the central portion is now enclosed and converted into a garden, which adds much to the appearance of the town and to the comfort and enjoyment of the inhabitants.

The soil is a gravel bed formed by the detritus of centuries, produced by the Hope river and other smaller streams from the Liguanea mountains. It may here be mentioned that the ancient course of the Hope River (which now discharges at the back of the Long Mountain, six miles to the east of Kingston) is distinctly traceable through Papine and Mona and near the Hope Road and down to the sea about a mile-and-a-half to the east of Kingston.

On account of the gravelly nature of the soil on which Kingston stands surplus water readily sinks and finds its way to the sea; it, therefore, has little opportunity of creating malarial conditions.

Kingston was originally supplied with water by wells, most of which, in consequence of the gravelly nature of the soil, had to reach the sea level before the water was obtained. About the year 1848 a private company brought down water from the Hope River for the supply of the city. The government purchased the entire plant from the company and have very much improved the supply, not only by building reservoirs and filter beds and furnishing a larger quantity of water, but by extending the supply to districts formerly destitute of water. The pressure in the lower part of the town is sufficient, in cases of fire, to throw the water to the top of the highest houses. A further supply of water was obtained from the Wag Water, a river which flows to the northside of the island. This water is brought by a tunnel, of ancient construction through the main ridge of the island. The rights of Constant Spring and Temple Hall estates to this water have been purchased by the Government, as has the Mona Estates with its water rights. This further supply of water largely augmented the delivery; but the increase of population, particularly in the suburbs, rendered it necessary to seek additional sources of supply and these were obtained by purchase of the water rights of the Ferry River, about seven miles to the west of the city.

*History.*—In 1848 a prize of £40 was awarded to Dr. Arnold for his History of the parish of Kingston, but there is no evidence that it was ever published. The site of Kingston was not the first chosen by the English for the commercial capital of the island. Port Royal flourished as such until 1692, in which year occurred the great earthquake which destroyed that place and caused the death of 3,000 of its inhabitants. That dealt it a fearful blow. Many people remained there but most of the survivors removed to the lower part of Liguanea in St. Andrew, then the property of Sir William Beeston, Lieut.-Governor of the Island. They procured for their settlement the status of a town, a plan of which was drawn up by Colonel Christian Lilly, under the direction of the Government, the name selected being Kingston. There was not at first much progress in its settlement, the recollection of the former wealth and greatness of Port Royal giving the colonists a continued preference for that place; but the fire of 1703 completely destroyed the favourite town, and the disheartened inhabitants went in large numbers to Kingston, which the Assembly caused to be divided into lots and given to those who had lost their houses. A law was also passed directing the slave owners in the parish of Saint Andrew to send one out of every twenty of their slaves to build temporary huts for the refugees, and, as an encouragement for the early settlement of the new town, every house built within the year (1703) was exempted from taxes for seven years. Soon after this another law was passed declaring Kingston to be "the chief seat of trade and head port of entry" of the island.

From this time the prosperity of the town was assured, and in the year 1713 it was declared by law that the place should "for ever be taken and esteemed as an entire and distinct parish, with all the powers of any other parish," and, further, "that it should have the right of sending three Representatives to the Assembly."

So rapidly had the town grown that in 1716 it was thus described by a historian of the time:—

"Within the harbour and about six miles from the town of Port Royal lies the town of Kingston, first laid out and partially settled after the great earthquake. \* \* \* It is now become greatly increased in houses, stores, wharves and other conveniences for trade and business, so that it is by much the largest town in the island; and if the island shall increase in people and new settlements (the consequences of trade and riches) it is likely to be much the fairest town in all the Indies for 'tis most commodiously laid out happily and beautifully situated, has many spacious houses in it, and more are daily building, is the residence of the greatest merchants and traders, and has resorting to it most of

the ships or vessels that come to the island, and in it is managed the greatest part of the trade of Jamaica."

In 1721 an Act was passed empowering the inhabitants to erect a Court House and Exchange: and for nearly half a century the town continued to grow in size and opulence and so important had it become in 1755 that the attempt was then made to constitute it the seat of Government. The Governor (Admiral Knowles) twice proposed and the Assembly twice rejected a bill for that purpose, but at length the Assembly gave way and a law was passed giving effect to the arrangement. Soon after the public archives were removed to Kingston and the superior courts were established there. But the change was unpopular throughout the island and numerous petitions against it were sent to the King. On the 3rd October, 1758, (after Knowles had left) the disallowance of the law was proclaimed and the records were returned to Spanish Town, escorted by "a considerable body of military."

In 1780 the town was severely stricken by a great fire which broke out at about 2 o'clock in the morning of the 16th May and continued until the following evening. The large and closely built portion of the town lying between King and Orange Streets was burnt down, the destruction of property being estimated at £30,000. But the town soon recovered from the effects of the conflagration and prospered to such an extent that in 1802 it was granted a Corporation under the style of "The Mayor, Aldermen and Common Council of the City and Parish of Kingston." The Court of Common Council was given a seal and empowered to make and ordain by-laws, ordinances and regulations for the good order of the city, not repugnant to prerogative or to the laws of the island. The following is a description of the city seal: On the obverse the island arms, crest, supporters and mottoes. Legend. *Sigi Commune Civil: Kingston in Jamaica.* Reverse, Britannia in the dress of Minerva, holding a trident in one hand, and in the other a mirror, reflecting the rays of the benign influence of Heaven on the produce of the Island; behind her the British Lion, supporting her shield, a conch shell at her feet, and at a distance a ship under sail. Legend, *Hos fouet, hos curat, servalque, Britannia Mater.*

In 1843 another great fire devastated a large portion of the city. It began shortly before 10 a.m. on the 26th of August in a foundry situated at the east end of Harbour Street and extended diagonally across the city until it reached the old Roman Catholic Chapel at the corner of Duke Street. Many of the best dwellings and much valuable property were consumed and a large number of persons were left in utter destitution. The sum of £10,149 16s. 2d. was distributed among the sufferers, of which £5,000 was voted by the House of Assembly. At this period a great deal of the foreign trade of Kingston had disappeared in consequence of the establishing of direct steam communication between the European and Spanish American States; still Kingston continued an important centre of commerce.

In March, 1862, another great fire occurred by which the commercial division of the city was devastated. Nineteen of the principal stores in Harbour and Port Royal Streets, three wharves, and the extensive and well built three storied house in which the Commercial Hotel was kept, were burnt down at a loss of £30,000. The value of the merchandise, furniture, &c., destroyed was estimated at £60,830, making a total of £90,830. Of this £9,400 was covered by insurances, leaving £81,530 as the total loss to the owners of the premises and stock.

Three years afterwards Representative Government was abandoned in Jamaica, and Kingston ceased to be a corporate city. All the powers and immunities of the Common Council were transferred to a nominated Municipal Board created by Law 8 of 1866, the privilege of making ordinances for the regulation of the city being transferred to the Governor in Privy Council. Since 1885, its affairs have been administered by a Mayor elected every three years, similar to the parochial boards of the other parishes.

For many years it had become evident that the convenience of the Government and of the general public would be best served by a transfer of the seat of government from Spanish Town, and in 1872 Sir John Grant, with the approval of the Secretary of State for the Colonies, gave effect to the change. The chief courts of law had been removed a few years before, as well as the offices of some departments of government and the transfer of the Governor's permanent residence and of the Colonial Secretariat alone remained to be effected. Room for this department was provided in the spacious premises known as Head Quarters House (the official residence of the Officer in Command of the Troops) which was purchased for £5,000, whilst Bishop's Lodge, (the former residence of the Bishops of Jamaica situated in the Liguanea Plain, was also purchased for conversion into a Governor's Residence. The Legislative Council was thereafter con-

vened in Kingston and a Chamber for its deliberations found in the large hall of the ground floor of Head Quarters House.

A calamitous fire occurred in Kingston on the 11th December, 1882, by which a large section of the business portion of the city was destroyed. The total number of houses entirely destroyed was five hundred and seventy-seven, whilst twelve were partially destroyed. These places were inhabited by about six thousand persons. The total loss of house property was estimated at between £150,000 and £220,000. The number of houses totally destroyed in the several streets and lanes reached by the fire was as follows: Barry Street, 36; Church Street, 26; Duke Street, 2; Harbour Street, 55; King Street, 30; Little Port Royal Street, 3; Orange Street, 69; Port Royal Street, 55; Princess Street, 75; Tower Street, 58; West Street, 13; Luke Lane, 87; Mark Lane, 1; Matthew's Lane 35; Peter's Lane, 36; Temple Lane, 9; and Water Lane, 37; whilst one house in Duke Street, one in Orange Street, two houses in Port Royal Street, four in West Street, one in Luke Lane, two in Matthew's Lane and one in Peter's Lane were partially destroyed. Amongst the buildings destroyed were the two Jewish Synagogues; the premises of the Ordnance Department; the Government Savings Bank; the office of the Jamaica Mutual Life Assurance Society; part of the premises of the Col. Bank and several wharf premises.

On the 14th January, 1907, the city suffered great damage from the disastrous Earthquake of that date and from fire. Much the same area as that devastated by fire in 1882 was destroyed in the fire of 1907 in addition to the havoc caused by the Earthquake. The loss of life was variously estimated as between 1,000 and 1,500. The value of property destroyed amounted to between £1,000,000 and £1,500,000. A Mansion House fund for the relief of the sufferers, amounted to £55,395, and a free Imperial Grant was made by Parliament of £150,000 and a loan of £800,000 was authorised. The relief funds were distributed by a Relief Committee afterwards the Assistance Committee, constituted by the Assistance Committee Law 20 of 1907. After considerable delay and much negotiations, and on the failure of an appeal in a test case to the Judicial Committee of the Privy Council, the Insurance Companies agreed to pay the claims to the extent of 85 per cent. on the face value of the policies, and the money was distributed in 1909.

The Imperial Loan was administered by a Loan Board created by Law. Up to 31st March, 1910, loans were made to the value of £326,000.

The city has in great measure recovered from the disaster of 1907. Myrtle Bank hotel is rebuilt; and in King Street substantial structures have been erected. Among these may be specially named the Bank of Nova Scotia and the building of Messrs. Nathan and Co., Ltd., Messrs. D. Henderson & Co., the Royal Bank of Canada and the Bee Hive. On the western and eastern sides stands the blocks of the new Public Buildings (Sir Charles Nicholson, Architect.) The western block houses the Post Office, Treasury, Audit Office, and Customs; the eastern block contains the Supreme Court and Law Offices, the Office of Titles, Surveyor General and Inspector General of Police and Prisons and the Education Department. The Colonial Bank in Harbour Street also demands notice.

The Roman Catholic Cathedral in North Street was opened for service on Sunday, 5th February, 1911. It is dedicated to Holy Trinity, and is a substantial building, beautifully decorated internally with mural paintings. In East Street there is the re-built Institute of Jamaica. The Ward Theatre, North Parade, was presented to the city by the late Lieut.-Colonel Ward, C.M.G., for many years Custos of the City. The offices of the Royal Mail Company in Port Royal Street, are also worthy of note. In 1924 Kingston was amalgamated with St. Andrew for the purposes of administration.

The population of the city by the Census of 1911, was 59,674; males, 25,037, females, 34,637. In 1921 the population was 62,707; 26,185 males and 36,522 females.

There are two Building Societies doing business in the city and many of the important Fire and Life Insurance Companies of the world are represented by agents in Kingston. Besides these a Discount Society, an Ice Company, a Marine Insurance Company, a Telephone Company, an Electric Light and Power Company, and an Electric Tramway Company are in successful operation. The Banks now doing business are the Colonial Bank, the Bank of Nova Scotia, the Royal Bank of Canada and the Canadian Bank of Commerce.

The city is lighted with gas, and many of the public and private buildings with electric light. The principal thoroughfares are traversed by electric cars. There is a commodious market at the lower end of King Street. In connection with this structure is a public landing place; and another market in Orange Street, near the Parade. In the upper part of King Street and immediately opposite to the principal entrance of the Kingston Parade Gardens is a statue of Queen Victoria, by Gefiowski, erected in com-

memoration of the sixtieth anniversary of her accession to the throne by a vote of the Legislature. A statue of Sir Charles Metcalfe stands at the foot of King Street. On the eastern side of the parade (just without the garden fence stands another full length marble statue, that of Edward Jordan C.B., "who through a long series of years and in times of danger, fearlessly stood forward as the champion of emancipation and for the removal of civil disabilities," erected by public subscription. The statue of another distinguished Jamaican, Doctor Lewis Q. Bowerbank, was erected in the year 1881 on the northern side of the garden, by his numerous friends and admirers. A statue of Father Dupont, a Roman Catholic priest, who for many years laboured among the poor of the city, erected at the north-east corner of the garden, was destroyed by the earthquake of 1907. The Jamaica War Memorial, made of Jamaica stone and marble unveiled and dedicated on the 11th of November, 1922, stands in Memorial Square east of the Public Buildings. There is a building in Orange Street known as the "Night Shelter" for the convenience of the peasantry coming to the Kingston Markets.

Lines of steamers touch at Kingston regularly, keeping up communication direct with England, the United States, Canada and Europe. Electric Cars run to Constant Spring to the north and Papine Corner to the north-east, about six miles in each direction. A branch runs along the harbour shore to Rock Port Gardens. Another branch runs through Up-Park Camp and connects with Cross Roads.

One daily and several weekly newspapers are published in the city, and there are several monthly publications. Postal deliveries take place three times a day, and posts are made up for the home parishes and some of the country parishes daily and by all trains leaving Kingston, and for all the country parishes. The markets are plentifully supplied. Fruit, vegetables and fish are abundant at reasonable rates.

The climate is dry. The thermometer has been as high as 93° in the hot months and has stood as low as 66° in the cool months.

#### PORT ROYAL.

The Harbour of Kingston is enclosed to the southward by a narrow strip about 7 miles in length; at the western extremity of which, at the mouth of the harbour lies the old town of Port Royal. This strip is known as the Palisadoes, and the town formed part of the parish of Kingston until 1900 when a law was passed creating the separate parish of Port Royal with a Parochial Board consisting of 1 naval and 1 military member, and elected members, with the Commodore as Chairman *ex officio*; until the removal of the Naval Authorities from Jamaica and the closing of the dock-yard on 31st March, 1905. By section 10 of the law (13 of 1900) it is provided that for purposes of collection of rates and taxes, Registration of Voters and for all judicial purposes the parish shall still form a part of the parish of Kingston. Port Royal was, prior to the great earthquake, "the finest town in the West Indies, and at that time the richest spot in the universe," the head quarters of the bucaners, and as such the emporium and mart of their ill-gotten wealth.

At half-past 11 o'clock on the morning of the 7th June, 1692, the town was shaken by a tremendous earthquake. The rector of the parish at that time states in his narrative of the occurrence: "Whole streets with their inhabitants were swallowed up by the opening of the earth, which when shut upon them squeezed the people to death, and in that manner several were left with their heads above ground, and others covered with dust and earth, by the people who remained in the place. It was a sad sight to see the harbour covered with dead bodies of people of all conditions, floating up and down without burial, for the burying place was destroyed by the earthquake which dashed to pieces tombs, and the sea washed the carcasses of those who had been buried out of their graves. At Green Bay there is still the tomb of Lewis Galdy who, according to the inscription thereon, "was swallowed up by the earthquake, and by the providence of God was by another shock thrown into the sea and miraculously saved by swimming until a boat took him up. He lived many years after in great reputation, beloved by all who knew him and much lamented at his death."

As terror after the earthquake subsided new houses were erected and the place under the privateering system of the time, began again to flourish, but in the beginning of year 1703 a fire broke out at one of the crowded warehouses where a quantity of gun powder was deposited and in a few hours the whole town was in flames. With the exception of the Royal Forts and magazines not a building was left.

Notwithstanding these occurrences a number of persons who had left Port Royal returned to it and began its re-establishment. New houses were built and trade began to be restored; but on the 22nd August, 1722, a storm passed over the town which swept the greater portion of the buildings into the sea and destroyed a number of lives. Of

fifty vessels which were in Port Royal Harbour on that day four men-of-war and two merchant ships alone rode out the storm, but with all their masts and booms blown away. This further calamity was in time forgotten and Port Royal was again crowded with houses and enriched by the profitable trade caused by the war which Great Britain was then engaged.

In 1779 Nelson was in command at Fort Charles, when the island was in a critical state through fear of invasion.

In 1816 on the 13th July, about mid-day, a fire broke out which in a few hours destroyed nearly the whole of the town, including the naval hospital; and left many of the inhabitants utterly destitute. A subscription was set on foot for their relief, which was liberally responded to, Kingston alone subscribing eleven thousand pounds. Since the occurrence of the fire the town has ceased to be a commercial centre and Port Royal for several years was of importance only as a naval and military station. Its importance in this respect has, however, been much reduced by the recent abolition of the naval yard and the removal of the Commodore from the station. Victoria Battery and other parts of Port Royal were much injured in the earthquake of 1907.

The naval hospital, which is now in charge of the Military Authorities, is a very fine building, built of iron and stone and is 380 feet long and 57½ feet broad. It can accommodate about 130 patients in the upper portion, and the ground floor, which is available for use in the event of any emergency arising, will accommodate about half as many more. A yellow fever hospital, added by Dr. Thomas Colan, as Deputy Inspector General, in which yellow fever cases could be isolated and treated was damaged in the earthquake and has since been demolished.

Port Royal has always hitherto been considered important as a naval station. As recently as the American war and the French occupation of Mexico the fleet on the North American and West Indian station numbered some twenty-five ships, a goodly portion of which were constantly calling at Port Royal to coal, to obtain fresh provisions and to re-fit and the Archduke Maximilian on his way to Mexico was met there by eleven ships-of-war.

A line of piping has recently been run between Rock Spring connecting the supply with that of Up-Park-Camp which does away with the constant pumping operations at Rock Spring, which is resorted to on occasions when the supply at Camp is limited.

The place is generally reputed to be healthy, although as a matter of history epidemic of cholera, small-pox and yellow fever have occurred there. At one time Port Royal laid claim to be regarded as a sanitarium or marine resort, but owing to the want of house accommodation and other causes the people of Kingston do not now resort to it for change. In the church is a monument by Roubiliac. The streets of the town were first lighted by electricity in April 1920. In 1911 the population was 1,268; 748 males and 520 females. In 1921 it was 1,004; 516 males and 488 females.

#### ST. ANDREW.

This parish was originally called Liguanea, and the name still lingers round the plain. It now consists of what before the passing of Law 20 of 1867 comprised the parish of Port Royal and the parish of St. Andrew, less the parts known as Smith's Village, Hannah's Town, Fletcher's Town and the Town of Port Royal. There are no towns in St. Andrew and the principal villages are Halfway Tree, Gordon Town and Stony Hill, while a large settlement of villa residences has recently sprung up round Cross Roads where a market has been erected.

Halfway Tree, which is situated about three miles from Kingston, derives its name from a cotton tree dating from the conquest, which as late as 1866 stood at the intersection of four roads from Passage Fort to Stony Hill, and Spanish Town to Gordon Town, near the church. It is the head court station of the parish and has a post and a telegraph office, and a revenue office. It is also centrally situated in regard to the residences of the higher officials of the colony and of some of the leading merchants of Kingston. There is a market, a structure of iron and wood, which dates from 1881. The parish church, which was built in the reign of Queen Anne, has been enlarged and renovated from time to time at considerable cost. It was much damaged by the earthquake of 1907, but has since been restored and enlarged. The original church stood on the old burial ground between King's House and the Constant Spring Road. There are some interesting memorial slabs and stones in the church and churchyard. There is a good monument inside the church to James Lawes, son of Sir Nicholas Lawes, once Governor of the island, by John Cheer: monuments also to General Villetes, commander of the forces, to Admiral Davers, to Zachary Bayley and to Sir James Fergusson killed in the earthquake of 1907, whilst Lieutenant-Governor Rushworth, and Christopher Lipscomb, Bishop of Jamaica are

commemorated in the churchyard. In the centre of this village stands a clock tower erected in 1913 in memory of Edward VII. Not far from Halfway Tree is situated King's House (rebuilt since the earthquake of 1907: Sir Charles Nicholson, Architect) the official residence of the Governor of Jamaica; and there is a large hotel at Constant Spring, three miles distant. Between Half way Tree and Gordon Town on the Hope land are the Government Experimental Plantations with the office of the Director of Agriculture, the Island Chemist's Laboratory, the Farm School and the head works and reservoirs of the Kingston and Liguanea Water Works. The buildings of the Jamaica College stand on a portion of the lands. The cars of the West India Electric Company run between Kingston and Halfway Tree, and between Halfway Tree, Constant Spring and Hope Gardens.

There are two social clubs, the Liguanea, between Halfway Tree and Cross Roads, and the St. Andrew by Cross Roads. At both lawn tennis is a great attraction. At the former there is a golf course. There is another course at Constant Spring. By Cross Roads is the Nuttall Memorial Hospital opened in 1923, (Mr. S. C. Henriques, Architect).

Gordon Town is distant about nine miles from Kingston, in a north-easterly direction, and contains a constabulary station, a court house and a post office and telegraph station. A little further up, at the foot of the hill leading to Newcastle, is a picket house in connection with the cantonment at that place.

The detachment of British Infantry (before its withdrawal from Jamaica in 1905) was stationed at the military cantonment at Newcastle on one of the spurs of the Blue Mountain Range. It is situated 3,974 feet above the sea amid charming scenery and in a very healthy climate.

Stony Hill is situated about ten miles from Kingston on the main road leading to Annotto Bay. The buildings at this place which formerly constituted the military barracks are now used for the purposes of a Boys and Girls Industrial School.

Up-Park Camp Barracks about 1½ miles north of Kingston, contain the headquarters of the West India Regiment and the Brigade and other military offices and a chapel. The situation of this place is admittedly healthy and a constant sea breeze blowing over it makes the hottest days endurable. There is a splendid view of the harbour to be obtained from those barracks, which consist of parallel lines of buildings, two stories high. Most of them have been reconstructed since the earthquake of 1907. There is a Garrison Chapel, a hospital for the troops and a swimming bath of running water. The quarters of the field officers are separate buildings, each standing in its own compound.

On the northern boundary of Kingston are the Mico Training College—which was wrecked by the earthquake, rebuilt, later destroyed by fire, and again reconstructed—and Wolmer's Schools removed from Kingston in 1908.

Of the introduction of coffee into the island in the year 1778 it was planted in this parish, of which it has ever since been the principal production. The coffee grown in St. Andrew especially in the higher altitudes commands a high price in the English markets. The properties were much damaged by the floods of 1909. In 1837 there were as many as one hundred coffee plantations in the parish but the number is now considerably less. The Government established, many years ago, a Cinchona Plantation at Bellevue, some 5,000 feet above the level of the sea, and the cultivation of Cinchona was carried on by private proprietors, considerable tracts of crown lands being purchased under the very favourable terms conceded by the Government with a view to the encouragement of cinchona planting. Owing, however, to the heavy fall in the price of bark the cultivation was discontinued and the exportation ceased. The cultivation of tea was taken up at the Government Cinchona Plantation but was not a success. The cultivation of tobacco is carried on principally at Temple Hall where it is conducted by Cubans. Bananas, pine apples and oranges are also productions of this parish. The area of the parish is 166 square miles. Resident Magistrates' Courts and Petty Sessions Courts are held at Halfway Tree, Gordon Town and Stony Hill. There is a house to house post office delivery in part of lower St. Andrew twice daily.

According to the Census of 1911 the population of St. Andrew was 52,773; 24,861 males and 27,912 females. In 1921 it was 54,598; 24,717 males and 29,881 females.

#### ST. THOMAS.

The parish of St. Thomas, which now embraces the old parish of St. David, is one of the oldest parishes in the island. It may have been named after Thomas, Lord Windsor, Governor in 1662. It was settled by the Spaniards and was thus described by General Venables of the army of occupation in 1655: "Morante is a large and beautiful hato,

being four leagues in length, consisting of many small savannahs and has wild cattle and hogs in very great plenty, and ends at the mine, which is at the cape or point of Morant itself, by which towards the north is the port of Antonio."

In respect of physical beauty this parish ranks high in the island. The sugar estates and banana plantations in the Plantain Garden River district present a pretty view when seen from the eminence above them called Quaw Hill. From this point to Port Antonio the whole district was once covered by flourishing sugar estates but is now utilized largely for banana cultivation. There are still two large Sugar Estates in cultivation in the parish, Albion and Serge Island where a dam, recently constructed on the property, supplies electricity for the factory. Recently a Sugar Factory has been established at Monklands, an old coffee plantation.

One of the oldest of Sugar Estates, now established in bananas is Belvedere, the original proprietor of which, Robert Freeman, was the first speaker of the House of Assembly. A Central Sugar Factory was opened at Golden Grove in 1926.

There are three important rivers in St. Thomas, namely, the Yallahs, Morant and Plantain Garden rivers, which when swollen by heavy rains, become formidable torrents and are quite impassable. Of late years additional bridges have, however, been built in the parish. The Morant Point Light House (erected by Sir George Grove better known in connection with music) stands at the east end of the island in this parish. The principal towns or villages are Morant Bay, Port Morant, Easington, Bath, Yallahs Bay, Trinity Ville, Cedar Valley and Seaforth.

Morant Bay is the chief town and shipping port and is noted as being the principal scene of the disturbances of 1865. Nearly all the public buildings were then burnt down.

The town now contains a public general hospital, an alms house, a public works office, a court house, a constabulary station, a post office and telegraph station, three banks, an Episcopal church and Wesleyan and Baptist chapels, a market and a system of Water Works. Morant Bay is an open roadstead and the only danger in approaching the anchorage is Galatea Rock which has only 16 feet of water over it. As the soundings shoal gradually, vessels of any draught can anchor at Morant Bay. There are five fathoms of water within three cables of the beach.

Port Morant, lying seven miles eastward of Morant Bay, was formerly a shipping port of great importance. It is a very secure harbour, and vessels can, as a rule, leave as well as enter with the regular trade wind. The village of Trinityville, about 10½ miles from Morant Bay, is a populous and thriving place.

Bath is a populous village having a large number of dwellings, an Episcopal church and a Wesleyan chapel. A sulphurous hot mineral spring (of which an account is given in another portion of this work) is situated a little above the village. The original Botanic Garden of the island is in the village itself and is still maintained for the sake of its valuable trees and plants and for the propagation of cocoa. There are an Episcopal church (originally built in the 17th century) and Wesleyan and Baptist chapels at Yallahs Bay; and in the vicinity are two large salt ponds, which supply an abundance of fine fish and are a source of livelihood to the villagers.

Easington which is in the interior of the parish, was the capital of the parish of St. David before it was merged into that of St. Thomas-in-the-East. There is a steel girder Bridge over the Yallahs river at Easington. Golden Grove is a collection of stores on the estate of that name, on which there is also a small Episcopal church, market, Cable Office and Post Office.

The area of this parish is 274 square miles. According to the Census of 1911 the population of the parish was 39,350; males 18,873, females 20,457. In 1921 it was 42,501; males 20,508, females 21,993.

#### PORTLAND.

A lengthy essay on the Natural and Political History of Portland, by Andrew Gregory Johnston, was published in the "Literary and Scientific Journal" in 1848, having won one of the prizes of £50 offered to each parish of the island by the Government for the best account of such parish. This parish was named after the Duke of Portland, who was governor of the Island at the date of its formation. It includes the old parish of St. George and part of St. Thomas, from which it was originally taken in 1723 in accordance with proposals made by Sir Nicholas Lawes, a former Governor, for revesting in the Crown Lands in the north-east of the island to be made available for intending settlers from the Virgin Islands. It extends from the sea coast to the highest peak of the Blue Mountains and is noted for its fertility and the beauty of its scenery.

In 1732 it was decided to send a doctor to Port Antonio to look after the people there. Port Antonio has two of the finest and securest harbours in the island. The western

harbour is sheltered by a small islet, now called Navy Island (formerly Ruthers or Lynch's island). The entrance has been widened to suit the conveniences of large vessels which can lie alongside its wharves. Port Antonio is divided into Upper and Lower Titchfield. Upper Titchfield stands on a peninsula (formerly known as Patterson's Fort and Point) and contains, beside the residences of the gentry, Fort George, the old military barracks (dating from 1733), which have been converted into a school managed by a Local Board, the Titchfield School Board, financed by the Titchfield Trust, under the Jamaica Schools Commission. Lower Titchfield, or Port Antonio proper, extends along the sea-shore where the stores, wharves, court house and gaol are situated. The Episcopal church stands conspicuously in the lower portion of the town at the south-east end.

There is a light-house on the Folly Point at the entrance of the harbour, which is a great aid to navigation. The A. G. A. lamp which was erected in 1916, to replace a lamp first erected in 1888, shows a flashing white light which gives a flash of 2 seconds duration followed by 8 seconds darkness, visible 13 nautical miles over an arc of 153° and is a 4th order dioptric. Port Antonio is supplied with very good water by means of pipes from a stream at Red Hazel, the reservoir being only a mile and a half from the town. The supply has been improved by the erection of a reservoir of 10 millions gallons capacity, and the use of mechanical pressure filters, the first of the kind to be used in the island. These improvements cost nearly £7,000. Port Antonio is a very favourite place with Americans. The Hotel Titchfield, which was totally destroyed by fire in January, 1910, was rebuilt during the same year and extended in 1911, to accommodate 250 guests.

There is a large and handsome Town Hall. The lower storey contains the offices of the court and parochial offices and the upper storey forms a town hall and court room. Market buildings were completed in Port Antonio, one on either side of West Street in 1885 and a square has been thus provided and laid out in palms. The revenue office erected in 1886, was blown down in the hurricane of 1917 and was re-erected as a one storey building. The extension of Port Antonio was previously retarded by the fact that all the lands in the immediate vicinity of the town are the properties of the Titchfield Trustees and the United Fruit Company. A law was passed giving power to sell the Titchfield lands, but it has not been thought advisable to put it in force. The Trustees have, however, realized the possibilities of the land, and have filled up the swampy portions, joining the Government and the Parochial Board in constructing concrete cement drains, also laying out new roads, and leasing the lands on easier terms. Five acres of these lands have been leased by the Parochial Board, who have laid it out as a Park and Pleasure Ground, called the Olivier Park, after a former governor, who opened it in 1904. The Port Antonio Cricket Club have also leased eight acres of the swampy land, reclaimed it and converted it into one of the best recreation grounds in the island. An American gentleman also purchased a property called the Folly, adjacent to these lands and expended a considerable sum in erecting the first reinforced concrete building here, filled the adjacent swamps, and laid out the ground as a beautiful private park. Over £3,000 has been expended in recent years in improving the streets and laying concrete drains. Most of the residences, and all the streets and public buildings are lighted with electricity. The almshouses are at Prospect. The population of Port Antonio has increased from 1,784 in 1891 to a little over 7,000 at the census taken in April 1911.

The fruit trade, which was opened up in Portland in the year 1868, made Port Antonio a town of considerable importance, and the parish of Portland one of the wealthiest communities in the island. Fruit cultivation is the business of the large proprietor as well as the peasant, and the shipment of fruits constitutes the great bulk of the trade of the port. Port Antonio is chiefly interested in the fruit business, several shipping companies having offices there. The United Fruit Company own a large acreage of land in the parish.

The Maroon settlement, called Moore Town, is nine Miles from Port Antonio on the banks of the Rio Grande, which is the second largest river in the island, but on account of the rapids formed by the hilly nature of the country through which it runs it is of no use for navigation.

St. Margaret's Bay is a thriving village of the west of the Rio Grande and on the railway line between Kingston and Port Antonio; it contains a substantial Episcopal church and carries on an extensive business in fruit. There is a police station and the United Fruit Company have constructed a fine wharf here, and also at Hope Bay, a village lying a little further west. Hope Bay contains an Episcopal church, about 500 inhabitants, a Wesleyan church and a Constabulary station.

Buff Bay was the chief town of the old parish of St. George, it lies between the Spanish

River and the Buff Bay River and is on the railway line between Kingston and Port Antonio. This town contains a fine Episcopal church, and Wesleyan, Baptist and Roman-Catholic chapels, a court house and town hall, a public general hospital, a constabulary station, a telegraph station and a market. Buff Bay is a rising and prosperous place, and is an important centre of the fruit trade, and there are two wharves, but owing to the exposed character of the coast they are only available in fair weather. At times during the "northers" the coast is unapproachable by vessels. About two miles out of the town, on one side of Buff Bay river, lies a township of the Maroons called Charles-Town. From Spring Garden east of Buff Bay river, going up the Spanish River Valley for four-and-a-half miles at Chepstowe there is a very fine waterfall known as "Fish-done." On Spring Garden are the ruins of an old fort constructed to repel the buccaners. There are at Low Layton 105 feet above sea-level, the remains of an extinct volcano. The Rio Grande, Buff Bay, Spanish, Swift and White Rivers which formerly presented formidable obstacles to the traveller during the rainy seasons, have now been bridged. The bridge over the Rio Grande is the longest in the island, the iron work alone being 480 feet in length, in six spans of 80 feet each.

Manchioneal lies on the north-eastern coast of the island; it is become of some importance since the fruit trade has been established. In the town are an Episcopal church a Wesleyan chapel and a court house. Its principal exports are bananas and coconuts. The harbour, situated at the southern extremity of a coconut plantation, is very small; the entrance is only about half a cable wide and leads to an anchorage close off Shift-Point, barely exceeding one cable in diameter. From the anchorage to the southward is a narrow well-protected haven for small vessels. Manchioneal was the scene of some of the exploits of 'Tom Cringle,' recorded in his Log; and the Great House on Muirton is said to be one to which he was taken on his arrival from Cuba with yellow fever.

Darlingford, an extensive coco-nut plantation belonging to the heirs of Sir Charles Darling, a former Governor of Jamaica, stands around the village of Manchioneal.

There are great demands for lands with roads to them, especially by the small cultivators in the parish, owing to nearly all the large land-owners needing their lands for their own purposes, and steps are being taken to open up new roads, some of which will give access to Crown Lands. Strong representations have been made for providing more roads to open up the thousands of acres of fertile land so as to increase the output of the small cultivators.

The area of the parish is 285 square miles. According to the census of 1911 the population of the parish was 49,360; 24,843 males and 24,517 females. In 1921 it was 48,970; males, 23,750 and females 25,220.

#### ST. MARY.

This parish was probably called after the Spanish port, Santa Maria. It includes the late parish of Metcalfe, as well as a part of the old parish of St. George, and possesses a great variety of agricultural resources, combined with much that is interesting from a geological, as well as a physical point of view. Nearly every product of the colony can be produced in it, although the supply of labour is very precarious, necessitating the somewhat extensive employment of East Indian immigrants. The roads, owing to the natural formation of the soil and the heavy traffic they are called upon to carry are difficult to keep in good condition. The copper mines at Job's Hill and the ferruginous springs of Newport only require easy means of access to become useful. The parish is exceptionally seasonable and is intersected by large rivers. The climate on the upland plains is warm and humid and vegetation is rapid; while in the hills it is cool though moist. Generally speaking, the climate is healthy, the prevailing sickness being intermittent fever unattended with much mortality. The chief products are bananas, oranges, logwood, fustic, pimento, cocoa, coffee and coconuts and sugar (manufactured chiefly by the small settlers). Copra and coconut oil are also manufactured in fairly large quantities. The banana cultivation is considerable, and the exports of the fruit exceed those of any other parish in the island.

The parish has three considerable towns, namely: Port Maria, Annotto Bay and Oracabessa, the last named having come into prominence as the result of the banana trade and of its good harbour. There are also in the parish several thriving villages and out bays; the chief of the former being Highgate, Hampstead, Gayle and Richmond and of the latter Salt Gut and Rio Nuevo.

The chief town and shipping port is Port Maria, situated somewhat nearer the western, than eastern end of the parish with a fairly good harbour, its complete exposure to "northers" being broken by Cabaritta Isle, which acts to a certain extent as a natural

breakwater. Port Maria contains a public general hospital and an alms-house, a church, a kirk, a Baptist chapel, a Wesleyan chapel, a court house, a fine market, a post office and telegraph office and a government elementary school. The municipal buildings which are very substantial and commodious, being built of stone, were erected out of the bequest of Thomas Manning. They contain the town hall, the court house and offices, the revenue and parochial board offices and the constabulary station. The St. Mary poor house at Simpson Hill,  $1\frac{1}{4}$  miles from the town built in 1896, at a cost of £4,200 has accommodation for 120 inmates and the staff. There are also several fine stores, seven wharves and a comfortable hotel. The Victoria Park opened in commemoration of Queen Victoria's Jubilee, is in the old parade ground next to the church. Gray's Charity is on Fort Haldane, where evidence of its Military uses in the past still exist, in the vicinity of, and possessing a commanding view of the town and harbour. Here a substantial building has been erected for the inmates connected with the charity. A supply of wholesome water is afforded the town by works constructed in 1886, and subsequently improved and extended. There is an organized fire brigade. There are social, tennis and cricket clubs.

Annotto Bay, on the railway line between Kingston and Port Antonio, is situated on the eastern side of the mouth of the Wag Water river (a corruption of *Agua alta*) and is distant about sixteen miles from Port Maria and thirty miles from Kingston, from which it is approached by what is termed the junction road. The town of Annotto Bay is intersected by three sluggish rivers which create swamps in the neighbourhood and render it, at certain seasons of the year, unhealthy; but the inhabitants on the whole enjoy tolerably fair health and longevity. It is a considerable shipping port, especially for logwood and bananas, the shipment of which is greatly facilitated by the recent construction of a railway to the siding at the sea beach. The town contains a public general hospital and alms-house, a court house and constabulary station, post office and telegraph office; also a fine large church at the eastern end of the town, Baptist and Wesleyan chapels and a government elementary school. The Maroon Town of Scott's Hall is situated on the junction road behind Castleton Gardens, 11 miles from Annotto Bay and 19 miles from Kingston. The parochial board in the year 1910 furnished the town with a fine and abundant supply of water, meeting the cost, nearly £5,000, entirely from its own resources. The reclaiming of the swamp lands is receiving attention. There is an organized fire brigade. There is a central sugar factory at Gray's Inn near Annotto Bay.

Oracabessa (Golden Head), situated eight miles west of Port Maria on the main road to St. Ann's Bay, has a safe little harbour, and is visited by steamers for bananas. It has a post and telegraph office, several small stores and wharves, a Baptist and a Wesleyan chapel and schools and a police station. The town is considered healthy and is visited as a health resort.

On the western side of the Gayle estate, is the village of Gayle. It contains a post and telegraph office, a market, pound and constabulary station, a church and a school. The court house a mile away was destroyed by the earthquake in 1907, and the local courts are now held in rented premises.

The village of Highgate is eight miles from Port Maria on the main road to Richmond. Owing to the proximity to the railway station at that place, and being within a mile of the recently constructed railway siding it has made considerable progress within the past few years. There are a market, a number of shops, a post and telegraph office, a church and an elementary school.

The village of Richmond (Meek Spring) sprang into existence as the result of railway extension. Upon its selection for a railway station, many stores, shops and residences were erected, and now Richmond is a populous and thriving centre in which a large volume of business connected with the fruit trade is transacted; there is a court house and constabulary station, a post and telegraph office, a market, a pound and a social tennis club.

It was near Rio Nuevo Bay that the last Spanish governor of Jamaica, Ysassi, built a fort when he attempted to re-conquer the island. The fort having been captured by the English, Ysassi escaped and left the island from Runaway Bay in St. Ann.

The chief rivers from east to west are the Dry river, Annotto river, Wag Water, Antrim river, Oracabessa river, Rio Nuevo and White river; there are also White Hall river, Haughton, Tiber, Flint and Pencar rivers, all of which are now bridged.

The area of the parish is 249 square miles. According to the census of 1911 the population of the parish was 72,953—37,523 males and 35,433 females. In 1921 it was 71,404—males 35,157 and females 36,247.

## ST. ANN.

This parish has hitherto been supposed to have been named after Ann Hyde, wife of James II; but the name really dates from the days of the Spaniards. It is the largest parish of the island and has been appropriately designated "The Garden of Jamaica." "When Columbus," says Bryan Edwards, "first discovered Jamaica he approached it "on the northside, and beholding that part of the country which now constitutes the "parish of St. Ann he was filled with delight and admiration at the novelty, variety "and beauty of the prospect." Hill, in his "Lights and Shadows of Jamaica History," thus writes of the parish, "Earth has nothing more lovely than the pastures and pimento groves of St. Ann:—nothing more enchanting than its hills and vales, delicious in verdure and redolent with the fragrance of spices. Embellished with wood and water, from the deep forests, from whence the streams descend to the ocean in falls, the blue haze of the air blends and harmonizes all into beauty."

St. Ann's Bay, the "Santa Gloria" of Columbus, is a town of some importance, in which considerable trade is carried on. It contains an Episcopal church, a Wesleyan chapel, a Baptist chapel, a Salvation Army Hall, a court house, a public general hospital, a post office, a telegraph station, a good hotel and movie theatre. There is a fine market, and an excellent water supply obtained from the Roaring River. A war memorial has been erected in this township. The old vestry and slave records of the Board Office, now in the Jamaica Institute, provide interesting reading of by gone days. It does a large shipping trade, to which trade the regular steam communication between the United States and Jamaica has been a great incentive. Two miles to the westward of the town are the poor houses. Fine sea-bathing can be obtained at the Dunn's River sea-beach, four miles out from the town and at the Drax Hall Cove. The scenery between St. Ann's Bay and Ocho Rios is unrivalled, especially from Belle Vue, situated midway between these points.

Not more than a mile to the west of St. Ann's Bay is the site of the first capital of the island, "Sevilla Nueva" or "Sevilla d'Oro," as it was afterwards called. This town was founded by Juan de Esquivel, the first Spanish Governor of Jamaica, he having been commissioned and sent over by Diego Columbus (Christopher's son) the hereditary Viceroy of the New World, to establish a colony there. Esquivel arrived in Jamaica in November, 1509, accompanied by a number of the Viceroy's friends. Bringing with them the refinements of taste and the means of displaying it, they assisted in the foundation of Sevilla Nuevo, whose fame long attested its superiority over every other town which has since been built here." The town contained many buildings worthy of note, amongst which were a monastery, a cathedral, a theatre and many places. Sevilla did not long, however, continue the capital, having been abandoned for St. Jago de la Vega. Various reasons for the change have been given; some say that it was owing to the Spanish inhabitants of Sevilla having in their wars with the natives been suddenly and entirely cut off, and others assigned the desertion to a "visitation of innumerable ants" that destroyed all the provision grounds of the people and compelled them to find a home elsewhere. Bridges, attributes the abandonment to the depredations of the French filibusters, and states that "the northern coast of Jamaica afforded frequent spoils to this bold band of corsairs." As a matter of fact they found it unhealthy. To the eastward of St. Ann's Bay, at Drax Hall estate there is a narrow cove described in the maps as Don Christophher's Cove, where Columbus on his fourth and last voyage to the West Indies is supposed to have stranded his two remaining vessels. Priory contains the remains of an old English church. Midway between St. Ann's Bay and Ocho Rios are the Roaring River falls, the largest in the island; the scenery there and at Belle Vue overlooking Roaring River with its magnificent sea view, and for some miles round is much admired by visitors and is well worth a visit. Application to the gate keeper of Roaring River and the payment of a small fee for keeping the road in repair will always ensure permission to view the falls, and a guide can easily be obtained. The power available from this splendid water fall has not yet been taken advantage of but is one of the dormant assets of the colony, awaiting capital and enterprise.

Colonel Charles Drax left a sum of money and a claim on his estate for founding a free school, which was held for a time at Walton, near Moneague. In 1885 this was, by law, merged in the Jamaica High School (now Jamaica College) at Hope, in St. Andrew and a certain number of Scholarships provided for St. Ann's boys.

Fonthill, once the property of William Beckford (now attached to Drax Hall), was named after Beckford's property in England, Fonthill Abbey.

Ocho Rios, formerly called "Chereras," the "Bay of the Waterfalls," lies about seven miles to the east of St. Ann's Bay. The town is increasing in importance and the har-

bour, which is easy of approach, affords good shelter for vessels. For this reason and on account of the facilities in the way of getting good water at the Sailor's Hole and provisions, Ocho Rios was at one time very frequently visited by British Warships for the purpose of giving leave to the crews. Near the town is Shaw Park estate where there is an ice machine and refrigerating establishment and where Ysassi, the last of the Spanish Governors, had pitched his tent. He was discovered and pursued by the British troops, but subsequently escaped in a canoe to Cuba, from a spot about ten miles from St. Ann's Bay, which has since been known as Runaway Bay. Ocho Rios has an Episcopal church, Wesleyan and Baptist chapels, a post office and telegraph station, a market, court house and police station. On the way to Moneague the road runs through the celebrated Fern Gully. The Cascade Falls, 4 miles from Ocho Rios, are worthy of note. The Bogue and Belmont properties near Ocho Rios, with the river running down through both properties, are worth seeing.

Brown's Town is the largest of the rural townships of St. Ann, and is situated in the western interior part of the parish; it contains an Episcopal church and the Diocesan High School for girls, recently erected from the design of Major Caws, a Wesleyan chapel, a Baptist chapel, an Evangelist tabernacle, a court house, a government elementary school, a police station, a market called the "Norman Market," with a clock tower, in which is a clock presented by Sir Henry Norman and the Addison Park.

There is a Corn Meal Factory that provides for the consumption of native grown corn and has enhanced the value of this product. It possesses a large reservoir that provides for the inhabitants of this dry district a constant water supply in the most severe droughts. The Diocesan High School for Girls here is now one of the foremost educational institutions in the colony, and there is also a secondary school for boys.

Dry Harbour, so called on account of there being no fresh water stream or well there, is a town increasing in trade and prosperity and the harbour affords excellent shelter for vessels. It was at Dry Harbour that Columbus landed and took formal possession to the island. There are some very large caves about a mile-and-a-half from the village at Dairy that are often visited by tourists and are well worth the trouble which is necessary to thoroughly explore them: a guide can always be obtained at Dry Harbour or Runaway Bay, but permission must first be obtained from the owner of the property, Miss Raffington. There is also a large lagoon near by. There is a banana fig factory here. Subterranean springs discharge along this coast.

In the Dry Harbour Mountains there is a fine underground stream (probably the Cave River) flowing through a natural tunnel which can be explored for a considerable distance. At Cave Valley there is a thriving market and a police station. At Moseley Hall in the south-eastern corner of the parish there is a very fine cave that used to be frequently visited and there are several smaller but not less interesting ones in other parts of the parish. The dry bracing climate of the Dry Harbour Mountains is in high repute.

In the Pedro Hills is Edinburgh Castle on which property is situated the "sink hole" where the murderer Hutchinson is supposed to have thrown down the bodies of all his victims. At Pedro River there is a market.

The village of Claremont, (formerly called Finger Post) is increasing in size and importance; it has an Episcopal church and Wesleyan and London Missionary Society chapels, a post office and telegraph station, a market, a police station and a clock tower. Above Claremont on the Pedro road is the Ramble tea estate the first and only extensive tea plantation and factory in the West Indies.

Moneague, ten miles from Ewarton, is situated in a cool and pleasant part of the parish; it has a court house, a police station, a post office and telegraph station and a market; a good produce business is done here. There is also a fine hotel on a commanding site. The building is a handsome and comfortable one, and situate as it is, in one of the most charming districts of the island, attracts visitors from the northern climates seeking to escape the severity of the winter. Here a lake of considerable extent is apt to appear from time to time and last for a year or more. It last rose in 1916 and disappeared in 1918. There is also a hotel at Holly Mount on Mount Diavolo whence very fine views are obtained.

St. Ann with its healthy climate affords good prospects for settlers with capital: the productions of this parish are principally sugar, rum, coconuts, pimento, and coffee. The cultivation of bananas is extending, and the soil is suitable for citrus fruits. Pimento, the "all-spice" of commerce, grows luxuriantly in St. Ann in which it is indigenous, and cattle rearing is one of the chief industries of the parish. Coffee is extensively cultivated and sisal does well in the dry parts.

The area of the parish is 476 square miles. According to the census of 1911 the population of the parish was 70,651; 34,024 males and 36,627 females. In 1921 it was 70,922, males 33,190 and females 37,732.

#### TRELAWNY.

This parish derives its name from a former governor of the colony, Sir William Trelawny, who died in Jamaica in 1772. It was taken out of part of St. James in 1770. The principal towns are Falmouth, Stewart Town, Duncans, Clark's Town and Ulster Spring.

Falmouth is a town of considerable importance, and is more regularly laid out than any other town in the island, except Kingston; the streets are wide and clean and the public buildings are substantial and handsome. The court house, a building erected in the days of Jamaica's extravagance, is lofty and spacious and affords accommodation for all the parochial and judicial offices. It contains full length portraits of General Sir John Keane, lieutenant governor from 1827 to 1829, and of Sir Charles Theophilus Metcalfe, governor from 1839 to 1842. The other public buildings are the former district prison, now used as constabulary barracks and alms house, and the public general hospital. The episcopal church, the Wesleyan chapel and the Kirk are all good buildings and well situated. The spacious Baptist chapel was erected under the auspices of William Knibb who played an important part in Trelawny both before and after emancipation. His body lies in the Baptist church yard. The military barracks now used as the Falmouth Government School, are spacious, solid buildings, and are capable of accommodating 700 men; they have always been regarded as being particularly healthy. The town is supplied with water from the Martha Brae River, it is conveyed to a reservoir built in the market square, from which the inhabitants are supplied by pipes laid down to their houses or by means of carriers employed for the purpose. There is a market in the square, and a park called Victoria Park to the west of the town.

The entrance to the harbour, which was difficult of access owing to a very narrow and intricate channel, has recently been widened and deepened. The depth of water in the harbour is ample and there is accommodation for a number of ships or steamers of large size.

Martha Brae, one-and-a-half miles inland from Falmouth, is supposed by some to have been the site of the old Spanish settlement of Melilla, which was abandoned soon after its establishment owing to the depredations of the French filibusters. The secret gold mine of the Spaniards is said to be in its neighbourhood.

Clark's Town, ten miles from Falmouth is the next largest town in the parish, and is becoming important by reason of its central position. There is a good trade in produce here, and the ground provisions from Ulster Spring are nearly all sold here. There is an Episcopal church, a Baptist church, a post office, a dispensary, police station and a court house.

Stewart Town is the centre of a considerable trade in produce from the interior of Trelawny and the neighbouring parishes. It contains an Episcopal church and spacious chapels of the Wesleyan and Baptist denominations, a post office and police station; and there is a high school for girls at Westwood, hard by. The new Webb memorial church makes a good addition to the town.

Duncans is a town not very distant from the sea coast in which a brisk trade is carried on. There is a post office, telegraph station and police station, court house and Wesleyan and Baptist chapels.

Rio Bueno was once an important shipping roadstead. A plentiful supply of water can be obtained a short distance up the river. It contains an Episcopal church, a telegraph office, police station and a Government School. There are other villages in the parish of some importance, namely: the Rock, Salt Marsh, Jackson Town, Wakefield, Deeside, Sawyers, Ulster Spring and Albert Town. The last named has become a place of importance. The land is very fertile and there are numbers of prosperous small settlers in the district. There is a large Baptist church at Spring Garden in the immediate vicinity. There are also a Wesleyan chapel and a Baptist chapel, court house, police station and telegraph office at Ulster Spring. Large schoolrooms are attached to each of these places of worship and are well attended by the children of the peasantry. There is a constabulary station and a telegraph office and a cottage hospital in this district. Albert Town is also a place of some importance possessing an Anglican church and post office, and is growing in importance.

The productions of this parish are principally sugar and rum, pimento, coffee, coconuts and ginger and a large quantity of dyewoods and some bananas. The parish is noted for its fine flavoured rums, the prices obtained for which enabled many of the estates

to keep up cultivation in spite of adverse seasons when the price of sugar did not re-pay the cost of production. The estates have all along and still have a comparatively good supply of native labour. By the in-givings of 1837 Trelawny contained 76 fine sugar estates, two coffee plantations and several pens and settlements. It was then said that the parish produced more sugar than any other parish in the island. The cultivation of bananas was considerable. The parish offers fine scope for the operations of sugar factories, three of which are now in operation. The area is 332½ square miles. According to the census of 1911 the population of the parish was 35,463; 16,432 males and 19,031 females. In 1921 it was 34,602; males 15,954 females 18,648.

There are 125 miles of main roads and 309 miles of parochial roads in the parish.

#### ST. JAMES.

This, one of the smaller parishes of the island, was named after the Duke of York (afterwards James II), Montego Bay, the most important town in the parish rank next to Kingston and Port Antonio in point of population. The chief buildings in the town are the court house, the Episcopal church, with the monument to Rosa Palmer by Bacon, and Trinity chapel, the Presbyterian church, the Roman Catholic church, the chapels belonging to the Wesleyan and the Baptist denominations, the custom house and the old barracks. The terminus of the railway line from Kingston is at Montego Bay.

The sanitary condition of the town has been much improved by the filling up of the swamp adjoining the creek, which had been a nuisance of long standing. There is a large market, and extensive mercantile stores indicate the commercial importance of the town. Montego Bay was called "Manteca Bay" by the Spaniards from its being the great emporium for lard. Sir Hans Sloane states that the boiling of swine's flesh into lard constituted the early commerce of the place. The bay is an open roadstead and the anchorage is quite safe during the period of the ordinary land and sea breezes which range from N.N.E. to S.E.; but between November and March, when northers sometimes blow in, accompanied by a heavy sea, a second anchor is sometimes necessary and accidents have been known to occur. Sea-bathing is a great institution at Montego Bay, the inhabitants claiming that the "Doctor's Cove" and the White Sands are the best bathing places in the island. The town has a supply of excellent water. There is an ice factory and a telephone system in the town, which is lighted by acetylene gas.

The surrounding hills are dotted with fine residences, some of which like Grove Hill (mentioned in "Tom Cringle's Log") have historic interest.

The late Spring Hill Hotel, overlooks the Bay and is now attached to Pleasant Hill, the home of Cornwall College, with accommodation for boarders as well as day scholars.

The productions of this parish are principally sugar, rum, coffee and bananas.

At Ducketts, Seven Rivers, and Chesterfield, in a district of large rainfall, are considerable estates in banana cultivation, while the United Fruit Company have a large area under cultivation at Mocho, and Garlands near Catadupa station.

Cambridge now the second place of importance in the parish, owes its position entirely to the fruit cultivation in its vicinity.

The provision of a road from Catadupa station into the interior has immensely stimulated the development of a district rich in agricultural resources, while the land in the Montego Bay river valley is eagerly sought and rapidly rising in value.

There is a central sugar factory at Rose Hall. The area is 234 square miles. According to the census of 1911 the population of the parish was 18,767 males and 22,609 females. In 1921 it was 34,602; males 15,954 and females 18,648.

#### HANOVER.

Kingston and Port Royal excepted, this is the smallest parish in area in the island. When it was formed the Assembly wished to call it St. Sophia in honour of the mother of George I., but in this it was over-ridden by the Council, and the name was chosen with reference to the reigning family in England. The only town, Lucea, is one of the most picturesque of the towns of Jamaica. It contains amongst its principal buildings a handsome court house, Episcopal and Presbyterian churches and schools and chapels belonging to the Wesleyan and Baptist denominations and a market. The Episcopal Church is beautifully situated at the entrance of the fine harbour. The whole western shore of the landlocked harbour is fringed with houses and the hills above are studded with residences embowered in foliage which are fanned the live-long day with the pure, fresh sea-breeze. The harbour although of small dimensions, is one of the best harbours

on the north side of Jamaica. Its entrance is about three cables wide, but within, it sweeps round into a most picturesque basin, about three quarters of a mile in diameter, capable of receiving vessels of the largest size. The banana trade has attained to considerable dimensions here, while the export trade in yams to the ports of the island and the Isthmus is vigorously maintained. Fort Charlotte, which was built for the defence of the harbour, stands on the peninsula that overlooks the channel. In the barracks is kept Rusea's school, which affords secondary education for boys and girls. The former prison buildings are used as constabulary barracks and almshouse.

The village at Green Island further westward, is a shipping port in which are Episcopal and Presbyterian churches, and a Baptist chapel. Of recent years this township has witnessed considerable development chiefly of the banana trade.

On the other side of Lucea, about 8 miles eastward, Mosquito Cove is buoyed and is a port of call.

There are some very valuable grazing pens in this parish, of which the best known are Shettlewood, Burnt Ground, Knockalva, Haughton Grove and Sadler's Hall. A traveller who visited this property in 1866 wrote in a work subsequently published by him, that "the manager had introduced the Hereford breed and shewed grass-fed oxen of fine form and enormous size, which would attract admiration and possibly carry off prizes at the great English cattle shows." Shettlewood, Ramble, Haughton Grove, Burnt Ground and Chatacom Castle are amongst the other most valuable breeding pens in this parish. Shettlewood is now famous for its Indian cattle which are preferred by planters for working purposes to any other description, owing to their activity and hardihood as well as their immunity from the attacks of ticks.

The parish is mountainous and well watered, the highest summit is the Dolphin Head which affords a good land-mark for mariners.

The productions of the parish are principally bananas, sugar and rum, pimento, ginger and arrowroot. The peasantry are chiefly employed in planting ground provisions of which the Lucea yam enjoys a great reputation in the island.

The area is 167 square miles. According to the Census of 1911 the population of the parish was 37,432; 17,615 males and 19,817 females. In 1921 it was 38,360; males 18,046 and females 20,314.

#### WESTMORELAND.

Westmoreland was so called because it is the westernmost parish in the colony.

Savanna-la-Mar, the chief town, is one of the most important towns in the island in regard to the extent of its commerce. The chief places of worship are the Episcopal church, the Presbyterian church, the Baptist chapel and the Wesleyan chapel. Distributed through the parish are at least 20 large and substantial places of worship belonging to all the principal Christian denominations. The town is supplied with water from one of the numerous springs which rise from the Rock at Sweet River Pen, four miles distant. A drinking fountain and a horse trough were presented to the town by the late Mr. E. J. Sadler, a commodious new market was opened during 1892. There is also a telephone service and an ice factory. A reading room has been established and there is a Masonic Lodge and a Forrester's Court.

Contiguous to the town of Savanna-la-Mar is Manning's Free School, managed by a local Board under the Jamaica Schools Commission, which offers the means of obtaining a liberal education, and takes a good place amongst the educational institutions of the island.

The sad fate of Savanna-la-Mar in the hurricane of 1780 can never be remembered without horror. "The sea bursting its ancient limits, overwhelmed that unhappy town and swept it to instant destruction, leaving not a vestige of man, beast or habitation behind. So sudden and comprehensive was the stroke," says Bryan Edwards, "that I think the catastrophe of Savanna-la-Mar was even more terrible, in many respects, than that of Port Royal."

Besides Savanna-la-Mar there are Bluefields, Parker's Bay, Scott's Cove, and Negril as shipping places, and several small townships. Bluefields the site of the Spanish town of Oristan, was for a time the residence of Grosse the naturalist. The "Spanish road from Bluefields Bay to Martha Brae, by the head of the Great River," as Long wrote, is said to be still in existence.

Some 10,000 to 12,000 acres of the parish are morass lands, which however afford maintenance in dry weather to numbers of stock. Making allowance for this, fully three-fourths of the remainder of its area consists of hills of moderate elevation, amongst which many of the chief breeding pens are located, the remaining one-fourth being low lands of alluvial formation in which are situate the sugar estates.

A new police station constructed of stone has been erected on the Park Lands to replace that destroyed by fire in 1922, and a new Court House is also being put up at an estimated cost of £14,000.

Of late years an impetus has been given to the growing of sugar cane for which the parish has always been famous. In 1909 a large factory was established at Frome at which the canes grown on Belle Isle, Fontabelle and Frome are made into sugar.

Westmoreland is still fairly wooded, and has long been remarkable for the regularity of its annual rains, a natural advantage enabling its agricultural operations to be carried on without much fluctuation to the great advantage of its labouring population.

The water supply to Savanna-la-Mar has been improved at a cost of £2,674 the source being on Carawina pen. There is a building society which has been in existence since 1874, and there are two banks doing business, the Bank of Nova Scotia and the Colonial Bank.

Cane farming has increased considerably, also the cultivating of rice which affords a permanent source of income to the small agriculturists and East Indians.

The parish is also well watered by numerous rivers and streams, the principal of which are the Negril, New Savanna, Morgan's Gut, Smithfield, Bowen's River, Bluefields, Robins, Roaring River, Great River and the Cabaritta, the last named being navigable for boats of about 8 tons for some twelve miles from its mouth.

There is a considerable East Indian settlement at a place called Paul Island, where the marsh lands are suitable for the growth of rice. The coolies successfully grow large quantities of that article and sell it at remunerative prices to the shopkeepers in the neighbourhood. Considerable business is also done in logwood.

There is a factory at Water Works for the hulling of rice and it affords employment to several persons.

Coffee and ginger are cultivated to some extent in the higher lands and the abundance of logwood trees, as well as of flowering or fruit trees throughout the pens or other settled lands, afford encouragement to the keeper of bees. Rum, sugar, logwood, pimento coffee and honey are the chief products.

A Dyewood Factory has been established at Paradise near Savanna-la-Mar, by the Yorkshire Dyewood Company.

Between 16th and 18th November, 1912, the parish was visited by a hurricane which caused destruction and destitution throughout the parish; only one life however was reported lost. Owing to the great destruction of houses and the need for accommodation for the poorer classes of persons the Parochial Board erected six tenement buildings, four on the Poor House land and two at Newmarket.

The area of the parish is 308 square miles. The population in 1911 was 66,456; males 31,795, and females 34,661; the increase for the last twenty year-period being 13,006. In 1921 it was 68,853; males 32,437 and females 36,416.

A new Industry has been started in the Parish, viz.—The banana, and hundreds of acres have been planted out particularly in the Grange, Williamsfield, Water Works and St. Johns Districts. New markets have been erected at Savanna-la-Mar, Grange Hill, Petersfield and Little London, while others are being erected at Frome, Bethel Town and Barham.

#### ST. ELIZABETH.

Saint Elizabeth, one of the largest parishes, was probably named in honour of Elizabeth, wife of Sir Thomas Modyford, comprises an area of 462 square miles.

The chief town and shipping port is Black River, situated at the mouth of the river of the same name. The appearance of the town has been very much improved during recent years. More business is transacted in Black River than in most places of the same size, while its unsavoury reputation for unhealthiness is not warranted by the Registrar General's statistics. The principal buildings are the court house, the public general hospital, the Bank of Nova Scotia and the Colonial Bank—the two former of which are situated at some distance to the westward of the commercial part of the town—the parish church, the prison and the market.

The court house presents a fine appearance from the sea and at once attracts the attention of the visitor. In the parish church are many interesting memorial tablets recalling to the memory of the living the many good qualities of the departed Saint Elizabeth gentry. The handsomest of these mural tablets are those on either side of the chancel to the memory of Robert Hugh Munro and Caleb Dickenson, founders of the Munro and Dickenson's Trust. The market place is a plain but graceful iron structure; excellent markets are held twice a week, on Wednesdays and Saturdays. The town enjoys an ample house to house supply of pure water brought from the Y.S. Spring. It was the first town in Jamaica lighted by electricity.

An interesting feature of the town of Black River is the large quantity of logwood piled up on the wharves awaiting shipment. The bar at the mouth of the river is a serious hindrance to the speedy loading and despatching of the vessels; the lighters which convey the cargoes from the wharves on either bank of the river to the shipping frequently ground on the bar, causing waste of time and much extra labour. At Lacovia and Elim there is a factory for the extraction of dye from logwood. At Rahine there has been erected an up-to-date Sugar Factory, supplied with canes from extensive cultivation.

The principal villages of the parish are Lacovia, Santa Cruz, Balaclava, Newmarket, Siloah and Malvern. There is also a Maroon township called Accompong on the northern boundary of the parish. The precipice known as "Lovers Leap" is in Yardly Chase.

St. Elizabeth is more diversified by mountains and plains than any other parish of the island. The northern and north-eastern parts are mountainous while an extensive plain occupies the central and southern districts. Through this plain, dividing it into two sections, runs from north to south the Santa Cruz range of mountains; at the southern extremity the range terminates abruptly in a sheer precipice which descends 1,600 feet to the sea. This precipice is known as "Lovers Leap."

The Santa Cruz Mountains are well known for their charming climate which is at the same time both cool and dry. The thermometer seldom rise above 80° F. in the hottest months, while there is an entire absence of that excessive humidity which is a serious drawback to much of the higher lands of the island. The district is a centre of educational activity. Foremost among the schools situate in the bracing air of these Mountains, are the two schools of the Munro and Dickenson's Trust that for girls at Hampton and that for boys at Munro College, and the Moravian Female Training School at Bethlehem. On the slope of the mountain is the Manning Home for the waifs and stray children.

At Malvern there are boarding houses. The lowlands of the parish may be divided into three parts: one portion—and that a very considerable one—being taken up with morass; a second consisting of savannahs; and the third comprising some of the finest country for stock raising and grazing purposes in the island. Rising far up in the northern interior of the parish, tumbling down through the gorges there until it reaches the plain and then sluggishly creeping through the morass, comes the Black River. The stream is navigable for lighters for nearly 30 miles of its course and forms a valuable highway for the conveyance of the produce of the upper parts of the parish to the sea, while goods are conveyed by the same means from the seaport to the interior. The Grosmond and Y.S. tributaries have been opened up. The river abounds with crocodiles; while in it as in the less important streams which flow through the morass, fish are plentiful. The Y.S. Falls are an object of interest to sightseers, as are the Maggotty Falls on the Black River.

The savannahs deserve some notice. In dry weather they are huge brown wastes but after rain no land recovers more quickly or is more wonderfully fertile. The well-being of the inhabitants of these districts therefore depends more directly than elsewhere on the rainfall. St. Elizabeth is the largest cane-producing parish in the island, most of it being grown on the savannahs, where, in good seasons, the yield is very large. Parts of the savannahs are also famous for horses, which are reckoned amongst the best bred in Jamaica. These are raised principally by settlers, some of whom possess beautiful specimens of the stud horse and brood mare. The abundance of corn naturally enables the owners to feed their stock well, and they declare that there is a peculiarly nutritive property in their savannah grass, which renders it superior to any other for horses.

The lowlands of St. Elizabeth boast of such properties as Gilnock, Font Hill, Pepper, Longhill, Goshen, Friendship and Warminster; these and many others being famous for the quality of their cattle, horses and mules.

St. Elizabeth produces sugar, rum, pimento, coffee, logwood, ginger and tobacco, besides the minor products. Some districts are particularly well adapted for the cultivation of ground provisions, of which there is usually a good supply throughout the parish. Recent experiments in banana cultivation have not been successful. Sisal hemp also grows freely, as is shown by the cultivation at Lititz by the Government.

At Santa Cruz there is a well organized alms-house, with an infirmary attached. Poor relief is also afforded extensively on the out-door system. The parish is traversed in all directions by excellent roads. One hundred and ten miles of parochial roads were transferred to the Public Works Department under Law 17 of 1890, thus leaving a larger

amount of local funds for the improvement and maintenance of the roads which still remain in the care of the parochial authorities.

According to the Census of 1911 the population was 78,700; 36,967 males and 41,733 females. The increase since the Census of 1891 was 16,444. In 1921 it was 79,381; males 36,090 and females 43,291.

#### MANCHESTER.

Manchester was created from parts of the adjoining parishes of St. Elizabeth, Clarendon and Vere in 1814, and was named after the Duke of Manchester who was then governor of the Island. In August, 1816, a meeting of the committee of the vestry was held to arrange the erection of a court house, church, gaol, and parsonage to make the town of Mandeville. Sixty acres were purchased from Robert Crawford, owner of Caledonia property, and thus Mandeville, the chief town, and one of the prettiest towns in the island, came into being. Its situation on the top of a mountain 2,200 feet above sea level is very picturesque and the tidiness and cleanliness in which the buildings are kept are remarkable. It is in a central part of the parish and contains an Episcopal church, a Wesleyan chapel, a chapel belonging to the London Missionary Society, a Baptist chapel, a free school, a court house, a constabulary station and a public general hospital, a large and convenient market and an aerated water factory. It has billiard, tennis, golf, cricket, and ladies clubs, and polo and gymkhana grounds.

It has a very good water supply, with two large reservoirs holding 800,000 gallons. The hotels, boarding houses and hospital are supplied with water from the reservoir. There are a good private school for girls, a Diocesan school for boys and an amalgamated secondary school for boys and girls managed by the trustees of the Manchester schools. There is a branch of the Bank of Nova Scotia.

Mandeville is much frequented as a winter resort for visitors from Great Britain, Canada and the United States. The climate is salubrious and the temperature ranges from 70° to 75° in the day time, to 48° to 54° at night. Here is situate the Harvard College Observatory.

Porus is a populous village; containing an Episcopal church, a Baptist chapel and a fine chapel of the London Missionary Society, a court house and a constabulary station. Christiana is the centre of the ginger growing district. Alligator Pond is a shipping port of some importance. There are four Railway stations in the parish: Porus, Williamsfield, Kendal and Green Vale. The nearest station to Mandeville is Williamsfield, four miles distant. The Manchester orange has obtained a name in the American markets for its flavour, and is exported to a considerable extent. The principal products of the parish are coffee, pimento and ginger.

The Parochial Board has constructed another reservoir to hold 1,000,000 gallons of water in addition to two already built holding 900,000 gallons.

A Government Elementary School of local stone, has recently been erected. The cricket club has been reorganized.

The area of the parish is 302 square miles. According to the census of 1911 the population of the parish was 65,194; 30,931 males and 34,262 females. In 1921 it was 63,942, males 29,506, females 34,436.

#### CLARENDON.

The parish was named in honour of the celebrated Lord Chancellor. It is one of the largest parishes in the island and for electoral and revenue purposes it is divided into three districts, upper, middle and lower.

The principal towns or villages in the upper district are Chapelton, Spaldings, Rock River and Frankfield; in the middle district, May Pen, Four Paths and Hayes; and in the Vere or lower district, the Alley and Milk River. The shipping ports and wharves are at Salt River and Carlisle Bay.

May Pen is the most important township of the parish and is the head station under Law 20 of 1867. In the court house are the courts office, collectorate and parochial offices. The town contains an hotel, a market, a alms house, a police station, an Anglican church, a Wesleyan church, a Roman Catholic chapel, a market, a post and telegraph office, a cordage factory, and several up-to-date stores. There is also a branch building of the Colonial Bank. A new bridge for railway purposes to relieve the congestion of the present bridge (which serves both for road and railway purposes) has been completed.

There is a flourishing industry of Sisal cultivation carried on in the neighbourhood.

Spaldings is a prosperous village situated near to the border of the parishes of Clarendon and Manchester, it contains a market, Presbyterian and Anglican churches, dry

goods stores, post and telegraph office. The climate is unsurpassed and a thriving business is done in the purchasing of island produce, principally ginger and coffee.

Chapelton, the principal town of upper Clarendon, is on the Rio Minho branch of the Railway, and contains an Episcopal church, St. Paul's recently restored; a Congregational church, Salem, in connection with the London Missionary Society; a court house, (containing offices of the Assistant Collector of Taxes, and the Clerk of the Courts, both stationed in Chapelton), constabulary barracks, and Inspector's quarters, a public general hospital, public works office and store, a large covered market, post and telegraph office, and several large stores. The population of Chapelton is about 900. It stands on a small hill which is naturally drained on every side, and is remarkably healthy, as indeed are undoubtedly the whole of Upper Clarendon and the Clarendon mountains.

Rock River is a small village about five miles to the east of Chapelton, near an abandoned sugar estate of the same name, and contains a constabulary station and a few shops.

Frankfield, the terminus of the Rio Minho branch of the Railway, is an important village 12 miles to the northwest of Chapelton on a good driving road, and is the centre of a large and flourishing agricultural district and the temporary terminus of the Rio Minho Valley railway extension. In the village are a church, market, a post office, a dispensary and several shops. A District Medical Officer has now been appointed for the Frankfield district resident near Frankfield at Grantham.

Frankfield is the most important buying centre for bananas in the parish, and there is likely to be great expansion due to the railway extension.

The small settlers of Upper Clarendon produce quite a considerable amount of sugar known as "wet sugar" for local consumption. This is manufactured by an iron mill known as the "Exhibition" mill drawn by one animal—the principal make being the "Chattanooga"—The name "Exhibition" was adopted by the peasantry because it was first shown at the Exhibition in 1891, and replaced the old "John Crow" mills made of wood. The small settlers also produce quite a considerable amount of cane which is sold to the Mercedes Central Factory and other Centrals in Mid Clarendon and Vere.

Four Paths is situated on the main road about four miles west of May Pen. There is a railway station in its immediate vicinity. It also has a new Government School Building and a few shops. The trade of the place has fallen off of late years. It has a public market, constabulary station and a post office.

Hayes is a small village about seven miles south of May Pen, built on a savannah of the same name. It would be difficult to account for its existence on so arid and unproductive a site, but it has nevertheless a substantial public market, generally well attended and supplied, post office, and numerous small stores. The water supply has been improved at the instance of the parochial board and an aermotor and tank has been erected in the only available well in the locality.

Milk River (formerly called The Rest) is reached by an excellent level road, a branch from the main road between Four Paths and Porus, or from Clarendon Park station, a distance of 10 or 11 miles. The village has a church, shops, a post and telegraph office, and a constabulary station. The Milk River is navigable for lighters for four or five miles. The river used to abound in crocodiles, but the constant passage of boats has made them scarce. The Milk River Bath (of which an account is given in another part of this Handbook) stands on the west bank of the river about three miles from the village.

The Alley, which was formerly the capital of the parish of Vere (now incorporated with Clarendon) is a small village on the banks of the Rio Minho and is rendered of some importance from the fact of its being in the immediate proximity to a large number of sugar estates. In this district may be seen some of the finest cane cultivation in the island, the estate of Money Musk, Amity Hall, Bog, Moreland, Hillside, and having very large acreages in canes, while they have also all the latest and most improved machinery and appliances for the manufacture of sugar and rum. The village contains an interesting Episcopal church, one of the oldest in the island, a court house, (with a sub-collectorate), constabulary station, a post and telegraph office; and in the vicinity is a large public general hospital. [For an account of the irrigation works see Vere Irrigation, Part XIII of this Handbook.]

Carlisle Bay is noted as being the spot where the colonial militia met the French under DuCasse in 1694, and after three days' gallant resistance drove them to their ships with a loss of 700 men. The invaders had already for nearly a month plundered and destroyed the sea-side plantations and murdered or kidnapped the gentry and their slaves. This, in words of Bridges, was "the most formidable attack which was ever made upon the shores of Jamaica."

Sawkins says in his report on the Geology of Jamaica: "The geology of this parish is perhaps more interesting than that of any in the island. The Clarendon mines at Charing Cross and Standford Hill afford a nearer approach to true lodes or mineral veins than any of the other metalliferous deposits of Jamaica." Copper mining on Keyes, Retreat and Provost, has been carried on in the neighbourhood from time to time.

There is a very fine main road from Chapelton to Cave Valley in St. Ann, and under the provisions of Law 17 of 1890, the Public Works Department has taken over and reconstructed some 90 miles of the most important of the old parochial roads, thus making wheeled traffic possible to nearly every district of the parish.

The Bull Head, rising to a height of 3,600 feet or thereabouts and situated near its northern limit, is the highest land in the parish. This mountain is as nearly as possible the centre of the island and is a conspicuous object to vessels making the island from the south. The ascent is easy and the view from it on a clear day magnificent. It commands the entire parish; to the north lies the parish of St. Ann; to the west the Manchester hills, and eastward an uninterrupted prospect to the Blue Mountain Peak.

The Round Hill in Vere is a conspicuous object arising out of the plain, and seen from great distances. The climate of Upper Clarendon including the Mocho mountains is unsurpassed in the island, and the scenery is beautiful.

A fine tobacco plantation was for some years worked principally by Cubans at Morgan's Valley, near Chapelton (once the property of Sir Henry Morgan, who settled it and called it after his own name). It was abandoned some years ago, but tobacco cultivation on a considerable scale has since been resumed. Several indigo walks were established in the Vere district by the early English settlers, but they had to be abandoned in consequence of the heavy import duty which was levied on the article in the English market. At one time 50,000 cwts. of indigo per annum were produced from these plantations. The area of the parish is 474 square miles. According to the census of 1911, the population of the parish was 73,914; 36,412 males and 37,502 females. In 1921 it was 82,455; 39,554 males, and 42,901 females.

#### ST. CATHERINE.

This parish derived its name from the Queen of Charles II. In the first act in which it is mentioned it is correctly spelled Katherine. It consists of what before the passing of Law 20 of 1867 constituted the parishes of St. Catherine, St. Dorothy, St. John and St. Thomas-in-the-Vale. The chief towns and villages are Spanish Town, Old Harbour and Linstead.

Spanish Town, or Saint Jago de la Vega, was the ancient capital of the island. It is situated on the banks of the Rio Cobre, from which it derives its water supply. Amongst the more important public buildings was the old King's House (formerly the official residence of governors of the island) built in 1762, but unfortunately burnt down in 1925. Other important buildings are the building formerly used for the House of Assembly and the Legislative Council, the cathedral, the court house, the Record Office, the Registrar General's Office, the Middlesex and Surrey county gaol, the St. Catherine district prison, the Lepers Home, and the constabulary depot buildings. There are two Episcopal churches, namely, the cathedral church, dedicated to St. Catherine, and Trinity chapel. The remains of several of the Governors of Jamaica and of their wives and of the more eminent early settlers of the colony are interred within the cathedral or in the churchyard attached. There are several good monuments by Bacon, the Effingham tomb, the memorial to Archbishop Nuttall and others. The town also contains a Roman Catholic church, and chapels attached to the Wesleyan and Baptist bodies; and a Synagogue, the land for which was purchased in 1704, commodious markets, an alms house and a public general hospital, Beckford and Smith's Middle Grade School, partly endowed. There is also a town hall, in which there is a stage for dramatic representations, and a club and telephone service. At this town is the junction of the north and west branches of the railway.

Among the antiquities of the town may be noted the marble statue of Rodney, by Bacon, and the two large bronze guns which were captured by the Admiral in 1782 from the French fleet under Count de Grasse; the "Eagle House," once surrounded by a moat, and formerly the residence of the Earl of Inchiquin when governor of Jamaica; a tamarind tree in the grounds of the Infant School, which local tradition points out as that under which Colonels Tyson and Raymond were shot for mutiny in 1660, and the foundations of the old Spanish White Cross Church and of the Convent attached to it, which may still be traced in the street named thereafter.

The drive from Spanish Town to Bog Walk, past the power station which supplies

the electric motive power for the Kingston tramways from the Rio Cobre, is a favourite with visitors. The "Bog Walk" affords one of the finest bits of scenery in the island.

"A torrent gushing in misty depths and fighting its downward course among scattered rocks, the narrowness of the long ravine or den through which it rushes, and the steepness and loftiness of the precipices on either side, with the richness and variety of tropical vegetation growing in all the exuberance of its foliage on every spot where a plant can rest—these features unite in imparting to the scene all the imposing effect of blending beauty and grandeur." This, written by King in 1830, is equally true to-day.

Old Harbour contains a court house, an Episcopal church, a Wesleyan chapel and a public market. About a mile from the town stands the old parish church, built by the earlier English settlers. The town is supplied with water from a river six miles off. The Ludford endowed school is also here.

Old Harbour Bay was formerly called "Esquivel," after the Spanish Governor of that name, who established it as a ship-building port. It possesses a fine harbour studded with little low cays and rocky islets. When Columbus discovered it, it was inhabited by thousands of Indians, the most intelligent and the most civilized of all the aborigines of the Antilles that he had seen. There are an Episcopal church and a Baptist chapel in the village.

Linstead, which is situated in the centre of an almost circular hollow shut in by mountains, is a thriving township. It contains a court house, a Presbyterian church, a Wesleyan chapel, a public general hospital, an alms house and many fine stores. There is a good water supply and a market. An Episcopal church and a Baptist chapel are in the vicinity. The railway extension to this place developed the great resources of the surrounding country and rendered it one of the most important trading centres in the island. The Episcopal church near Linstead has become historical from the circumstance of all the public records having been deposited there under a militia guard during the period of the anticipated French invasion of 1805. Ewerton is the terminus of one branch of the railway which joins the Port Antonio branch at Bog Walk.

Six miles from Spanish Town to the south-east is Passage Fort, the landing place of the English conquerors in 1655, and the place where the Rio Cobre empties itself into the sea. It was once a port of some importance and was connected with Spanish Town (then the seat of government) by a line of stage-coaches; it is now a fishing village, with a few houses, the principal building being a small chapel belonging to the Baptist denomination. .

About four miles from Passage Fort and six miles from Spanish Town lies the sea-side village of Port Henderson, which was once a place of considerable resort for change of air. It contains a mineral spring which is enclosed as a bath. The buildings afford comfortable accommodation for visitors. There is a main road between Spanish Town and this place. In the immediate neighbourhood is the quarantine station (of which a full account is given in another part of this work). On the hill at the back of the lodgings is Rodney's lookout, from which the admiral kept watch over the adjacent sea. On the grounds of the quarantine station (Green Bay) there is still the tomb of Lewis Galdy who was "miraculously saved" from the earthquake of 1692.

Not far from Spanish Town is Bernard Lodge Sugar Factory one of the most modern in the Island.

Between Port Henderson and Passage Fort (on the seaward) is Fort Augusta, which was once a military station. All ammunition and other combustible materials used to be deposited here by vessels proceeding to Kingston. The fort was planned by Captain Knowles (afterwards governor of the island) for the protection of Kingston.

There are many grazing pens in the plains of St. Catherine which are remuneratively managed as sheep and cattle farms; and the salt ponds district (lying between Spanish Town, Port Henderson, and Passage Fort) is noted for the excellent quality of its mutton, and for the fine fish taken from the large salt pond, especially the well known calipeva. The inhabitants of Spanish Town were formerly supplied with salt to the extent of 5,000 bushels a year from the pond referred to.

The principal products of the parish are sugar, rum, coffee bananas, oranges, grape fruit, corn, tobacco, cocoa, grass and milk. The Rio Cobre canal which irrigates the St. Catherine's plains has proved a boon to the inhabitants in rendering profitable the cultivation of bananas and other fruits and various kinds of cereals. The cultivation of fruit, especially bananas, is fast superseding the sugar cane. There is an important factory of logwood dye at Spanish Town.

The area of the parish is 470 square miles. According to the Census of 1911 the population was 88,104, of whom 43,359 were males and 44,745 were females. In 1921 it was 96,501, males 47,650 and females 48,851.

## PAROCHIAL BOARDS.

THE Parochial Board of each parish, except Port Royal, and the united parishes of Kingston and St. Andrew, consists of the person representing the electoral district in the Legislative Council, the Custos of the parish, and from 9 to 15 persons elected by the taxpayers who are qualified to vote at elections for members of the Legislative Council. In 1900 Port Royal was constituted a separate parish for all purposes of municipal administration, and a Board was formed consisting of the Commodore (Chairman), a Naval Officer, Military Officer and two elected members (Law 13 of 1900). When the naval station was abandoned the senior military officer became chairman.

In 1923 the parishes of Kingston and St. Andrew were amalgamated for the purposes of civic Administration.

The Parochial Boards manage all the local affairs that had formerly been in the hands of the Municipal and Road Boards. This change was effected by Law 16 of 1885 now repealed, with amendment Laws; and Law 17 of 1901 in the consolidated law.

The qualifications and disqualifications of members of a Parochial Board under Law 17 of 1901, Section 24 are as follows:—

No person shall be capable of being elected a member of the Parochial Board of any Parish, or, having been elected, of sitting or voting at any meeting of such Board:—

- (1) Who is not able to read and write English, or
- (2) Who is not entitled to vote at the election of a member of such Board, or
- (3) Who is not
  - (a) Either registered as a voter as aforesaid in respect of the payment of rates or taxes, or rates and taxes, to the amount of three pounds annually, or
  - (b) In receipt of the clear annual income of one hundred pounds or
  - (c) the owner or tenant of a house or land of the value of two hundred pounds or
- (4) Who is the holder of any office of emolument, the emolument of which is payable out of the funds of the Public or Parish, or
- (5) Who is either directly or indirectly pecuniarily or otherwise, interested in any contract with the Parochial Board of such Parish, although such contract shall, by virtue of the provisions hereinafter contained, be null and void.

Provided, that no person shall be deemed to be directly or indirectly pecuniarily or otherwise interested in any contract with the Parochial Board of any Parish, within the meaning of this section, by reason only of his having any share or interest in—

- (a) Any agreement for the loan of money, or any security for the payment of money only, or
- (b) Any newspaper in which any advertisement relating to the affairs of the Parish or Board is inserted, or
- (c) Any Incorporated Company or Society, which contracts with the Board, in which he does not hold more than one tenth of the shares:

Provided always, that no Member of a Board shall have any vote on any question relating to any contract within the meaning of this section:

Provided further, that the seat of a duly elected member of a Parochial Board shall not be vacated under the provisions of this Law, merely by reason of his being interested in a contract with such Board, unless it appears that the contract has been entered into with the actual knowledge of the member.

## KINGSTON AND ST. ANDREW CORPORATION

By a law passed in the Spring Session 1923, of the Legislative Council, called the Kingston and St. Andrew Corporation Law, 1923, the Corporate bodies known as The Mayor and Council of Kingston, the Kingston General Commissioners and the Parochial Board of St. Andrew were dissolved, and on the 1st May, 1923, all their several powers, duties and obligations were transferred to a Commissioner appointed by the Governor, to be vested in him until an election should be held, under the provisions of the Law, of the Mayor, Aldermen and Councillors of the New Corporation.

The Corporate Area extends to the limits of the parishes of Kingston and St. Andrew as set out in a schedule attached to the Law, and is divided into four Urban, two Suburban and two Rural Wards. The Council comprises eight Councillors, one to be

elected by the burgesses registered in each ward and four ex-officio members who are the persons from time to time holding the following offices:

- The Member of the Legislative Council for Kingston.
- The Member of the Legislative Council for St. Andrew.
- The Superintending Medical Officer.
- The Director of Public Works.

The Councillors elect from among themselves four Aldermen whose term of office is the period for which they remain Councillors.

The Mayor and Deputy Mayor are elected annually from among the Aldermen and Councillors.

The Honourable H. A. L. Simpson, O.B.E., was appointed by the Governor to be the Kingston and St. Andrew Commissioner; he assumed the duties of the office on the 1st May, 1923, and, having accomplished the fusion of these several Corporate Bodies, handed over the duties of Commissioner to the Council of the New Corporation which was elected on the 8th April, 1924.

## PART XI.

### IMPERIAL COLLEGE OF TROPICAL AGRICULTURE.

THE Imperial College of Tropical Agriculture was incorporated in September, 1921, as the outcome of recommendations made by the Tropical Agricultural College Committee appointed by Viscount Milner in 1919 in their Report (Command Paper 562). The object of the College is to promote the study of Tropical Agriculture in suitable surroundings and to create a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases and to conduct research. The college buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted to the College by the Government of Trinidad and Tobago. The funds of the College are derived from contributions from Colonies and industries participating in the movement and an imperial grant. The Imperial Department of Agriculture, founded in 1898, was amalgamated with the College on April 1st, 1922. The academic year extends from October 1st to June 30th. The following courses and facilities for study are available:—

1. Diploma Course extending over 3 years for giving a thorough training in the science and practice of Tropical Agriculture to those students intending to become tropical planters, investigators or experts in different branches of Agricultural Science or Technology.

2. A one-year course in elementary Agricultural Science for students unable to afford a three years' course of study, with some practical acquaintance with the scientific side of tropical planting and the more up-to-date and efficient methods of production and management.

3. Courses for agricultural officers selected for Colonial service in tropical agricultural departments.

4. Post-Graduate research in connection with problems arising in tropical agriculture and more especially those connected with plant pathology, agronomy and physiological botany.

Tropical Veterinary Science is also an important branch of the College curriculum, and a Chair of Tropical Sanitation and Hygiene has been established.

The tuition fees are £50 per annum, but a limited number of students from contributing colonies and industries are admitted on the nomination of the respective local Governments or Industries, without the payment of tuition fees. Other students from contributing Colonies are admitted on payment of tuition fees of £25 per annum. Further particulars regarding the College can be obtained from the Secretary, The Imperial College of Tropical Agriculture, 14 Trinity Square, London, or from the Chief Clerk and Registrar, St. Augustine, Trinidad, B.W.I.

**OFFICERS—Chairman of the Governing Body**—Sir Arthur E. Shipley, G.B.E., LL.D., Sc. D., F.R.S.; **Vice-Chairman of the Governing Body**: Lieut-Colonel Sir David Prain, C.M.G., C.I.E., F.R.S.; **Principal**: Hugh Martin Leake, M.A., Sc. D., F.L.S.; **Secretary**: Algernon Aspinall, C.M.G., B.A.; **Registrar**: Alleyne Graham Howell, St. Augustine, Trinidad.

**Professors**—Zoology and Entomology, Henry Arthur Ballou, M.Sc.: Mycology and Bacteriology, Sydney Francis Ashby, B.Sc., Botany: Sydney Cross Harland, D.Sc.; F.L.S.; F.E.S.; Chemistry: Frederick Hardy, M.A., Dip., Agr.; Agriculture, John Sydney Dash, B.S.A.; Sugar Technology, W. Scott, (temporary); Economics, Cecil Yaxley Shephard, B.Sc.; **Lecturers** Zoology, Cyril Luckes Withycombe, Ph.D., M.Sc.: Botany, Ernest Entwisle Cheesman, B.Sc.; Chemistry: Percival Elisha Turner, B.Sc., A.I.C.; Veterinary Science: Capt. H. V. M. Metivier, O.B.E., M.R.C.V.S.; Tropical Sanitation and Hygiene: E. Aitken Seager M. B., Ch.B., Dip. T. M. and H.

### DEPARTMENT OF AGRICULTURE.

THE following establishments are maintained under the Department of Agriculture:—

1. *Hope Gardens and Agricultural Experiment Station*, near the foot of the hills in the Liguanea Plain, 5½ miles from Kingston, consist of about 200 acres under cultivation. The inner portion is laid out as a Botanical garden and experimental station. There are large nurseries containing plants, such as cacao, citrus, nutmeg, tropical plants, fruit,

etc., a large assortment of ornamental foliage and flowering plants. Elevation between 600 and 700 feet. Annual mean temperature 76.1° Fah.; average rainfall for 44 years is 53.20 inches.

2. *Casleton*, the Botanic Garden in the parish of St. Mary, on the road connecting Kingston with Annotto Bay, nineteen miles from Kingston and eleven from Annotto Bay, contains a large collection of tropical plants. The chief features are the palmetum and a collection of economic spice and fruit trees. Elevation 496 feet. Annual mean temperature 75.4° Fah.; average annual rainfall for 51 years, 117.49 inches.

3. *The Hill Gardens*, Cinchona, in the parish of St. Andrew on the slopes of the Blue Mountain about 21 miles from Kingston, by way of Gordon Town.

Elevation, 4,900 feet. Annual mean temperature 62.5° Fah.; average rainfall 98.11 inches, both for 54 years.

4. *Kingston Victoria Park*, the public pleasure garden of Kingston, is kept up with shade and ornamental trees, flowering plants, and tanks for aquatics. Area 7 acres. Elevation 60 feet. Annual mean temperature 78.4° Fah.; average rainfall for 46 years is 29.94 inches.

5. *The Public Gardens*, Kingston, is in the neighbourhood of the Public Buildings, with lawns, flower beds and palms.

6. *The Bath Garden*, St. Thomas-in-the-East. This old garden has been resuscitated and is now used as a centre for the propagation of economic plants, etc.

7. *King's House Garden and Grounds*, 4 miles from Kingston, contain about 177 acres of which about 30 acres are kept up as an ornamental garden attached to the official residence of the Governor. Many valuable economic plants and fruit trees are also under cultivation, as well as the rarer tropical palms and orchids. Elevation 400 feet. Annual mean temperature 78.4° Fah.; average rainfall for 33 years is 47.44 inches.

#### GOVERNMENT FARM SCHOOL.

The Farm School, situated at Hope, was founded in 1909. Buildings were altered and new ones put up, affording accommodation for 25 boarders. The first term opened January 25th, 1910, with a full complement of students. Provision was made in 1911 for receiving 12 additional students at the school, and in 1912 for 8 more.

The object of the Institution is to give young men and lads of over 15 years of age a sound knowledge of the principles of agricultural science and as complete a training as possible in all branches of practical tropical agriculture. The course includes:—1. Cultivation of staple crops and vegetables; 2. General management of live-stock; 3. Dairying; 4. Poultry rearing; 5. Bee-keeping; 6. Veterinary work; 7. Farriery; 8. Carpentry; 9. Land Measurement. Instruction is also given in English, Arithmetic and Book-keeping.

A full course extends over three years and at the end of that time successful students are granted a certificate.

All students must pay in advance a fee of £6 13s. 4d. per term to cover the cost of board. There are 3 terms in the year of 12 weeks each. Tuition is free. A candidate for admission must furnish:—

(a) Evidence of being over 15 years of age.

(b) A certificate of good character from a minister of religion or a justice of the peace.

Applications for admission, or for further information, should be addressed to the Director of Agriculture, Hope Gardens, Kingston P.O.

*Director in charge*—Hon. H. H. Cousins, M.A.

**STAFF**—*Head Master*—R. S. Martinez, Dp. Ag.; *Assistant Masters*—A. F. Thelwell and L. A. Powell; *Veterinary Surgeon*—Dr. S. Lockett, V.M.D.; *Foreman*—T. P. Lecky; *Apiarist*—C. N. Eddowes; *Drill Instructor*—A. F. Thelwell; *Medical Officer*—Dr. Lewis Crooks; *Matron*—Miss L. Davis.

#### GOVERNMENT STOCK FARM.

This was started in 1910 by the purchase of a few cattle and horsekind. In 1911 and 1912 importation were made of Red Polls and Jerseys. Stabling and an equipment of Silos were provided, and in 1913 "Hope Estate" was purchased for £5,443.

The Farm has been mainly devoted to the development of tropical dairying. Milk is supplied to the public institutions in Kingston. The Farm, by special authority of the Secretary of State, is operated by a working account at the Treasury. Any surplus

revenue is employed in clearing and fencing the property and in the importation of improved breeds of stock.

The stock of the Farm consist of the following:—

*Cattle.*

41 Pedigree Red Polls (6 imported)	11 Pedigree Brown Swiss (4 imported)
39 Pedigree Jerseys (5 imported)	5 Pedigree Nellores
9 Pedigree Guernseys (2 imported)	240 Native Dairy Cows, Bulls and Heifers.
9 Pedigree Ayrshires (3 imported)	14 Plough Steers.

The value of the live stock at the end of December, 1924, was set at £8,058. The gain on the years working for 1921-1922 was £973. The average output of milk in 1924, was 308 quarts per diem and the Revenue for 1924-1925 was £3,591.

Bull calves are sold to the public at moderate prices. Female cattle are sold at public sale from time to time.

GOVERNMENT LABORATORY.

The Government Laboratory was in 1901 made a branch of the Agricultural service and is now a part of the Department of Agriculture (*See part V.*)

For Sisal Plantation and Government Stud Farm, see further on.

GOVERNMENT STUD FARM.

GROVE PLACE.

The *Government Stud Farm* was established in 1920 during the administration of Sir Leslie Probyn, by the purchase of Grove Place Pen in Manchester and its equipment with stock, buildings and accessories for use as a public Stud Farm.

The Capital outlay authorised for this enterprise by Loan Law 22 of 1921 is £25,000 of which £29,764 was expended to 31st March, 1925.

The Main Road from Mandeville to Mile Gully passes through the property, which is centrally situated so as to serve the convenience of penkeepers and owners of stock. The Jamaica Government Railway passes right through the lower portions of it at an elevation of 1,550 feet. The Railway has a Siding at Grove Place, with a suitable cattle dock so that animals can be delivered directly on the property when despatched by train and can be entrained at Grove Place for the return journey. A telephone service is installed. The area as purchased was 3,362 acres. Arrangements are, however, now in progress for the sale, mainly in small lots of about 800 acres. When taken over by the Government the area planted in guinea grass was set at 633 acres, while 520 acres were estimated to be in commons. Selected areas about 50 acres have been set aside for purposes of cultivation.

*Dipping Tanks.*—Immediately on acquiring "Grove Place" the Government erected a public dipping tank with a capacity of 2,000 gallons. In the first year of its operation 9,530 head of cattle and horsekind belonging to the Farm and 8,227 head of visiting stock were passed through the tank.

*Public Weighbridge.*—A Fairbanks Cattle Platform Scale has been erected at a convenient spot for the purpose. Stock are weighed for the public on demand at a small charge.

*Cows*—can be delivered at Grove Place for service by any bull desired at a fee of 10s. with one month's free pasturage, thereafter 6s. per head per month.

*Mares*—can be delivered at Grove Place for service by either the Stallion or the Proof Ass at a fee of two pounds with one month's free pasturage, thereafter 8s. per month per head.

*Jennets*—will be admitted for service by the stallion ass on conditions obtainable from the Superintendent by request.

*Stud*—includes (1) English Thoroughbred Horse, "Lembach" (2) The Kentucky Proof Ass, "Kentucky Boy"; (3) The English Hereford Bull, "Peacemaker"; (4) The English Sussex Bull, (5) The English Devon Bull, "Highfield Nobleman," (6) The English Aberdeen-Angus Bull "Etrurian"; (7) The American Red Poll Bull, "Pilot"; (8) The Jersey Bull, "Hope Pogis"; (9) The American Brown Swiss Bull, "Trumpeter"; (10) The Native Zebu-Jersey Bull "Honourable Mr. Polo"; (11) The Native Guernsey Bull, "Liza First's Plato"; (12) The Indian Montgomery Bull, "Dairyman of Pusa"; (13) The Indian Hissar Bull, "Pride of the Punjab."

*Letters*—should be addressed to The Superintendent Government Stud Farm, Grove Place, Mile Gully P.O.

## SISAL PLANTATION AND FACTORY.

## LITITZ.

THE establishment of Sisal cultivation was commenced in 1917 when a vote was provided for this purpose. The Crown Lands on the Lititz Savannah, containing about 1,100 acres in all, have been utilised for the sisal plantation. The total expenditure from General Revenue to the end of March, 1922, in establishing the plantation has been as follows:—

			£	s.	d.
1917-1918	..	..	150	1	3
1918-1919	..	..	774	7	9
1919-1920	..	..	1,369	11	0
1920-1921	..	..	2,055	5	10
1921-1922	..	..	1,837	7	0
			<hr/>		
			6,186	12	10

The factory has been placed at the northern extremity of the plantation so that the lands immediately adjacent thereto, which are in private possession may be established in sisal by the public and the leaves sold to the factory on a co-operative basis. The factory is prepared to pay 1½ per cent. on the price of sisal fibre, f.o.b. Kingston, for leaves delivered at the factory. That is, if sisal be worth £30 per ton, the price of leaves delivered at the factory would be 9s. per ton. A bonus, representing half profits, will be paid in addition at the end of crop for leaves purchased by the factory.

There are about 1,000 acres of land within 2 mile of the factory suitable for sisal of which 200 acres have already been planted by one land owner.

The Lititz Board is willing to advance £2 per acre under the Agricultural Loans Law, (6 of 1887), for approved plantation of sisal to be established within 3 miles of the factory.

*Capital Works*—Under the Loan Law, (22 of 1921), authority has been given for raising a loan of £27,000 for the establishment of the Fibre Factory at Lititz.

*Factory*—The Factory started crop on the 1st December, 1922. The capacity of the machinery is in excess of 3 tons clean fibre per day of ten hours. The fibre is washed, brushed and baled by a powerful hydraulic baler for shipment.

*BOARD OF MANAGEMENT*—Director of Agriculture, *Chairman*. Hon. A. E. Harrison, Hon. A. G. Nash. Vacant.

*STAFF*—*Supervisor*—Vacant. *Engineer*—H. V. Silvera.

## JAMAICA AGRICULTURAL SOCIETY.

*Office*—11 North Parade, Kingston.

A SOCIETY of Agriculture was formed in 1895, with the Governor as President, the objects being to obtain useful information and disseminate it, encourage improved cultivation or products, improved breeds of stock, and watch over the interests of agricultural industry generally.

A Board of Management was formed, originally, consisting of the elected members of the Legislative Council, who were members of the Board *ex officio*, 14 members elected by the Society, and 14 members nominated by the Governor, who held office for three years.

Changes have been made and the Board now consists of the Governor as President, the Director of Agriculture *ex officio*; three vice-presidents, and fourteen members elected by the Society triennially.

The Society receives a grant from the Government.

The subscription for membership of the Society is five shillings per annum, foreign members six shillings.

One of the first matters undertaken was that of organizing local associations of agriculturists in different parts of the island; and there are now 250 affiliated Branch Societies at work in the various parishes. Some of the Branch Societies are important local organizations, holding shows and local competitions in agriculture, and watching over the agricultural interests of their community.

Premiums have been offered for new cultivations of staple products. Seeds and plants together with printed instructions, have been widely distributed. Lectures and demonstrations under the auspices of the Society are regularly given by the various Agricultural Instructors, of which there are now sixteen.

The attention of the society was early given to the important question of stock-breeding. Two Hackney stallions, one Welsh pony stallion and a number of well bred pigs, goats and poultry was imported from Great Britain, the United States and Canada. The good results of the action of the Board in this direction are now most marked. Premiums were also given for selected stallions and bulls, to stand in certain districts at reduced fees, but these having served their purpose were discontinued. The late Sir Alfred Jones presented to the Society in 1903 two Aberdeen Angus bulls and one Shorthorn bull, and in 1906 presented two dairy Shorthorn bulls to the government which were placed in the care of the Society. His late Majesty King Edward VII, presented the island with a Hereford and a Shorthorn bull from his herds at Windsor, and these were placed in the care of the society.

The Society publishes a monthly journal, the first number of which was issued in January, 1897. It is sent free to all members of the Society and up to recently of the local branches and has an issue of about 4,600 copies per month. Branch members under a new rule subscribe 6d. each per annum toward the cost of the journal. The society has undertaken a number of experiments in various products, has caused special investigations to be made, when necessary, into obscure diseases among live stock and fruit trees, has sought to encourage the extension of present industries and to start new ones and to open up fresh markets for island products. The office of the Society, is regarded in the light of a bureau of agricultural information, and constant applications, local and foreign, are received and dealt with by the staff on almost every conceivable subject connected with the agriculture of the colony. The office has also proved of great use as a medium for the supply of agricultural wants, and for the bringing of buyers and sellers of live stock, plants and seeds together. In 1901, the society appointed local agricultural instructors in Manchester, St. Ann, Trelawny and Clarendon, with the principal aim of improving the cultivations, and the quality of the produce of small settlers, and generally to advise them in their agricultural operations. In 1906, on the recommendation of the Society an arrangement was made by the Government with Elder Dempster and Co., for £500 per annum to be paid in lieu of the appointment of Instructors under the Direct Line Contract and with this amount an extension of the work of the Society's Instructors was arranged. This sum ceased at the expiration of the Contract in January, 1911. The number of Instructors, however, has been gradually increased, as this work commended itself to agriculturists.

The following list gives the names of the *Instructors* and their postal addresses.

Supervisor of Instructors, E. Arnett, Claremont; Agricultural Instructors, W. Cradwick, Mandeville, J. Hirst, May Pen, J. Briscoe, Montpelier, L. A. Wates, Port Antonio, R. C. Somerville, Linstead, A. P. Hanson, Stony Hill, M. Rennie, Brown's Town, H. W. Lynch, Myersville, C. C. Hastings, Cascade, J. A. Banks, Richmond, O. P. Martin, Buff Bay, P. St. L. Baquie, Chapelton, U. A. McLaren, Yallahs; Assistant Instructors—W. Z. Buckley, Bath, R. S. Schleifer, Claremont.

In December 1900, a Banana Conference, in 1901, in 1905, Orange Conferences and in 1904 a Cotton Conference were held in Kingston under the auspices of the Society.

A competitive scheme for prizes for best kept small holdings was in force up till 1915 and groups of parishes were dealt with each year in rotation,—the amount awarded in each year in three classes being £25 for each parish competing. This was discontinued during the war period and Food Growing Competitions substituted, which were highly successful in producing any abundance of local foodstuffs.

This Competition for the Best Small Holdings, is again being carried through in each Parish. These competitions, are organized by the Instructors of the Agricultural Society and operated through the Branches.

Grants were also made to Agricultural Shows held under the auspices of the Branch Societies, for some years past, averaging ten shows a year. These were discontinued in 1915, but renewed in 1924.

**BOARD OF MANAGEMENT**—His Excellency the Governor, *President*; *Vice-Presidents*, H. H. Cousins, M.A., Director of Agriculture, (*ex-officio*), R. P. Simmonds, (St. Mary) Hon. Chas. Hope Levy, (St. Thomas), Hon. and Rev. A. A. Barclay, (St. Mary), A. W. Farquharson, (Clarendon), Rev. W. T. Graham, (St. Mary), Hon. C. W. Hewitt, (Hanover) Clarence Lopez, (Clarendon), E. W. Muirhead, (Manchester and St. Elizabeth), Hon. A. G. Nash, (Manchester), Arch. Spooner, (St. Andrew), Major J. H. Thursfield, (Manchester) R. F. Williams, (Westmoreland), H. C. Shekell, (St. James and St. Andrew). *Secretary*—John Barclay, O.B.E. Salary £700 and travelling expenses.

### JAMAICA IMPERIAL ASSOCIATION.

85-87 Barry Street, Kingston.

THIS Association was founded on December 19th, 1917, as a result of a circular sent out by Mr. A. W. Farquharson to planters, professional men and merchants of this island. The objects for which the Association is established are:—

- (a) To support the objects of The West India Committee, The Royal Colonial Institute and the British Empire Producers' Organization, and to work in concert with them or other similar bodies with the special object of ensuring that Jamaica shall play a worthy part in the consolidation and development of the British Empire.
- (b) To consider, debate and deal with all matters which may affect the economic, social, agricultural, industrial or commercial welfare and development of Jamaica or any part thereof.
- (c) To create and foster a sound public opinion in connection with such matters.
- (d) To represent the views of the Association to the Local or Imperial Governments or to any Governments or other Public Bodies in any part of the British Empire.
- (e) To secure the co-operation and support of the West India Committee, the Royal Colonial Institute, the British Empire Producers' Organization, or any other Institution or person, in advancing the views of the Association.
- (f) To do all such other things as are in the opinion of the Association necessary, proper, or advisable for the advancement generally of the interests of the Island or which are incidental or conducive to the attainment of any of the above objects.

The affairs of the Association are administered by a Council, of not more than 20 members of the Association, which is selected from amongst its members and an Executive Committee consisting of not less than 5 nor more than 10 persons. This Executive Committee has full powers to carry on the business of the Association.

## CULTIVATION.

RETURNS published by the Revenue Department for the year ending 31st March, 1925, and compiled from ingivings made by taxpayers under the provisions of Law 15 of 1903, show that of the acreage alienated from the Crown 879,997 acres are returned as being in wood and ruinate, and 1,110,448 acres as under care and cultivation. This latter acreage may in its turn be divided into land and appropriated to pastoral purposes, and that devoted to agriculture in the more limited application of the term; 834,224 acres of the whole being grazing lands and 276,224 acres of lands which have been subjected to tillage. Of the tilled lands 46,767 acres are under cultivation of cane, and besides providing for home consumption, the products of this crop exported during the year ended 31st December, 1924, were as follows:—458,394 cwt. valued at £497,723; rum, 730,456 galls. valued at £121,651.

The area in cultivation of coffee is given as 17,860 acres of the crop lands, and the exports of the berry amounted to 51,921 cwts., valued at £225,449. The area in bananas is shown at 79,145 acres, the output of this fruit reaching the total of 11,971,087 stems, valued at £1,225,345. Coco-nuts palms are shown to cover an area of 39,510 acres, the Export Table giving the shipments at 21,567,313 nuts, valued at £132,073. The only other specific cultivation covering any appreciable area, is that of cocoa, which is returned as 7,877 acres, the exports being 59,199 cwt: valued at £82,022.

The following are the tables showing the area under cultivation in each of the last ten years:—

## CROWN LANDS.

THE following rules for the sale of Crown Lands to settlers were approved by the Governor. (See Gazette Notice, 168, March 16, 1916).

1. A Land Board shall be appointed in each parish in which the Government owns sufficient Crown Lands to justify its creation. The Board shall consist of the Member for the Parish, the Chairman of the Parochial Board, the Collector of Taxes and two other members to be appointed by the Governor. The Board shall elect its own Chairman and the quorum shall be the Chairman and two others. The Board shall forward its recommendations to the Colonial Secretary.

2. The duties of the Board shall be to consider and advise the Government as to the best means of opening up Crown Lands for settlement and as to the methods of providing means for making and maintaining roads into such Crown Lands.

3. No more than 300 acres will be granted to one purchaser, nor less than 5 acres, except in cases specially approved by the Governor, nor shall any two grants of 300 acres be allotted to run continuously and contiguously without such approval. The Governor will so far as practicable adopt the general principle that out of every block say of 1,000 acres not more than one block of 300 acres should be sold.

4. The price at which the land will be sold may be learnt at the office of the Surveyor General or from the Bailiffs in charge of the different parcels. The value of land to be sold shall be fixed by the Surveyor General in consultation with the Local Land Board with the approval of the Governor.

5. Each applicant for the purchase of land must submit a recommendation from a person of good standing to whom he is personally known.

6. The Surveyor General on receipt by him of an application in the form endorsed hereon accompanied by a recommendation and on deposit of one-fifth of the price of the land shall cause a survey to be made of the quantity of land applied for, the applicant receiving notice as to the time when the survey will be made. Applicants' lots shall run continuously and contiguously with no blank land between lots, and possession will not be allowed to any applicant till survey has been made defining the lot purchased.

7. Any application may, however, be refused, and the deposit refunded, by the Surveyor General, at any time previous to the delivery to the applicant of the Certificate mentioned in Rule 10, whether the survey approved by the Surveyor General mentioned in Rule 6 entitling the applicant to possession has been made or not; and on tender refund of the deposit the application shall be deemed to be withdrawn.

8. On the survey being made and approved by the Surveyor General, the applicant shall be entitled to possession of the land allotted to him on such survey, subject, as in Rules 7 and 9, to refund of deposit and cancellation of sale previous to delivery of Certificate.

9. If the applicant shall be dissatisfied with the situation or configuration of the land allotted to him on such survey, and shall within fourteen days after the survey give written notice thereof to the Surveyor General, or to the Surveyor who made the survey, or to the Bailiff in charge of the land he shall be entitled to a refund of one-half of the amount deposited by him as above and his application shall be deemed to be withdrawn.

10. If such notice shall not be given, the applicant shall on approval of the survey by the Surveyor General, be deemed to be the purchaser of and to be in possession of the land allotted to him on such survey, and as soon thereafter as practicable a Certificate shall be delivered to him by the Surveyor General, who shall keep a duplicate of such certificate in his office.

11. Such Certificate shall be in the form following:—

## SALE OF GOVERNMENT LAND TO SETTLERS.

Jamaica s.s.

Office of the Surveyor General, Kingston,  
of the Parish of

This is to certify that  
Yeoman (hereinafter called the purchaser) did on the \_\_\_\_\_ day of  
19\_\_\_\_, pay the sum of £\_\_\_\_, being one-fifth of the purchase money of £\_\_\_\_  
in respect of \_\_\_\_\_ acres of land part of \_\_\_\_\_ in the Parish of \_\_\_\_\_  
and that the situation and configuration of the said \_\_\_\_\_ acres are  
as shown by survey thereof made by \_\_\_\_\_ on the \_\_\_\_\_ day of \_\_\_\_\_  
19\_\_\_\_, which can be seen on application at the office of the Surveyor General in Kingston.

The land comprised in this certificate is held subject to the following condition:—

(1.)—The remaining four-fifths of the purchase money and the cost of survey, together amounting to £\_\_\_\_, are payable in ten years by ten equally yearly instal-

ments of £ , each without interest, the first of such instalments being payable on the day of 19 , and the subsequent instalments at intervals of one year thereafter. Provided that if within such period of ten years the purchaser shall have established one-fifth of acreage in Coffee, Cocoanuts, Cocoa, Oranges, or other permanent crop-producing plants, and shall have erected and maintained in good order on the land a suitable dwelling house to the approval of the Surveyor General, he shall be released from payment of, or be refunded, as the case may require, one-fifth of the purchase money.

- (2.)—Such payments shall be made to the Collector of Taxes for the said Parish of and the receipt of each payment must be endorsed on this certificate which must be produced to the Collector of Taxes at the time of payment.
- (3.)—The balance of the purchase money and costs of survey may however be paid in advance at any time subject to a discount of 3 per cent. and the Collector of Taxes is authorised to receive such payments whenever tendered.
- (4.)—If the purchaser shall at any time be six months in arrear in respect of payment of any yearly instalment on account of purchase money and costs of survey the Surveyor General on behalf of the Government shall give a notice calling on the purchaser or person in possession to pay the arrears due.
- (5.)—Such notice shall be served either by being delivered to the purchaser or person in possession of the land, or by being affixed to some tree, or posted on some other conspicuous part of the land.
- (6.)—If at the expiration of one month from the service of such notice the requirements of same have not been complied with, the Surveyor General may by himself or some person appointed by him, enter into possession of the land and may either before or after such entry sell the same at public auction or private contract or otherwise dispose of deal therewith as he may deem fit. On re-entry or sale this certificate shall be deemed to be cancelled and the previous payments made by the purchaser shall be forfeited, the same being taken by the Government as rent for the time during which he occupied the land.
- (7.)—On payment of the purchase money and costs of survey in full the purchaser or other person entitled thereto will receive from the Crown a conveyance or patent in fee simple in the usual form and with the usual reservations including (a) a reservation to the Government of the right to make Railways and new roads or improve existing roads, free of costs, the Government paying the cost of any damage actually done to fruit trees, growing crops or cultivated ground, in making or improving such roads, (b) a reservation to the Government of all mines minerals and mineral oils whatsoever as are suitable and lying either above or beneath in or under the said land and also with ample and sufficient powers for the Colonial Secretary, his workmen, agents and labourers to have free ingress, egress and regress in and over the said land or any part thereof at all times for the purpose of prospecting for mines, minerals and mineral oils using occupying enjoying, digging for working and winning the hereinbefore excepted mines minerals and mineral oils and for making (without payment or compensation in respect thereof) any roads, water sources or other works through over or upon the said land or any part thereof for the purposes of raising, working digging and carrying away the products of such mines minerals and mineral oils at his will and pleasure and carrying the same through or over the said land or any part thereof and for digging cutting and getting stone, timber and other materials to be used in or about the said works or any of them without making any payment or compensation in respect thereof, (c) reservations to the Government of the right free of cost to lay water pipes and to construct and operate telegraph and telephone lines and wire ropeways and of the right to take and use free of cost the water on the said land for public water supplies and for the purpose of generating electric or other power for the running of railways or for any other purposes and the right free of costs to erect buildings and works for producing such power and for constructing telegraph and telephone lines and wire ropeways and public water supplies and also with power for the Colonial Secretary his workmen agents and labourers to have free access at all times on the said land for all purposes of such foregoing reservations. The Government paying the cost of any damage actually done to fruit trees growing crops or cultivated ground in carrying out such works.

(8.)—No transfer of, or dealing with the rights of the purchaser in the land comprised in this certificate shall be effectual until written notice thereof shall have been given to the Surveyor General duly authenticated to his satisfaction. No purchaser shall sell the land purchased by him or any portion of it until after the Surveyor General exercises a right of pre-emption at five per cent. above the price which has been bona fide offered for the land or declines to exercise that right.

Dated this                      day of                      19

Surveyor General.

#### SALE OF GOVERNMENT LAND TO SETTLERS.

##### *Application.*

I    of the Parish of  
do hereby apply to become the purchaser of                      acres of land part of  
in the parish of                      for the sum of £                      And I herewith deposit  
with the Surveyor General the sum of £                      , being one-fifth of the price of the said  
land and agree to be bound by and to conform to the foregoing rules and certificate in  
respect of my purchase.

Dated this                      day of                      19

Under this Order on 28th June, 1916, by notice in Gazette, Land Boards, were appointed in the following parishes :—St. Thomas, Portland, St. Ann, Trelawny, St. James, St. Elizabeth and St. Catherine.

#### CONTROL OF PLANT DISEASES.

THE control of plant diseases is regulated by Law 10 of 1925, "The Protection from Disease (Plants) Law, 1925" and the Orders made thereunder, the principal provisions of which are as follows:—

1. The Governor in Privy Council has power to declare any disease of plants to be a 'notifiable plant disease' and the Governor to issue an order prescribing the treatment to be followed by the owner or occupier for the treatment of such notifiable plant disease.

In the case of a notifiable plant disease the owner or occupier and every person having the charge or management of land who knows or suspects the existence of a *notifiable* plant disease on the land of which he is the owner or occupier or has the charge or management shall with all practicable speed give notice in writing to the Director of Agriculture of the fact of the land or of any plant thereon being so infected or suspected, and should in such notice give all information in his power as to the extent and nature of the disease. The said notice shall be served personally on the Director of Agriculture or shall be addressed to him by registered post.

Where the occupier or the person having the charge or management of land is charged with an offence under the Law, he shall be presumed to have known of the existence of the disease, unless and until he shows to the satisfaction of the Court that he had not knowledge thereof and could not with reasonable diligence have obtained that knowledge.

For the purposes of the Law, the decision of the Director of Agriculture as to the presence or identification of any notifiable or infectious plant disease is final.

A fine not exceeding £50 can be inflicted for a breach of an order made under the Law or for failure to notify a notifiable plant disease.

At present the Panama Disease of Bananas is the only plant disease declared to be a notifiable plant disease to which the above requirements apply.

2. An "Infectious Plant Disease" is a disease so declared by the Governor in Privy Council for which the Governor has power to make an order for treatment by the owner, occupier or manager concerned.

No notice of such a disease to the Director of Agriculture is required.

If the owner or occupier or the person having the charge or management of any land fails to carry out the measures prescribed in the order so issued, the Director of Agriculture or any person authorised by him in writing may enter on such land and may carry out the measures prescribed in the order and the cost of carrying out these measures is recoverable from such owner or occupier as the case may be at the suit of the Director of Agriculture or any person authorised by him in writing, as a Civil Debt before the Resident Magistrate for the parish in which the land in question is situated.

The Bonnygate Disease of Bananas, The Black Weevil Borer of Bananas, the Bud-rot-Disease of Coconuts, and the Mosaic Disease of Sugar Cane have been declared to be "Infectious Plant Diseases" under this Law, and Orders prescribing measures for their treatment have been issued.

#### THE PANAMA DISEASE OF BANANAS ORDER, 1925.

1. Every owner or occupier or persons having the charge or management of land (whether the land shall or shall not have been declared to be infected or suspected of being infected with plant disease) who knows or suspects the existence of the Panama Disease of Bananas on the land of which he is the owner or occupier or has the charge or management shall, on giving notice to the Director of Agriculture as required by Section 7 of the Protection from Disease (Plants) Law 1925, and pending the arrival of the Director of Agriculture or a person appointed to carry out the provisions of the said Law, prevent as far as possible all persons and animals passing over the land infected or suspected of being infected and shall disinfect with a solution of one half pint Jeyes' Fluid, or similar disinfectant, per gallon of water, the boots or naked feet of all persons and the feet of any animals entering or walking on the land infected or suspected of being infected and shall disinfect by the heat of fire, or thoroughly cleanse with the disinfectant above described, all cutlasses and tools used in the examination or treatment of any suspected plants, and shall examine the clothing of any person leaving the affected area and shall carefully remove any mud or soil found on such clothing, and shall wash any clothing so soiled with the disinfectant above described.

2. The occupier or other person having the charge or management of land which in the opinion of the Director of Agriculture is infected with the Panama Disease of Bananas (whether the said land shall or shall not have been declared by Order published in the Jamaica Gazette to be infected or suspected of being infected with Plant Disease) shall make a systematic examination of every stool of bananas within a distance of one chain from the diseased plant by cutting down and observing the appearances of the stem and base of each plant. If one or more diseased plants are thereby disclosed a further area of one chain in distance from any such diseased plant shall be further examined in the manner above prescribed, and this procedure shall continue until an area has been attained in which no diseased plant is found within one chain of the boundaries of the said area. The whole area thus included shall be an infected area (hereinafter referred to as "the infected area") for the purpose of these regulations and shall be treated by the said occupier or other person as follows:—

- (1) Every banana plant within the infected area whether diseased or not, shall be dug up with its roots and cut up into small slices not exceeding three inches in thickness. The pieces of plants which are not diseased shall be piled into heaps and treated with fresh-slaked lime. The pieces of the diseased plants shall not be mixed up with those not diseased, and if practicable shall be thoroughly burnt so that the fragments are charred to the centre. Where it is not practicable to use fire the diseased pieces shall be treated with from 1 to 4 gallons of lime per plant according to the size thereof. Lime shall be applied to all the holes from which plants have been dug, and these holes left open and exposed to the sun. The plants found to be diseased shall be cut up and treated last. The pieces of diseased plants shall after treatment be kept in some place within the infected area from which they are not likely to be carried away by flood rains.
- (2) All root food-crops including yams, taniens, groundnuts, sweet potatoes, cassava, Irish potatoes, onions, scallions, turnips, growing on the infected area shall be dug up and destroyed or thoroughly disinfected at the time of treatment of the diseased area with the disinfectant above described.
- (3) All persons who enter the infected area to carry out the treatment prescribed in this Order shall, before proceeding from the infected area to a place not infected, wash their boots or naked feet in a solution of one half pint of Jeyes' Fluid or similar disinfectant per gallon of water.
- (4) Should adventitious Banana Suckers appear upon any land after treatment thereof as an infected area under this paragraph, such land shall be treated in the manner prescribed in (1) of this paragraph and the provisions of (2) of Clause 4 here of and (3) of this paragraph shall apply to such land.

3. No person except those acting under Section 5 of the Protection of Disease (Plants) Law, 1925, shall without the permission in writing of the Director of Agriculture first had

and obtained enter on the infected area and no poultry or domestic animal shall be allowed on the said land.

4. (1) No plants or crops of any description shall be planted on the infected area, nor shall any implements of tillage be used thereon for a period of at least one year from the last treatment of such area nor until the written permission of the Director of Agriculture has been obtained by the said occupier or other person.

(2) No person shall remove from the infected area any cutlass or implement of tillage used thereon unless and until such cutlass or implement has been disinfected by the heat of fire or thoroughly cleansed with the disinfectant above described.

5. The occupier or other person having the charge or management of any land adjacent to land which in the opinion of the Director of Agriculture is infected with the Panama Disease of Bananas shall treat as an infected area within the meaning of the next preceding paragraphs all land within a chain from the nearest diseased plant on the adjacent land.

6. In this Order "Diseased Plant" means a plant which in the opinion of the Director of Agriculture or of a person appointed under Section 5 of the Protection from Disease (Plants) Law 10, 1925, is infected with the Panama Disease of Bananas.

7. Notwithstanding anything herein ordered The Director of Agriculture may at any time and in any particular case authorise a reduction in the area to be treated as an infected area or to modify the treatment herein prescribed by means of written instructions to any person appointed under Section 5 of the Protection from Disease (Plants) Law, 1925 or to the occupier or other person having the charge or management of land which in the opinion of the Director of Agriculture is infected with the Panama Disease of Bananas whether the said land shall or shall not have been declared by Order published in the Jamaica Gazette to be infected or suspected of being infected with Plant Disease.

#### THE PROTECTION FROM PLANT DISEASE (BANANA AND PLANTAIN SUCKERS) ORDER, 1925.

No person shall remove any Banana Suckers or Plantain Suckers from within the boundaries of any parish of this Island to any place within the boundaries of any other parish of the Island, excepting where the place of origin and the place of destination are within the boundaries of the same property, holding or Estate and except under or by virtue of a Permit or License in writing for the removal of such Banana Suckers or Plantain Suckers, first had and obtained from the Director of Agriculture and upon such terms and conditions (if any) as the Director of Agriculture may impose in and by such Permit or License.

#### THE PROTECTION FROM PLANT DISEASE (BANANA TRASH) ORDER, 1925.

1. No person shall in any manner utilise Banana Trash or Banana Leaves for the purpose of packing or wrapping anything which is transported on any public road or railway within this Island except for the wrapping of Bananas as provided for under paragraph 2 hereof.

2. It is permitted to wrap or pack Bananas with Banana Trash or Banana Leaves provided that any such banana trash or banana leaves which are brought or carried to any licensed buying Station for Bananas or Railway Station Yard and which shall be deposited, thrown or placed on the ground at any such buying station or Railway Station Yard, shall be completely destroyed by burning, within 24 hours, with fire at such Buying Station or Railway Station Yard as aforesaid with due care, in such quantities and at such times as may not endanger adjoining property, articles or things.

No person shall in any manner remove, take or carry away from such Buying Stations or Railway Station Yards any Banana Trash or Banana Leaves which shall have been deposited, thrown or placed on, or shall have come in contact with the ground at any such Buying Station or Railway Station Yard.

The person having the control or in charge of any Buying Station or Railway Station Yard shall be the person responsible for carrying out the destruction of the Banana Trash or Banana Leaves deposited within the premises under his control or in his charge and within a radius of 2 chains therefrom along any public road or land to which the public have access.

#### THE BANANA BORER ORDER, 1925.

1. The owner or occupier of any land shall not permit any Banana or Plantain plant growing thereon to be without cultivation so as to breed or harbour the Banana Borer Weevil.

2. All such plants shall be dug up and cut up into fragments or slices not greater than three quarters of an inch in thickness. The slices or fragments shall be scattered over the surface of the soil so that as far as possible one bit or slice shall not touch another.

### THE IMPORTATION OF PLANTS AND TOOLS ORDER, 1925.

1. In the case of any plants imported from the United Kingdom or the United States of America these shall be permitted into the Port of Kingston only, and all such plants having been removed from their wrappings, coverings or packages, shall, together with all such wrappings, coverings or packages, be fumigated in a fumigatory box (to be provided for the purpose by the Department of Agriculture) with Hydrocyanic Acid Gas at the rate of one ounce of Cyanide for every 300 cubic feet of space for a period of one hour. In the case of delicate plants with expanded foliage half the above dose of Cyanide shall be used and the exposure shall be half an hour only.

The officers responsible for this operation shall be—

- (a) In the case of large consignments requiring the use of large fumigatorium at the foot of West Street, the Director of Agriculture and his officers.
- (b) In the case of small consignments landed at a wharf in Kingston the small fumigatorium at the King's Warehouse shall be employed and the fumigation shall be carried out by the officers of the Customs.
- (c) In the case of Postal Parcels the fumigation shall be carried out at the General Post Office in the small fumigatorium at that place by the officers of the Post Office Department.

2. In the case of any plants or of any agricultural tools or implements of labour coming from any country other than the United Kingdom or the United States of America and of all agricultural tools and implements of labour that have been used coming from any country whatsoever, the importation of these into the island shall only be permitted if and when a written permit so to do has been obtained from the Director of Agriculture previous to their importation. Such permit may be granted by the Director of Agriculture for admission into the Port of Kingston only if he is satisfied that there is no danger of the introduction of disease by such importation. Every such importation shall be consigned to the Director of Agriculture and the Department of Agriculture shall decide in each case whether the plants, tools or implements, on arrival can safely be admitted, and shall carry out such disinfection or fumigation as may be considered necessary in such case in order to prevent the introduction of plant disease. Any consignment or part thereof imported under such permit which may in the judgment of the Director of Agriculture or his officers be dangerous or calculated to introduce or spread plant disease shall be destroyed and no compensation shall be payable to the importer of the plants or articles so destroyed. This rule shall not apply to plants, tools or implements, the importation of which may be otherwise prohibited.

3. Any plants or articles imported contrary to any of the provisions of this Order shall be destroyed by the officers of the Customs or of the Post Office, and no compensation, shall be payable to the owners of the plants or articles destroyed.

4. The Director of Agriculture shall be responsible for seeing that the appliances for fumigation are maintained in good order and shall supply the requisite chemicals in a form convenient for use by the officers of the Customs and Post Office Department.

5. The importer of any plants, or of any tools or implements of labour pursuant to a permit granted under section 2 of this Order shall be liable for the payment of any expenses incurred by the Government officers in moving or conveying the plants, tools or implements of labour for the purposes of fumigation or disinfection.

6. This Order may be cited as "The Importation of Plants and Tools Order, 1925."

7. In this Order the expressions "plant" and "plants" include any tree, plant, root, herb, grass, cuttings, buds or grafts, or part thereof respectively, or any articles, coverings or packages in which the same may be enclosed, packed or otherwise contained.

8. The Interpretation Law, 1900, (Law 9 of 1900) shall apply for the purpose of the interpretation of this Order in like manner as it applies to the interpretation of a Law.

By Orders issued under Law 10 of 1925, the importation of Cotton and Citrus plants is prohibited while by Orders issued under the Customs (Importation Prohibition) Law 1916, the importation of banana plants, or any parts thereof, tools or implements of labour usually employed in the cultivation of bananas that may have come directly or indirectly from Central or South America or the Island of Trinidad, Coconuts in the Husk and Citrus Fruits is prohibited.

## TICK CONTROL AND DIPPING TANKS.

By section 3 of "The Tick (Control and Eradication) Law, 1920," (Law 41 of 1920) it is (among other things) enacted that the Governor in Privy Council may make such Orders as he may think fit for prescribing, regulating and securing the periodical treatment of all or any Cattle by effective dipping for the control and eradication of Ticks and any such Order may be made to apply to the whole Island or to any area defined in the Order, and that the Governor in Privy Council may by the same or any other Order as he may think fit, direct that the Owners or occupiers of holdings on which there shall be Cattle shall construct dipping tanks sufficient for the effective dipping of all Cattle on the said holdings and it shall be the duty of such Owners or Occupiers to construct Dipping Tanks accordingly, and that any Order made for the purposes of the Law shall be published in the Jamaica Gazette and shall come into operation on such publication or at such other time as may be named in such Order.

An Order was issued in 1922, which provided that the Owner or Occupier of any holdings, on which there shall be at any time Cattle of or exceeding the number of one hundred, shall, for the control and eradication of Ticks, construct or cause to be constructed a Dipping tank on the said holding sufficient for the effective dipping of all Cattle on the said holding, and the construction of every such Dipping Tank shall be completed on or before the 1st day of January, 1923:—Provided nevertheless that where two or more of such holdings are in the possession or occupation of the same Owner or Occupier and shall not be more than Three Miles apart from one another along any Road, passage or way on which Cattle can be led or driven, the construction by such Owner or Occupier of a Dipping Tank, for the purpose aforesaid, and within the time aforesaid, on any one of such holdings shall be deemed to be a sufficient compliance by such Owner or Occupier with the provisions of this Order: And provided also that where two or more of such holdings are in the possession or occupation of different Owners or Occupiers and shall not be more than Three Miles apart from one another along any Road, passage or way on which Cattle can be led or driven, and such different Owners or Occupiers shall, subject to and with the consent and approval of the Director of Agriculture, agree among themselves in writing that a Dipping Tank, for the purpose aforesaid, and within the time aforesaid, shall be constructed by one of such owners or occupiers and any of such holdings, and when constructed that such Dipping Tank shall at all times be available for Dipping the Cattle of the Owner or Occupiers of such other holdings, as well as the Cattle of the Owner or Occupier of the holding on which such Dipping Tank shall be constructed, then and in such case, that construction of such Dipping Tank on any of such holdings shall be deemed to be a sufficient compliance by the respective Owners or Occupiers of such holdings with the provisions of this Order.

2. Every Dipping Tank under this Order shall be constructed, subject to the approval from time to time during such construction of the Director of Agriculture; and on the Director of Agriculture giving notice in writing to any Owner or Occupier of any holding as aforesaid of his disapproval, in any respect, of the construction of such Dipping Tank and requiring such defects to be remedied, to the satisfaction of the Director of Agriculture all such defects in construction as shall be specified in such notice, to be completed within four months from the service of such notice.

A Subsequent Order was issued in 1923, which provided:—

1. On and after the 1st day of September, 1923, all cattle in the Island shall be dipped in a dipping tank registered with the Department of Agriculture in accordance with the Order for the construction of dipping tanks, (The Tick) (Control and Eradication) (Dipping Tanks) Order 1922) of the 3rd October, 1922 and published in the Jamaica Gazette of the 19th October, 1922, and furnished or charged with a "dipping" liquid containing not less than 2lbs. and not more than 2½lbs. of Arsenious Oxide in 100 gallons of the liquid and the dipping aforesaid shall be made at intervals of not more than two weeks between each dipping, unless the Director of Agriculture gives written permission for a longer interval for the reason that as a result of previous dippings, the cattle of an owner no longer need to be dipped as frequently as every two weeks.

2. An Inspector is empowered to order the dipping of cattle at shorter intervals than two weeks but not oftener than once a week. The Inspector is also authorised to relax this rule and of Rule 1 supra in any case, where he considers it to be justified.

3. Any owner of a dipping tank who through drought and lack of water is unable to dip his cattle shall apply for a certificate of Temporary Exemption from the Director of Agriculture who shall grant this if he is satisfied that the owner is really unable to obtain water for dipping his cattle. Such certificate of exemption shall free the owner from the

requirements of these rules until such time as the lack of water and drought shall have ceased.

4. These rules shall not apply to any owner of cattle who can prove that he has been unable to obtain access to a dipping tank, situated within two miles walking distance of his holding and, having less than 100 head of cattle, is not called upon himself to construct a dipping tank.

### DIVIDING FENCES LAW.

PREVIOUS to 1888, the laws on the subject of Dividing Fences were 15 Vic., c. 22 and Section 24 of 15 Vic. c. 11.

Law 14 of 1888 placed the matter on a more satisfactory basis. Section 3 of the Law enacts that "every occupier of land shall, as between himself and the occupier of the adjoining land, be liable to bear one-half of the expense of erecting and maintaining a sufficient dividing fence to separate their respective holdings," while section 5 provides for giving notice by the one occupier to the adjoining one, for construction or repairs of the fences, and enables the former to have the work done if his neighbour refuses, and to recover half the cost of the work so done.

Section 10 enacts with certain provisos that "where the occupier of land is not the owner thereof, and is not as between himself and the owner bound by the terms of his tenancy to bear the expenses of erecting or repairing the fence dividing such land from the adjoining land, he shall, on being obliged to defray any such expense under the provisions of this Law, be entitled to recover the same from his landlord as money paid at his request, or to deduct the same from his rent as the same falls due."

### IMPORTATION OF ANIMALS.

THE Laws at present regulating the importation of animals are Laws 24 of 1890, 33 of 1893, 17 of 1895, 1 of 1898, 19 of 1909, 23 of 1920 and 13 of 1924.

By Law 23 of 1920, it is an offence if any person shall import into Jamaica any animal without the written permission of the Governor or some person authorised by the Governor and any animal imported without such written permission or in respect to which any prescribed conditions relating to its importation has not been complied with may be destroyed. The Director of Agriculture has been appointed to be the person authorised under section 4 of the Law to grant permission to import animals.

The following animals are exempt from the operation of this law: Bulls, cows, oxen, heifers, steers, calves, horses, mules, asses, dogs, sheep, goats, swine, domestic poultry, cage birds, live turtle, live fish, rabbits, guinea pigs, cats, monkeys, bees.

Law 24 of 1890 defines the words "cattle," "animal," "disease," and "foreign"—

1. "Cattle" means bulls, cows, oxen, heifers, steers and calves. Horses, mules and asses are included in the term by Law 1 of 1898.

2. "Animals," except where it is otherwise expressed, means cattle, sheep, goats and swine. Dogs are added by Law 19 of 1909.

3. "Disease" means cattle plague or rinderpest, anthrax, contagious pleuro-pneumon, foot and mouth disease, sheep pox or sheep scab, or any other contagious disease which is known to attack cattle or other animals. Glanders and farcy are added by Law 1 of 1898, and rabies by Law 19 of 1909.

4. "Foreign" denotes a country outside of the Island of Jamaica and its Dependencies, and when applied to animals and things, means brought to Jamaica from a foreign country.

Law 24 of 1890 provides that "all cattle and animals" imported from a foreign country shall, on arrival and before being landed, be examined and inspected by an Inspector appointed by the Governor, and shall then be placed in a depot on the coast to be provided by the Government, and be there kept in quarantine at the risk and expense of the importer for not less than 14 days exclusive of the day of landing.

Cattle or animals, however, imported from the United Kingdom or any British possession or from the United States of North America are exempt from this provision provided the importer declares in writing that they are, and the Inspector believes them to be imported for breeding purposes only.

Law 33 of 1893 provides that, whilst cattle or animals are kept in quarantine, if it should appear to the Inspector that any animal is diseased, it shall be lawful for the Inspector, in his discretion, to cause such animal to be slaughtered; and the Inspector shall also keep in quarantine for at least 14 days, or such longer period as the Governor may from time to time determine from the day when any animal is found to be diseased any animal that shall have been within the same enclosure as such diseased animal.

Should it happen that disease breaks out among any cattle or animals in quarantine to such an extent that the Inspector considers that it would be dangerous to the Island to let them or any of them out of quarantine, all such animals shall be slaughtered with the approval of the Governor.

Cattle and animals quarantined under the Law must be inspected by the Inspector before being released.

The Governor in Privy Council is empowered—

1. To fix a scale of fees and charges to be paid by the owner or consignee of cattle or animals landed at the quarantine depot.
2. To make such general or special orders as he may think fit for prescribing the ports or limits of ports at which alone foreign animals may be landed.

By the Animals Contagious Diseases (Prohibition and Restriction) Order, 1925, the importation of cattle and animals is prohibited from all foreign countries excepting the United Kingdom and Canada, while from these latter countries animals may be imported only on a Permit first had and obtained from the Governor or some person authorised by him. The importation of dogs is prohibited from all countries excepting the United Kingdom and from this latter country, dogs may be imported only under the following conditions:—

- (a) A certificate from the Ministry of Agriculture and Fisheries or other Bureau of Animal Health of Great Britain stating that there has been no Rabies among unquarantined dogs or other animals during six months immediately preceding the embarkation of any dog from the United Kingdom of Great Britain and Ireland for any place in this Island;
- (b) Each consignment of dogs shall be shipped directly from the United Kingdom of Great Britain and Ireland and shall not associate or be in contact during the voyage, with any dog from any country other than the United Kingdom of Great Britain and Ireland or with any dog which has not been released from quarantine in the United Kingdom of Great Britain and Ireland in respect of the disease known as Rabies.
- (c) On arrival at any port in this Island every such dog shall be examined by the Inspector appointed under the Law, and if free of infectious or communicable disease may, after permission in writing for such landing has been obtained from such Inspector be landed at such port of Entry.

The Governor in Privy Council is empowered at any time to make such general or special orders as he may think fit for prohibiting or restricting and regulating the importation of foreign animals or for the better execution of the Laws to prevent the importation of cattle or animals suffering from contagious or infectious diseases, or for the purpose of in any manner preventing the introduction or spreading of disease by carcasses, fodder, litter or other thing whereby disease may be introduced or spread.

#### *Fees for inspection of imported animals.*

The Inspector shall be paid by the person importing cattle or animals a fee of four shillings per head on "cattle" as defined above and 2s. per head on the smaller animals, i.e., sheep, goats, swine and dogs. All fees are to be paid before the animals are landed, or when in quarantine before being removed.

### CATTLE TRESPASS.

THIS matter is regulated by Law 13 of 1888, as amended by Law 14 of 1892, the provisions of which are briefly these: It is the duty of the proprietor of stock (including horse-kind, cattle, sheep, pigs, goats and poultry) to take proper and effective measures to prevent such stock from trespassing on the land of other persons and he is responsible in damages in respect of any injury done by such stock trespassing on the land of other persons provided that within 48 hours of the discovery of such injury the party aggrieved gives notice of the nature thereof to the proprietor or person in charge of the stock, and allows him and his valuers free ingress to the land. No person in occupation of any land abutting on a public road is entitled to recover any damages for trespass by stock being lawfully driven on such road under proper care and control, unless the land is secured by a fence sufficient to keep out ordinary stock of the class of animal committing the trespass. If in any action under this law the owner of the stock proves that his land is enclosed by good and sufficient fences and that he has adopted all reasonable and proper precautions for the confinement of his stock and that they have nevertheless through some accident beyond his control and which he could not reasonably have provided

against, escaped from his land the party complaining will not be entitled to recover any sum unless he can show that he had fenced his land with a fence sufficient to keep out ordinary tame cattle and horsekind.

Any person who wilfully opens or leaves open any gate, or breaks down or injures any fence or other contrivance provided for the purpose of confining any stock, with intent to allow such stock to trespass off the land on which the same is confined, is liable on conviction in a resident magistrate's court, to imprisonment with or without hard labour for a period not exceeding twelve calendar months.

### CONTAGIOUS DISEASES OF ANIMALS.

A Law was passed in December, 1922, which repealed Law 1 of 1909, Law 21 of 1910 and Law 23 of 1917. This Act gives very wide powers for executive action in the control of Contagious Diseases of Animals.

"Disease" is defined as Cattle Plague, Pleuropneumonia, Foot and Mouth Disease, Sheep Pox, Sheep Scab, Swine Fever, Farcy, Glanders, Rabies, Anthrax and any disease so declared by the Governor in Privy Council.

Every owner of an animal infected with or suspected of being infected with disease shall—

- (a) keep that animal separate from animals not so affected, and
- (b) immediately give notice to the Inspector of Police or other principal Officer of Police in the district where the animal is or to a commissioner appointed under the Law who shall report immediately to the Director of Agriculture.

The Law provides for the appointment of Commissioners and of a Chief Commissioner and calls for the services of a Government Veterinary Officer and of Inspectors.

The fullest powers are reserved (based on the Imperial Act) for the making of Orders dealing with all contingencies associated with the control of Contagious Animal Diseases by the State. Penalties are provided for breaches of the Law and of Orders made thereunder.

Power to spend up to £10,000 on the Warrant of the Governor for the costs of administering the Law has been given.

### POUNDS.

In 1897 the old Pound Laws 15 Vic., chapter 11, 22 Vic., chapter 17, and sections 1 and 7 of Law 16 of 1872 were repealed, and a new Pound Law, No. 19 of 1897 was passed.

It enacts that the control of all pounds be vested in the parochial board of the pariah, and that charges shall be paid out of the General Purposes Fund to which all fees shall be paid in. Parochial Boards to appoint keepers and make rules, with the approval of the Privy Council.

The owner of land may impound stock trespassing thereon. Animals to be impounded within 24 hours, unless a Sunday intervenes. The distrainer may claim seizure fees from the owner of any animal or from Poundkeeper when pounded.

The Poundkeeper when owner of impounded stock is known must serve a notice on him and may claim a fee for doing so as also on delivering animal to owner, a fee may be charged and expenses of keep if kept over one day.

Animals are to be kept separate and must be fed.

A separate enclosure must be provided for animals suffering from disease, and such animals may be destroyed, on the order of a Justice of the Peace, and the carcass burned.

Sheep need only be advertised in the Gazette for two weeks, and it is not necessary to advertise goats and pigs. A notice respecting the pounding of such animals must be posted at the pound and at the nearest constabulary station.

Animals may be sold with the consent of a justice of the peace after advertising the proposed sale. The title of a purchaser is secured under the Law. The owner of the animal so sold is entitled to the net proceeds of the sale if proving ownership within one month.

If proceeds do not cover expenses poundkeeper may recover from owner.

Goats, kids, hogs, pigs (or poultry—(Law 6 of 1904) may be killed by the person on whose land they may be trespassing—but notice must be immediately given to the owner of the animal, who may have the carcass, which he must remove within six hours or it may be buried, destroyed or removed by the owner of land.

Enticing an animal to trespass, in order to pound it, is an offence under the law. The parochial board is responsible for the death of animals dying from want of food or care, unless there is proof that there was no wilful act of neglect.

It is an offence to illtreat or make use of pounded animals, or to rescue or attempt a rescue of pounded animals.

Animals are not to be impounded singly when there are more than one, to increase the expense to owner or the fees to the distrainer.

All actions under the Law must be commenced within three months of the cause of action. A penalty not exceeding £20 may be imposed where none has been specially provided for and may be recovered by summary process before a resident magistrate or two justices of the peace.

## SCHEDULE II.

Seizure Fees to be paid to the Distrainer either by the owner of the animal or by the Poundkeeper as the case may be.

1. (a) For every mare, gelding, foal, colt, mule, ass, cow, ox, steer, heifer, or calf, if seized singly .. .. .	s. d.
.. .. .	1 0
(b) For every animal as above if two or three be seized at one time or brought in together .. .. .	0 6

## IMPORTATION OF BEES.

*Regulations approved by the Governor in Privy Council under Section 4 of Law 19 of 1910.*

1. No person shall import into this Island any Queen Bees without making application in writing to the Director of Agriculture for permission so to do and observing the terms and conditions by these Regulations imposed.

2. On every application as aforesaid for permission to import Queen Bees the Applicant shall pay to the Director of Agriculture with such application the following fees:—

Where the application shall be for a single Queen Bee, the sum of 4/.

Where the application shall be for more than one Queen Bee the sum of 4/ for the first and 1/ for each additional Bee.

3. The Director of Agriculture in granting permission on any such application as aforesaid may limit the number of Queen Bees to be imported under such application.

4. The Queen Bees shall be imported in packages addressed to the applicant c/o The Director of Agriculture, Kingston.

5. No person shall remove any Queen Bee from the package or cage in which the same shall be imported unless such person be authorised in writing by the Director of Agriculture so to do.

6. The person duly authorised by the Director of Agriculture for the purpose shall

EE

remove every Queen Bee from the package or cage in which the same shall have been imported and shall transfer such Queen Bee to a fresh package or cage with a fresh escort and food supply, and he shall immediately burn or cause to be burnt the original package and cage and also the original escort and food supply.

7. The Director of Agriculture shall exercise due diligence so that the Queen Bees shall be transferred as aforesaid and be redirected to the Importer, to the address furnished by the application, with as little delay as possible, but he shall not be responsible for any delay or loss of any Queen Bees that may occur.

8. Every importation of Queen Bees shall be made entirely at the Importer's risk and no claim for damages shall be made or be sustainable by him for any deaths or losses of Queen Bees that may occur in carrying out these Regulations.

9. The Regulations under section 4 of the Importation of Bees Law, 1910 (Law 19 of 1910) approved by the Governor in Privy Council on the 7th day of September, 1910, are hereby revoked.

### SEASONS AND PRICES FOR FRUITS, VEGETABLES AND OTHER ECONOMIC PRODUCTS IN KINGSTON.

As there is a good deal of misapprehension with regard to the seasons for the various crops grown in Jamaica, and the duration of the season for each crop, the principal market in Kingston was visited by the late Mr. W. Harris, F.L.S., Superintendent of Public Gardens, once a week for some months for the purpose of noting the various products offered for sale, and the prices charged to consumers. These prices, which are revised from time to time, are at least one-third, and frequently three or four times higher than the prices paid by the retail dealers to the growers of the commodities enumerated. The prices noted for economic products such as ginger, annatta, &c., were those paid by a large exporting firm to the producers.

It will be readily understood that the seasons vary somewhat according to prevailing weather conditions and the prices also vary according to supply and demand. The prices of all commodities have fluctuated so much during recent years that those quoted are only approximately correct.

*Approximate Seasons for fruits, vegetables and other products.*

N.B.—The prices quoted are given as a rough guide to general value but are in no sense commercially accurate.

The Marine Board has all the powers and authority formerly vested in the pilotage and harbour boards, as well as the superintendence and control of all lights and beacons other than light houses.

It has power to make enquiry as to shipwrecks and other casualties affecting ships, and into charges of incompetency or misconduct on the part of masters, mates and engineers of ships and to summon such witnesses for the purpose as it may think fit.

It has power to order the survey of any ship if it has reason to believe that she is in any way defective, and to detain her if they think such a course necessary.

It can examine and grant certificates to ships engaged in the coasting and home trade and can examine persons applying to be masters, mates, or engineers of coasting and home trading ships. The board also has the duty of examining persons applying for pilot licenses.

BOARD—Hon. R. Nosworthy, *President*; Hon. H. Simms, A. H. DaCosta, Capt. S. D. List, Capt. Geo. Lindsay, Lieut. J. H. Owen, R.N.R., D.S.C. *Secretary*, John W. Gayner.

Off Kingston there is good holding ground anchorage in from 6 to 8 fathoms off the town; the majority of vessels lay alongside the different wharves to discharge or take in cargo, the depth of water ranging from 12 to 36 feet.

COALS and provisions can be readily obtained in Kingston at reasonable market prices.

WATER for shipping is charged by the Water Commissioners at rates varying from 4/- for under 50 tons to £10 for 10,000 and upwards.

These rates are subject to an increase of 10% to cover cost to wharf owners for supplying from their wharf when the vessel requiring a supply of water is supplied from a wharf that is not owned or leased by the owner or charterer of the vessel so supplied.

Owners and lessees of wharves, who are not also the owners or charterers of the vessels supplied with water, will be allowed a commission of 10% on all shipping bills collected from Masters of vessels supplied when such wharf owners and lessees requisition the supply of water and pay therefor within fifteen days of the completion of the supply.

Sailing vessels in the coastal trade will be supplied from any wharf in Kingston at the rate of one shilling per hundred gallons on obtaining permission from the wharf owners to have the supply taken from his wharf and on the Master of the vessel paying the cost in advance.

BALLAST is obtained through the authorities at the General Penitentiary from the Quarry at Rock Fort. It is put on board vessels by convict labour, at a charge at the Quarry Wharf of 2/ a ton, and at Kingston of 3/6 a ton.

Falmouth—Bengal Point to Western Side of Long Bay.

Montego Bay—Western Side of Long Bay to Round Hill Bluff.

Lucea—Round Hill Bluff to North Negril Point.

Savanna-la-Mar—North Negril Point to Whitehouse Point.

Black River—Whitehouse Point to Cuckold Point.

Milk River—Cuckold Point to mouth of Cockpit River.

The following public officers are *Receivers of Wrecks* for the several districts:—

Kingston	..	G. S. Shaw,
Morant Bay	..	H. W. Mortlock, Collector of Taxes.
Port Morant	..	H. L. Murray, Assistant Collector of Taxes.
Port Antonio	..	C. H. V. Hall, Collector of Taxes.
Annotto Bay	..	R. H. Nicholas, Assistant Collector of Taxes.
Port Maria	..	W. C. Gauntlett, Collector of Taxes.
St. Ann's Bay	..	A. J. Depass, Assistant Collector of Taxes
Dry Harbour	..	D. D. Oliver, Landing Waiter.
Falmouth	..	D. N. Norman, Collector of Taxes.
Montego Bay	..	C. St. L. Hogarth, Assistant Collector of Taxes.
Lucea	..	D. T. Seaton, Collector of Taxes.
Savanna-la-Mar	..	E. A. Millingen, Assistant Collector of Taxes.
Black River	..	C. H. Cameron, Collector of Taxes.

The duties of the receivers of wrecks may be briefly classified as follows:—

- (a.) To render assistance in cases of stranded or distressed ships or boats, including the preservation of life and property, and the suppression of plunder, disorder or obstruction;
- (b.) To institute inquiries into wrecks and casualties at sea ;
- (c.) To see to the safe custody of wrecked property and the restoration thereof to the owners;
- (d.) To arrange the settlement of salvage claims;
- (e.) To see to the protection of the Customs Revenue in respect of wrecked goods.

The following table shows the fees payable to receivers, one moiety of which is paid into the Treasury and the other retained by the receivers for their personal use:—

For every examination on oath instituted by a Receiver with respect to any ship or boat which may be, or may have been, in distress a fee not exceeding	£1 0 0
But so that in no case shall a larger fee than two pounds be charged for examinations taken in respect of the same ship and the same occurrence, whatever may be the number of the deponents	
For every report required to be sent by the Receiver to the Governor the sum of	0 10 0
For wreck taken by the Receiver into his custody, a percentage of five per cent. upon the value thereof, but in no case shall the whole amount of percentage so payable exceed twenty pounds.	
In cases where any services are rendered by a Receiver in respect of any ship or boat in distress not being wreck, or in respect of the cargo or other articles belonging thereto, the following fees, instead of a percentage, that is to say:—	
If such ship or boat, with her cargo, equals or exceeds in value six hundred pounds, the sum of two pounds for the first, and the sum of one pound for every subsequent day during which the Receiver is employed on such service; but if such ship or boat with her cargo is less in value than six hundred pounds one moiety of the above mentioned sum.	

### LIGHT HOUSES.

The care and management of all light houses are by Law 8 of 1900, vested in the Director of Public Works.

**MORANT POINT.**—This light house is situated at the extreme east end of the island and carries a revolving white light, elevated 100 feet above high water which is visible at a distance of 21 miles at sea in clear weather.

The illuminating apparatus is a third order holophotal light, revolving once in eight minutes, and giving a flash every minute. This was erected in 1889, in place of the original apparatus.

The position of the light house is in latitude 17° 55' north, and longitude 76° 12' west.

**PLUMB POINT.**—This light house, built in the year 1853 on sand six feet deep down to water level, on a platform of crossed logs of hardwood, which were found to be rotting

when the light house was stiffened after the earthquake at the base with a massive reinforced concrete casing. It stands on the Palisados, at Great Plumb Point, at the entrance to Kingston Harbour. The tower, 70 feet in height, is built of stone and cast iron and carries a third order dioptric light. The illuminating apparatus, previously an incandescent oil lamp was replaced on March 1st, 1924, by the dissolved acetylene system and the character of the light was changed from fixed to single flashing giving a flash of  $1\frac{1}{2}$  seconds duration followed by  $7\frac{1}{2}$  seconds darkness. It is arranged to show a white light over the entrance of the eastern navigable channel and a red light over the foul ground and the south channel for a distance of 12 miles. The white light is visible at a distance of about 20 miles in clear weather. The position of the light house is in latitude  $17^{\circ}56'$  north, longitude  $76^{\circ}47'30''$  west.

**FOLLY POINT, PORT ANTONIO.**—This light house was built under the powers of Law 17 of 1886, the mercantile community having guaranteed the Government that the revenue from dues would suffice to meet the cost of maintenance, and the interest and sinking fund on the first cost. The tower is constructed of masonry and is fire proof throughout. The optical apparatus is dioptric of the fourth order shewing a flashing white light, which gives a flash of two seconds duration followed by 8 seconds darkness. The light is visible at 13 miles distance over an arc of  $153^{\circ}$ , the backward rays being reflected by a dioptric mirror. The illuminant used is compressed acetylene gas. The position of the light house is in latitude  $18^{\circ}11'$  north, longitude  $76^{\circ}27'$  west.

**NEGRIL POINT.**—A light house was erected at South Negril Point at the extreme western end of the island in July, 1895.

The tower is of concrete 66 feet high above ground, and the light is elevated 100 feet above sea level.

The apparatus is a second order dioptric, with a 5 wick burner, occulting, exhibiting the light for  $57\frac{1}{2}$  seconds, with periods of  $2\frac{1}{2}$  seconds of darkness intervening.

The position of the light house is in latitude  $18^{\circ}15'$  north, longitude  $78^{\circ}23'$  west.

**GALINA POINT, (NEAR PORT MARIA).**—This light consisted originally of a continuous burning three wick Wigham Lamp erected on a concrete tower—position approximate lat.  $18^{\circ}25'$  north, longitude  $76^{\circ}55'$  west.—Height, 44 feet above high water. In 1923 however, this apparatus was exchanged for an A.G.A. automatic acetylene light, giving a white flash of  $\frac{1}{4}$  second duration visible at a distance of 15 miles, followed by 5 seconds darkness.

## PART XIII.

### ADMINISTRATIVE BODIES.

#### KINGSTON GAS WORKS.

THE subject of lighting Kingston with gas was first mooted in 1864 by William George Astwood, and in 1865 a bill introduced by the late Hon. S. C. Burke in the Assembly became law. Nothing, however, was done in the matter till 1870, when Mr. W. Climie applied to the Governor, Sir J. P. Grant, on behalf of some capitalists in England for a concession to erect gas works for the supply of the city, such concession to extend over a period of thirty years. The further terms proposed were: that the maximum price should be 18/ per 1,000 cubic feet; that the gas should be used for lighting the streets and all public buildings; and that all imported materials should be duty free. These terms did not prove acceptable to Sir J. P. Grant, who considered that such a concession would place it beyond the power of the inhabitants of Kingston to obtain gas on what he thought reasonable or anything approaching reasonable terms. The same answer was returned to the late Mr. T. L. Harvey who applied in 1871 for a similar concession; the Governor remarking that if gas was to be provided he would recommend that the provision be made for establishing Government gas works thereby avoiding all the very serious objections to long monopolies to private parties.

On Sir J. P. Grant referring the proposal to establish Government gas works to the Kingston Municipal Board he was met by the very curious objection that the lighting up of the streets would be attended with considerable disadvantage, unless accompanied by a more efficient Police Force, in consequence of the fact that the "unscientific and ignorant depredating class of the community have great fear of darkness and generally take advantage of the light of the moon for their operations." In other respects the proposal was hailed with satisfaction. The objection somewhat surprised the Governor, who thereupon called on the Police Authorities for their opinion. Major Prenderville (the Inspector General) showed that of the 74 burglaries and larcenies committed between January 1870 and September 1871, inclusive, only eighteen were committed on dark and partly moonlight nights, which were two hundred and fifty-four in number. The unanimous opinion of the Officers of Police was that street lighting would be a help to the Constabulary and a difficulty in the way of the thief.

Sir J. P. Grant fortified by these opinions, caused a bill to be passed through the Legislative Council during the session of 1872, appointing as Gas Commissioners the persons holding for the time being the respective offices of Colonial Secretary, Director of Public Works, Auditor General, Custos of Kingston and Custos of St. Andrew, and empowering them to raise by debentures the sum of £30,000 for the purpose of erecting gas works and working the same.

The works were commenced early in 1875 and completed in 1877, the town being lighted with gas for the first time on the 10th May. The works were constructed under the superintendence of Mr. John Stiven. They consisted of a retort house containing six beds of retorts, a building containing the exhauster engine, the two scrubbers, the station meter, the governor or photometer, the purifying and lime house, the coashed, and two gas holders capable of holding, 30,000 cubic feet each, or about one day's supply. The cost of the works, including the mains and 699 street lamps for lighting the city was £39,313 18s. 10d. The works are situated beyond the Railway station.

The retort house has been extended, and new benches of four regenerative settings have been erected. A further extension has been made and another bench of two settings added.

The quantity of gas made in 1922-23 was 28 million cubic feet; the coals carbonized amounting to 2,578 tons. The public lights consume about one-half the quantity of gas made, the street lamps being lit on an average 190 hours per month.

The receipts for the year ended the 31st March, 1923, were £14,977 13s. 9d. and the expenditure £12,051 2s. 0d. including the charges for interest, sinking fund, &c. The prices charged for gas, &c., are as follow:—

For each street lamp, per annum	..	..	£8	0	0
For gas consumed for illuminating purposes—per 1 000 cubic feet	..	..	0	10	0 less
15% discount for prompt payment for the first 20,000 cubic feet and 5% extra for any quantity in excess thereof.					
For coke, per ton	£3	5	0	For temper lime, per puncheon	£2 5 0
For tar, per gallon	0	1	0 retail.	For temper lime, per barrel	0 9 0

The introduction of incandescent gas lighting has effected a marked improvement in illuminating power, with a considerable reduction in consumption and consequent cost of lighting. With a single Welsbach burner and mantle an illumination equal to 100 standard sperm candles can be produced at the cost of one-third of penny per hour, a similar light by means of the ordinary flat flame burner would require 6 No. 5 burners—costing 2½d. per hour, while the same illuminating power produced by an electric incandescent lamp, with current at one shilling per unit, would cost 4½d.

The Parade Gardens are effectively lighted by means of eleven self-intensifying incandescent gas lamps giving an aggregate of 3,300 candle power, a successful example of the latest development of incandescent gas lighting, and the incandescent principle is gradually superseding the old flat flame lamps.

#### KINGSTON AND LIGUANEA WATER WORKS.

THE City of Kingston and the plain of Liguanea are supplied with water from three sources, namely, the Hope River, the Wag Water and the Ferry River. The town and district were formerly dependent entirely on water supplied by wells and that yielded by a few springs along the harbour. A company was incorporated in 1848 to supply Kingston from a subterranean source supposed to exist near Barbican. Many thousands of pounds were spent in sinking shafts, driving adits and constructing a tunnel to lead the water by gravitation to Halfway Tree. The scheme proved a total failure, but the company in 1849 was fortunate enough to be able to purchase from the Duke of Buckingham a portion of the Hope estate, together with the water rights to four-ninths of the supply in the Hope river. Reservoirs were built at Hope and Montgomery's Corner (now called Cross Roads) and a line of 9-inch mains was laid for the supply of the city. These works delivered an indifferent supply of unfiltered water once or twice a day for household purposes. The pressure was so poor that little or no protection was afforded to the inhabitants against fire.

In 1871 the Government purchased the rights of the old company for the sum of £51,200, and immediately set to work to construct new works at a further expenditure of £87,000. These Works, completed in 1876, consist of:—

- 1st. A concrete culvert over three miles in length, from Hope to Cavaliers.
- 2nd. A large settling reservoir, 256 feet long by 160 in breadth and 20 in depth, capable of containing 2½ million gallons.
- 3rd. Two filter-beds, each 200 feet long by 100 broad by 7 feet in depth. They contain the necessary filtering materials, such as small stone, gravel and sand, superposed in-layers, and are each capable of filtering 1,500,000 gallons in 24 hours.
- 4th. A pure water tank, 200 feet by 180 and 20 feet in depth, capable of holding 3,000,000 gallons, an average day's supply to the city.

The water for the town supply is drawn from this tank, the bottom of which is 156 feet above the mean sea-level, by a 21 inch main and is then distributed over the city by means of 12, 6, 4 and 2-inch cast iron mains measuring in the aggregate some 60 miles.

Owing to successive droughts the water supplied by the Hope was found insufficient for the growing needs of Kingston and St. Andrew, and in 1885 the Water Commissioners obtained powers to enable them to obtain the water rights belonging to Constant Spring estate. These were brought, together with nearly 800 acres of land, for the sum of £8,000. Works for utilizing this additional supply were begun in 1886 and completed in 1887 at a total cost, including the purchase of water rights and land, of £19,112.

The works themselves comprised an arched concrete intake on the bank of the river the opening being guarded by a stout iron grating. An open culvert conducts the water to the tunnel which is 23 chains in length and varies in size very considerably, being some 6 feet high by 4 feet wide at the north end, but diminishing to the south end to 4½ feet by 3 feet. This tunnel was constructed about a hundred years ago for the supply of Constant Spring Estate and is stated to have cost with the immense masonry dam to the aqueduct, together with the expenses of a law suit caused by diverting the water of the river, some £80,000. A new tunnel, circular in form, and 5 ft. in diameter, has been constructed to a grade of 1 in 200 in place of the old one. The water after leaving the tunnel flows in 12-inch pipes to the gutter, where it is joined by a spring that rises on the south side of the range. From the junction the water is conveyed about 40 chains by an open conduit, terminating in a circular catch pit from whence the water is led into two reservoirs each 200 feet long by 100 feet wide by 16 feet deep. These reservoirs contain 1½ million of gallons each and are constructed of cement concrete, backed by a layer of clay puddle. A 10-inch and a 9-inch main, 3 miles long, carry the water to within half a mile of Halfway Tree, where a junction is effected with the existing system of mains. A 12-inch

trunk main now connects Constant Spring with the Cavaliers works direct. Branch mains have been laid to supply Swallowfield, Penwood, Molyneux, Cassia Park, Grant's Pen and Leaders' Lane. The town mains have also been extended along the Spanish Town road and the Windward Road. In all upwards of 110 miles of mains have been laid in connection with these works, and several tracts of land in St. Andrew are now rendered available for building purposes which were previously of little value to the owners.

Law 37 of 1910 provides for increasing the water supply of Kingston by erecting a pumping station at the Ferry River, authorising a loan of £50,000.

This work was completed in February, 1912, and is now in operation. The Pumping station is situated about  $7\frac{1}{2}$  miles west of Kingston and consists of an intake sluice and channel, and engine and boiler house and coal store in which are installed two horizontal triple expansion, surface condensing Worthington pumping engines, with two multitubular Bacoek and Wilcox boilers with superheaters and an economiser.

The water is pumped to the Cavaliers reservoirs through steel main 21 inches in diameter and  $7\frac{1}{2}$  miles in length. Each pumping engine is capable of delivering 3,000,000 gallons per 24 hours into the reservoirs.

The Mona Estate was purchased in April, 1914, and with it the right to the remaining five-ninths of the flow of the Hope River.

The Corporation are now proceeding to construct an impounding reservoir at Hermitage in the Wag Water Valley to hold 500 million gallons for the purpose of conserving the surplus flow in the river for use during periods of drought and for augmenting the existing supply to cope with the rapidly increasing demand for water. In connection with these works a Hydro-electric Scheme is proposed to generate sufficient power to light the streets of Kingston and suburbs with electricity and to drive the pumping machinery at the Sewerage Pumping Station. The contract for the first portion of the works—i.e., the construction of the Dam for the Reservoir—has been let to Sir W. G. Armstrong Whitworth & Co., Ltd., who are making excellent progress.

The suburbs of the town, such as Allman Town, Franklin Town, Torrington, Camperdown, and Campbell Town, are supplied with filtered water, from the Constant Spring reservoirs, by a new 12-inch main laid in 1899 to the top of Allman Town, branching to the east and west with 9-inch and 6-inch pipes. Filter beds have been built at Hope and at Constant Spring so that all water supplied by the Commissioners is now filtered, and to render the filtration even more efficient than it is at the present time the Commissioners have increased their filtration area by the erection of Pressure Filters at Cavaliers of the continuous type, having an additional capacity of 3 million gallons per diem, at the cost of £8,500.

The supply from all sources is on the constant and high pressure system, and the consumption by the town of Kingston and St. Andrew, amounts, on an average, to about 8,000,000 gallons in 24 hours, distributed to the ratepayers through 180 miles of connecting services. A meter system is being gradually developed and at present there are upwards of 100 water meters installed.

The water supplied to Kingston is of excellent quality as shown by the following analysis by the Director of Agriculture and Island Chemist.

The limits within which such rates are payable are as follows: From a line beginning at the harbour at the southern end of Paradise Street, running northerly to the Windward Road, then along that road to the eastern boundary of Brown's Town, thence northerly along the eastern boundary of Brown's Town, Passmore Town and Franklin Town to the northern boundary of the parish of Kingston, as defined by Law 20 of 1867; following that boundary westward as far as the South Camp Road; then southerly to the northern boundary of Villa Pen, then westerly to the Arnold Road; thence along the Arnold Road northerly to the northern boundary of Kingston, following that boundary westwards to the Spanish Town Road, thence south-easterly along the Spanish Town Road to the Kingston Pen Road; thence southerly along the line of the Kingston Pen Road to the Harbour; and thence along the shore of the harbour to the point of starting.

The occupier of a property, used for any of the purposes mentioned in the 2nd subsection of the 6th section of Law 18 of 1875, pays in addition to the prescribed rate such sum as the Commissioners may in each case specially declare.

The occupier of a property not used as a residence, nor for any of the purposes last referred to, pays a sum equal to one-third of the prescribed rate.

The quantity of water which each ratepayer is entitled under the 9th section of Law 18 of 1875 is as follows:—

1/6 per month ..	100 gallons a day.	6/6 per month ..	400 gallons a day

These rates to be subject to an increase of 10% to cover cost to wharf owners for supplying from their wharf when the vessels requiring a supply of water is supplied from a wharf that is not owned or leased by the owner or charterer of the vessel so supplied.

Owners and lessees of wharves who are not also the owners or charterers of the vessels supplied with water will be allowed a commission of 10% on all shipping bills collected from Masters of vessels supplied when such wharf owners and lessees requisition the supply of water and pay therefore within fifteen days of the completion of the supply.

Sailing vessels in the coastal trade will be supplied from any wharf in Kingston at the rate of one shilling per hundred gallons on obtaining permission from the wharf owner to have the supply taken from his wharf and on the Master of the vessel paying the cost in advance.

Scales shewing the additional sums to be paid under section 10 of Law 18 of 1875 by ratepayers requiring an extra supply of water for purposes not comprehended in the 2nd sub-section of section 6:—

For a bath exceeding 200 gallons in capacity, 1s. 3d. per month for every 100 gallons of capacity or fraction of 100 gallons above 200, or such other payment as may be in any case specially agreed to by the Commissioners.

For a garden exceeding 600 square yds. in area, 1s. per month for every 200 square yds. or fraction of 200 square yds. above 600 square yds. or such other payment as may be in any case specially agreed to by the Commissioners.

For every fountain or stand pipe 2s. a month; provided that no ratepayer shall be required to pay for a fountain or stand pipe in a garden as well as for excess of area of a garden; but if a fountain or stand pipe be provided in a garden exceeding 600 square yards in area the ratepayer shall be charged, at the rate hereinbefore stated, for either the fountain or stand pipe only, or for the excess of area of the garden only, at the option of the Commissioners.

For extra supplies of water under section 10 of Law 18 of 1875 at the rate of 1s. for 1,000 gallons, except as hereinbefore provided for baths of large size gardens and for fountains and stand pipes.

VICTORIA AND JUBILEE MARKETS IN KINGSTON.

THE Victoria Market building is a handsome and commodious iron structure. It is within a rectangular space which is enclosed by an iron railing on a brick wall, the dimensions of the enclosure being 306 feet north to south and 159 feet east to west. In the centre of each of the four sides are the entrance gates, the principal one being on the western side from King Street; this entrance is by an arched way between two rooms which serve as offices, the whole being surmounted by a clock tower. There is a fountain immediately opposite the main entrance.

The building is supported by 40 cast iron columns fifteen feet in height and octagonal in form, placed at distances forty-five feet apart from north to south and twenty-four feet nine inches from east to west. The span of the roof trusses is forty-five feet and they are placed eight feet three inches apart. The roof covering is of galvanized corrugated iron, the area under cover being 3,837 square yards.

The building is entirely surrounded by a verandah, seven feet in width supported by eight columns of the same character as the main columns, giving additional protection against rain and the slanting rays of the sun.

There are 92 benches of cast iron with slate tops to receive the articles exposed for sale; each twenty feet long and four feet wide. They are so arranged as to form lanes twelve feet in width running north and south for the public to circulate in. Between the backs of the ranges of benches a space four feet nine inches in width is set apart for the sellers. These benches are so divided as to give 246 stalls with an aggregate lineal space of 1,840 feet.

The flooring of the market is of Portland cement on a strong bed of concrete, the drains being formed of the same material and covered with perforated cast iron plates. Water was laid on to 20 taps attached to columns, in various parts of the building. Sanitary arrangements of modern description are provided for the use of the staff, attendants and the public using the markets.

The cost of the market, including the lands purchased, was £22,778.

The public landing place of the city is opposite to the southern gate of the market; it is 105 feet in length and 21 feet in breadth, with wooden flooring and stone steps leading into the sea; the structure is covered with a light iron roof. The cost of this landing place, with that of an adjacent one for the use of trading boats, &c., was £2,238. This sum includes the cost of building a cut stone quay-wall along the beach and in front of the market 233 feet in length.

## PAROCHIAL MARKETS.

THE Law affecting market-places throughout the island, other than in Kingston, is Law 9 of 1874. "A Law to make provision for the erection and regulation of markets throughout the island," which consolidated and amended the laws previously in force in the matter.

All markets are placed under the control of the parochial boards of the parishes in which they are respectively situated. The income arising from the markets is to be applied to their support and maintenance and any surplus may be applied, with the approval of the Governor, to any local objects for the benefit of the town or of the immediate neighbourhood in which the markets concerned are situated.

This Law empowers the Government to advance money from the Treasury, on the application of the Parochial Board of any parish, for the erection of market buildings, or the repair, improvement or enlargement of existing markets, on receiving such particulars and estimates of the proposed works as he may think fit to call for; such advances are charged on the income of the markets, the net balance on market account each year being applied in discharge or reduction of interest and principal of advances.

The Law further gives the parochial boards power to acquire lands under the Lands Clauses Law, 1872, and otherwise for market purposes; to alter, with the concurrence of the Director of Public Works, the public approaches to markets; to appoint and remove Clerks of Markets and other servants; to lease or rent markets or stalls in market; and to frame rules for the order and government of markets, to be approved by the Governor in Privy Council. The establishment of markets otherwise than in accordance with the Law, and the slaughtering of animals except in authorized places, are prohibited by this Law, under penalties.

As there was no provision in this law to prevent people from selling at places other than markets, and as it was desirable on many grounds that in places where markets might be established the people should be required to sell in these markets and nowhere else within certain limits, the subsequent law, 5 of 1880, was passed by the Legislative Council to impose a limitation of sale of certain articles in the towns to which the law is made to apply.

The following is a list of the markets throughout the island, under parochial authority, with the names of the persons in charge:—

*Kingston*—Victoria Market (E. C. Clarke); Jubilee Market (W. McDonald).

*St. Andrew*—Cross Roads Market (D. Palma).

## KINGSTON SLAUGHTER HOUSE.

THESE buildings were erected by the Public Works Department under the provisions of Law 37 of 1872 for the purpose of securing to the inhabitants of Kingston a supply of good and wholesome meat.

The Slaughter House was first opened for use on the 1st day of March, 1876, at which date all private slaughter yards had been dispensed with, the value of them having been paid to the proprietors in accordance with section 24 of the Law.

The sum expended in the purchase of land, erection of buildings, cattle pens and wharf and for compensation to the owners of private slaughter yards was £10,406 10s. 8d.

The revenue for the financial year ended 31st March, 1924, amounted to £2,308 16s. 8d., the expenditure to £1,265 4s. 4d. without the charge of £500 for interest and Sinking Fund.

The number of animals slaughtered during the period referred to was as follows:—  
Oxen, 5,700; Sheep, 408; Pigs, 2,686; Turtle, 272; Goats, 1,520. Total—10,586.

The fees charged for slaughtering are as follows:—

## KINGSTON LOAN BOARD.

*Office: Public Buildings, Kingston.*

THE Kingston Loan Board was constituted under the provisions of The Earthquake Loan Administration Law, 1907, for the purpose of making, administering and recovering loans out of the moneys raised under The Earthquake Loan Imperial Law, 1907.

The Board consists of eight persons, three of whom are appointed by the Governor, on the nomination of the Elected Members of the Legislative Council, and five appointed by the Governor together with the Chairman.

Loans under the Law could be made in the defined district of any parish for the purpose of restoring or repairing buildings damaged or destroyed by the earthquake of 14th January, 1907, or subsequent fire, or for erecting new buildings of substantial value in the district damaged by the earthquake or fire to an extent not exceeding the amount of such loss or damage. No person was precluded from obtaining a loan from the Board, because he has prior to applying for same, replaced or restored or erected the buildings on the premises in respect of which the application is made. All Loans made by the Loan Board are secured on a first mortgage of the freehold in respect of which the same is made. The making of loans has ceased. The Board has power, however, to make a new loan on the realization of a security. Such loans are very few in number.

The defined districts under section 9 of the Law are:—

The whole of the parishes of Kingston, St. Andrew, Port Royal, St. Catherine, St. Thomas, Portland, and the Richmond District of the parish of St. Mary.

The loans are payable by annuities under the following scale.

On a loan of £100 for	7 years.	10 years.	12 years.	15 years.	20 years.

Loans amounting to £372,825 were made, and £361,799 received in payment to 30th September, 1925. The balance of assets over liabilities was £34,972 13s. 7d. and is now 317.19% of the amount outstanding on loans.

BOARD. Hon. Colonial Secretary, *Chairman*; Hon. Attorney General, *Vice-Chairman*; E. W. Lucie-Smith, O.B.E.—Appointed by the Governor.

H. A. L. Simpson, O.B.E., Philip Stern, J. M. Nethersole—Appointed by the Governor on the nomination of the Legislative Council. *Secretary Acting*—W. M. Fraser.

## AGRICULTURAL LOAN SOCIETIES BOARD.

*Public Buildings, Kingston.*

A Law for the Encouragement of Agricultural Loan Societies was passed by the Legislative Council in 1912.

The Board framed rules under section 5, sub-section (1) for the control and superintendence of such Societies as may borrow from the funds placed at the disposal of the Board by the Legislative Council for the purpose of making loans. These rules were approved by the Governor in Privy Council on 15th October, 1912.

To meet the situation caused by the hurricane and drought of 1912, the Legislative Council passed Law 36 of 1912; and resolutions approving of advances over £200 being made by the Treasurer, on the recommendation of the Board, to owners and lessees of sugar works and plantations damaged or destroyed by the hurricane, as well as on cane crops on the ground.

Under Law 36 of 1912, Agricultural Loan Banks were used as the medium for distributing loans up to £200 to hurricane and drought sufferers. Under this head, the Board made loans amounting to £48,821.

It was necessary to frame new rules to meet the situation; and such rules were—

approved by the Governor in Privy Council on 23rd January, 1913, rescinding those passed on 15th October, 1912.

Under the resolutions of the Council, the Government approved of loans, on the recommendation of the Board, as under:—

On cane crops on the ground .. .. .	£2,500
To owners and lessees of sugar works and plantations	14,910

On 23rd September, 1915, the Legislative Council allocated £2,500 for the purpose of making loans to repair damage done by the storm of August, 1915.

In October, 1916, Law 37 of 1916, was passed to enable the Board, through the Banks, to make loans up to £200 for the purpose of resuscitating cultivations damaged by the hurricane of August of that year. Funds were provided for the purpose as well as for making loans of over £200 on the same lines as in 1912 by the Government on the recommendation of the Board.

On account of the damage done by the hurricane of 23rd September, 1917, Law 24 of 1917 was passed on the same lines as Law 37 of 1916. Funds were provided for making loans under the new law of not over £200 to planters.

The following is a summary at 30th September, 1925 of the transactions of the Banks with the Board.

Total loans .. .. .	£116,806 1 4
Repayments .. .. .	97,708 13 1
Balance .. .. .	<u>£19,097 8 3</u>

The Land Settlement Scheme, started in 1920, whereby a Loan Bank is enabled to purchase a property for re-sale to small settlers has been taken up enthusiastically. Advances amounting to £55,774 3s. 11d. to nine Banks have been made under this head, and £25,251 1s. 3d. was repaid to 30.9.25.

BOARD. Hon. R. Nosworthy, *Chairman*; A. Spooner, Hon. A. G. Nash, B.Sc. (Edin.), C. W. Doorly, Hon. P. W. Sangster.

#### AGRICULTURAL LOAN BANKS.

Of the Industrial and Provident Societies, registered under Law 33 of 1902, the People's Co-operative Loan Banks, form the largest class. The objects of the Banks, as set out in their Rules are "to carry on the business of banker and bill discount and of dealer in stocks, shares, bonds, debentures, mortgages and other securities, and to make advances for co-operative, agricultural and industrial objects." The following particulars have been obtained from the Banks.

## WATER SUPPLY.

THE name Jamaica is said to mean "Island of Springs," and the name is justified by the large number of springs and rivers of moderate size and the numerous water holes, some of great beauty, which are found in the Island. The rainfall, except in certain areas near the seaboard, is not deficient, but occurs irregularly, the two principal rainy seasons being in May and October, but there is usually more or less rain all through the summer months.

The lack of water for domestic supply, cattle and irrigation purposes, from which considerable districts of the Island suffer periodically, is due chiefly to the large areas of porous limestone deforming or directly underlying the surface. The rains are rapidly absorbed into limestone, and flow in a large number of cases in underground channels, sometimes appearing on the surface at lower levels for a mile or two and then sinking again and finally discharge at or near sea level. In many cases small ponds have been constructed with clay bottoms on the limestone to retain water for cattle, and artificial catchment supply tanks for domestic use. Impounding reservoirs can be constructed only in certain places outside the limestone areas and are of small size.

Because of these conditions, if there is any temporary deficiency in rainfall the poorer people in the island are affected almost immediately, because they make little or no provision for storage during rains.

To supply this need as far as possible, the legislature passed Law 24 of 1873, to enable the Governor to advance money from general revenue to the municipal (now the parochial) boards for the purpose of constructing water works in their parishes, to provide for the re-payment of such advances, to authorise the acquisition of land by the municipal boards, and to regulate the management of the works and the supply of water therefrom. The water supply was to be charged to those who used it, and any deficiency was to be made good from the poor rates of the parish in which the works were situated. Under the subsequent Law of 1881, a compulsory water-rate was leviable in the particular district of a parish benefited by a water supply obtained by advances from general revenue under the provisions of Law 24 of 1873.

When the drought of 1884-85 occurred considerable privation was experienced in a large portion of the island. The Government again brought the necessity of devising plans for the supply or storage of water to the earnest attention of the parochial authorities, and Law 8 of 1886 was passed in amendment of the previous enactments. By this Law water-rates are made payable in respect of all houses in a district in which a water supply is established under the provisions of the recited Laws, and on all horsekind and horned and other stock owned or possessed within such district by any resident therein. Law 29 of 1888, amended by Law 28 of 1889, was passed to meet cases in which the supply of water throughout the district was not uniform.

The assistance of the Government in making advances from general revenue for providing water works has since been invoked for the districts of Savanna-la-Mar in the parish of Westmoreland, Morant Bay in the parish of St. Thomas, St. Ann's Bay and Brown's Town in the parish of St. Ann, Port Antonio in the parish of Portland, Port Maria in the parish of St. Mary, Old Harbour and Linstead in the parish of St. Catherine, Montego Bay in the parish of St. James, Lucea in the parish of Hanover and Black River in the parish of St. Elizabeth.

Because of the distress in 1912 and previous years in the dry districts from lack of water due to a series of dry years the Government appropriated a large sum of money in the Estimates for 1912-13 for the provision of tanks in aid of country water supplies and as a reserve against drought, and as a result a number of district tanks with catchments have been constructed by the Parochial Boards of St. Ann, Manchester and St. Elizabeth.

This is not considered by Government to be a complete and satisfactory solution of the problem of water supply, but it will be of substantial benefit pending the utilisation of possible sources of continuous supply. A scheme for bringing water from Hermitage in St. Andrew to Kingston is under construction.

## RIO COBRE IRRIGATION CANAL.

THE total length of canals and branches constructed and at present under maintenance is as follows:—

	Miles.	Chain.		Miles.	Chain.
Main Canal ..	5	73	Cumberland Pen Branch	4	32
Subsidiary Channels	0	35	Subsidiary Channels	7	63½
Old Harbour Branch	9	28	Caymanas Branch	3	66
Subsidiary Channels	5	35	Subsidiary Channels	3	20
Port Henderson Branch	4	35			
Subsidiary Channels	2	7½	Total	46	75½

The area embraced by the canal and its branches is nearly 50,000 acres. A portion of this cannot be irrigated, as it is broken and hilly ground; but, after making all deductions, including those for roads, gullies, Spanish Town, &c., there remain fully 30,000 acres capable of being irrigated. Nearly one-half of this land is very suitable for irrigation and, with water and proper cultivation, might be made to grow almost any crop, as it is a loamy soil, slightly porous and capable of taking up water without letting it through too rapidly. The remainder is a clay soil which produces, with irrigation, excellent crops of sugar-cane and guinea grass.

The total number of acres now under irrigation is about 16,300 and the aggregate quantity of water supplied 16,000 cubic yards per hour.

The gross revenue in 1924 was £15,175 19s. 9d. It is derived from the sale of water for irrigation for watering stock, for supplying the Spanish Town Water Works from the sale of fruit, &c. grown on the canal banks. A number of cocoa-nut and other fruit trees have been planted on the banks.

The natural slope of the ground over which the canal is carried is considerable, and, the canal therefore is capable of yielding a large mill-power. It offers a good field for the establishment of central factories for the manufacture of sugar. Amongst the crops which may be cultivated with profit are the following: sugarcane, bananas, plantains, cocoa, oranges and limes.

Below are the details of the acreage irrigated and of the water consumed for each description of cultivation for year ending 30.12.24.

Cultivation.	Acreage irrigated.	Cubic yds. of water taken per hour.
Bananas .. .. .	9,800	13,034
Sugar .. .. .	4,500	2,037
Guinea Grass .. .. .	1,000	230
Mixed cultivation .. .. .	200	100
Oranges and coconuts .. .. .	800	300
Machinery and domestic use, &c. .. .. .	..	294
Totals .. .. .	16,300	15,995

The following scale of rates were settled by the Governor in Privy Council and published in Gazette of 25th Novr., 1920, together with regulations for the management and care of the works, etc., rescinding the regulations previously in force, and taking effect from 1st January, 1921.

1. Any person who shall use the canal or works in any of the following ways without permission in writing from the Director of Public Works, shall be liable to a penalty not exceeding Five Pounds

- (a) Washing clothes or bathing in the canal.
- (b) Making tracks or ways or paths over or through the fences or along the banks of the canal.
- (c) Fishing or setting fish pots or catching turtle or other animals.
- (d) Floating on the canal or mooring to the banks, or putting on the banks of the canal any boat or raft or canoe.
- (e) Cutting any tree or shrub or grass or any plant from the banks or works.
- (f) Sinking any pump or well, or making any excavations within a distance of ten chains from any canal or watercourse belonging thereto, without permission in writing from the Director of Public Works.

2. Any person who, without authority from the Director of Public Works, shall interfere with any sluice or other contrivance for regulating the flow of the water in or from the canal shall be liable to a penalty not exceeding Twenty Pounds.

3. Any person who shall throw or put or cause to be thrown or put into the canal or on to the banks or works any rubbish or offensive matter, or any material which shall obstruct the free flow of water in the canal or works, shall be liable to a penalty not exceeding Ten Pounds.

4. Any person who shall trespass on the canal or works or upon the land adjoining the banks, being part of the canal lands, or climb on, to or over the fences, or break the fences, or in any way injure the canal or works shall be liable to a penalty not exceeding Two Pounds.

5. Water will be supplied to consumers at the discretion of the Colonial Secretary, and will be paid for at the rate set out in Regulation 8 (b) hereof.

6. Any reduction of water under any Agreement whether such reduction be under any regulation or otherwise shall be deemed to be an "accident or other cause beyond the control of the Colonial Secretary" within the meaning of Regulation 10 hereof.

7. The water is to be conducted to the fence line of the canal by appliances provided by the Director of Public Works. All arrangements, appliances or works for conducting and using the water beyond the fence line of the canal must be provided by the consumer; but, should he desire it, the Director of Public Works may consider any special application for the construction by his officers of such appliances or works at the cost of the consumer.

8. Payments according to the following scale of rates shall be made by persons who take water from the canals or works, provided also that no water, except as in hereinafter provided, shall be supplied for any period less than six months:—

- (a) When water is taken only for purposes other than irrigation the following rates shall be paid:—
1. For supplies of 5 cubic yards per hour or less, a sum of £12 per annum.
  2. For supplies of more than 5 and not exceeding 10 cubic yards per hour, at the rate of £2 5s. per cubic yard per hour per annum.
  3. For supplies of more than ten and less than fifteen cubic yards per hour at the rate of £2 2s. 6d. per cubic yard per hour per annum.
  4. For supplies of fifteen cubic yards or over per hour, at the rate of £2 per cubic yard per hour per annum.
- (b) When the water is taken and used for irrigation at the rate of £1 per cubic yard per hour per annum, not more than the quantity named in the following table to be issued for each acre of cultivation.

Bananas ..	1½	cubic yard per hour.
Canes ..	1	do do
Mixed Cultivation ..	½	do do
Coconuts ..	½	do do

Provided that, if in the opinion of the Director of Public Works less water than that shown above be sufficient, not more than the quantities named below may be issued for each acre.

Canes ..	¾	cubic yard per hour
Mixed Cultivation ..	¼	do do
Coconuts ..	¼	do do

- (c) For permission, at the option of the Director of Public Works, to take water at bridges or other places for domestic use only, the rate of six shillings per annum shall be paid, unless a water cart is used, in which case the rate shall be twelve shillings per annum for each person.
- (d) Special prices and terms may be made by the Director of Public Works for water for driving machinery or for other special purposes.
- (e) When water is taken for irrigation, arrangements may be made at the option of the Director of Public Works, for giving an accumulated supply at certain fixed periods in lieu of a constant supply; also for varying the points of delivery.
- (f) The total water sold under the above Regulations 8 (a) to 8 (e) shall not exceed 16,000 cubic yards per hour. Provided that when in the opinion of the Director of Public Works 18,000 cubic yards per hour is available, the surplus of 2,000 cubic yards per hour may be distributed free amongst consumers.

9. Consumers must make arrangements for the drainage of their lands to the satisfaction of the Director of Public Works.

Should a consumer fail to provide proper drainage, within ninety days of being called upon to do so in writing by the Director of Public Works his supply may be cut off and his contract cancelled.

10. If the stipulated supply of water should at any time be stopped or reduced in quantity by any accident or other cause beyond the control of the Colonial Secretary or purposely for the sake of altering or repairing the canal or any works in connection

therewith, the Colonial Secretary shall not be responsible for any damage that may in consequence thereof accrue to the consumer; and the payments to be made by the consumer shall not abate in consequence of such stoppage. The flow of water in the canals will, in general, be stopped during continuous rainy weather and no abatement from the payments hereinbefore specified to be made by the consumer will be allowed on account of such stoppages of water.

11. The payments hereby prescribed are to be made to such officer or person as the Colonial Secretary shall appoint to receive the same, and if any such payment be not made within fourteen days after the day on which it shall have become due, the Director of Public Works by his agents shall be at liberty to cut off and discontinue the supply of water without any notice whatever and without prejudice to the rights of the Colonial Secretary.

12. All existing regulations for the management and care of the works and for all persons making use of the works, and for fixing the scale of rates to be paid by persons using the said works, or taking water therefrom are hereby rescinded as from the 1st day of January, 1921, on which day these regulations shall come into force and be substituted for the said rescinded regulations.

*Superintendent.*—F. E. Taylor, £400, travelling allowance £130, appointed 1st October, 1897, and £100 as Secretary R.C.I. Advisory Board.

### VERE IRRIGATION WORKS.

THE Vere Irrigation Works were constructed under Law 39 of 1897.

The Vere Irrigation Commission consist of 5 members, 3 of whom are nominated by the Governor and 2 elected by the owners of the properties, who guarantee the revenue necessary for the maintenance of the works and the redemption of the loans sanctioned by the laws.

The original works comprise the head-works or dam and sluice on the Milk River at St. Jago, in lower Clarendon, to divert the water of the river into the main canal which runs in a south-easterly direction across the plain of Vere, and was intended to carry about 7,000 cubic yards of water per hour, as far as the Rio Minho, and 6,000 cubic yards thence to the reservoir at Raymond's. Between St. Jago and the crossing to the Rio Minho at Dry River estate the canal is carried over ten gullies, by aqueducts consisting of steel troughing carried on abutments and piers of cement concrete. At Dry River, it is carried under the Rio Minho by a steel syphon 650 feet long and 2 feet 6 inches in diameter, and thence continues, crossing five more gullies by means of aqueducts to Raymond's estate, discharging into an impounding reservoir created there by the erection of a dam across the valley of the Raymond's gully. The total length of the main canal was sixteen miles four chains, and that of the aqueducts about 2,000 feet.

The reservoir at Raymond's was calculated to hold about 4,610,000 cubic yards, equivalent to about a month's supply at the rate of 5,000 cubic yards per hour, or to the amount required for irrigating 5,000 acres at one cubic yard per hour. Distribution channels for the supply of water to the estates west of the Rio Minho were taken from off the main canal, and another one for the estates east of the river commenced at Raymond's dam, branching off in several directions to give the supplies where needed.

The Raymond's reservoir did not prove a success and the scheme was eventually worked independently of it.

The failure of the water supply in the Milk River rendered a reconsideration of the whole subject necessary in 1913, which resulted in the passing of Law 16 of 1913 for rendering certain relief to the guarantors of the original scheme and of Law 17 of 1913 authorizing the obtaining of a supply of water from the Cockpit river.

The following are the lengths of the Main and Distribution Canals on the Milk River scheme now in use:—Main Canal, St Jago to Raymond's Reservoir 16m. 14c.; Branches 7m. 55c. Total 23m. 69c.

The water for the Cockpit scheme is derived from the Cockpit river, a never failing spring-fed river which issued from the Braziletto hills near the 18th mile post on the road from Old Harbour to the Alley.

The present scheme utilises 5,000 cubic yards per hour, and is capable of being extended to over 10,000 cubic yards per hour.

The channels connecting the Cockpit river and the Irrigation channels formerly laid down for the purposes of supplying the various sugar estates in Eastern Vere, have a

gg

total length of about  $7\frac{1}{2}$  miles, and are divided into two portions, a low level canal and a high level canal. The low level channel, about  $2\frac{1}{2}$  miles long, extends from the Cockpit river to the pumping station where a pumping plant of the most modern type is erected. It consists of a High Duty Worthington pumping engine, Babcock & Wilcox water tube boilers, Green's economiser, Induced draft fan, water purifier and de-oiler and all the most up-to-date accessories for a high-class pumping plant. The pumping plant elevates the water to a height of about 70 feet, discharging it into the high level channel, which is concreted.

A length of seven miles of earth canal conveys water when available from the Milk River Scheme, for use by the Cockpit Scheme consumers, making the total length of canals in connection with this scheme  $14\frac{1}{2}$  miles.

Several analyses of the water have been made and it has been found to be admirably adapted to the purposes of irrigation.

COMMISSIONERS—A. W. Farquharson, *Chairman*; Clarence Lopez, Conrad Watson, Percival H. Lindo, Theophilus Harty; *Secretary*: C. O. Magnan, 87 Barry Street, Kingston; *Superintendent, Cockpit Scheme*, H. R. Demetrius, Salt River P.O.

### SPANISH TOWN WATER WORKS.

IN 1836, when the Marquis of Sligo was Governor, a Company was formed for supplying Spanish Town with water from the Rio Cobre which was obtained by pumping and was distributed through the town in cast iron pipes. From that year until 1870 the company continued in operation, but the supply of water distributed was limited.

In 1870 the works were purchased by the Government and put in thorough order; the mains were relaid and extended, suitable pumping machinery was erected, and a new masonry service reservoir built to hold 150,000 gallons.

The supply of water under the new arrangement was not continuous, each ratepayer being entitled to water only for a certain number of hours daily, Sundays excepted, when no water was supplied.

In 1877 a bill was passed through the Council (Law 16 of 1877) for providing Spanish Town with a constant supply of water from the Rio Cobre irrigation canal by gravitation. The new works were commenced early in 1879 and were sufficiently advanced by August in that year for pumping to be discontinued. From the reservoirs the water was conveyed to Spanish Town in an eight-inch cast iron main. Service pipes are laid on to every house in the town and the supply is continuous.

Owing to there not being sufficient fall from Hog Hole the pressure in the town was low, and at times the upper portion of the town was without water; in 1910-12 three powerful hydraulic rams were erected which can now deliver water into a steel tank 30ft. above the old water level in the reservoirs, the town supply is now connected to this tower, and the highest point of the town can be supplied.

The old settling reservoirs are still used for supplying the town with clean water. Extensive improvements at the head works are now in course of construction, including the substitution of a turbine driven pump for the hydraulic rams, and the construction of additional settling reservoirs.

The Rio Cobre Canal Commissioners, who were also the Spanish Town Water Commissioners, having been abolished, the Colonial Secretary of Jamaica, was by Law 23 of 1898, substituted for them. Within certain limits the water rate is compulsory under the new system. The prevailing minimum rate is 1s. per month, while formerly for an intermittent supply it was 5s. per month.

### WATER RATES.

The following is the compulsory water rates within the prescribed limits:—

One shilling per month, and in addition thereto one penny-half-penny for every £10 or fractional part thereof when the property shall exceed £40, provided that the rate payable shall in no case exceed 12s. per month.

Inns, taverns, wholesale or retail spirit stores, laundries, livery stables, lodging houses, manufactories, or printing offices, or for any trade or business requiring water other than for domestic use; such additional rate shall be paid, as the Colonial Secretary shall specially declare.

Under section 18 of Law 16 of 1877, the Colonial Secretary is prepared to enter into contracts with persons requiring services in excess of the above service pipe in accordance with the following table:—

For each  $\frac{1}{2}$ " service pipe applied in excess of the first an additional water rate as calculated by paragraph 1 above.

For service pipes larger than  $\frac{1}{2}$ " as follows:—

$\frac{3}{4}$ "—one-and-one-half time the water rate.

$1\frac{1}{4}$ "—twice the water rate.

Above  $\frac{3}{4}$ " and not exceeding 1" three times the water rate.

4. Under section 20 the Colonial Secretary is prepared to enter into contracts to supply approved premises situated without the prescribed limits at one-and-one-half times the water rates prescribed above.

These Water Works are under the management of the Director of Public Works.

*Collector*—The Collector of Taxes for St. Catherine.

*Superintendent of Works*—F. E. Taylor, salary £40 per annum.

## OLD HARBOUR WATER WORKS.

IN 1870, L. F. Mackinnon, the Custos of St. Catherine, brought the necessity of a Water Supply for Old Harbour to the notice of the Government, and at the same time a petition was extensively signed for the construction of the works. It was decided in 1878 that the best available supply was to be obtained from Bower's River, at a point about five miles north of Old Harbour on the Colbeck Estate, and works were commenced in 1881 under the supervision of the Director of Public Works (Law 18 of 1881, section 10). Water was delivered in Old Harbour and service pipes were connected to householders premises by April 1st, 1882.

The scheme as constructed included a double line of four inch cast iron pipes from the intake at Bower's River to Old Harbour and distributing mains in Old Harbour of 957 yards of four-inch and 2,024 of two-inch cast iron pipes. Hydrants for fire purposes and for flushing the mains are located in the town.

The water has been connected to 328 houses through half-inch galvanized wrought iron service pipes. The service has since been extended to Old Harbour Bay, and Church and Bower's Pen district by stand pipe supply. The Jamaica Government Railway and several properties outside the original limits have been supplied with water at special rates.

The cost of the original scheme was £3,710 17s. 8d., and the works were maintained by the Director of Public Works to August 1st, 1882, when they were handed over to the St. Catherine Municipal Board.

The Government subsequently made a further advance of £2,347 2s. 2d., for laying a four-inch auxiliary main and for the construction of a tank.

Some further improvements were carried out in 1912. About  $1\frac{1}{2}$  miles of open conduit, conveying water to the service reservoir have been replaced by a cast iron main. This has had the effect of improving the supply and of reducing risk of pollution.

The following is the scale of monthly rates for houses within the limits of the Old Harbour water supply district:—i.e., the whole reckoned as £20 of such value 1/ paid monthly in advance.

On all properties below £40 in gross value—Sixpence on each unit of £10.

And on all properties of £40 and over in gross value, an additional 2d. in every £10 of gross value or fraction thereof.

## LINSTEAD WATER WORKS.\*

The works were completed and came into operation in July, 1893, but rates were not collected until March, 1894. Several hydrants are laid in the streets of the town and a valuable supply of water is to be had in case of fire. The area in which the water pipes are laid is about  $1\frac{1}{2}$  miles in diameter.

The supply is from two distinct streams, the one called the Berkshire Hall river and the other the Cistern gully.

\*For history of the Works see Handbook for 1925.

The distance traversed in the laying of the mains is for the 4-inch pipes  $2\frac{1}{2}$  miles and for 6 inch pipes 6 miles. The source of the Berkshire Hall stream is 340 feet above Linstead, and that of the Cistern gully 540 feet. Linstead is now supplied by both streams. The number of houses supplied at present is about 360, each having a  $\frac{1}{2}$  inch galvanized pipe, with stop cock, and the revenue derived is about £525 per annum.

The following is the scale of monthly rates for houses within the limits of the Linstead water supply district, payable monthly in advance:—

On every property under the value of £40—One Shilling.

On every property of the value of £40 and upwards but under the value of £70—One shilling and sixpence, and in addition thereto sixpence for every ten pounds or fractional part of ten pounds by which such value shall exceed £49.

On every property of the value of £70 and upwards but under the value of £210, two shillings and ninepence and in addition thereto threepence for every ten pounds or fractional part of ten pounds by which such value shall exceed £79.

On every property of the value of £210 and upwards but under the value of £360, six shillings and twopence and in addition thereto twopence for every ten pounds or fractional part of ten pounds by which such value shall exceed £219.

On every property of the value of £360 and upwards—eight shillings and sevenpence and in addition one penny for every ten pounds or fractional part of ten pounds by which such value shall exceed £369, provided always that the rate chargeable on any single and undivided property shall not exceed twelve shillings and threepence.

### FALMOUTH WATER WORKS.

THIS company was established by an act of incorporation (40 Geo. III., chap. 29) in 1799 for supplying the Town of Falmouth and the shipping resorting to the port with water from the Martha Brae River. The subscribed capital of the company was £12,000 in 400 shares of £30 each. There are extant but 299 of these shares.

The water is brought into the town from the Martha Brae river by 6-inch pipes a distance of about one-and-a-half miles, being raised at the source of supply by a dam and Persian wheel; the works also included a steam engine and force pump, as an auxiliary to the Persian wheel when necessary.

In 1903 the plant and rights of the company were acquired by the Parochial Board of Trelawny for £1,600.

In 1906 plans were prepared for the improvement of the works, and for the provision of a new main from the head works to the town.

The laying down of the main and the connecting up of service pipes was undertaken by the Public Works Department and completed in 1911.

The old dam at the head works at Martha Brae was destroyed by flood in 1917 and after much delay occasioned by difficulty in procuring the necessary materials, a new dam was built by the Public Works Department and completed in 1919; the water supply to the town having been maintained in the meantime by a temporary steam pumping plant.

Further improvements at the head works were also carried out including the construction of a new masonry channel and the provision of stand-by pumping plant.

### THE DORNOCH WATER SUPPLY SCHEME.

THIS scheme, commenced in January, 1925, is designed to give a domestic supply of water to certain areas in Upper Trelawny. It consists of the utilization of certain falls on the Dornoch River at a point about three miles from its source where turbine-driven pumps will raise water to a high level reservoir on the summit of Baron Hill, an elevation of about 900 ft. above the river. From this reservoir the water will be distributed by gravity through some 13 miles of steel water mains serving the districts of Duncans, Clarks Town, Jackson Town and Kinloss.

It is anticipated that the main portions of the work will be completed and in operation early in 1926.

## MILK RIVER BATH.

MILK RIVER BATH is situated on the right or western bank of the Milk River, about two miles from the sea, at the base of a precipitous hill known as the round hill, in the south-western corner of the district of Vere in the parish of Clarendon, 12 miles from Clarendon Park railway station, 13 miles from the May Pen railway station, and two miles south of the Rest village where there are stores, a Market, a post and telegraph office. The curative powers of the waters of this bath are not surpassed by any mineral bath in the world. Gout, rheumatism, sciatica, lumbago, neuralgia, eczema and troubles of the liver are the complaints for which the bath is specially recommended. The waters of this bath are not supplied by the large river whence it derives its name, and on the banks of which it has been built, but from a spring which issues out of the hill which slopes down to within fifty yards of the river's edge.

A recent test of the Bath waters indicates that the radio active properties of the Spring waters compare very favourably with the water of spas of world wide renown.

The Chemical analysis, made in 1923 by Mr. W. L. Barnett, B.Sc., is as follows:—

Besides traces of Potassium, Lithium and Iodine Bromine. Temperature of water 92 Fah.

There is a Telephone Office at the Baths. All the lodging houses are screened against mosquitoes. The following charges are made, (a) One person occupying 1 room in the Lodging House at the rate of 4/ per day, (b) Two persons occupying 1 bedroom, 5/ per day. For each bath taken by a visitor 1/. Bath disconnected from main building 6d. Boarding 10/ per day. Guests are allowed to board themselves at their own expense with a charge of 1/ per day for each person for the services of the domestics; for three persons in a family, 6d. each after the first two.

The river from the Bath to the sea is somewhat over a mile; it abounds in fish, and the scenery is very picturesque. Pleasure boats are kept by the Directors for the use of visitors. There is fine tarpon fishing. The distance from May Pen Station to the Bath is 13½ miles and the fares (for conveyance) are, for 1 person 16/, for 2, 20/ by buggy; motor car hire 1/ per mile each way.

It will be found to the greater convenience of visitors to take buggy at May Pen station. At May Pen, buggies may be obtained from Messrs. T. E. D'Oyen, and Mrs. T. B. Thompson, and at Milk River from S. Briscoe. From Clarendon Park to the Bath, the fares are, for 1 person, 15/, for 2, 20/.

Vehicles are run from Milk River to Clarendon Park Railway Station and also to May Pen station. From May Pen the charge for motors is 1s. or 1s. 6d. per mile.

## BATH OF ST. THOMAS THE APOSTLE.

THESE waters are of special value in rheumatic and kindred ailments. Tradition asserts that they were discovered by a negro who in his own person found their efficacy.

The legislature of the day granted £1,250 currency (equal to £750 sterling) to purchase the springs and 1,130 acres of land surrounding them. Directors were appointed as early as 1703, and were empowered to make a road, erect buildings and provide necessities for patients. In 1749 the Directors were empowered to dispose of part of the land and to form a town, and the town of Bath thus sprung into existence; it was for many years the resort of the *élite* of Jamaica Society. Dr. Dancer, the Island Botanist, was in charge of both bath and garden at the close of the 18th century.

The Government having disallowed the vote for the up-keep of the garden, the corporation has taken it over. The Jamaica Agricultural Society now uses it for a cocoa nursery. The acreage of land now in possession of the corporation is  $179\frac{1}{2}$  acres.

This thermal spring is situated a mile and a half from the town of Bath in the parish of St. Thomas. The road from the town to the spring follows the windings of a deep and narrow valley or gorge, in the bottom of which flows a perennial stream to which, rolling down the rocky sides covered in fern, numerous rills contribute.

The mineral springs occur in a short space, breaking out from the rocks at different levels and by their warmth their waters are at once distinguished from the ordinary waters of the gorge. The largest spring issues from the face of a perpendicular rock.

The hot mineral springs discharge their water into a central tank from whence it is drawn off as required into the various baths. The temperature of the water flowing into the main tank is  $122^{\circ}$  degs. Fah., and it possesses an activity of  $4.9 \times 10^{-10}$  curies per litre. This corresponds to 1.3 maché units. When this water flows into the baths, it has an activity of  $4.6 \times 10^{-10}$  curies per litre or 1.2 maché units, its temperature being  $116.5^{\circ}$  degs. Fah. It has to be cooled, usually by the addition of cold water which is obtained from a cold mineral spring.

The following analysis was taken in 1923 by Mr. W. L. Barnett, B.Sc., Deputy Island Chemist:—

		Hot Tank.	Cold Spring.
Calcium, parts per 100,000	..	2.50	5.02
Magnesium	..	0.15	5.98

		52.53	54.74

The radio-activity of the water from the cold spring is  $0.09 \times 10^{-10}$  curies per litre. Two comfortable bedrooms have been added on the ground floor for invalids who find it difficult to get up and down stairs and a sewerage system has been installed.

**Board**—From 7/- to 10/6 per day or from £2 2s. 0d. to £3 3s. 0d. per week. These rates vary according to the number of meals supplied.

**Lodgings**—One person in a room 4/- per night, one bath included or £1 6s. 0d. per week one bath per day included.

Two persons in a room 7/- per night, two baths included or £2 5s. 0d. per week, two baths per day included.

Extra baths —1/- each.

A reduction of 25% is allowed on baths and lodgings for visitors staying a month or more. Further information can be had from the matron.

## MAY PEN CEMETERY.

THE land comprising the May Pen Cemetery, situated about one mile from Kingston on the main road to Spanish Town, was purchased in 1851 with a sum of money voted by the Legislature for the purpose of providing a new burial ground for the parish of Kingston. In consequence of questions which arose as to the persons entitled to a legal and equitable estate of the property, under a deed of conveyance to the Bishop of Jamaica and the Rector and Churchwardens of Kingston, upon certain trusts which were not in conformity with the intention of the Legislature, it was deemed advisable to resort to legislation to vest the estate in the municipal board of Kingston. Law 21 of 1874, was therefore passed for this purpose, and for the establishment and general management of the cemetery, which latter was placed in the hands of the Board, subject to the power of the Governor to make regulations and special orders. This law further provides for the assignment of portions of the burial ground to the several religious denominations and for the discontinuance of burials in existing burial grounds by order in Council, and the imposition of penalties for contravention of such orders.

Many of the unknown victims of the earthquake of 1907 lie buried in May Pen Cemetery. A memorial was erected in memory of them in 1909.

The scale of charges for all interments and for permission to erect permanent monument, over, or railings around graves (such monuments not exceeding 3 feet 6 inches in height) is as follows:—

For each interment, including the digging of a grave if for an adult irrespective of bodies sent from public institutions ..	£0 8 0
For digging of graves for children not exceeding 8 years ..	0 6 0
Such graves to be of the following dimensions:—	

If for an adult, at least 5 feet deep, 7 feet long and 2 feet 6 inches wide; and graves for children shall be of such depth and dimensions as in the discretion of the keeper of the cemetery, may be found necessary in each particular case.

The fee must be paid to the Clerk at his office at the time of giving in the requisition for the grave.

## TOMBS AND MONUMENTS.

For the construction of any vault ..	£1 0 0
“ the construction or placing of any Mausoleum ..	3 0 0
“ the construction of any Monument ..	1 0 0
“ Brick or Concrete Tomb with Headstone ..	0 10 0
“ Plaster Brick or Concrete Tomb with Slab inset ..	0 5 0
“ Simple Cross ..	0 1 0
“ setting up a railing ..	1 0 0

The following fees must be paid for the re-opening of any vault, tomb or grave.

For any vault ..	£1 0 0
For any other tomb or grave ..	2 0 0

The office, which is at 24 Church Street, Kingston, is opened from 9 a.m. to 4 p.m. on week days, except Saturdays, from 9 a.m. to 1 p.m., and from 9 a.m. to 1 p.m. on Sundays and public holidays.

*Superintendent*—Ivan U. Vaz, salary, £160.

*Clerk*—L. Foster Davis.

## KINGSTON BURIAL GROUNDS DISUSED.

SINCE May Pen Cemetery was opened orders in Privy Council have been passed at various times, under the provisions of the 30th section of Law 21 of 1874, for the discontinuance of burials in the several burial grounds in Kingston specified in the subjoined schedule:—

#### PATRIOTIC FUNDS ACCUMULATING TRUST.

THE Governor in October, 1920, appointed Trustees of the "Patriotic Funds Accumulating Trust," on the grounds that schemes of patriotic or philanthropic character are more likely to be carried out successfully if all moneys and property contributed or given voluntarily in aid of such scheme are vested in Trustees for investment until the sum of such investment and contributions shall reach a total sufficient to cover the cost of carrying out such scheme or schemes in a business like and satisfactory manner, and that it is expedient to provide for securing the accumulation and due administration of all moneys and property contributed or given for such charitable Trusts and for the beneficial application of such charitable funds. The terms of the Trust appeared in the "Jamaica Gazette" of October 21st, 1920.

TRUSTEES—Hon. Albert Edward Harrison, B.A., Custos of the Parish of Saint Elizabeth, Hon. George William Muirhead, Custos of the Parish of Clarendon, Sidney Raynes Cargill. Hon. Secretary—E. V. Lockett, B.A.

#### JAMAICA CIVIL SERVICE MUTUAL GUARANTEE ASSOCIATION

BEFORE the passing of Law 45 of 1872 the law in force in regard to the giving of security by Public Officers for fidelity in office was Law 33 of 1867 by which every person having the collection, receipt or payment of any moneys of the public revenue was required to enter into security to the Sovereign in one of two ways, viz., by giving a joint and several bond with one or more sureties or by giving the guarantee of the European Assurance Society. As bonds with sureties such as above indicated were considered by the Government an objectionable form of security, as the European Assurance Society has become bankrupt, as other persons besides the persons mentioned in Law 33 of 1867 were required to give security, and as it was felt necessary that a sound and uniform system of giving security should be established, Law 45 of 1872 was passed. By this law it is provided that every person in the employment of the Government of Jamaica who is required to

give pecuniary security for the due discharge in any respect of the duties of his office whether in regard to money matters or otherwise, shall give such security in one or other of three ways of which one is "by personal bond and the guarantee of any Association of Civil Servants of the Crown in Jamaica formed for purposes of mutual guarantee and whereof the business is conducted according to rules that shall be approved by the Governor in Privy Council, as may be notified from time to time in the Gazette." This Law was amended by the passing of Law 25 of 1909, which authorized the Association to guarantee any person appointed by the Governor to hold an office paid from Public or Parochial Funds. It was further agreed with the introduction of that Law for the Association to guarantee the office held by an associate for a period of three months during the temporary absence of the holder.

The Jamaica Civil Service Mutual Guarantee Association was established under the first law; it is recognized by the Government thereunder; and is managed by a committee of four public officers, none of them being of a lower rank than chief clerk. The appointment of two managers is vested in the Governor and they hold office during his Excellency's pleasure; the other two are elected by the associates for a term of three consecutive years. At meetings of the committee the senior member by date of appointment is chairman and two members form a quorum. In the transaction of business the managers are bound by rules, approved by the Governor in Privy Council, the managers having the power to amend the rules on obtaining the assent of the Governor and of a majority of the associates.

Any civil servant of the Crown who has obtained the Governor's permission to give security in the shape of the guarantee of the association, and who has expressed his willingness to be bound by its rules is eligible for membership, and the managers are required to give full and fair consideration within a reasonable time to all applications, deciding whether they will accede to them or not and communicating the result forthwith to the applicant and the government. When an associate has been admitted to membership he can withdraw only by obtaining the Governor's permission and giving the managers twelve months' notice, but by giving one month's notice the managers can exclude any associate from further membership.

Immediately on his acceptance and the guarantee of his fidelity being given an associate becomes liable to contribute, and is required to contribute by way of loan, a sum not exceeding 5 per cent. of the amount of his bond, payable monthly at the rate of one per cent. per annum for a period of five years. The managers, however, have the power to call upon the associates to contribute a further loan at one fixed rate per cent., when they are of opinion that the ordinary loans are insufficient to yield the income required to carry on the business; there has never been any necessity to do this. On the contrary the interest accruing on the subscribed loans has so accumulated as to induce the managers during the year 1886 so to amend the rules of the association, as to allow its division every third year among associates whose bonds are then in full force and effect, and in terms of this amendment a sum of £5,233 4s. 2d. has been written up to credit of associates.

On the withdrawal from the association an associate is entitled to a refund of the full amount of his contributions and share of profits, if the Association has incurred no losses during his membership, or to the proportion remaining to his credit after the losses have been provided for.

The rules of the association were first approved by the Governor in Privy Council on the 27th August, 1872, and the preliminary arrangements being completed guarantees were issued on the 1st October in that year. From that date to the 31st March, 1921, a period of nearly forty-nine years, guarantees to the amount of £695,890 were issued, and losses by the defalcations of associates incurred to the amount of £3,760 3s. 10d.

The loans of associates are levied at the Public Treasury from time to time as they become due and placed to the credit of the Managers, who are required to invest the amount in island debentures or deposit it in the Government Savings Bank. The assets of the association on 31st March, 1923, amounted to £10,175 5s. 11d., namely, Island Debentures and Inscribed Stock £7,752 7s. 6d.; War Loan £1,235; Jamaica 5% Inscribed Stock £500, Government Savings Bank £166 1s. 6d., Treasury £521 16s. 11d. But however satisfactory the financial position of the association may be, a review of the transactions of the period presents a more gratifying feature in the testimony it bears to the completeness of the supervision and audit of accounts and to the integrity of the officers employed in the collection and disbursement of public moneys. When it is considered that this association guaranteed more than nine-tenths of the public officers required to give security, and included in that number the whole of the

officers charged with the collection of the excise, customs and internal revenue, all the Parochial Treasurers through whom local disbursements are made and many other disbursing officers, no stronger evidence can be adduced of the integrity of the public officers of the colony than the fact that the losses of the association for a period of upwards of forty-seven years have been under £80 per annum.

The office is at the Collector-General's Office, Kingston.

### JAMAICA CIVIL SERVICE ASSOCIATION.

THE Jamaica Civil Service Association, which was founded on the 6th May, 1919, has for its objects the improvement of the status of the Public Service, the securing of efficiency in the service and contentment among the officers, and the development of the financial and social conditions of its members.

This association is the outcome of a movement in 1912 when public officers petitioned the Government to bring about an improvement in their status and salaries. The petition, though well received, was not granted owing to the low state of the finances of the colony at that time.

Nothing was done further until February, 1918, when at a meeting of public officers it was decided to present another petition to the Government. A committee, known as the Public Officers' Memorial Committee, representing all the Public Departments, was appointed to prepare this petition, and to report on the advisability of forming an association. This petition failed, and the Committee prepared a memorial to the Secretary of State which was forwarded to His Excellency Sir Leslie Probyn, in July, 1918. The result of the work of this Committee was the granting by the Legislative Council of a War Bonus to Officers in receipt of salary of £200 per annum and under from 24th January, 1918, to 31st March, 1919. The Committee was also instrumental in obtaining the grant of the "Temporary Allowance" from 1st April, 1919.

About this time the Memorial Committee reported on the question of forming an Association, and the Jamaica Civil Service Association came into being, with the approval of the Government.

All Heads of Departments are eligible to be Honorary Members, all other Officers on the Civil Establishment of the Colony, as set out in the Blue Book, are entitled to ordinary membership, and such other members of the Public Service, as well as pensioners, as the Managing Committee may from time to time deem eligible. There are at present 700 members on the Roll.

The work which was being carried on by the Public Officers Memorial Committee was on 6th May, 1919, merged into the work of the Association and the members of that Committee appointed as the Managing Committee of the Association until 31st December, 1919.

The Association immediately started work in connection with the improvement of the status and salaries of Public Officers, and forwarded to the Government a schedule of increased salaries and wages and improved status, which was considered equitable.

This document was referred to a Select Committee of the Legislative Council appointed to enquire into Public Departments, and delegates from the Association appeared before this Committee to support the claims of Public Officers.

The Report of the Committee was placed before the Legislature in December, 1919, and resulted in the permanent increase of salaries and wages of Civil Servants.

In consequence of the increased cost of living the Association made further representations to the Government, which resulted in a Grant-in-Aid of salaries at 25%, 20% and 12½% being allowed by the Legislative Council for the financial year 1920-21.

This having proven inadequate, application was made for Grant-in-Aid on the basis of 75% on the first £100 of salary, 50% on the second £100, and 25% on the remainder, as from 1st October, 1920, pending a general revision of salaries. The application was referred to a Select Committee of the Legislative Council who reported favourably thereon. The Secretary of State for the Colonies having approved of the application, sanction of the Legislative Council was, on the 15th February, 1921, obtained for payment at the increased rate, as from 1st October, 1920, to 31st March, 1921.

The revision of salaries was not dealt with during that year as was anticipated and a grant-in-aid on a less satisfactory basis was paid from 1st April to 31st December, 1921.

During the year 1922, the Governor appointed a Commission to deal with the permanent increases sought by the Association, but the consideration of their report was postponed until the following year, and a bonus granted for the year 1922-23. The recommendations of this Commission were, for the most part, included in the Estimates for 1923-24 as presented to the Legislative Council, and approved.

## PART XIV.

### BENEVOLENT AND TRUST FUNDS AND INSTITUTIONS.

#### RECTORS FUND.

THE Jamaica Rectors Fund was established in 1797. It was intended to provide annuities for the widows and orphans of the then clergy of the island. The capital on the 31st March, 1924 was £9,081 11s. 0d., on which the Treasury pays six per cent. under the authority of Law. By a legislative enactment, Law 14 of 1882, the Government has guaranteed the pensions at the full rates of £52 a year to widows and £26 and £17 6s. 8d. a year to orphans of each class respectively, as a set-off to the claims of the trustees in regard to lapsed rectories. After receiving a report on the condition of the fund by the actuary, the trustees, with the sanction of the Government, have, since 1st April, 1923, paid the following rates:—widows, £72; first class orphans, £46. a year. The Act further constitutes the Incorporated Lay Body of the Church of England in Jamaica, the residuary legatee of the Rectors' Fund.

Sons cease to receive the benefits of the fund at 18 years of age; daughters receive their annuities till marriage or death. The annuities paid by the Fund in 1925-1926, amounted to £601 19s. 9d. The Trustees are the members of the Diocesan Financial Board for the time being. The capital on March 31st, 1926, was £8,769 8s. 1d. *Acting Secretary*—R. Foster.

#### ISLAND CURATES FUND.

THE Jamaica Island Curates Fund was established in 1844 by an act of the legislature. It is intended for the benefit of widows and children of deceased island and other curates. The amount of twenty-five pounds four shillings a year was deducted by the Public Treasurer from the stipend of each island curate and credited to the account of the fund. The capital on 31st March, 1926, was £24,131 1s. 10d. This existing capital will be gradually reduced by payment of annuities as there are now no remaining subscribers. The allowances to widows are at the rate of seventy-one pounds per annum and to children £41 per annum. Sons cease to receive the benefits of the fund when they come of age. Daughters continue to receive their annuities till marriage or death. The annuities paid by the Fund in 1925-1926, amounted to £2,135 12s. 6d. Under the provisions of the law, and subject to the advice of the actuary, the fund is managed by a Board consisting of the members of the Diocesan Financial Board for the time being. *Secretary*—Venerable Archdeacon Simms, M.A.

#### WIDOWS AND ORPHANS OF CLERGYMEN OF THE DISESTABLISHED CHURCH.

THIS fund provides pensions for the widows and orphans of deceased clergymen of the disestablished church of Jamaica.

It is maintained by abatements at the rate of four per cent. from the salaries of the nonstate-paid clergymen; by amounts received as offertories from the churches for the purposes of this fund, by donations and bequests of property or money from societies, institutions or individuals and by the proceeds of insurances or other investments.

The pensions are thus regulated: On the death of an associate leaving a widow and children by such widow only, his widow receives a pension according to the actuarial table attached to the Canon regulating the fund, and on her marriage or death the amount is divided among the orphans of such associate in the following proportions:—If three in number or less each receives one-fourth of the amount to which the widow was entitled, but if more than three the pension is equally divided between them. If the clergyman dies leaving orphans but not a widow the amount to which his wife would have been entitled had she survived him is divided among the orphans in the proportions above stated. If a clergyman dies leaving a widow and also children by a previous wife entitled to pensions the total pension is divided on fixed principles laid down in the Canon. The pensions of boys cease at the age of eighteen, and of girls on marriage or at the age of twenty-one.

From the amount received as donations or offertories the Financial Board may make such monthly or other grants to the widows and orphans of non-state-paid clergy (whether they were associates or not) as to the Board may seem necessary.

On the formation of the fund in January, 1881, 37 of the then non-state-paid clergymen became associates. It being compulsory "on every future clergyman of the Diocese to contribute to the fund," all the Clergymen who have since been ordained have been enrolled. The result was a membership of 94 on the 31st December, 1925. A Canon was passed by the Synod of 1890 requiring medical examination in the cases of future associates. Of the number of clergymen who became associates 29 have died, three as bachelors and twenty-three leaving widows and children. Eighteen widows are at present on the Fund.

The abatements from salaries during the year, 1925 amounted to £345 17s. 5d., the interest on the money invested yielded £623 11s. 10d., a grant from the Guarantee Fund in aid of interest £231 12s. 4d., and the Interest on Ice Shares £1 8s. 0d. The expenditure included £44 16s. 4d. for Insurance Premiums, £809 6s. 3d. for Pensions, £24 15s. 0d. for surrender Payments, £318 8s. 1d. transferred to the Guarantee Account, and £7 17s. 0d. for Sundries, leaving a balance on Dec. 31st, 1925 of £14, 348 2s. 4d. to the credit of the Fund.

The lives of 81 clergymen are insured for £150 each in the Jamaica Mutual, and 1 in the Standard Assurance Company, on account of the Fund. The value of these policies is an asset of the Fund in addition to the cash balance just mentioned, as is also a balance of £4,686 14s. 8d. on Guarantee Account.

Six churches contributed to the Voluntary Fund during the year 1925, giving a total of £14 1s. 4d., or an average of £2 6s. 10d. each.

From this Fund, £20 was given to the widows of deceased clergymen, and there is a credit balance of £33 4s. 1d.

A valuation of the Fund as it stood on December 31st, 1923, showed a surplus of assets over liabilities of £1,613, of which £1,313 was allocated in making additions to some existing and all prospective pensions.

The Financial Board is required to invest all moneys and property received on behalf of the Fund and to manage its general affairs. The details of management are left to a Committee of the Board.

According to Law 14 of 1882, the Widows and Orphans branch of the Fund has been made the residuary legatee of the Rectors and Curates Funds of the late Established Church in Jamaica.

**COMMITTEE OF MANAGEMENT**—The Rt. Lord Bishop of Jamaica, Ven. Archdeacon Simms, M.A., J. M. Nethersole. *Honorary Secretary*, Ven. Archdeacon Simms, Ropley, Gordon Town P.O.

## PENSION FUND FOR CLERGYMEN OF THE DISESTABLISHED CHURCH.

THIS fund provide for the pensioning of superannuated clergymen of the disestablished church. Its resources consist of an annual contribution from the Diocesan Expenses Fund of the Diocese of not less than one hundred pounds; of half the offertories made for this and the Widows and Orphans' Funds; and of donations, bequests, and collections made specially for this branch of the fund.

A clergyman on reaching 65 years of age may claim a retiring pension; and any clergyman who by a joint resolution of the Bishop, the Diocesan Council and the Financial Board may be declared superannuated (whether at, before, or after sixty-five years of age) may claim a retiring allowance. The pension is for the present fixed at the rate of £2 for each year of continuous service; but no pension can exceed £60.

No pension can be paid for less than ten years continuous service; but any clergyman who may be compelled to retire before he has completed that period may be paid a gratuity not exceeding five pounds for each year of service. There were ten pensioners on the roll on January 1st, 1926.

The fund opened the year 1925 with a credit of £7,321 0s. 6d. This, with a grant of £300 from the Diocesan Expenses Fund and £442 16s. 9d. for interest and £3 16s. 6d. from Synod Offertories gives a total of £7,570 19s. 1d. Pensions amounting to £442 16s. 9d. have been paid leaving £7,570 19s. 1d. as the balance of the Fund at the end of the year 1925.

The Fund is managed by the same Committee of the Financial Board as the Widows and Orphans' Fund.

#### FLETCHER'S TRUST, KINGSTON.

MARTHA BELLINGER FLETCHER, by her will dated 15th July, 1847, devised and bequeathed her real and personal estate to the Hon. Hector Mitchell and Thomas B. Wiltshire upon trust to manage and rent out the same, and with power to sell and invest and apply the clear yearly revenue among such of the blind, poor and destitute of Kingston as should be recommended to the trustees by the ministers of the churches or places of worship to which they may belong. Hector Mitchell and Thomas Wiltshire proved the will and sold all the personal and certain portions of the real estate.

On the 27th May, 1853, Mitchell died, leaving Wiltshire surviving. By instrument made between Thomas Wiltshire of the first part, Rev. D. H. Campbell, Rev. W. West and Rev. D. J. East of the second part, and the churchwardens of Kingston of the third part, the churchwardens were appointed trustees in the room of Hector Mitchell and Thomas Wiltshire. It appears that Wiltshire never interfered with the management of the estate.

On the death of Mitchell his creditors filed a suit in chancery against his estate, and the churchwardens of Kingston on their appointment as trustees of Fletcher's Trust filed a petition in the suit for recovery of the sum of £314 2s. 1d. which was in his hands at the time of his death. The result of this petition was that the sum of £187 19s. 3d. was recovered as the *pro rata* proportion of the debt which was due to the trust.

The sum received, less solicitor's costs, namely, £130 0s. 0d., was by direction of the Chancellor paid into the Treasury and thereafter drawn out on the receipt of the churchwardens (Dr. C. Campbell and Mr. C. Goldie) and lodged to the credit of an account called "Fletcher's Trust" in the Government Savings Bank, where it remained until 1912 when it was invested in Local Inscribed Stock yielding 3½%.

#### SARAH MORRIS TRUST, KINGSTON AND ST. ANDREW.

This trust arose out of a legacy of a Miss Sarah Morris of Kingston, whose will was proved on the 22nd of December, 1809, in which after making several bequests, she bequeathed all the rest, residue and remainder of her estate, both real and personal, to be sold and invested, and the proceeds to arise therefrom, at interest, to be distributed from time to time unto and among the poor of the parishes of Kingston and St. Andrew, who receive the pay or bounty of the said parishes, in proportion to the number of the poor of the said parishes."

The money of the trust is invested in Island Debentures and in Local Inscribed Stock the total sum so invested being £2,150. The interest is divided between the parishes of Kingston and St. Andrew, in proportion to their total pauper expenditure. Out of the sum received by Kingston, the City Council distributes annually during the Christmas season small doles to the poor in addition to their usual allowances. In view of the large amount of credit applicable to the Kingston poor from this trust the City Council gave during the Jubilee holidays a substantial dinner to the in-door poor as well as an extra allowance of money and clothing to the out-door poor.

#### D'ESPINOSE BEQUEST.

CHARLES D'ESPINOSE, formerly a merchant in the city of Kingston, who died in Paris, on the 7th of April, 1875, by his will dated 7th June, 1867, bequeathed the sum of one thousand pounds "in aid of any fund or establishment that may be formed for the relief of the destitute poor of Kingston." To this will there was a codicil, dated the 25th May, 1872, declaring that this legacy should be increased to £2,000, "subject to the conditions and control already stated in the will."

In the absence of any fund or establishment which could be considered in keeping with the testator's intention, the executrices and executor of D'Espinose's will in 1882 proposed to the City Council of Kingston that the money should be invested for the benefit of the City Dispensary, with the Bishop of Jamaica and the Vicar Apostolic of the Roman Catholic Church, as Trustees, and the Board approved of this appropriation of the bequest.

## WOOD'S BEQUEST.

R. T. Wood, bequeathed in 1879 a sum of £1,900 in Island Debentures to the City Council of Kingston, the interest to be distributed amongst the poor of Kingston. The interest is distributed annually at New Year.

## GREGORY'S CHARITY.

MATTHEW GREGORY, doctor of Medicine (who died 31st December, 1779, aged 86) by deed, dated 22nd March, 1765, conveyed certain property in trust, the proceeds of which and profits arising therefrom were to be applied towards relieving any distressed persons in or from any part of the colony, to bind out poor children to trades, or to portion poor girls at marriage. By Law 34 of George III the trustees are the Chief Justice of the Island, the Custos of St. Catherine and the clergyman for the time being in charge of the Cathedral, Spanish Town; the last-named of whom has the administration of the fund, the annual income of which is £144 (vide 28 Vic., Cap. 23). 39 distressed persons receive help.

## FLETCHER'S CHARITY. SPANISH TOWN.

In March, 1714, George Fletcher by will bequeathed, after sundry intermediate devises, to the churchwardens and vestrymen of St. Catherine all his real estate to be applied to the use of three poor widows of the parish of St. Catherine, to be selected from time to time by the said churchwardens and vestrymen.

The real estate consisted of 800 acres of land in St. Elizabeth, 227 acres near Highgate, St. Catherine, a pen near the Angels, and a house in Spanish Town in which the widows were to reside. All the property has since been sold.

The moneys derived from the sales were appropriated to the use of the parish, part having been expended in the building of a House of Correction, now the District Prisons.

The annual value of the trust property after the final sale of the lands was set down at £91 4s.

In 1847 the Act 10 Vic., cap. 45 was passed, which authorised the justices and vestry to raise a sum for the payment of the annuities as an item of parochial expenditure, but there is no record of any rate having been levied for this purpose, although provision was made for the widows' pensions each year in the parochial estimates.

By the Act 21 Vic. cap. 44 the power of the parishes to raise taxes was abolished and the liabilities of all the parishes were assumed by the Government. Since then provision has been made for the payment of the pensions at the rate of £30 8s. per annum out of general revenue.

Three ladies of Spanish Town are now receiving under the trust the pensions awarded by the Parochial Board of St. Catherine, fixed by the law.

## GRAY'S CHARITY.

On the 10th of May, 1854, John William Gray, of the parish of Saint Mary, merchant, made a will, in which he directed that after his death a sum of £5,000 should be paid by his executors into the hands of the Governor of Jamaica for the time being, "to be by him appropriated for the use and benefit of the respectable poor of the parish of Saint Mary in the establishment of a poor house for the exclusive benefit of the respectable poor of the parish of Saint Mary, to be established and secured by legislative enactment in the manner he, the Governor, may deem best, so that it may be of lasting advantage."

Gray died in 1854, one month after making his will. Owing to delay in realizing the estate the bequest of £5,000 was not paid over to the Governor until the year 1863, when it was invested in the island securities.

Some correspondence thereafter ensued between the executors and the Government as to the best means of carrying out the wishes of the testator, but, with the exception of its having been arranged that Fort Haldane, at Port Maria, which was transferred to the Jamaica Government by the Secretary of State for War under the provisions of the Act 25 Vic. Cap. 4 should be sold to the Charity for the purposes of a poor house for the sum of £250, no practical step was taken in connection with the bequest until July, 1872, when Law 42 of 1872, "A Law to establish and secure Gray's Charity, and to authorise the Governor to appoint Trustees for the management thereof," was passed. By this

time the bequest had increased by accumulation of interest to the sum of £8,056 14s. 8d. The Governor, Sir John Peter Grant, under this law, appointed as trustees the Auditor General, the Custos of Saint Mary and the Inspector-General of Police.

Matters dragged on—still without any benefits conferred by the Charity—until July, 1877, when rules for the management of the charity were passed by the Governor in Privy Council, under the 6th section of Law 42 of 1872.\* These rules provide, *inter alia*, that fourteen inmates should be admitted to the poor house, who were to receive a weekly allowance of 8s., with water and furniture, but were to provide their own food. These rules further regulated the expenditure on account of the institution, the duties of the clerk and matron, and the arrangements for quarterly meetings of the trustees.

It does not appear that any inmates were received into the charity until the 15th of August, 1880; but since that date a home has been found in the charity for twelve suitable persons. The total amount of the funds of the charity is Jamaica 4% Debentures, £2,400; Jamaica 4% Inscribed Stock, £8,376; Jamaica 4% Local Inscribed Stock, £3,700; Vere Irrigation Cockpit Scheme, 4½% Debentures, £402; War Loan Stock, 5%, £760; National War Bonds at 5%, £500; Jamaica Loan Inscribed Stock, 1942–1972 at 4½%, £500, Deposit in Government Savings Bank £106 15s. 8d.—Total, £16,743 15s. 8d.

*Trustees*—A. Davidson Goffe, *Chairman*; Ven. Archdeacon, J. H. H. Graham, H. B. Wolcott, T. McLean Gray, A. C. Westmorland, J. E. Cecil Sharpe, Rev. W. T. Graham. *Clerk*—Daniel H. Jackson.

#### VERLEY HOME FOR GENTLEWOMEN.

THIS Institution was established in May, 1902, by Mrs. Eliza Jane Verley, widow of the late Louis Verley and endowed by her with £3,000 for its maintenance and up-keep. It was again enriched by a bequest of the benefactress of a sum of £2,000 at her death. The deed of settlement declares the uses to be a "Home for respectable Gentlewomen (Widows and Spinsters) of indigent circumstances irrespective of Creed." There are rooms for 30 inmates almost always occupied.

#### HEBREW BENEVOLENT SOCIETY.

THIS Society which was established in 1851, immediately after the terrible epidemic of cholera which raged in that and the preceding year, was in 1925 merged into the United Congregation of Israelites.

#### GEMILUT HAZADIM SOCIETY.

THE Society which has been in existence for over a century has a membership of about 150. The objects of the society are primarily to provide for the burial of members of the Jewish persuasion and to afford relief to those in indigent circumstances, also for other worthy Jewish charities. The contributing fee of members is 2s. per month. The funds amount to about £650.

On the death of a member the society provides without any further charge all funeral expenses.

#### NIGHT REFUGE AND PAROCHIAL DISPENSARY.

THE Building at No. 3 Hanover Street used as a Night Refuge and Parochial Dispensary was destroyed on 14th January, 1907. The temporary office of the Inspector of Poor is at the old Wolmer's School, the entrance being from Church Street or Temple Lane. The Dispensary is at No. 3 Duke Street. There is a Country People's Night Shelter at the corner of Orange Street and Drummond Street, at a charge of 1d. each per night.

## JAMAICA MASONIC BENEVOLENCE.

THE purposes of this institution are the relief of necessitous and impoverished members of the masonic order, their widows, orphans or other dependent relatives, by weekly, monthly, or yearly allowances, by donations; by the granting to them of clothing, food or implements of workmanship; by providing education for their children; by aiding in their passage from the island; or by such other charitable means as may come within the scope and objects of the Association.

The funds are raised by voluntary donations and by annual subscriptions from lodges and chapters and from individual masons and others; and include collections made at masonic banquets and the proceeds of concerts, bazaars, dramatic and other entertainments.

The funds and general affairs of the association are under the control and direction of a board of directors consisting of the presiding officers of the district grand lodges of England and Scotland in the island and their deputies; the presiding masters and immediate past masters of the subscribing lodges, and twenty-four master masons annually elected from amongst the subscribers. Every mason subscribing 10s. or more per annum is entitled to vote for the members of the board of directors and to all the other privileges of membership.

A report of the transactions of the association is annually prepared by the directors and distributed amongst the lodges and individual subscribers to fund, but the names of the recipients of charity are not included in such report. Particulars in this regard are only furnished confidentially to individual subscribers or to subscribing lodges on application to the Treasurer. In cases of emergency the President (and in his absence from Kingston a vice-president) is empowered to dispense in charity any amount not exceeding five pounds. The Income for 1924 was £326 0s. 2d.

The grants to distressed brethren, widows, wives and children of masons, during 1923, amounted to £301 8s. 6d.; for education fees, £35.

The working expenses, including printing, postage and stationery, amounted to £22 11s. 7d., leaving a balance on 31st December, 1924, of £1,331 13s. 1d.; of this amount £500 are in Government Debentures, Island Stock £70, English Funding Bonds, £277 6s. 0d., Masonic Association, £163, in Bank of Nova Scotia, £307 8s. 9d., and in Treasurer's hands, £13 18s. 4.

## CITY DISPENSARY.

THIS institution was founded in 1876, upon the suggestion of W. C. Wright, and through the indefatigable exertions of B. A. Franklin. The object for which it came into existence and in the promotion of which it continues is to provide medical attendance and medicine for the labouring and artisan classes and others, at threepence per week.

Children of members admitted free of entrance fee, and attended up to two years free, and from two until ten years the subscription is at the rate of 1½d. per week.

Persons unmarried whose income does not exceed £250, and married persons £400 are eligible for admission to membership. Married women whose husbands and children are members are attended in midwifery free after one year's membership. Employees may arrange for medical care of servants through the dispensary, with the right of substituting one name for another in case of change.

Entrance fee, one shilling; and one shilling for four weeks subscription. Subscription payable in advance weekly, monthly or quarterly.

The D'Espinose bequest of £2,000, which yields £80 per annum, enables the Dispensary to render aid to 75 free recipients, nominated by the trustees of the trust namely, Bishop DeCarteret and Bishop O'Hare. Further, from the growing resources of the institution provision is now made for the attendance of a qualified nurse in cases of confinement; the nurse holds an order to summon the medical officer if complications arise.

The nurses now employed hold certificates from the Jubilee Lying-in-Hospital.

The building completed in 1895 was wrecked in the earthquake of January, 1907. It was rebuilt at a cost of £869 15s. 6d. towards which a grant of £500 was made by the Assistance Committee.

#### JAMAICA HOOKWORM COMMISSION.

THE Jamaica Hookworm Commission is the agency through which the International Health Board of the Rockefeller Foundation extends co-operation to the Government of Jamaica in the control of the Diseases which are spread through the pollution of the soil with human bowel material. This class of diseases, including hookworm and the other intestinal parasites, typhoid fever, dysentery, the bowel complaints of children and many forms of diarrhoea, forms an important cause of death, sickness, and serious economic loss in all tropical countries.

It should be made clear that the object of a hookworm campaign is much more than making examinations for and treating this one disease. The object is to take hookworm as an example of a preventable disease and, through the different phases of the campaign to impress upon the people the desirability and necessity of practising disease prevention in their homes and of teaching them, by demonstration, the benefits of keeping well. Treatment for hookworm disease is always followed by increased bodily and

mental strength and the ability to do more efficient work; the prevention of hookworm disease through sanitation also prevents typhoid, dysentery, and other bowel diseases. Such results are of vast economic and social benefit to the community; and hookworm control demonstrations in all parts of the world are being followed by a desire on the part of the people for increased public health administration.

The work of the International Health Board is always conducted through governmental agencies and under local government direction; and in every such co-operative campaign the aim always kept in mind is not to assume governmental functions, but to show that certain things can be done successfully, to devise the best methods and organize the best agencies for conducting local control measures, and then finally to have these agencies assumed by the community.

The working agreement under which the Jamaica Hookworm Commission is being conducted is (1) The sanitation of suitable areas by Government in advance of the treatment work, and (2) The examination and treatment of the people living in these areas by the International Health Board, working under the supervision of the Superintending Medical Officer and the Central Board of Health.

The Central Board of Health, representing the Jamaica Government is charged with the duty of having a suitable sanitary latrine installed at each home and place of work. The type of latrine and the method of installation are questions determined by Government, the International Health Board (Rockefeller Foundation) being concerned only as to whether the types of latrines installed will prevent the spread of the bowel filth diseases. After the sanitary and treatment work has been completed in an area, it devolves upon Government to see that a permanent system of follow-up-inspection is instituted in order that the results of the campaign may be of more permanent value.

The treatment campaign is conducted by the International Health Board only in sanitized areas. Each such area is divided into districts and a trained assistant, known as a "dispensing nurse," is placed in each district. This nurse is provided with demonstration material, specimens of hookworms, albums of local photographs showing the effects of the disease and the results of treatment, charts explaining the methods of spread and of treatment, and printed hand-bills. With these he goes from house to house and explains the methods of the campaign; he then numbers each home, takes a census of the inmates, and leaves a specimen box for each person. The specimens are collected by the nurse on the following day and brought to the laboratory for examination.

Other educational work in an area consists of lectures with charts, magic lantern slides and moving pictures. Also, an officer of the campaign, the "pioneer" goes from yard to yard and demonstrates, with a microscope, the hookworm eggs and larvae, and the manner in which the disease is spread. In all the educational work emphasis is placed upon the necessity of using the latrines in order to prevent reinfection.

After the specimens have been examined, those who have hookworm disease are visited in their homes by the medical director and each is prescribed for individually. Treatment is carried out by the nurse in charge of each district, the treatment being given in the homes, with the medicine taken in the presence of the nurse. Two treatments are given each patient, when a second specimen is obtained and examined to find if a cure has been effected.

Those found uncured are given additional treatments until they are shown, by microscopical examination, to be free from infection.

The treatment campaign began in May, 1919, and up to the end of 1920 was conducted in the lower half of Clarendon parish. This section of the parish was divided into three areas with May Pen, Alley and Race Course as centres. In these areas 16,824 people were censused, of whom 16,590 were examined, and 5,467 or 33% were found to be infected and treated. From January, 1921, until August, 1922, the campaign was conducted in the parish of St. Catherine with Spanish Town as the centre of a large area. In this area 17,037 persons were examined and 6,430 or 31.8% were found infected. The rate of infection in Spanish Town itself was 30.7%; in the neighbouring rural districts, 48.6%, but the average rate for the entire area was 31.8%. Examination and treatment work was also conducted in St. Catherine district prison, the Poor House, the Rio Cobre Children's Home and the Leper Asylum. In July, 1922, the offices of the Commission were moved to Linstead, the centre of an area designated the Upper St. Catherine area. In this area, completed July, 1923, 8,467 persons were examined of whom 5,736 or 67.74% were found to be infected. In some of the districts in this area the infection rate reached 80%. From August 6, 1923, to February 28, 1924, the Commission had its headquarters at Old Harbour; in this area 6,356 people were examined of whom 2,099 were infected with hookworm.

The work of the Commission from March 1 to the end of 1924 was conducted in the Parish of St. Mary and met with phenomenal success because of the interest and co-operation of the Parochial Board and of the citizens. The Parochial Board devised the plan of having each home provide its own latrine, the Board providing sanitary inspectors to show the people how the latrines should be constructed. As a result of this plan it was demonstrated that large areas of population could be sanitated at a very small cost to Government. This demonstration has lead a number of other parishes to begin active-sanitary work. On May 1, through the co-operative plan between Government and the International Health Board, a second Unit of work under the direction of Dr. D. H. MacPhail was started in an area about Port Maria. Nearly 20,000 people in St. Mary were reached by the Commission during 1924; the percentage of infection was higher than in any previous campaign, being from 50% in the districts near the sea to as much as 90% in some of the mountainous districts.

Taken as a whole the results of the Hookworm Campaigns in Jamaica are very gratifying. Many persons have been benefited in health and made able to earn more wages, others who were in bad health and unable to work are now able to support themselves. A number of inmates of the Clarendon and St. Catherine Poor Houses have been so benefited by treatment that they have left these institutions and are again caring for themselves. Estate owners and managers have expressed themselves as being highly pleased with the treatment benefits as shown in the increased working ability of their employees. Also, the institution of sanitary latrines has greatly lessened the incidence of dysentery, typhoid and other bowel diseases; as well as a marked decrease in diseases of all kinds due to the increased vitality and resistance of the people following treatment for hookworm disease. And there is no doubt of the fact that the people are becoming impressed with the importance of controlling the infectious diseases. They are demanding an extension of disease control measures and already Parishes and Government are meeting this demand by instituting organized programmes of sanitation and health education conducted by full-time Medical Officers of Health, Sanitary Inspectors, and the teaching of health principles in the schools.

In April, 1925, a hookworm unit began operating in the Lawrence Tavern area and up to October over 5,000 persons had been reached and examined of which over 80 per cent. were infected. The Campaign will gradually continue towards Stony Hill.

The International Health Board through the Hookworm Commission has also been co-operating with the St. Andrew Parochial Board in establishing a School Dental Clinic. This work was inaugurated at the Half Way Tree School in August. Dr. L. A. Crooks, M.O.H. for St. Andrew has been supervising the clinic and Dr. F. L. Aris is the dental surgeon in charge.

Although the dental clinic is still in the experimental stage the co-operation thus far shown seems to insure its success. Before the close of the year it is hoped to extend the dental clinic to other schools. At present the clinic is held on Tuesday and Friday afternoons and on Thursday mornings.

### KINGSTON SAILORS HOME.

42 Church Street.

THIS Institution was founded in 1864 through the exertions of the Rev. George Cheynes with the co-operation of other philanthropists.

The institution was maintained by annual subscriptions from the merchants and other leading members of the community, and for some years prospered. But in the year 1879 it was found that, while the contributions received were inadequate for the efficient support of the Home there were no means of preventing defalcations on the part of dishonest inmates, and an appeal was made to the Government for aid. A law was thereupon passed by the Legislative Council, Law 30 of 1879, placing the Institution on

a more substantial footing than before. A corporate body was established for the management of the institution and the office of superintendent was created with definite powers. The principle on which government grants were to be made was laid down to be that of a sum equal to double the total amount of voluntary subscriptions received during the previous year. Since then the institution has annually received a liberal grant from the government. The section of the law providing for the government grant, has been amended by Law 32 of 1906, to read as follows—"or such less sum as the Governor may think necessary or desirable for the carrying on of the Home in a proper and efficient manner."

In the year 1883 the directors succeeded in providing better accommodation for the inmates. Having purchased a site in Church street they erected thereon suitable buildings at a cost of £1,065, and the same were formally opened by the Governor Sir H. W. Norman on Thursday, the 6th March, 1884. The building was destroyed by the earthquake of 1907, but was rebuilt in 1908 and was re-opened for use in January, 1909, by Sir Sydney Olivier.

Subscribers to the Home, subject to the discretion of the Managing Director, may recommend any destitute seaman holding a good conduct certificate for free board and lodging at the Home.

HOURS—Open from 6 a.m. till 10 p.m. daily.

BOARD OF DIRECTORS—*Chairman*—Hon. A. E. da Costa, O.B.E., *Managing Director*—Lieut. J. H. Owen, D.S.C., R.N.R.; B. deS. Bell, Capt. Geo. Lindsay, H. McCauley Orrett, Archibald Munro, C. A. Gay; *Medical Officer*—W. A. S. Browne; *Secretary*—R. R. Facey. *Resident Superintendent*—A. D. Graydon.

### SAILORS REST AND READING ROOM,

18 Duke Street.

THIS institution was founded by the late Mrs. Denniston in 1898, to give sailors visiting the port a pleasant room in which to sit, read papers and books, play games and have music and write letters home. Cool drinks, cigars and cigarettes, tea, breakfast, dinner, lunch and supper are provided at reasonable rates. Soldiers are also made welcome.

This institution was taken over by the British and Foreign Sailors Society after Mrs. Denniston's death in 1917. A Sailors Brotherhood has been organized: the object being to uplift seamen physically, morally and spiritually.

Clean and comfortable beds are provided for any mercantile marine, naval men or soldiers having night liberty.

During 1919 the Rest was thoroughly renovated, and there are now fifty beds available, and with mattresses on the floor 60 men have been accommodated.

#### LOCAL MANAGING COMMITTEE.

*Chairman*—E. B. Hopkins; *Secretary*—G. A. Jack; R. W. Bryant, M.B.E., W. P. Clark, A. V. Kingdon; *Manager and Port Missionary*—Mrs. Alice Vosper Smith.

### KINGSTON AND ST. ANDREW CORPORATION POOR HOUSE.

THIS institution opened on the 1st July, 1870, is situated on Admiral's Pen land in St. Andrew. It is maintained by the poor rates of Kingston and St. Andrew. No person who is capable of earning his or her own livelihood, can be admitted. Orders for admission must be obtained through the Inspector of Poor for Kingston or St. Andrew.

The institution accommodates over 700 inmates. The average cost of each is about 8½d. per day, including all expenses, with the exception of medical attendance, the medical officer for lower Saint Andrew visiting the inmates daily. The inmates are fed in accordance with a regular diet scale. The clothing is partly made up by the inmates under the superintendence of the master and the matron.

The institution is managed by the Kingston and St. Andrew Corporation.

*Master*—E. M. Cresser, salary, £325; *Matron*—M. Bowen, salary, £110; *Storekeeper, Dispenser and Assistant to the Master*—E. A. Martin, salary, £156.

#### MAXFIELD PARK.

Maxfield Park Children's Home, an annex to the Union Poor House, accommodates 74 inmates.

*Matron*—Miss F. E. Henry, salary, £84; *Schoolmistress and Assistant to the Matron*—Miss M. R. Markland, £60.

## DISCHARGED PRISONERS' AID SOCIETY.

THIS Society was formed in 1898 on the initiative of Mr. W. P. Clark, then Resident Magistrate of Clarendon.

In its efforts to assist discharged prisoners the society is influenced, so far as possible, by the evidences of individual desire, on their part, to help themselves. It will only recommend and help those who, upon thorough investigation into their record, and after careful inquiry into their conduct give evidence that they are anxious to live honest and industrious lives; and further state their willingness to hand over whatever gratuity shall be paid to them by the prison authorities, to the funds of the society, if this is required. This gratuity, however, must be wholly used for the individual to whom it was originally granted.

The funds of the society, other than prisoners' gratuities, are disbursed in one or other of the following ways:—

1. By the Executive of the Society according to arrangements agreed upon for each separate case brought before the quarterly meeting, which meeting authorizes payment of money by the Secretary-Treasurer. When necessary, such authorized payments are forwarded to a Local Secretary, or other person approved (a member of the Society if possible) together with the name of the discharged prisoner in whose behalf it is sent and the Local Secretary or other person, is desired to exercise a discretion in appropriating such sum so as to secure the best possible results in the work of reclaiming the recommended person.

2. In those parishes where the Parochial Committee elects to disburse its own funds the Secretary notifies, on occasion, the Local Secretary of those prisoners to be discharged in his parish, to whom the Society's card will be issued; and the Parochial Committee in their discretion, distributes such funds as are in their hands for the benefit of those so recommended.

The aim of the Discharged Prisoners' Aid Society is to help discharged prisoners to become better men and women, and useful citizens. It attempts to fulfil this object by aiding the ex-prisoners to find and secure work, by providing them with tools, and clothes when necessary, by helping them with food and lodging as a temporary provision when they are destitute, and attempting to influence them to attain a better moral and spiritual standard.

Outside the fact that the society's efforts are rigidly and painfully limited by the small sums subscribed to its funds, the main difficulty has been that of securing work for the ex-prisoners. There is, first of all, the fact that there are not in any case many opportunities for obtaining work open in this island, but the main difficulty lies in two further facts; first, there are few who are ready to employ ex-prisoners; and second there does not exist in Jamaica a properly organized labour bureau in which information is focussed, showing just where labour is wanted. The very kind co-operation of a few employers is most gratefully acknowledged, and the Committee records with pleasure the fact that during the last year, a few more friends of the work have assisted in this way, but the task for getting work for the men and women who apply to the society is on the whole not only very difficult but in instances is practically impossible. It must be remembered that the society which receives meagre financial support from the public also does its work through a Committee and executive consisting of ladies and gentlemen already occupied with many other duties.

OFFICERS AND EXECUTIVE COMMITTEE—His Honour Judge Clark, *President*; Rev. J. Reinke, D.D., *Vice President*; Lieut-Colonel J. Barr, *Secy.-Treasurer*; Rev. E. Armon Jones, Rev. F. Cowell-Lloyd, A.T.S., Rev. R. L. Reid, Rev. J. F. Gartshore, M.A., Rev. Geo. Hicks, B.A., Rev. A. F. Blandford, B.A., Sister Madeline, Sister Miriam, Rev. W. L. Brown, E. B. Hopkins, Canon Ramson, B. T. Josephs, Rev. P. Heyworth, Rev. Father Siemmes.

## KINGSTON CHARITY ORGANIZATION SOCIETY.

THE objects of the Society are the Charitable Relief and the general welfare of the Poor of Kingston and the adjacent parts of the parish of St. Andrew. It will seek:

1. To bring into harmonious co-operation with each other and the Poor Law Authorities, the various charitable agencies and individuals in the district, and thus to check the evils of overlapping relief caused by simultaneous but independent action.

2. To investigate thoroughly the cases of all applicants for charitable relief, and to secure from the proper charities, or from charitable individuals suitable and adequate relief for deserving cases.
3. To assist from its funds all suitable cases in which temporary aid will tend to permanent advantage, and for which adequate assistance cannot be obtained from other sources. This assistance may (when possible and desirable) take the form of loans, or gifts of money for the individuals needing it.
4. To repress mendicity by the above-named means, by the distribution of investigation tickets, and by dealing with cases of imposture.
5. To inculcate habits of prudence, self-reliance and thrift on the part of those who are aided.
6. To promote the establishment of subsidiary efforts, dealing with such matter as
  - (a) Free Registry of all classes of labour; (b) Provision of food for hungry persons; (c) The proper housing of the Poor; (d) Assisting moneyless people to return home; (e) The establishment of suitable industries to supply work for the poor, including market-gardening or any other light agricultural work.

OFFICERS OF THE SOCIETY—*President*, M. M. Alexander, J.P.; *Vice-President*, W. J. Palmer, J.P.; *Hon. Treasurer*, Mrs. As-on Simpson; *Hon. Secretary*, Rev. J. F. Gartshore, M.A.; *Secretary*, Mrs. G. P. Vernon.

BOARD OF DIRECTORS: The Officers of the Society, together with Rev. A. Kirby, Rev. A. F. Blandford, B.A., Rev. G. H. Thompson, Rev. M. H. Solomon, Rev. E. Armon Jones, Mrs. V. Desnoes, Rev. F. Cowell Lloyd, Rev. J. Hunt, H. J. Rushie Grey, Miss Fanny Burke, Sister Madeline, Mrs. M. DeCordova, M.B.E., Mrs. F. Saunders, H. H. Moulder, Rev. S. P. Hendrick, Miss P. F. DaCosta, Miss Myers, Miss May Thompson.

#### LADY MUSGRAVE WOMEN'S SELF-HELP SOCIETY.

THE Women's Self-Help Society was founded by the late Lady Musgrave, and formally opened as a depository by Dr. Nuttall, (late Archbishop of the West Indies) on 1st November, 1879. During these years it has successfully carried out its objects, viz.: the development of some of the specially feminine industries of the island (thereby fostering self-help), and that of providing employment for poor needle-women.

At the sale rooms of the society, there is a large assortment of Jamaica curiosities, baskets, jippi-jappa hats, drawn thread work, embroidery, as well as native jams and pickles. An attractive show of antiques, in silver, brass and Sheffield plate will also be found.

The premises at 8 Church Street, opened in 1890, were built in memory of Mrs. Charles and Mrs. Duncan Campbell, who were associated with Lady Musgrave in the foundation of the society, and by their untiring labours, aided in placing it in its present position of success and efficiency. These premises were destroyed in the earthquake and fire, but through the courtesy of the Mayor and Council of Kingston who gave rooms in the Council building, the society's work was continued. A new building was erected in 1911 at the corner of Duke and Harbour Streets.

The society is self-supporting, and has done so well in the past year, that they have been able to keep up their charities without the annual subscriptions formerly paid by the members of the committee. Depositors are charged 2s. in the £ commission on articles sold.

*Patronesses*—Lady Norman, Lady Blake, Lady Hemming, Lady Swettenham, Lady Olivier, Mrs. Dalrymple Hay, Mrs. Blackden, Lady Clarke, Lady Probyn, Lady Wilson.

*President*—

*Vice Presidents*—Mrs. Nuttall, Mrs. P. C. Cork, Mrs. Frank Saunders.

*Committee*—Mrs. C. J. Barclay, Mrs. Pourné, Mrs. R. S. Gamble, Mrs. Reinker, Mrs. Charlton Thompson, Mrs. E. B. Hopkins, Mrs. Arthur Farquharson, Mrs. Richmond, Mrs. Sidney Cargill, Mrs. A. M. D'Costa, Mrs. Harry Jackson.

*Hon. Treasurer*—Mrs. Frank Saunders; *Hon. Secretary*—Miss Burke.

## JAMAICA NURSES UNION.

THE Jamaica Nurses Union and District Nurses Fund was founded in 1904 by the late Archbishop of the West Indies, in conjunction with ministers of various denominations. Its object is to facilitate communication between nurses and medical men, or patients requiring their services, and to aid in keeping up the moral, social and professional status of nurses. At the bureau of information at the Deaconess Home, 93 Hanover Street, a register of nurses is kept under the direction of the Sisters of the Deaconess Home. Two nurses are permanently employed by the committee for nursing among the sick poor in Kingston.

## SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS IN JAMAICA.

THE object of the society, which was founded in 1903 as "the Society for the Protection of Animals" in Jamaica, is, as its name implies, the *protection* of animals. It endeavours to attain this aim by education, encouragement, example and, where these fail, by recourse to the law. Two agents are employed to this end.

A subscription of 2s. 6d. entitles to membership; donations and subscriptions are thankfully received and are urgently required with a view to extending the work of the society. Many prizes have been awarded at Agricultural Shows throughout the country for animals showing the best care.

**EXECUTIVE COMMITTEE**—Hon. W. A. S. Vickers, *President*; Frank Cundall, *Chairman*; Hon. F. E. Reed, *Vice Chairman*; Hon. W. Morrison, F. N. Isaacs, Rev. J. F. ## UPWARD AND ONWARD SOCIETY OF THE WOMEN OF JAMAICA.

THIS Society was started in 1903. Its objects are to unite as many as possible of the women of Jamaica in promotion of womanly virtue, pure family life and a healthy public opinion on moral questions.

Through the efforts of this Society, the Y.W.C.A. decided to begin work in Jamaica, the branch in Kingston has merged into that Society but the Branches in the country are continuing their work on previous lines. The Y.W.C.A. share with them in the Quarterly Magazine and join with them in their Annual Exhibition and Prize giving at Mandeville.

The Manchester Union of this Society has branches at Ridgemount, Fairfield, Mount Olive, New Broughton, Mizpah in Manchester, Wesley Mt. and at Westwood in Trelawny.

There is a branch in Montego Bay with Miss Mills as Secretary.

The Office Bearers of the Manchester Union are:—

*President*—Mrs. Westphal; *Vice-President*—Mrs. Ross; *Secretary*—Mrs. Isaacs. *Treasurer*—Mrs. Priestnal; *Librarian*—Mrs. Godfrey.

There is an Upward and Onward Magazine, edited by Miss May T. Jeffrey Smith Stewart Town P.O.

*Business Manager of Magazine*—Miss Walters, 23½ Charles St., Kingston.

## UPWARD AND ONWARD SOCIETY.

THE "Montego Bay Self Help Home," was opened in 1906, with the object of banding together all women who are seeking to reach out a helping hand to uplift the womanhood of the Island.

In the home, there are a limited number of girls in residence. These girls get some training in domestic work. Their income is supplemented, by leaving the orders given to them for mattress making, upholding, chair caning, laundry work, preserves' needle work, etc.

There is a Sales Room, where native curios baskets, plain and fancy needlework can be purchased.

In connection with the "Self Help," there is a Crèche, Soup Kitchen, Relief and Dorcas Society and a Library.

Twelve children are received at the Crèche daily. They are supported from voluntary contributions and a small fee given weekly by the Mothers.

*President*—Mrs. Edmund Hart; *Vice Presidents*—Mrs. D. Mills, Mrs. W. Coke Kerr. *Honorary Secretary*—Miss Belle Mills.

## CHILD SAVING LEAGUE.

THE Child Saving League was organized on November 16, 1915. Its object is the seeking of child welfare and taking all steps necessary for securing the attainment of this end. A Day Nursery has been established in the old Court House building on the West Parade. Children are there cared for and fed by a trained nurse. The hours are from 6 a.m. to 8 p.m., and the fee is two pence per day. There are four centres of work beside the Day Nursery where children can be brought to be fed and where mothers can be advised about the care of their children. These centres are: Smith Village, South Kingston, Passmore Town and West Street.

The League is supported by voluntary contributions.

The Mayor and Council of Kingston granted a sum of £50 toward the support of the League in 1918, and £50 in 1919, and £100 in 1920 for the same purpose.

The Government provides for the work, two nurses receiving yearly two weeks vacation full pay and an additional grant not exceeding £10 for substitutes, permits the purchase at cost price of drugs from the medical store and grants the use of the rooms for the Day Nursery.

*OFFICERS*—*Patron*, His Excellency the Governor; *Honorary Secretary*, Mrs. Latreille; *Honorary Treasurer*, Mrs. Lockett.

## CHILD WELFARE.

THE Committee appointed by the Governor to consider and to make recommendations for the solution of the problem of Child Welfare in Jamaica, reported in March, 1922, under the following heads:—

i. Introductory; ii. Need for a Child Welfare Department; iii. Scope of Department; iv. Leading principles; v. Comprehensive System; vi. Institutions; vii. Further Organization; viii. The physically and mentally defective; ix. Voluntary Organizations; x. Enforcement of parental obligations; xi. Finance; xii. The reports referred to the Committee; Appendices A, B, C, D, E, F.

The Committee considered that the problem of Child Welfare is now in Jamaica one that calls urgently for a solution, and that it should receive the immediate and most careful attention of the Government and the Legislature:

That the admirable work now being done by the social workers voluntary associations does not and cannot cover the ground;

That Child Welfare work has now become an essential part of government organization in almost every civilised country which takes into consideration the all important bearing which this question has on the broad principles of national progress and advancement;

That machinery already exists in Jamaica for the purpose of dealing with destitute and neglected children and juvenile delinquents, but the best use is not made of this machinery by reason of the fact that there is no provision for one central authority whose

specific business it is to look after and co-ordinate all the institutions and societies caring for dependent children.

The Committee was unanimously of the opinion that a Department of Child Welfare should be established, with a responsible Head, which shall control and direct all government institutions for the reception, detention and training of juveniles, and supervise such other institutions as may now or in the future exist having for their aim and object the welfare of juveniles receiving aid from government or parochial funds.

The expenditure provided for in the current financial year by General Revenue on account of Industrial Schools, Orphanages and Foster Homes, including the cost of two-nurses for the Child Saving League, amounts to £13,105. The expenditure by the parishes for the year 1920 for Industrial School children, children in Poor Houses and out-door relief to pauper children amounted approximately to £18,575.

The additional expenditure called for by the recommendations of the Committee is estimated at £8,250, of which £1,500 would fall on parochial revenues, and includes £5,000 for the buildings, equipment and maintenance of a proposed Agricultural Farm.

The Committee suggested, alternatively, in order that a beginning might be made, that provision should be made for 1922-23 of £2,222. The matter is at present in abeyance.

During November and December 1923 and January 1924, Child Welfare Postage Stamps, specially prepared, were on sale, and the Scheme received  $\frac{3}{4}$ d. from each stamp sold of the value of  $\frac{3}{4}$ d., 1d., and 2 $\frac{1}{2}$ d.

#### WOMEN'S SOCIAL SERVICE ASSOCIATION.

THE objects of the Association, which was formed in 1918, are as follows:—

- a. To co-operate as far as possible with the different agencies and societies already existing, endeavouring to enlarge their usefulness wherever possible.
- b. To improve the health of the Womanhood of the Island.
- c. To assist in segregating the physically unfit mothers and trying to procure for both mother and child the medical treatment necessary.
9. To take all steps necessary for the enforcement or alteration of the present Laws governing Child Welfare.
- e. To spread information regarding the treatment of children and the cause and effect of many of the present prevalent methods of failure and mismanagement.
- f. Better housing for the poor.

The Association has a work room for girls at the old Public Works Building, Parade, Kingston, with the object of teaching girls who leave school at the tender age of 14 a trade and so putting them for the battle of life and giving them a chance to remain decent and self-respecting.

In 1921, 3 work rooms were started in affiliation with the Association; one at Gayle with Mrs. A. A. Barclay as President, one at Oracabessa with Mrs. Webster as President, one at Mavis Bank with Mrs. Berry as President; one in 1924 at Chapelton, Mrs. McHardy, President.

A daily clinic is held in the Creche where medical attendance is free. A system of district visiting to newly born babies is in force. A Baby Show is held yearly. A Child Saving League magazine is published monthly.

Any woman may become a member of the Association by having her name sent to the Secretary, by some member of the Association, and by payment upon enrolment of a membership fee of half a guinea. No one shall be a member in good standing until she has paid her annual fee, such fee being due and payable to the Treasurer before the annual meeting in each year.

*President*—Mrs. Michael DeCordova; *Secretary*—Mrs. Latreille; *Vice Presidents*—Mrs. L. DeMercado, Sister Madeline; *Treasurer*—Mrs. C. DeCordova.

### ST. VINCENT DEPAUL CONFERENCE.

THIS Conference was introduced into Jamaica in December, 1903, by the late Rev. John Harpes, S.J. Its principal work is the visitation and relief of the poor in their homes, irrespective of their religious beliefs. Generally relief is not given in money, but by tickets issued to the purveyors of groceries, and also for clothing. All bills are met by means of contributions from charitable persons and by collections at the weekly meetings. The current expenses of the society are defrayed by the members of the Conference. No officer or member is allowed to receive any salary or out-of-pocket expenses for his work. The Conference meets every Thursday evening at Winchester Park, Kingston.

**OFFICERS**—*Spiritual Director*—Rev. Francis J. Kelly, S.J.; *President*—R. A. Figueroa; *1st Vice President*—H. A. Thomas; *2nd Vice President*—S. A. Phillips; *Secretary*—Livingstone Lewis; *Assistant Secretary*—Geo. V. Aarons; *Treasurer*—Joseph L. Pietersz.

### PUBLIC COMPANIES.

#### JAMAICA PERMANENT BUILDING SOCIETY.

THIS Society, formed in the year 1878, was incorporated in 1906. The attractive feature of the society is its "Proprietary Shares" which ensures a permanent fund of £14,530 as a special security to depositors, subscribing members and borrowers.

New rules passed in October, 1917, make provisions ensuring bonuses of £3 and £2 per share respectively to matured 10 year and 7 year advanced shares. Loans are made at  $7\frac{1}{2}$  per cent. interest; repayable by £20 shares to mature in 4, 7 or 10 years at  $7\frac{1}{6}$ ,  $4\frac{1}{6}$  and  $2\frac{1}{6}$  respectively and interest  $2\frac{1}{6}$  per month on each £20 advanced or loaned.

The amount of loans to the end of the year 1924 was £59,885 11s.  $7\frac{1}{2}$ d., and the sum of the subscription shares to the credit of members was £22,229 6s.  $6\frac{1}{2}$ d.; deposits at 5% per annum £21,500 13s. 0d.; interest payable half-yearly. Funds are always available for making loans on security of approved freeholds to non-members as well as members of the society.

**DIRECTORS:** *Chairman*, Lewis Ashenheim; *Deputy Chairman*, John MacDonald, J.P., Edmund Haughton Sanguinetti, J.P., Colonel O. H. E. Marescaux, J.P. Otto Crowden, J.P., Reginald Melhado, J.P.; *Secretary and Accountant*, Colin G. Campbell; *Cashier*, Donald Campbell; *Auditors*, H. E. Laidman, S. G. Corinaldi.

Office, 133 Tower Street, Kingston.

#### JAMAICA MUTUAL LIFE ASSURANCE SOCIETY.

At the close of the year 1843, W. Wemyss Anderson, (a founder of the Society) Alexander Barclay, Edward Jordon, James Davidson, John Samuel Brown, Henry Franklyn and John B. Purrier, met for the purpose of forming a Life Assurance Society in Jamaica for the encouragement of systematic thrift and providence on a co-operative basis among the people of Jamaica. Having arranged the necessary preliminaries a public meeting was held at the Kingston Court House on the 26th January, 1844, when it was agreed that "The Jamaica Mutual Life Assurance Society be now formed." Application was then made to the House of Assembly for the necessary Law of incorporation and the draft Bill was referred to a Committee of the House. In Committee it was proposed to receive the Society's moneys at 5 per cent. John S. Brown, also one of the founders of the Institution, and for twenty-two years its valued and highly esteemed Secretary, did good service in his place as a member of that Committee by proposing and carrying an amendment for 6 per cent. instead of 5, on the ground that 6 per cent. was the usual interest of the island, and that the project was in the nature of a Friendly Society. Charles Darling (afterwards Governor of the Colony) then a member of Assembly, seconded and ably supported Brown's amendment and it was carried.

On the passing of the Law a Board of Directors consisting of the gentlemen first named with Alexander Barclay as Chairman, was appointed, and the first Policy was issued, on the 1st May, 1844. To the end of that year 53 policies were issued, assuring £31,450.

The Society commenced business without capital—not a shilling! Provision was made that should any policy become a claim by death before the Society's Funds had reached the amount, interest should be paid to the claimant and the claim should be a first charge on the funds; this arrangement was never resorted to as the necessity never arose.

The success of the Society during the past eighty-one years has been remarkable; it has experienced uninterrupted prosperity, and this is strikingly demonstrated by the fact that in no instance have the Directors found it necessary to disturb the investments in order to meet any claims made on the society. It has also always declared a bonus every three years. The early supporters and subsequent upholders can with pleasurable pride refer not only to the prosperity that has attended the Society, but to the substantial benefits conferred on the families of the deceased Assurers; and it is with no little gratification that the Directors have been able to announce that the operations of the Society in 1921, reached over one and a half million sterling.

**Security**—Every three years a complete investigation of the Society's financial position is made by a qualified Actuary including a Valuation of liabilities and the surplus divided among the policy-holders.

**Protection.**—Policies are protected in case of non-payment of premiums so long as the indebtedness does not exceed the cash surrender value.

**DIRECTORS.**—Col. A. H. Pinnock, v.d., *Chairman*; Leonard deCordova, *Deputy Chairman*; Lionel A. Isaacs, B.A., T. N. Aguilar, A. H. D'Costa, W. Baggett Gray, L. P. Downer, Hon. Wm. Morrison, Hon. J. H. Phillipps; *Secretary*—Ernest B. Nethersole, F.C.R.A.; *Auditors*—G. C. McCormack, E. G. Nixon and E. L. Newman, C.P.A.; *Actuary*—Alex. Fraser, F.F.A., F.I.A., F.R.S.E.; *Head Office*—The Jamaica Mutual Buildings, Barry Street, Kingston.

#### VICTORIA MUTUAL BUILDING SOCIETY.

THIS, the second Building Society formed in Kingston, was established on the 1st December, 1878, under the patronage of Sir Anthony Musgrave, then Governor of the Island, and under the authority of "The Benefit Building Societies Act, 1855" and was incorporated December, 1898, under "The Building Societies Amendment Law, 1897."

The object for which the Victoria Mutual Building exists are twofold. Firstly, to provide for shareholders and depositors a perfectly sound and profitable investment for large or small sums of money; and secondly to employ the funds thus obtained in making advances by way of Mortgage on Freehold Property; principal and interest being repaid by easy monthly instalments. The system adopted by this society of requiring loans to be repaid by equal monthly instalments is such that, as each repayment includes a portion of the capital sum, the margin of security is ever increasing and the possibility of risk is ever diminishing.

The ultimate value of each share is twenty pounds, (exclusive of bonus) realisable by monthly payments of two shillings and sixpence during a period of ten years.

Borrowers are charged interest at the rate of  $7\frac{1}{2}\%$  payable monthly, but in return the society awards interest and bonus. Thus one share on which £15 shall have been paid will be worth at the end of ten years £20, irrespective of the bonus which may be granted. Loans on Mortgage of Freehold Property are granted for a period of ten years, but if at any time the Mortgagor wishes to reduce his payments, he can do so with the permission of the Directors, by getting his loan capitalized. This means smaller payments for shares and interest, with the result that the capitalized loan continues for a further ten years period. This arrangement does not entail any additional Law charges.

The Law Charges vary from 50/- on a loan of £60 to £10 15/- on a loan of £800, and thereafter 20/- extra for every additional £100.

The Society affords a means for investment of capital at an adequate rate of interest combined with absolute security, at 5% per annum, payable half yearly on 1st June and 1st December. The Receipt for the year ended 30th November, 1924, amounted to £131,424 and the Assets were £337,065.

**BOARD OF DIRECTORS.** *Chairman*, T. N. Aguilar, J.P.; *Deputy Chairman*, M. M. Alexander, J.P.; V. E. Manton, LL.B.; H. E. Bolton, J.P.; Leonard deCordova, J.P.; H. A. L. Simpson, O.B.E., J.P.; N. B. Livingston; H. MacCaulay Orrett, J.P.; Col. A. H. Pinnock, v.d., J.P.; Hon. A. E. DaCosta, M.B.E., J.P.; W. Baggett Gray; *Auditors*, John Tapley, F.C.I.S., F.A.A., F.I.C., Eng.; Ralph Carman, F.S.A.A., London; *Secretary*, Sidney C. McCutchin, M.B.E., J.P., *Asst. Secretary and Accountant*, G. N. Morand. *Office* 6 Duke Street, Kingston.

#### ST. THOMAS MUTUAL BENEFIT BUILDING SOCIETY.

This society was established in 1897, and has been very useful to the parish—the progress has been very steady.

The rate of interest is  $7\frac{1}{2}\%$  per cent. Subscription shares are 2s. 6d. each per month, for a term of 10 years, at expiration of which each share is worth £20.

##### DIRECTORS.

*Chairman*, I. J. Mordecai; R. Ehrenstein, O. H. Williams, Jno. W. McLean, J. G. Marshall, D. Marshall, C. J. Chamberlain, Dr. F. N. Norton, W. Robertson, A. G. Donaldson, A. E. Marshall; *Solicitor*, D. V. Silvera; *Auditor*, M. D. Farrier; *Secretary*, J. H. Williams.

#### ST. ANN BENEFIT BUILDING SOCIETY.

THIS Society was inaugurated early in 1874 and incorporated in 1901. Its establishment was largely due to the efforts of its first president, the Hon. Michael Solomon, and its secretary and founder the Revd. Josias Cork, both of whom died in 1892.

The history of the Society shows a steady progress. Its benefits have been felt more

in the parish and adjoining parishes generally, than at St. Ann's Bay recently. This is chiefly owing to the fact that there have been but few lots available for building purposes within the precincts of the town; and although the number of new buildings erected is, on an average, more than two in each year of the society's existence, purchases of house property, not requiring more than repairs, have taken place and the acquiring of freeholds which could not have been effected except with the aid of the society, besides many have been enabled by their savings to settle and help themselves in various ways who without the existence of the society would have found it utterly impossible. A feature of the society is a special plan whereby Loans from £250 and upwards can be made without taking the full numbers of shares for re-payment for 7 or 10 years, quarterly payments of Interest at Special Rates.

The Society has also a Depositors Branch on which 4% interest p.a. is paid on Deposits from £1 upwards.

**DIRECTORS**—*Chairman*, J. J. Lyons; *Vice-Chairman*, A. B. Rerrie; C. F. L. Matheson, S. M. Roche, Dr. F. W. Hunter, J. A. Dickenson, H. Gordon Tennant, Dr. A. D. C. Robb, H. Stephenson, *Solicitor*, Daniel Hart; *Auditors*, C. S. Kelly, Rev. A. N. McDonald; *Secretary*, E. G. Watson; *Bankers*, Barclay's Dominion, Colonial and Over Seas Bank, St. Ann's Bay.

### BROWN'S TOWN BENEFIT BUILDING SOCIETY.

The Brown's Town Benefit Building Society was established in the year 1893, and incorporated in 1899. The Reserve Funds at the end of its thirty-second financial year stood at £4,094 19s. 10½d; the assets were £53,523 5s. 1½d. The net gain for the year was £1,223 2s. 5d. The total bonus payable on each £10 matured share was in Class A, 22%; Class B, 32%, and each share two years old and upwards, even if withdrawn before maturity, gets a bonus. This Society issues subscription shares in four classes, viz.—Class A, 7 years; Class B, 10 years; Class C, 15 years; Class D, 20 years; and Paid-up Shares in Class A, 7 years. The value of each share in each class at maturity is £10 with bonus in addition. Deposits are also received and interest calculated thereon at 4 per cent. and 5 per cent. according to amount. Loans are made on landed security under any one of the above classes of shares and also under the new system of limited shares and deferred shares, at rates varying from 6 per cent. to 8 per cent. according to amount and period.

**DIRECTORS**—*Chairman*, J. H. Levy, Chas. Costa, C. R. Thomson, C. S. Kelly, E. S. Lindo, Dr. W. E. Wilson, J. A. Harris; *Secretary*, C. Owen Cover. *Office*—Brown's Town. St. Ann.

### TRELAWNY BENEFIT BUILDING SOCIETY.

This society was established on the 1st April, 1875. Incorporated 30th October, 1911, for the purpose of providing for the purchase, erection, repair and improvement of freehold houses for its members. A principal object of the founders was the improvement of the dwellings of the working classes of the town and parish.

Subscription Shares of the Society are divided into two classes, viz.—A and B. The A shares of 4s. per month mature in 7 years, at the end of which, the principal, interest and profits are paid over. The B shares of 2s. 8d. per month mature in 10 years, at the end of which, the principal interest and profits are paid over.

The society makes loans on real property for a period of 7 or 10 years. Temporary loans are also made to shareholders on the security of their shares to the extent of two-thirds the amount standing to their credit.

Applicants for large loans need not hold an equal value in shares; but balance must be met by half-yearly payments, each half yearly payment reducing interest payable on the advance.

Interest is charged on loans as follows :—9% up to £200 and 7½% on any sum above £200.

Advances are made on a basis of two-thirds of the value of the security offered. An entrance fee of 1s. is charged on each new share taken. Pass Book 1s. No entrance fee is charged on new deposit accounts.

Sums of any amount from 1s. upwards are taken on deposit by the Society and bear interest at 5% per annum on each completed £ from the first day of the month after deposits till the last day of the month prior to withdrawal. Notice of withdrawals always waived.

**DIRECTORS**—P. E. F. Robertson, *Chairman*; E. D. Arscott, Geo. Taylor, A. E. Muschett, J.P., J. C. Cadien, H. V. Young, A. W. L. Clerk, John Scott, Hon. Guy S. Ewen; *Auditors*, C. M. Clark, H. A. Smith; *Secretary*, R. S. M. Cooke; *Assistant Secretary*, G. A. H. Bowman.

*Office*—Falmouth, open daily from 10 to 3 except on third Tuesdays of each month, and Saturdays when office is closed at 2 p.m.

### ST. JAMES BENEFIT BUILDING SOCIETY.

THE St. James Benefit Building Society was established in Montego Bay in July, 1874, (incorporated in 1906). At the close of its first financial year it had on the register 285 shares, and on the 31st July, 1925, 5,283 shares. The amount at credit of Reserve Funds is now £4,000. Subscription shares "A" and "B" are payable by monthly instalment of 4s. and 2s. 7d. each for 84 and 120 consecutive months. Interest is credited on each share at the end of the financial year. Subscription shares participate in the Bonus of the financial year in which they became perfected and matured.

The Board of Directors accept deposits at interest at 4% per annum payable half-yearly. The deposits amount to £37,258.

Interest on loans is charged at  $7\frac{1}{2}$  per cent. per annum.

Loans are effected on the mortgage of real estate and on the security of shares of the society and are conterminous with the shares. Interest on loans is payable monthly.

The total amount of loans on the 31st July, 1925 was £84,973. Cash in hand £1,567.

**DIRECTORS**—Austin H. Browne, *Chairman*; Walter Fletcher, Hon. W. Coke Kerr, O.B.E., Edmund Hart, S. P. Davidson, Gossett Howard, H. A. Aarons, David Mills. F. M. Kerr Jarrett, G. Phillpotts Brown; *Auditors*, R. P. Collymore, Clifford M. Clark; *Secretary*, F. M. Hoyt; *Assistant Secretary*, Frank Smith.

### WESTMORELAND BUILDING SOCIETY.

THIS society was established in January, 1874, and was incorporated in December, 1907. During the fifty-one years ended in 31st March, 1925, its receipts have amounted to £1,825,104. It has been the means of erecting and repairing a large number of houses in the parish of Westmoreland, and has considerably increased the value of land throughout the parish by affording facilities for sale and improvement, while its transactions have now extended all over the island.

The rate of interest on loans of under £250 is 9 per cent. From £250 and below £1,500 the interest is  $7\frac{1}{2}$  per cent., and from £1,500 upwards, 7 per cent., and borrowers may repay a specified portion of the loan every year instead of taking shares if they prefer that arrangement. This society allows quarterly payments of shares and interest free of fines.

The price of a paid-up share is £15, with interest at the rate of 4 per cent. or twelve shillings per annum, if drawn before maturity. The value to be £20 with the bonus in addition when matured. Sums of any amount from five shillings upwards are received on deposit at 5 per cent. interest on each completed pound. The present capital is £249,036. The gross reserve fund amounts to £32,518 with a clear nett surplus of £23,921, after providing for interest accrued on shares, &c. The total amount of losses during the period was £329, while for the past 27 years a bonus of 50s. per share has been paid on all matured shares.

The company operates the Street Railway, Electric Light and Power systems in the City of Kingston and Saint Andrew, and in addition the Electric Light and Power Systems of Saint Catherine.

There are two Power Stations, one a steam plant at Gold Street, Kingston, and another a Hydro-Electric Plant on the Rio Cobre near Bog Walk, from which power is transmitted 21 miles to the transforming station in Kingston, where it is distributed to the Trolley lines through Kingston and Saint Andrew for tramway purposes.

There are twenty-six miles of track supplying not only a complete service in the City but extending into the residential suburbs as far as Constant Spring to the north, to Papine at the end of the Hope Road towards the North-east and out to the Rockfort Gardens towards the East. The cars are all open, with ample seating accommodation. The area covered is divided into three districts, and the fares charged are two-pence on one tramway in each district.

The management of the Company is under the executive management of Stone and Webster, Inc., who operate about sixty Public Utilities throughout the North American Continent and the West Indies. The registered office is at 151 Orange Street, Kingston. Down Town Store—56a King Street, Kingston.

#### PEOPLE'S DISCOUNT AND DEPOSIT COMPANY (LIMITED).

THE People's Discount and Deposit Company (Limited) was established in 1879 by the Rev. W. Clarke Murray, aided by a few gentlemen to whom he made his plan known. His main object was to provide help for a large class of industrious and enterprising people who, not having influence to secure them business relationships with the Colonial Bank, were reduced to the necessity of applying to private individuals for the means necessary to aid them in their business undertakings. A company was therefore formed to raise a capital fund, by the issue of shares, for the purpose of discounting island and other bills of exchange or promissory notes, or other obligations, making advances of money on mortgage and other securities, and otherwise transacting business as bankers save and except the issuing of a paper currency or bank notes and also to receive deposits on current accounts or otherwise.

**DIRECTORS**—Hon. Archibald Munro, *Chairman*; Thomas N. Aguilar, *Vice-Chairman*; Leonard deCordova, M. M. Alexander, N. B. Livingston, V. L. George, E. Haughton Sanguinetti; *Secretary*, A. M. Bonitto; *Auditors*, E. G. Nixon, P. A. George. *Office*—1 Orange St., Kingston, P.O., Box 198.

#### HOTEL COMPANIES.

THE necessity of providing hotel accommodation for visitors to the proposed international exhibition of 1891 caused the government to pass Law 27 of 1890, which law guaranteed the payment of interest at the rate of 3 per cent. upon capital invested in the erection and maintenance of hotels "on such terms and conditions as may be approved by the Governor in Privy Council." All building materials and furniture required for such hotels were to be admitted duty free, and debentures and other documents were to be free of stamp duty.

The facilities given by this law induced the formation of companies by which the following hotels were constructed:—

Myrtle Bank Hotel, Harbour Street, Kingston, by the Kingston Hotels Co.

Constant Spring Hotel, by the American Hotels Co.

Queen's Hotel, Heywood Street, Kingston, by the Jamaica Hotels Co.

Hotel Rio Cobre, Spanish Town, by the St. Catherine Hotels Co.

Moneague Hotel, St. Ann, by the Moneague Hotels Co.

These Hotels were taken over by the Government under section 10 of the Law, on failure to fulfil the conditions of the contract.

A stimulus was given to hotel development by Law 15 of 1904 which enabled personal erecting an hotel of more than 40 bedrooms to obtain an important license from the Governor whereby they might obtain the importation free of duty of all materials, fixtures and furniture necessary for the building and equipment of the hotel and were exempt for 10 years from increased taxation—attributable to hotel buildings. This law expired on the 30th June, 1907, but was renewed by legislation to extend the facilities thereof (except as regards taxation) to the Titchfield Hotel at Port Antonio and to the Myrtle Bank and South Camp Road Hotels in Kingston.

The Constant Spring Hotel was leased for some years to, but was finally bought by, the Elder Dempster Co., who closed it as an hotel. It was re-opened in March, 1920, but was burnt to the ground in 1923. The Rio Cobre Hotel has been offered for sale by the Government (1914).

The Myrtle Bank Hotel was also leased to the Elder Dempster Company, but it was completely wrecked by the earthquake of 1907, and the lease fell in. The site was sold to a local Company who have erected a modern hotel thereon. It is now the property of the United Fruit Company.

In 1904 a large and commodious hotel was built at Port Antonio known as the Hotel Titchfield. This was destroyed by fire in January, 1910, but it was rebuilt in 1911.

#### KINGSTON ICE-MAKING COMPANY, LIMITED.

THIS company was established in 1884. The present capital is in 27,436 old shares of £1 each and 6,632 new shares on which there has been paid £29,850 15s. The company commenced operations with a 5-ton machine; in 1885 a 10-ton was added. The demand for ice having increased and the necessity being apparent for spare machinery to meet daily requirements in event of accident, a 20-ton machine was erected in 1888. In 1897 a machine of the latest improvements, capable of producing 60 tons ice per day was installed. Recently another machine of the same capacity has been installed as a safeguard against accidents. The plant and business of the Consumer's Ice Manufacturing Company were purchased by the Kingston Ice Making Company, which sells ice at 1/6 per 100lb. wholesale, and retail one farthing per lb.

**DIRECTORS.** *Chairman*, Hon. Archibald Munro, M. M. Alexander, Otto Crowden, Colonel O. H. E. Maurescaux, Lionel deMercado, Hon. L. A. Isaacs, Dr. F. H. Saunders, E. H. Sanguinetti, W. ## CABLE COMMUNICATION.

## "IMPERIAL CABLE ROUTE."

THERE are two Imperial Cables working direct from Halifax, Nova Scotia, to London. These cables provide a "no delay" service across the Atlantic. The Halifax Office of the Imperial Cable is situated in the same building as the Direct West India Cable Company's Office, so that no delay takes place in transferring messages from one Cable to the other.

The "Via Imperial" route is at present the most direct route between Jamaica and Great Britain and Europe, and is the only British owned Cable route crossing the North Atlantic.

In order to obtain the advantage offered by this direct and expeditious route, senders of cables should always specifically mark their cables "Via Imperial" for which indication no extra charge is made.

The rates "Via Imperial" are the same as those via other routes, with the exception of W.L.T. messages.

## DEFERRED PLAIN LANGUAGE TELEGRAMS.

Telegrams in plain language at half rate are accepted with very few exceptions for all parts of the world and are forwarded on the condition that they may be subjected to such delay as may result through the cables being occupied by traffic upon which full rates have been paid, but they will not be deferred for more than 24 hours.

The sender must write before the address one of the following indications which is charged for as one word.—

L.C.F. French.

L.C.O. Language of the Country of Origin.

L.C.D. Language of the Country of Destination.

Deferred telegrams without text are not admitted. Only plain language may be used.

Registered or abbreviated addresses may be used in the address:

## WEEK-END-LETTER TELEGRAMS.

Week-End-Letter Telegrams at quarter rate, with a minimum of 20 words, are accepted for Great Britain and Ireland, Halifax, Bermuda and Turks Island by the Direct West India Cable Co., Ltd.

These messages must be entirely in plain language and must bear the paid prefix "W.L.T." which must appear as the first word in the address. Such telegrams must reach the office of the Company before closing hour on Saturday and are deliverable at destination on the following Monday morning. Otherwise than as noted above W.L.Ts. are governed by the same conditions as deferred telegrams.

1. The Bermuda route is practically an All-Cable Connection between Jamaica and New York, Jamaica and Boston, and Jamaica and Ireland. There are two transmissions only, viz: at Halifax and Canso, and (high speed automatic) direct working from Jamaica to Halifax is secured by a special arrangement at Bermuda.

2. The Companies' arrangements secure to them several Atlantic cables, and telegrams to Canso for Great Britain pass over British territory only.

3. A complete landline and cable connection to all parts of Canada and the United States, etc., and the above Companies' working arrangements with the Canadian Pacific Railway Telegraph (Head Office: Montreal), and the Postal Telegraph and Commercial Cable Companies (Head Office, New York), provide them with collecting offices and agents in all parts of Canada, the United States, Great Britain and Ireland and the Continent of Europe.

4. The Joint Telegraph Systems are the most complete in the world. They are entirely free of all outside control, and have established a name for accuracy, speed and economy.

To their combined efforts is due the existence of the present low rates now charged on telegrams passing between Great Britain, Canada, the United States and the West Indies.

## WIRELESS.

The Company have a ship to shore licence for wireless working from their offices at Kingston, Jamaica (call sign "VQ.I.") for communication with ships at sea. Rate 10d. per word.

## COMBINED CABLE AND WIRELESS ROUTE.

Messages routed "Via Bermuda-Marconi" are accepted by the Direct West India Cable Co. for transmission to Halifax, where they are handed over for direct transmission to London by the Marconi Transatlantic Wireless circuit.

Telegrams for Switzerland, Spain and France are transmitted beyond London to Country of Destination by High-Speed Automatic, Duplex Wireless Circuits, thus providing remarkably rapid and accurate route.

Full particulars in regard to this service and rates may be had on application at the office of the D.W.I. Cable Co. Ltd.

## WEST INDIA AND PANAMA COMPANY, LIMITED.

The West India and Panama Company operates cables to Santiago de Cuba (connecting with the Cuba Submarine Company's lines to Havana, at which station traffic is handed over to the Western Union Company) and to Porto Rico and other West Indian Islands.

## INDEPENDENT ORDER OF ODD FELLOWS, MANCHESTER UNITY.

THE Manchester Unity of the Independent Order of Odd Fellows was established in Kingston under the jurisdiction of the Barbados District in the year 1885. Three Lodges, in that year, were opened, viz., the "Kingston Lily," the "Jamaica" and the "St. Lawrence." The "Jamaica" Lodge has since been closed. Since the formation of the Jamaica District 14 new Lodges have been opened.

The objects of the society are (a) to provide by entrance fees, contributions of the members, fines, donations and by interest on capital, for insuring a sum of money to be paid on the death of a member, or for the funeral expenses of any member's wife or child, or the widow of a deceased member; (b) for the relief or maintenance of the members (or in the cases in the general rules, or in the rules of branch provided) the wives, children, fathers, mothers, brothers, or sisters, nephews, nieces, or wards (being orphans) of members during sickness or other infirmity whether bodily or mental, in old age or in widowhood; (c) for the relief or maintenance of the orphan children of members during minority; (d) for providing proper medicine and medical attendance for members; (e) for granting temporary assistance to the widows and orphans of deceased members; (f) for providing members with assistance when travelling in search of employment; and (g) for assisting members when in distressed circumstances.

The "Pearl of the Antilles," and the "Lily," meet every 1st and 3rd Wednesdays and Tuesdays; "Pride of the North," every alternate Tuesday; the "St. Lawrence," every 1st and 3rd Thursdays, respectively.

The regular meetings of the Jamaica District are held on the first Thursday after the second day in the months of January, May and September. The annual meeting is held in January.

## JAMAICA CLUB.

THE Jamaica Club—the successor of the Jamaica Club which existed in 1813 in Duke Street and in 1813 in North Street—was first organized in the latter part of 1872 and was formally declared open on the 15th January of the following year at a temporary and very circumscribed premises situated in King Street. The present home of the club is at No. 59, 61 and 63 Hanover street, Kingston. The former club house, a massive brick structure, erected in 1891, was completely wrecked by the earthquake of the 14th January, 1907. The present club house is designed on a somewhat different plan, is less massive but in its construction all the known safeguards against earthquake effects have been introduced. No. 65 Hanover street has since been purchased, the building thereon taken down, and the land added to the club premises.

The club is managed by a committee consisting of 20 elected members, two of whom are by vote of the others chosen president and vice-president.

The election of candidates for membership is in the hands of the committee by ballot and every candidate must be proposed by one member and seconded by another, to both of whom he must be personally known. The names of candidates, their places of residence and professions, with the names of their proposers and seconders, must be recorded in the candidate's book at least 21 days prior to election, the book being placed for reference on the table of the reading room of the club.

The entrance fee is £6 6s. and the annual subscription is £6 6s. for members residing within a radius of 12 miles of Kingston, and £3 13s. 6d. for country members. For members residing permanently out of the Island, the subscription is 10s. 6d. Officers of the army and navy are admitted, after the usual ballot to membership on payment of an annual subscription of £2 2s. The Governor, the Commander of the Forces, and the officers of H. M. fleet visiting the station, are honorary members.

A gentleman on a visit to the island may be introduced once in any period of three months by a member as an honorary member, by entering the name of such gentleman and his own in the book kept for that purpose. On approval by the committee at the next subsequent meeting, such gentleman may continue as honorary member, until the expiry of fourteen days from his introduction, without charge. Should he desire to have this period extended, the committee may, on application, accede thereto for a period not exceeding six months on payment by him of the sum of 21/ monthly in advance; but should he in the meantime become a permanent member of the club such payments shall be deducted from the regular subscription payable on election. The committee has power at any time to withdraw the privileges granted to an honorary member. No honorary member has the privilege of introducing a guest to the club. A member may not introduce as an honorary member any person who he shall have been notified is considered objectionable, by the committee. Games of hazard are not allowed, and the removal from the club house of books and newspapers is strictly forbidden.

*President*, E. W. Lucie Smith; *Vice-President*, W. Baggett Gray; *Treasurer*, A. H. DaCosta.

**MANAGEMENT COMMITTEE**—E. W. Lucie Smith, Arthur W. Farquharson, William Baggett Gray, Leonard J. Stone, Otto Crowden, Lionel DeMercado, Hon. William Morrison, E. Haughton Sanguinetti, Alfred H. daCosta, N. B. Livingston, C. S. Morrison, Percy Lindo, Dr. Chas. Levy, Lindsay P. Downer, Lewis Ashenheim, Capt. S. D. List, Ellis Levy, J. B. Kilburn, Dr. J. E. Moseley and Dr. J. Geoghegan. *Secretary*, E. A. Poole.

## ST. ANDREW CLUB.

THIS club was formed in the early part of 1895 by 40 proprietary members at £10 each, and by certain other gentlemen as ordinary members.

The club premises, which are approached from the Marescaux road, and by a private road from Cross Roads, consist of 170 feet by 330 feet of land on the Up-Park Villa estate, with a suitable and commodious club house, sufficient for the present needs of the club and capable of addition and improvement.

The present club house consists of large and airy billiard and card rooms, a reading and a committee room with wide and comfortable verandahs and a ladies' room. The grounds afford space for seven tennis courts.

Candidates for membership are elected by ballot by the committee and every candidate must be proposed by a member of the club and seconded by another member, and the proposer and seconder must vouch for the candidate from personal knowledge. The names of candidates must be recorded in the book kept for that purpose in the club house at least fourteen days prior to election.

## KINGSTON ATHENÆUM.

THE Kingston Athenæum is a literary society, the object of which is "the promotion of the moral, intellectual and social welfare of its members." It was founded on the 1st March, 1899, in connection with St. Andrew's Kirk, Kingston, but was subsequently reconstituted on a wholly independent basis. The society holds its meetings at the lecture hall of the Institute of Jamaica and keeps its library on the upper floor of 116 Harbour Street. The library is open daily from 9 a.m. until 4 p.m. except on Public Holidays. On Wednesdays the closing hour is 2 p.m. It now contains nearly 6,000 volumes. There are 960 members. A reading table with the latest magazines is provided in the library.

Payment of subscriptions for at least one quarter in advance entitles members of the Athenæum to be admitted on application as members of the Institute of Jamaica without any further payment. The subscription is twelve shillings per annum.

*Hon. President*, His Excellency Sir S. H. Wilson, K.C.M.G.; Dr. O. D. F. Robertson, *President*; Mrs. L. Nash, I. Pocock, *Vice-Presidents*; J. L. Pietersz, *Secretary*. Dr. O. D. F. ## .BOYS SCOUTS ASSOCIATION.

## JAMAICA ASSOCIATION.

THE Scout Movement Incorporated by Royal Charter, and its Founder, Sir Robert Baden-Powell (Chief Scout) are known all over the world. Local information is to be found in previous issues of the Handbook of Jamaica together with a brief historical resume.

In 'Boy Scouts beyond the Seas' the Chief Scout says:—

"As we come alongside the wharf [January 1912], among the crowd waiting to welcome the ship we see the well-known uniform once more. A guard of honour of Boy Scouts is drawn up to receive me. Two troops of them are in Jamaica, but I expect that before long there will be others as well.

"Jamaica has been called 'the cradle of the British Navy from the time of Drake and Raleigh, and Rodney, Benbow and Nelson; and I hope that before long Sea Scouts will have started here, for it is a splendid place for boating and swimming, and will furnish many more good seamen for our nation in the future."

The Local Census returns give a total of all ranks for the year ended 30.9.25, 840, inclusive of eight Packs of Wolf Cubs, the 1st Jamaica Sea Scouts Troop and the Y.M.C.A. Rover Sea Scouts Troop.

Amongst honoured names in Jamaica Scouting are the late Lt. D. P. Stephenson, Brigadier-General L. S. Blackden, the late Lt. L. E. Ottley and Lt. Col. H. N. Durant, besides successive Governors and Commanding Officers and the now retired Commissioner, Hon. Major E. T. Dixon.

The following appeared in the Jamaica Gazette (Extraordinary) of January 12th, 1915:

"In view of the public services which have been rendered by the Boy Scouts Association to the Military Authorities and offers of further service which it is proposed to take advantage of, the uniform of the Boy Scouts (B - P hat or Sea Scout cap and Fleur-de-Lys badge essential) is recognised by His Excellency the Governor as the uniform of a Public Service non-military body."

The uniform, badges, tokens or emblems are now protected in Jamaica by Law 38 of 1920.

Members of the Jamaica Scout Council include influential people who are likely to convince others of the importance of the Scout Movement to the Empire and the world at large. The main purpose for which the Association exists, as recited in the Charter, is that of "instructing boys of all classes in the principles of discipline, loyalty and good citizenship."

The Committee of the Council meets monthly at Scout Headquarters and information may be sought from the Hon. Secretary.

## CHURCH LADS BRIGADE.

THE Church Lads Brigade was founded in 1891 and has its Headquarters at Aldwych House in London.

It combines military organization with moral and religious instruction. A quarter of a million of the Brigade served in the Great War and gained 21 Victoria Crosses.

H.R.H. the Duke of Connaught is the President and Field Marshal Lord Grenfell the Governor and Commandant.

It was re-introduced into Jamaica in 1914, by the Right Revd. Bishop de Carteret after a lapse of about ten years, and is now known as the Jamaica Regiment Church Lads' Brigade. It is governed here by a Governing Body under the chairmanship of the Bishop of Jamaica. This Body has authority from the English Governing Body to organize and control the work in Jamaica, and to issue Commissions to Officers. The strength at present lies in Kingston, the country companies in the main, having to be in abeyance owing to the lack of officers. The Kingston Company is composed of Platoons from Parish Church, All Saints' Church, St. George's Church, St. Michael's Church and St. Matthew's Church, Allman Town, with approximately 200 members and ten officers. A Platoon is attached to Holy Trinity, Montego Bay and Lucea. An annual Camp is held, the 11th having been held in 1925 at Montpelier in Westmoreland. Sports are held every year. A Miniature Rifle Club has been recognised by the Governor. Physical Training forms part of the work of the C. L. B., and being definitely a Church movement, religious training is carried out by the Platoon Chaplains.

The Rector of the Church to which a platoon is attached is Ex-officio Platoon Chaplain.

A Training Corps has been started for boys between the ages of 10 and 14.

*Governing Body*—The Lord Bishop of Jamaica (Chairman), Rev. Canon Ramson, M.A., Rev. H. G. Lovell, The Battalion Correspondent; The Regimental Correspondent.

*Officers*—The Lord Bishop of Jamaica, *Regimental Chaplain*, The Ven. Archdeacon Simms, M.A., *Asst. Reg. Chaplain*. The Assistant Bishop, *Chaplain to the 1st Battalion*, Major E. S. Harrison as *Commanding Officer*, Capt. L. A. Henriques, (Actg.) *Commanding the Kingston Company*, Capt. V. E. Johns, M.M., *Adjutant, Commanding the Kingston Company*.

*Platoon Commanders*—Capt. H. G. Scott, C.L.B., Capt. N. M. Reid, C.L.B., Capt. A. H. Webb, C.L.B., Lieut. Calame, C.L.B., Lieut. W. M. Seivright, C.L.B., Lieut. A. B. E. Cunningham, C.L.B., Lieut. E. M. E. Cupidon, C.L.B., Lieut. Gaynier, C.L.B., Lieut. Maxwell, C.L.B., *Regimental Correspondent*, Rev. E. S. Harrison, Lucea P.O., *Battalion Correspondent*, Lieut. E. L. Maxwell, C.L.B., Lascelles P.O., Kingston.

The Church Lads Brigade being an Incorporated Body, the title and uniform are its exclusive property, and no Body unrecognised by the C.L.B. Governing Body in Jamaica can use either. The uniform consists of a khaki peaked cap, khaki tunic and shorts, belt, putties and boots, and khaki shirt. The Badge is St. Paul's description of a Christian armour:—Shield (oval) with a helmet on cross swords, with the Brigade Motto; "Fight the Good Fight" round the edge of the shield. The object of the Brigade is "The advancement of Christ's Kingdom among lads of all classes, the promotion of Charity, Reverence, Patriotism, Discipline and Self-respect, and all that tends towards true Christian Manliness."

## LIFE-SAVING SCOUTS.

THIS is a Salvation Army Organization for boys, with Headquarters in Kingston. Lads between the ages of eleven and eighteen are eligible for enrolment as Scouts. The uniform is grey with red facings.

## LIFE-SAVING GUARDS.

This movement is along similar lines to the Life-Saving Scouts, and has been organized on behalf of young girls from the ages of eleven to eighteen. The uniform, like that of the Scouts, is grey with red facings. There is also in connection with this movement an organization for the younger boys and girls between the ages of eight to eleven, and these are known as the Chums and Sunbeams.

*Chief Superintendent*—Major Charles Smith.

## JAMAICA CHAMBER OF COMMERCE AND MERCHANTS' EXCHANGE.

(ROYAL JAMAICA SOCIETY OF AGRICULTURE AND COMMERCE.)

*Office:* Upstairs of the Bank of Nova Scotia, King Street.

THERE was a Society of Merchants of Kingston which acted in a corporate capacity as early as 1766. In 1839 there was a Kingston Chamber of Commerce, of which

Robert Hibbert was Treasurer. A Jamaica Chamber of Commerce existed about 1840. A Jamaica Society of Agriculture was established in May, 1885, its objects being as follows: 1. To take action in all matters connected with the agriculture and trade of the colony. 2. To offer facilities for considering and discussing all schemes or proposals having for their object the increased development of the industrial resources of the colony. 3. To promote interchange of experiences among the members of the Society with reference to the improvement of the breed of stock, the opening up of new markets for the sale of cattle, horses. 4. To co-operate with kindred Associations in the West Indies and elsewhere, in constitutional efforts for the removal of all unjust fiscal or other disabilities, such as foreign export bounties, which deprive the colony of the natural advantages of soil and climate and exert an injurious influence on every department of commercial and industrial activity. 5. To afford opportunities for reading papers, delivering lectures, or holding discussions upon subjects of general interest. 6. To aid the holding and conducting of agricultural shows, fairs and competitions in different parts of the island. 7. To perform in its capacity of a regularly constituted responsible Association the functions of a recognized medium of communication with the Government, conducting the correspondence and representing the interests of its members in all matters falling within the province of the Society. 8. To exercise the province of Arbitrators (when solicited so to do by contending parties) in all matters agricultural or commercial, with a view of an economical and peaceable solution of differences.

The government of the society is vested in a council chosen from the general body of members in the month of October in each year. The election of members is entrusted to the council. Gentlemen residing outside the island are eligible for membership. The roll of to-day numbers over 350 members. The society is now in communication with most of the Chambers of Commerce throughout the world to which its annual reports are regularly forwarded are members of the Associated Chambers of Commerce of the West Indies. Correspondence is regularly maintained with the West India Committee and the West Indian Section of the Incorporated Chamber of Commerce, Liverpool.

In February, 1886, the Society opened for the use of members "The Merchants' Exchange," where the latest shipping intelligence may be obtained. In the year 1895 the Chamber had the honour to receive through the Secretary of State for the Colonies the consent of Her Most Gracious Majesty Queen Victoria to add the prefix "Royal" to its title. To-day the Chamber's official name is "The Royal Jamaica Society of Agriculture and Commerce," but when a re-organization took place in 1922, it was decided for the purposes of convenience that the ordinary designation should be "The Jamaica Chamber of Commerce and Merchants' Exchange."

In 1923 Monthly Luncheons were inaugurated and in 1924 a Monthly Journal was started which is circulated throughout the Island of Jamaica and amongst the principal Chambers of Commerce in England, Canada, United States and other countries abroad.

The arrival and departure of vessels, the nature of their cargoes, the market quotations of imports and exports, are all recorded for the use and convenience of members. Corresponding Agents are also appointed at the outports who forward regularly to the Exchange valuable information.

Books are kept in which are posted the daily arrivals and departures of vessels from Kingston and the outports of the island, also of the imports into the island and exports therefrom, together with a record of passengers arriving at Kingston and departing therefrom, by steamers, etc. These statistics form a valuable addition to the general information which the Merchants' Exchange endeavours to supply to the public in fulfilment of the objects for which it was instituted.

The annual minimum subscription entitling the subscriber to the privileges of the Exchange is two guineas. The Society also publishes statistics to Commercial men:—"The Weekly Confidential Records," the annual subscription to which is one guinea.

## JAMAICA BEE KEEPERS UNION.

THE Jamaica Bee Keepers Union owes its origin to the discovery of foul brood in Jamaica in December, 1918.

In January, 1919, the Kingston and St. Andrew Bee Keepers and the Bee Keepers throughout the Island with the Government's assistance overcame foul brood, and in March, 1919, the Union was formed. The Union was registered on the 23rd January, 1924. Its objects are :—

1. To further the Industry in Jamaica in all respects. 2. To consider measures necessary for the prevention of diseases among bees. 3. To promote a spirit of co-operation and unity among individual Bee Keepers for the common good. 4. To protect the name of Jamaica honey in the foreign market. 5. To issue publications to the members from time to time on all matters concerning the industry.

#### TOURIST TRADE DEVELOPMENT BOARD.

THE Tourist Trade Development Board was established under the Tourist Trade Development Board Law, 1922, and revived in 1925.

The object of its establishment is to promote and increase tourist traffic to Jamaica. The duties and powers of the Board are to make enquiries and to collect such information as the Board think necessary for the purpose of promoting the thorough advertising of Jamaica as a Tourist Resort and for such other purposes as in the judgment of the Board will materially facilitate and increase the tourist traffic to and from Jamaica.

Power is conferred on the Board to adopt all such measures as it may think necessary for thoroughly advertising Jamaica as a Tourist Resort and to appoint agent or agents; to make such contracts as it deems necessary, and, subject to the approval of the Governor in Privy Council, make any contract for the provision of steamship communication.

The Law provides for a contribution not exceeding £3,000 from the Government for the year 1922-3 subject to the condition that a similar amount is contributed by any Hotel or Steamship Company or any Mercantile Company or by any person, but no amount is to be contributed out of the public revenue for the year 1922-23 unless contributions from private sources amount in the aggregate to at least £2,500.

The amount actually received by public subscription was £2,642, the Government contribution being £2,629 18s. 0d. In 1924-25, a further sum of £1,000 was provided for.

The Board has made to the Government a number of recommendations aiming at the development of internal needs, such as the erection of new hotels, the development of the mineral baths and the modernising and beautifying of Kingston.

It has published and distributed, in conjunction with the Jamaica Tourist Association, large quantities of literature. In January, 1924, motion picture films were taken by the Canadian Government Motion Picture Bureau—by arrangement with the Board, and these films were shown in Jamaica; in London at the British Empire Exhibition and in Canada. Other measures have included advertising in newspapers and magazines abroad, press articles, the entertainment of distinguished visitors to Jamaica, broadcasting cables, lantern lecture and personal work through the Board's Official agents—The West India Committee, in London, and the Canadian-West Indian League in Montreal.

*BOARD*—The Hon. A. G. Nash, M.L.C., *Chairman*; The Hon. Altamont E. DaCosta, M.B.E., J. R. Smith, F. H. Robertson, H. A. L. Simpson, C.B.E., A. Innes Pocock, The Hon. W. Coke-Kerr, The Hon. I. M. Abendana, S. Nichols, R. W. Bryant, M.B.E.; *Secretary*, Philip P. Olley, A.C.I.S., (Lond.).

## JAMAICA TOURIST ASSOCIATION.

THE object of the Association is to advance and foster the claims of Jamaica as a health and pleasure resort, both within the Island and abroad. The annual subscription is 12/.

COMMITTEE. H. A. Evelyn, E. H. Bell, S. R. Cargill, Hon. A. G. Nash, Hon. H. V. Myers, M.B.E., J. G. Kieffer, Ansel Hart, Crawford Gordon, J. B. Stiven, H.E. Bolton, Mrs. Fraser, Mrs. Clarke, Miss Farquharson.

## PERMANENT EXHIBITIONS COMMITTEE.

The PERMANENT Exhibition Committee was appointed in 1911, with the object of arranging for the participation of Jamaica at Exhibitions held abroad. It was desired to form a collection of exhibits of a two-fold nature; (1) as an index of the products and industries of the Island, suitably displayed for the information of the public and of visitors to the Island; (2) as a nucleus of a collection to be drawn upon when Jamaica is participating in exhibitions in order to supplement the exhibits sent by merchants and others; but a total lack of funds of recent years has prevented such action being taken.

The Committee has undertaken and carried through representations at various Exhibitions abroad from 1901. From January, 1923, the Committee was actively engaged in organizing a representation at the British Empire Exhibition, 1924, for which purpose the Legislative Council voted £12,000. This representation was successfully carried through.

When it was decided that the Exhibition should be continued for another year. Jamaica's representation was renewed, with a grant of £5,000. This was a decided success, due in a great measure to its having been possible to enlarge the Court to show the exhibits to better advantage.

## COMMITTEE.

## WESTERN ST. MARY CITIZENS' ASSOCIATION.

THE Western St. Mary Citizens' Association was formed on the 26th October, 1916, when a representative gathering of the People of Gayle and the surrounding districts met at the then Bank Office, now the Court House, on the invitation of the Rev. A. A. Barclay to consider the desirability of organizing an association that should deal effectively with communal questions. The association aims at fostering and developing the industrial, intellectual, social, moral and spiritual welfare of the people of Jamaica in general and of Western St. Mary in particular. A meeting is held at Gayle, the headquarters of the Association on the third Wednesday of every month at noon. Local improvements that will tend to the advancement of Western St. Mary have been placed at the forefront of the association's programme; and the re-establishing of a Court House at Gayle; the launching forth of a Land Settlement Scheme by which over 6,000 acres of land have been bought and sold in lots to the people; a Housing Scheme by which advances are made to purchasers of land to enable them to build better homes; organized social work among the girls of the community; Post Office at Gayle, Lucky Hill and Pembroke Hall; the inauguration of a Motor Mail Service between Gayle and Linstead; the rebuilding of the Lucky Hill Schoolroom; the formation of the first Fruit Exchange in Jamaica and the splendid case made out for Railway Extension to Gayle all go to prove the success that has already attended the efforts of the association.

## EAST PORTLAND CITIZENS' ASSOCIATION.

THIS Association was founded at Manchioneal, Portland, on the 15th November, 1917, by the Rev. R. A. Evelyn.

The aim of the Association is to stimulate a healthy public opinion on matters concerning the No. 1 division of Portland, in particular, and the island of Jamaica in general.

As a result of the active interest of the Association a Daily Motor Mail service between Port Antonio and Kingston via Morant Bay has been established; a Public Works Department pay station set up at Manchioneal, a Government Savings Bank opened at the Post Office, Manchioneal, the Grange Hill Haining Road completed, and the salary and a suitable residence secured for a D.M.O. for Manchioneal.

The Association has also secured the establishment of a branch of the Government Savings Bank at the Hector's River P.O., and started the East Portland Co-operative Loan Bank with its office in Manchioneal.

The action of the Association induced the Government to abandon the idea of discontinuing the Motor Mail Service in the district.

During 1925, the Association established an East Portland scholarship, open to children of this division of the parish and tenable at one of the Training Colleges of the island.

OFFICERS—F. M. Jones, J.P., M.P.B., *President*, E. Henry, *First Vice-President*, T. A. Gray, *Second Vice-President*, D. J. Powell, *Recording Secretary*, M. E. Hoffman, B.A., *Corresponding Secretary*, T. A. Howell, *Treasurer*.

# SOCIETY FOR PREVENTION OF PRÆDIAL LARCENY.

THE attempt to create a healthy public opinion against Prædial Larceny was started by the Revd. F. Wilson Coore at Caneheap, Lewisburgh, St. Mary, in June 1918, with the support of the late Sir John Pringle, K.C.M.G., and the assistance of Mr. T. McLean Gray, J.P.

The local peasantry themselves took up the work and laboured to bring out the prædial thieves to daylight and public rebuke.

The movement readily developed, and in 1920 the above Society was inaugurated for the purpose of checking and suppressing the evil of prædial larceny in the Island by sustained efforts; and to this end to apply means for the domestic, industrial and social advancement of the people and thereby create a higher standard of morality among them and to co-operate with other organisations which have for their objects the well-being of all Jamaica.

In furtherance of the aims and objects of the movement a Board of Management with its headquarters in Kingston has been established.

The Society aims at grouping all classes of the reputable residents of each district in the Island in branch societies, operating under rules, as a voluntary force arrayed against the prædial thief, and demonstrating publicly their strong disapproval of the crime and determination to suppress it.

## TURNER'S CO-OPERATIVE LAND PURCHASE SCHEME.

THIS Scheme is one of genuine co-operative purchase of lands, the first in the island, encouraging self-help and good-will among holders of lands.

It began in October, 1918, when Colonel Blagrove sold a run of 381 acres of land, known as "Turner's" within two miles of Brown's Town, St. Ann, to be re-sold to small settlers; and seven men forming the Executive, undertook voluntarily, and without individual gain, to operate the Scheme. All the land was taken up within the first year of purchase, by thirty-two persons holding not less than five acres, and not more than thirty.

A road is constructed through the property to link up the Kingston main road with the Buxton parochial road a distance of about  $1\frac{1}{2}$  miles. Five acres of land is reserved for communal purposes. Public tanks to meet the needs of adjacent dry districts which suffer acutely from water famine have been built by the Parochial Board on lands given for the purpose.

## VICTORIA LEAGUE OF JAMAICA.

THE Victoria League was first founded in 1901 in memory of Her Majesty, the late Queen Victoria, for the purpose of promoting closer union between British Subjects living in different parts of the world. With this object in view, the League organises personal intercourse between individuals in England and the Dominions and Colonies, arranges mutual hospitality, and secures a welcome for British subjects throughout the Empire; acts as a centre for the collection and distribution of information; spreads knowledge and interest with regard to places and conditions in the Empire by means of Lectures, and by

the circulation of books and newspapers; carries out similar work amongst the rising generation by Picture Talks, Essay Competitions and other means, and by promoting correspondence between schools and individual children in Jamaica, in England and in the Dominions.

The Victoria League of Jamaica which was formed in 1910, aims at carrying out Imperial work in a similar manner, by means of sub-committees devoted to Hospitality.

Members must be British subjects. Junior members are all linked in correspondence with children in other parts of the Empire.

#### WEST INDIA COMMITTEE.

*Established circa 1750. Incorporated by Royal Charter, August 4th, 1904.*

THE West India Committee, which was established prior to the year 1750, is the oldest body representative of any Colony or group of Colonies.

It is an Incorporated Association of British subjects whose object is, by united action, to promote the interests of the agricultural and manufacturing industries and trade of the entire British West Indies, British Guiana and British Honduras.

Only British subjects are eligible for membership.

Candidates for admission must be proposed by one and seconded by another member of the West India Committee.

There is no entrance fee. The minimum Annual Subscription is, for an individual, twenty-five shillings or six dollars and for a firm, company or association, three guineas. Subscriptions become due on January 1st, except for new members, whose subscriptions for the current year become payable on election. Subscriptions from new members elected during the last three months of any year are held as on account of the year commencing on the following January 1st. Annual Subscriptions of one guinea or five dollars may be commuted by individuals by payment of the sum of ten guineas for life membership.

The West India Committee Circular, containing a review of the work of the West India Committee, notes on West Indian affairs, statistics as to all the West Indian Industries; births, marriages and deaths; home arrivals and departures by the mail steamers, etc., posted to members fortnightly, free of charge.

Lectures on matters of interest in connection with the West Indies are delivered periodically at the West India Committee Rooms, which are situated at 14 Trinity Square, London, E.C. 3, behind Mark Lane Station (Underground Railway). The rooms form a useful rendezvous for visitors from the West Indies. Writing materials are provided, and in addition to the Official Gazettes, Parliamentary Papers, etc., all the West Indian Papers are filed. There is also a comprehensive library of the West Indian books for the use of members.

## WEST INDIES PARLIAMENTARY COMMITTEE.

THE West Indies Parliamentary Committee consists of a number of Members of Parliament both of the House of Lords and the House of Commons, under the Chairmanship of The Right Hon. The Viscount Burnham, C.H., which was formed in England in 1923, on the suggestion of the Jamaica Imperial Association to watch over the interests of the British West Indies and to give special utterance to British West Indian affairs in Parliament.

Since its formation, this Committee had done valuable work for the West Indies in voicing West Indian interests.

The original Committee consisted of fourteen members which are being added to from time to time.

The Honorary Secretary of the Committee is Mr. Percy A. Hurd, M.P., House of Commons, London, England.

## WEST INDIA RED CROSS SOCIETY.

THIS Society, founded in 1921, has for its objects to help in the reduction of the high rate of infantile mortality, and in the promotion of the welfare of the people of the British West Indies. It is affiliated to the British Red Cross Society and with the Antigua Creche, the Barbados Women's Social Welfare League, the Jamaica Child Saving League, the St. Kitts Baby Saving League and the Trinidad Child Welfare League.

Under Welfare are included Baby Saving Leagues, Tuberculosis Associations, Nursing Associations and Creches, and all similar societies. The Committee, consists chiefly of Doctors, specialists in Sanitary Science and Tropical Medicine, some West Indian ladies interested in the movement, and some trained nurses, living in England.

The Society has the support of the Colonial Office, the British Red Cross Society, the West India Committee, and the Royal Colonial Institute, and is in touch with the Overseas Nursing Association, the London School of Tropical Medicine, and the British Medical Association.

## CRICKET.

CRICKET is played during the season all over the Island; the climate and ground tend to make very fast pitches.

The principal clubs in Kingston are: the Kingston Cricket Club, established 1863, the Garrison C.C. at Up-Park Camp; the Melbourne C.C. (with a social branch); the Lucas C.C.; the Clovelly C.C.; the Kensington C.C., all of which possess grounds. Outside of Kingston, the St. Catharine C.C.; the Middlesex C.C.; the Port Antonio C.C.; the Brown's Town C.C.; the Montego Bay C.C.; St. Ann's Bay C.C.; the Port Maria C.C.; St. Georges C.C.

Cricket is played at all Secondary Schools.

The Jamaica Cricket Association was formed in 1925, to govern Cricket in Jamaica, and all the principal Clubs in the Island are affiliated to it. It is governed by a Board of Control which has assumed the duties formerly carried out by the Jamaica Cricket Council and the Managing Committees of the several Cup Competitions.

Keen rivalry is shown in the competitions, the principal one being the Senior Cup Competition, which was won in 1925 by the Kingston Cricket Club. The cup was presented to them by the Acting Governor, the Hon. Arthur Selbourne Jelf, on Oct., 17. Each competition is governed by special rules and has its own Committee. Football and Lawn tennis is provided for by many of the Clubs and prove very popular.

The M.C.C. Team which toured the West Indies this winter of 1925-6, visited Jamaica in March. The Team was captained by the Honourable F. S. G. Calthorpe and was probably the strongest side which has ever visited the West Indies. Three Matches were played, the first was won by the visitors and the other two were drawn.

## FOOTBALL.

FOOTBALL is very popular in Jamaica. The official season lasts from 1st August to 31st March, but the game is really played from October to February. It has been thought advisable to permit the game to be played for a duration of 60 minutes, not including the interval.

A Football Club was formed in Kingston in 1893, and for some years played against Military teams from Camp, Newcastle and Port Royal.

The Jamaica Football Association Challenge Shield Competition (commonly known as the "League") was inaugurated in 1898, and for many years the Military team proved too strong for the civilians. To stimulate play amongst the local clubs, a civilian league called the F. N. Martinez Cup Competition, after the name of the donor, was commenced in 1906. Kingston C. C. won this trophy outright in 1913-14, when Mr. Martinez again placed another cup at the disposal of the Association.

A Junior League was formulated in 1920, Messrs. Wilson & Co. (Chicago) offering a trophy for competition, the league to be known as the "Wilson Junior League."

A fourth competition to be competed for (at the end of each season) by the winners, and runners-up of the League and Martinez only, was started in the 1922-23 season Mr. Martinez again donating the trophy.

With the commencement of the season for 1924-25, all the competitions were revised, owing to the unwieldiness of the old competitions and the abnormal popularity that the game was creating.

The competitions now number four:

## SEASON 1925-26.

1. Jamaica F. A. Shield Competition (Senior League)—Won by Melbourne C.C. F.C.
2. Martinez Cup Competition (Civilian Competition)—Won by Melbourne C.C.F.C.
3. Martinez Championship (Knock-Out)—Won by St. George C.C.
4. Wilson Cup (Junior League)—Won by St. George C.C., Junior XI.

The Association is governed by a Committee consisting of the Officers and eight other members annually elected. All past presidents are ex-officio members of this committee.

Referees are examined and receive an honorarium to cover travelling expenses while several medical gentlemen have accepted appointments as honorary surgeons.

In 1909, the Governor, Sir Sydney Olivier, presented a Shield for competition confined to teams from Secondary Schools. At present it is held by Munro College. Wolmer's is the holder in the competition for a cup presented by Sir W. H. Manning for competition amongst secondary schools in and near Kingston.

## LAWN TENNIS.

THE Jamaica Lawn Tennis Association is affiliated to the Lawn Tennis Association, England, and is composed of the following Clubs:—The Kingston C.C., The St. Andrew Club, The Garrison Lawn Tennis Club, The Melbourne C.C., The Liguanea Club, The Kensington C.C., The St. George's C.C. *Country Clubs*: The Manchester Club, The Morant Bay L.T.C., The Montego Bay L.T.C., The St. Ann's Bay L.T.C., Brown's Town L.T.C., St. Catherine and Prison C.C. All these clubs, with the exception of the Manchester Club, possess excellent grass courts; the Manchester Club has good concrete courts.

A yearly inter club Men's Doubles competition for a cup, and an annual "All Jamaica" Tournament have been held since the year 1900. These tournaments have been very successful and have proved beneficial in improving the standard of play in the island. The Tournament is also open to certain visitors to the island and advantage thereof has been taken by visitors each year.

No tournament was held in 1915 or 1916 owing to the war, but the Committee decided to hold that for 1917 late in the year, and devote the proceeds to the Red Cross Funds. Only souvenirs were given and the result of the Tournament was a success in every respect; in particular adding a sum of well over £100 to the funds. The Tournament was held in 1918 for the same object, and resulted in a sum of well over £400 being added to the Red Cross Fund. The Tournament now takes place under the old conditions. Only Championship Events were played in 1925, 100 players competing; in 1926, 85 players.

The Inter-Club Jamaica Lawn Tennis Challenge Cup is now held by the St. Andrew Club.

Towards the end of 1921, the Association decided to form a Minor Cup Competition on the same lines as the Major Competition, and a suitable Cup was obtained by the Association for this purpose.

The Inter Club Jamaica Lawn Tennis Minor Challenge Cup has been held as follows:—

1922 Kingston C. Club. 1923 Kingston C. Club. 1924 Kingston C. Club.

1925 Kingston C. Club.

In 1923 the Officers of the Garrison presented the Association with a Challenge Cup for a Mixed Doubles Inter Club Competition—this Competition is scheduled to be played September-December: Holders 1923—Garrison L. T. Club, 1924—Garrison L. T. Club, 1925—St. Andrew Club.

Jamaica Hard Court Championships are played at Manchester Club, Mandeville.

Singles Championships Cup presented by the Dunlop Company, won in 1924 by K. D. Andrews, and 1925 by B. M. Clark.

In February 1924, the Association held an inaugural Annual Open Championship Meeting, on the grounds of Liguanea Club at which leading players from the United States of America competed:—Messrs. Vincent Richards, H. Throckmorton, Carl Fisher, R. L. Baggs, A. S. Craigin and M. Goldman.

The second Open Championships was held on the grounds of Liguanea Club, February-March, 1925, when the following well known players visited the Island to compete:—Messrs Vincent Richards, H. Voshell, T. Harada, Dr. Rosenbaum and E. W. Feibleman.

The Third Open Championships were also held on the grounds of Liguanea Club, February 1926, when the visiting players were H. Voshell (Captain), T. Harada, Beals Wright, A. H. Chapin, Mrs. A. H. Chapin, Miss Molly Thayer.

Jamaica was represented by eleven men players and five lady players.

## GOLF.

GOLF owes its introduction into Jamaica to the Mandeville Course which in 1891 consisted of six holes at Brumalia, the property of Mr. Lewis. The course has since been extended to nine holes.

In 1896 the Kingston and St. Andrew Golf Club was formed. Their links were situated at Solomon's Pen now known as Retreat. In 1902 the club transferred its home Constant Spring Hotel grounds, and in 1908 the club changed its name to that of The Jamaica Golf Club. In 1910 a course was laid out in the grounds of the Liguanea Club. In 1918 the Constant Spring Golf Club was started.

Courses of varying character are to be found throughout the island at Moneague (1923), Montego Bay (1924), Robins Bay (1925), Mackfield and Port Antonio.

In 1925 The Jamaica Golf Association was formed with a view to fostering the progress of golf in the island. Several handsome trophies have been handed over to the Association by the Trustees of the defunct Jamaica Golf Club. The Officers of the Association are:—*President*—Dr. Strathairn; *Secretary*—Capt. Boak.

## POLO.

POLO has been played in Jamaica for many years and, as is the case in most other Colonies, was first introduced by the Officers of His Majesty's Army. The Garrison Polo Club was originally the only Polo Club in the island, and, when this was so, civilians were elected as honorary members and allowed to use the Club. The game, however, rapidly became popular and after a few years the Kingston Polo Club was formed; subsequently the game spread to the country parishes and clubs were formed in St. Ann, St. Mary, St. Catherine and St. James.

When war broke out in 1914, seven Polo Clubs were in existence in Jamaica, but they all, with the exceptions of the St. Ann Club, went out of existence as a great majority of the members proceeded overseas to serve in His Majesty's Forces. No Polo was played in Jamaica between the years 1915 and 1919. The Garrison Polo Club re-started in January, 1920, and the Kingston Club in April of the same year. There are now four Polo Clubs in existence:—The Garrison, Kingston, St. Ann and The Wanderers.

The All Jamaica Polo Association was formed in 1906, it went out of existence in 1915 and was resuscitated in 1921. The Association is the controlling body for polo and polo pony racing in the Colony. A bi-annual Tournament is held under its auspices each June and December when a "Senior" and a "Junior" Cup are competed for by all the clubs affiliated to the Association.

In 1923 Colonel J. A. Hartigan, C.M.G., D.S.O. R.A.M.C., presented a cup to be competed for by teams of young players who are members of recognized polo clubs, and this cup is competed for once a month between October and July.

The Captain and Officers of H.M.S. "Constance" have presented a cup to the Garrison and Kingston Clubs and this Cup will be competed for by teams composed of members of those clubs.

Polo teams from Jamaica have on several occasions visited the other West Indian Islands and Costa Rica.

## JOCKEY CLUB OF JAMAICA.

In 1925, the Jamaica Jockey Club was divided into two parts, and the Jockey Club of Jamaica assumed control of races in the island.

This Club is under affiliation with the Jockey Club of England and is the organised body for controlling and regulating all legalised Racing in Jamaica.

The members of the Club elect the "Stewards of the Jockey Club"—these Stewards being the governing body.

The Membership of the Club is restricted to 60.

The Entrance Fee is £1 1s. The subscription £5 5s. per annum for each member.

*Stewards*—A. L. Keeling (*Chairman*)—H. E. Bolton, T. N. Aguilar, Colonel O. H. E. Marescaux, K. M. Pringle, L. L. Roper, Altamont Dolphy, A. R. McGrath, C. C. Calder, Hon. G. Seymour Seymour, J. R. Brandon.

*Secretary*—J. L. Ashenheim, *Auditor*—H. E. Laidman *Bankers*—Barclays Bank, Bank of Nova Scotia.

## RIFLE SHOOTING.

The West Indian Club, in its efforts to forward and encourage sport in the West Indies, arranged in 1910 with the various authorities there, to shoot annually on Empire Day, or within fourteen days before or after that day, and concurrent with the "Daily Mail" or any other competition. The cup is held by the winning team for one year and if not competed for within the fourteen days, it is deposited at the Colonial Bank in the Colony in which it is held. The competition is open to teams of ten, the best eight scores to count from either the Militia, Local Defence Force, Police, Volunteers, Rifle Club or Rifle Associations of at least one year's standing or a team made from a combination of those forces, of any island of the British West Indies including the Bahamas, the Bermudas, British Guiana and British Honduras, and is a home and home shoot, and members of H. M. regular forces, whether attached to any unit qualified to compete or not, are ineligible to be included in a team.

Distances, number of shots, targets, and conditions are the same as the King's 1st stage, as specified for the previous year's National Rifle Association meeting at Bisley.

General rules are laid down for the pattern of rifle, time limits, dress, score sheets, status of range officer and other details. The following competitions have been held:

1911—winners: Barbados Volunteers, 1912—British Guiana Volunteer Rifle Club, 1913—Barbados Volunteers, 1914—British Guiana, 1922—Barbados Volunteers, 1923—Trinidad Local Forces, 1924—British Guiana Local Forces Rifle Club, 1925—British Guiana Local Forces Rifle Club.

The great war stopped all further progress, until 1922 when the Competition was resumed. *Secretary*—Capt. F. F. C. Messum.

## SWETTENHAM CUP RIFLE COMPETITION.

The Swettenham Cup, of solid silver of Chinese workmanship, was presented by Sir Alexander Swettenham, then Governor of British Guiana, for Annual Competition by Teams of eight Rifemen each in the various West India Colonies, and was first shot for in the year 1903. It has been won as follows:—

Barbados, in 1903, 1904, 1905, 1909, 1910, 1911, 1912.

Jamaica, in 1906, 1907, 1908, 1913, 1914, 1915, 1916, 1917, 1920, 1921, 1922, 1925.

Trinidad, in 1918, 1919.

British Guiana, 1923, 1924.

The highest team score recorded is 778 (the highest possible being 840) which was made by Jamaica in 1925. The highest individual score is that of Sgt. L. Hyman, W.I.R. of the Jamaica Team, who in 1925 made 101 points out of a possible 105.

The Cup when held by Jamaica is kept in the History Gallery of the Institute of Jamaica.

## JAMAICA SCHOOLS MINIATURE RIFLE ASSOCIATION.

THE Jamaica Schools Miniature Rifle Association was formed in 1906 in order to promote rifle shooting in the secondary schools of the island. Mr. A. E. Perkins took a great interest in the movement and presented the Perkins Shield for annual competition; this trophy has been won three times by Munro College, four times by Wolmers School, and nine times by Jamaica College.

The late Dr. G. C. Henderson was for many years president of the association and in order to perpetuate the memory of his connection therewith, the gold medal awarded annually (on certain conditions) to the boy who makes the best score in the competition for the Perkins Shield is now called the Henderson Medal.

In 1925, the Perkins Shield was won by Munro College and the Henderson Medal was awarded to G. M. Farquharson of Munro College.

OFFICERS OF THE ASSOCIATION—*President*, Hon. F. E. Reed, B.A., O.B.E., *Vice-President*, Rev. Canon J. L. Ramson, M.A., *Secretary and Treasurer*, H. C. W. Chambers.

## MOTOR CARS.

THE use of motor cars in Jamaica is regulated by Law 26 of 1905, amended by Law 9 of 1911 which gives power to the Governor in Privy Council to make regulations for the control of Motor Cars, the same to have the force of law and Law 21 of 1922.

Regulations of the Governor in Privy Council under these Laws were published in Gazette, February 1, 1912, and January 8, 1914, and a pamphlet has been issued containing these regulations and extracts from the laws from the Government Printing Office.

A "motor car" must not exceed 3 tons weight unladen.

A "Motor cycle" is defined as a motor carriage having not more than three wheels, weighing not more than 3 cwt.

Reckless driving is an offence. Every car must have a registration letter and a number for identification.

Refusal to stop and give name and address or giving a false name and address is punishable.

All motor cars must be registered annually with the Collector of Taxes and have a registered number on 2 plates—one in front and one at the back of the car—The plates being supplied by the Collector of Taxes.

The fee for registering motor cars is 10s., for motor cycles, 5s

Drivers of motor cars must be examined and licensed by the Collector of Taxes, fee 10s.—duration of license from 1st April to 31st March.

Forging or altering a license, or allowing it to be used by others than the licensee is an offence.

Proper lamps must be used and horns or other means of giving audible warning must be carried.

Motor cars are taxed £5 10s. per annum, Cars for Hire £6 10s., and Motor trucks according to weight and class of tyre.

Offences may be tried summarily before a Resident Magistrate or two Justices of the Peace.

The following amended regulation was published in November, 1913:—

Visitors to the island may bring in their auto cars, gasoline launches, carriages, horses, bicycles, guns, fishing tackle and such like articles for *personal* use without payment of import duty. Thirty per cent. of the amount of duty payable at time of importation must, however, be deposited, by way of guarantee, with the Collector who will return it on the article being taken away from the island within two months, and on receipt of a declaration made by such visitor to the effect that such auto cars, &c., have during that time been used solely for their personal use and not for gain or reward. Auto cars, carriages, horses and bicycles coming under this privilege may be used on the public roads free of taxes for six weeks. Should an auto car or other article admitted free under this rule be not exported within two months of importation the Collector shall withhold a sum equal to 5% of the duty for each month or part of a month during which such article is kept in the island beyond the specified period of two months up to the limit of the thirty per cent. deposited. If sold or not exported within eight months of date of importation the car or other article shall be deemed to have been finally imported and must be entered and duty paid according to law on

value at time of importation, allowance being made for any interim payments already made under this rule. Articles not so entered and duty paid on being sold or kept in the island beyond eight months are liable to be seized as "uncustomed" goods under the provisions of section 156 of Law 18 of 1877, or duty may be recorded under section 32 of Law 24 of 1885.

The term "Visitor" for the purpose of this rule shall mean a person not domiciled in the island but one who is a temporary sojourner in search of health, pleasure, change of climate or some investment of capital or business.

### JAMAICA AUTOMOBILE ASSOCIATION.

THE Association was founded in December, 1924, and is affiliated with the Royal Automobile Club. It takes the place of the Jamaica Motor Club which has ceased to exist.

The principal objects of the Association are: (i) to amalgamate Motorists with a common interest for the mutual benefit of themselves and the general public; (ii) to afford protection to Motorists, by advising as a body on Bills introduced in the Legislative Council and Local By-Laws; (iii) to negotiate and combine with the Local Authorities for the improvement of roads, the removal of dangerous corners; (iv) to combine with the Local Authorities in the control of inconsiderate and dangerous driving; (v) to investigate and deal with cases of misconduct of Chauffeurs and others with a view to the further protection of owners of Motor Vehicles and the public; (vi) to supply Motorists with full information on general subjects connected with Motoring; (vii) to foster a feeling of camaraderie and esprit de corps amongst Motorists for the welfare and progress of automobilism, and for the good of the general community.

There are 335 Members. Cables "Jamotor (Kingston) Jamaica," Telegrams "Jamotor Kingston."

#### PATRON.

His Excellency Sir Reginald Edward Stubbs, K.C.M.G.

*President*—A. W. Farquharson.

*Vice-President*—Dr. Chas. Levy.

*Executive Committee*—N. DeMontagnac, Major E. T. Dixon, H. H. Dunn, John Farquharson, F. E. Lyons, W. B. Powell, T. P. Dixon, John Crook, A. E. Delgado, Wm. Wilson, Frank Rae, H. E. Bolton, Ansell Hart, Thomas Kemp, L. J. Stone.

*Secretary and Treasurer*—W. Chevallier Syer.

### SOLICITORS COMMITTEE.

PRIOR to the year 1896, persons wishing to enter the legal profession (Solicitor branch) in this island had to pass a preliminary examination in certain prescribed subjects conducted by some local examiner appointed by the Supreme Court, or if they had passed the University of Cambridge local examination, or such like examinations, they were exempted from preliminary examination and were allowed to enter into articles. At the expiry of due service under articles they were examined in Law by papers set by one of the Judges of the Supreme Court.

On the passing of Law 36 of 1896, the conduct of all the examinations was placed in the hands of a committee constituted under that Law, two of whom, namely, the Attorney General and the Crown Solicitor, are *ex-officio* members, and the other members (5 in number) practising solicitors appointed by the Judges of the Supreme Court. In addition to the preliminary and final examinations article clerks are required to pass an intermediate examination (Book-keeping being one of the subjects) as in England. The preliminary examination is conducted by the committee locally, but the intermediate and final papers are set by the Law Society's examiners in England, and transmitted to the committee in this island through the Government. The syllabus of subjects for Intermediate and Final examination each year are published in the Jamaica Gazette.

In addition to the conduct of the above examinations, the committee has entrusted to it the investigation of complaints of parties alleging professional misconduct against any solicitor. Should the complainant establish a *prima facie* case of misconduct against the Solicitor a report is then made to the judges of the Supreme Court and the matter brought before that Court by motion and dealt with.

Under the Imperial Act (Colonial Solicitors Act, 1900) in certain cases mentioned in

the Act and the Order of Council made in pursuance thereto on May 16, 1904, Jamaica solicitors who have been in practice before the Supreme Court of the island for not less than 3 years, and being male British subjects, on complying with certain prescribed requirements, may be admitted solicitors in any part of the United Kingdom, viz.: England, Scotland or Ireland, or in any two of those parts only, on application to the Master of the Rolls in England, to the Lord Chancellor of Ireland in Ireland and for admission as a law agent in Scotland to the court of sessions in Scotland. (A perusal of a copy of the Order in Council may be obtained on application to the Secretary to the Solicitors Committee.)

English solicitors are admitted to practice as solicitors in Jamaica on payment of a stamp duty and on satisfying the Supreme Court or a Judge of that Court as to identity, character, and that such applicant is a duly admitted solicitor in England.

Persons desirous of entering into articles are advised to refer to Laws 9 of 1869 and 36 of 1896, and the regulations made under the latter Law. The same can be had on application to the Secretary to the Solicitors Committee.

#### SOLICITORS COMMITTEE.

Hon. F. C. Wells Durrant, K.C., Attorney-General; G. Harvey Clarke, Crown Solicitor; Hon. William Morrison, S. R. Cargill. R. W. Bryant, Lewis Ashenheim, V. E. Manton; H. H. Dunn—*Secretary and Solicitor to the Committee.*

Address: Kingston P.O.

#### JAMAICA LAW SOCIETY.

In December 1919; the Jamaica Law Society was formed with the following objects:

(a) To support and protect the character, status and interest of the Legal Profession generally and particularly of Solicitors practising in the Island of Jamaica. (b) To promote honourable practice, to repress malpractice, to settle disputed points of practice and to decide all questions of professional usage or courtesy between or amongst Solicitors. (c) To consider all questions affecting the interests of the profession and to initiate and watch over general measures affecting the profession and if necessary to petition the Government and Legislature of Jamaica, the Judges and other persons and bodies and to promote deputations in relation thereto and to procure any changes of Law or practice, and the promotion of improvement in the principles and administration of the Law. (d) To encourage the study of Law by articulated clerks of solicitors. (e) To promote information on legal subjects by such means as may appear expedient. (f) To create and maintain a benevolent fund for the benefit of poor and needy members of the profession and (or) their families. (g) To acquire, hold and deal with such property, real or personal and in such manner as may appear to be necessary or desirable for the objects of the society. There are sixty-four members. The annual subscription is £2 2s.

*Council*—A. J. Corinaldi, *Chairman*; W. Baggett Gray, Hon. W. Morrison, S. R. Cargill, J. M. MacGregor, W. Bourke, C. B. Wesleygammon, Aston Simpson, N. B. Livingston, L. V. D. Samuel, L. Ashenheim, H. A. L. Simpson, O.B.E., H. H. Dunn. *Secretary*, H. H. Dunn.

#### BRITISH MEDICAL ASSOCIATION.

The Jamaica Branch of the British Medical Association, the first colonial offshoot of the parent association, itself incorporated in 1874, and now numbering over 30,000 members, was founded at Kingston in December, 1877.

The objects of the Branch, like those of the home association as declared in the articles of association, are the "promotion of medical and the allied sciences and the maintenance of the honour and interest of the Medical Profession." The laws of the branch are based upon those of the Reading Branch, Buckinghamshire.

The Executive consists of a President, a President elect, an Honorary Secretary (and Treasurer) and seven members of Council. The office bearers are elected annually.

All legally qualified and registered medical practitioners are eligible for admission the election being determined by a majority at a general meeting. Applicants for membership must be proposed by three members, to two at least of whom they are personally known, and are required to fill in a form of application which is to be obtained from the secretary. The elections take place at the general meeting following that at which the candidates are nominated. Members of the Association in England are admitted members of the branch on signifying to the Honorary Secretary their desire to have their names enrolled as such. The members of the branch number 64.

The general meetings are held on the last Wednesday in January, March, May, July, September and November when papers are read and discussed and notes of interesting cases are brought to the notice of the members. At the meeting in December the retiring President delivers a valedictory address and the President-elect assumes office.

The names of the Presidents since the foundation of the Branch are recorded in the 1925 issue of the Handbook.

COUNCIL—Hon. Dr. L. Gifford, *President*, Dr. Grabham, *President Elect*, Dr. G. F. DaCosta, *Honorary Secretary and Treasurer*.

BRANCH COUNCIL—Dr. C. H. B. Armstrong, Dr. L. M. Clark, Dr. C. A. H. Thomson, Dr. Myers, Dr. Lescene, Dr. Edwards, Dr. Curphey.

### MEDICAL COUNCIL OF JAMAICA.

THIS Council was established in 1872. Its powers and duties are detailed in the consolidating law No. 49 of 1908 and amending law, No. 33 of 1909.

It consists of five registered medical practitioners appointed for a term of three years by the Governor. It elects its president and secretary.

The Council has power to:

- (a) Make rules for the regulation of its own business;
- (b) Consider the Diplomas, etc. of any person claiming to be registered as a medical practitioner in this Island;
- (c) Require any person whom they consider has improperly obtained registration to re-register;
- (d) Direct the Registrar to remove from the Register the name of any practitioner who has been convicted of any felony or misdemeanour or who after due enquiry has been adjudged guilty of infamous conduct in any professional respect;
- (e) Direct the Registrar to reinstate the name of any practitioner who has been struck off the Register;
- (f) Decide all questions respecting the right of any person to be registered, or the mode of registration, or the liability of any person to be struck off the Register and all questions respecting the alteration of the Register. An appeal, if made within three months to the Governor, is allowed from the decision of the Council.

The following persons are entitled to be registered:

1. Any person duly registered in the United Kingdom.
2. Any person holding Diplomas, etc. which would entitle him to be registered in the United Kingdom.
3. Any person who passes the local examination conducted by a Board appointed by the Governor.

Sections one and two of the above groups must produce to the Registrar their Diploma, etc., and a statutory declaration on Form B. made before a Justice of the Peace who must mark the Diploma, etc., at the time of the making of the Declaration. Form B. must be impressed with a twenty shilling stamp by way of registration fee.

Erasure from the Register of the United Kingdom renders the person liable to be removed from the Local Register, and no person whose name has been erased from the Register of the United Kingdom is entitled to be registered in Jamaica.

Persons referred to in section three above must apply to the Governor for the appointment of a Board of Examiners. They must produce certain Diplomas, etc., and must pay the examination fee of twelve guineas to the Secretary of the Council. A further fee of twenty shillings is paid to the Registrar on registration.

The examination consists of written papers in Surgery, Medicine and Midwifery, and these are followed by oral examination.

MEDICAL COUNCIL—Hon. L. Gifford, M.D., M.S., (Edin.), *President*, G. V. Lockett, F.R.C.S., L. M. Moody, M.D., (Lond.), C. A. H. Thomson, M.B., (Cantab.), (vacant). G. C. Strathairn, M.B., (Edin.), D.P.H., *Secretary*.

### SOCIETY OF MEDICAL OFFICERS OF HEALTH IN JAMAICA.

THIS Society was formed in January, 1914, by Dr. Angus McDonald, then M.O.H. for Kingston, when officers were appointed and rules were drawn up.

Meetings are held from time to time in the different parishes of the island, when papers are read and important matters are discussed connected with the Public Health of the Colony.

All Medical Officers of Health, District Medical Officers, and Medical Practitioners are eligible to be members. Members of Local Boards of Health, Sanitary Officers and other persons interested in Sanitary matters can be Associate Members.

The Society in 1918 published a volume entitled "The Jamaica Public Health Bulletin," edited by Doctors E. R. C. Earle and L. Oliver Crosswell.

*Patron*—His Excellency Sir Samuel Wilson, K.C.M.G., K.B.E.

## YOUNG MEN'S CHRISTIAN ASSOCIATION IN JAMAICA.

*(Affiliated to the English National Council of Y.M.C.A.)*

In 1857, a Young Men's Christian Association was founded in Kingston and became a branch of the parent society in London, but it was short lived. For the present Association an appeal was issued to secure funds to establish the work in Jamaica and the sum of £3,570 was raised. The Government made a grant of £1,000.

Spacious and central premises were purchased in Kingston, adopted and furnished for use as a Y.M.C.A. The building, in Hanover Street, was opened 15th Sept., 1920, free of debt.

The Y.M.C.A. of Kingston contains first class hostel accommodation, and a very active and varied programme, catering for body, mind and spirit, is carried on. Membership is open to men of respectable character, irrespective of race or creed upon introduction by two active members.

*Subscription*—Hon. Sustaining, £2 2s. upwards; Active (Church members only) £1 ls. per annum; Associate (open) £1 ls. per annum; or 6/ per quarter; Country (outside 5 miles away) 10/6 per annum.

The programme of the Y.M.C.A. of Kingston includes:—

*Physical Work*: Gymnasium: Tuesday and Thursdays; Basket Ball: Tuesdays and Thursdays; Tennis: Mondays, Wednesdays and Saturdays; Swimming Club: Bournemouth on Fridays; Football Club (3 teams), Clovelly Ground; Rover Sea Scouts: Tuesdays and Fridays; Rambling Club, Holiday excursions, etc.

*Literary & Social*: Literary Society, monthly meeting Friday; Shakespeare Reading Circle, monthly meeting Wednesday; Debating Society, monthly meeting Friday; Camera Club meeting Monday 1st and 3rd Thursdays. Rotary Club Thursdays, Lectures, concerts, etc., periodically; circulating library, 900 volumes; Reading and Writing Room open daily; Canteen refreshments, etc., open daily.

*Indoor Games*: Billiards, 1/ per hour; Chess Club, practice daily; Table Tennis, two tables; Draughts, etc.

*Religious Work*: Monthly Men's Meeting, 4th Sunday, 5 p.m.; Study Circle, alternate Wednesdays; Family Prayer, daily; Lantern Services.

*Hostel*: Board and lodging, Terms on application.

The Jamaica Advisory Council of Y.M.C.A. was formed Dec. 17th, 1919.

*President*—Rt. Rev. Bishop de Carteret; *Hon. Treasurer*—Arch. Munro.

*Kingston Red Triangle Band.*

In September, 1921, a meeting of ex-bandsmen and musicians was held at the Y.M.C.A., and 20 men were enrolled to form a Brass and Reed Band. Mr. J. Greavesandy was appointed Bandmaster and practices have been held continuously three times a week since its inception.

Municipal and Government financial assistance has been secured and there are now 20 men in uniform and a number of reserve players. A free band concert is given each month in the Parade Gardens and numerous engagements have been creditably fulfilled in all parts of Jamaica.

A fine set of instruments was donated by the Trustees of the Jamaica War Contingent Band and Entertainment Fund. Terms for engagements may be had on application to the General Secretary Y.M.C.A., Kingston.

BOARD OF DIRECTORS—Hon. A. S. Jelf, *President*, Hon. Hector Josephs, K.C.; *Vice-President*, W. Logan; *Hon. Secretary*, Major E. T. Dixon; *Treasurer*, Hon. C. G. H. Davis, E. B. Hopkins, R. H. Fletcher, A. N. Vaz, K. N. Phillips, A. V. Kingdon, H. C. Savage, Revs. A. F. Blandford, B.A., G. T. Armstrong, Percy Heyworth.  
Edgar B. Hallett, *General Secretary*.

### JAMAICA YOUNG WOMEN'S CHRISTIAN ASSOCIATION.

In January 1921, Miss Grace H. Saunders on the invitation of the Upward and Onward Society came from England, sent by the World's Young Women Christian Association Committee. After preliminary enquiries, she at a meeting at King's House, called by Lady Probyn, on February 8th, explained the object of the Association, which Association throughout the world numbers over eight hundred thousand members, and it was resolved to establish a Y.W.C.A. in Jamaica. An Advisory Council was appointed and until June when she was obliged to return to England had the guidance and assistance of Miss Saunders. In view of the then general business depression no special appeal was made for funds, but some hundreds of pounds were collected.

Lady Probyn interested herself in raising the funds needed for the purchase of premises and invited the assistance of ladies and associations, too numerous to mention, throughout the island, and Montague House was purchased in February for the sum of £1,400 out of the £2,700 collected by the efforts of Lady Probyn. In February, 1922, Miss E. Picton Tuberville, O.B.E., representing the World's Y.W.C.A. came to Jamaica, and her appeal week resulted in the collection of £1,164.

Montague House, 1E North St., having been adapted under the guidance of Lady Probyn, for use as a hostel, was furnished by the Council and opened in February, 1923.

There is hostel accommodation for 18 residents and transients. Visitors from other countries and from the country districts of Jamaica can secure comfortable accommodation at a moderate rate. The ground floor premises serve the purpose of a club for business and professional girls in Kingston which has at present a membership of over 400. Additional buildings serve as club centre for some 300 Industrial girls. Branches have recently been opened in Black River, Mandeville and Port Maria.

ADVISORY COUNCIL — Right Rev. the Bishop of Jamaica, D.D., *Chairman*; Vacant *Vice-Chairman*; Frank Isaacs, *Treasurer*; Mrs. Jon. Reinke, *Hon. Secretary*, Major, Dixon, M.A., M.L.C., Mrs. Hugh Clarke, Mrs. R. S. Gamble, Mrs. Ansell Hart, Rev. G. O. W. Hicks, B.A., Mrs. Lionel Isaacs, Mrs. Jeffrey Smith, Sister Madeline, Mrs. Nightingale, Rev. E. Price, B.A., B.D., Hon. F. E. Reed, B.A., O.B.E., Rev. John Currey, Rev. J. M. Hunt, Mrs. Courtland MacGregor. Miss Cecil Heath, *General Secretary*.

### JAMAICA SCOTTISH SOCIETY.

In the days when Sugar Cane was King in Jamaica, when the price of sugar was high and there were many sugar estates in Jamaica, mostly small, but mostly prosperous, many hundreds of young Scotsmen were brought out as Field Overseers and Engineers in the works. There was then a strong Caledonia Society in Jamaica, whose chief functions were to hold Highland Games and a Dinner once a year. With the advent of cricket and football, and their increasing popularity, the Highland Games were discontinued. For some years the Caledonia Society was moribund, but again was enthusiastically re-established as "The Jamaica Scottish Society" on new lines. It holds an Annual Dinner on St. Andrew's Day (30th November) and is also a Benevolent Society, having a fund to assist stranded or other unfortunate Scotsmen.

During the war period, substantial amounts were sent to "The Scottish Red Cross Society" the fund to aid Scottish Prisoners of War in Germany, etc.

*Secretary*, J. G. Young, Public Works Department, Kingston; *Treasurer*, J. B. Stiven, 17 Orange Street, Kingston.

## JAMAICA PHILATELIC SOCIETY.

THE Jamaica Philatelic Society was organized on April 14th, 1920, from the dormant elements of the "Jamaica Philatelic Association," and the "Kingston Philatological Society." The objects of the Society are, the study and practice of Philately, the prevention and detection of forgeries, the publication of articles on Philatelic subjects, the bringing of all collectors and others interested in Philately in touch with each other.

*Patron and Honorary President, Lady Wilson.*

**EXECUTIVE OFFICERS**—Mrs. F. M. Ross. *President*; Astley Clerk, *Vice-President*; A. C. Tomayo, *Treasurer*; G. C. Gunter, *Secretary*, Kingston P. O., *Hon. Exchange Supt.*, P. J. Fernandez, Kingston P. O.

## DEPARTMENT OF OVERSEAS TRADE.

THE Department of Overseas Trade (Development and Intelligence) is the clearing-house for information to British traders. Trade Commissioners are at present established in India, Canada, Australia, New Zealand, South Africa, East Africa, Straits Settlements and the British West Indies. They are a part of the overseas organization of the Department of Overseas Trade which, under the joint control of the Foreign Office and the Board of Trade, collects and distributes commercial intelligence for the benefit of the manufacturers and exporters of the United Kingdom. It is the duty of His Majesty's Trade Commissioners to report to the Department on the following, amongst other matters:—(a) Contracts open to tender; (b) Demand for particular goods; (c) Lists of Importers of various goods; (d) Suitable agents for British manufacturers and merchants; (e) Best methods of marketing and distribution, Credit conditions, Terms of payment, Nature of competition, and the best way of combating it; (f) Customs tariffs and regulations, etc.; (g) Statistics of imports and exports; (h) Shipping and Transport; (i) Sources of supply of raw materials and of goods not manufactured in the United Kingdom.

West Indian firms are invited to use the services of H. M. Trade Commissioner in obtaining from the United Kingdom quotations for their special requirements and in being placed in touch with British exporters generally. The Trade Commissioner is also glad to assist West Indian firms by obtaining information as to the markets for West Indian commodities in other parts of the world.

The British Industries Fair, which is held annually in London and Birmingham during the last week in February and the first week in March, is organized by the Department of Overseas Trade. It is a valuable means of bringing together manufacturers and buyers, and West Indian merchants are invited to time their visits to the United Kingdom so that they may have the opportunity of visiting the Fair.

Through the wide ramifications of its overseas intelligence service the Department receives a constant flow of valuable information from all important overseas markets covering all commercial subjects of interest to British traders.

The aim of the department is to co-operate as closely as possible with the commercial community in its efforts to rebuild, and where feasible, to increase its pre-war export trade.

Representatives of British firms when travelling abroad can obtain much valuable information from a man who is in close daily contact with the commercial life of the country concerned. The Imperial Trade Commissioner for the British West Indies was first appointed in 1918.

*Hony. Imperial Trade Correspondent in Jamaica*—The Canadian Trade Commissioner, Church and Barry Streets, Kingston.

*H. M. Trade Commissioner in the British West Indies*—J. L. Wilson Goode, 12 Broadway (P.O. Box 225) Port-of-Spain, Trinidad.

*Head Office of the Department*—35 Old Queen St., London, S.W. 1.

## CANADIAN COMMERCIAL INTELLIGENCE SERVICE.

THE Canadian Government maintains a Commercial Intelligence Service throughout the world, which assists in the marketing of Canadian Products. There are Trade Commissioners in all the principal countries of the world. The Canadian Trade Commissioners in the British West Indies (of whom there are two stationed in Jamaica and

Trinidad respectively), are under particular instructions to extend the same measure of aid to West Indian exporters as to Canadian exporters. In Jamaica, the Trade Commissioner also acts as Honorary Imperial Trade Correspondent, co-operating with the Department of Overseas Trade in London and H. M. Trade Commissioner for the British West Indies. From Kingston the Commissioner covers Bermuda, Bahamas, Cuba, Haiti, the Dominican Republic, all Central American States (including British Honduras), and Colombia.

*Canadian Trade Commissioner*—P. W. Cook, Church and Barry Streets, Kingston, Jamaica,

*Honorary Canadian Trade Commissioner for British West Indies*—T. Gaddes Grant, Port-of-Spain, Trinidad.

### MUSICAL SOCIETY OF JAMAICA.

THIS Society, the object of which is to provide all music lovers with an opportunity of hearing and enjoying the best music, was founded in 1926. The Society meets as a rule once a month and makes every effort to provide wide and interesting programmes of Music with lectures on the various Musicians and the different periods of Music, and otherwise assists lovers of Music. Anyone who is interested in Music may become a member irrespective of ability to perform. The subscription is Twelve Shillings per annum and Six Shillings for country members (i.e. those residing more than ten miles from Kingston) payable half-yearly in advance. Students who are still attending school may pay an annual subscription of Six Shillings only and become associate members.

*Patron*—Hon. A. S. Jelf, C.M.G. *President*, Frank Cundall; *Chairman*, Mrs. L. M. Moody; *Vice-Chairman*, Miss Blanche Thompson; *Secretary*, Easton Soutar, 95 East St.

### FRANKFIELD CITIZENS' ASSOCIATION.

THE Frankfield Citizens' Association was originally founded in 1918, and was reconstituted in 1920.

The object of the Association is:—

1. To deal with all Social and Economic questions affecting the Parish in particular and the Island in general.

*OFFICE BEARERS*:—U. T. McKay, J.P., *President*; A. M. Gayle, *1st Vice-President*; N. P. McKay, *2nd Vice-President*; E. A. Lewin, *Treasurer*; E. N. McGraham, *Secretary*.

### WOMEN TEACHERS FELLOWSHIP.

THIS Fellowship was formed in 1925 at a meeting held at the Y.W.C.A., Kingston.

Its aim is to form a Fellowship of Women Teachers of every Grade of School for the study of Principles and Methods of Education.

The membership consists of Teachers Past and Present and those interested in Education.

*Miss Walter, President*; *Miss A. Campbell, B.A., Vice-President*; *Committee*: *Miss Dunkley, Mrs. Isaacs, Miss Land, Mrs. Myers, Miss Morris, Miss Stockhausen, Miss Speid, Miss C. Heath, (Hon. Treas.) Mrs. E. F. Passingham, (Hon. Sec.)*.

## PART XVII.

### MEANS OF COMMUNICATION.

#### TRAVELLING IN JAMAICA.

By way of introduction to the information about means of travelling in Jamaica it will be useful to give a brief outline of the main roads of the island, these being the means usually adopted for through travel, although some of the better kept parochial roads are used to a considerable extent.

The island has been divided physically by nature, into the northside and the southside, the existence of the central mountainous country being the cause of the division. In the eastern end of the island the lofty range of the Blue Mountains extending from north of Kingston to the sea coast near Manchioneal accentuates the division. In the central and western portion it is by no means so marked, in fact in the very centre of the island there is a stretch of country running east and west of about 30 miles in length occupied by the valleys of three rivers, each of these sinking into the limestone soil and with no visible connection with the sea.

On account of the conformation of the island as above described the system of main roads, until comparatively recent years, consisted of a belt line running round the island, with few exceptions, along the sea coast, with loop lines on the plains of St. Andrew, St. Catherine and St. Elizabeth, and with three cross connections from the south to the north; one by way of Stony Hill from Kingston to Annotto Bay; a second, from Spanish Town to St. Ann's Bay, by way of Mount Diablo, and the third from Savanna-la-Mar to Montego Bay via Mackfield; these three roads crossing the central range of hills at elevations of about 1,350 feet, 1,800 feet, and 1,000 feet, respectively. Commencing at Kingston and going to the east-end, then turning westerly along the northside until Green Island is reached and then returning by the southside to Kingston, the old system of main roads passed through all the principal ports and towns in the island. Founded on it as a basis, there have been, either constructed as new roads, or more generally taken over from parochial roads and reconstructed, a very large number of other main roads, creating with the original roads a network over the whole of the inhabited portion of the island, and affording communication between the old northside and southside lines by some fifteen different routes, the whole length of main roads aggregating at the present time 1,944 miles, of which nearly the whole are driving roads, of a width nearly everywhere sufficient for a double line of traffic, and generally maintained in very good condition, although necessarily liable in times of excessively heavy weather to severe damage from flooded rivers and landslips, and from the heavy scouring effect of the rains on the surface of the roads, especially those on steep gradients. On some of the roads, especially on some of the parochial roads recently taken over, heavy gradients are to be encountered, but it has been the aim in recent years to improve the roads in this respect. Many improvements in this direction have taken place, and in new roads steep gradients have been very carefully avoided.

Some of the main roads of recent construction attain much greater elevations than those of the original system. In St. Elizabeth the road over the Santa Cruz mountains reaches a height of 2,200 feet at Malvern; in Manchester the road from Shooter's Hill through Christiana to Ulster Spring touches the 3,000 feet level at Coleville; the driving road up the Blue Mountain Valley in St. Thomas attains 2,750 feet at Arntully Gap; while the road from near Gordon Town via Newcastle to Buff Bay crosses the main ridge of the Blue Mountain at Hardware Gap at a height somewhat over 4,000 feet; and the road to Mavis Bank rises to a height of 2,800 ft. at the gap at Guava Ridge. All of these roads, as also many others in various parts of the island, afford exquisite views to the traveller, but the Newcastle road gives a succession of views of hills, plains and sea, which are surpassingly striking and beautiful.

Working expenses for 1900-10 are inclusive of £8,710 rebuilding No. 2 Pier.

Since the final Order of the Supreme Court vesting the Jamaica Railway in the Government of the Island, the railway has been administered as a Government Department.

By a resolution passed on March 30th, 1911, the Legislative Council approved of a branch railway being built at an estimated cost of £92,250. This branch starts from May Pen station and runs up the valley of the Rio Minho to Danks, near Chapelton. (the station is called Chapelton) a distance of 13 miles. It was opened on Sept. 4th, 1913.

In April 1921, a further length of line of 2½ miles, from Linstead to New Works, was opened to traffic, and on March 18th, 1925 the extension from Chapelton to Frankfield, a distance of 10 miles.

The following tables give the times of departure from the several stations of the Trains on the Railway Line and the rates of fares between the Stations at the date of the printing of the Handbook but they are liable to alteration.

## SEASON TICKETS—TERMS AND CONDITIONS OF ISSUE.

(a.) Season tickets entitle the holders, for the period named therein, to travel, subject to the regulations, between the stations, and in the class of carriage for which the tickets are issued, by any of the ordinary passenger trains (exclusive of Sunday excursion and other special trains) stopping at such stations, and are issued for periods of one, three and six months.

(b.) Applications for season tickets must be made to the Chief Accountant, Kingston, at least three clear days before they are required.

(c.) Season tickets are issued subject to the ordinary contingencies, and the holders are not entitled to any rebate of price or allowance of any kind in the event of their being from illness or any other cause, unable to use such tickets during any period of time for which they are issued.

(d.) The right is reserved to alter and vary the trains without liability to the holder, of season tickets. The railway will not be held accountable for want of accommodation in the trains, or for any stoppage or delay arising from any cause.

(e.) Holders of season tickets must produce their tickets when called upon to do so by officers or servants of the railway.

In case of default, the holder must pay the ordinary single fare for the journey he has made or is making.

Such amounts may be refunded on application, but the right is reserved to decline such in cases of wilful, habitual or unreasonable refusal on the part of the holder to produce his ticket when called upon to do so.

(f.) Season tickets are not transferable, and if used by any other person than the one in whose favour they are issued, they will be forfeited and the ordinary fare must be paid.

(g.) In the event of a season ticket being lost, notice must at once be given to the Chief Accountant, Kingston, who will issue a new one upon payment of 2/6.

(h.) Season tickets will be issued at quarter rates to school children under 14, and at half rates to persons under 18 years of age, who are in employment, or are articulated apprentices, or who are travelling for the sole purpose of receiving instruction in any day school, upon production of a certificate duly signed by the employer, master or mistress, as the case may be, also to school teachers at half rates, subject to their *bona fides* being satisfactorily proved.

(i.) Season tickets at half rates will be issued to vendors of books and magazines, subject to the approval of the Director (and subject to such season tickets being cancelled at any time for any breach of the regulations or rules of the railway), for the purpose of selling newspapers, books and magazines on the trains. The maximum weight of books periodicals and newspapers which such vendors are allowed to carry free is 28 lbs.

(j.) Season ticket holders who wish to renew their tickets, must give at least three clear days' notice in writing to the Chief Accountant, Kingston.

All expired season tickets must at once be sent to the Chief Accountant.

(k.) The Government reserves the right to refuse to issue a new ticket except upon production of the old one.

## SPECIAL TRAINS.

(a) On not less than 24 hours previous notice being given to the Director of the Railway, special trains may be provided on the following conditions:—

(b.) For a Single Journey.—Minimum 60 1st Class, or 120 2nd Class, ordinary fares. This entitles the number of passengers as above to travel. Any excess of passengers over 60 1st Class, or 120 2nd Class, must pay the ordinary fare.

(c.) For a Return Journey.—(1) If the return journey is commenced within 24 hours from the starting of the outward journey, the same minimum and rates as for a single journey plus 50 per cent.

(2) If the return journey is commenced after 24 hours from the time the outward journey was started, the rate will be double the charge for the single journey.

(d.) At night or on Sundays.—For Journeys made after 8 p.m. or before 6 a.m. or on Sundays, 25 per cent. additional will be charged. The additional 25 per cent. will be charged only on the proportion of the time occupied after 8 p.m. or before 6 a.m. or on Sundays, in making the journey, (delays on account of accident or unavoidable causes not charged for.)

(e.) Empty Miles.—The distance a train or engine has to run empty to commence a service will, in addition to the above, be charged for at 2s. 6d. per mile, subject to 25 per cent. additional for the proportion of the time after 8 p.m. or before 6 a.m. or on Sundays.

(f.) Detention.—The charge for a special train not starting at the time fixed or detained through no fault of the Railway beyond the time occupied in the running is 20s. per hour or part thereof.

(g.) Cancelling Order for a Special Train.—A charge of £3 will be made for a special train ordered and cancelled, and in addition any empty miles run in either direction in connection with the same as per paragraph (e.) unless sufficient notice is given of the change so as to prevent the Railway from incurring any expense thereby.

(h.) Minimum Charge.—The minimum charge for any special train run on week days between 6 a.m. and 8 p.m. for a single journey is £12 and for a return journey is £18 plus 25 per cent. additional as per paragraph (d.) for the night or on Sundays.

The minimum charge for the running of a special train must be lodged in advance when the train is ordered.

Special trains will be run only at the option of the Government.

The right is reserved to the Government to forward any of its ordinary traffic by any special train, but no reduction of the special train rates will be made on account of the train being so utilized.

(m.) Servants and waiters on special trains will be conveyed free of charge to the following extent: 1 to every 10 First Class or 1 to every 20 Second Class passengers.

(n) Special charges will be made for running special trains on Christmas Day and Good Friday.

(b) Any refund will be made only on the authority of the Director.

## LIVERY STABLES AND GARAGES.

The general charge for distances and where the hirer has the use of a buggy and horse for a period of twenty days is at the rate of 25/ per day. The hirer can arrange before

starting on his journey, either that the livery stable keeper shall include the cost of feeding the driver and horses in the charge of hire, or that he himself pay them as he goes along. The rate paid for the drivers' food is usually 2/6 a day, and the cost of feeding the horses varies according to the current price of corn and grass in the district visited.

The average price for hire of a motor car is usually one shilling and threepence per mile paying both ways for 5 seaters, and one shilling and sixpence per mile for 7 seaters.

## KINGSTON HACKNEY CARRIAGE.

*Regulations made on the 12th April, 1920, by the Mayor and Council of Kingston, under Section 3 of Law 36 of 1881, as amended by Law 12 of 1887.*

1. That Regulation 13 (1) and (2) of The Hackney Carriage Regulations made under the Authority of Law 36 of 1881 on the 6th August, 1888, be and the same is hereby repealed and the following Regulation substituted therefor:—

13. (1) No person shall drive any Hackney Carriage without first applying for and obtaining from the Council a Badge which shall be numbered and the number of which shall be registered together with the name and address of such person by the Clerk of the Council in the Hackney Carriage Register and a driver shall not lend or part with his badge to any other person.

(2) Such badge shall be of such material and design as the Council may by Resolution from time to time prescribe.

2. That Regulation No. 37 of The Hackney Carriage Regulations made under the authority of Law 36 of 1881 on the 6th August, 1888, be and the same is hereby repealed and the following Regulation substituted therefor :—

37. Every owner or driver of a Hackney Carriage plying for hire shall be entitled to demand and be paid for the hire of such carriage the rate or fare by distance or by time (as the case may be) prescribed by the following Tables, and in every case the hiring shall be by distance, unless the hirer expresses at the commencement of the hiring his desire to engage by time, in which case the hiring shall be by time.

*Table of Fares by distance, between the hours of 6 a.m. and 10 p.m.*

For every person conveyed in any Hackney Carriage between any two points in any one of the Districts set out below	6d.
For every person conveyed in any Hackney Carriage between any two points in the Districts aforesaid involving travelling in both Districts	9d.
For every half mile or part thereof beyond the boundaries of District No. 2, for every person carried	6d.
For every child above one year and under the age of 10 years, half of above rates.	
No charge shall be made for Infants under the age of one year.	

#### DISTRICTS.

*District No. 1.*—Shall be the area within the following boundaries :—

From the Kingston Harbour at the foot of Kingston Pen Road up that Road to its junction with the Spanish Town Road, then up the Spanish Town Road to its junction with North Street, then along North Street to its junction with South Camp Road, then down South Camp Road to its junction with Victoria Avenue then along Victoria Avenue to Higholborn Street, then down Higholborn Street to its junction with Laws Street, then along Laws Street to Fleet Street, then down Fleet Street to Tower Street, then along Tower Street to its junction with Charlotte Street, then down Charlotte Street to the Kingston Harbour.

*District No. 2.*—Shall be the area without District No. 1 and within the following boundaries :—

From the Kingston Harbour at the foot of Kingston Pen Road to the Spanish Town Road along the Spanish Town Road to North Street, along North Street to its junction with Bond Street; up Bond Street to Blount Street, then along Blount Street and Hospital Lane to Slipes Pen Road, down Slipes Pen Road into and along Drummond Street, up Orange Street as far as York Villa, and then by a line drawn Eastward along the Southern boundary of the Race Course, along Hannah Street and into Kingston Gardens, thence Eastwards along the remaining Northern and Eastern boundaries of Kingston Gardens into North Street, and along North Street to its junction with South Camp Road, and down South Camp Road to its junction with Victoria Avenue, and then Eastward along Victoria Avenue and the Windward Road to Paradise Street and down Paradise Street to the Kingston Harbour.

The limits of Boundaries of each district as defined above shall include the whole width of the said several roads and streets.

*Table of Fares by Time, between the hours of 6 a.m. and 10 p.m.*

For any time within and not exceeding half an hour, two shillings	2/.
For any time above half an hour and not exceeding one hour, four shillings	4/.
For every additional half an hour or part of an hour after the first hour, two shillings	2/.

If the hiring by time be within the area of either or both the Districts above defined, such fares by time shall be in full for the hire of the whole of such Hackney Carriage and the Driver shall be compelled to carry, if so required, the full number of persons the Hackney Carriage is authorised to carry. If the hiring be to a place or places without the area of the two Districts aforesaid, then the Driver shall be entitled to be paid for each person carried in addition to the first, one-half of the above fares.

No hackney carriage shall be permitted to ply for hire unless a legibly printed copy of the table of fares be conspicuously exhibited in such hackney carriage for the information of passengers.

Any driver may agree to drive for a lower fare than those fixed, in such case he shall not demand more than the fare agreed upon.

If a hackney carriage is hired by distance and in the course of the hiring the driver is at the request of the hirer made to wait (including waiting before starting) the driver shall be entitled to charge (in addition to what is due to him for distance) an extra payment of 3d. for each period of 10 minutes completed, whether in one stoppage or in several stoppages; but the driver shall not be entitled to receive any extra payment for waiting if such waiting has not exceeded in the whole 10 minutes. Provided, if the total fare by distance together with the extra payment of 3d. for stoppages for every 10 minutes, amounts to less than 1s. 6d. for half an hour then such driver shall be at liberty to make a total charge of 1s. 6d. for every half hour so completed.

Every owner or driver of a hackney carriage shall have a right to demand his fare of the person or persons employing him; on their entering his carriage, or ordering him to wait, or to drive further, and may refuse to convey any such person who does not comply with such demand and may require any constable to remove and expel from the carriage any person so refusing to pay his fare.

#### STANDS FOR HACKNEY CARRIAGES.

**LOCAL DEFENCE FORCES.****MILITIA HISTORY.**

THE Restoration in England in 1660 was followed by the substitution in Jamaica of a Civil Governor for the Military Officer, who up till that time had administered the affairs of the Colony. This was followed in 1662 by the conversion by Lord Windsor, the first Royalist Governor, of the greater part of the garrison into five regiments of Militia. This militia was composed exclusively of European residents in the island, and negroes were rigidly excluded. In "The State of Jamaica under Sir Thomas Lynch," which appears as preface to the first edition of "The Laws of Jamaica" published in London in 1684, occurs the following account:—

"The Militia in this Island is better Armed, and much better disciplined than in England and do much more duty, as waiting on the Governors, guarding forts, especially in Port Royal, where there are Ten Companies of about 200 in each, one of which watches every night. All the Militia is commanded by the Governor, as Captain-General, according to His Majesties powers and the Act of Militia. There's eight regiments in the eight provinces, and a troop of horse in every province that makes one regiment. At Port Royal is a Captain of the Castle (and three honorary Captains of Forts) and twelve gunners and Matrosses, all paid by the King, out of the Revenue arising in the Island; these lodge in the Castle and forts, and take a constant care of the guns, arms, ammunition, &c. In Port Royal is a castle and four forts, wherein are mounted 145 guns."

In the 18th and early 19th centuries the organization was more or less feudal and each estate was called upon to provide its quota for the militia. Towards the end of the 18th century, natives were admitted to the force and records show that its strength in 1783 was 6,793; and in 1792 it was 8,172 of which one quarter were natives. It was then organized as 3 regiments of horse and 14 of foot. In 1805 during the war with France, the militia rose to what appears to have been its maximum strength, 10,000 foot, and 1,000 horse. There were three regiments of horse, one in each county, and eighteen regiments of foot, one for each parish.

The Volunteer movement in England was reflected by the establishment of a small Volunteer Force in Jamaica. This rose to a strength of 84 officers, 583 other ranks, and 260 horse. They were, however, shortly afterwards disbanded, in 1906 the Kingston Light Horse alone remained in existence. After good service in the 1865 Rebellion, this also ceased to muster for parades and the volunteer movement died.

In 1879 a Militia Law was passed which was amended in 1887 and 1891. Under these laws, the Jamaica Militia Artillery and Jamaica Militia Infantry were raised. The latter was finally disbanded in 1906, in the belief that such a training school for citizens was superfluous in an age of established peace, and that in any case the people of the West Indies could not possibly be of any consequence in any imaginable war of the then future.

Some of the members of the Jamaica Militia Infantry formed themselves into the St. Andrew Rifle Corps, and this body was kept up at the expense of the public though never recognized as a military body by the Imperial Government, owing to their organization.

It was disbanded in August, 1914, and members of this Corps were re-embodyed as the Kingston Infantry Volunteers.

#### KINGSTON INFANTRY VOLUNTEERS.

Prior to the outbreak of the war there existed an unrecognized Volunteer Corps known as the St. Andrew Rifle Corps. This Corps, though not recognized as a military body, was partly supported by the Government, grants being made to it each year for training and for ammunition and transport. The majority of its members had been members of the former Kingston Infantry Militia.

On the outbreak of war, when it was found desirable to enroll the Corps as part of the new Volunteer Force, it was decided to disband the Corps and to re-enlist the men

in a Company of the Volunteer Force to be designated as "The Kingston Infantry Volunteers." The Commanding Officer of the Corps was accordingly authorized, under Warrant by the Governor, to enlist persons to serve as members of a Company of the Volunteer Force to be designated as the Kingston Infantry Volunteers. This was done and Commissions were issued to the Officers of the Corps.

The present Officers of the Kingston Infantry Volunteers, are:—

## RIO COBRE HOME.

*For the children of War Contingent men.*

In response to representations that the children of men who had joined the various war contingents were not being maintained, the Legislature voted the sum of £1,200. The Rio Cobre Hotel at Spanish Town was handed over in May, 1917, by the Government to be a temporary home for children of men who had enlisted. Mr. Frank Isaacs undertook the charge of the Home.

The benefits of home training have been extended to children other than those of B. W. I. R. men on payment of the cost of their maintenance.

Children of school age attend the Government Elementary School at Spanish Town, and the children assist generally in the domestic work of the institution and in keeping the grounds clean and tidy.

On 31st Dec, 1924, there were 66 children including 23 maintained by the Parochial Board of St. Catherine remaining in the Home of various ages from 5 years to 13 years of age. Suitable situations were found for those who had reached the age of 13 years.

### MISCELLANEOUS INFORMATION.

#### NATURALIZATION OF ALIENS, PASSPORTS, &c.

##### I. NATURALIZATION OF ALIENS.

By the 1st section of the Act 35 Charles. II., cap. 3, the Governor of Jamaica is empowered by instrument under the broad seal of the island, "to make an alien or aliens, foreigner or foreigners, being already settled in the island, or such as shall hereafter come to settle and plant in it, having first taken the oath of allegiance, to be, to all intents and purposes, fully and completely naturalized;" and the person so naturalized thenceforward has and enjoys for himself and his heirs "the same immunities and rights of, and unto, the laws and privileges of this island in as full and ample manner as any of His Majesty's natural born subjects have or enjoy within the same," or as if the person concerned had been born within any of His Majesty's realms or dominions.

The provisions of this Act have frequently been had recourse to, and this was especially the case in the years during which emigration to a large extent from Cuba and Hayti took place in consequence of the disturbances in those countries.

The procedure under this Act is as follows: A petition is presented to the Governor setting forth particulars of the individual desirous of naturalization, the fact of his having settled in the island or his intention to do so, as the case may be, and his willingness to take the oath of allegiance. To this petition should be affixed the signatures of at least two respectable citizens as a guarantee of the good character and *bona fides* of the petitioner. If after such further enquiry as may be deemed necessary the Governor should decide on granting letters of naturalization, a writ of *dedimus* is issued for the administration of the oath of allegiance to the applicant, and, when this writ is returned executed, the letters of naturalization are issued, and an intimation to that effect is published in the Jamaica Gazette by Authority. Letters of Naturalization are subject to a Stamp Duty of £2.

Naturalization under this Act confers no rights outside the limits of Jamaica.

Under the 6th section of the Act 14 Vic. cap. 40, any woman married to a natural born subject or person naturalized in Jamaica shall be deemed to be herself naturalized and to have all the rights and privileges of a natural born subject.

It has been held that the children of an alien who has been naturalized in the colony, born before their father's naturalization, do not become British subjects by the naturalization of their father, whether they are, or are not of age at the time of their father's naturalization.

Certificates of naturalization granted in Great Britain give the holders the rights and privileges of British subjects in the colonies except in those Dominions which do not adopt Part II, of the undermentioned set.

##### *The British Nationality and Status of Aliens Act 1914.*

The above Act now regulates the Naturalization of Aliens in the United Kingdom the following section gives the authority to the Government of any British Possession to grant Certificates of Naturalization to Aliens:—

8.—(1) The Government of any British Possession shall have the same power to grant a certificate of naturalization as the Secretary of State has under this Act, and the provisions of this Act as to the grant and revocation of such a certificate shall apply accordingly, with the substitution of the Government of the Possession for the Secretary of State, and the Possession for the United Kingdom, and also, in a Possession where any language is recognised as on an equality with the English language, with the substitution of the English language or that language for the English language.

Provided that, in any British Possession other than British India and a Dominion specified in the First Schedule to this Act, the powers of the Government of the Possession under this section shall be exercised by the Governor or a person acting under his authority, but shall be subject in each case to the approval of the Secretary of State, and any certificate proposed to be granted shall be submitted to him for his approval.

(2) Any certificate of naturalization granted under this section shall have the same effect as a certificate of naturalization granted by the Secretary of State under this Act.

An applicant for a certificate of Naturalization must satisfy the Governor.

(a) That he has resided in His Majesty's Dominions for not less than 5 years, in the following manner, that is to say, for one year immediately preceding the application in the colony and for a period of four years within the last eight years before the application either in the colony or in some other part of His Majesty's Dominions.

(b) That he is of good character and has an adequate knowledge of the English language and

(c) That he intends if his application is granted either to reside in His Majesty's Dominions or to serve under the Crown.

By Law 26 of 1922 persons landing or embarking at any place in the island are to be in possession of a valid Passport or Permit issued not more than two years previously; Any Alien coming to the Island must have Passport, or Permit vided by the British Consul or Vice-Consul in the Country from which he embarks.

## II. PASSPORTS.

The following Rules, governing the issue of Passports, were published in accordance with instructions from the Secretary of State, 14th August, 1915:—

1. Applications for Passports must be made to the Colonial Secretary in writing in the authorised form (A) in time to reach his Office at least two clear days before the passport is required. All applications must be accompanied by a small unmounted photograph in duplicate of the applicant.

2. Under Law 40 of 1903 Stamp Duty of 5/ is payable on all Passports, and this sum must accompany the application.

3. Passports are granted to:—

(a) Natural-born British subjects.

(b) Wives and widows of such persons.

(c) Persons naturalized in the United Kingdom, in the British Colonies, or in India  
A married woman is deemed to be a subject of the State of which her husband is for the time being a subject.

4. Passports are granted:—

(1) In the case of Natural-born British subjects, upon the production of a Declaration by the applicant in the authorised form (A) verified by a Declaration made by a Magistrate, Justice of the Peace, Minister of Religion, Collector of Taxes or Clerk of the Courts resident in the Colony. The Applicant's Certificate of Birth and other evidence may also be required.

(2) In the case of Naturalized British subjects, upon production of a Declaration by the applicant in the authorised form (A) accompanied by the original Letters of Naturalization granted to the Applicant, and verified by a Declaration made by a Magistrate, Justice of the Peace, Minister of Religion, Collector of Taxes or Clerk of the Courts.

(3) In the case of children under the age of 16 years requiring a separate Passport, upon the production of a Declaration made by the child's parent or guardian in a Form (B) to be obtained from the Colonial Secretary's Office.

5. No Passport will be issued to a Naturalized British Subject who has not been naturalized for upwards of one year, or to persons of Asiatic origin who desire to travel in the Republic of Costa Rica, the Government of that Republic refusing to permit the immigration of any such persons. There are also restrictions in the case of persons of Asiatic origin who desire to travel in the Republic of Panama.

6. Chinese, naturalized as British subjects, and the children of such Chinese, even if born within the British Dominions, are not entitled to protection in China, and a note to this effect will be made on Passports issued to such persons.

7. Naturalized British Subjects will be described as such in their Passports, which will be issued subject to the necessary qualifications.

8. Passports are not valid beyond two years from the date of issue. They may be renewed for four further periods of two years each, after which fresh Passports must be obtained. The fee for each renewal is 2/.

9. Applicants are required to call at the Colonial Secretariat to affix their signatures to their Passports. In special cases passports may be sent by post.

10. Passports cannot be issued to persons not resident in the Colony. Such persons should apply to the nearest British Mission or Consulate. Passports must not be sent out of the Island by Post.

Passports for foreign travel are issued by the Governor also to born British Subjects on application, and on payment of a Stamp Duty of five shillings.

Under the Emigrant Labourers Protection Law, 23 of 1902, as amended by Law 5 of 1905, a permit is required by all persons proceeding as passengers from the Island to places proclaimed under the former Law. The following sections relate to the granting of such permits:—

On application in writing by a person desiring to leave the island for a proclaimed place a permit shall be granted to such person or persons as the Governor may appoint for the purpose, or by the Inspector or other Chief Officer of Constabulary (hereinafter referred to as the Inspector) of the parish of Kingston, subject to the following rules:—

- (i.) If the applicant establishes to the satisfaction of any person appointed as above provided, or of the Inspector, that he is not a native of or domiciled in this Island or that he has already made such proclaimed place his temporary home, or is carrying on business there, or that, being a native of or domiciled in this Island, he is possessed of independent means sufficient to remove all risk of his having to be repatriated at any time at the cost of this Colony, or that he has deposited one Pound and five shillings in the Treasury to cover such risk, or that, if he has been recruited by a recruiting agent such agent has paid into the Treasury, the sum of one Pound and five shillings and entered into such agreement as is hereinafter mentioned, the permit shall be granted forthwith.
- (ii.) If an applicant for a permit who has deposited twenty-five shillings in the Treasury, is recruited by a recruiting agent who pays into the Treasury in respect of such recruit the sum of twenty-five shillings, as he is by this Law required to do, such recruit shall on application, have repaid to him personally or to his legal personal representative, the sum of twenty-five shillings deposited by him in the Treasury, and any permit granted to any such recruit by reason of the deposit by him in the Treasury of twenty-five shillings, shall on his being recruited as aforesaid, be void, and a new permit shall be obtained by him.
- (iii.) No person recruited by a duly registered recruiting agent shall receive a permit, unless a contract has been entered into between such person and the recruiting agent on behalf of his principal, and the form and substance of such contract has been approved by the Governor in Privy Council.
- (iv.) Any such contract shall, *inter alia*, provide:
  - (a.) That the agent or his principal may not at any time deduct from the wages of the Emigrant or otherwise obtain from him, re-payment of the sum of one pound five shillings or any part thereof, paid by the said recruiting Agent under the terms of this Law.
  - (b.) That the contract shall be cognizable before, and enforceable, in the Courts of this Island, or of the place of employment, at the option of the Emigrant, and
  - (c.) That no person shall be at liberty to contract himself out of the provisions of this Sub-section of this Law.
- (v.) Any such permit as aforesaid shall be in force for six weeks from the granting thereof, and no longer.

Section 1 of Law 5 of 1905 provides that—Passengers to any Proclaimed place shall leave the Island from the ports of Kingston, Montego Bay, or Port Antonio, and from no other port, unless the Government shall in any case otherwise permit.

Law 36 of 1919 places certain restrictions on Immigration and provide for the removal from the Island of prohibited Immigrants. It repeals Law 25 of 1905.

## LETTERS PATENT FOR INVENTIONS.

THE legal formalities in the matter of the application for and obtaining Letters Patent for Inventions are enacted in the Act 21 Vic., cap. 30, "The Patent Law Amendment Act, 1857," as amended by Law 15 of 1891. A brief outline, in general terms, of the course to be pursued in applying for Letters Patent is given below:—

The person desiring that Letters Patent for an invention should be granted to him should first forward to the Governor his formal petition in the form annexed to 21 Vic., cap. 30, accompanied by a declaration that he is the true inventor or discoverer of the thing for which he desires the Letters Patent, together with a description or specification with drawings where necessary, shewing in clear and exact terms the nature of the in-

vention. He should then publish for at least four weeks in the Jamaica Gazette and in one local newspaper a notice of his having made such application stating in general terms the nature of the invention in respect of which Letters Patent are sought. Copies of the Gazette and Newspaper containing this notice should be lodged in the office of the Colonial Secretary.

The Governor will then give his order for the reference of these papers to the Attorney General for examination, and if the Attorney-General is satisfied that the application for the Letters Patent may properly be granted he returns the papers to the Governor with a certificate to this effect; and if he sees reason for disallowing the application he gives a certificate embodying his reasons for this conclusion.

The applicant for Letters Patent is required to send up with his petition the sum of £3, which is sent to the Attorney General as his fee when the papers are referred to him by the Governor. Letters Patent are subject to stamp duties to the amount of £2 10s. and 5s. on a Power of Attorney, if necessary.

Letters Patent have effect for a period of 14 years from the time of being granted which may be extended by the Governor for a further term of seven years.

## SURVEYORS.

THE law now in force relating to land surveyors is Law 31 of 1894, amended by Law 20 of 1902, which repealed Law 33 of 1869, the previously existing statute on the subject.

The law provides for the infliction of a penalty not exceeding £50 on any person (a) who runs a boundary, or opens lines between two properties, the occupier of which do not both concur in engaging his services; or (b) describes himself, or holds himself out as a surveyor of land, or falsely takes or uses in the island any name, title or addition implying a qualification as a land surveyor.

Section 4 of the law provides that no person shall be qualified to receive a commission as a land surveyor unless he is at least 21 years of age and produces satisfactory evidence as to character, and either a corporate member of the Institute of Surveyors of England, or of the Institution of Civil Engineers of England; or has passed the Cambridge Junior Local Examination in Arithmetic, Grammar, Dictation, Geography, Algebra, Euclid, plane Geometry and plane Trigonometry; has subsequently to his passing such examination been bound by indenture to serve for three years as an apprentice to a commissioned surveyor of land; and, has after the expiration of such terms of service, duly passed the examination referred to in sections 9 and 10 of the law.

Law 20 of 1902 amended this section by the insertion after the words "Cambridge Junior Local Examination" the words "or other examination or examinations of at least equal standard approved by the Governor in Privy Council."

Law 20 of 1908 further amended Section 4 of Law 31 of 1894 by inserting between the words "England" and "or" in the third line of sub-section 1 the following words:—"or possesses some other qualification of at least equal standards, approved by the Governor in Privy Council."

The sections of the law quoted below are those of greatest general importance:—

9—Any apprentice who has duly served his full term of three years in conformity with the provisions of this law may apply by way of motion to the Supreme Court for an order to be examined under the provisions of this law; and it shall be lawful for the Supreme Court, on being furnished with satisfactory proof, that such person is at least twenty-one years of age and is of good character, and that he has duly served for three years under articles of apprenticeship duly executed and recorded, and has otherwise complied with the requirements of this Law, to make an order directing the Surveyor-General and a commissioned surveyor to be appointed by the Court to examine such person as to his qualifications to receive a commission as a surveyor of land.

10—Such examination shall embrace the theory and practice of land surveying and levelling, and the accurate and neat delineation to scale upon paper of the notes taken in the field, the practical use of the principal instruments used therein and their adjustments, and topographical drawing:—and if the result of such examination shall appear satisfactory to the examiners, they shall certify to the Supreme Court, or to one of the judges thereof, in chambers, if the said court is not sitting, that such person hath been found qualified, and the said court or judge shall thereupon cause an order to be entered up in the office of the registrar of the court authorizing such person to take out a commission to act as surveyor of land.

11—On presentation to the Governor of an attested copy of the said order or, in the case of a person apprenticed before the coming into operation of this law, of an order made under section 8 of Law 33 of 1869, the person named therein shall be entitled to receive a commission as a land surveyor, which commission shall be impressed with a stamp duty of thirty pounds in lieu of all other stamps and fees whatsoever, and shall be signed by the Governor, and shall be published in the "Jamaica Gazette;" Provided, that if the stamp duty of thirty pounds on articles of apprenticeship made and entered into before the coming into operation of this law shall have been already paid then such commission shall bear a stamp of one pound only.

13—Any commissioned surveyor who shall intentionally, or through negligence, carelessness, or culpable ignorance, make an incorrect survey, or deliver an incorrect plan of any land, shall be liable on the complaint of any person aggrieved thereby to have his commission as commissioned surveyor cancelled by order of a Judge of the Supreme Court, or to be temporarily suspended from the exercise of his office as a surveyor during such time as may be fixed by a Judge of the Supreme Court, or to incur a penalty not exceeding fifty pounds, and such surveyor shall further be required to repay any sums of money that he may have received from the complainant in consideration of such survey or plan, if it be so ordered by such judge.

The following is the scale of fees which surveyors are entitled to charge under the law:—

Traversing road, per chain	£0 0 2
Traversing gullies and river courses, per chain	0 0 6
Traversing or running lines for the purpose of defining boundaries, per chain	0 1 6
Laying out a single lot not exceeding 5 sqr. chains, including diagram	0 16 0

## PETROLEUM, CALCIUM CARBIDE, GUNPOWDER AND EXPLOSIVES.

RULES regarding Petroleum, Calcium Carbide, Gunpowder and Explosives are given in the "Handbook of Jamaica" for 1925.

## BIRDS AND FISH PROTECTION.

*Birds*—The indiscriminate destruction of fish in the rivers and streams of the island by the use of explosives and of poisonous and intoxicating herbs (of which latter there is great variety in Jamaica, and which are easily accessible to any one who wishes to make use of them), and the wholesale destruction of wild birds of all kinds in and out of season which prevailed, rendered a law for the protection of birds and fish absolutely necessary, Law 32 of 1885 was therefore passed by the Legislature.

In this law certain birds which were being rapidly exterminated on account of the value of their plumage, as well as others that are specially useful to agriculture as insect destroyers, are now absolutely protected, while certain edible birds, fishes and creatures have now a close season provided, during which it is unlawful to kill them.

The protected birds are divided into two classes: those named in the one class are protected all the year round and those named in the other class are protected during certain months only.

A general Consolidating Law, 33 of 1914, repealed, previous legislation on this subject and enacted under Section 2 of the Law, Schedule I, the following:—

Sec. 2—(1) Any person who shall kill, wound or take, any bird or the eggs of any bird specified in the first Schedule to this Law, or who shall have in his possession any such bird killed, wounded or taken, or the eggs of any such bird taken, after the passing of this Law, or any part thereof, shall be guilty of an offence against this Law.

## FIRST SCHEDULE (Section 2 as amended).

Red-tailed Buzzard, (*Buteo Borealis*); American Merlin, (*Falco Columbarius*); Large Potoo, (*Nyctibius Jamaicensis*); Jabbering Crow, (*Corvus Jamaicensis*); Tinkling Grackle, (*Quiscalus crassirostris*). Sec. 3—(1) There shall be a close season for each of the birds, fishes and creatures, enumerated in the second Schedule to this Law. Such season shall, until another shall be provided in lieu thereof in manner hereafter provided, be the period set opposite in the said Schedule to the name of each such bird, fish or creature.

## SECOND SCHEDULE (Section 3) as amended.

## CLOSE SEASON.

Ground Doves or Groo-groo-doo—1st March to 15th August.

Coots—1st March to 25th July.

Peadoves—1st March to 11th August.

Whitewings or Lapwings—1st March to 11th August.

Baldpates—1st March to 11th August save in the parishes of St. Elizabeth, Westmoreland and Hanover, where the close season shall be from 1st March to 31st July.

Blue Pigeons—1st March to 25th July, save in the parish of St. Elizabeth where the close season shall be from 1st March to 15th July.

Ringtail Pigeons—1st March to 25th July.

Whitebelly—1st March to 31st August.

Petcharies—1st March to 31st August.

Wild Guinea-fowls—1st March to 30th September.

Quail—1st March to 30th September

Parrakeets—1st March to 11th August.

Yellow-bellied Parrots—1st March to 11th August.

Sea Turtle—1st April to 31st October.

Oysters—1st May to 21st August.

Sub-section 2 of Section 3 gives power to the Governor to alter and amend the close season, thus prescribed, as may be advisable.

*Fish*—The laws referred to extend to fishes. The object is to prevent the indiscriminate destruction of fishes in the waters of Jamaica and its dependencies. The licenses under section 14 of Law 32 of 1885 are, under Law 38 of 1888, extended to all fresh water fish.

No fish can be taken in any river or stream between the 1st June and the 1st October, and any pot, net or engine used in any river or stream during that period may be destroyed by any person. In July, 1899, the Governor acting under Law 16 of 1889 declared that the provisions of Sec. 6 of Law 32 of 1885, should cease to apply so far as the Cabarita River in Westmoreland and the adjoining morass are concerned, to Mudfish, Blackfish, Godamies and Eels. It is unlawful to use at any time any method of poisoning, stupefying, or intoxicating fish, or to destroy fish by explosion of dynamite or other explosive substance, in any harbour, bay, creek, pond, river or stream, or to make use of any seine, net, pot, or engine for catching fish with meshes or spaces of less than 1½ inches between knot and knot, or bar and bar. In any harbour or bay (but not in any river or stream) a cast or shrimp net not above 2½ fathoms long and not joined to any other net may be used. Land turtle are not protected.

Every offence against the Laws (32 of 1885 and 4 of 1887) is punishable on summary conviction with a fine not exceeding five pounds.

*Mammals.* On the 5th July, 1920, the Governor under section 3 of Law 33 of 1914 declared that Coneys should be included in the Second Schedule to the Law and that the close season for Coneys shall be from the 1st January to the 31st December in each year.

### THE BLUE MOUNTAIN PEAK.

THE Blue Mountain Peak—an altitude of 7,388 feet at the highest point—was at one time a somewhat arduous undertaking as there was no riding road to the summit, and the ascent had to be made on foot by a very steep and ill-defined track. Through the generosity of Governor Sir Henry Norman, and a few gentlemen having property in the district, a riding road to the Peak was constructed, and the ascent can now be made, in good weather, on horseback or on foot.

Two days suffice for the trip. The first part of the journey, a distance of nine miles to Gordon Town, can be made by buggy; but the electric cars to Papine, will take the visitor to within a short distance of Gordon Town, and vehicles are obtainable thence to Gordon Town, where riding ponies can be procured. Buggies *must* be ordered in advance from Bolton's stables, Gordon Town, or his Duke Street Office. There is a small hut erected for the shelter of those who desire to spend the night on the Peak to witness the sunrise. Extensive views of the south, north and eastern coasts of the island may be obtained on a clear day—and the coast of Cuba is sometimes visible to the north.

Information as to this trip may be obtained from the Jamaica Tourist Association, 85 Barry Street, Kingston.

### THE MORANT CAYS AND PEDRO CAYS.

ABOUT the year 1825 some Jamaica planters in St. Thomas-in-the-East planted cocoanut trees on these cays for the use of shipwrecked sailors.

The Morant Cays and the Pedro Cays were taken possession of on behalf of the British Crown in the years 1862 and 1863, respectively, and it was at first intended that they should be annexed to Jamaica. It was, however, subsequently decided not to annex these cays to any colony but to give the Governor of Jamaica power to "deal with"

all guano islands or cays within the West Indian naval station which were not already dependencies of any British Colony and which were, or might be, declared to be subject to British Sovereignty. Accordingly letters patent were issued in June, 1864, authorising the Governor of Jamaica to grant leases of and licenses to take guano from such islands. Leases have under this authority from time to time been granted by the Governor of Jamaica to different persons.

In 1882 complaints were made by Jamaicans who were then gathering guano that they had been subjected to outrages by an American vessel. Accordingly on the 12th October of that year Commander the Hon. W. J. Ward, acting on the instruction of Commodore Dunlop, formally took possession of the Island for the British Crown.

The original intention was later carried out, and by letters patent under the Great Seal of the United Kingdom these Cays were formally annexed to the Colony of Jamaica, so as to give the Governor, Courts of Law and Magistrates full jurisdiction over them, and the then Governor, Sir Anthony Musgrave, on the 9th of May, 1882, under the authority of those Letters Patent, issued a Proclamation declaring that the date of annexation should be the 1st of June, 1882. For judicial purposes these cays form part of the parish of Kingston.

The Morant Cays are situated about 33 miles to the southeast of Morant Point, Jamaica, and consist of three small islets. The sea birds arrive at these cays in great numbers during March, and in April the islets are covered with their eggs, which are collected and conveyed in schooners to Jamaica; later in the summer, turtle are caught but the supply is becoming scarcer every year.

The Pedro Cays are situated some 40 or 50 miles to the S.W. of Portland Point on the south coast of Jamaica and consist of four Cays or islets, known, respectively, as North-east, Middle, South-west and South Cays. Temporary huts have been erected on these cays and coconut trees have been planted on the N.E. and S.W. Cays.

The Morant Cays and the Pedro Cays are leased to the Jacob's Commercial and Shipping Agency, Kingston.

### PLAGUE, CHOLERA AND YELLOW FEVER.

INSTRUCTIONS to Captains of vessels particularly when there is no doctor on board to enable them to carry out the provisions of the International Sanitary Convention signed at Paris on 3rd December, 1903, with respect to Plague, Cholera and Yellow Fever, are given in the Handbook for 1925.

### ELECTION INFORMATION.

THE duty of registering the persons entitled to vote at elections for Members of the Legislative Council and of the Parochial Boards (including the City Council of Kingston) is discharged by the Collectors of Taxes of the several parishes.

The lists are revised and settled in March and April of each year at Courts held for the purpose by the Resident Magistrates who are the "Revising Judges."

Under Her Majesty's Orders in Council, of 3rd October, 1895, each parish of the island now of itself constitutes an electoral district having the right to elect a member to the Legislative Council.

Returning Officers for Legislative Council elections are appointed by the Governor under Section 2 of Law 21 of 1884, and for Parochial General Elections under Section 12 of Law 17 of 1901. At Bye-elections for the Parochial Board the Returning Officer is appointed by the Chairman of the Board.

CONCILIATION BOARD.

IN 1918 the Governor appointed a Conciliation Board to enquire into each case in which an employer and labourers or workmen were unable to settle their differences.

When the Governor is satisfied that a dispute cannot be settled amicably, the following procedure will be followed:—

(a) The Colonial Secretary will send to each party, i.e., the employer, and also to a representative of the labourers or workmen a complete list of the persons composing the Conciliation Board:

(b) Having received this list, each party will select therefrom eight names and, in addition, will send the Colonial Secretary a written list setting forth the eight names.

Then the Governor will select (from the Conciliation Board) a Sub-Committee to investigate and to settle the particular dispute. Usually, this Sub-Committee will be composed of a Chairman and four other persons; all to be members of the Conciliation Board; two from the list which has been submitted by the employer; and two from the list which has been submitted by the representative of the labourers or workmen.

## 1. MEASURE OF LENGTH.

12	Inches	=	1 Foot
3	Feet	=	1 Yard
5½	Yards	=	1 Rod or Pole
40	Poles	=	1 Furlong
8	Furlongs	=	1 Mile
69 1/510	Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but sub-divisions are used for many purposes. Among mechanics the inch is commonly divided into *eights*. By the officers of the revenue and by scientific persons it is divided into *tenths*, *hundredths*, &c.

## Particular Measures of Length.

A Nail	=	2½ Inches	} Used for measuring cloth of all kinds.
Quarter	=	4 Nails	
Yard	=	4 Quarters	
Ell	=	5 Quarters	
Hand	=	4 Inches	} Used for height of horses.
Fathom	=	6 Feet	
Link	=	7 In. 92 hdths	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Chain	=	100 Links or 66 ft.	

## 2. MEASURE OF SURFACE.

144	Sq. Inches	=	1 Sq. Foot
9	Sq. Feet	=	1 Sq. Yard
30½	Sq. yards	=	1 Perch or rod
40	Perches	=	1 Rood
4	Roods	=	1 Acre
640	Acres	=	1 Sq. Mile

## 3. MEASURE OF SOLIDITY AND CAPACITY.

## DIVISION I.—SOLIDITY.

1,728	Cubic Inches	=	1 Cubic Foot.
27	Cubic Feet	=	1 Cubic Yard.

## DIVISION II.—CAPACITY.

4	Gills	=	1 Pint	=	34½	cub. ins.	nearly
2	Pints	=	1 Quart	=	69½	—	—
4	Qrts.	=	1 Gallon	=	277½	—	—
2	Galls.	=	1 Peck	=	554½	—	—
8	Galls.	=	1 Bushel	=	2218 1-5	—	—
8	Bush.	=	1 Quarter	=	10½	cub. ft.	nearly
4	Qrs.	=	1 Load	=	51½	—	—

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—

For Beer, the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Galls. Flour is sold nominally by measure but actually by weight reckoned at 7lbs. avoirdupois to a gallon.

## 4. MEASURE OF WEIGHT.

## DIVISION I.—AVOIRDUPOIS WEIGHT.

27½	Grains	=	1 Drachm	=	27½	gr.
16	Drachms	=	1 Ounce	=	437½	—
16	Ounces	=	1 Pound (lb.)	=	7000	—
28	Pounds	=	1 Quarter (qr.)			
4	Quarters	=	1 Hundredweight (cwt.)			
20	Cwt.	=	Ton			

This weight is used in almost all commercial transactions and in the common dealings of life.

The particular weights belonging to this Division are as follows:—cwt. qr lb.

14	Pounds	=	1 Stone	=	0	0	14	} Used in the
2	Stone	=	1 Tod	=	0	1	0	
6½	Tod	=	1 Wey	=	1	2	14	} Wool
2	Wey	=	1 Sack	=	3	1	0	
12	Sacks	=	1 Last	=	39	0	0	Trade

## DIVISION II.—TROY WEIGHT.

24	Grains	=	1 Pennyweight	=	24	gr.
20	Pennyweights	=	1 Ounce	=	480	—
12	Ounces	=	1 Pound	=	5760	—

These are the denominations of *Troy* Weights when used for weighing gold, silver, and precious stones, except diamonds. But *Troy* Weight is also used by Apothecaries in compounding medicines, and by them the ounce is divided into 8 drams, and the dram into 3 scruples, so that the scruple is equal to 20 grains.

For scientific purposes the grain only is used; and sets of weights are constructed in decimal progression from 100,000 grains downwards to 1.100th of a grain.

The *carat*, used for weighing diamonds, is 3½ grains. The term, however when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts; thus the standard for coin is 22 carat fine, that is, it consists of 22 parts of pure gold and 2 parts of alloy.

## 5. ANGULAR MEASURE.

## MEASURES.

*Length.*

[The Metric unit of linear measure is the METRE = 39.3708 inches. It is the 10 millionth part of the arc of the meridian from the equator to the pole.]

Millimètre	= 1000th of a metre ..	= .03937 inches
Centimètre	= 100th " ..	= .39371 "
Décimètre	= 10th " ..	= 3.93708 "
METRE	..	= 39.3708 = 3.2809 ft.
Décamètre	= 10 metres ..	= 32.809 ft. = 10.9363 yds.
Hectomètre	= 100 " ..	= 328.09 ft. = 109.363 yds.
Kilomètre	= 1000 " ..	= 1093 63 yds. = .62138 miles
Myriamètre	= 10000 " ..	= 10936.33 yds. = 6.21382 miles

NOTE 1.—Since the fraction of  $\frac{1}{5}$  is equal to the decimal .625, the Metric kilomètre differs but little from the  $\frac{1}{5}$ ths of an English mile; the difference being .625— .62138 = 100362, which is less than the 4-1000th, or the 1-250th of a mile; so that by estimating a kilomètre at  $\frac{1}{5}$ ths of an English mile, we make an error in excess, of less than one mile in 250 miles. For the ordinary purposes of comparison therefore we may regard 8 kilomètres as equal to five miles; so that the distance between any two places, expressed in kilomètres, may be converted into English miles, near enough for general itinerarv objects, by multiplying the number of kilomètres by 5, and then dividing the product by 8; as in the instance in the margin, where we see that 40 kilometres make 25 miles.

*Surface.*

[The Metric unit of superficial measure is the *ARE* = 119.603 sq. yds. It is the square of 10 mètres; that is, of a *décamètre*.]

Centiare = 100th of an <i>are</i>	= 1 square mètre	= 1.196 sq. yds.
<i>ARE</i> .. ..	.. ..	= 119.603 "
Decare = 10 ares	.. ..	= .2471 acres
Hectare = 100 ares	.. ..	= 2.471 "

*Capacity.*

[The Metric unit of capacity is the *LITRE* = 61.02705 cubic inches. It is the cube of one-tenth of a mètre, that is, of a *décimètre*.]

Millitre = 1000th of a litre	= 1 cubic centrimètre	= .06103 cub. in.

Hectolitre = 100 litres	.. ..	= 3.53166 cub. ft. = 22.0097 gal.
Kilolitre = 1000 " = a cub. metre	.. ..	= 35.31658 " = 220.0967 "
Myrialitre = 10000 " ..	.. ..	= 353.1658 " = 2200.9667 "

In the measurement of *solids*, a cubic metre is called a *stère*, a 10th part of which is a *Décistère*, and 10 *stères* is a *Décastère*.

It will be seen, from the preceding Tables of Weights and Measures, that the *Mètre*,—the unit of *length*, is an element entering into even the system of *weights*, as well as into linear, superficial, solid, and quantitative measurements. It is on this account that this system of weights and measures is called the *METRIC SYSTEM*: it is at the same time a *Decimal* system; because, proceeding from the fundamental unit, the ascending gradations are uniformly at a tenfold rate, and the descending gradations are uniformly by *tenths*.

## PARISH GENERAL RATES AND ROAD RATES.

THE following Parish General Rates and Parish Road Rates on every ten pounds (£10) or fractional part of ten pounds (£10) of the value of rateable property were fixed in respect of the following parishes for the financial year, beginning on the 1st April, 1926, viz.:—

## DEPENDENCIES OF JAMAICA.

## TURKS AND CAICOS ISLANDS.

THE following account is abstracted from the Official Report for 1924:—

**GEOGRAPHICAL.**—The Turks and Caicos Islands lie between 21° and 22° N. latitude and 71° and 72° 50' W. longitude, at the south-east end of the Bahama Islands, and just below the tropic of Cancer. They lie about 90 miles to the north of the Dominican Republic, about 720 miles to the south of Bermuda, and about 450 miles to the north-east of Jamaica.

They consist of two groups of islands, separated by a deep-water channel about 22 miles wide known as the Turks Island passage. The Turks Island lie to the east of the passage and the Caicos Islands to the west. The area of these islands is estimated to be about 166 square miles, but, as no thorough survey of the group has ever been made, this figure may be below the mark.

The Turks Islands consist of two inhabited islands, Grand Turk and Salt Cay, four uninhabited islands or cays, and a large number of islets and rocks. These islands derived their name from a species of cactus found there by the early settlers, the scarlet head of which was said to resemble a Turkish fez.

The Caicos Islands, which lie to the west of the channel, surround the Caicos Bank, a triangular shoal 58 miles long on its northern side and 56 miles long on its eastern and western sides, respectively. The northern and eastern sides of the bank are bounded by a chain of islands, separated from each other by narrow passages or channels.

**HISTORICAL.**—The Turks and Caicos Islands were discovered in 1512 by Juan Ponce de Leon while on a voyage from Puerto Rico. These islands remained uninhabited, probably on account of the sterility of the soil and the scanty rainfall, until the year 1678, when a party of Bermudians arrived and established the salt raking industry. From that date onwards parties of Bermudians used to resort annually to the Turks Islands to rake salt, arriving about the month of March and returning to Bermuda about November when the salt raking season was over. Several attempts were made by the Spaniards and the French to obtain possession of the islands. In the year 1766 the King was pleased to appoint an agent, Mr. Andrew Symmer, "to reside there and by his residence on the spot to insure the right of the island to His Majesty." By an Order in Council in 1781 regulations were approved for the management of the salinas (salt ponds) and for the preservation of order in general amongst the inhabitants. In 1790 Colonel Alexander Murray arrived as the agent of the Crown, and in 1799 an act was passed by the Bahama Legislature which placed the Turks and Caicos Islands under the Bahama Government, and so they remained until 1848 when, in answer to a petition from the inhabitants, the Queen granted a separate charter to the "Turks Island and the Islands and Cays commonly known as the Caicos Islands." Under this charter the islands had an elective Legislative Council and a President administering the government, but this system was found burdensome in the altered circumstances caused by the fall in the price of salt, and in 1873, a petition was presented to the Queen praying for the abrogation of the charter. The islands were then annexed to Jamaica and still remain one of its dependencies. Under this new arrangement the government is administered by a Commissioner as chief executive officer, who is also President of the Legislative Board and Judge of the Supreme Court.

**CONSTITUTION.**—The Legislature consists of a Legislative Board comprising the Commissioner as President, two official members, and three unofficial members nominated by the Crown. The Governor of Jamaica has a supervising power over the local government and his assent to the ordinances of the Legislative Board is necessary. Laws passed by the Legislative Council of Jamaica which are in express terms made applicable to the Turks and Caicos Islands take effect there. The Supreme Court of Judicature of Jamaica has jurisdiction in matrimonial and divorce causes and has been constituted a Court of Appeal from the Supreme Court of the Dependency.

**CLIMATE.**—Although the islands are within the tropics the climate is not unhealthy. The severe heat in the hot months is tempered by the constant sea breezes. The temperature ranges from 60° minimum to 93° maximum. The average rainfall in the year 1923, from observations taken at eight stations throughout the islands, was 25.10 inches. The maximum precipitation was recorded at Cockburn Harbour, South Caicos, measuring 29.00 inches, and the minimum at Salt Cay, registering 14.81 inches. The average annual rainfall during the five years 1919-1923 amounted to 23.72 inches.

**Grand Turk.**—Grand Turk is situated on the eastern side of the Turks Island passage, and is approximately 7 miles long and  $1\frac{1}{2}$  miles wide. It is the capital, and the Commissioner resides there. The island has a population of about 1,568, of whom about four-fifths are of African descent. The only settlement is Cockburn Town, on the western side of the island, where almost the entire population live. The town contains the various public offices and the prison; several stores, a market, a public library and reading room, four churches (two Anglican, one Wesleyan, and one Baptist), and Masonic and other society lodges. There is a local public telephone system connecting the public offices, business places and private residences. Vessels lie at anchor about 500 yards from the shore, and cargoes are conveyed between ship and shore by lighters. There is a lighthouse at the north-east end of the island. The elevation of the light is 108 feet above sea-level. This light can be seen 15 miles off in clear weather. There is a range of low hills running almost the entire length of the island on the eastern side, the greatest elevation being about 75 feet. The island is covered with low, scrubby vegetation, with stunted, hardy trees scattered here and there. The principal industry in Grand Turk is the production and export of salt, for which there is a good demand in the United States and Canada for meat packing and fish curing purposes. The salt ponds cover about 230 acres. 448,151 bushels of salt, valued at £10,317 were exported from Grand Turk in 1924. There are four salt crushing mills on the island. There are no automobiles, and horse-drawn carriages are still used as conveyances. Cricket and football are played under the management of the Athletic Club, and tennis is played on hard courts throughout the year.

**Salt Cay.**—Salt Cay, which lies about 7 miles to the south-west of Grand Turk, is the only other inhabited island of the Turks Islands group. The area is about 4 square miles. The population, about 370, depend almost entirely on the salt ponds, 120 acres in extent, for their living. In the year 1924, 437,256 bushels of salt, valued at £6,728 were exported from this island.

**South Caicos.**—This island is situated at the south-east end of the Caicos Island and it is the only island of that group in which the salt industry is carried on. The area is about 8 square miles and the salt ponds (including reservoirs) cover about 400 acres. The quantity of salt exported from this island in 1924, amounted to 489,031 bushels, valued at £8,585. The population of South Caicos was about 630. The Government is represented by a District Commissioner, who resides at Cockburn Harbour (also known as East Harbour).

**East Caicos.**—This island, the north-eastern of the group, was formerly devoted to the cultivation of sisal and the production of fibre. The industry was abandoned in 1919, and the island is now uninhabited.

**Middle Caicos.**—Separated by a narrow passage from East Caicos lies Middle Caicos or, as it is sometimes called, Grand Caicos. This island, the largest of the Caicos group, is 25 miles long and 12 miles wide. On it are situated the villages of Lorimers, Bombard and Conch Bar, with a total population of 796. The inhabitants are engaged in agriculture including cotton growing.

**North Caicos.**—To the north-west of Middle Caicos lies North Caicos, an island about 12 miles long, with fertile soil. The principal settlements are Kew and Bottle Creek. The population of this island is about 1,400, mostly engaged in agriculture and fishing.

**Parrot Cay, Dellis Cay, and Others.**—Lying to the west of North Caicos are several small cays, the principal ones being Parrot Cay and Dellis Cay. A small quantity of cotton is produced at Parrot Cay.

**Providenciales or Blue Hills.**—Continuing the chain of islands, which in the form of a semicircle encloses the eastern and western sides of the Caicos Bank, and to the westward of the islands just mentioned, is the island of Providenciales, or Blue Hills, one of the largest of the Caicos group. This island is 17 miles long by 12 miles wide, and contains a population of about 730. On this island sponge fishing is carried on.

**West Caicos.**—West Caicos, also known as Belle Isle, is situated about 12 miles to the south-west of Providenciales. This island is about 8 miles long and 2 miles wide. A large amount of money was spent in an attempt to develop the resources of this island, which attempt was abandoned, and the island is now uninhabited.

**Vital Statistics.**—The estimated population of the Dependency at the end of 1924 was 5,400.

The white population, numbering about 200, is composed almost entirely of the descendants of the Bermudians. During the year 1924, 178 births were registered, giving a birth-rate of 31.4 per 1,000. During the same period 123 deaths were recorded, the death-rate being 21.9 per 1,000: 43 marriages were registered.

*Imports and Exports.*—The value of the imports during the year 1924 amounted to £43,253. The value of the goods imported from the United Kingdom was £4,282; from British Dominions, £3,230; and from foreign countries, £35,741, including £31,814, the value of imports from the United States. The imports consisted mainly of general merchandise, including food, drink and clothing. The customs import duties amounted to £3,945.

The exports were valued at £31,495. Shipments to the United Kingdom were valued at £131: to British Dominions £13,160, and to foreign countries £18,204. The value of the exports to Canada was £11,176 and to the United States, £15,179. The bulk of the exports consisted of salt (coarse and fishery). £29,674 was the value of the produce of the Dependency exported in 1924 and £821 the value of the re-exports.

*Finance.*—The currency consisted of British gold and silver coins and currency notes issued by the local Government, but gold coins were scarce and seldom seen. The Government paper currency in circulation amounted to £1,800; the notes being of the following denominations: five shillings, ten shillings, and one pound. The Government Savings Bank had 943 accounts open, with £16,932 on deposit, at the end of the year. The investments amounted to £16,231. There were no private banks doing business in the Dependency.

*Trade.*—In the year 1924 there was a balance of trade against the Dependency of £11,758, that is, the value of the imports exceeded the value of the exports by that amount. The following table shows the value of the principal items of domestic produce exported during the last three years:—

	1922.	1923.	1924.
	£	£	£
Salt .. ..	36,621	30,271	25,630

Cotton and Cotton Seed	1,700	641	904
Sisal .. ..	946	2,168	169
Turtle Shell .. ..	166	486	50

*Education.*—The sum of £815 was granted in 1924 to the Board of Education for the maintenance of the primary schools throughout the Dependency. There were ten Government elementary schools supported in this manner. The number of scholars whose names were enrolled was 777 and the average attendance was 567. The salaries of the teachers amounted to £624.

The Secondary School at Grand Turk received a grant from the Government of £150. The average attendance at this school was 30.

During the year 1924, a Centre for the Cambridge University Local Examinations was established at Grand Turk and the first examinations were held in December with satisfactory results.

*Communication.*—Mails to and from the United Kingdom and other parts of the world were and despatched received via New York about four times a month by the steamers of the Clyde and Columbus lines. There is occasional communication with Jamaica by the Elders and Fyffes Line.

The Government radio-telephone service enabled messages to be transmitted between Grand Turk, Salt Cay, Cockburn Harbour and passing ships.

The cable of the Direct West India Cable Co. Ltd., between Halifax and Bermuda and Jamaica touches at Grand Turk and connects the Dependency with other telegraphic systems of the world. The company supplies a News Bulletin daily, for which the Government pays a yearly subsidy of £120. In 1924, a new submarine telegraph cable was laid between Barbados and Grand Turk.

performs the duties of Collector-General and Treasurer, and presides in the Grand Court, where when sitting alone, he has the powers of three Justices of the Peace. The Assembly of Justices and Vestry consists of the Commissioner as President, twenty-two Justices named in a General Commission of the Peace, and twenty-seven elected Vestrymen representing the several districts. Five Justices and eight Vestrymen form a quorum. There is an appeal from the Grand Court of the Cayman Islands to the Supreme Court of Judicature of Jamaica; and this Court has exclusive jurisdiction in matters of divorce.

*Geological Survey*.—In 1924, Dr. C. A. Matley, D.Sc., Government Geologist of Jamaica, visited the Dependency for the purpose of studying its geology. Apart from its scientific interest, the geology of the islands was one of local speculation, for in the previous year an oil-pro prospector, impressed by the conformation of the land in its relation with the surrounding ocean floor, had visited the islands and shown some activity in securing prospecting and boring rights over large areas of land. Dr. Matley describes the islands as being the only projecting peaks of the submarine Cayman Ridge which extends from the Sierra Maestra Range of Cuba to the Misteriosa Bank in the direction of Honduras. with the exposed surfaces composed of a fairly hard semi-crystalline massive white limestone, a part of the white limestone formation of Jamaica, forming the central and more elevated portion of each island, and a younger calcareous formation, an outer and lower coastal platform, made up of reef-building corals, mollusca, corals sand and marl with a hard crust due to cementation by carbonate of lime.

*Emigration and Immigration*.—Emigration of others than the sea-faring population has increased to the Central American Republics, but the total is inconsiderable and the absence temporary. There is no immigration other than the return of natives after varying terms of absence.

*Public Health and Sanitation*.—The staple food of the people consists of cassava, yams sweet potatoes and bread-fruit, all locally grown, and the ordinary wheat and corn products by way of imports. These constitute an almost entirely starchy diet which induces mild digestive disorders.

*Vital Statistics*.—There were 139 births in 1924 (26 per thousand) and 55 deaths (10 per thousand). The population is estimated at 5,365 or one hundred more than in 1923.

*Imports and Exports*.—The imports for the year are below the average of totals for the previous five years. The value of imports (£51,416) is reducible by £6,427 of spirits imported and immediately exported, making the normal imports £44,989, as compared with normal imports of £43,030 in 1923 and an average of normal imports £47,477 in the previous five years. The export figures are also reducible by the same amount (£6,427) to the normal of £9,890, which do not compare favourably with the average normal exports (£14,095) of the previous half decade.

*Trade, Agriculture and Industry*.—There was an ordinary catch of 2,500 green turtle of merchantable size, but the price obtained (thirty shillings each) was not remunerative. The fishermen would appear to have been tied to a single market, Key West, in Florida. The pursuit of the hawks-bill turtle for the tortoise-shell of commerce was more profitable, 3,419 lbs being secured and disposed of in Jamaica at an average price of £1 7s. 9d. per pound.

The export of thatch-palm rope was the lowest in ten years, yielding only £640, as compared with an average of £1,873 in previous three years. The export of spirits, bonded for the purpose in 1923 and early 1924, which contributed to local trade and substantially to Customs Revenue, has stopped.

The following are the Imports and Exports:—

Year.	Imports.	Exports.
	£	£
1922 .. ..	36,541	13,650
Average of 5 years ..	55,890	23,145
1924 .. ..	51,416	16,317

It may be said that the Islands depend, for an equation of purchases and sales, more largely on an "export" of brains and energy than on the shipment to the outside world of the material articles of agriculture and handicraft.

Two cattle dips were continued in operation throughout the year with most satisfactory results in reducing the tick pest.

*Shipping*.—Georgetown is a Port of Registry, having on its register 50 small sailing vessels and 9 small steam and motor driven craft, with a total tonnage of 3,843 tons. Five vessels with a total tonnage of 157 were built in 1924.

Three small British steamships (total tonnage 742) called at the Islands in 1924.

*Banking Facilities.*—There are no branches of banks in the Dependency. Remittances are made from abroad by drafts on American banks or branches of banks established in Jamaica, which are cashed in the shops and serve as remittances in payment for imports.

*Education.*—Nine Government primary schools were in operation throughout 1924. These, with nine private schools, had 1,033 pupils enrolled and an average daily attendance of 855. The total expenditure in the Government schools was £1,484. There are no aided schools and no secondary schools.

*Meteorological.*—The rainfall amounted to 71.50 inches in the Georgetown or western district of Grand Cayman. The heaviest precipitations were 16.24 inches in October and 14.39 inches in September. No rain fell in April. The other parts of Grand Cayman and the Islands of Cayman Brac and Little Cayman suffered by reason of light rainfalls. The air temperature ranges from 70 to 80 degrees Fahrenheit in the cooler months, and 10 degrees higher in summer. The nightly calms and the excessive dampness accentuate the heat of summer. No tropical cyclones visited the group in the year under review.

*Communications.*—All intercourse with the neighbouring islands, the coasts of Central America and the Gulf ports of the United States is maintained by trading schooners, some of which have motor engines as an auxiliary, and by the occasional larger vessel, steamship, cruiser or yacht. There is no community of interest between Grand Cayman and the other Islands of the Dependency, and communication with the latter is usually made through Jamaica. Roads suitable for vehicular traffic connect the more important settlements, and from these branch a system of bridle paths.

*Postal and Telephone Services.*—Foreign mails are received through Jamaica and the Isle of Pines, Cuba; and all outgoing vessels to whatever port directed are the bearers of mails.

OBITUARY FOR THE YEAR, 1925.

THOMAS McWHINNIE ABRAHAMs was born in 1842. At an early age he went to live in Upper Clarendon and he was identified with that district throughout his long life. He engaged in both commerce and agriculture, and did much to open up the Frankfield

district. He served as a volunteer in the rebellion of 1865. He was made a J.P. in 1874, and he was elected a member of the first Parochial Board of Clarendon in 1885 and served on it for many years. He died in New York on the 20th of September.

AUGUSTA ZELIA FRASER, eldest daughter of W. F. Webb, the big game hunter and friend of David Livingstone, of Newstead Abbey, Nottinghamshire, the home of Byron, married Affleck Fraser. In 1892, she accompanied her husband to Jamaica where he was Surveyor General and Inspector of the Railway, and as a result she wrote under the *nomme de guerre* of "Alice Spinner,"—"A Study in Colour" (1894), "Lucilla" (1895) and "A Reluctant Evangelist" (1896). She died at Newstead Abbey, on December 11th.

DR. EDMUND LANGLEY HUNT was born in 1868 at Adare, County Limerick, Ireland. He was educated at Kingsley College, studied medicine and graduated as L.R.C.S. and L.R.C.P. of Ireland, and in addition, obtained the certificate of the London School of Tropical Medicine. From 1899 to 1902 he served as civil surgeon with the South African Field Force. He was twice mentioned in despatches and obtained two medals and six clasps. He was employed on the Anglo-German Boundary Commission to Lake Chad and received the thanks of the German Government and the Royal Order of the Crown of Prussia (3rd class). In 1902, he was made a C.M.G. He was appointed to the West African Medical Service in 1905 and received the thanks of the Secretary of State for the Colonies for his services in connection with an outbreak of plague at Accra in 1908. In 1912, he was appointed inspecting medical officer in Ceylon and a year later assistant principal medical officer of that colony.

In 1920 he took up the duties of Superintending Medical Officer in Jamaica. He went home on sick leave in 1925 and died in London on the 30th of September. During part of his service in Jamaica he sat as a Nominated Member in the Legislative Council.

ISAAC ROWLAND LATREILLE was born in London on the 2nd of December, 1849 and was educated at St. Paul's School, being a chorister in St. Paul's Cathedral. He came to Jamaica in 1868 and for some time worked on an estate in Vere. He entered the service of the Church of England in Jamaica in 1891 and became Chief Accountant a post which he held until his death on the 31st of August. He also held various appointments in the Church.

## APPENDIX.

### I. RECENT GEOLOGICAL WORK IN JAMAICA.

By DR. C. A. MATLEY.

Abstracted from the "Annual Report of the British Association for the advancement of Science, Toronto Meeting (1974)."

THE paper gives a preliminary account of the scientific results obtained in the course of geological investigations of an economic character, chiefly in connection with water-supply, in various parts of Jamaica. The author was assisted in the later stages of the work by Mr. G. M. Stockley, A.R.C.S., A.I.C., F.G.S., and he is indebted to Dr. T. W. Vaughan and Dr. W. P. Woodring, of the U.S. Geological Survey, for the examination of some of the foraminifera and mollusca of the White Limestone.

The field work confirms in its main outlines the mapping of the formations by Sawkins and his colleagues as shown on their map of 1865, with the exception of the unfortunate mistake, afterwards corrected by Prof. Hill, of correlating with the Yellow Limestone certain strata in the east of the island which are newer than the White Limestone. Several other corrections introduced by Hill in his revision of Sawkins's map (1889) are, however not accepted. The strata are capable of greater sub-division than has been previously recognised or attempted, the sub-divisions of the older rocks being chiefly lithological, and of the newer rocks chiefly palaeontological.

The *Metamorphosed Series* of Sawkins, as Hill has pointed out, is not a stratigraphical series. In the mountainous country to the north-east of Kingston it is a folded complex of rocks, of which the dominant member is a great mass, apparently not less than 1,000 feet thick, of pale buff or grey porphyry, with phenocrysts of hornblende and felspar and sometimes of quartz, which was intruded as a laccolite or sill before, or at an early stage of the folding. It has already been traced over a belt of country, with a N.W.-S.E. trend, fifteen miles long by five miles wide. Its platy or flaggy structure caused Sawkins to regard it as an altered sandstone. The associated rocks belong mostly to Sawkins's Conglomerate Group, and are composed mainly of epiclastic igneous material, but they also contain some calcareous flags and a thick limestone (Good Hope or Halberstadt Limestone). An interesting volcanic episode has been discovered in the strata below the Good Hope limestone, where there are two or more flows of highly vesicular pillow-lava and some tuffs. The outcrops of the lavas have been found brought up by folding over an area nine miles in length. Also associated with the purple conglomerate group are gypsaceous beds. The gypsum was considered by Sawkins to be of secondary origin, and to have been formed by the action of sulphuric acid on the local limestones. But the discovery of pseudomorphs of rock-salt crystals among these deposits and the presence of salt springs indicate that the gypsum and rock-salt were precipitated by concentration of the water of a salt lake or marine lagoon. These minerals and their association with unfossiliferous purple and red rocks remind one of the Triassic rocks of England, and suggest that somewhat similar conditions once existed in Jamaica. The age of these deposits is probably early Eocene, though possibly Cretaceous.

Hitherto no rocks earlier than Cretaceous have been recognised in Jamaica except as pebbles in Cretaceous and Tertiary strata. Hornblende granite or diorite has, however, been found to underlie conglomerates made up largely of its debris, the conglomerates being certainly not newer than early Eocene; this plutonic rock probably formed part of the Cretaceous floor. Good crystalline schists (hornblende-schists and quartz-sericite-schists) and marble have also been found among unaltered strata in the basin of the River Yallahs. These and the serpentines which occurred in the same area all appear to be of pre-Mesozoic age, like the similar rocks in Cuba, but their field relations have not been fully studied.

An effort has been made to zone the Tertiary limestones by means of their foraminifera. The Yellow Limestone, recently proved by Trechmann to be of Middle Eocene age, contains beds full of *Operculina* with a few minute *Dictyoconi*, occasional beds of *Alveolina*, and others of a large *Orthophragmina*. The overlying White Limestone ranges from Upper Eocene to Upper Oligocene, the foraminiferal succession in ascending order being

as follows: *Alveolina* and *Dictyoconus*; *Dicoctyconus* without *Alveolina*; small lenticular *Lepidocyclines*; large *Lepidocyclines* (zone of *Lepidocyclina* cf. *gigas* and *L. undosa*) *Sorites*. The *Sorites*-zone forms the Santa Cruz Mountains of St. Elizabeth and large tracts of Manchester. The flint-bearing, chalky, and globigerinal "Montpelier Formation" of Hill lies below the *Lepidocyclina undosa* zone, but its type of sedimentation is missing from the succession in many parts of the island and it seems to be a deep-water facies of the White Limestone that passes laterally into shallower-water mollusca-bearing beds. Hill's "Moneague Formation" certainly includes the *L. undosa* zone, but its upper limit was not defined by that writer. Above the Moneague Formation he placed his "Cobre Formation" as the highest division of the White Limestone, but the type section in the Cobre gorge contains an abundance of *Dictyoconus* and an absence of *Sorites*, an indication that the strata lie below the *L. undosa* zone and below the Moneague beds. The base of the White Limestone is of variable horizon, sometimes passing up conformably from the Yellow Limestone, sometimes over-lapping on to older rocks against the shores of a subsiding land.

An account is given of the igneous rocks. The latest intrusions appear to be of Upper Eocene age. The Low Layton 'Extinct Volcano,' possibly of Oligocene age, was found to contain many 'pillows' of highly vesicular lava, the pillows being sometimes truncated, and the vesicles being usually arranged inside the pillows in well-defined concentric zones.

## II. A RECONNAISSANCE GEOLOGICAL SURVEY OF THE CAYMAN ISLANDS, BRITISH WEST INDIES.

BY DR. C. A. MATLEY.

Abstracted from the "Annual Report of the British Association for the advancement of Science, Toronto Meeting (1924)."

The Cayman Islands, a dependency of Jamaica, consist of the two smaller islands of Cayman Brac and Little Cayman and a larger island, about sixty miles from the Lesser Caymans, known as Grand Cayman. They are the only projecting peaks of the submarine Cayman Ridge that extend from the Sierra Maestra range of Cuba to the Misteriosa Bank in the direction of British Honduras. Cayman Brac rises to 130 or 140 feet above the sea at its eastern end, but the other islands do not exceed 50 or 60 feet. The submarine slopes round the individual islands are steep. Within eighteen miles of the shores of Grand Cayman a depth of over 20,000 feet is attained (Bartlett Deep).

The geology of the group has hitherto been practically unknown. The present survey has shown that each island contains limestones of two different ages, an older limestone (*Bluff Limestone*) closely resembling the white limestone of Jamaica, and forming an inner and more elevated platform, and a younger calcareous formation (*Ironshore Formation*) forming an outer and lower coastal platform, the seaward edge of which is covered in many parts by modern shore deposits of coral-sand and coral-shingle thrown up by winds, storms, and hurricanes. Out at sea are coral reefs that surround the islands of Grand Cayman and Little Cayman almost completely, and occur to a lesser extent around Cayman Brac.

The *Bluff Limestone* is a massive white recrystallised limestone, with its fossils so poorly preserved as casts that usually they cannot be determined specifically. Among them occur mollusca (chiefly gasteropods), reef-building corals, millipores and foraminifera. At the Bluff of Cayman Brac is a bed full of large *Lepidocyclines* which have a close resemblance to those of the zone of *Lepidocyclina gigas* and *L. undosa* found in the middle beds of the white limestone of Jamaica, and occurring also in Antigua, Mexico, and other parts of the Caribbean area. The *Bluff Limestone* of Cayman Brac is therefore regarded as of Middle Oligocene age, while that of the other Cayman Islands seems from the few identifiable fossils collected, to be of somewhat later age, probably Miocene. Terrigenous material is absent from this limestone, and deposition in a clear sea of no great depth is indicated.

The *Ironshore Formation* of consolidated coral-sand, marl and limestone represents the latest accretion to the area of the islands by a change in the relative level of sea and land. It forms a low rocky shore, known locally as 'iron-shore,' and rises inland to a height of 12 to 15 feet above the sea, where it is generally backed by raised marine cliffs of the *Bluff Limestone*, which retain their verticality and freshness and show under-cutting at their

base by ancient wave-action. This coastal formation contains many well-preserved reef-building corals and numerous mollusca like those living round the islands at the present day. It is of Recent, or possibly of Pleistocene, age. A similar terrace, at about the same elevation, similarly backed by vertical cliffs of White Limestone, occurs on the north coast of Jamaica.

Residual brown and red earths have been formed from the limestones of both ages, as in Jamaica, by the solution of their carbonate of lime. Deposits of phosphatised earth and limestone occur sporadically, and presumably were produced by the contamination of the rocks by the excreta of sea-birds. They are no longer worked commercially.

The Cayman Islands may have existed as islands since Miocene times. The character and fauna of the Bluff Limestone show that we have in the three islands three fragments of the thick and widespread White Limestone formation that extends over more than half of Jamaica on the south-east and over large areas in Cuba on the north, though now separated from both those countries by profound depressions of the sea floor. As the Bluff Limestone was deposited in a sea of moderate depth, and as the highest point in the Caymanas is only 140 feet above sea-level, the elevation necessary to form the islands was of modest dimensions when compared with the great depressions north and south of the Cayman Ridge. The elevatory forces seem to have acted almost vertically, as no folding has been observed, but there is a slight axial tilt in Cayman Brac. Aerial denudation has had time since elevation took place to convert the surface of this upper platform into a matured 'karst' country, now thickly forested. The latest important change of level was that which added the coastal platform to the islands in Recent or Pleistocene times. As similar low terraces are found in Jamaica, Cuba, and other parts of the Caribbean region, the change of level seems to have been widespread, involving more than one tectonic unit, and may therefore have been due more to a fall in sea-level than to earth movement. Around the shores a shallow submarine platform extends about as far as the 10 fathom contour, beyond which the depth increases rapidly, and on this platform the modern coral reefs grow.

The author has received palaeontological assistance from Dr. T. W. Vaughan.

### III.—THE PRESERVATION OF BOOKS IN THE TROPICS.

The following notes on the preserving of books in the tropics are based on an experience extending over thirty-five years in a public library and also in a small private library.

The worst enemies of books in the tropics are insects and damp. The former consist of wood-ants, bookworms, fish-moths and cockroaches.

Of these woodants may attack a library and bookshelves, but in Jamaica it is a much neglected library where they attack books; although in India and other places in the Tropics, they form a serious menace to Librarians. Of the enemies of books in Jamaica the worst are probably the bookworms. They chiefly attack books where the covers join the backs, and will sometimes bore horizontally through two or three volumes.

The books to be preserved may be divided into two classes; those in which one has the control of the method of binding and those in which one has not. In the former case it is well that the paste used in the binding should be poisoned with the following preparation:

Dissolve five grams of corrosive sublimate (mercuric chloride) and sixty drops of wood creosote in two pints of rectified spirit (or methylated spirit). To this add one ounce of carbolic acid.

This has been used for books bound for the Institute of Jamaica for upwards of thirty-six years.

When used on books already bound, the solution should be applied to the books, especially where the cover joins the body, and two or three times at the back in the middle of the book. The books should then be spread open to dry. It is well to avoid getting the mixture on the hands, if there are any cuts or abrasions. A long-handled brush should be used. This solution if properly prepared and applied will act as a preventative for many years on insect pests of all kinds; but books attacked by bookworms or books on a shelf where bookworms are evident, should be fumigated as soon as possible with carbon bisulphide. The following is the method recommended by the Director of Agriculture:—

The books are placed in an air-tight box of wood or metal. The books should be made to stand upright, each book being slightly opened so as to allow the gas to penetrate

freely between the leaves and binding. The lid of the box should be so designed that it will form a gas-tight joint when placed on the box. This might be achieved by having a lining of felt between the lid and top of the box and some arrangement for clamping the lid to the box. In the absence of such an arrangement, weights, e.g. heavy stones, should be put on the lid after it has been closed.

After the books have been arranged in the box as indicated above, the carbon bisulphide should be placed in a saucer or other receptacle at the rate of one ounce for every 50 cubic feet of space. The vessel with the carbon bisulphide should be placed on the top of the books as the vapour is heavier than air and will sink to the bottom of the box in time. The lid of the box should be closed as soon as the carbon bisulphide has been introduced and the box should remain closed for from 24 to 36 hours. After this period the box should be opened and the books may be removed and put in their proper places.

Care should be taken to prevent any flame or light from coming near to the carbon bisulphide during the process of fumigation, as the substance is very inflammable.

With regard to cockroaches, which will often eat off the surface of a cloth-bound book in a single night, the varnishing with shellac varnish has been found efficacious. It has only been in use in the Institute of Jamaica for a short time; but it has been used with complete success in the library of the Agricultural Department for five years. The solution to be used consists of gum shellac dissolved in rectified spirits or methylated spirits, sufficient spirit being used to secure a thin varnish. This is readily applied with a brush. It is well to apply two or even three coats.

Fish-moths are sometimes found in books but it is doubtful if they do any great harm.

Generally speaking bookworms breed most readily in the dark, and books should never be kept in dark cupboards. In fact books generally should have as much light and air as it is possible to give them. Glass door cases serve to keep out the dust but they also keep in the damp after heavy rains. At such times it is necessary to give books a good sunning, and if need be to wipe off any mould formed on the covers. Books on shelves should be inspected for book-worms at least once a quarter. Book cases should be made preferably of mahogany with cedar shelves—never of white pine. Naphthaline balls placed at the back of the shelves of a closed book-case are helpful.

Insects seem to be partial to particular forms of binding. Cockroaches do not as a rule attack morocco or calf, but are very partial to cloths of bright colours, and they especially attack newly-bound books, chiefly because of the sweetness of the paste.

In the Public Library, the books are fumigated daily against infection, in an air tight cabinet, at the bottom of which a tumbler is placed in a saucer of water, and to the tumbler is added a dessert spoonful of permanganate of potash upon which a table spoonful of formalin is poured: the cabinet is then firmly shut and remains shut for sixteen hours; care being taken to have no light near when the door is opened; but this method of disinfection is not necessary in a private library.

After this memorandum had been written, the articles by Sir Arthur Shipley, G.B.E., entitled "Enemies of Books," appeared in the October and November numbers of "Tropical Agriculture", and to these the reader is referred for fuller scientific information.

# DODGE BROTHERS MOTOR CAR

Dodge Brothers Motor Car is almost invariably selected by those who rely on motor car transport to carry them over bad roads in comfort.

The simplicity of its power plant design, and the superior strength and quality of the alloy steels used in vital parts, give assurance that, with a minimum of attention, it can be relied upon to go wherever there is traction.

JOHN CROOK,  
DEALER,

KINGSTON.

# BOLTON'S MOTOR SERVICE,

AND TRANSPORT DÉPOT.

GARAGE AND OFFICE:—**34 Duke Street, Kingston.**

TRANSPORT STABLES:—**Arnold Road** (Near Up Park Camp.)

BRANCH:—**Gordon Town** (at the foot of the Hills, 9 miles from Kingston)

Transport Contractor to H.M. War Department.

Motor Mail Contractor to the Government of Jamaica.

**LARGEST and most RELIABLE CAR SUPPLY in Jamaica.**

Trips arranged to the BLUE MOUNTAIN PEAK by specially trained mountain ponies.

Be sure to see the Proprietor before arranging any trips. His 30 years' experience may be of some service to you.

**HAROLD E. BOLTON, Proprietor.**
